Commodity-wise Domestic, International Prices and Arrivals at Different Centers

Highlights Domestic:

- **At domestic front pulses prices have eased considerably and Agriwatch expects** market to stay steady at scurrent level except Chana and Peas.Tur arrival has begun and pressure might be felt by the end of this month.Chana from Australia would continue to reach Indian ports and it will affect prevailing price of Chana in Indian market.Sowing pace is good and weather remains favorable so far.The major problem is at retail demand front where cash crunch is affecting normal trading activities in mandis. Overall tone in pulses market remains weak.
- **Around 307 containers of pulses import was recorded at Nhava Sheva port on 09.12.2016.** Out of total containers around 75 % is Chickpeas from Australia and Russia.Besides,86 containers of Pigeon Pea have been imported from Mozambique and Malawi. Lentils form Canada share remains 10 containers. Green moong too has been imported in small quantity (3 containers) from Australia. Urad from Myanmar share was recorded at 10 containers. Import flow would continue as over 1 MMT pulses import is due in December.
- **Pulses Rabi sowing has crossed 80% of normal area of 140.67lakh ha so far** and is running ahead by 13.13 % to 99.83 lakh ha from last year as on 02.12.2016. Chana, the main Rabi pulses, area coverage has been registered at 76.69 lakh ha, higher by 11.84 percent from last year till date. Its normal area is88.37 lakh ha. Weather remains favorable and sowing is expected to be over by mid December. Chana area may exceed normal as prices continue to rule higher. Higher MSP of Rs 4000 per qtl., including bonus, has encouraged farmers to grow more Chana this year.
- **Out of total Rabi coverage under pulses Lentils is running ahead by 32.12 %** from9.37lakh ha(last year till 2nd Dec-2015) to 12.38 lakh ha,Peas up by53.03 % from 5.52 to 8.48 lakh ha and Litherus by 12.62 % from 3.01 to 3.39 lakh ha.However,Urad,Moong and Kulthi lags behind by 2.86,15.38 and 16.96 percent from last year during the same period .These pulses area has been registered at 3.73,1.54 and 2.79 lakh ha. respectively against 3.84,1.82 & 3.36 lakh ha. As sowing of Moong would continue in January too, normal area might be covered.Urad may lag behind marginally due to shifting of Urad area to other pulses and spices.
- **Tur lemon in Mumbai is being traded at Rs 5450/5500 per qtl.Steady to slightly** weak tone may prevail in coming days as pressure is building up from import flow.. Urad quote too decreased from Rs 7500 toRs 7200/7300 per qtl. and may continue to trade down. Chana is being traded at Rs 8800 per qtl.1st vessel quotes were in the range of Rs 8500 to Rs 8600 per qtl. Tanzania and Etheopia quotes were seen at Rs8800 and Rs 8000 per qtl. Downward pressure continues as large volume of import is expected in Dec. Chana price may continue to dip. Matar Canada is being traded at Rs2311/21 while Masur is being quoted at Rs 4800/4850 per qtl in Mumbai. Overall, sentiment in pulses market remains weak.
- **India imported 283426 tonne pulses during 21st to 26th Nov-2016, higher by 16.14 %** from previous week .It had imported 244024 tonne pulses during week ended 20th Nov-2016. The highest quantity was of yellow peas out of total import during the week. India imported 193883 tonne yellow peas, 32699 tonne Tur , 7043 tonne Urad and 11358 tonne Chana. during this period. Besides, 32206 T Lentils has been imported. The rest were other pulses including kidney beans.
- **The second major Rabi pulses is Lentils and its planting too is running smooth.** Out of normal area of 14.79 lakh ha. farmers have covered 12.38 lakh ha so far. It is 32.12 percent higher from last year till date (02nd Dec). M.P, Uttar Pradesh and Bihar are major producers of Lentils. Despite demonetization, farmers are engaged to finish planting in time as prices rules higher, weather remains favorable and govt would procure Lentils if prices crash below MSP of Rs 3925 per qtl. in the season. Pressure on price continues due to higher area and import flow.
- **Peas planting too have increased considerably this year. Out of 8.45 lakh ha of normal area** farmers have planted 9.51 lakh ha so far, higher by 53.08 from last year till date. Given the pace of ongoing planting area of peas may cross normal this year. The new crop would start hitting the market from Jan end and it would continue to build up pressure on price. Experts say that peas price may dip below Rs 2000 in the season. Currently, pea is being imported in highest volume from Ukraine ,Canada and US.
- **Despite better progressive sowing status of Rabi season, Urad lags behind** from last year by 2.86 percent to 3.73 lakh ha so far. Its normal Rabi area is 7.68 lakh ha. Farmers had planted 3.84 lakh ha last year till 02nd Dec.. The reason behind lower area under Urad is farmer's preference to other short duration crops in Rabi season. They have preferred to grow more spices and Chana this season. However, total coverage by the end of sowing season may reach near 7 lakh ha.

International:

- **As per the latest survey data issued(6th Dec) by Statistics Canada hints** record pea and Lentils production in 2016-17. The agency have pegged 4.8 MMT pea production, higher by 1 MMT from record of 2013. Similarly Lentils crop has been pegged at 3.2 MMT against 2.5 MMT produced last year. Traders see these figures as per their previous expectation. Number 2 Laird lentils are currently topping out at about 63 cents per pound in Western Canada, while red lentils are bid up to 32.5 cents per pound. Large calibre (10mm) kabuli chickpeas are currently seeing prices top out at 65 cents per pound.
- **Laird 1 Lentils in Western Canada continued to inched up to 66 cents per pound**, almost 5 cents up from a fortnight ago. Light Kidney beans dropped a little bit and its average bid comes to 43.5 cents per pound. Despite bad weather farmers in Australia expects 2 T per ha yield this year. The main problems for them were ascochyta blight and water-logging issues. Delayed harvesting would delay shipment and New Indian crop would hit the market by end Feb. This means they have two and a half months to ship their crop at higher prevailing price. India would not buy Chana from March. It is clear due to bumper production prospect this year. For Australia it would be very difficult to ship maximum marketable surplus in two months. So pressure on global domestic Chick peas market looms large.
- **Australia is exporting lentils to India at \$680/85 per tonne while Canada is offering lentils at \$750 per tonne.** Cheaper supply from Australia has put pressure on Canadian lentils quote. According to the Prairie Ag Hotwire, 1 Red Lentils in Western Canada decreased by one cent per pound last week. Bids ranged from 27 cents per pound at the lows to 34 cents at the highs. Green pea is being offered in the range of C\$7.50 to as high as C\$9.00 per bushel in Western Canada. Pressure would continue as supply side has eased and buyers are in bargaining seat now.
- **Despite current uptrend Lentils price in Canada is unlikely to move north way in coming weeks.** Currently it is being traded at 66 cents (CND) per pound. Laird 1 lentils are being quoted in the range of 61 to 66 cents per pound. Kabuli Chana is being traded at 64 to 65 cents per pound. In Indian market there is a pressure on Lentils and Chana markets it may trade lower due to lower demand in local markets. Consumers are turning to green vegetables.
- **Chickpeas import from US In India is increasing fast. India imported 20607 MT Chickpeas in Sept and Volume is expected to be higher in Oct.** Data is awaited. Surprisingly, it is 73 % of total Chickpeas export from US in a month. Turkey and Spain brought the rest volume. The reason behind higher import from US is said to be crop loss around 70 % in Canada due to wet condition.
- **Lentils import volume from US too increased to 19326 T, around 30.9 % of total lentil export in a month.** India imported 74526 tonne dry peas from US too, 75.4 % of total dry peas export in a month. India imported 1.14 lakh tonne pulses from US out of total export of 1.9 lakh tonne. Higher import volume is likely to continue as prices in India still rules higher despite decreased price.
- **Pulses prices in Canada have moved up in recent weeks. Lentils local quotes for Number 2 Laird varieties** are currently hovering in the range of 48 to 61 cents per pound in Western Canada. Green pea prices range from C\$7.50 to as high as C\$9.00 per bushel.
- **Farmers in Australia have been taking advantage of higher chickpea price.** Drought affected crop and tight supply side have temporarily lent support to chickpea price from AU\$800 per tonne to AU\$1,000 per tonne. However, firmness would not sustain in the medium term once Indian crop starts hitting the market in Feb this year.
- **This year production of Lentils in US is up by 136 % to 5.64 lakh tonne** due higher planted area that increased by 90 % to 9.35 lakh acres. Actual harvesting has been reported 9.17 lakh acres. States like Montana, North Dakota, and the United States have recorded record area. Average yield is expected to be 1,356 pounds per acre, up 248 pounds from 2015.
- **According to the latest update by market viewers in Australia, Lentil crop in some parts of western Australia** has been affected by severe outbreaks of botrytis grey mould. Experts say that South Australia and Victoria alone have planted 2.5 lakh ha Lentil this year and out of this 50 % is said to be affected by this botrytis grey mould. Quality and yield is expected to be affected badly and it would reduce the final size of the crop.
- **As per the latest ABARE update chickpeas production in Australia may increase** to 12.34 lakh tonne in 2016-17. The production estimate for 2015-16 was 10.13 lakh tonne. Higher price of chana encouraged farmers to grow more chana and the trend may continue if prices continue to rule at higher level. Area under chickpeas is forecast to increase from 6.61 to 8.22 lakh ha in 2016-17. Lentil production too may move up from 2.58 to 3.65 lakh tonne for the same period.
- **According to the latest report, Canada Pea Production estimate** for 2016-17 is expected to increase by around 28 percent to 4.1 MMT. Canada is expected to produce 3.2 MMT in 2015-16. Due to higher production, exports are forecasted to reach 4.23 MMT in 2016-17 from 3.90 MMT in 2015-16. Farmers' bids are likely to decrease from \$360/390 to \$300-330 per tonne due to expectation of larger stock in Canada and increased world supply.

Weekly Outlook: -Pulses prices are likely to stay steady to slightly weak,

AGRIWATCH Agri Commodity Indices – 4th Dec, 2016

According to Agriwatch Commodity Indices, Pulses Index decreases to 213.91 (+2.05%) on w-o-w basis.

Agriwatch has recently launched its AW Agri Commodity Indices to enable organizations access independent Indices to track and use to benchmark their purchases and sales. The Indices are based on the daily prices in the key benchmark markets for each commodity that AW has been covering for the past decade. The indices include an Aggregate Index, Category Indices and individual commodity indices. The weekly indices are free to access on our website www.agriwatch.com. The daily indices are available on subscription. Please contact for more details.

Pulses-Wise Scenario

Chana

Market Recap:

Chana prices noticed firm momentum during the week under review..

Current Scenario:

Firm momentum was seen in the beginning of review week due to higher quotes of imported Chana and normal demand. Besides, delayed shipment too has lent support to cash market fundamentals. However, retail buyers are away from markets as money crunch is affecting normal trade. Chana price may stay steady in the short term. Imported Chana would continue to reach Indian ports from Australia, Russia and Canada. Chana price traded in the range was Rs.8600-10000 per quintal in Delhi market. Imported chana at Mumbai is being offered at Rs 6150/6200 per qtl. for end December delivery. Following graph illustrates the chana price movement in different markets:

TURKEY	Nov 21-26,2016		49				49

Market Outlook: Prices are likely to notice steady to weak movement in the coming days.

Pigeon Pea (Tur/Toor)

Market Recap:

During review week, Desi Tur and imported Tur noticed range bound to weak movement.

Current Market Dynamics & Outlook:

Imported Tur prices noticed weak movement during the week under review. Overall outlook remains weak as new crop from UP and Karnataka is expected to hit market soon. Besides, forward deals at lower price would continue to pressurize market in coming weeks. Weak tone is likely to continue as supply side is expected to ease.

Red Tur At Mumbai (Rs /Qtl.)

Market Outlook: Tur prices are likely to show steady to weak movement.

Black Matpe (Urad)
Market Recap:

During the period, imported and desi urad prices noticed range bound to slightly weak movement due to restricted demand at higher level and overall weak tone in pulses market. As supply side is lower than the normal demand so major dip from current level is unlikely.

Current Market Dynamics & Outlook:

Urad FAQ at Mumbai (Rs.7000/Qtl.) and Chennai (Rs.6844/Qtl.) noticed range bound to weak movement. At Vijayawada prices showed weak movement. The following graph shows the prices movement in different markets:-

Urad Polished at Vijaywada
