Commodity-wise Domestic, International Prices and Arrivals at Different Centers

Highlights-Domestic Market:

- **Recent recovery in cash Tur market is unlikely to continue despite ongoing procurement** drive in major producing states. Private trades remains skeptical over import as govt has not notified any further move regarding import of Tur as of now. This means import is possible upto the limit of 2 lakh tonne this year beginning from 1st of April-2018. It may discourage private buyers to buy in bulk quantity. As price of Tur is cheaper in Myanmar, possibility of import seems visible very much in the sight. It would restrict firmness in Tur market. Agriwatch expects pulses to trade on steady to slightly weaker tone in the near term.
- **Madhya Pradesh government has decided to procure Rabi crops of chana and masur at MSP** instead of using Bhavantar Bhugtan Yojana (BBY). This step by Madhya Pradesh government will reduce the flow of chana and masur in open market thereby providing support to domestic prices. Madhya Pradesh government is likely to procure 21 lakh tonnes of chana and 3 lakh tonnes of masur. Chana in Delhi market is being traded at Rs3825-3850 per qtl. Steady to slightly firm tone may prevail in cash market.
- **Food corporation of India is working on setting up pulses silos under modernization and** technology adoption drive. A feasibility study regarding storage requirements is under way and final report is expected to be submitted by the end of this month, done by Price waterhouse-Coopers (PwC). The center has been procuring pulses for last two years and buffer stock of 20 lakh tonne has been created. Hence, modern storage is needed.
- **Higher availability in central pool, ample stock from kharif moong and good harvest from rabi crop** would continue to impact moong cash market in April too. Supply side is higher than normal demand. So range bound movement is expected in moong market. Stockists are avoiding bulk buying. Selling through auction by government agencies continues in Delhi, Rajasthan, M.P. and Gujarat amid commencement of new arrival from major rabi producing state like Odisha and good crop size in Tamil Nadu and AP.
- **Besides, possibility of import has increased as importers can import 1.5 lakh tonne moong** this year as per quota norm for the year fixed by the govt. Myanmar is offering moong at \$690 per tonne basis Indian port. It may continue to affect market sentiments in the weeks ahead. • According to Maharashtra State co-operation minister Subhash Deshmukh procurement agencies operating in the state have procured 6354,1000 tonne 'moong' so far in the financial year 2017-18.
- **Govt. has announced 7 % export incentives** on chana products like dal and besan including desi chana. Exporters can take benefits of this incentive till June-2018.
- **Recovery in demand is unlikely in Urad market as end users are not active analyzing** sluggish demand amid ample availability of dal in cash market. Besides, continuous Lower demand from end users, selling through auction by state agencies and new arrivals continued to weigh on market fundamentals. Higher carryout would not allow market to get firmer to a certain extent. Urad in Chennai market is being traded at Rs 4000 to Rs4250 per qtl. Range bound movement is likely to continue in cash market.
- **Import is possible as govt has not notified any ban on fixed quota of 1.5 lakh tonne** for three years starting from 1st April-2018. Import is possible from Burma as it is offering Urad at much lower prices- FAQ at \$450-460 and SQ at \$590-695 per tonne.
- **Nafed is active to procure in various states. It has purchased 564182.99 metric tonne Tur** in various states. As on 17th March-2018 tur procurement in AP was registered at 39293.46MT, in Karnataka it was 322560.21 MT, in Maharashtra 126357.35 MT. Telangana contributed around 75,300 MT so far while it was 671.97 MT in Gujarat. Procurement is likely to continue till April-2018.
- **Current improvement in Masur is due to demand from West Bengal.** It is expected to come down again. So is advisable to buy after correction. Crop condition is good and it has started hitting market in Bihar. Pressure on lentil market continues as new crop is at hand. export is not feasible as exporting countries offer it at cheaper price. import would be restricted due to 30 % duty. Market would move up April onward. Govt would procure on MSP in Uttar Pradesh and MP.

- **Peas market traded slightly firm. Range bound movement is expected this week.** Desi pea in Kanpur market is being traded at Rs2941-2950 per qtl. Canadian peas are being offered at Rs 2951-61 (duty included in it). Russian pea is being offered at Rs Rs2975. Steady to firm tone may prevail this week.

International Market:

- **Production of urad and moong has decreased in Myanmar due to lower price realization**, quality issue and virtually no demand from India, as per latest update by Myanmar Pulses, Beans and Sesame Seeds Merchant Association. U Aung Htoo, deputy commerce minister of Myanmar is on India visit (18 to 20 th Mar-2018) and discussion with Indian counterpart is on. The minister has requested to end quantity limit imposed on import, valid upto 31st March-2018. Under quantity restriction Indian can't import more than 1.5 lakh tonne Urad & Moong (each) and 2 lakh tonne Tur in a marketing year.
- **After two consecutive bumper crop years of pulses in India, prices of pulses decreased** below MSP level and pressure is still on. So Indian govt is unlikely to increase import quantity in the first half of the current MY, starting from April. Farmers in Myanmar may decrease area under Moong and Urad this year and may shift to other alternate crops as prices are much below the production cost. Myanmar govt is planning to buy Moong to support farmers.
- **Global lentil market traded unchanged during the week under review. Weak demand from** India and other importing nations has pressurized the Canadian lentil market too. Lentil export from Canada has been decreasing continuously. In the first half of MY 2016-17 only 26% of the opening season supply of lentils was exported. It is down by 51% from last season and 59% during the first half of the 2015-16 marketing year.
- **CEO of Myanmar Pulses Beans and Sesame Seeds Merchants Association (MPBSMA) San U Myat Soe**, has given hint that Indian and Burmese Govt.'s official are still engaged in sorting out issue related to pulses purchase from Myanmar. Price modalities are being set. Myanmar govt is eager to sell pulses to India at locally prevailing price while Indian govt wants to fix pulses price below market prevailing price. Market is awaiting decision.
- **Lentil price has come down from \$500 to \$475-80 per tonne. Major buyers** like India are not going to enter the market for any bulk purchasing. So, buying interest of other countries would not fill the gap. So price is likely to stabilize at current level.
- **Chickpeas production in Australia is expected to decrease by 47.85 % to 10.45 lakh tonne** in 2017-18 from record 2004 lakh tonne 2016-17. Despite 4.43 % higher area coverage, production is bound to decrease drastically due to hot and dry weather condition prevalent in the major growing regions. Chickpeas area increased from 1069 to 1144 thousand ha in 2017-18.
- **Lentils area in Canada is bound to decline from 23.72 to 17.43 lakh ha in 2017-18.** It is lower by 23.54 % from last year. Yield is expected to improve from 1.45 to 1.55 t per ha. Total production is expected to decline by 16 % from 32.48 to 27.25 lakh ha. As production, would decline, total supply would decline by 10.43 % to 30.35 lakh t. Average price in 2017-18 may rule in the range of C\$720 to 750 per T.
- **Lentils production in Australia too is bound to decline from 8.3 to 4.19 lakh tonne** in 2017-18. It is almost 50 % down from last year. Lentils area was reported higher by 16 % at 3.55 lakh ha. Due to rough weather condition Lentils production, would decline to 4.19 lakh tonne. Field peas production too, is bound to decline by 32.47 % to 2.8 lakh tonne in 2017-18. Australia had produced 4.15 lakh tonne field peas in 2016-17.
- **Imposition of 50% import duty on all peas, has started impacting export** volume from Canada, According to Agriculture and Agri-Food, Canada Peas export would decrease from 3.9 MMT (2016-17 to 2.4 MMT in 2017-18. Lower export volume would increase carryout around 5 lakh ton, higher than normal expectation. Yellow peas prices are hovering in the range of C\$5.00 to C\$6.50 a bushel in western Canada.

Weekly Outlook: -Pulses are likely to trade range bound this week.

Monthly Wholesale Price Index:

Annual Rate Of Inflation:

Index Numbers of Wholesale Price in India (Base: 2011-12=100)

Pulses WPI decreased by 3.0 point from 127.1 in **Jan** to 124.1 in **Feb**-2018.

Pulses-Wise Scenario:

Chana

Current Scenario:

Madhya Pradesh government has decided to procure Rabi crops of chana and masur at MSP instead of using Bhavantar Bhugtan Yojana (BBY). This step by Madhya Pradesh government will reduce the flow of chana and masur in open market thereby providing support to domestic prices. Madhya Pradesh government is likely to procure 21 lakh tonnes of chana besides, retention by farmers may lend support to cash chana market in coming weeks.

All India average price for Chana increased by 1.16 percent to Rs 3737 per qtl. Market is expected to stabilize near current level. In Delhi market, it is being traded at Rs 3800-3525 per qtl. In Mumbai, Australian Chana is being offered at Rs 3775-3800 per qtl. (old stock). There is no fresh import deal as there is no parity on higher duty. Steady to slightly firm sentiment may prevail in the near term. Dal export is possible in the second quarter of the year. Import is expected to remain halted due to 60 % duty. Buyers should buy on correction. Following graph illustrates the chana price movement in different markets:

Market Outlook: Steady to slightly firm tone is possible. *Buying on dip is good for stakeholders.*

Peas (Matar):**Market Recap:**

Peas market traded slightly firm during the week under review. Firm chana may support pea market this week. As supply side is balanced with decreasing arrival from new crop..Pea may trade steady to slightly firm, taking clue from Chana. Right now, 50 % duty is applicable on all peas. The average price increased by 1.45 % to Rs 3009 per qtl. in Kanpur market, Canadian pea decreased by 2.53 to Rs 3069. It may trade range bound in the near term. Import flow is expected to come to a halt in the first quarter. Downward correction is unlikely this week.

Current Market Dynamics & Outlook:

At Kanpur, Desi Peas traded slightly up at Rs 3075 due to firm demand and firm chana market. Firm movement is likely due to decreased arrival of chana. Russian pea is being traded at Rs 2931-41 in Mumbai while Canadian Matar, is being quoted at Rs 2931-41 per qtl. Green peas, was quoted at 3900 per qtl Market is expected to trade range bound in the near term. With current applicable duty import volume is expected to come to a halt in April.

Spread With Chana:

Spread between Chana and Peas, at Kanpur market decreased by Rs 23 to Rs 737 per qtl owing to increased prices of peas. Spread is expected to move in the range of 700 to 800 per quintal in the coming weeks on relative movement in Chana prices. Overall outlook seems steady to slightly firm due to increasing retention of old stock available in domestic market. Buying on dip is good.

Market Outlook: Outlook remains steady to slightly firm this week.

Lentils (Masoor):

Market Recap:

Kanpur market opened with a firm note in the beginning of the week and stayed steady on weak demand and eased supply side. Imposition of 30% import duty would continue to restrict import. New crop is coming into mandis. Buyers should take possession after correction. Production is expected slightly lower than normal expectation. Overall sentiments remain steady to slightly firm in the medium term. Stakeholders should buy on dip. Demand from Bengal would support market.

Current Scenario:

Weekly average price decreased by 0.98 % to Rs 3469 per qtl. Currently in Mumbai it is being quoted at Rs 3500-3525 per qtl. Canadian Massor is showing steady movement and was traded in the range of Rs.3450/3550 per quintal. Steady tone may prevail this week too, due to pressure from new arrival. Buying on dip is good.

Market Outlook: Prices are likely to notice steady movement this week.

Pigeon Pea (Tur/Toor):

Market Recap:

Recent recovery in cash Tur market is unlikely to continue despite ongoing procurement drive in major producing states. Private trades remains skeptical over import as govt has not notified any further move regarding import of Tur as of now. This means import is possible upto the limit of 2 lakh tonne this year beginning from 1st of April-2018. It may discourage private buyers to buy in bulk quantity. As price of Tur is cheaper in Myanmar, possibility of import seems visible very much in the sight. It would restrict firmness in Tur market. Myanmar offers old Tur at \$370-375 per tonne while new Tur is being offered at \$410-15 per tonne. It is advisable to buy on dip.

Current Market Dynamics & Outlook:

Tur market based on market fundamentals would not move up suddenly. It would take time to recover from current level in the months ahead. Procurement drive is on. Average price moved slightly down by 0.50 % to Rs3920 per qtl. in Gulberga market. Range bound movement may prevail in cash market this week.

Red Tur At Gulberga(Rs /Qtl.)

Market Outlook: Tur prices are likely to show steady movement this week .

Black Matpe (Urad):

Recovery in demand is unlikely in Urad market as end users are not active analyzing sluggish demand amid ample availability of dal in cash market. Besides, continuous lower demand from end users, selling through auction by state agencies and new arrivals continued to weigh on market fundamentals. Higher carryout would not allow market to get firmer to ascertain extent. Urad in Chennai market is being traded at Rs 4000 to Rs 4250 per qtl. Range bound movement is likely to continue in cash market.

Import is possible as govt has not notified any ban on fixed quota of 1.5 lakh tonne for three year starting from 1st April-2018. Import is possible from Burma as it is offering Urad at much lower prices- FAQ at \$450-460 and SQ at \$590-695 per tonne.

Current Market Dynamics & Outlook:

Urad FAQ at Mumbai (Rs.3900-4050Qtl.) and Chennai (Rs.4150-4250Qtl.) noticed firm tone, market remained closed at Vijayawad due to March closing.. Steady to weak movement might be seen in Urad market due to lack of demand at higher level. The following graph shows the prices movement in different markets:-

Market Outlook: Urad Prices are likely to show steady to slightly weak momentum this week.

Green Gram (Moong):

Market Recap:

Moong market traded unchanged at Rs 4800 in Jaipur market. As arrival has decreased, more dip is unlikely from current level. New crop is 3-4 months away from now, so steady tone may prevail. It is likely to trade in the range of Rs 4700-5000 per qtl. in Jaipur market. Dal demand is likely to improve as availability of vegetables starts decreasing with increasing temperature. However, selling by Nafed and Markfed would restrict market from moving beyond a certain level. Markfed has issued tender for sale of 1.93 lakh tonne

Moong in MP. It would continue to balance supply side and would continue to affect market sentiments in the weeks ahead.

Market Outlook: Moong prices are likely to trade steady in the near term.
