Commodity-wise Domestic, International Prices and Arrivals at Different Centers

Highlights-Domestic Market:

- **Rabi pulses sowing area is running ahead by 7.99 % to 154.91 lakh ha as on 05th Jan-2018.** Chana area was registered at 103.80 against 92.13 lakh ha. Masur area was registered at 17.04 against 16.56 lakh ha, peas area was recorded at 9.49 against 9.85 lakh ha. Even Urad and Moong area was recorded at 6.93 against 7.29 & 4.20 against 4.15 lakh ha. Other pulses area was recorded at 5.61 against 5.70 lakh ha. Overall sowing progress is running good. Bumper area coverage is on the card once again. See table below:
- **Pulses market continued to reel under pressure except peas despite govt.'s continuous efforts** to arrest declining prices of pulses. Imposition of import duty, procurement drive, quantity restriction, provision for procurement funds and allowing export, could not help pulses market up to desired extent. Two bumper crop years and excess import volume continued to toll normal market sentiments. Govt.'s all positive efforts would take time to support market and it is expected from the second half of 2018. By then, Agriwatch expects burden of excess stock to be consumed.
- **Import duty applicable on various pulses is likely to continue till pressure of** excess stock decreases. Currently, Chana & Lentils attract 30 percent duty while all peas attract 50 % duty. Tur attracts 10 % duty. Besides, import quantity restriction of Moong and Urad, has been fixed at 3 lakh tonne for both while for Tur it is 2 lakh tonne/ (already imported). Besides, G 2 G basis import too has been restricted from 3 to 1.24 lakh tonne from African countries.
- **Arrival of Tur is about to increase in coming weeks. Pressure on price continues despite** procurement drive & lower crop size of crop (around 30 lakh tonne against around 39 lakh tonne last year. It is being traded at Rs 4000 to Rs 4400 per qtl in Gulberga market depending on quality. Burma offers new Tur at \$400 per tonne basis Indian port. Old Tur is being offered at \$360 per tonne.
- **Urad market trades range bound. Slack demand from millers & comfortable** supply side, remains unsupportive to Urad cash market. It is being offered at Rs 3900/4000 per qtl in Mumbai market while it is being traded at Rs 4350/4400 in Chennai market. Steady to weak tone may prevail. Burma offers FAQ Urad at \$505 per tonne, basis Indian port. SQ is offered at \$625 per tonne.
- **Moong market stayed steady at Rs 5200 in Jaipur market. Buyers at higher level** remained sidelined. Burma offers Pakako Moong at \$690 per tonne. Govt.'s procurement drive has extended some support to market. However, uptrend is unlikely to continue due to higher retention and old stock.
- **In the medium term, pressure on chana is likely to continue. New crop size is higher by** over 95 lakh tonne. Old stock too is at higher side and import flow continues. Under prevailing condition, Chana in March -April, may trade at Rs 3400-3500 per qtl. if govt. does not intervene.
- **Demand for Moong at higher level was affected from millers' end. Arrival** is lower. Market participants say that a downward correction by Rs 200 is expected from current level. Fresh demand is expected from mid-January. The short-term outlook is weak while medium term outlook remains steady to slightly firm. Moong at Jaipur mandi traded Rs100 down to Rs 5200 per qtl.
- **Peas market traded up and firmness is likely to continue till new crop** hits India. Imported stock is decreasing. However, bearish tone in Chana would not allow peas market to move beyond a certain level.

International Market :

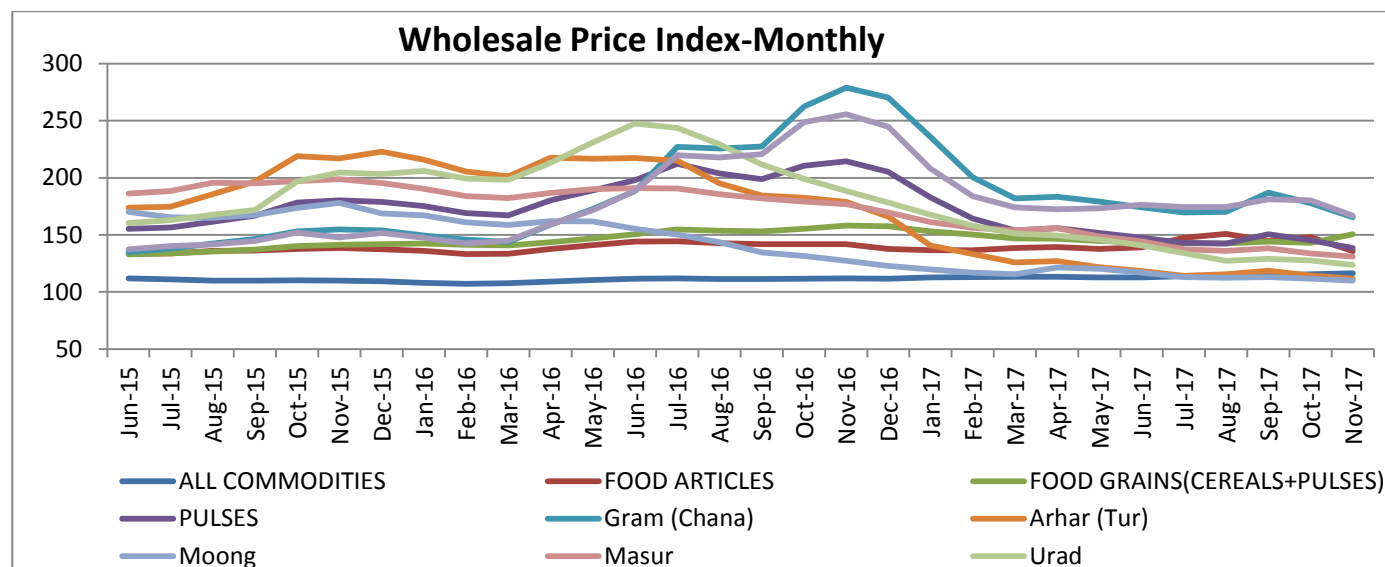

- **Frost has severely affected peas crop in Australia. Plant growth was limited to an alarming level** due to cold and frost. Yield has decreased from 2000 kg per ha to 200 kg per ha in parts of Riverland. Canadian laird lentils no. 2 moved slightly up by 2.5 cents to 27 to 32 cents per pound while Richlea 2 decreased by 2 cents to 22 to 28 cents per pounds. Yellow peas were holding firm in a range of C\$5.75 to C\$7.00 a bushel.
- **Global lentil markets ended with a mixed tone. Prices of red, traded range bound** in the week, while the spread between U.S. and Canadian green lentils widened to some extent. There is a concern in global market that India could impose an import duty on the product, given the risk that seeded area in India could match or exceed last year. Though the pace of seeding has slowed compared to last year, farmers in that country have sown 1.553 million hectares as of December 15, compared to 1.526 million during corresponding period of the previous rabi season.
- **Kabuli chickpea markets finished the week's trading on an uncertain note, with markets** for small caliber product destabilized by an increase in the number of Argentine farmers, by passing traditional exporters. Markets for large caliber product were unchanged in the week, with Mexico virtually sold out of product and Indian exporters holding firm on prices for 10mmm and larger caliber kabuli chickpeas.
- **As per latest US dry pea and lentil council, dry pea export from US declined** around 75% lower than last year in Sept-2016. Indian demand has decreased considerably due to bumper crop size. China too, has procured less quantity of peas. China has procured 2890 MT followed by India 2005MT and Mexico 1740 MT. Export data for pea from US for Oct is awaited.
- **Chickpeas production in Australia is expected to decrease from 11.88 to 10.55 lakh tonne** in 2017-18 from record 18.54 lakh tonne 2016-17. Despite 4.43 % higher area coverage, production is bound to decrease drastically due to hot and dry weather condition prevalent in the major growing regions. Chickpeas area increased from 1052 to 1099 thousand ha in 2017-18.
- **Lentils area in Canada is bound to decline from 23.72 to 17.43 lakh ha** in 2017-18. It is lower by 23.54 % from last year. Yield is expected to improve from 1.45 to 1.55 t per ha. Total production is expected to decline by 16 % from 32.48 to 27.25 lakh ha. As production, would decline, total supply would decline by 10.43 % to 30.35 lakh t. Average price in 2017-18 may rule in the range of C\$720 to 750 per T.
- **Chickpeas production in Australia is expected to decrease from 11.88 to 10.55 lakh tonne** in 2017-18 from record 18.54 lakh tonne 2016-17. Despite 4.43 % higher area coverage, production is bound to decrease drastically due to hot and dry weather condition prevalent in the major growing regions. Chickpeas area increased from 1052 to 1099 thousand ha in 2017-18.
- **Lentils production in Australia too is bound to decline from 8.3 to 4.19 lakh tonne** in 2017-18. It is almost 50 % down from last year. Lentils area was reported higher by 16 % at 3.55 lakh ha. Due to rough weather condition Lentils production, would decline to 4.19 lakh tonne. Field peas production too, is bound to decline by 32.47 % to 2.8 lakh tonne in 2017-18. Australia had produced 4.15 lakh tonne field peas in 2016-17.
- **Canadian Chickpeas Agriculture Canada, has updated its production estimate for Chickpeas** for marketing year 2017-18. According to new update Chickpeas production in Canada will improve from 58,000 (old estimate) to 81000 tonne against 82000 tonne produced last year. Export has been pegged at 85,000 tonne in MY 2017-18 against 1.52 lakh tonne during previous MY. Domestic use has been forecast at 6,000 toone against 16,000 tonne last year.
- **AAFC (Canada) has revised down peas production estimated from 42.50 to 41.50 lakh tonne** for 2017-18. In last one month, production estimate has been revised down by 1.50 lakh tonne for next season crop, due to lower prevailing price and weak demand from India and Pakistan. Canada had produced 48.36 lakh tonne peas in 2016-17.
- **Imposition of 50% import duty on all peas, has started impacting export volume** from Canada According to Agriculture and Agri-Food Canada Peas export would decrease from 3.9 MMT (2016-17 to 2.4 MMT in 2017-

18. Lower export volume would increase carryout around 5 lakh ton, higher than normal expectation. Yellow peas prices are hovering in the range of C\$5.00 to C\$6.50 a bushel in western Canada.

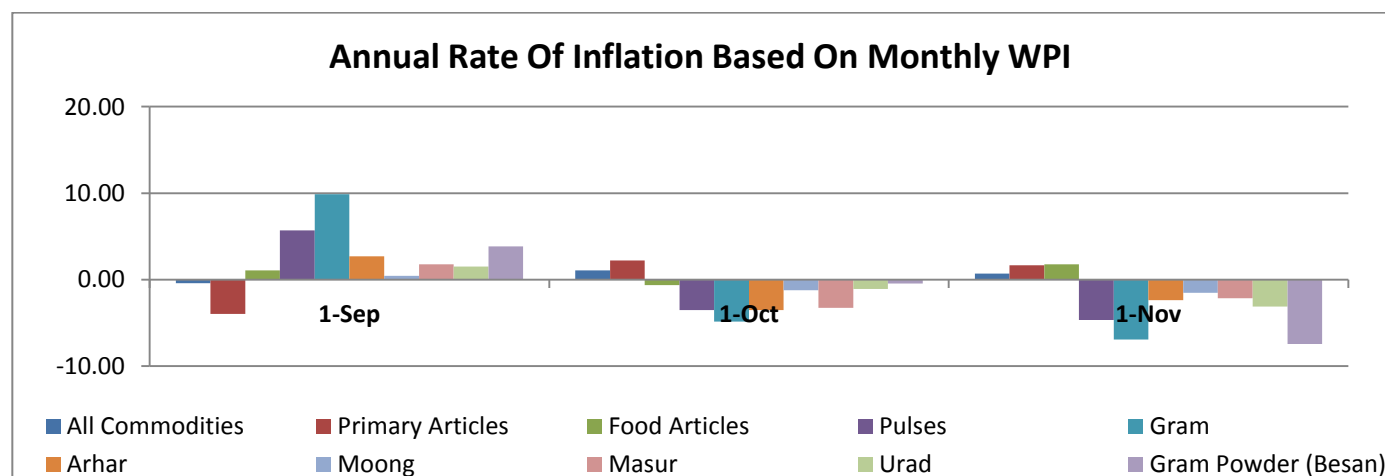

- **Peas import from Ukraine to India is bound to increase over 50 % to 6.5 lakh tonne** in 2017-18 as bumper production seems very much on the card. Ukraine produced 7.45 lakh tonne peas last year

Weekly Outlook: -Pulses are likely to trade steady to slightly weak due slackened demand and decreased trading activities in the beginning of the new year and market facing cash crunch.

Monthly Wholesale Price Index:

Annual Rate Of Inflation:

Index Numbers of Wholesale Price in India (Base: 2011-12=100)

Pulses WPI decreased by 6.8 point from 145.2 in Oct to 138.4 in Nov-2017.

Pulses-Wise Scenario:

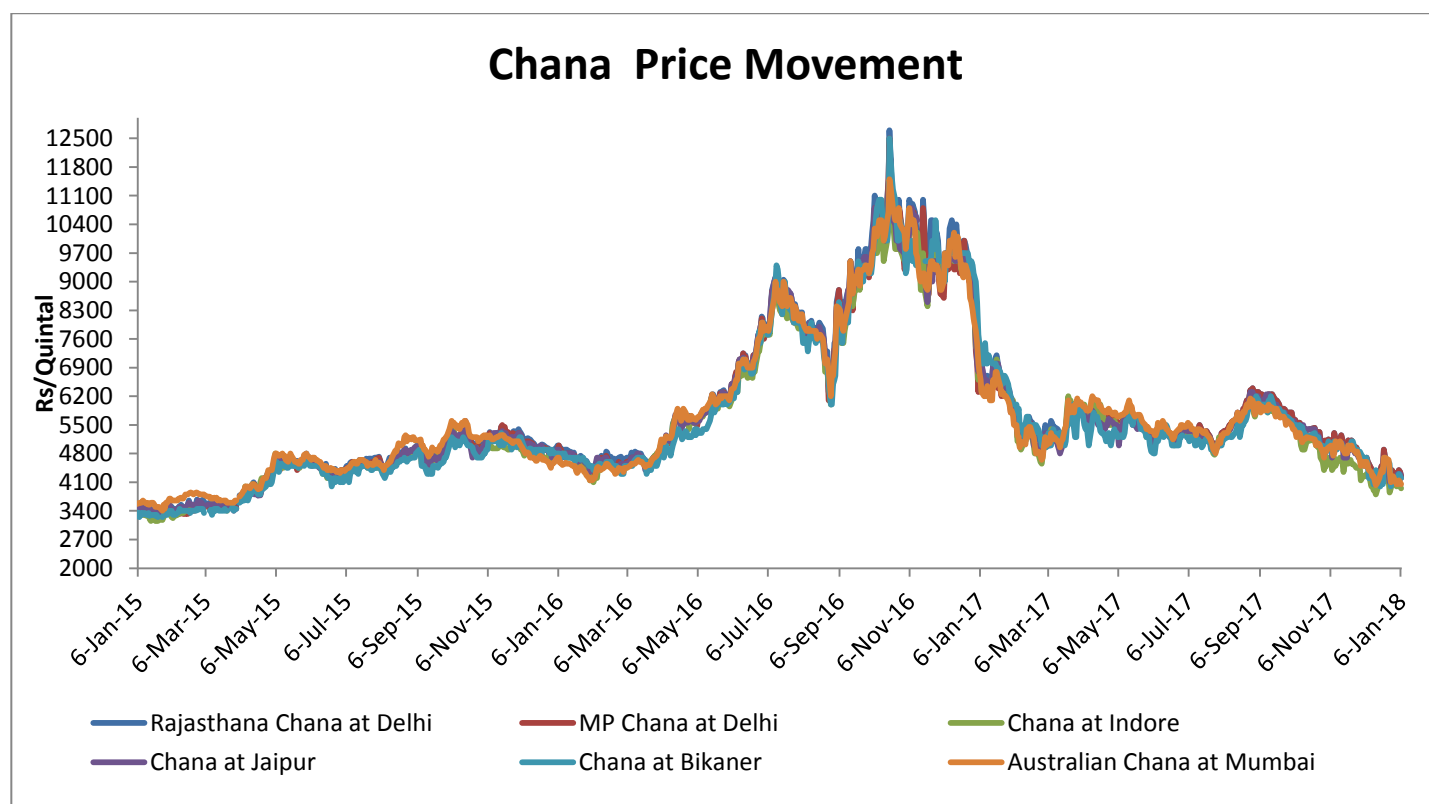

Chana

Market Recap:

Chana cash market continues to reel under pressure despite govt.'s various attempts to arrest declining prices. Record area coverage also putting pressure on cash chana market. Chana in Delhi market traded at Rs 4250/4300 per qtl. With new arrivals, prices are likely to decrease below MSP soon. Private buyers are very watchful and expect prices to fall below 3500 level till March. There is no immediate impact of Imposing 30% import duty on Chana. It would help market in second half of the year. Even higher margin by NCDEX(20 %) on short side remains ineffective. Private buying in cash market is taking place based on immediate demand. Higher crop size, weak demand and bulk buyers inactiveness remain the price affecting factors. Overall tone remains weak.

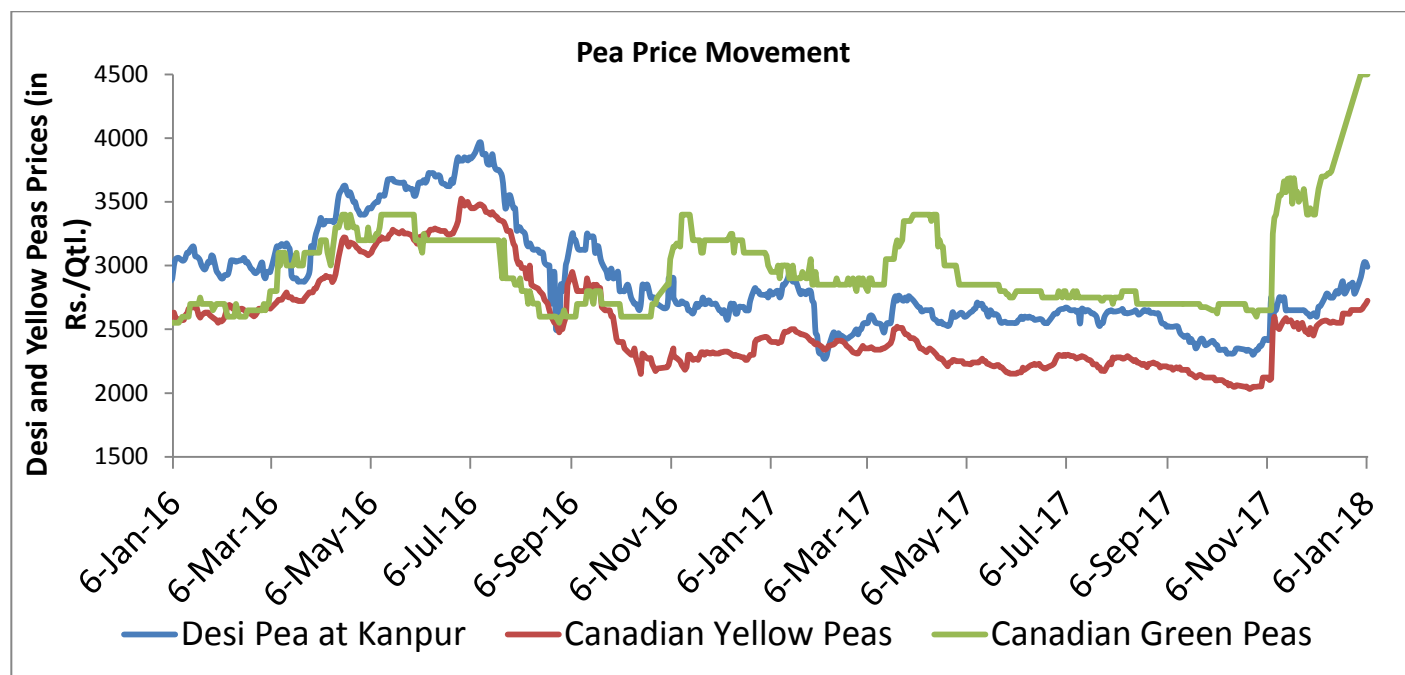

Current Scenario:

Chana all India average price decreased by 0.42 percent to Rs 4236 per qtl. Any recovery is unlikely despite imposition of duty and additional margin on short side on NCDEX. In Delhi market, it is being traded at Rs 4250 per qtl. In Mumbai, Australian Chana is being offered at Rs 4100 per qtl. Overall outlook remains weak for Chana in the medium term. Dal export is possible in the second quarter of the new the year. It is better to sell chana stock than to retain it. Following graph illustrates the chana price movement in different markets:

Market Outlook: Steady to weak tone may prevail .Selling on rise is good for stakeholders.

Peas (Matar):

Market Recap:

Peas market traded firm during the week under review. Recent recovery seen is unlikely to continue. With decreasing chana price, pressure on peas may build up.. Chana may trade weak. So, pea too is expected to trade lower in coming weeks. Besides, new crop would hit market in Feb, so there is no concern on supply front right now. Imported stock is declining. If prices start moving up, govt has option to decrease duty. Right now 50 % duty is applicable on all peas. The average price increased by 3.58 % to Rs 2834 per qtl. It may trade range bound to slightly firm in the near term. Import flow is expected to come to a halt. Coverage area is likely to increase due to price factor.

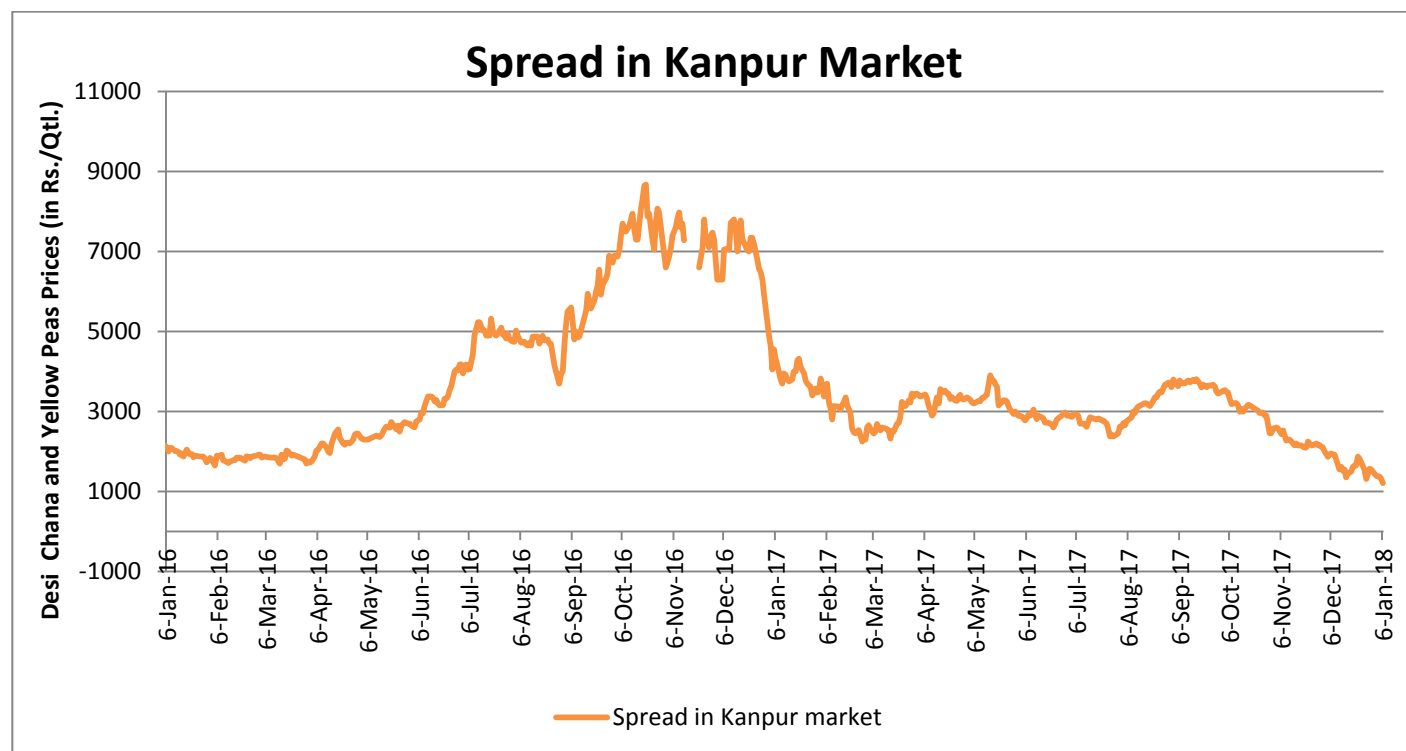

Current Market Dynamics & Outlook:

At Kanpur, Desi Peas traded firm at Rs 2990 due to offtake at higher level and duty impact. Average price moved up by 2.11 % to Rs 2885 per qtl. Firmness is unlikely due to commencement of chana arrival. Average price of all peas increased by 3.88 % to Rs 3389 per qtl. Canadian matar is being traded at Rs 2725 in Mumbai while Russian Matar quoted at Rs 2715 per qtl. There are no quotes for imported Hari Matar (green Pea). Prevailing market price is hovering around Rs 4500. Market is expected to trade steady to slightly firm in the near term. With current applicable duty, import is unviable.

Spread With Chana:

Spread between Chana and Peas at Kanpur market decreased by Rs 204 to Rs 1335 per qtl owing to increased peas and decreased Chana price. Spread is expected to move in the range of 1200 to 1450 per

quintal in the coming weeks on relative movement in Chana prices. Overall outlook seems steady to slightly firm due to decreasing imported stock..

Market Outlook:

Outlook remains steady to slightly firm this week.

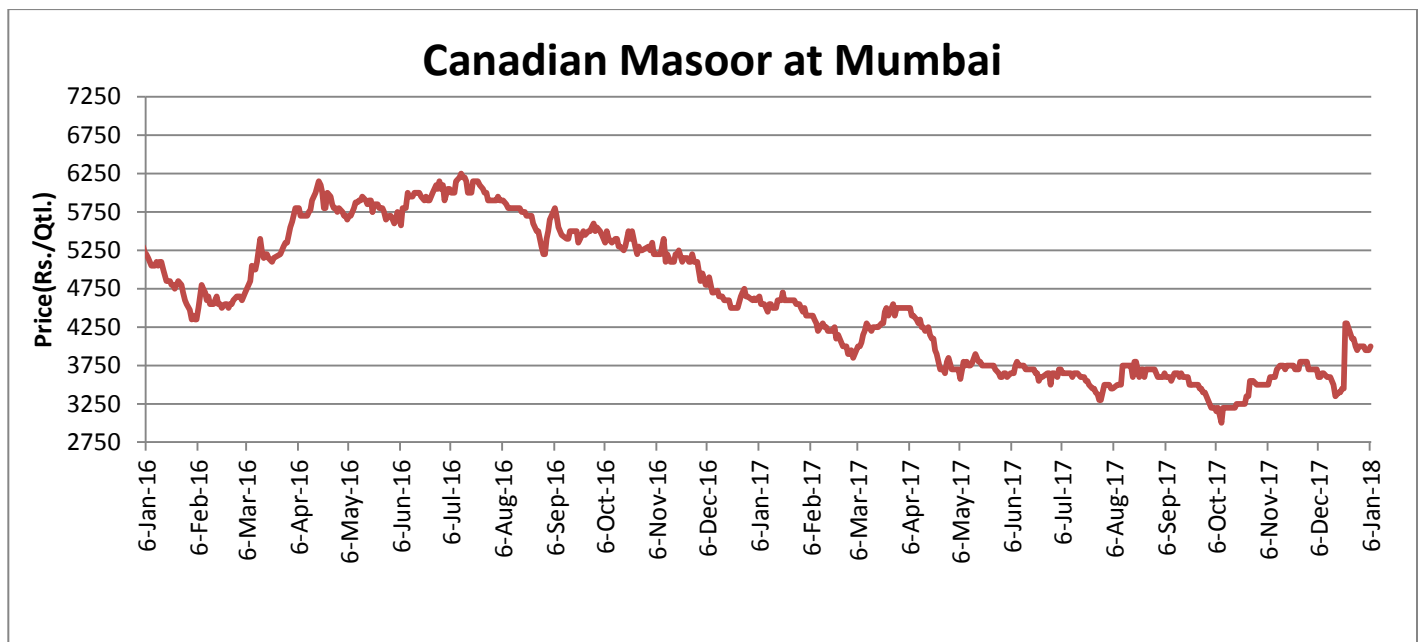

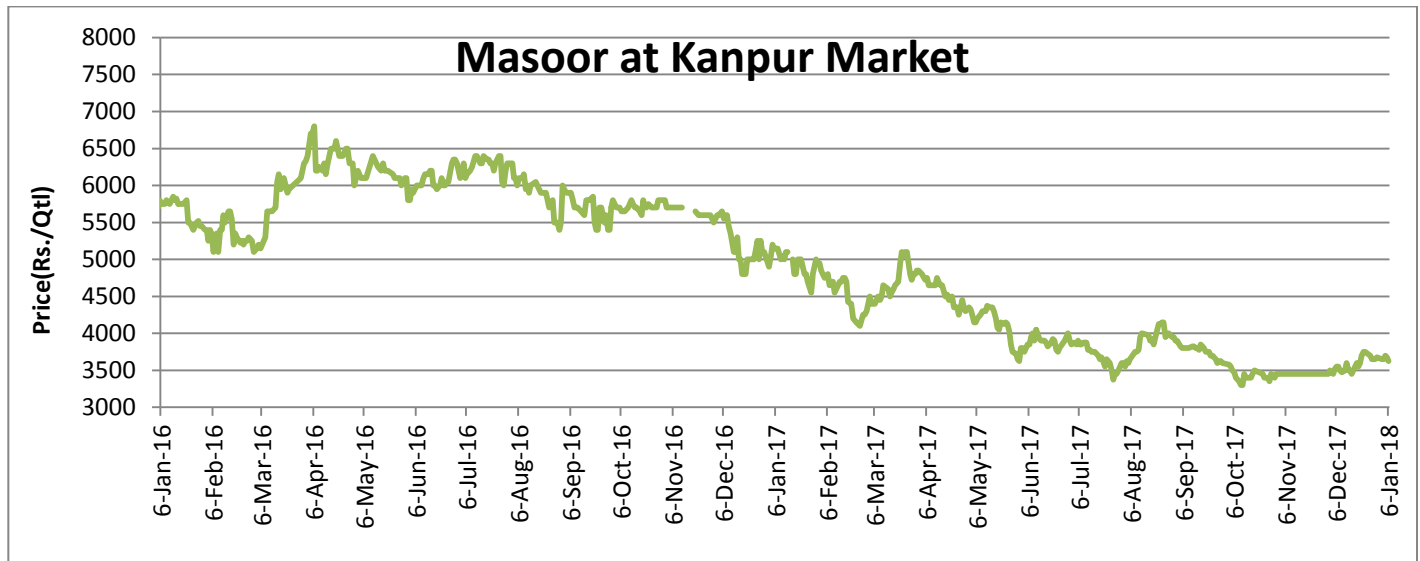

Lentils (Masoor):

Market Recap:

Kanpur market opened with a firm note in the beginning of the week and could not sustain at higher level despite imposition of 30% import duty. Area under Lentils is bound to increase this year as overall sowing trend is higher by 2.94 % to 17.04 lakh ha so far. Overall sentiments remain steady to slightly firm in the short term. Stakeholders should buy on dip. Market is expected to trade range bound. Demand at higher level gets affected.

Current Scenario:

Weekly average price decreased by 0.51 % to Rs 3660 per qtl. Currently in Mumbai it is being quoted at Rs 4000 per qtl. Canadian Massor is showing steady to weak movement and was traded in the range of Rs.3950/4000 per quintal. Weak tone may prevail this week too due to slack demand. The following chart shows the masoor prices movement in key markets:-

Market Outlook: Prices are likely to notice range bound to slightly weak movement this week.

Pigeon Pea (Tur/Toor):

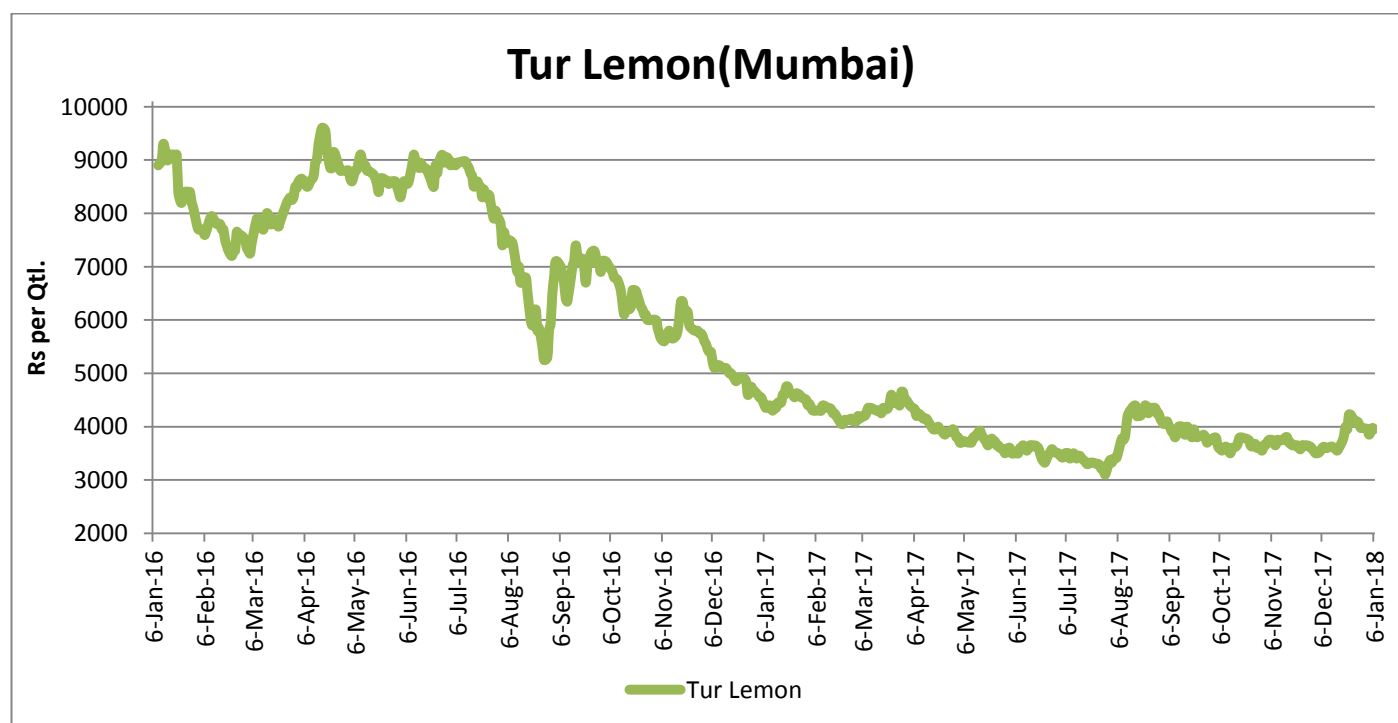

Market Recap:

Tur procurement in Karnataka begins. Maharashtra would start procuring from 15th January-2018. This year purchase target has been fixed at 1.65 lakh tonne for Karnataka. State government has proposed to give bonus of Rs.550 per quintal , over and above MSP.

Private trades are active in Karnataka and Maharashtra at current price sensing lower crop size and restricted imports this year. It would restrict market from any big dip despite new arrivals. Current weak demand is due to cash crunch market and pressure is yet to build up. However, one way uptrend is unlikely as govt has around 0.4 MMT stock . Market is expected to stabilize at current level. Buying on dip is good

Current Market Dynamics & Outlook:

New crop has started arriving in markets of Maharashtra and Karnataka. New Tur is being traded at Rs.4000-4400 per quintal. Procurement drive, marginally firm quotes in Myanmar and increased private buying remain supportive of prices in coming weeks. Burma offers old Tur at \$360 per tonne while new Tur is being offered at \$400 per tonne, much lower than prevailing price in India. Steady to weak tone may prevail in the market.

Red Tur At Gulberga(Rs /Qtl.)

Market Outlook: Tur prices are likely to show steady to slightly weak movement this week.

Black Matpe (Urad):

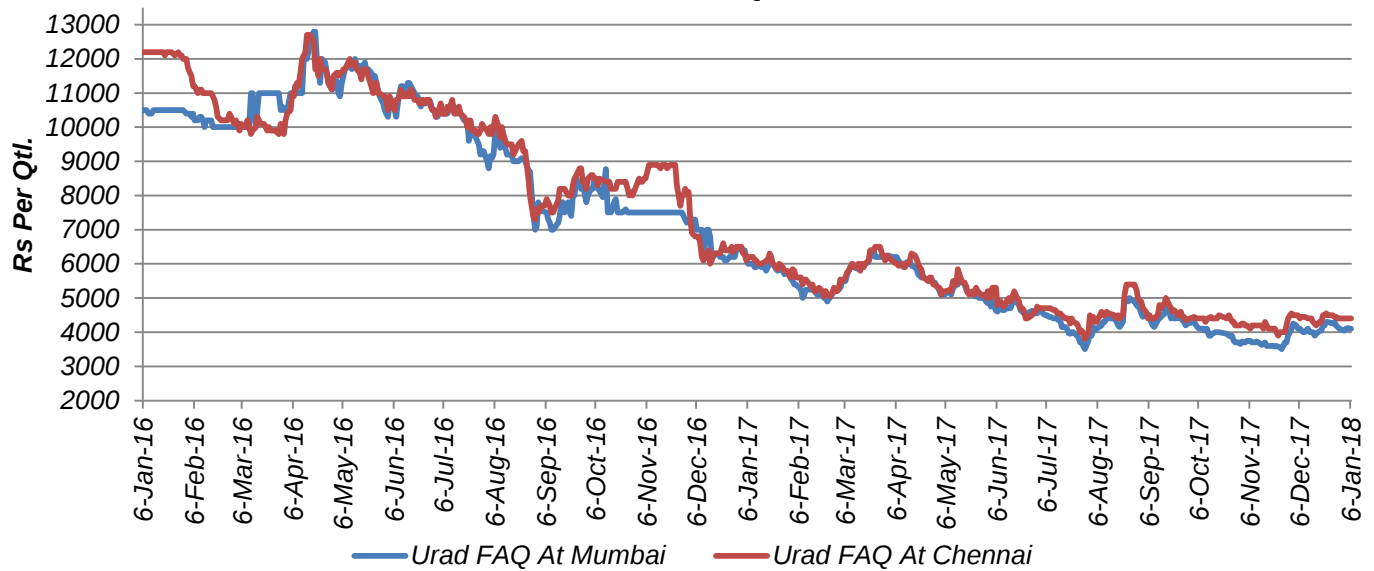

Market Recap:

Urad cash market continued to reel under pressure due to increased selling by stockists. Stockists & importers intend to get rid of old accumulated stock as new rabi crop is at hand. Private buying is not up to the mark due to money crunch and prevailing weak inner tone in the cash market. Steady to weak tone may continue to prevail this week. Urad FAQ Chennai is being traded at Rs 4300 to 4350 per quintal while in Mumbai it traded down by Rs 150 to Rs 3900 - 4000 per quintal. There is no export opportunity for Indian Urad at prevailing prices as Burma offers FAQ Urad at \$500 and SQ at \$625 per tonne. Urad stock with FCI till 2nd fortnight of Dec- was reported at 12255 metric tonne, down by 2500 tonne from previous week. Selling through auction continues.

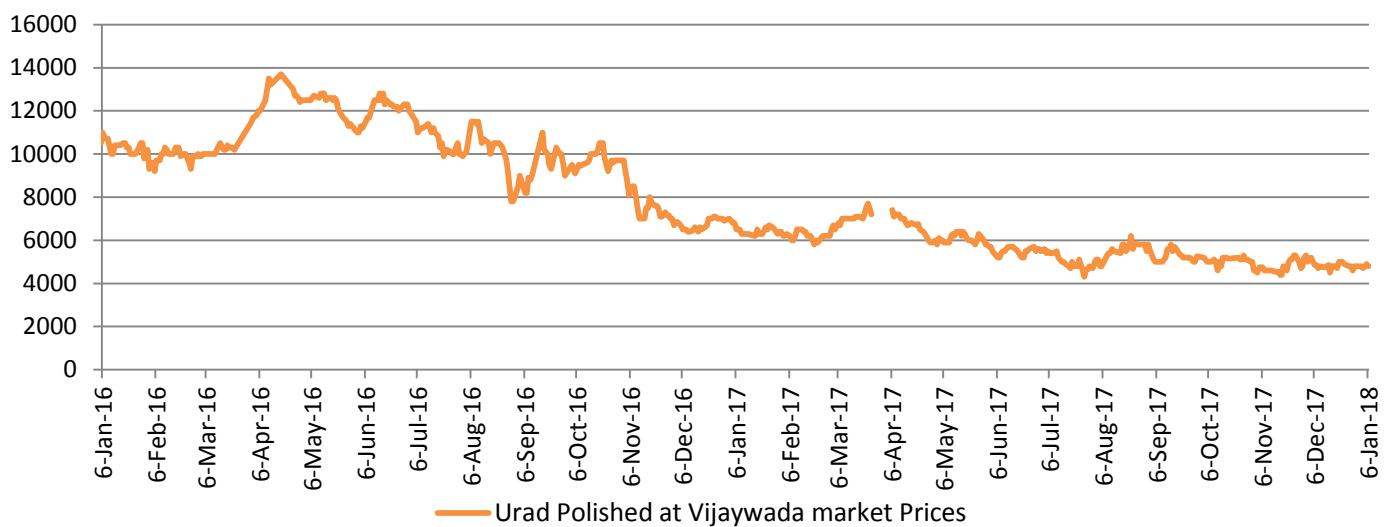

Current Market Dynamics & Outlook:

Urad FAQ at Mumbai (Rs.4000-4100Qtl.) and Chennai (Rs.4400Qtl.) noticed weak tone, at Vijayawada, prices traded at Rs 4800. Steady to slightly weak movement might be seen in Urad market due to weak demand. The following graph shows the prices movement in different markets:-

URAD FAQ

Urad Polished at Vijaywada

Market Outlook: Urad Prices are likely to show steady to weak momentum this week .

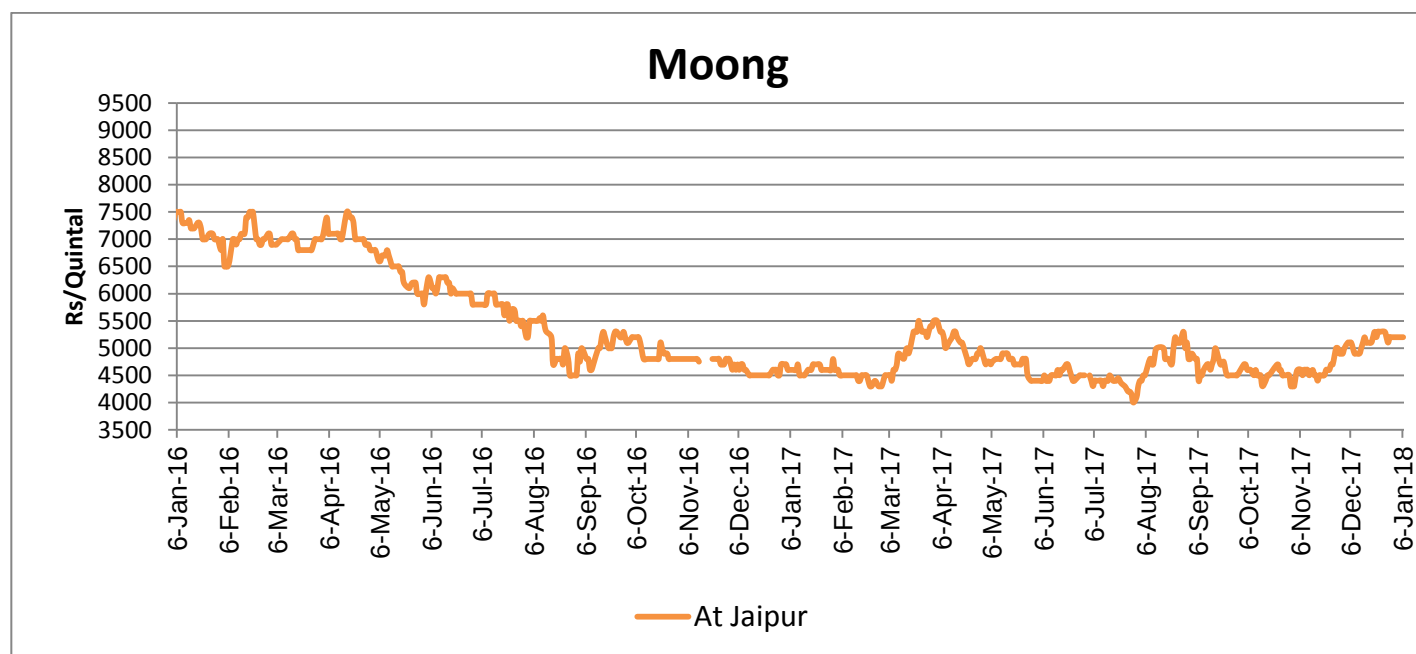

Green Gram (Moong):

Market Recap:

Moong market traded steady to slightly weak due to negligible arrivals from farmers, retained stock by stockists and fresh arrival not expected before end of March. Moong traded at Rs 5100-5200 per quintal in Jaipur market. It may continue to move towards MSP level (Rs 5575) in the short to medium term. Affected arrivals due to cold wave and millers' unwillingness to buy at higher level, have affected demand. Steady to slight weak tone might be seen this week too.

All India Rabi Moong acreage is running ahead by 1.21% to 4.20 lakh ha. Till 5th January-2018. It is up in AP by 20.16% to 0.76 lakh ha while down by 11.4% & 55.6% in Tamil Nadu and Telangana respectively. Current Market

Moong at Jaipur showed steady to weak movement and traded in the range of Rs 5100 to Rs 5200 per quintal. Market may trade steady to weak this week due to weak demand factors. Burma offers Moong Pokako at \$690 per tonne.

Market Outlook: Moong prices are likely to trade range bound in the near term.
