Commodity-wise Domestic, International Prices and Arrivals at Different Centers

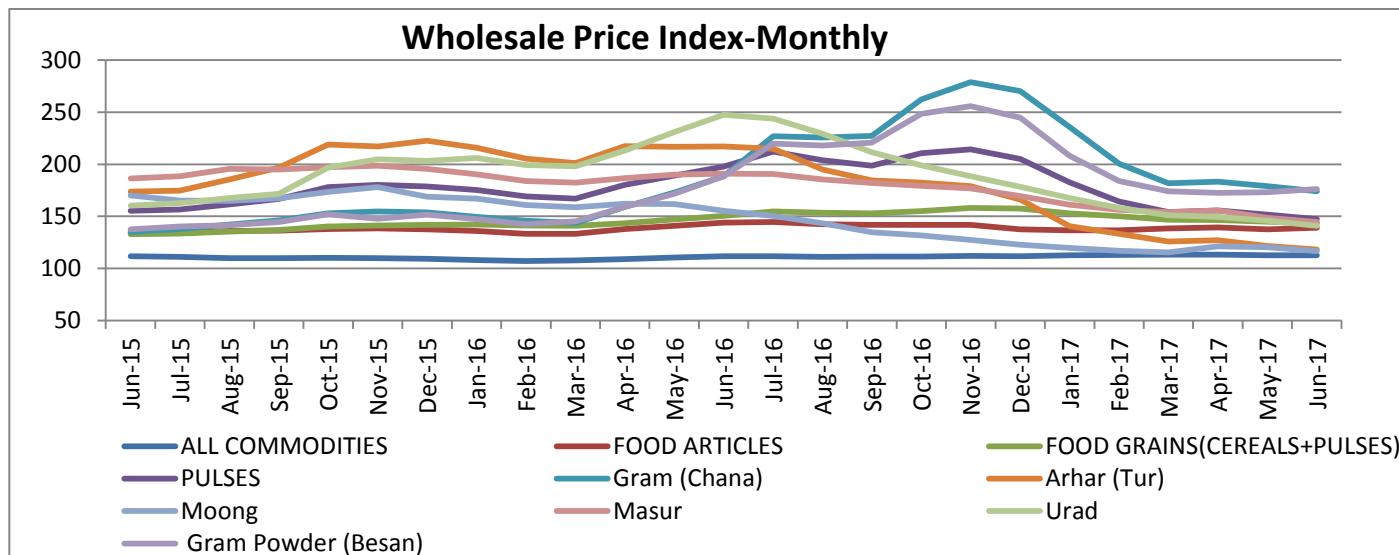

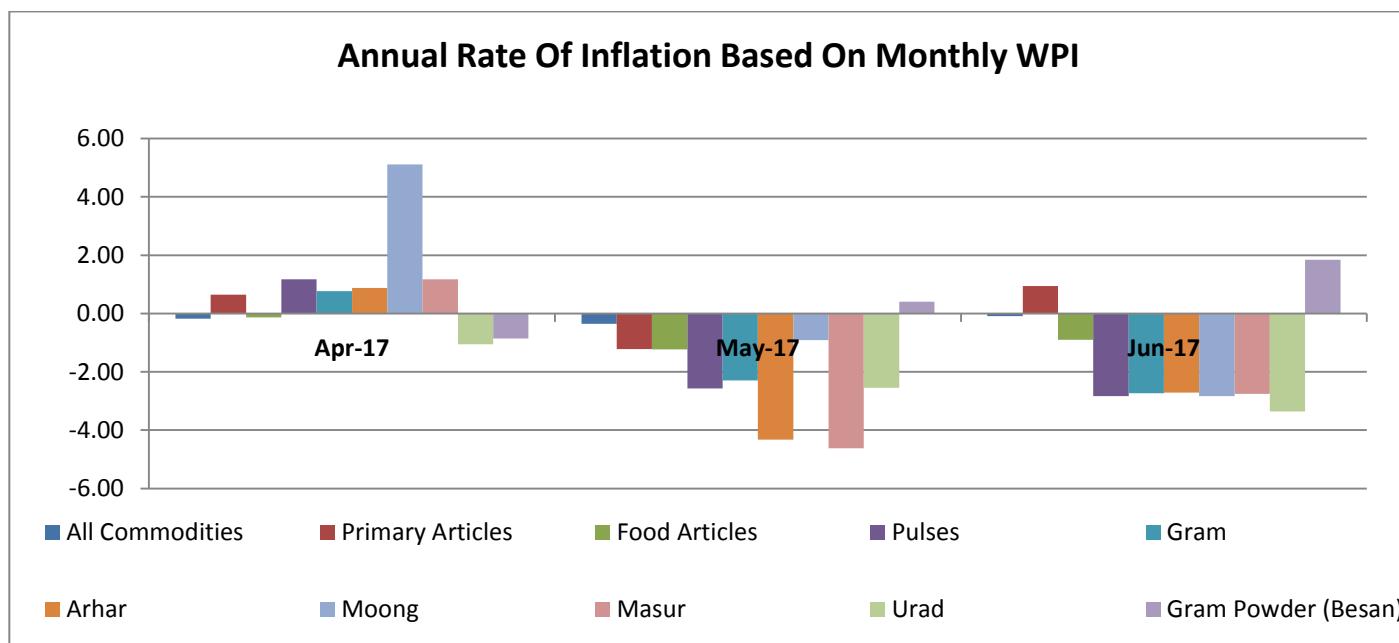

Highlights-Domestic Market:

- **The pace of kharif pulses planting increased in comparison to previous week** from 3.35 % to 6.92 % despite excessive rains in major producing regions. Indian farmers have covered 114.88 lakh ha under kharif pulses till 28th July-2017. Till date, it is higher by 6.92 % (107.44 lakh ha last year) than area covered in corresponding period last year. Normal area under kharif pulses is 105.58 lakh ha. However, area under Tur has declined by 15.50 % to 34.88 lakh ha (last year 41.28 lakh ha) so far. Normal area under Tur is 39.24 lakh ha. Urad area is running ahead by 35.19 % to 34.38 lakh ha (last year 25.43 lakh ha). Moong area coverage has increased by 1.88 % to 27.58 lakh ha. against 27.07 lakh ha. last year till date. Kulthi area is lagging behind by 55.56 % to 0.20 lakh ha so far.
- **Cash Pulses Markets continued to reel under pressure and extended its loss further** as buyers remain inactive in bearish inner tonne. Tur, Urad, Chana, Masur and Moong decreased in the range of Rs 200 to Rs 300 per qtl. last week. There seems no respite for pulses market immediately. Import continues, mills are closing its activities due to increasing disparity and Govt. too is selling stock from central pool through weekly e-auction. Besides, higher kharif coverage area hints bumper production prospects once again, except Tur. There is a plenty of supply in the market.
- **Chana traded down against normal expectation of firmness. Sellers remained active in futures.** It lost around Rs 450 in Sept /Oct and Nov contract s from 14th July to 28th July. The reasons behind decrease are mainly attributed to Lower forward quotes in Australia (\$705 per T on CiF basis) for the new crop expected in October, distress selling by stockiests and bearish trend in other pulses like Lentils, Moong, Urad and Tur. Besides, buyers remain sidelined. Mills are purchasing only when they receive adv .order for dal. So, it has disrupted the normal demand side. Cash market is likely to remain under bear's grip until excess stock is consumed.
- **There is no respite for Urad market too. Pressure continues from imported Urad and 35% higher area coverage in kharif season so far.** Myanmar is offering FAQ Urad at \$650/655 per T and SQ at \$780/85 per T at Nhava Sheva port. Besides, stockiests have started releasing stock loosing hope for uptrend. So, market would continue to reel under pressure in August too. Agriwatch expects market to decrease further.
- **Recovery in moong cash market is unlikely as buyers stay away from the market** due to prevailing bearish tone and ample availability of stock against current demand. New Moong in MP is flowing into mandis. Supply side is normal against subdued demand. Import continues at attractive price. Processing plants have sufficient stock to cover their one month need. They are buying Moong against dal demand only. So pressure would continue to impact Moong cash market. Agriwatch expects Moong to trade range bound to weak. Higher area coverage too would limit any chance of recovery in the short to medium term.
- **Pressure on Lentils markets too continues as buyers are unwilling to buy in bearish trend, weak demand and cheaper availability of imported Lentils/dals.** Market participants say that higher supply in domestic markets and restricted buying by mills are working as a cap on Masur market. Australia offers whole red Lentils at \$590 per tonne. New Dec crop is being offered at \$625 per T. Canada offers Lentils at \$515/20 per T. Plenty of stock is available in Australia and Canada . Import would continue as they offer Lentils at discount ahead of new crop.
- **Burma offers Tur at \$ \$505/510 per T On Nhava Sheva port for prompt delivery.** Import flows continues as Burma intends to offload remaining marketable surplus before new local crop hits Indian market. Stockiests in India too have started offloading stock analyzing bearish trend to continue. Selling from central pool through e- auction on weekly basis continues. So supply is at higher side against subdued demand. Recovery in Tur market is unlikely in August too.
- **The Center govt. has hiked the MSP of pulses for the 2017-18 crop** year and instructed states to procure it on MSP so that farmers would be able to receive minimum support price. The maximum hike in the MSP is fixed for pulses. The MSP of tur (arhar) is increased from Rs 5,050 per quintal (including bonus) in 2016-17 to Rs 5,450 per quintal (including Rs 200 bonus) in 2017-18 -- a hike of 400 per quintal. Similarly, the support price of Urad increased from Rs 5,000 (including bonus) per quintal in 2016-17 to Rs 5,400 (including bonus) per quintal in 2017-18. In case of Moong, it is increased from Rs 5,225 (including bonus) per quintal in 2016-17 to Rs 5,575 (including bonus) in 2017-18.

International:

- **Global Peas market moved up despite negative cash market fundamental. Demand from India has slowed down in recent weeks.** France has shipped 43500 tonne peas to India this week. China's buying is likely to continue. Lower demand from India and higher demand from China would offset the overall impact on demand. Buying recovery from India is expected next year. Lower yield too would nullify the impact of decreased demand. Harvesting in US begins now.
- **Marketing season In Canada is coming to an end now and pace of shipment is decreasing,** as expected. Field Peas stock is still ample. According to Canadian Grain Commission around 500 MT field peas has been exported from the country during 3rd to 9th July 2017. Total peas export 33,29,600 tonne so far against 2,355,100 MT during corresponding time last year. Farmers in Canada has supplied 3,875,100 MT so far. It was 2,355100 MT last year.
- **Lentils growing area in Canada is facing hot and dry condition and there is a growing fear that crop yield may suffer if the prevailing weather condition persists.** The impact of grower's bids remains unchanged as of now. But new crop indicative price has started showing improvement so that new crop price starts matching with spot price. Exporters are not willing to sell new crop's Lentils. It may support Lentils price in global market.
- **Agriculture Food Canada, has projected 24 lakh tonne Lentils export in crop year 2016-17.** It is up by 1 lakh tonne from previous estimate. Premium large green lentil bids have decreased slightly about 42 cents per pound. New crop bids range from about 31 to 40 cents per pound. Red lentil bids range from about 23 to 26.5 cents per pound. Over all sentiment remains weak due to weakening of demand.
- **Despite lower price for lentils in global market and fear of area decline in Canada,** the main producer and exporter, area coverage under lentils is bound to increase. The latest USDA update hints 1,055,000 acres could be planted in 2017 against 933,000 acres last year. It might be higher by 13.05 percent. In Canada Laird -3 lentils price has decreased to 24 to 30 cents per pound due to higher stock and decreasing demand from India.
- **Chickpeas area in Australia has been forecast up by 2.99 % from previous** year to 1101 thousand ha for 2017-18 crop. It was 1069 thousand ha last year. However, production estimate has been decreased by 23.62 % to 14.16 lakh tonne against 18.54 lakh tonne last year. The reason behind lower production forecast is mainly attributed to bad weather for planting. Australia had achieved highest yield last year due to favorable weather condition throughout the season.
- **Lentils area in Australia is expected to increase by 26 % To 385 Thousand Ha** in 2017-18. However, production size has been revised down to 5.30 lakh tonne. Australia had produced 830 lakh tonne Lentils last year. Bad weather is bound to affect yield of lentils in Australia in 2017-18. Weather condition is still alarming and reduction in yield seems very much in sight.
- **Field Peas Area in Australia has been forecast down by 4.85 % to 219 thousand Ha** for 2017-18 crop due to lower price realisation and bad weather condition in producing states. Peas production estimate has been reduced from 415 to 257 thousand T. Australia had realized better yield due to congenial weather throughout the season. Canada's dominance in peas export, at cheaper price and ample availability in India have affected global price of peas. So, bad weather and weak demand/price encouraged farmers to lower peas area.
- **Pulses season (crop year) in Canada starts in August. Before starting the season.** Canada has revised down lentils production estimate from 31 lakh tonne to 28 lakh tonne now for 2017-18 season. According to the latest update by AAFC Canada has produced 32.48 lakh tonne Lentils in 2016-17. As production was at higher side, export figure in current MY is expected to touch 23 lakh tonne. India as usual emerged as major buyer for Canadian Lentils.
- **AAFC (Canada) has revised down peas production estimate from 42.50 to 41.50 lakh tonne** for 2017-18. In last one month, production estimate has been revised down by 1.50 lakh tonne for next season crop due to lower prevailing price and weak demand from India and Pakistan. Canada had produced 48.36 lakh tonne peas in 2016-17. Local farmers may opt for other lucrative crops if prices continue to hover at lower level.

Weekly Outlook: -Pulses are likely to trade steady to slightly weak

Wholesale Pulses Price Index Monthly:

Annual Rate Of Inflation:

Index Numbers of Wholesale Price in India (Base: 2011-12=100)

The annual rate of inflation, based on monthly WPI, stood at 0.90% (provisional) for the month of June, 2017 (over June,2016) as compared to 2.17% (provisional) for the previous month and -0.09% during the corresponding month of the previous year. Build up inflation rate in the financial year so far was -0.44% compared to a build up rate of 3.71% in the corresponding period of the previous year.

Pulses WPI decreased by 4.3 % from 151.8 in May to 147.5 in June-2017.

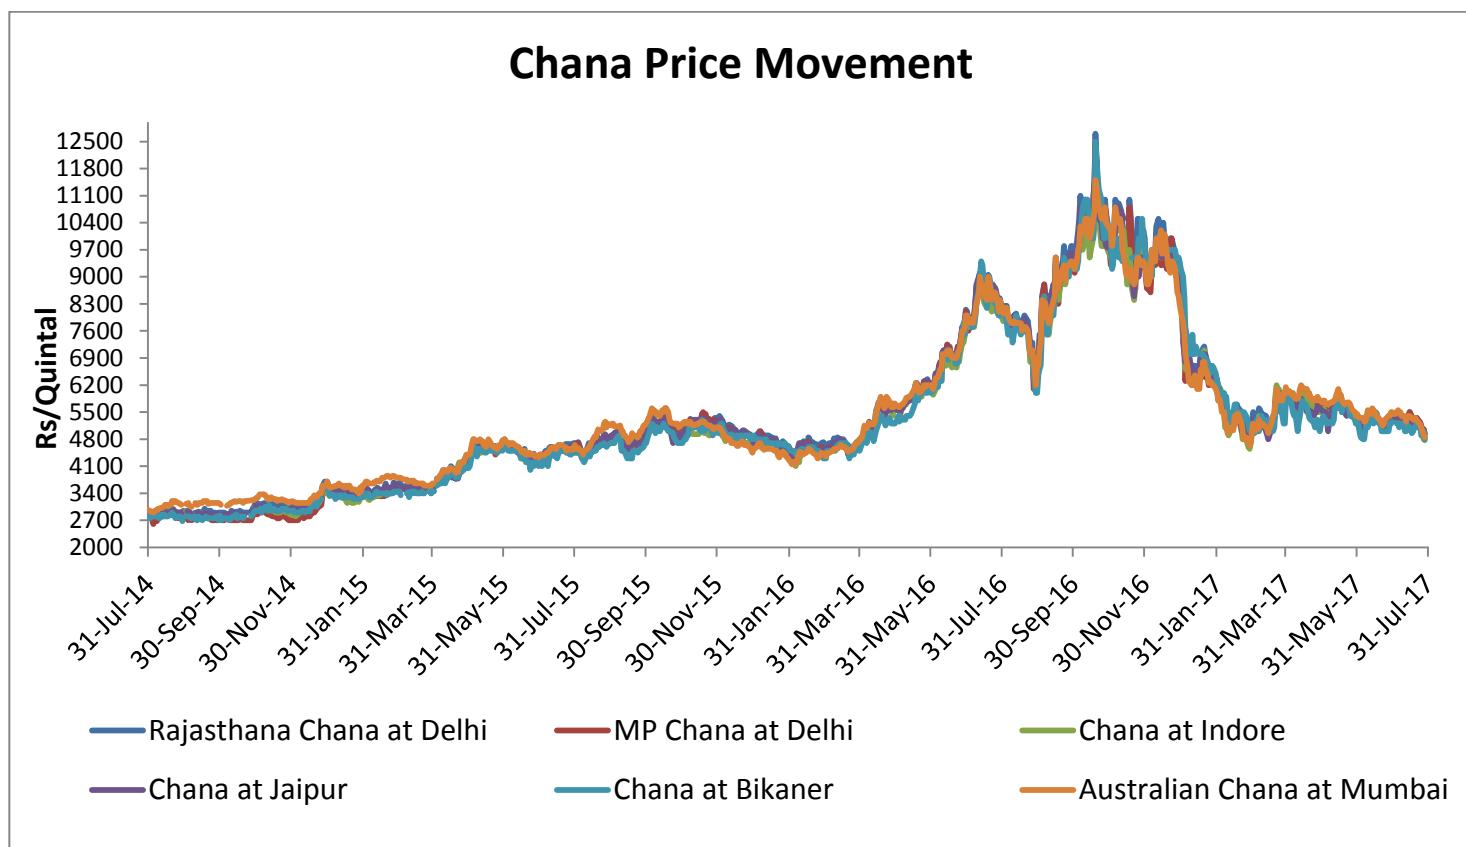

Pulses-Wise Scenario:
Chana

Market Recap:

Chana futures declined against normal expectation and bears remained dominant from 14th to 28th July in Sept, Oct & Nov contracts. There is no hope for immediate recovery as Australia is offering Chana at \$765 per T from old crop while new crop from Oct/Nov delivery is being offered at \$715 per T. Stockiests in local market have started selling sensing bearish tone in the market. All these developments have pressurized Chana market including bearish tone in other pulses. Recovery in the near term is unlikely.

Current Scenario:

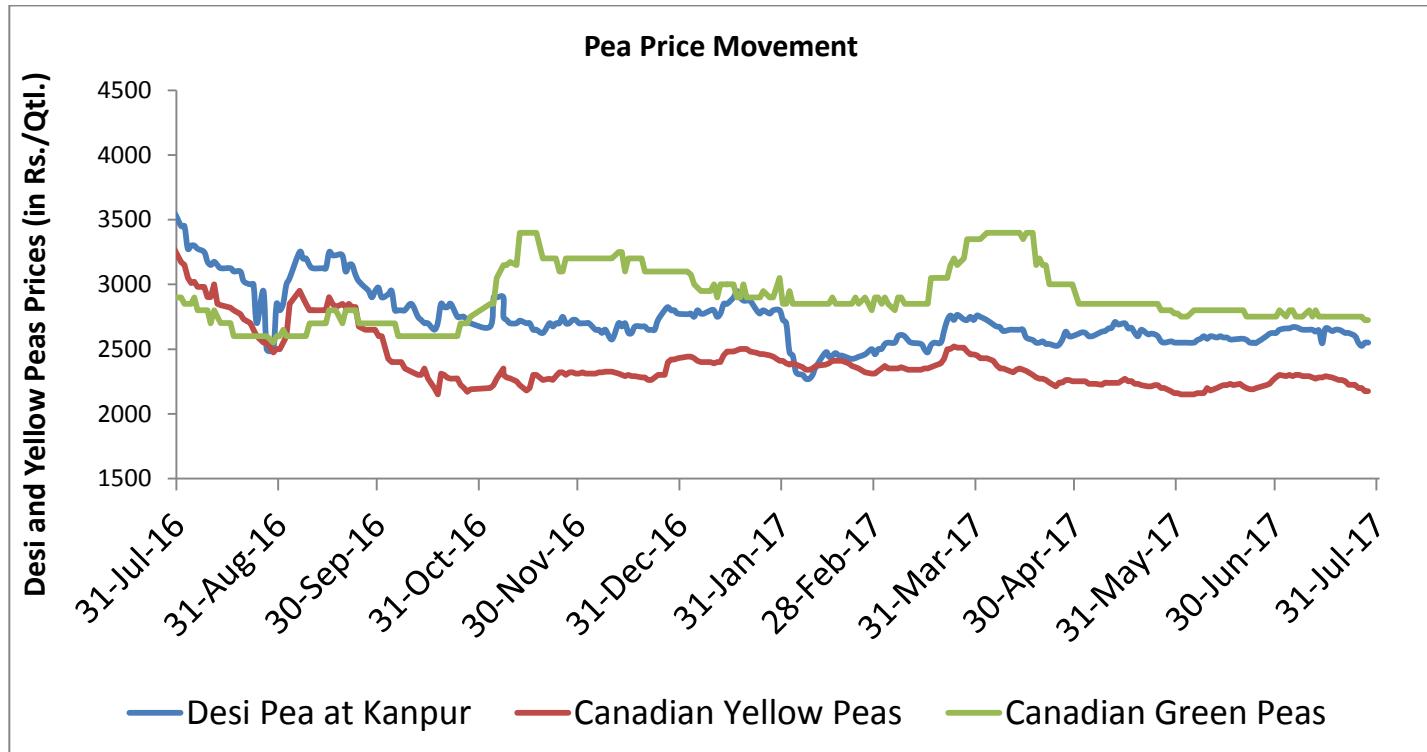

Chana all India average price decreased by 4.53 percent to Rs 5005 per qtl.. Chana is expected to extend its loss this week too.. In Delhi market it is being traded at Rs 4950 per qtl. In Mumbai Australian Chana is being offered at Rs 4850 per qtl. Overall outlook remains steady to slightly weak for Chana in the near term. Following graph illustrates the chana price movement in different markets:

Market Outlook:

Chana prices are likely to trade weak as buyers are unwilling to buy in bearish market sentiment.

Peas (Matar):

Market Recap:

Steady to weak tone prevailed in peas market during the week under review. Indian importers importes 43400 tonne peas from France at \$ 280/285 per Toone.Ukraine is offering yellow peas at Nhava Sheva port at \$286/88 per tonne. Domestic demand remains weak while Chana price is under pressure.Agriwatch expects steady to slightly weak tone to continue this week too.There is ample supply side in the market against demand.

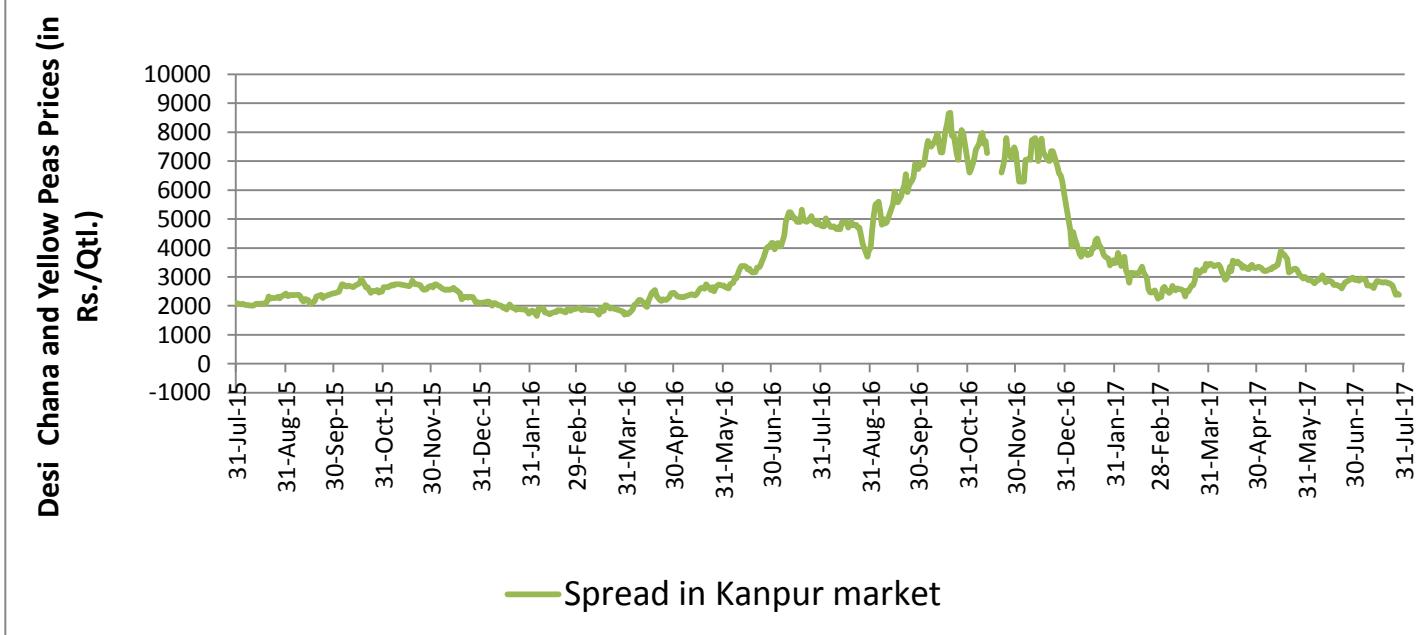

Current Market Dynamics & Outlook:

At Kanpur, Desi Peas traded weak taking clue from weak Chana last week.It moved slightly down by 2.83 % to Rs 2566 per qtl. Steady to weak tone may prevail as chana is likely to trade weak.Average price of all peas decreased by 1.95 % to Rs 2502 per qtl.Canadian matar is being traded at Rs 2175 in Mumbai while Russian Matar quoted at Rs 2160 per qtl. Harimatar traded at Rs 2725 per qtl.Overall tone remains weak.

Spread With Chana:

Spread between Chana and Peas at Kanpur market decreased by Rs 397 to Rs 2485 per qtl owing to decreased Chana price. Spread is expected to remain between 2450 to 2500 per quintal in the coming weeks on relative movement in Chana prices. Uptrend depends on Chana price movement.

Spread in Kanpur Market

Market Outlook:

Prices of Peas are likely to trade steady to weak taking clue from weak quotes in forward months and weak Chana price. Offtake from ports continues. Demand is below normal expectation.

Lentils (Masoor):

Market Recap:

Kanpur market opened with a weak note in the beginning of the week and continued to reel under pressure on cheaper import from Canada and Australia. Overall sentiments remain weak. There is no hope for recovery in the near term as Canada and Australia offer lentils at \$ 505/10 and \$590 per T on Indian port. New crop is hardly two months away and they intend to offload marketable surplus before it hits local markets. Besides, there is plenty of stock available in India against subdued demand.

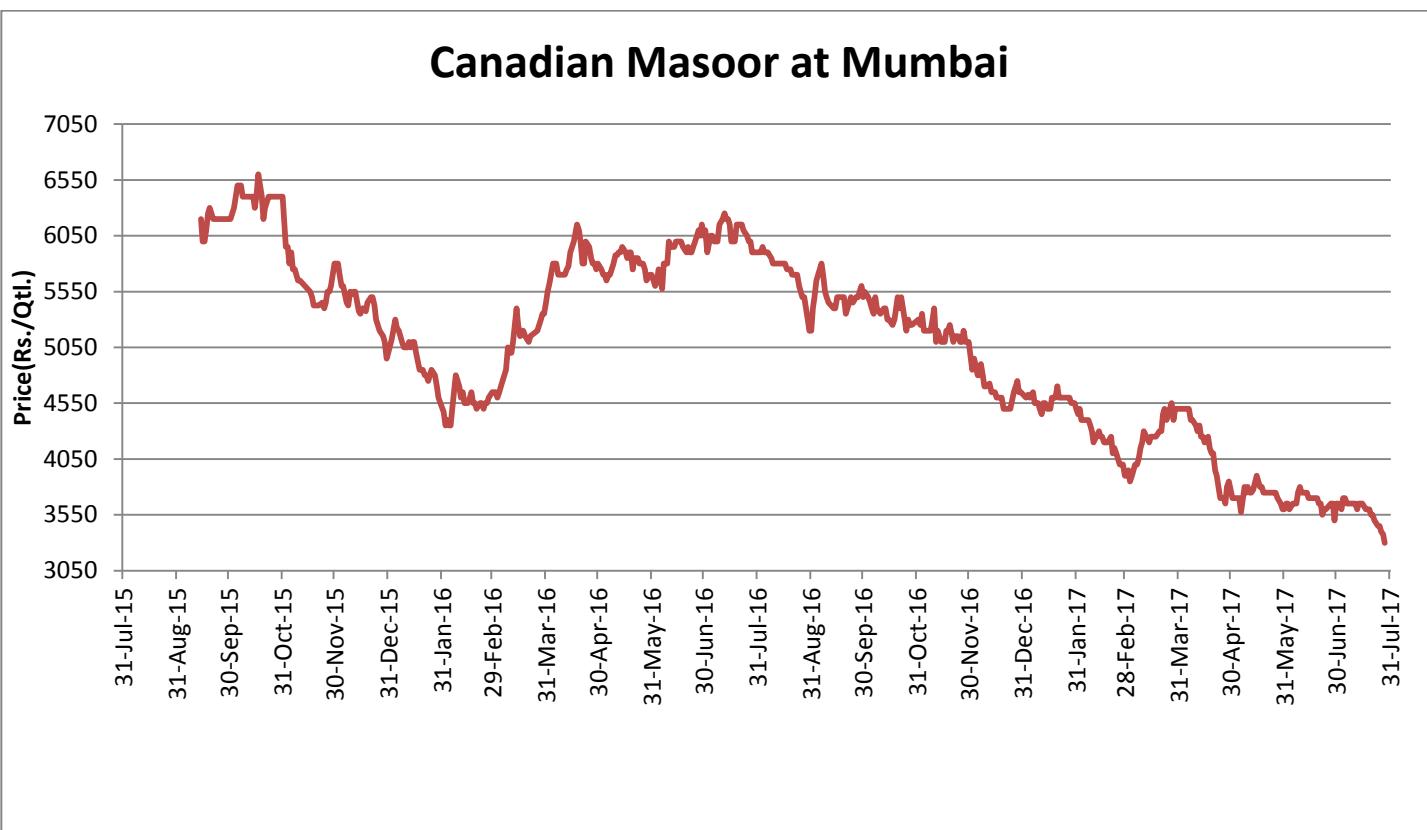

Current Scenario:

Weekly average price decreased by 4.27 % from Rs 3640 to Rs 3475 per qtl. Currently in Mumbai it is being quoted at Rs3350/3400 per qtl. Lower quotes for imported Lentils would not support market at current level. Canadian Massor is showing weak movement and was traded in the range of Rs.3300-3350 per quintal. Steady to slightly weak tone may prevail this week too. The following chart shows the masoor prices movement in key markets:-

Masoor at Kanpur Market

Canadian Masoor at Mumbai

Market Outlook: Prices are likely to notice steady to slightly weak movement this week.

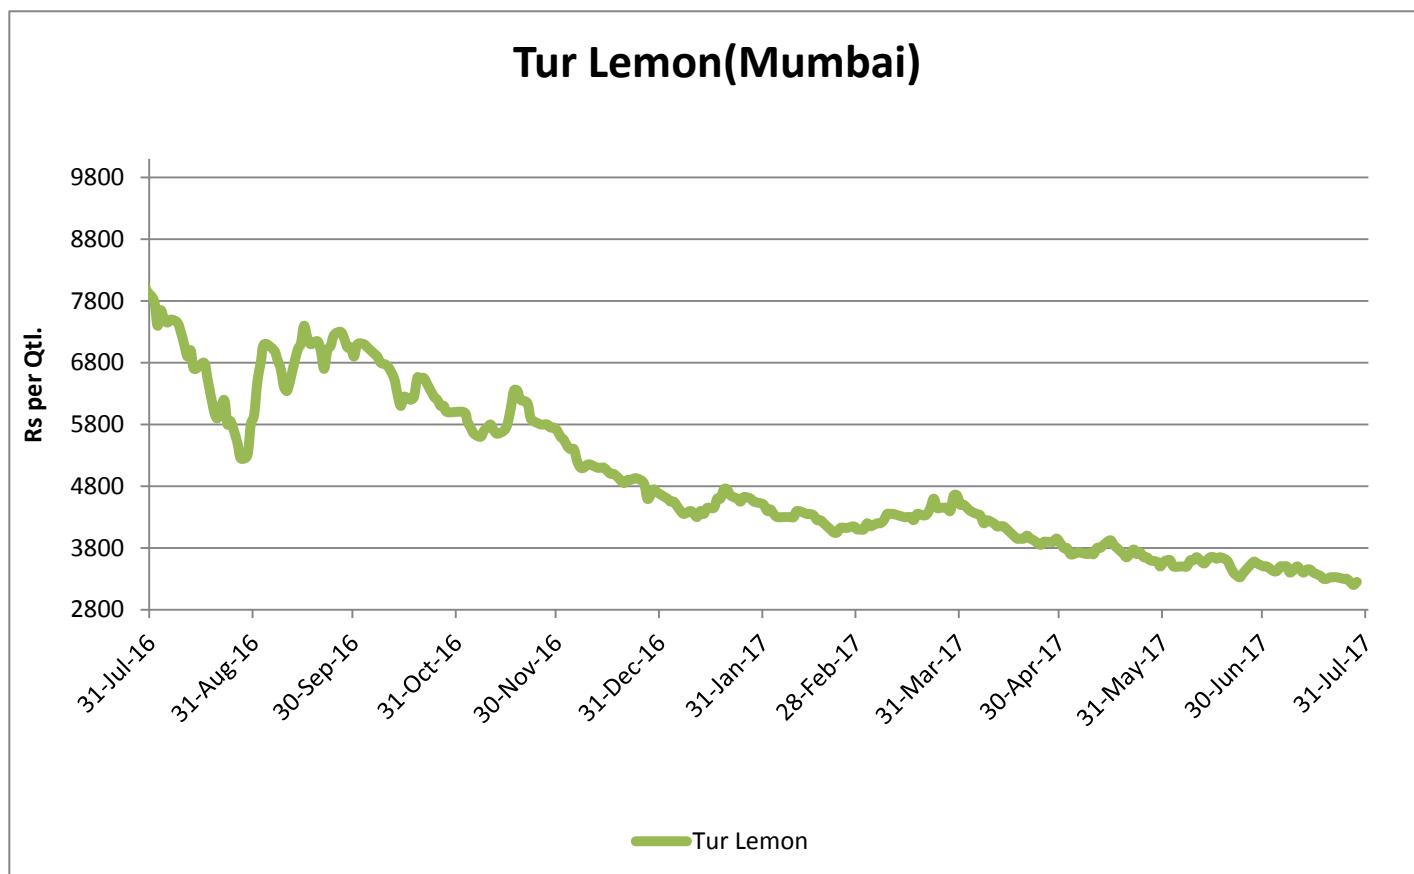

Pigeon Pea (Tur/Toor):

Market Recap:

During review week, Desi and imported Tur traded weak on higher supply side. Importers and stockiest both continued to sell on discount while buyers restricted their buying in bearish trend. Besides, Selling from govt.'s stock continues through e-auction. Recovery in market is unlikely. Burma offers Tur at \$ 505/10 per tonne on Nhava Sheva port. However, area is bound to decrease from 58 lakh ha to 40 lakh ha this year. But higher stock would continue to restrict any attempt of recovery.

Current Market Dynamics & Outlook:

Imported Tur prices noticed weak movement during the week under review. There is weak tone in Burma and it would continue to affect any chance of firmness in domestic market. Demand from retailers is expected from mid August. Tur lemon (imported) average price for the week, decreased by 1.365 % to Rs 3260 per qtl in Mumbai. While lemon is being quoted at Rs 3500 in Gulberga. Steady to weak tone may prevail in the market.

Market Outlook: Tur prices are likely to show range bound to weak movement this week.

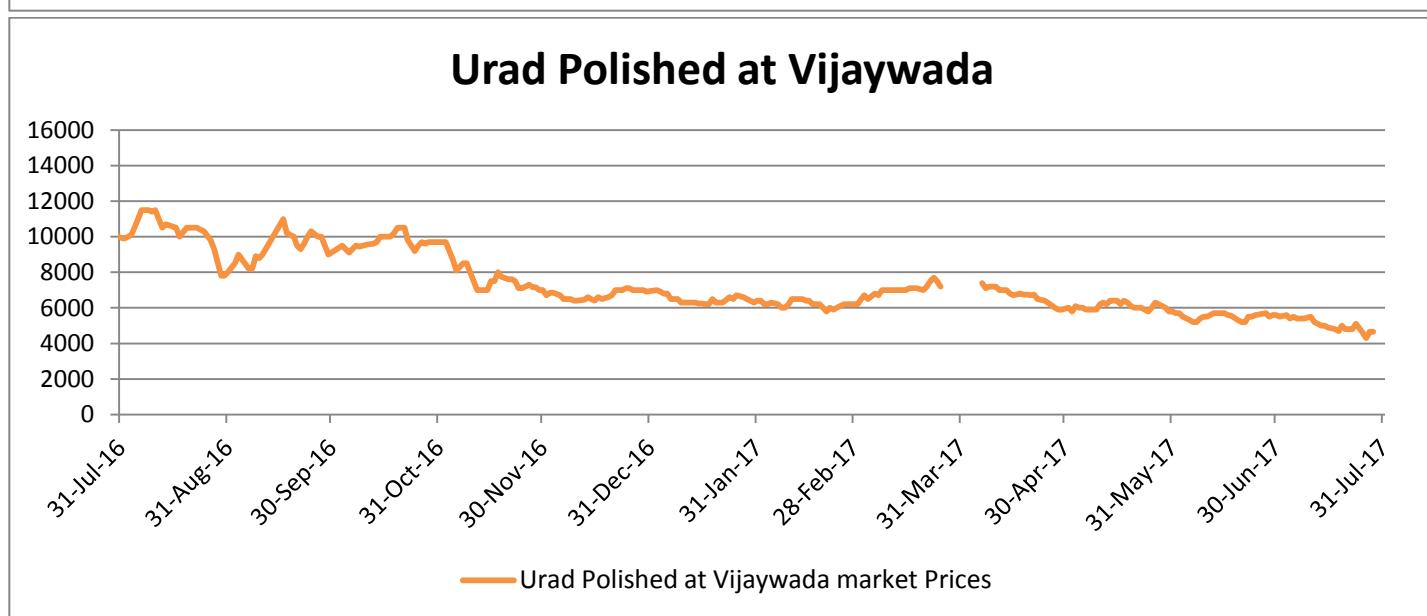

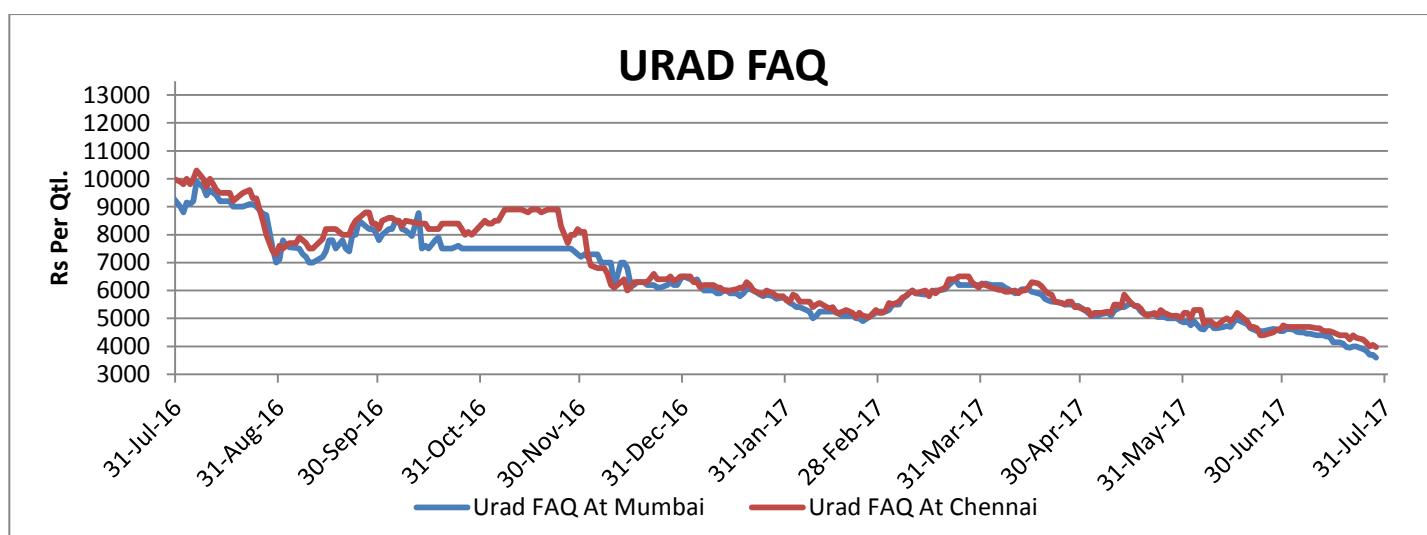

Black Matpe (Urad):

Market Recap:

During the review period, imported and desi Urad prices noticed weak movement due to eased supply side and decreased quotes in Burma. Besides, sellers are willing to sell and reduce stock as area is increasing in kharif season. Urad FAQ Mumbai is being quoted at Rs 3600/3650 and in Chennai at Rs 3950/3975 per qtl. Market may continue to trade weak.

Current Market Dynamics & Outlook:

Urad FAQ at Mumbai (Rs.3600 Qtl.) and Chennai (Rs.3900 Qtl.) noticed weak tone. However, at Vijayawada prices traded steady. Pressure continues on Urad market. The following graph shows the prices movement in different markets:-

Market Outlook: Urad Prices are likely to show weak movement.

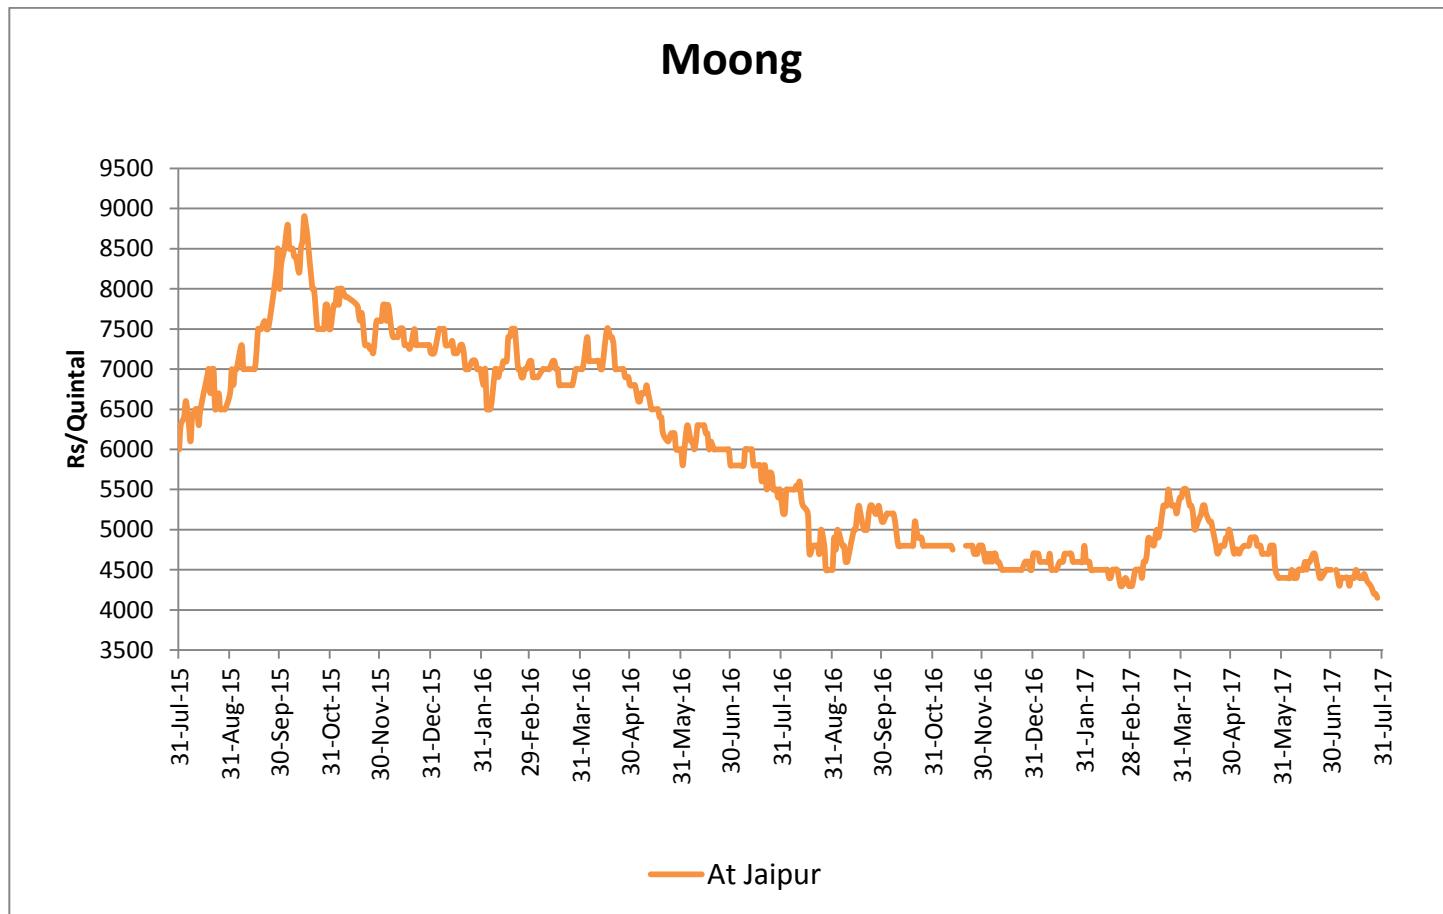

Green Gram (Moong):

Market Recap:

Desi moong prices noticed weak movement. Weak tone in other pulses and higher area coverage discouraged moong to trade up .Steady forward quotes too remain unsupportive for Moong market. Sellers remain active in weak demand and innertone. Firmness is unlikely in the near term as arrival from new crop in MP continues.

Current Market

Moong at Jaipur showed weak movement and traded in the range of Rs 4000/4050 per quintal. Market may trade weak this week too.

Market Outlook: Moong prices are likely to weak in the near term.
