Commodity-wise Domestic, International Prices and Arrivals at Different Centers

Highlights-Domestic Market:

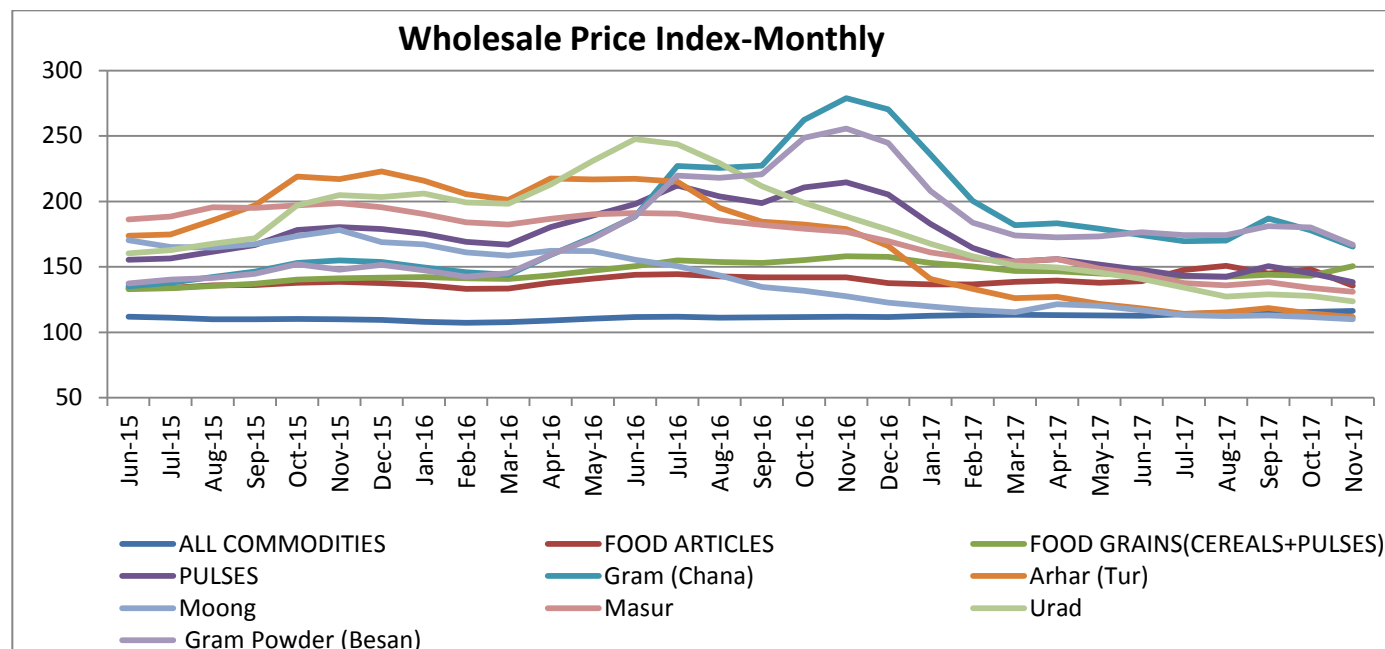

- **Rabi pulses sowing area is running ahead by 8.80 % to 138.19 lakh ha as on 14th Dec-2017.** Chana area was registered at 96.23 against 84.65 lakh ha. Masur area was registered at 15.53 against 15.26 lakh ha, peas area was recorded at 8.46 against 8.87 lakh ha. Even Urad and Moong area was recorded at 4.87 against 4.79 & 1.74 against 2.23 lakh ha. Other pulses area was recorded at 4.30 against 4.48 lakh ha. Overall sowing progress is running good. Bumper area coverage is on the card once again.
- **Procurement drive, lower crop size(31.19 lakh tonne) & Agriwatch revised carryout for 2017-18(5.61 lakh tonne),** much lower than 10.67 lakh tonne in 2016-17 crop year may support cash Tur market in the second half of the new year. As new crop started hitting the market, prices are likely to stay steady to slightly weak in the weeks ahead despite increased buying activities by buyers. It is trading at Rs 4400 per qtl. in Gulberga. It will trade in the range of Rs4150 to Rs 4300 in the short term.
- **Tur market trades steady to slightly weak on expectation of higher arrivals in the weeks ahead.**In Gulberga market, it is being traded at Rs 4150 to Rs 4300 per qtl. With increasing arrival pressure on Tur market may continue. Tur lemon in Burma decreased by \$20 to \$340 per tonne in last two days.
- **Demand for Moong at higher level is likely to decrease in coming weeks. At current level** Agriwatch expects a downward correction of Rs 100 to Rs 200 per qtl. in the short term. It is being traded at Rs 5100 in Jaipur market. Burma is offering Moong at Rs 4800-4900 against prevailing price of Rs 5000-5100 in domestic market. As crop size (Rabi) in Tamil Nadu is said to be lower, Moong may get support at current level in January-2018 too. Burma is offering Moong at \$760 per tonne. Overall medium term outlook remains firm, until new crop hits.
- **Chana could not sustain at higher level. It traded Rs 100 down to Rs 4200 per qtl.** in Delhi. Pressure of selling is building up as incoming crop is expected to be bumper, over 95 lakh tonne. Old stock is at higher side and import flow continues. Govt is not taking decision on import duty. Under prevailing condition Chana in March -April may trade at Rs 3400-3500 per qtl. if govt. does not intervene.
- **Urad FAQ moved down By \$10 to \$450 per tonne and SQ moved down by \$10 to \$550 per tonne** in Myanmar. However, it traded down in Indian market after slight recovery. With new arrival due from UP, pressure is building up once again. Procurement on MSP may restrict any major fall in market. Demand is weak and private traders are unwilling to buy bulk quantity due to heavy loss they incurred in recent months. Steady to weak tone may prevail in the market. Urad in Mumbai is being traded at Rs 3900/4000 per qtl.
- **Prepressure on Masur continues due to higher supply side. Importers are selling at 3500 to 3600 per qtl..** However, any major dip from current level is unlikely. New crop will hit market in Feb. If govt. takes decision over import duty, it might move up. Currently overall tone remains weak.
- **Rajasthan would procure 2.74 lakh tone Moong in the state and Rs1527 crore** has been allocated for this procurement. It would support Moong price from current level. Arrival pressure is declining in major markets. Improvement may continue. It would procure 60,000 metric tone Urad in the state. Rs 324 crore has been allocated to state agencies engaged in procurement. It may support market to a certain extent.

International:

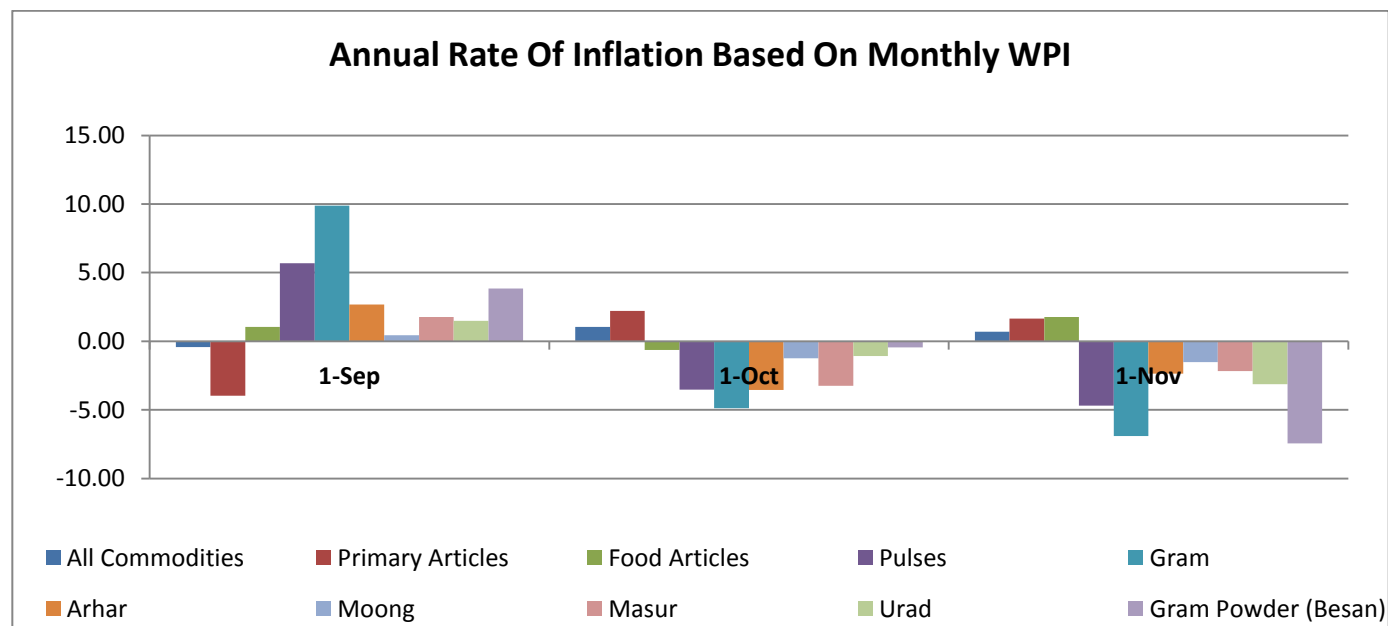

- **Chickpeas production in Australia is expected to decrease from 11.88 to 10.55 lakh tonne in 2017-18** from record 18.54 lakh tonne 2016-17. Despite 4.43 % higher area coverage, production is bound to decrease drastically due to hot and dry weather condition prevalent in the major growing regions. Chickpeas area increased from 1052 to 1099 thousand ha in 2017-18.
- **Lentils area in Canada is bound to decline from 23.72 to 17.43 lakh ha in 2017-18.** It is lower by 23.54 % from last year. yield is expected to improve from 1.45 to 1.55 t per ha. Total production is expected to decline by 16 % from 32.48 to 27.25 lakh ha. As production would decline, total supply would decline by 10.43 % to 30.35 lakh t. Average price in 2017-18 may rule in the range of C\$720 to 750 per T.
- **Chickpeas production in Australia is expected to decrease from 11.88 to 10.55 lakh tonne in 2017-18** from record 18.54 lakh tonne 2016-17. Despite 4.43 % higher area coverage, production is bound to decrease drastically due to hot and dry weather condition prevalent in the major growing regions. Chickpeas area increased from 1052 to 1099 thousand ha in 2017-18.
- **Lentils production in Australia too is bound to decline from 8.3 to 4.19 lakh tonne in 2017-18.** It is almost 50 % down from last year. Lentils area was reported higher by 16 % at 3.55 lakh ha. Due to rough weather condition Lentils production would decline to 4.19 lakh tonne. Even field peas production is bound to decline by 32.47 % to 2.8 lakh tonne in 2017-18. Australia had produced 4.15 lakh tonne field peas in 2016-17.
- **Canadian Chickpeas Agriculture Canada has updated its production estimate for Chickpeas for marketing year 2017-18.** According to new update Chickpeas production in Canada will improve from 58,000 (old estimate) to 81,000 tonne against 82,000 tonne produced last year. Export has been pegged at 85,000 tonne in MY 2017-18 against 1.52 lakh tonne during previous MY. Domestic use has been forecast at 6,000 tonne against 16,000 tonne last year.
- **AAFC (Canada) has revised down peas production estimated from 42.50 to 41.50 lakh tonne for 2017-18.** In last one month production estimate has been revised down by 1.50 lakh tonne for next season crop due to lower prevailing price and weak demand from India and Pakistan. Canada had produced 48.36 lakh tonne peas in 2016-17.
- **Likely storm and 300 mm rainfall forecast in parts of eastern Victoria may disturb** harvesting activities in Australia. Chickpeas and lentil harvesting are expected to get affected from this storm and heavy rainfall. In US pulses area is increasing rapidly. Over 80 per cent of pulses grown in the United States come from either North Dakota or Montana.
- **Statistic Canada would release pulses production estimate this week. It had earlier predicted 3.7 to 4.2 million tonne peas production for 2017-18.** Market is awaited new estimates. As demand from India has decreased considerably, farmers and trade community is concerned about price and smooth marketing in new year.
- **After import restriction of pulses from Myanmar by India exporters from Myanmar** have focused their eyes on other countries like Bangladesh, Sri Lanka, Pakistan and Nepal in recent months. Notably, India had restricted import volume quota of black matpe, mung beans and pigeon peas from Myanmar in the 2017-18 fiscal year in August-2018.
- **Imposition of import duty on all peas by 50 % has started impacting export volume from Canada** According to Agriculture and Agri-Food Canada Peas export would decrease from 3.9 MMT (2016-17) to 2.4 MMT in 2017-18. Lower export volume would increase carryout around 5 lakh ton, higher than normal expectation. Yellow peas prices are hovering in the range of C\$5.00 to C\$6.50 a bushel in western Canada.
-
- **Peas import from Ukraine to India is bound to increase over 50 % to 6.5 lakh tonne in 2017-18** as bumper production seems very much on the card. Ukraine produced 7.45 lakh tonne peas last year

Weekly Outlook: -Pulses are likely to trade range bound to slightly firm except Chana and Urad in the near term.

Monthly Wholesale Price Index:

Annual Rate Of Inflation:

Index Numbers of Wholesale Price in India (Base: 2011-12=100)

Pulses WPI decreased by 6.8 point from 145.2 in Oct to 138.4 in Nov-2017.

Pulses-Wise Scenario:

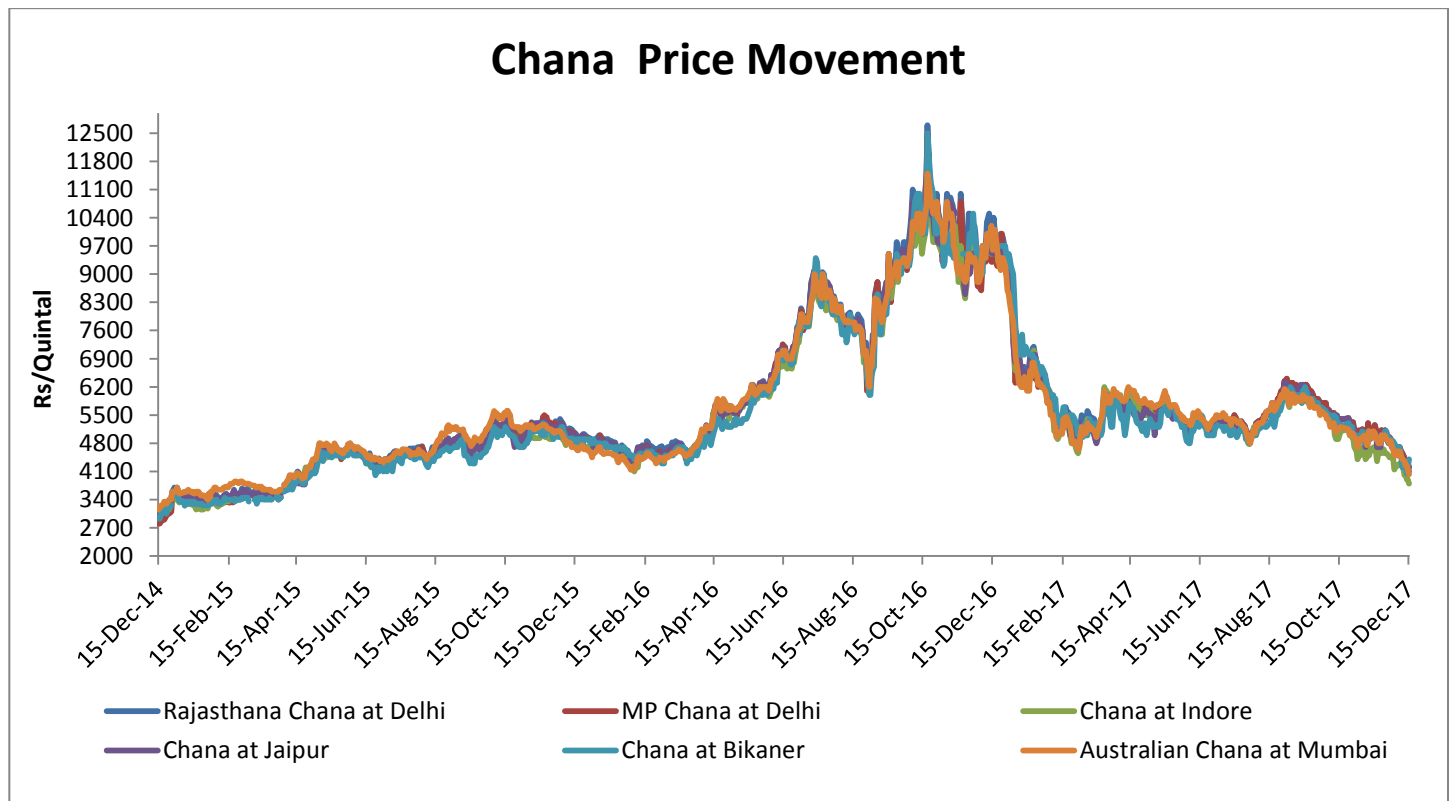

Chana

Market Recap:

Slightly recovery might be seen in Chana market as there is a rumor in the market that govt would impose duty on chana import., besides, chana futures may come on radar once again. There is a report of lower yield realization in Karnataka. However, overall trend remains weak in the medium term. Agriwatch has revised Chana preliminary estimate from 92.12 to 95.56 lakh tonne as first adv estimate. New crop from Karnataka is expected from mid-Jan-2018. So, pressure would continue on Chana market. Australia is offering Chana at \$710 per tonne for jan delivery. At export front there is no parity at current price. Agriwatch expects some export in the second half of the year.

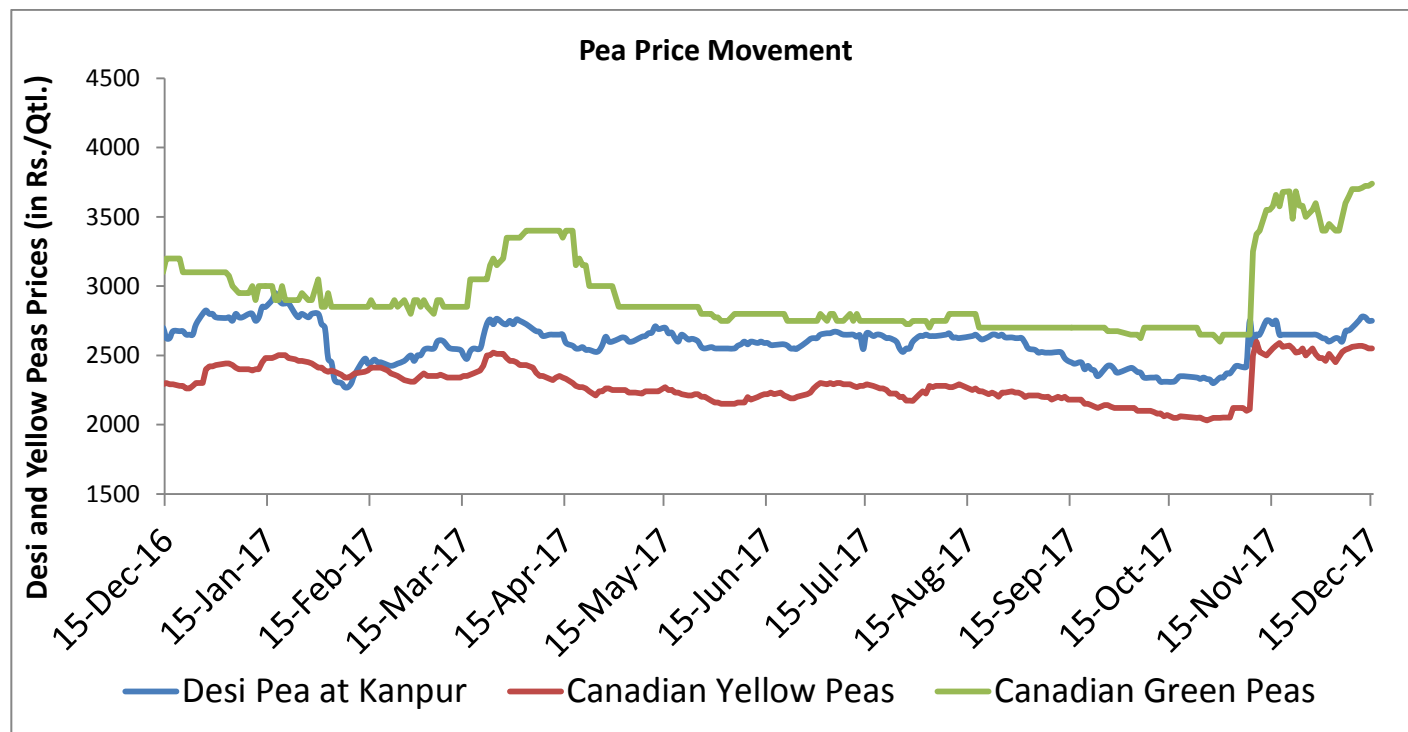

Current Scenario:

Chana all India average price decreased by 6.48 percent to Rs 4236 per qtl. Chana is unlikely to recover from current level due to higher production prospects in 2018 and import flow. In Delhi market it is being traded at Rs 4225 per qtl. In Mumbai Australian Chana is being offered at Rs 4050/4075 per qtl. Overall outlook remains weak for Chana in the medium term. Dal export is possible in the second quarter of the new the year. Selling of chana stock is good than to retain it. Following graph illustrates the chana price movement in different markets:

Market Outlook: Steady to weak tone may prevail .Selling on rise is good for stakeholders.

Peas (Matar):

Market Recap:

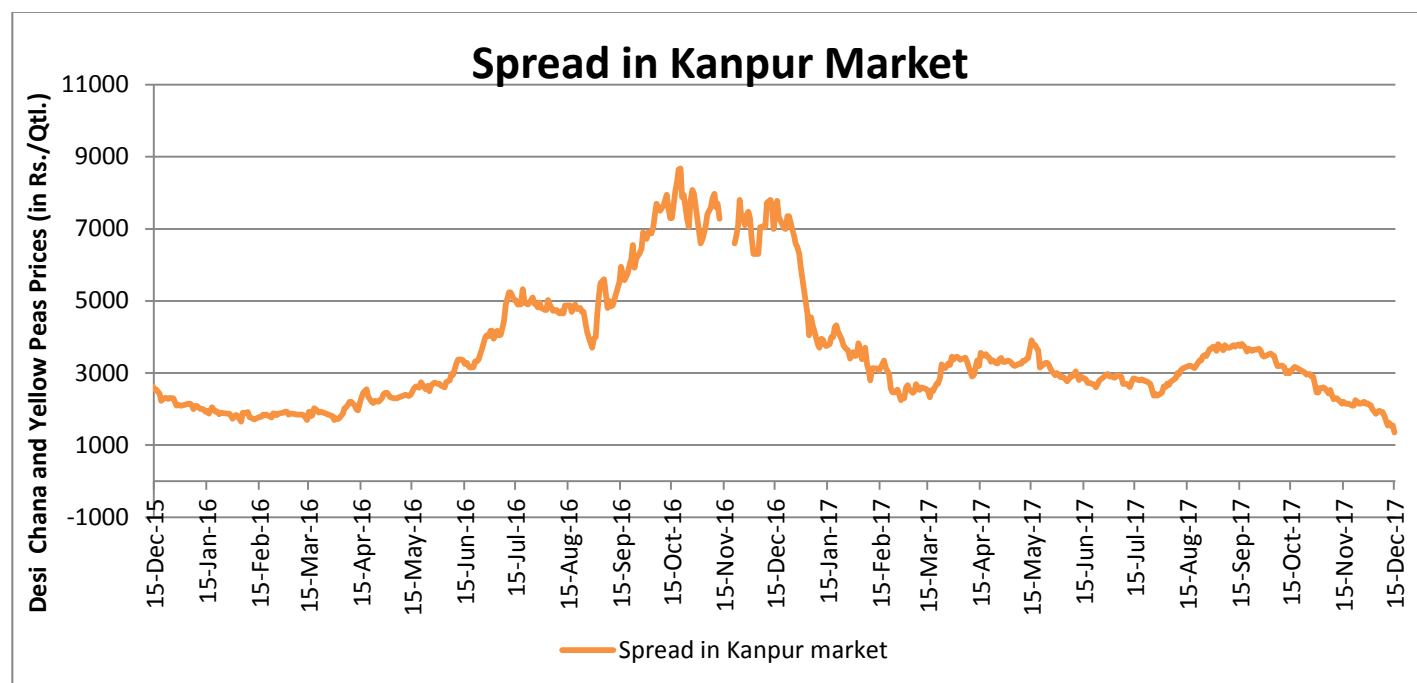

Green peas prices have improved slightly. However, uptrend is unlikely to continue. With decreasing chana price, pressure is building up on peas too. Decreasing price and good imported stock would not allow peas market to move up from current level. Besides new crop would hit market in Feb, so there is no concern on supply front right now. If prices start moving up, govt has option to decrease duty. Right now 50 % duty is applicable on all peas. The average price increase by 1.2 % to Rs 2705 per qtl. It may trade steady to slightly weak in the near to medium term. Import flow is expected to come to halt. Coverage area is likely to increase due to price factor. Overall outlook remains weak due to weak chana price.

Current Market Dynamics & Outlook:

At Kanpur, Desi Peas traded slightly up at Rs 2750 taking clue from decreasing imported stock. Average price moved up by 1.12 % to Rs 2705 per qtl. Firmness is unlikely due to weak Chana price. Average price of all peas increased by 0.45 % to Rs 2655 per qtl. Canadian matar is being traded at Rs 2551 in Mumbai while Russian Matar quoted at Rs 2535 per qtl. Harimatar traded at Rs 3450 per qtl. Market is expected to trade steady to slightly weak in the near term to medium term. With current applicable duty, import is not attractive.

Spread With Chana:

Spread between Chana and Peas at Kanpur market decreased by Rs 368 to Rs 1565 per qtl owing to increased peas price and decreased Chana price. Spread is expected to move in the range of 1500 to 1700 per quintal in the coming weeks on relative movement in Chana prices. Overall outlook seems steady to weak despite imposition of duty.

Market Outlook:

Prices of Peas are likely to trade steady to slightly weak taking clue from steady quotes in forward months and weak Chana price. Offtake from ports was reported at improved level. Retention has increased in peas market. Medium term outlook remains weak.

Lentils (Masoor):

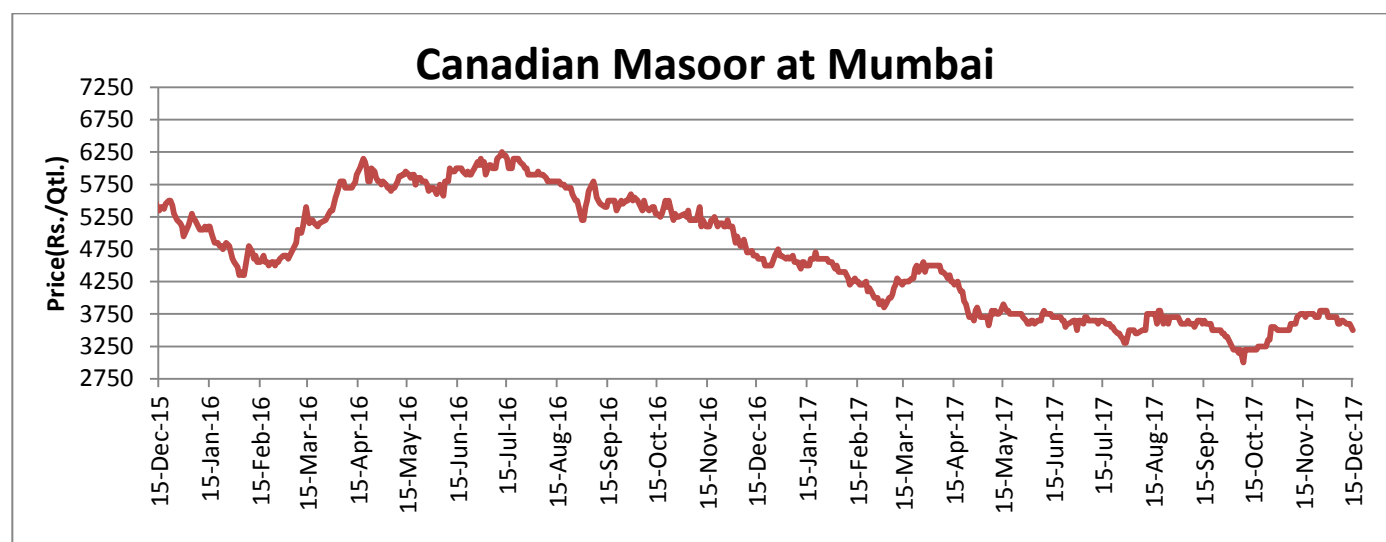

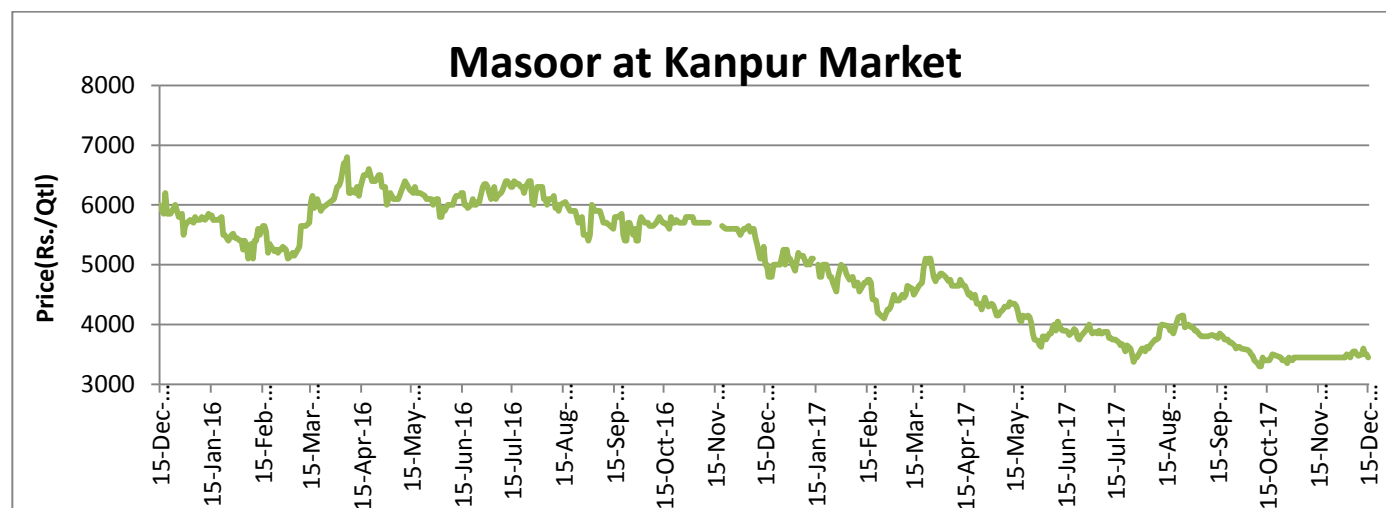

Market Recap:

Kanpur market opened with a firm note in the beginning of the week and could not sustain at higher level despite restricted import flow and opening up of dal export. Area under Lentils is bound to increase this year as overall sowing trend is higher by 1.8 % to 15.53 lakh ha so far. Overall sentiments remain steady to slightly weak in the short to term. Australian Red whole Lentils (nipper Type) is being offered at \$495 for tone for Jan delivery. Nugget type is being offered at \$485 per tone for Jan delivery. Stakeholders should buy on dip.

Current Scenario:

Weekly average price decreased by 0.05 % to Rs 3550 per qtl. Currently in Mumbai it is being quoted at Rs 3500/3505 per qtl. Canadian Massor is showing steady movement and was traded in the range of Rs.3500

per quintal. Steady tone may prevail this week demand is not up to the mark .The following chart shows the masoor prices movement in key markets:-

Market Outlook: Prices are likely to notice range bound to slightly weak movement this week.

Pigeon Pea (Tur/Toor):

Market Recap:

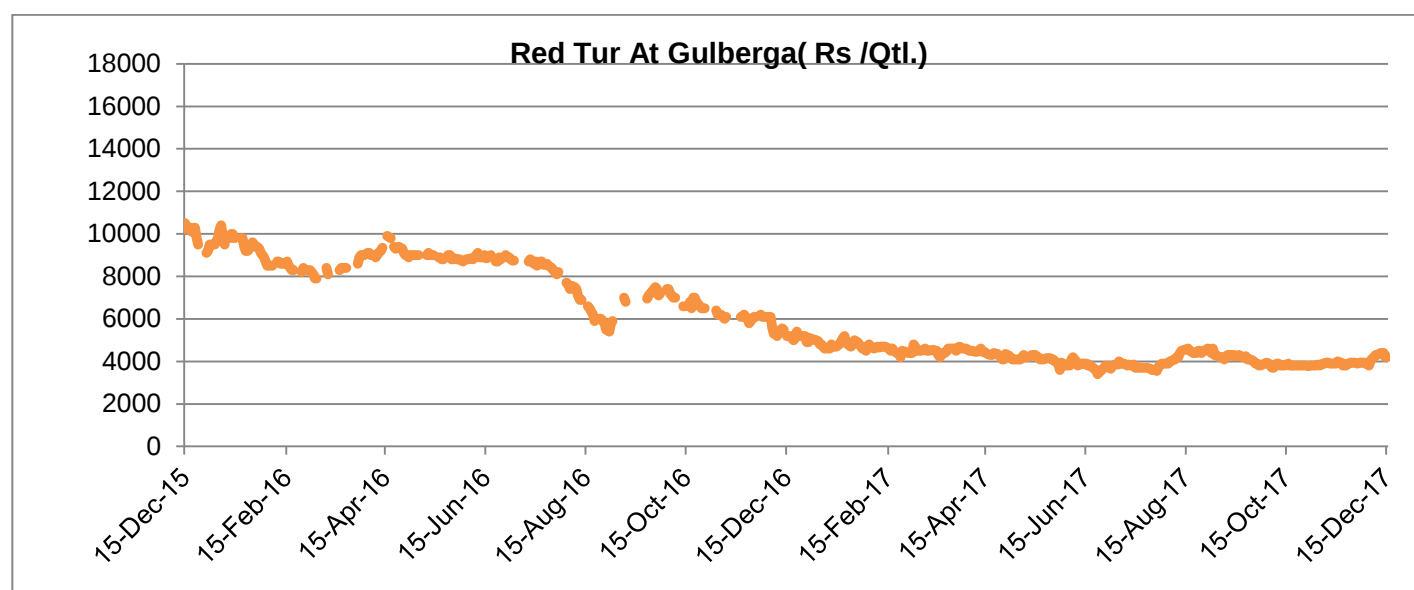

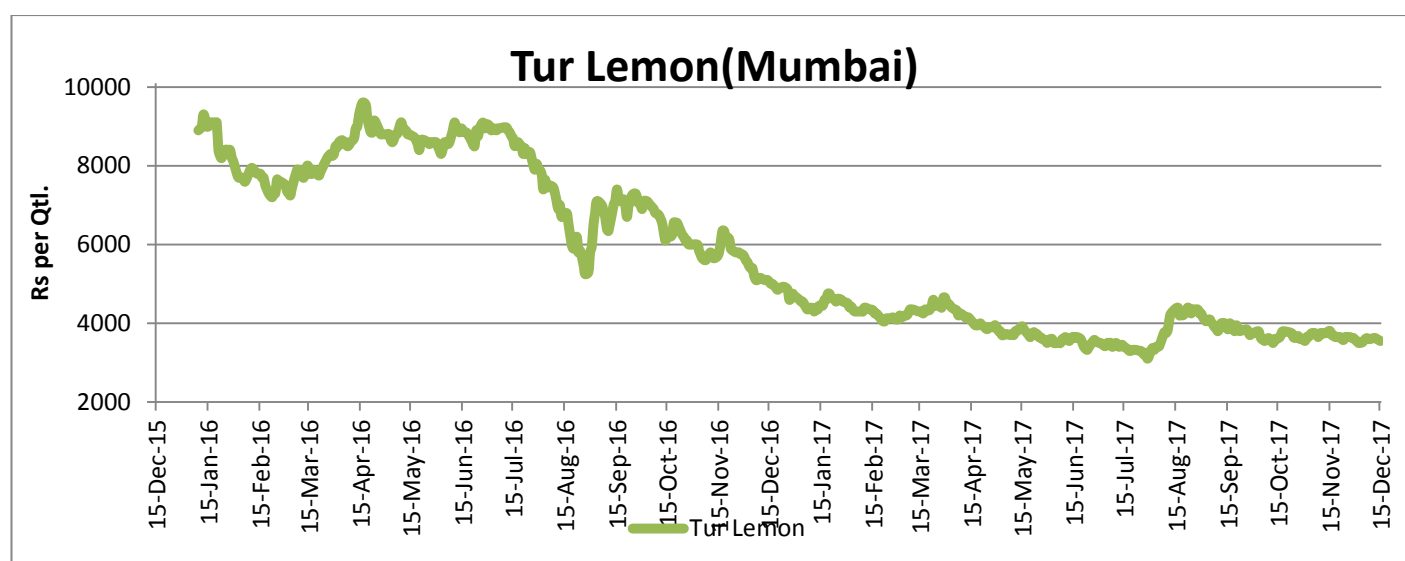

Tur market moved up due to commencement of procurement, lower crop size in India as well as Myanmar. Importers are stocking Tur in Myanmar and around 2.5 lakh tonne tur has been purchased so far. Stock in domestic market is coming down. Telangana govt would procure around 40,000 tonne from new crop. So downward trend is unlikely despite new crop coming into mandis. It is being traded at Rs 3800 to Rs 4200 per qtl in various markets. Steady to slightly weak tone may prevail.

During review week, Desi and imported Tur traded slightly down due to expected higher arrivals from new crop. Opening up dal export and restricted import quantity from Mozambique may support Tur market at current level despite arrivals from new crop. Govt.'s buying too may support market. Agriwatch expects export from next year after March/April to a certain extent. However, one way uptrend is unlikely as govt has around 0.7 MMT stock. Market is expected to stabilize at current level. Buying on dip is good.

Current Market Dynamics & Outlook:

Imported Tur prices noticed steady to weak movement during the week under review. Stockists continued to retain stock despite new arrivals. Yield is considered to be lower by 5 to 10 % this year. However medium term outlook remains weak. Tur lemon (imported) average price for the week, decreased by 1.05 % to Rs 4250 per qtl in Gulberga. While lemon tur is being quoted at Rs 3600/3650 in Mumbai market. Steady to weak tone may prevail in the market.

Market Outlook: Tur prices are likely to show steady to slightly weak movement this week.

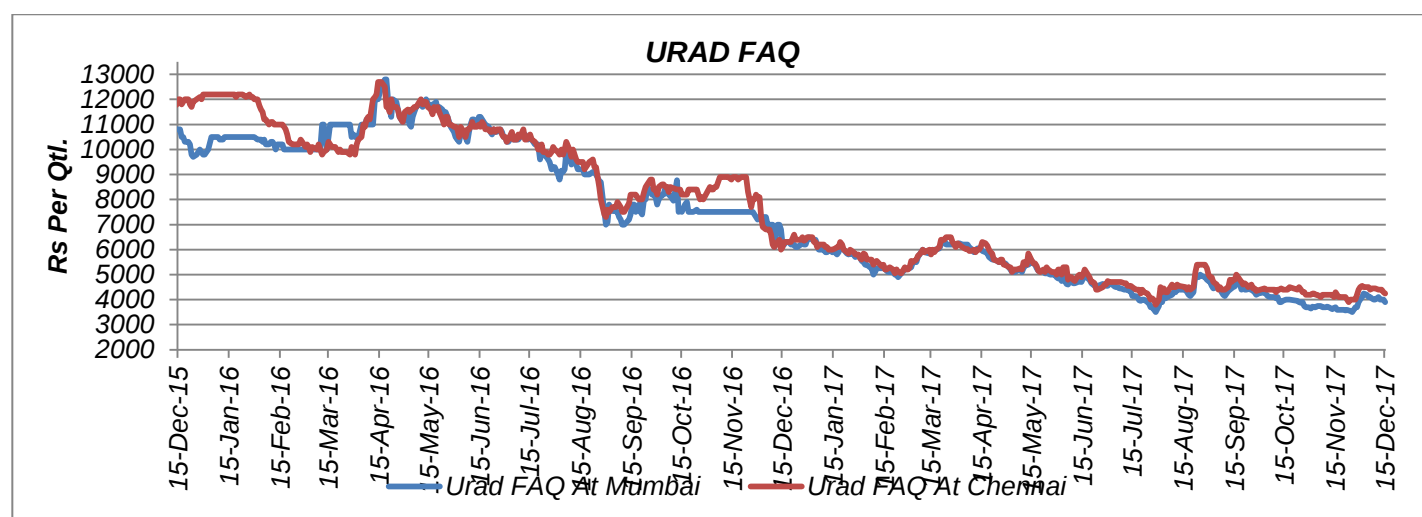

Black Matpe (Urad):

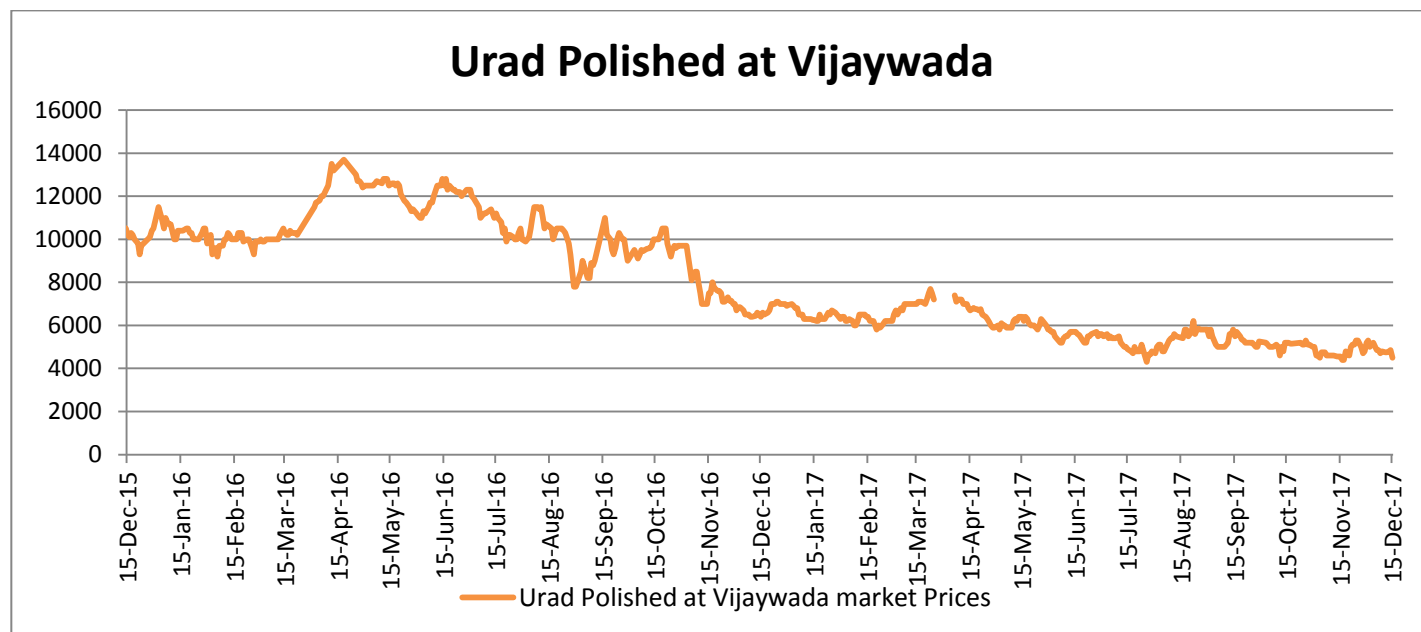

Market Recap:

During the review period, imported and desi Urad prices noticed weak momentum due to slack demand at current level and higher carryout stock. Commencement of procurement may support Urad market in coming weeks. Rajasthan govt is going to buy 60,000 tone on MSP. Urad FAQ Mumbai is being quoted at Rs 4000/4050 and in Chennai at Rs 4400/4450 per qtl. Downward Correction in Urad price is likely as market expects arrivals to increase.

Current Market Dynamics & Outlook:

Urad FAQ at Mumbai (Rs.3900/4000Qtl.) and Chennai (Rs.4300/4400Qtl.) noticed weak tone, at Vijayawada prices traded at Rs 4600/4700. Range bound to weak movement might be seen in Urad market as pressure from new crop is expected soon. The following graph shows the prices movement in different markets:-

Market Outlook: Urad Prices are likely to show steady to weak momentum this week despite procurement activities.

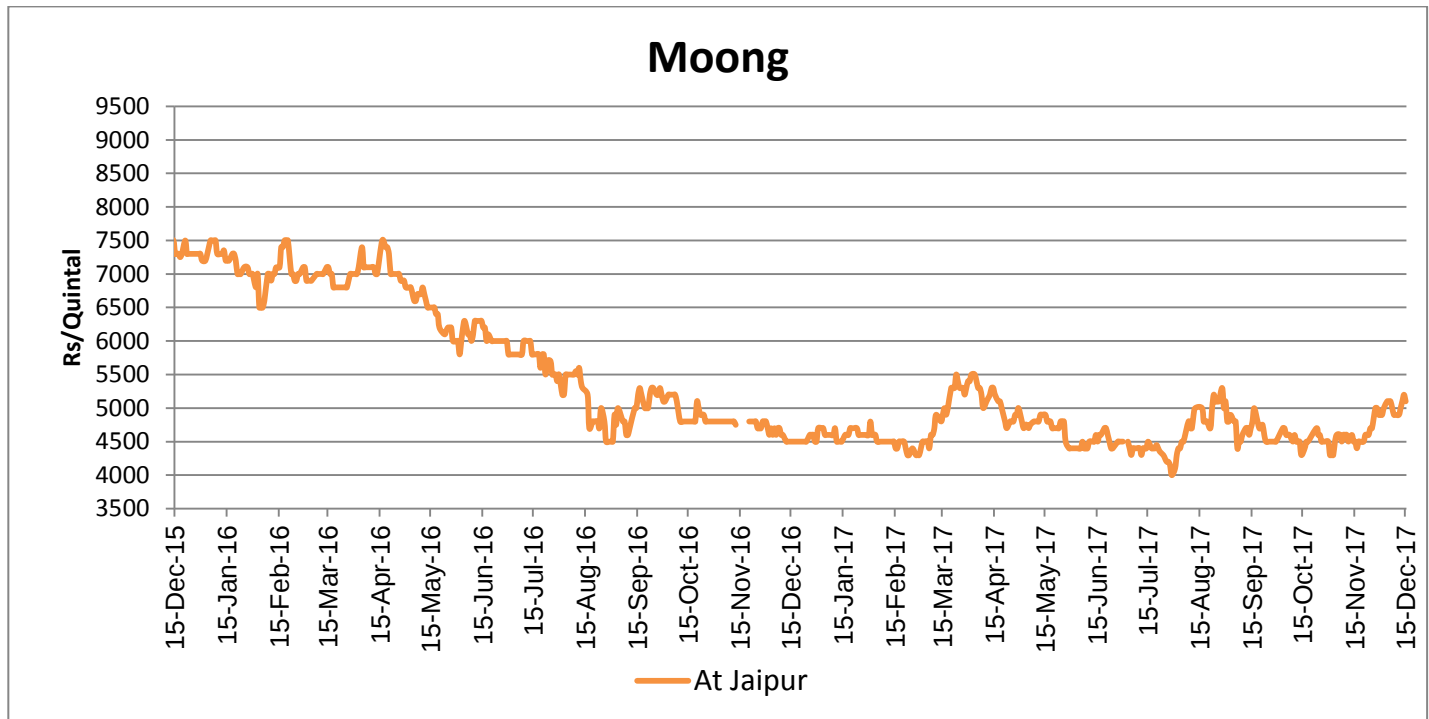

Green Gram (Moong):

Market Recap:

Rajasthan govt would buy Moong worth Rs 1524 crore to support price. Besides, arrival is declining. Cash market may move up. Desi moong prices noticed firm movement during the week under review. Overall tonne remains firm due to declining arrivals. Steady forward quotes and commencement of procurement remain supportive for Moong market. Sellers have restricted selling. Moong moved up at Rs 5100 during the week under review. Steady to firm tone may prevail. It would continue to move towards MSP level. Export opportunity is intact, with Indian and Burmese price coming to same level. As prices have increased by Rs 400 per qtl., downward correction is expected. Overall tone is firm.

Current Market

Moong at Jaipur showed steady to firm movement and traded in the range of Rs 5000 to Rs 5100 per quintal. Market may trade steady to firm this week due to some export demand and retention of stock.

Market Outlook: Moong prices are likely to trade steady firm in the near term.
