Commodity-wise Domestic, International Prices and Arrivals at Different Centers

Highlights-Domestic Market:

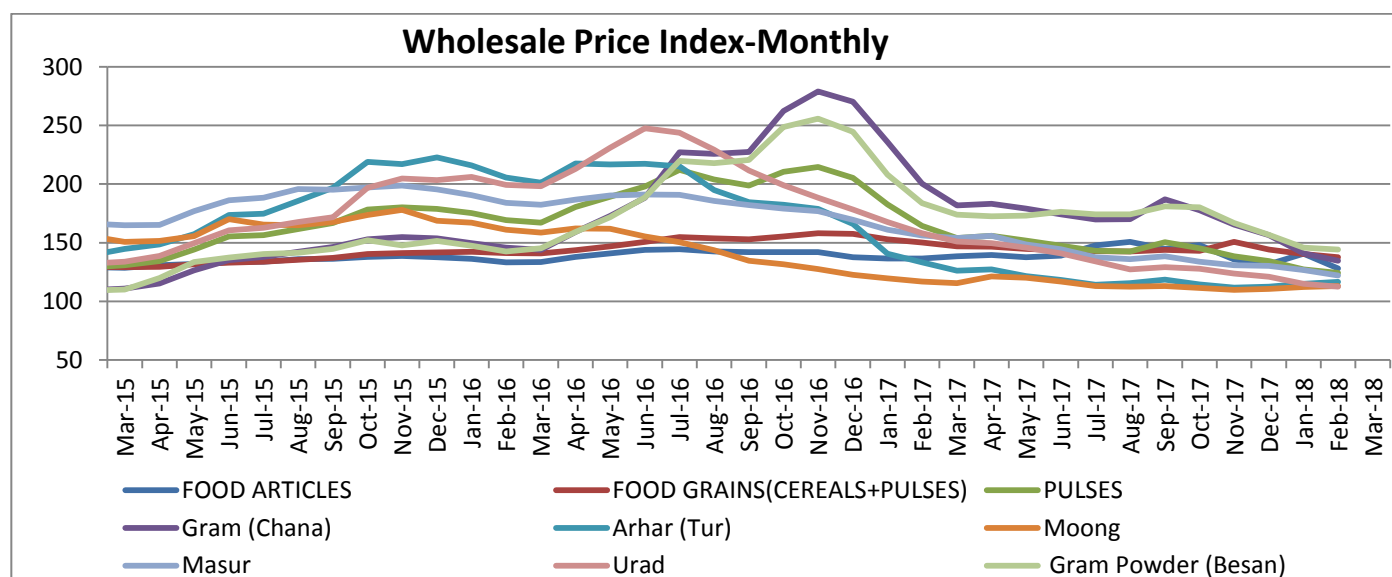

- **Tur market traded range bound during the week under review despite news of** lower yield expectation in producing region of Bihar & Jharkhand. Private buying remains restricted in major states due to lack of liquidity in cash market. Agriwatch expects market to move in a narrow range this week. Dal demand is unlikely to improve in April. Improvement in demand is expected from mid May when marriage season starts. In a latest development Maharashtra state govt. has asked union govt to extend date for Tur procurement till 31st May-2018 from earlier approved till 18th April-2018.
- **Urad market traded range bound during the week under review despite new** arrivals from rabi crop in south Indian states. Some recovery in Urad market was seen in last 10 days due to buying from mills. With decreased buying interest by private trades, uptrend could not sustain at higher level. In Chennai market FAQ urad traded in the range of Rs4150 to Rs4400 per qtl. As stock is higher any major recovery in the market is unlikely despite procurement drive by govt.'s agencies.
- **In a latest developments central govt has given green signal for** procuring 3000 MT Urad in Tamil Nadu and 1lakh MT in Andhra Pradesh from Rabi season 2018 at MSP. It may support Urad price in local market to a certain extent.
- **Moong market traded up during the week under review taking clue from lower** acreage in summer season in Gujarat, Bihar & Haryana and declining stock in Maharashtra. Upward momentum is unlikely to continue as old stock is ample and selling through e-auction from central pool stock continues. Agriwatch expects market to move down from current higher level. In Jaipur market moong is being quoted at Rs 4950 to Rs 5100 per qtl. In a latest development, central govt has approved to buy 32,000 MT moong in Andhra Pradesh from rabi season-2018. It may support local price to some extent.
- **Market experts are of the opinion that there is a possibility of import.** Moong import is possible despite quantity restriction at 1.5 lakh tonne for the year. Prices of Moong in domestic market is hovering in the range of Rs 48000-50000, while Mozambique and Burma are offering Moong at \$545 & \$690 per tonne against Indian prevailing price of \$730-740 per tonne. Trades may import 1.5 lakh tonne under fixed quota.
- **Chana cash market could not sustain its firm momentum inspite of** procurement drive by various govt. agencies and comparatively lower pace of arrival in market. Millers restricted their buying on weak inner tone. Farmers preferred to sell their produce to govt. agencies where procurement agencies remain active. In Delhi market, Chana traded down by Rs 50 to Rs 3800-3850 per qtl. Overall sentiment remains weak.
- **In a latest development, Madhya Pradesh has started procurement of Chana Masur and Mustard on** MSP to support cash market price in Indore district. State govt is offering Rs 100 per qtl bonus with support price for farmers. Nafed will procure 450930 MT Chana in Madhya Pradesh during rabi season 2017-18 at MSP from farmers. Chana procurement in Gujarat would commence from 20th April-2018.
- **Odisha state Government has decided to procure pulses of 2017-18 kharif season from** the farmers through Odisha State Cooperative Marketing Federation (Markfed). It will procure moong, Urad, arhar among others, from farmers, at minimum support price (MSP) announced by the Government.
- **Masur cash market could not sustain its uptrend and decreased by Rs 100 per qtl. due to** restricted buying by mills. Downward correction is expected this week as demand flow from bulk buyers has weakened. As supply side is normal against poor demand, cash market may dip Rs 100 more, from current level. Import is likely to remain restricted due to 30 % duty and ample availability from new local crop. Procurement on MSP in MP and Uttar Pradesh may lend some support to cash market in coming weeks. In Mumbai market, masur is being traded in the range of Rs3600 to Rs3900 per qtl.
- **Peas market traded steady to slightly weak and more correction is expected** this week. Canadian matar is being offered at Rs 3225 per qtl in Mumbai. Russian pea is available at Rs 3025 per qtl. It is being offered at Rs3225 at Mundra port. Green matar is being offered at Rs 4100-4200 per qtl. Sentiment remains weak for this week.

International Market:

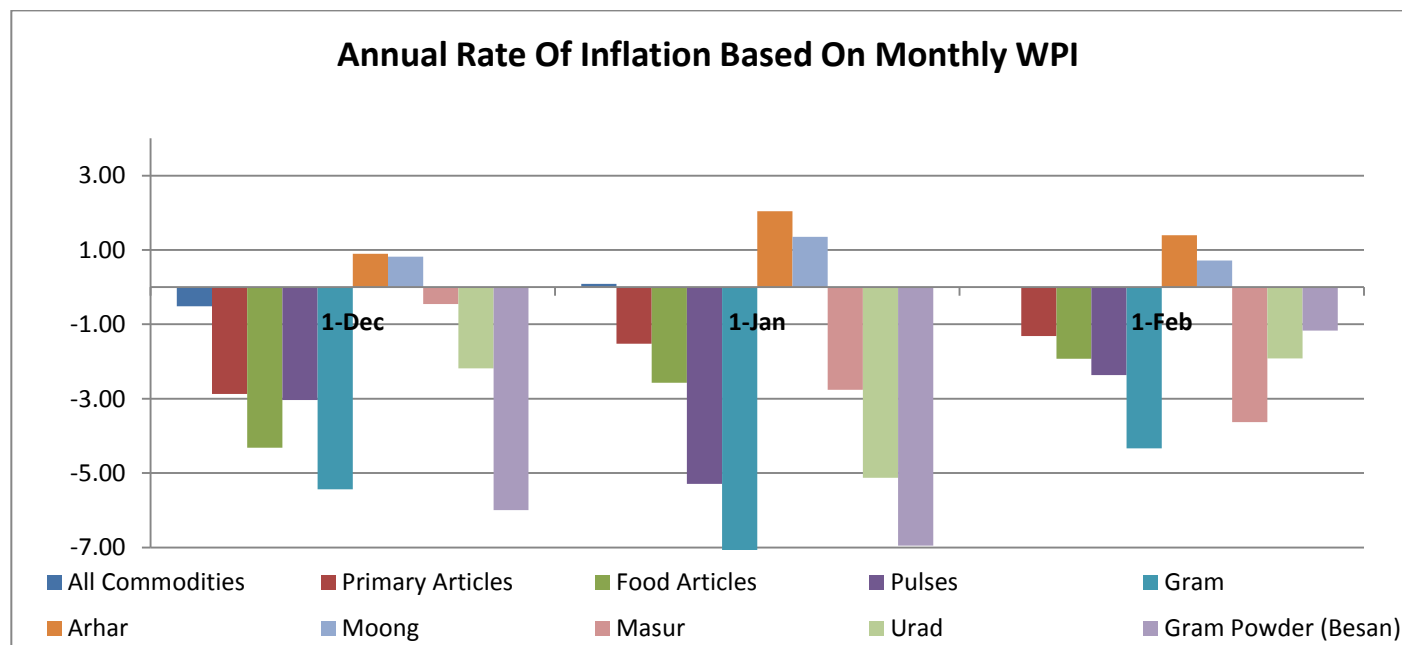

- **There is a rumour circulating in the market that Burma has loaded 50 containers Urad and Tur (50 containers each)to Nepal).**There is a fear in the Indian market that it may be pushed into India through illegal way, as boarder remains open.
- **US farmers have decreased lentil area due to poor demand and bearish global market.**US farmers had planted 1104 thousand acres under lentil in 2017.This year lentil area has decline by 28 % to 791 thousand acres. Area under lentil in all major producing states like Idaho, Montana, North Dakota and Washington has declined by 69,73,77 & 82 % respectively this year against last year.
- **Production of urad and moong has decreased in Myanmar due to lower price realization,** quality issue and virtually no demand from India, as per latest update by Myanmar Pulses, Beans and Sesame Seeds Merchant Association. U Aung Htoo, deputy commerce minister of Myanmar is on India visit (18 to 20 th Mar-2018) and discussion with Indian counterpart is on. The minister has requested to end quantity limit imposed on import, valid upto 31st March-2018.Under quantity restriction Indian can't import more than 1.5 lakh tonne Urad & Moong (each) and 2 lakh tonne Tur in a marketing year.
- **After two consecutive bumper crop years of pulses in India, prices of pulses decreased** below MSP level and pressure is still on. So Indian govt is unlikely to increase import quantity in the first half of the current MY, starting from April. Farmers in Myanmar may decrease area under Moong and Urad this year and may shift to other alternate crops as prices are much below the production cost. Myanmar govt is planning to buy Moong to support farmers.
- **Global lentil market traded unchanged during the week under review. Weak demand from** India and other importing nations has pressurized the Canadian lentil market too. Lentil export from Canada has been decreasing continuously. In the first half of MY 2016-17 only 26% of the opening season supply of lentils was exported .It is down by 51% from last season and 59% during the first half of the 2015-16 marketing year.
- **Lentil price has dropped from \$500 to \$475-80 per tonne. Major buyers** like India are not going to enter the market for any bulk purchasing. So, buying interest of other countries would not fill the gap. So price is likely to stabilize at current level.
- **Chickpeas production in Australia is expected to decrease by 47.85 % to 10.45 lakh tonne** in 2017-18 from record 2004 lakh tonne 2016-17. Despite 4.43 % higher area coverage, production is bound to decrease drastically due to hot and dry weather condition prevalent in the major growing regions. Chickpeas area increased from 1069 to 1144 thousand ha in 2017-18.
- **Lentils area in Canada is bound to decline from 23.72 to 17.43 lakh ha in 2017-18.** It is lower by 23.54 % from last year. Yield is expected to improve from 1.45 to 1.55 t per ha. Total production is expected to decline by 16 % from 32.48 to 27.25 lakh ha. As production, would decline, total supply would decline by 10.43 % to 30.35 lakh t. Average price in 2017-18 may rule in the range of C\$720 to 750 per T.
- **Lentils production in Australia too is bound to decline from 8.3 to 4.19 lakh tonne** in 2017-18. It is almost 50 % down from last year. Lentils area was reported higher by 16 % at 3.55 lakh ha. Due to rough weather condition Lentils production, would decline to 4.19 lakh tonne. Field peas production too, is bound to decline by 32.47 % to 2.8 lakh tonne in 2017-18. Australia had produced 4.15 lakh tonne field peas in 2016-17.
- **Imposition of 50% import duty on all peas, has started impacting export** volume from Canada, According to Agriculture and Agri-Food, Canada Peas export would decrease from 3.9 MMT (2016-17 to 2.4 MMT in 2017-18. Lower export volume would increase carryout around 5 lakh ton, higher than normal expectation. Yellow peas prices are hovering in the range of C\$5.00 to C\$6.50 a bushel in western Canada.

Weekly Outlook: -Pulses are likely to trade range bound this week.

Monthly Wholesale Price Index:

Annual Rate Of Inflation:

Index Numbers of Wholesale Price in India (Base: 2011-12=100)

Pulses WPI decreased by 3.0 point from 127.1 in **Jan** to 124.1 in **Feb**-2018.

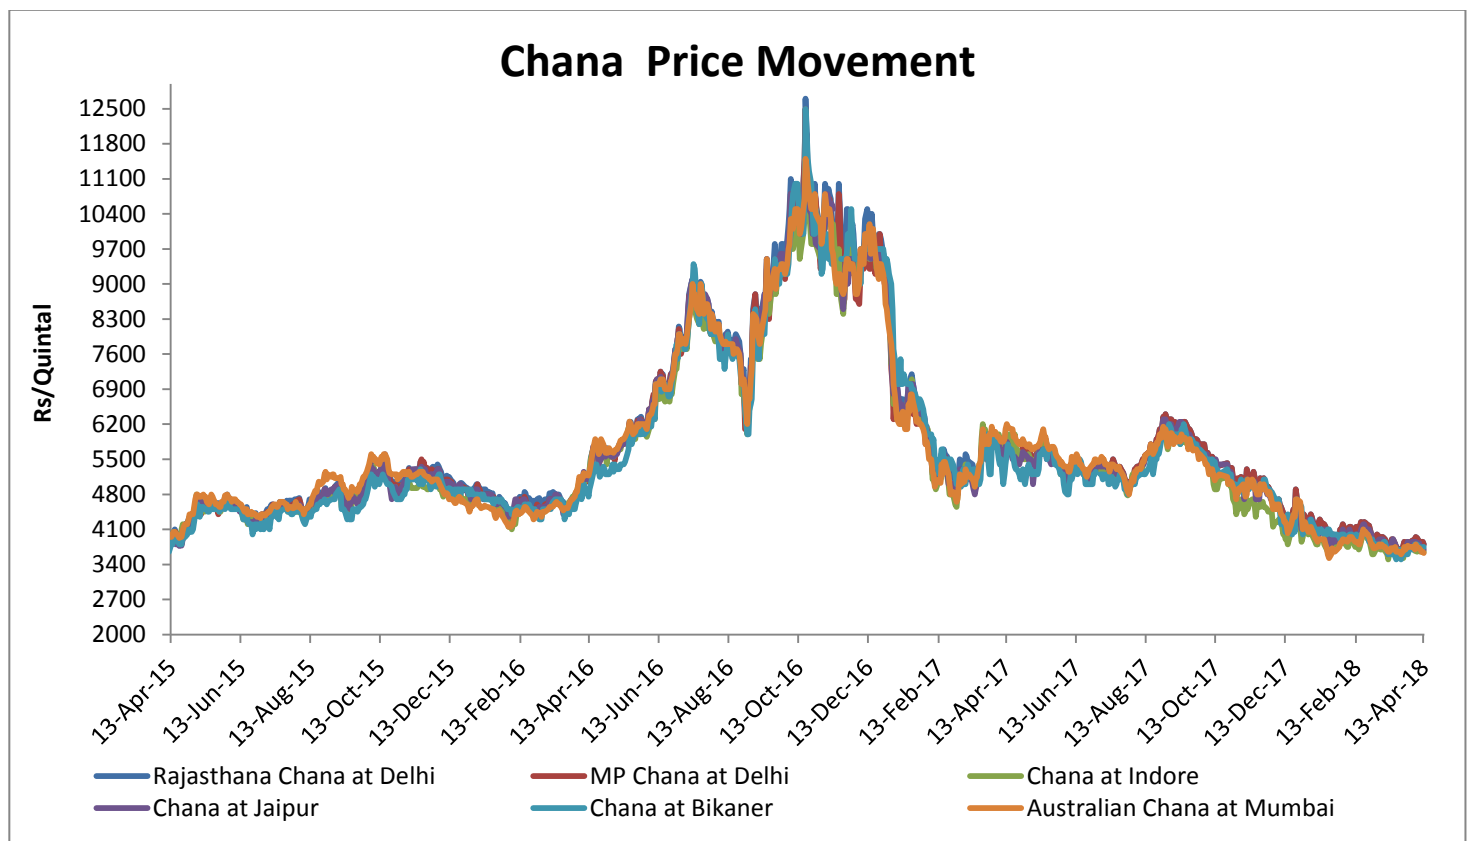

Pulses-Wise Scenario:

Chana

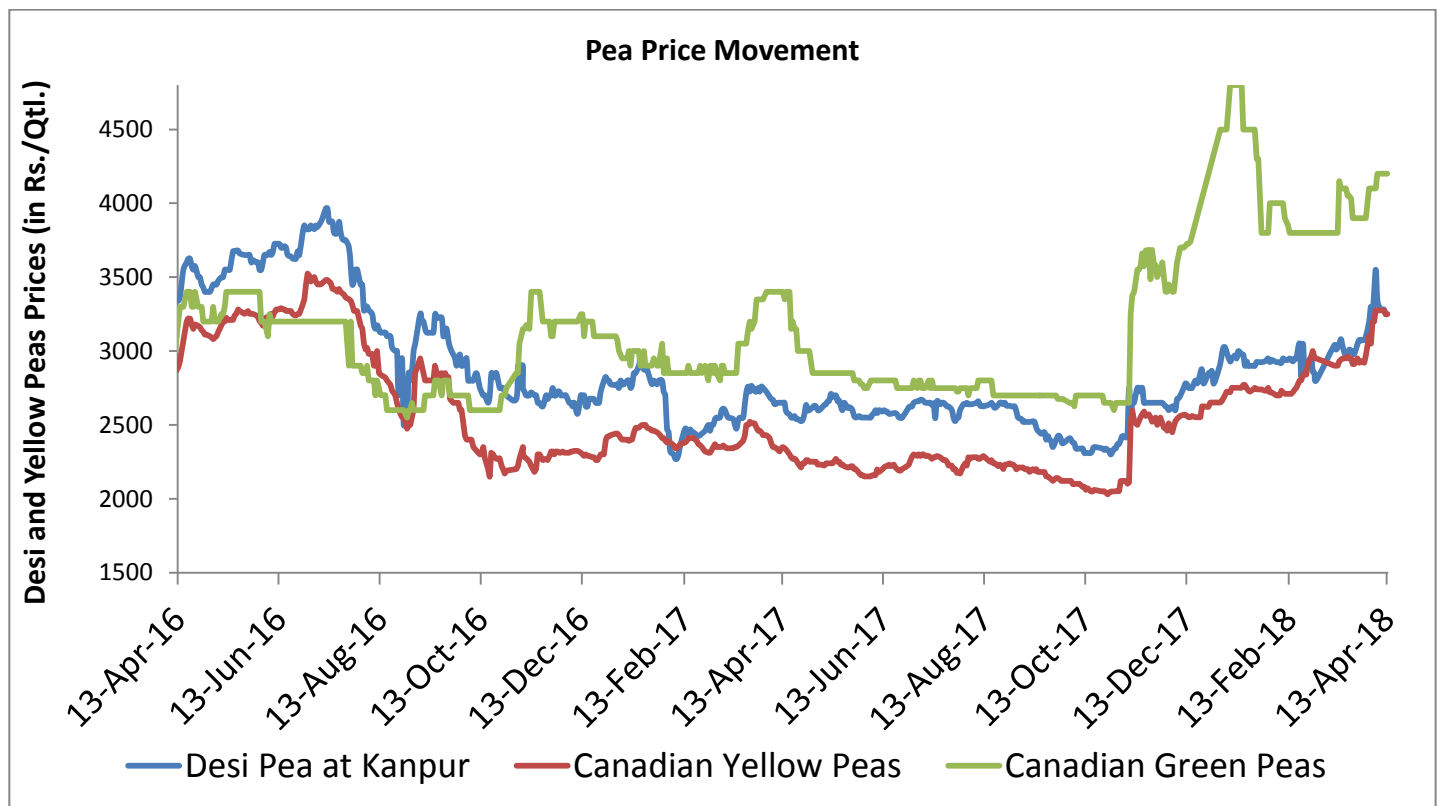

Current Scenario:

Pressure on chana cash market continues as private buying remains restricted on prevailing weak inner tone in cash market. As crop size is higher amid limited private buying, procurement drives in various states are not able to provide much support to cash market at current level. Uptrend in Chana market is unlikely in the near term. 7 % export incentive for export of pulses including chana and chana dal amid removal of mandatory roasted chana/ chana dal export in consumer pack of one kg by DGFT, would encourage chana price in local market to a certain extent. Farmers have restricted selling of chana in expectation of higher price. Demand from mills too is not expected to improve immediately. So only govt.'s buying, would not help market much.

All India average price for Chana decreased by 0.99 percent to Rs 3773 per qtl. Even Australian Chana price declined by 1.78 percent to Rs 3683 per 100kg. Following graph illustrates the chana price movement in different markets:

Market Outlook: Steady to slightly weak tone is possible this week too. Buying on dip is good for stakeholders.

Peas (Matar):**Market Recap:**

Peas market traded slightly weak during the week under review, after showing some sign of improvement in the beginning of the week. Weak chana remains un-supportive to pea market this week. Supply side is almost normal against weak demand. More downward correction is expected as Chana price is moving down. Right now, 50 % duty is applicable on all peas. The all India average price slightly increased by 0.23 % to Rs 3582 per qtl. In Kanpur market it traded weak by 0.60 to Rs 3280 per qtl. Higher import cost may remain supportive and restrict downward trend.

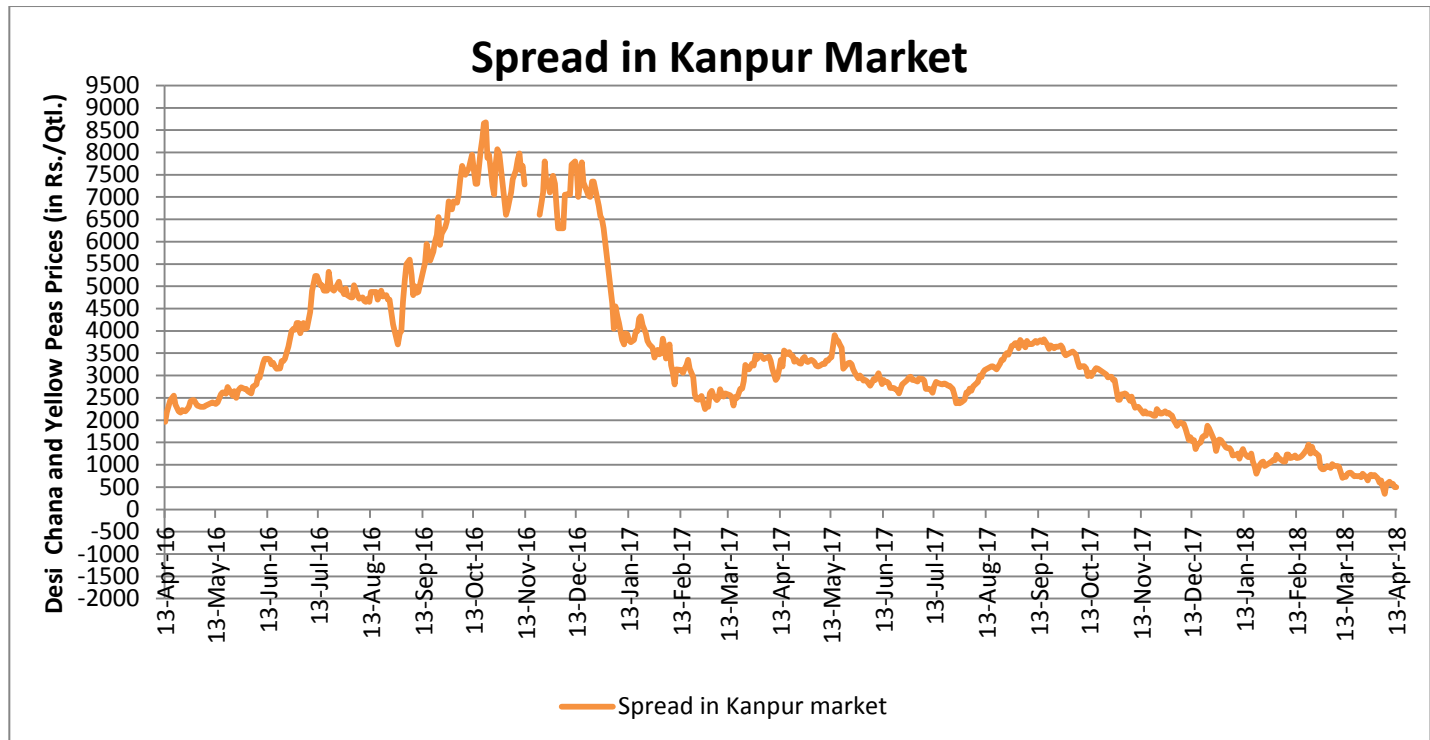

Current Market Dynamics & Outlook:

At Kanpur, Desi Peas traded down at Rs 3250 due to weak demand and subdued chana market. Firm movement is unlikely due to decreased Chana price and weak demand for pea in local market. Russian pea is being traded at Rs 3025 in Mumbai while Canadian Matar, is being quoted at Rs 3225 per qtl. Green peas, was quoted at 4100-4200 per qtl Market is expected to trade weak in the near term. With current applicable duty, import volume is expected to come to a halt in April.

Spread With Chana:

Spread between Chana and Peas, at Kanpur market decreased by Rs 93 to Rs 524 per qtl owing to increased prices of peas and decreased chana price. Spread is expected to move in the range of 400 to 600 per quintal in the coming weeks, on relative movement in Chana prices. Overall outlook seems steady to slightly weak. Buying on dip is good, as imported pea costing would be higher.

Market Outlook: Outlook remains steady to slightly weak this week.

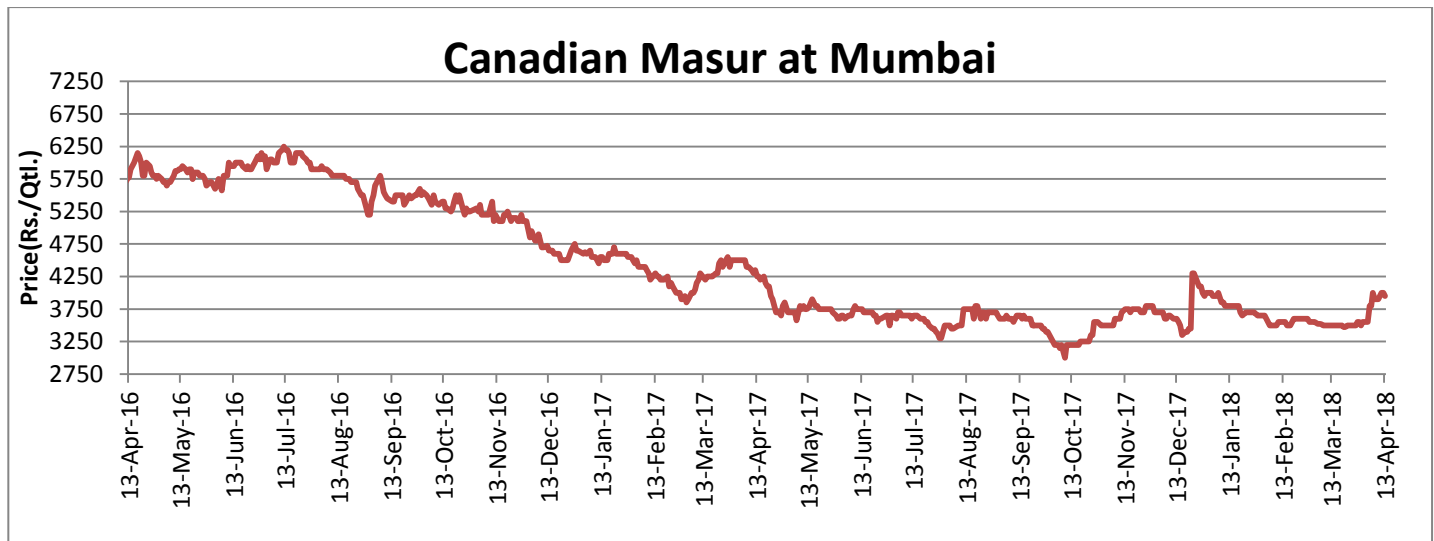

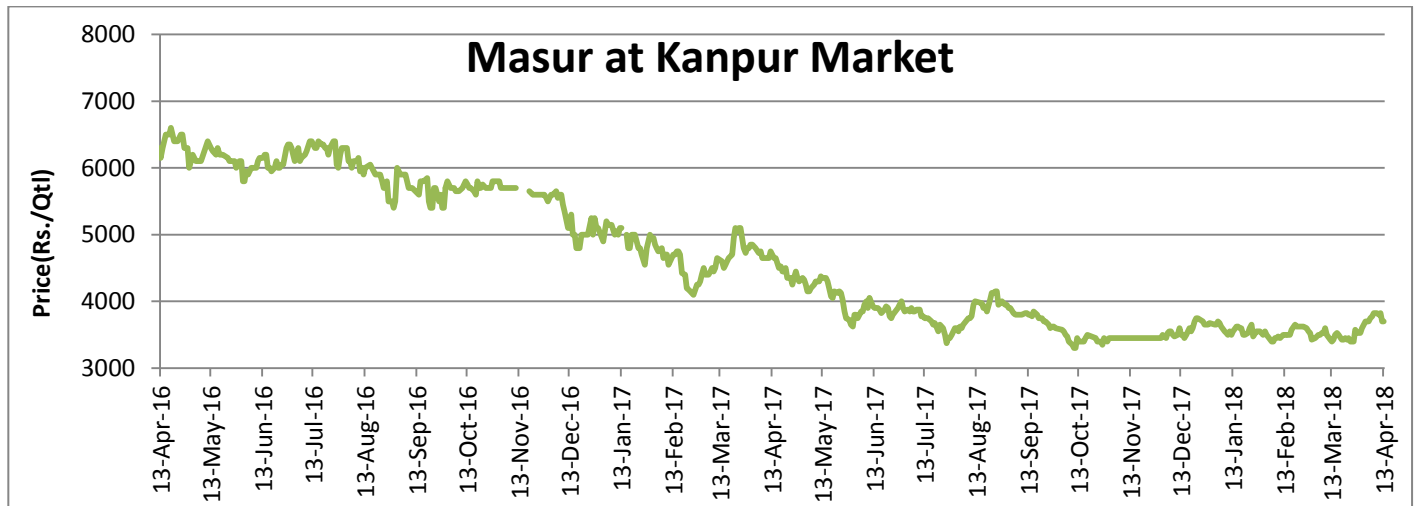

Lentils (Masoor):

Market Recap:

Kanpur market opened with a firm note in the beginning of the week and maintained its firm momentum at the end of the week. Imposition of 30% import duty would continue to restrict import. New crop is coming into mandis. Buyers should take possession after correction. Production is expected to be slightly lower than normal expectation. Overall sentiments remain firm in the medium term. Stakeholders should buy on dip. Demand from Bengal would support market. Masur dal demand is likely to improve in coming weeks.

Current Scenario:

Weekly average price increased by 2.73 % to Rs 3779 per qtl. Currently in Mumbai it is being quoted at Rs 3950 per qtl. Steady to firm tone may prevail this week too, due to easing pressure from new crop. Buying on dip is good.

Market Outlook: Prices are likely to notice firm movement this week.

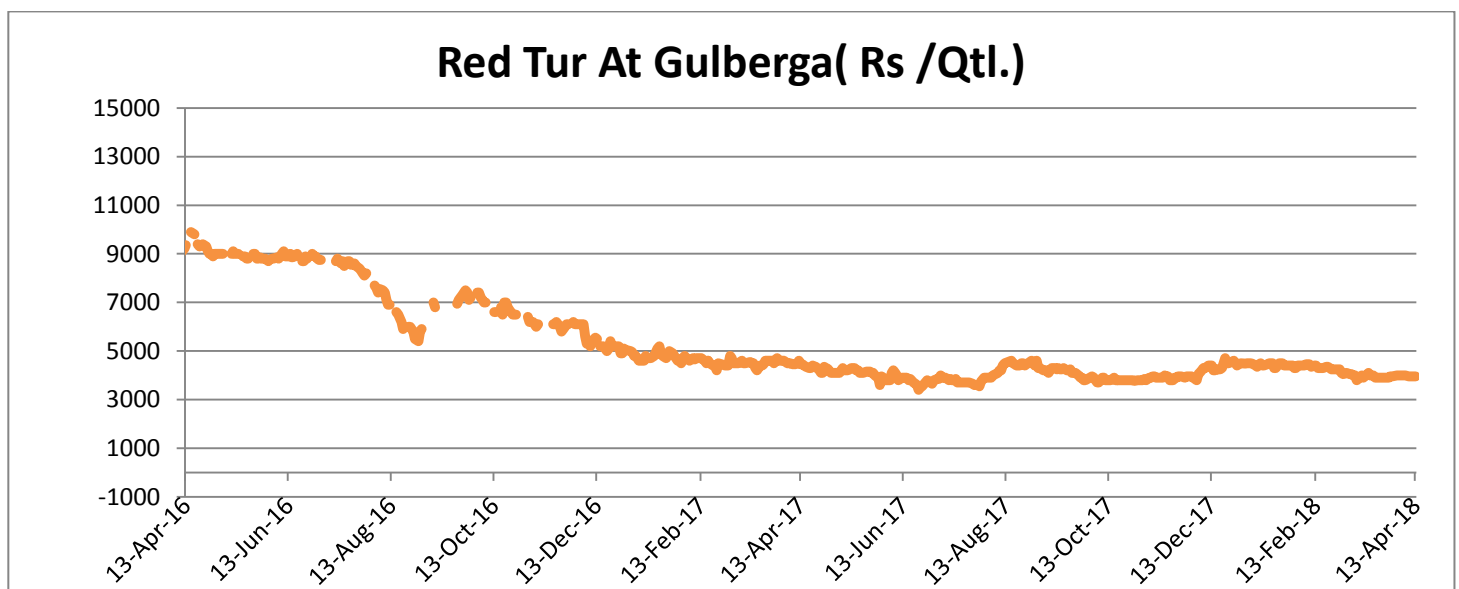

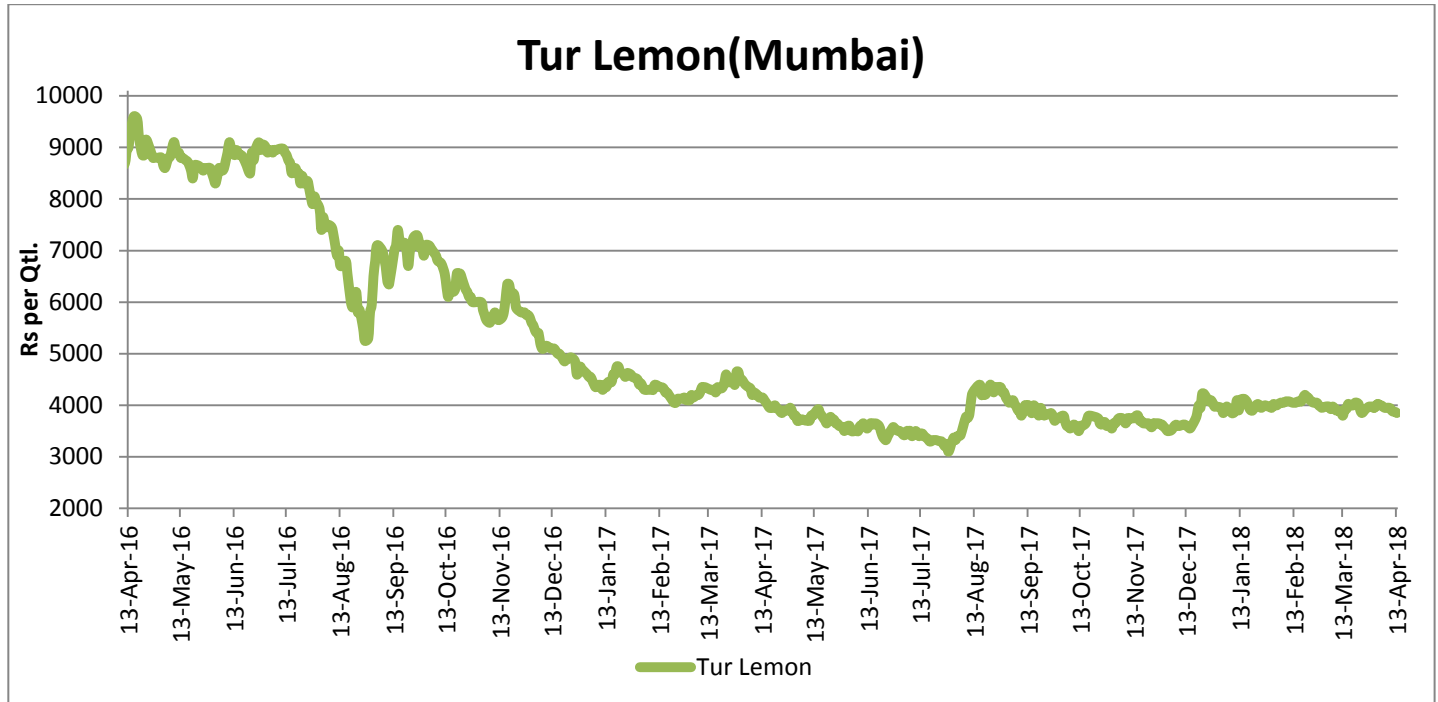

Pigeon Pea (Tur/Toor):

Market Recap:

Tur cash market traded almost steady during the week under review. Private buying remains restricted as govt. agencies remained active to procure at MSP. As millers demand remains weak, improvement in cash market is unlikely in the near term. There is a growing fear in the market that import up to the level of 2 lakh tonne is possible as prices in African countries and Myanmar is much lower than India. With 30 percent import duty Myanmar Tur may hit Indian market at Rs 2800/3000 per qtl. African Tur is even more cheaper. It is advisable to buy on dip.

Current Market Dynamics & Outlook:

Private traders remain skeptical over import as government has not notified any further move regarding import of Tur as of now. This means import is possible up to the limit of 2 lakh tonne during the fiscal year beginning 1st April 2018. This may discourage private buyers from holding stocks, thus keeping pressure on prices. Range bound movement may prevail in cash market this week.

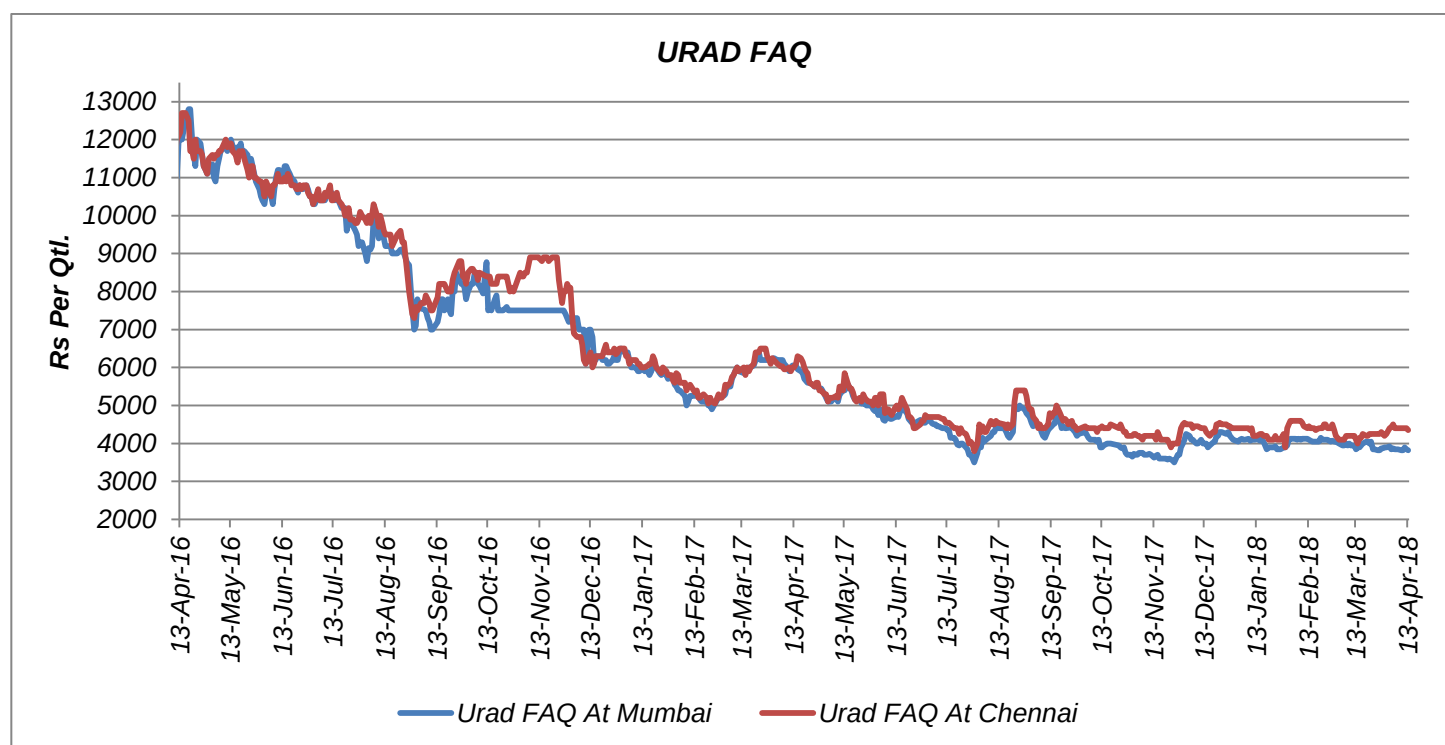

Market Outlook: Tur prices are likely to show steady movement this week..

Black Matpe (Urad):

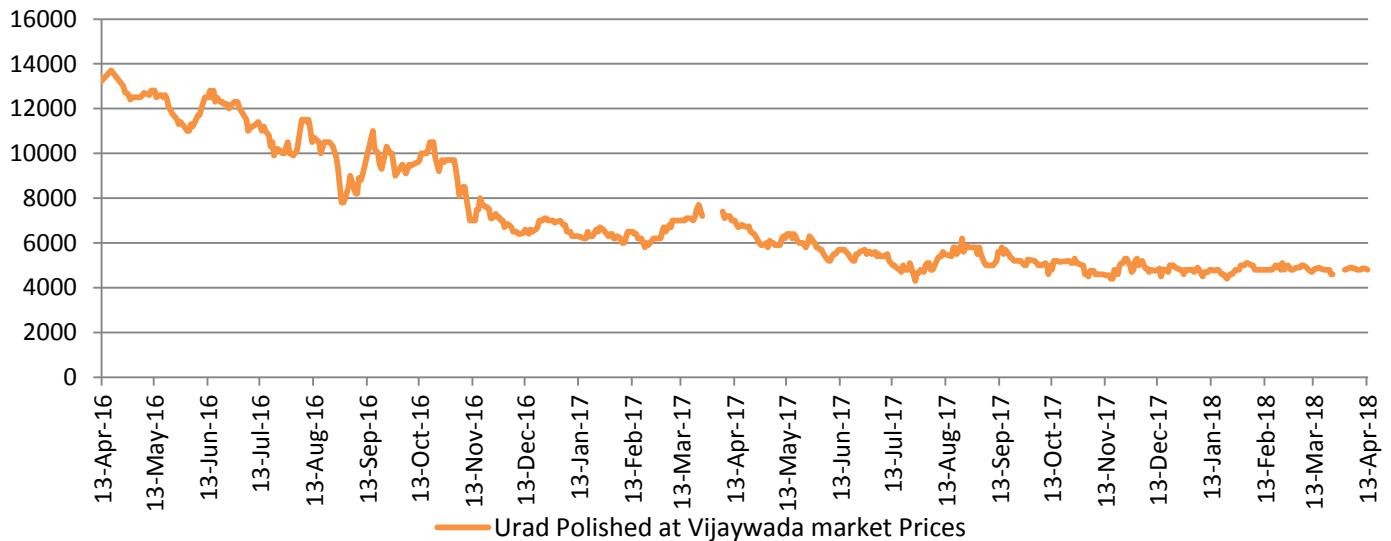

Urad cash market traded almost unchanged at previous level. Firmness in market is unlikely as there is ample availability of stock in private as well as govts' custody. In a latest developments central govt has given green signal for procuring 3000 MT Urad in Tamil Nadu and 1lakh MT in Andhra Pradesh from Rabi season 2018 at MSP. It may support Urad price in local market to a certain extent. Odisha govt. has approved to procure Urad, Moong and Tur from farmers on MSP. Markfed will procure pulses in the state. Procurement quantity remains unspecified. Import is possible as govt has not notified any ban on fixed quota of 1.5 lakh tonne for three year starting from 1st April-2018. Import is possible from Burma as it is offering Urad at much lower prices- FAQ at \$375-380 and SQ at \$490-495 per tonne.

Current Market Dynamics & Outlook:

Urad FAQ at Mumbai (Rs.3800-4050Qtl.) and Chennai (Rs.4250-4450Qtl.) noticed firm tone, market remained closed at Vijayawad due to March closing.. Steady to weak movement might be seen in Urad market due to lack of demand at higher level. The following graph shows the prices movement in different markets:-

Urad Polished at Vijaywada

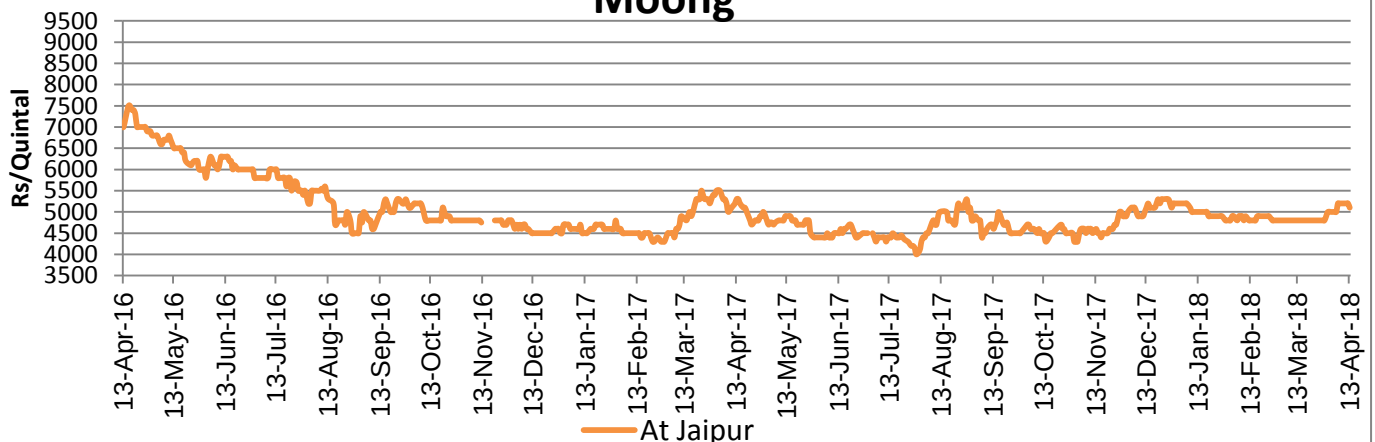

Market Outlook: Urad Prices are likely to show steady momentum this week.

Green Gram (Moong):

Market Recap:

Moong cash market traded down, by Rs100 to Rs 5000-5100 per qtl. as buyers restricted buying at higher level just ahead of Rabi Moong arrival. Ample availability of Moong in central pool and continuous selling through auction continue to cap firm momentum. Cash market may decrease by Rs 100-150 more this week despite ongoing procurement drive. It is likely to trade in the range of Rs 4800-5200 per qtl. in Jaipur market. Dal demand is likely to improve as availability of vegetables starts decreasing with increasing temperature. However, selling by Nafed and Markfed would restrict market from moving beyond a certain level. It would continue to balance supply side and would continue to affect market sentiments in the weeks ahead.

Moong

Market Outlook: Moong prices are likely to trade steady in the near term.
