Commodity-wise Domestic, International Prices and Arrivals at Different Centers

Highlights-Domestic Market:

- **Chana cash markets trade under pressure on weak demand and increasing arrivals** in major producing states like Rajasthan, Madhya Pradesh and Maharashtra. Lower offtake from dal millers continues to weigh on market fundamentals. In Delhi market Chana traded at Rs 3800-3900 per qtl. depending on quality of new crop. Weak sentiment may prevail as traders are engaged in March closing. Selling pressure on port affected Chana price in Mumbai at Rs 3750-3800 per qtl. Farmers are selling Chana under Bhavantar Yojna. Rajfed would start procuring Chana on MSP from 14th March. Besides, state agencies including Nafed are active in Maharashtra. So any major decrease from current level is unlikely.
- **Higher duty would restrict import at negligible level even in the second half of the year** and restrict declining prices to a great extent. We expect market to stabilize near current level. Private buyers are buying with their immediate demands at hand. Stake holders should buy on dip.
- **Chana production estimate by govt. has been revised up from the target of 9.75 MMT to 11.1 MMT** for 2017-18 in the 2nd adv estimate, released on 27th Feb-2018. For 2016-17 final chana production estimate has been pegged at 9.38 MMT.
- **Tur market traded steady. Market is expected to trade steady as normal demand continues** as decreased level. In Gulberga market Tur traded at Rs 3950-4250 per qtl. Agriwatch expects demand to improve by the end of this month.
- **As expected last week, demand for Tur dal decreased and stockists resorted to** release old stock at higher level. Besides, pace of procurement slowed down last week. Its impact was seen on cash market price. Tur prices in various markets decreased by around Rs200 per qtl. It is being traded at Rs 3900 to Rs 4300 per qtl in various market. As demand is weak, market is expected to stay steady this week. On going procurement drive may restrict further downward movement of the market. Overall tone remains firm in the medium term.
- **Weak demand from dal millers and stockists selling strategies have pressurized Urad market and** it traded down by Rs 100-150 per qtl. Normal demand is expected this week. So any major move in either direction is unlikely. Urad kharif and rabi production estimate has been pegged higher at 3.23 MMT, against production target of 2.6 MMT in the second adv estimate released on 27th Feb-2018. For 2016-17 final production fig for rabi and kharif has been pegged at 2.84 MMT. Kharif Urad production has been pegged at 2.6 MMT against target of 1.85 MMT while rabi production has been pegged at 0.63 MMT against target of 0.75 MMT.
- **Steady tone prevailed in Moong market. Weak demand has restricted millers to go for bulk** buying. Demand is likely to remain weak due to March closing. Moong traded at Rs 4800 in Jaipur market. Steady tone may prevail in cash market.
- **As expected, moong market traded lower despite govt's attempts to arrest declining** prices through increasing bank limit for Nafed, provision in budget to ensure 1.5 times production cost for farmers. Higher rabi crop size in Odisha and huge inventory continue to pressurize moong cash market. Acreage in Odisha has increased from 5.17 to 5.86 lakh ha this year. At national level area under rabi Moong increased from 7.34 to 8.31 lakh ha this year. Out of total, Odisha contributed 5.86 lakh ha. Rabi production is expected to increase from 5.50 lakh tonne to around 7 lakh tonne. This would further ease supply in coming weeks.
- **Current improvement in Masur is due to demand from West Bengal.** It is expected to come down again. So it is advisable to buy after correction. Crop condition is good and crop from Bihar would hit market from next week. Pressure on lentil market continues as new crop is at hand. Export is not feasible as exporting countries offer it at cheaper price. Import would be restricted due to 30 % duty. Market would move up April onward. Govt would procure on MSP in Uttar Pradesh and MP.
- **Peas market traded slightly firm. Range bound movement is expected this week.** Desi pea in Kanpur market is being traded at Rs2941-2950 per qtl. Canadian peas are being offered at Rs 2951-61 (duty included in it) Russian pea is being offered at Rs 2975. Steady to firm tone may prevail this week.

International Market:

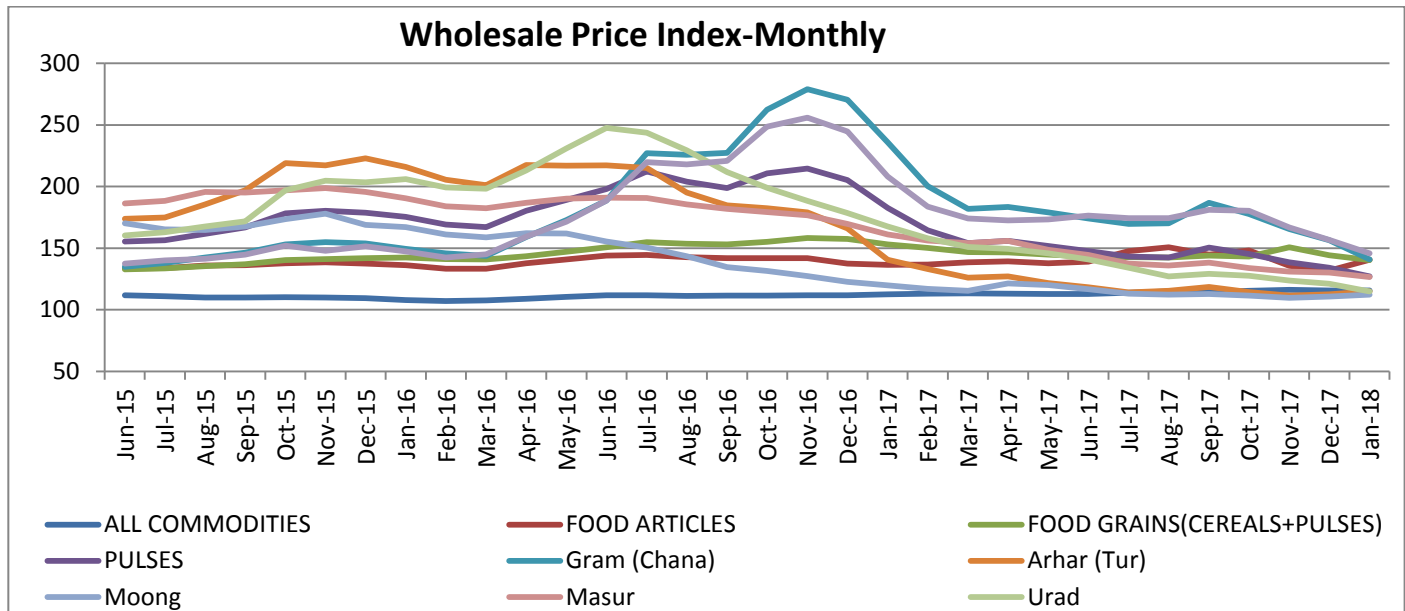

- **India & Canada have agreed to solve fumigation issue by the end of this year.** PM of both the countries have announced that India and Canada will work closely together to finalize an arrangement within 2018 to enable the export of Canadian pulses to India free from pests of quarantine importance, with mutually acceptable technological protocols. However, no statement has been made over import duty ranging from 30 to 50 % applicable right now.
- **Pulse Australia has signed an agreement with Indian Pulse and Grain Association (IPGA)** for greater exchange of information on Indian pulse crops. IPGA says that better exchange of market information will benefit producers and the operation of the supply chain. Insight into pulse crop developments in India is especially important, given the global status of India in pulse markets-says Pulse Australia CEO, Nick Goddard.
- **India has increased import duty on Chickpeas from 40 to 60 % now and it will affect Canadian & Australian pulses markets more.** Any possibility of import has diminished completely now. Canadian minister of infrastructure and communities, Amarjeet Sohi had said talks were on to resolve the pulses import duty issue with India. The Centre had imposed a 30 per cent import duty on Masur (chana) and 40 % on Chana(now 60 % End Feb-2018) in December and 50 per cent on yellow peas in November. Besides, govt. would buy oilseeds and pulses at pre-set prices till 2021-22 with waiver of 1 per cent government guarantee fee. All these developments are not in favor of overseas Pulses exporters.
- **CEO of Myanmar Pulses Beans and Sesame Seeds Merchants Association (MPBSMA) San U Myat Soe,** has given hint that Indian and Burmese Govt.'s official are still engaged in sorting out issue related to pulses purchase from Myanmar. Price modalities are being set. Myanmar govt is eager to sell pulses to India at locally prevailing price while Indian govt wants to fix pulses price below market prevailing price. Market is awaiting decision.
- **Lentil price has come down from \$500 to \$475-80 per tonne.** Major buyers like India are not going to enter the market for any bulk purchasing. So, buying interest of other countries would not fill the gap. So price is likely to stabilize at current level.
- **Lower demand from major importing countries has led to lower lentil and peas area in Canada this year.** Lower export volume from Canada also hints at weak demand and it is likely to continue in 2018 too. Farmers in Canada had covered around 10 million acres in 2016, which was around 40 lakh acres higher than 2013-14 crop year. This year, total area declined to 85 lakh acres. Under lentil crop around 44 lakh acres has been covered while pea area was reported at 41 lakh acres. Despite lower area coverage in 2017 it is second largest area coverage. So supply side is unlikely to be tight this year.
- **Chickpeas production in Australia is expected to decrease by 47.85 % to 10.45 lakh tonne in 2017-18** from record 2004 lakh tonne 2016-17. Despite 4.43 % higher area coverage, production is bound to decrease drastically due to hot and dry weather condition prevalent in the major growing regions. Chickpeas area increased from 1069 to 1144 thousand ha in 2017-18.
- **Production of Yellow pea continues to increase in Nebraska.** In 2017/18, 70,000 acres of yellow peas were planted in the state, up from 10,000 acres five years ago.
- **Lentils area in Canada is bound to decline from 23.72 to 17.43 lakh ha in 2017-18.** It is lower by 23.54 % from last year. Yield is expected to improve from 1.45 to 1.55 t per ha. Total production is expected to decline by 16 % from 32.48 to 27.25 lakh ha. As production, would decline, total supply would decline by 10.43 % to 30.35 lakh t. Average price in 2017-18 may rule in the range of C\$720 to 750 per T.
- **Lentils production in Australia too is bound to decline from 8.3 to 4.19 lakh tonne in 2017-18.** It is almost 50 % down from last year. Lentils area was reported higher by 16 % at 3.55 lakh ha. Due to rough weather condition Lentils production, would decline to 4.19 lakh tonne. Field peas production too, is bound to decline by 32.47 % to 2.8 lakh tonne in 2017-18. Australia had produced 4.15 lakh tonne field peas in 2016-17.
- **Imposition of 50% import duty on all peas, has started impacting export volume from Canada,** According to Agriculture and Agri-Food, Canada Peas export would decrease from 3.9 MMT (2016-17 to 2.4 MMT in 2017-18.

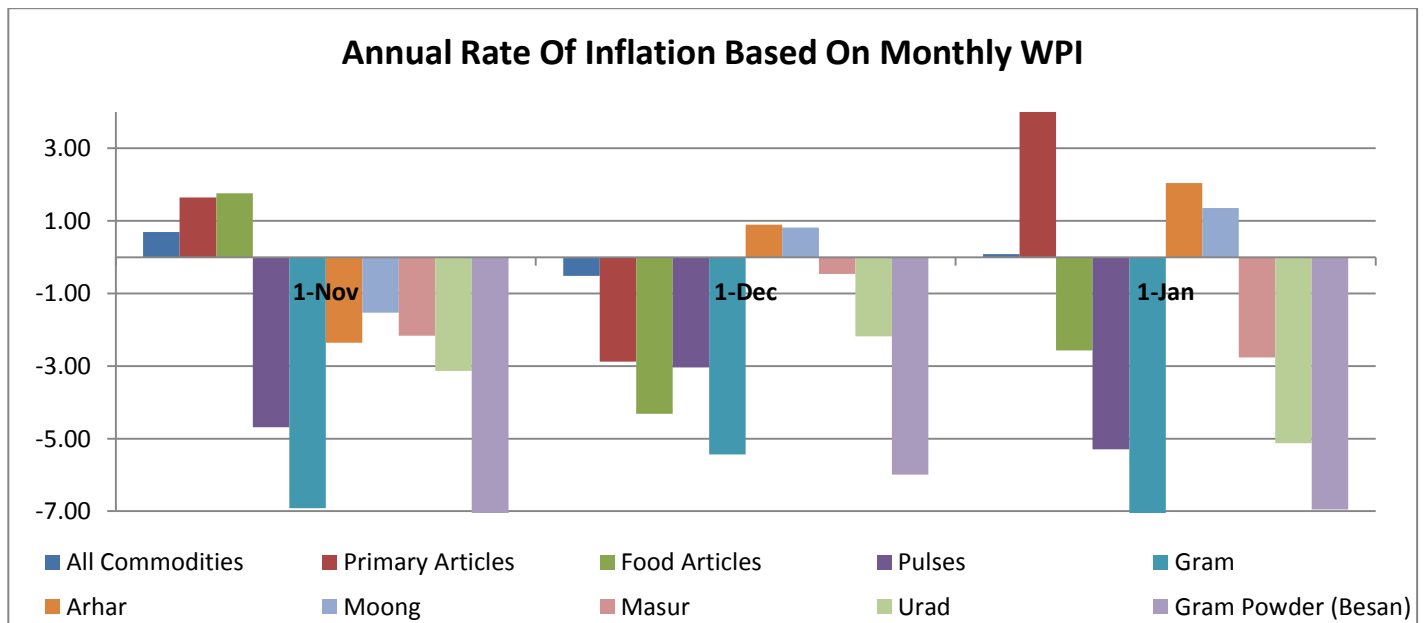

Lower export volume would increase carryout around 5 lakh ton, higher than normal expectation. Yellow peas prices are hovering in the range of C\$5.00 to C\$6.50 a bushel in western Canada.

Weekly Outlook: -Pulses are likely to trade range bound with weak bias likely to continue.

Monthly Wholesale Price Index:

Annual Rate Of Inflation:

Index Numbers of Wholesale Price in India (Base: 2011-12=100)

Pulses WPI decreased by 7.1 point from 134.2 in Dec to 127.1 in Jan-2018.

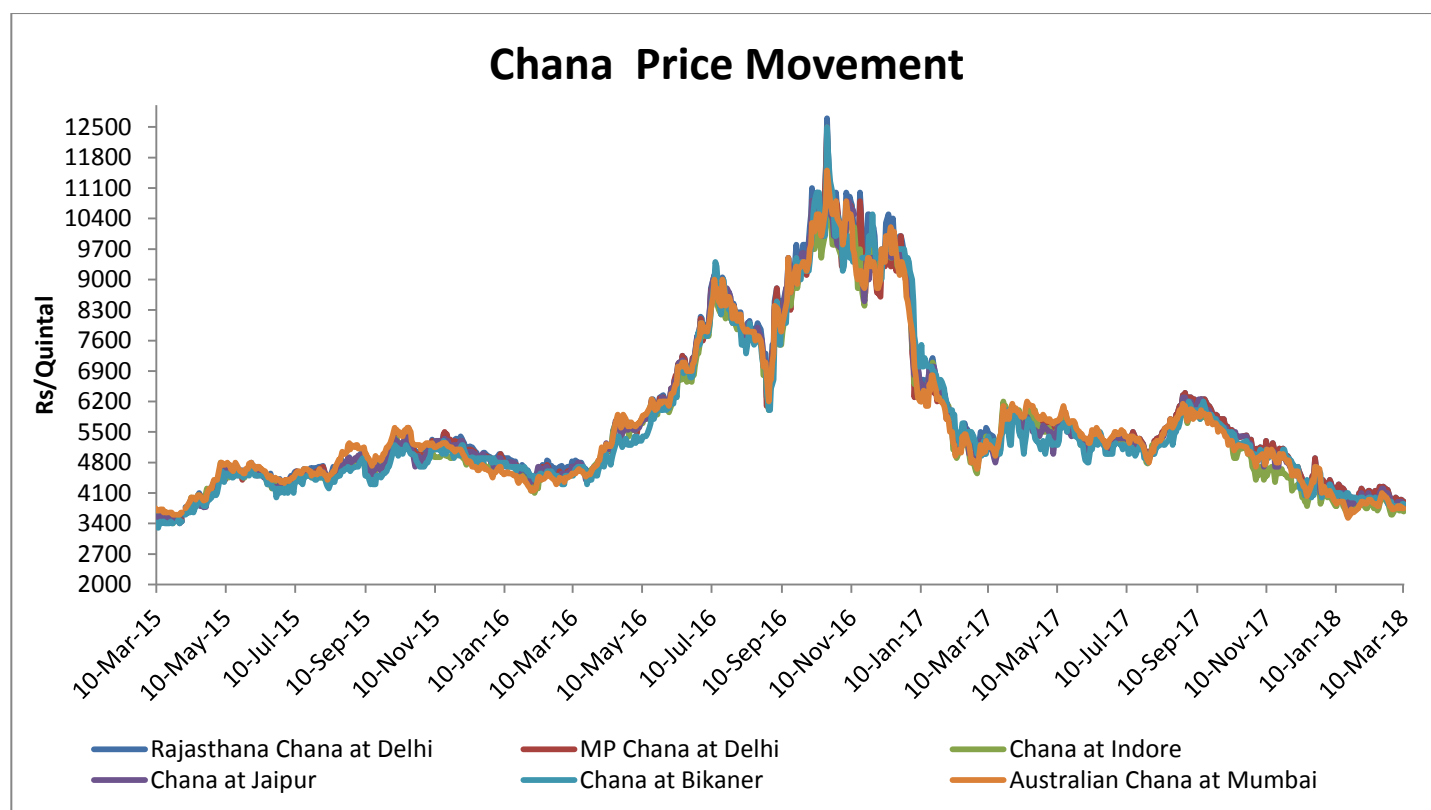

Pulses-Wise Scenario:

Chana

Current Scenario:

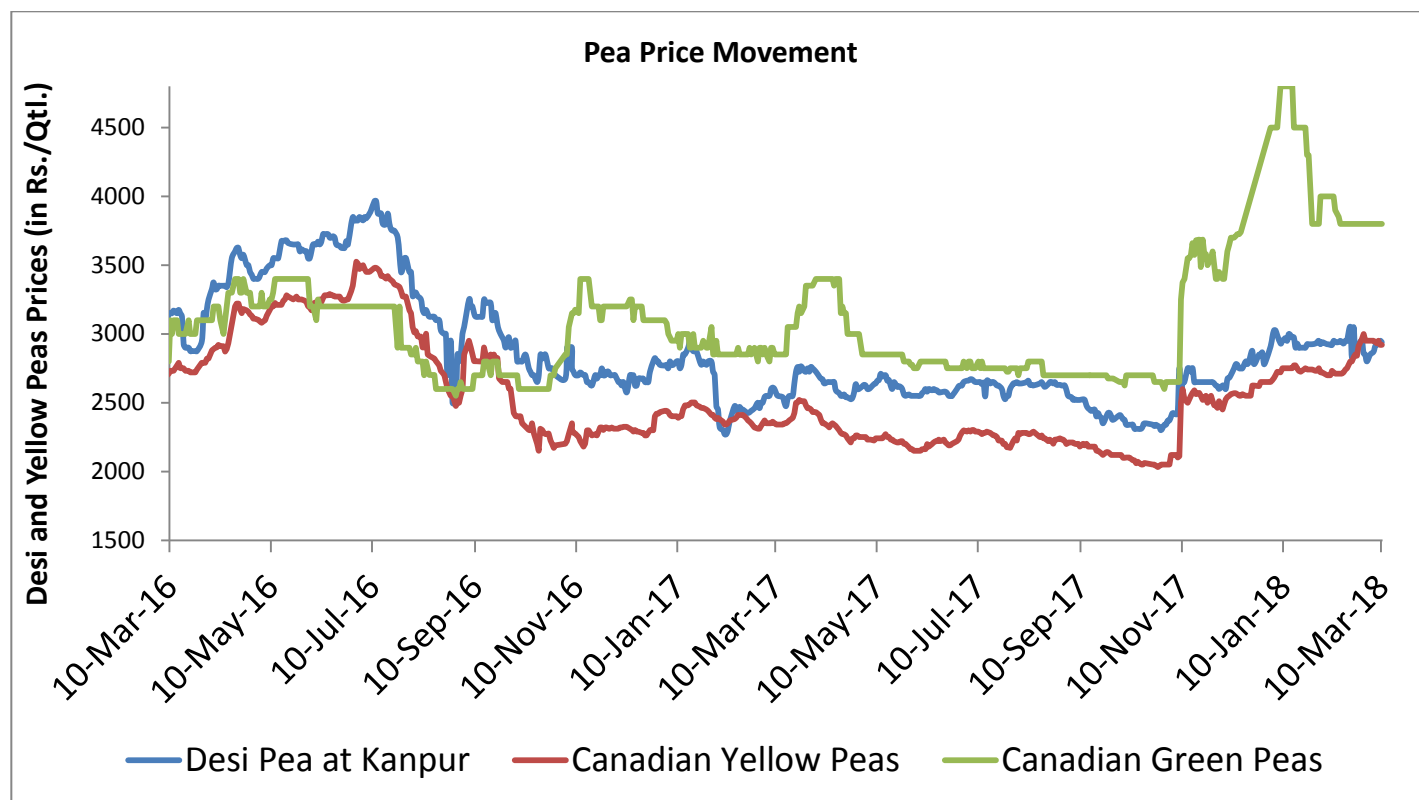

Chana cash markets trade under pressure on weak demand and increasing arrivals in major producing states like Rajasthan, Madhya Pradesh and Maharashtra. Lower offtake from dal millers continues to weigh on market fundamentals. In Delhi market Chana traded at Rs 3800-3900 per qtl. depending on quality of new crop. Weak sentiment may prevail as traders are engaged in March closing. Selling pressure on port affected Chana price in Mumbai at Rs 3750-3800 per qtl. Farmers are selling Chana under Bhavantar Yojna. Rajfed would start procuring Chana on MSP from 14th March. Besides, state agencies including Nafed are active in Maharashtra. So any major decrease from current level is unlikely.

All India average price for Chana decreased by 0.52 percent to Rs 3847 per qtl. Market is expected to stabilize near current level. In Delhi market, it is being traded at Rs 3850-3900 per qtl. In Mumbai, Australian Chana is being offered at Rs 3800-3850 per qtl. (old stock). There is no fresh import deal as there is no parity on higher duty. Steady to slightly weak sentiment may prevail in the near term. Dal export is possible in the second quarter of the year. Import is expected to remain halted due to 60 % duty. Buyers should buy on correction. Following graph illustrates the chana price movement in different markets:

Market Outlook: Steady to weak tone may prevail. Buying on dip is good for stakeholders.

Peas (Matar):

Market Recap:

Peas market traded slightly up during the week under review. However, weak chana may pressurize pea market this week too. As supply side is ample with commencement of new crop, slight correction might be seen in cash market in the near term. Pea may trade steady to slightly weak, taking clue from Chana. Right now, 50 % duty is applicable on all peas. The average price increased by 0.13 % to Rs 2942 per qtl. in Kanpur market, Canadian pea increased by 0.52 to Rs 2841. It may trade range bound in the near term. Import flow is expected to come to a halt in the first quarter.

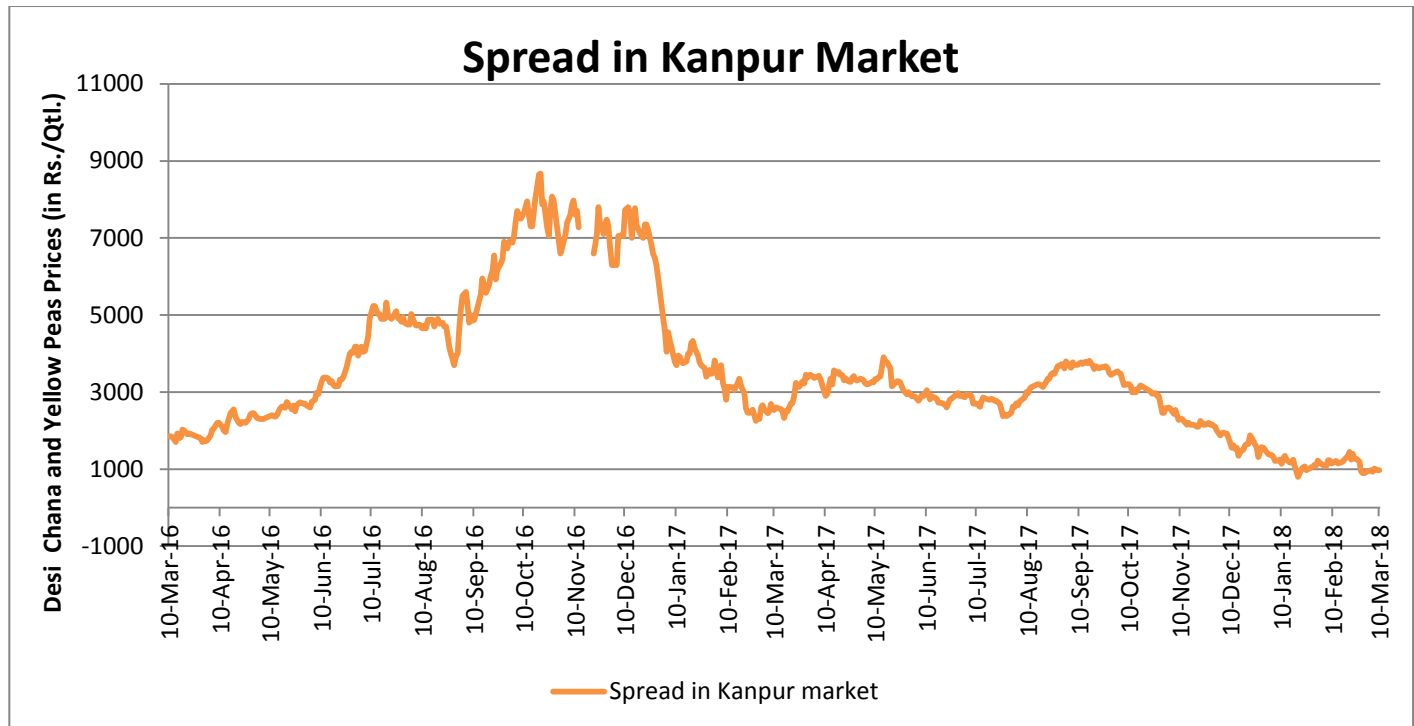

Current Market Dynamics & Outlook:

At Kanpur, Desi Peas traded firm at Rs 2940 due to improved demand. Firmness is unlikely due to commencement of new chana. Russian pea is being traded at Rs 2901 in Mumbai while Canadian Matar, is being quoted at Rs 2841-51 per qtl. Green peas, was quoted at 3800 per qtl. Market is expected to trade range bound to weak in the near term. With current applicable duty import volume is expected to be restricted.

Spread With Chana:

Spread between Chana and Peas, at Kanpur market decreased by Rs 95 to Rs 925 per qtl owing to decreased prices of peas and increased Chana price. Spread is expected to move in the range of 850 to 1100 per quintal in the coming weeks on relative movement in Chana prices. Overall outlook seems steady to weak due to ample stock available in domestic market.

Market Outlook: Outlook remains steady to weak this week.

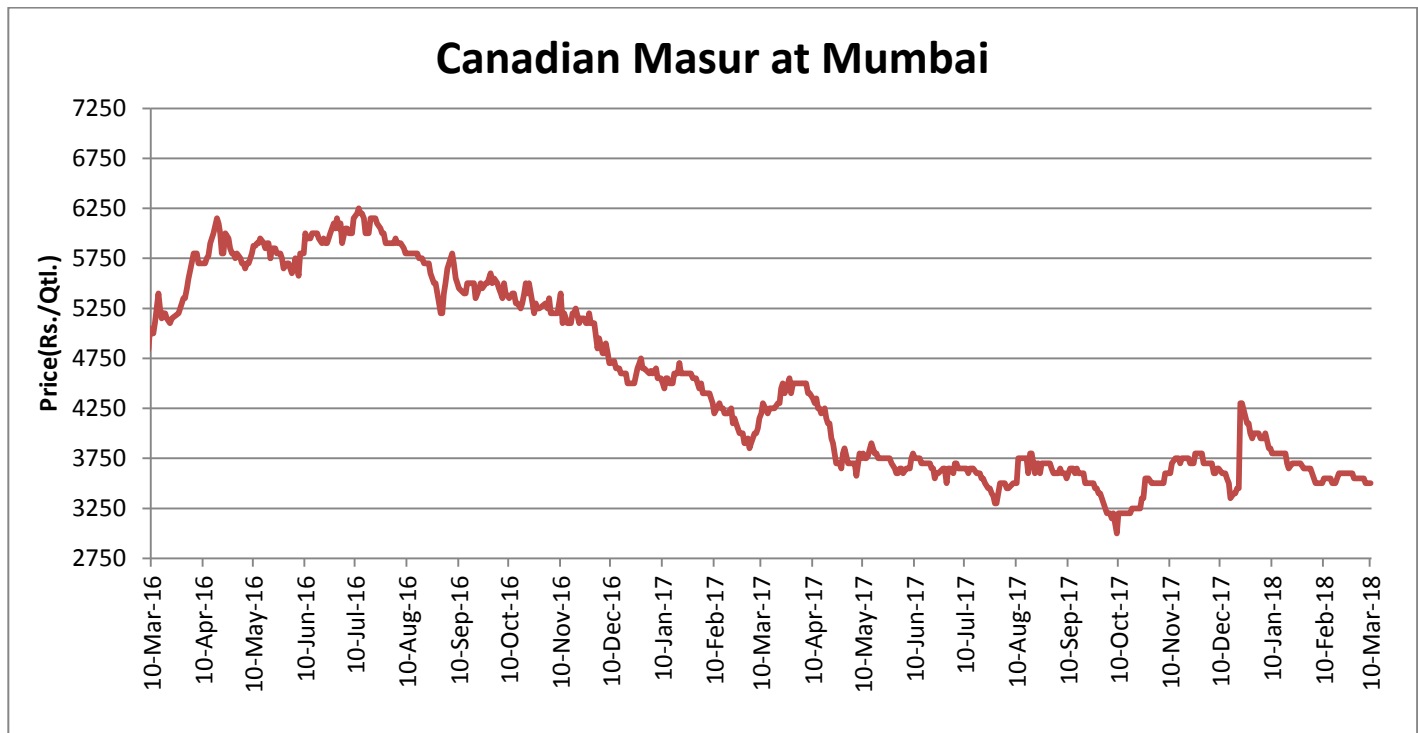

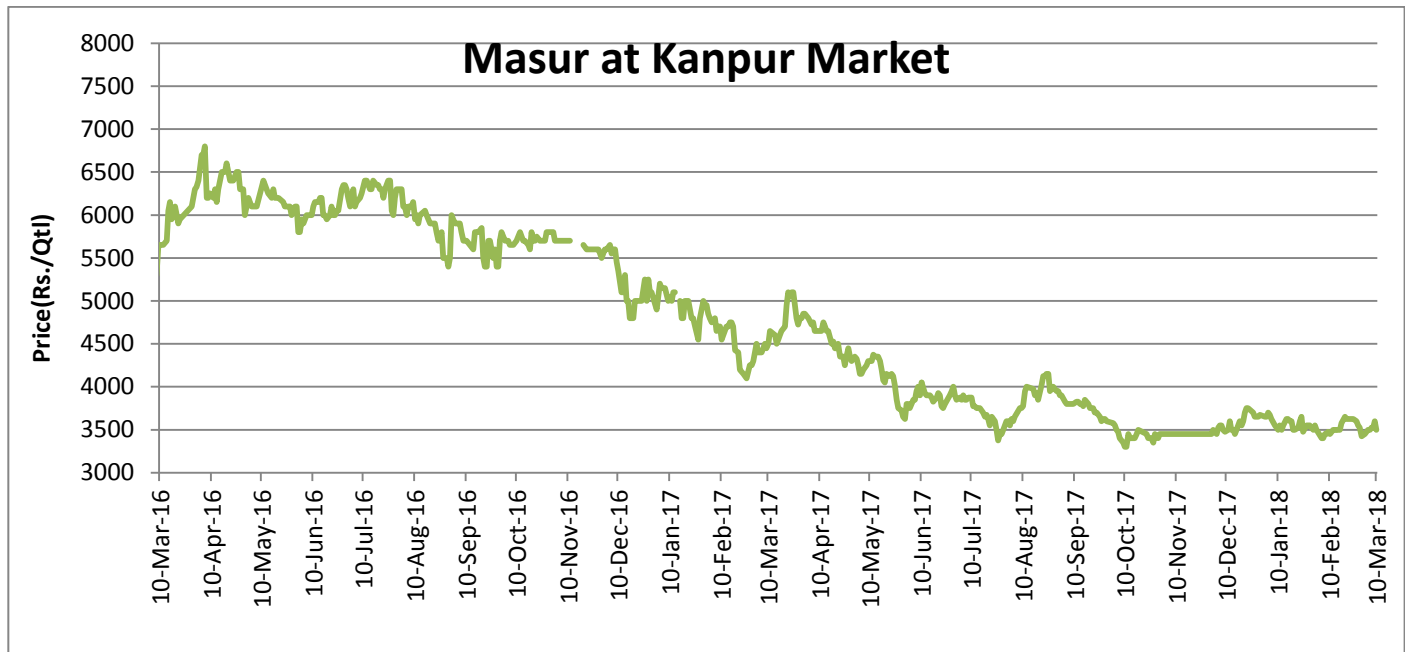

Lentils (Masoor):

Market Recap:

Kanpur market opened with a weak note in the beginning of the week and stayed steady on weak demand and eased supply side. Imposition of 30% import duty would continue to restrict import. New crop is at hand. Buyers should take possession after correction. Area under Lentils is bound to increase this year as overall sowing trend is higher by 0.35 % at 17.36 lakh ha so far. Overall sentiments remain steady to slightly firm in the short term. Stakeholders should buy on dip. Demand from Bengal would support market. There is a fear of lower crop size as yield is not up to the mark in UP.

Current Scenario:

Weekly average price decreased by 1.07 % to Rs 3500 per qtl. Currently in Mumbai it is being quoted at Rs 3450-3500 per qtl. Canadian Massor is showing steady movement and was traded in the range of Rs.3550/3600 per quintal. Steady to slightly weak tone may prevail this week too, due to pressure from new arrival. Buying on dip is good.

Market Outlook: Prices are likely to notice steady to slightly weak movement this week.

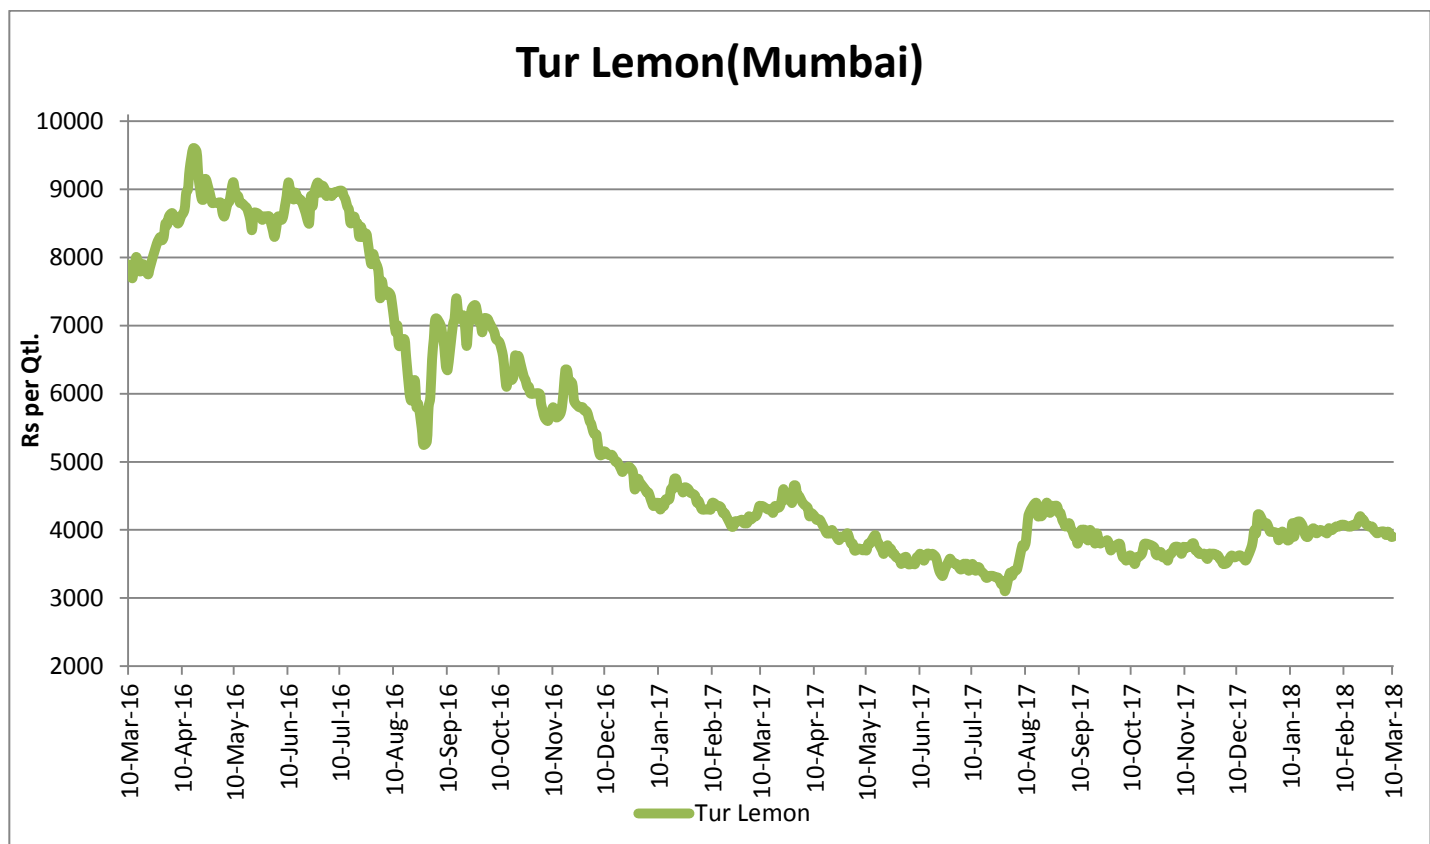

Pigeon Pea (Tur/Toor):

Market Recap:

Tur too traded down on stockists selling from old stock at higher level. However, demand is likely to improve in March. Generally consumption of Tur dal increases with increasing temperature. Besides, higher procurement plan by state agencies would remain supportive to cash market fundamentals. Crop size is already lower and private buyings continues New Red Tur is being traded at Rs.3900-4250 per quintal. Procurement drive, marginally firm quotes in Myanmar and increased private buying would prevent market from further decline. Myanmar offers old Tur at \$370-375per tonne while new Tur is being offered at \$410-15 per tonne. It is advisable to buy on dip.

Current Market Dynamics & Outlook:

Tur market based on market fundamentals would not move up suddenly. It would take time to reach MSP level in the months ahead. Procurement drive is on. Average price moved slightly down by 2.79 % to Rs4180per qtl.in Gulberga market. Range bound movement may prevail in cash market this week.

Market Outlook: *Tur prices are likely to show steady movement this week .*

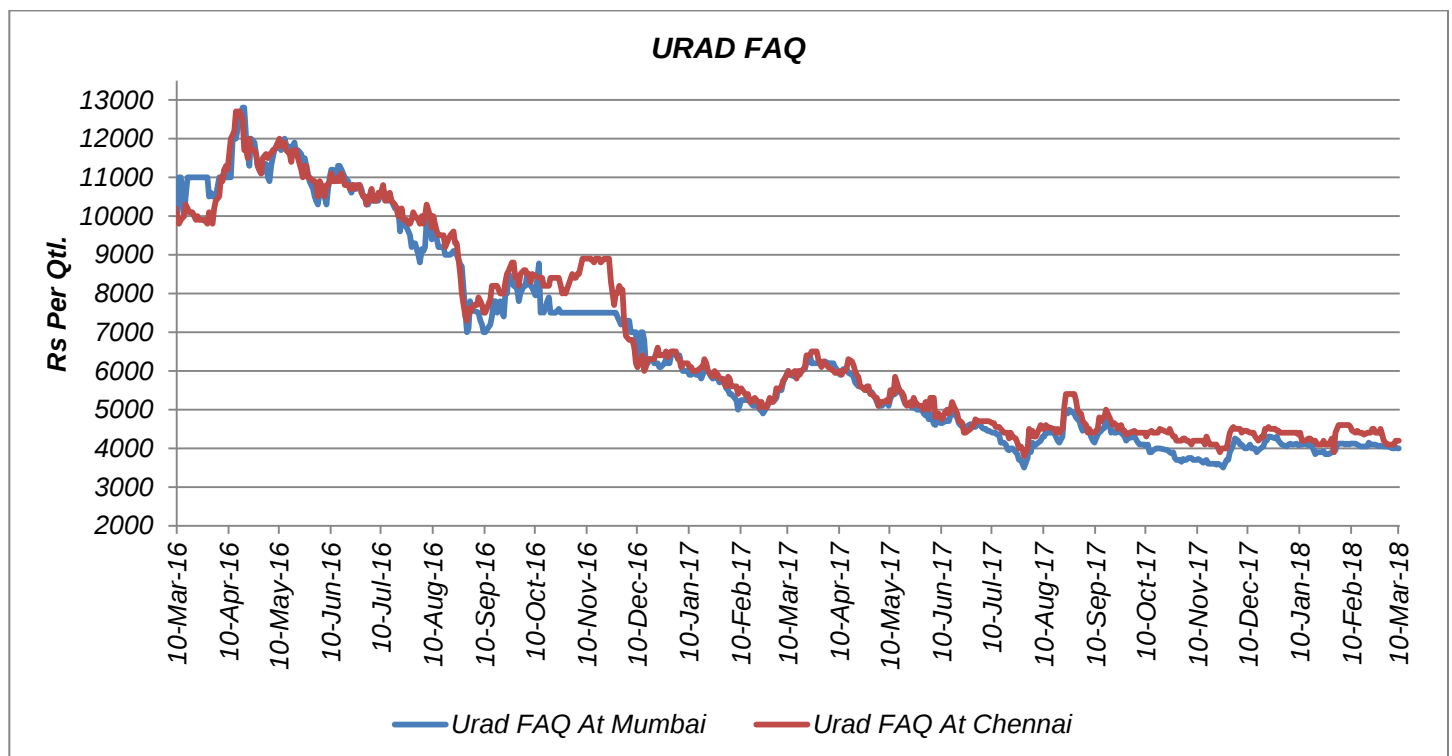

Black Matpe (Urad):

Market Recap:

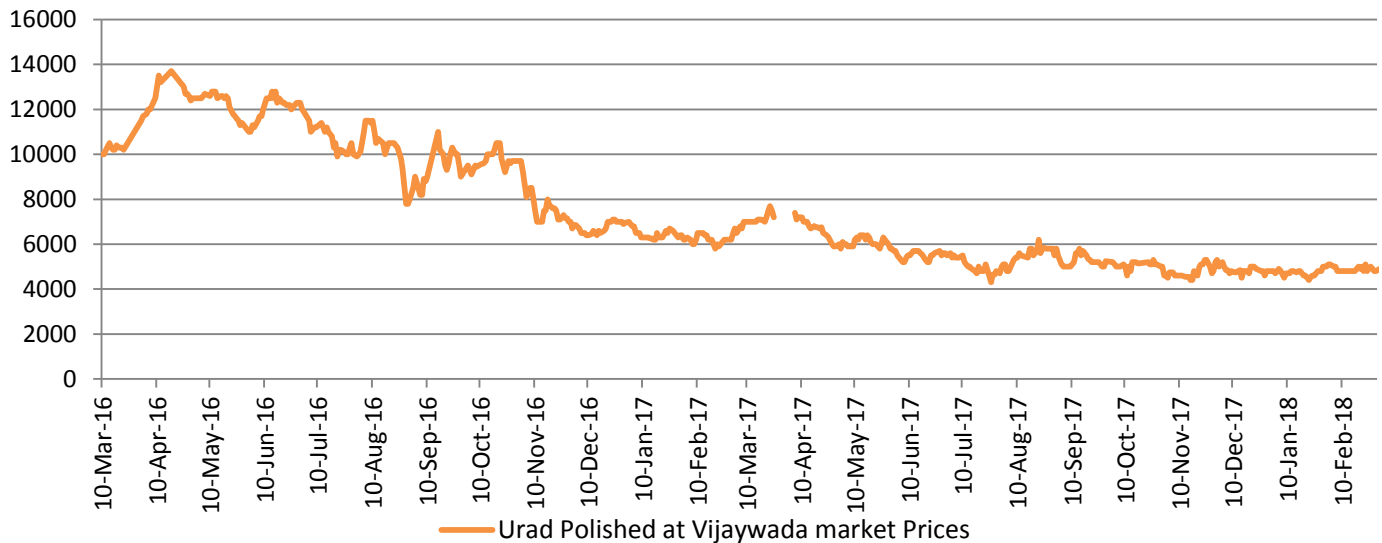

Urad traded slightly down on higher supply. It is being traded at Rs 4200 to Rs 4050 per qtl in Chennai market. Steady tone may prevail with ongoing procurement drive. Government's procurement drive at MSP (Rs.5400, including bonus of Rs.200) remains supportive to cash Urad market. However, overall condition is that of very high surplus. New arrivals from Rabi crop and selling through auction by central pool may restrict any upward momentum in the short term. It is likely to trade in the range of Rs.4200 to Rs.4600 per quintal in the open market in coming weeks, depending on quality. Urad FAQ Chennai, is being traded at Rs 4200 to 4250 per quintal while in Mumbai it traded at Rs.4000-4050 per quintal. There is no export opportunity for Indian Urad at prevailing prices as Myanmar offers FAQ Urad at \$465 and SQ at \$590 per tonne.

Current Market Dynamics & Outlook:

Urad FAQ at Mumbai (Rs.4000-4050Qtl.) and Chennai (Rs.4200-4250Qtl.) noticed weak tone, at Vijayawada, prices moved up at Rs 5100. Steady to slightly weak movement might be seen in Urad market due to lack of demand at higher level. The following graph shows the prices movement in different markets:-

Urad Polished at Vijaywada

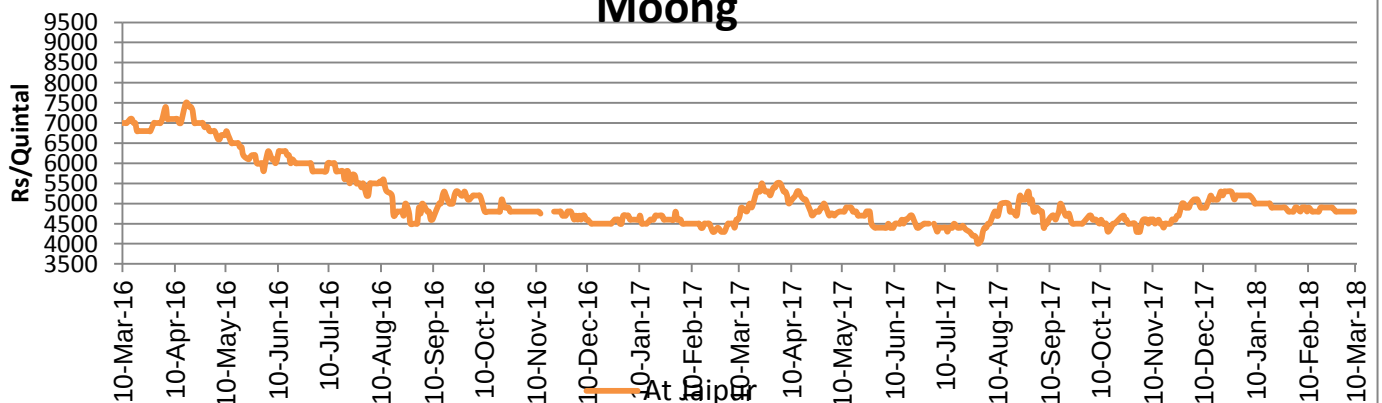

Market Outlook: Urad Prices are likely to show steady to slightly weak momentum this week.

Green Gram (Moong):

Market Recap:

Moong market traded steady to slightly weak at Rs 4800 in Jaipur market. As arrival has decreased, more dip is unlikely from current level. New crop is 3-4 months away from now, so steady tone may prevail. It is likely to trade in the range of Rs 4700-5000 per qtl. in Jaipur market. Dal demand is likely to improve as availability of vegetables starts decreasing with increasing temperature. However, selling by Nafed and Markfed would restrict market from moving beyond a certain level. Markfed has issued tender for sale of 1.93 lakh tonne Moong in MP. It would continue to balance supply side and would continue to affect market sentiments in the weeks ahead.

Moong

Market Outlook: Moong prices are likely to trade steady in the near term.
