Commodity-wise Domestic, International Prices and Arrivals at Different Centers

Highlights-Domestic Market:

- **Tur market continued to move in a narrow range and is likely to trade steady this week.** Lack of liquidity in private hands and lower realization this year, is expected to encourage farmers to shift from tur to other lucrative crops like groundnut, chilli, turmeric & others. In Gulberga market Tur is being traded at Rs 3750 to Rs 4350 per qtl. Demand for Tur and Tur dal has not been up to the mark in recent weeks. There is a common view in the market that all India area for Tur may decline by 15 to 20 percent this year. It may support cash market in the second half of the year. Prediction for good monsoon rainfall too has impacted market sentiment.
- **Burma is offering lemon tur at \$325 and \$330 (new) per tonne basis CnF. Tur market may trade range bound in coming days.** In a latest development Maharashtra state govt. has asked union govt to extend date for Tur procurement till 31st May-2018 from earlier approved till 18th April-2018.
- **Urad market traded almost flat during the week under review.** As per pre-sowing market intension area under kharif urad may decline by 10 to 15 percent on all India basis. Lower price realization remains discouraging for farmers. Steady to slightly weak tone may prevail in cash Urad market this week. Urad at Mumbai market is being traded at Rs 3750 to 3900 per qtl. Market is waiting for demand. Bulk buyers like millers remain sidelined with prevailing weak inner tone. Burma is offering Urad FAQ at \$365 and SQ at \$480 per tonne basis CnF Indian port. At this price possibility of import seems very much in sight. Under current norm, importers can import 1.5 lakh tonne Urad.
- **In a latest development, central govt has given green signal for procuring 3000 MT Urad in Tamil Nadu and 1 lakh MT in Andhra Pradesh from Rabi season 2018 at MSP.** It may support Urad price in local market to a certain extent.
- **Moong seems under pressure due to lack of demand. However, stockists have restricted selling at decreased price in Delhi Market.** Unlike Delhi Moong offtake in Rajasthan was seen improving. It is being traded at Rs 4900 to Rs 5400 in Maharashtra. In Gulberga it is being traded at Rs 4400 to Rs 5300 per qtl. As parity for import seems in sight, traders expect containers from Myanmar may hit India in May.
- **Moong import is possible despite quantity restriction at 1.5 lakh tonne for the year.** Prices of Moong in domestic market is hovering in the range of Rs 4800-5000, while Mozambique and Burma are offering Moong at \$545 & \$690 per tonne against Indian prevailing price of \$730-740 per tonne. In INR term Mozambique Moong comes to Rs 35360 per tonne while Myanmar Moong comes to 4475 per qtl. New rabi moong is expected from mid May from Bihar and UP. Moong from MP is expected to hit market in June. So supply side is expected to be higher and would cap any move of uptrend in coming weeks.
- **With weak buying support, excess supply and liquidity crunch, chana market continues to reel under pressure despite procurement drive in various states.** Lower demand for dal from retail sector too remains discouraging factor. As market is ruling below normal expected level, recovery in market is expected to start from May. Buyers interest might increase at current level. Australian Chana in Mumbai market is being quoted at Rs 3575-3600 per qtl. It is being traded at Rs 3700 in Delhi market. MP Chana in Delhi is being traded at Rs 3750. Slight recovery in market is expected in May. Buyers may return at lower level.
- **Odisha state Government has decided to procure pulses of 2017-18 kharif season from the farmers through Odisha State Cooperative Marketing Federation (Markfed).** It will procure moong, Urad, arhar among others, from farmers, at minimum support price (MSP) announced by the Government.
- **Masur cash market could not sustain its uptrend and decreased by Rs 100 per qtl. more, due to restricted buying by mills.** Downward correction is expected this week as demand flow from bulk buyers has weakened. As supply side is normal against poor demand, cash market may dip Rs 100 more, from current level. Import is likely

to remain restricted due to 30 % duty and ample availability from new local crop. Procurement on MSP in MP and Uttar Pradesh may lend some support to cash market in coming weeks. In Mumbai market, masur is being traded in the range of Rs3500 to Rs3850 per qtl.

- **Peas market traded steady to slightly firm and slight correction is expected** this week. Canadian matar is being offered at rs 3250 per qtl in Mumbai. Russian pea is available at Rs 3025 per qtl. It is being offered at Rs3245 at Mundra port. Green matart is being offered at rs 4100-4200 per qtl. Sentiment remains weak for this week.

International Market:

- **China field pea demand is likely to increase considerably this year due to expansion of fractionation capacity and unexpected buying by Chinese feed sector.** Chinese feed industries have bought around 300000 MT peas so far. In Jan and Feb, peas import in China was registered at 2.56 and 3 lakh tonne respectively. Weak demand from India affected peas price and Chinese buyers are taking advantage of cheaper pea, for making cattle feed. Other grains are comparatively costly.
- **There is a rumour circulating in the market that Burma has loaded 50 containers each, of Urad and Tur (50 for Nepal.** There is a fear in the Indian market that it may be pushed into India through illegal way, as boarder remains open.
- **US farmers have decreased lentil area due to poor demand and bearish global market.** US farmers had planted 1104 thousand acres under lentil in 2017. This year lentil area has decline by 28 % to 791 thousand acres. Area under lentil in all major producing states like Idaho, Montana, North Dakota and Washington has declined by 69, 73, 77 & 82 % respectively this year against last year.
- **Production of urad and moong has decreased in Myanmar due to lower price realization,** quality issue and virtually no demand from India, as per latest update by Myanmar Pulses, Beans and Sesame Seeds Merchant Association. U Aung Htoo, deputy commerce minister of Myanmar is on visit to India (18 to 20 th Mar-2018) and discussion with Indian counterpart is on. The minister has requested to end quantity limit imposed on import, valid upto 31st March-2018. Under quantity restriction Indian cannot import more than 1.5 lakh tonne Urad & Moong (each) and 2 lakh tonne Tur in a marketing year.
- **After two consecutive bumper crop years of pulses in India, prices of pulses decreased below MSP level and pressure is still on.** So Indian govt is unlikely to increase import quantity in the first half of the current MY, starting from April. Farmers in Myanmar may decrease area under Moong and Urad this year and may shift to other alternate crops as prices are much below the production cost. Myanmar govt is planning to buy Moong to support farmers.
- **Global lentil market traded unchanged during the week under review. Weak demand from India and other importing nations,** has pressurized the Canadian lentil market too. Lentil export from Canada has been decreasing continuously. In the first half of MY 2016-17 only 26% of the opening season supply of lentils was exported. It is down by 51% from last season and 59% during the first half of the 2015-16 marketing year.
- **Lentil price has dropped from \$500 to \$475-80 per tonne. Major buyers like India,** are not going to enter the market for any bulk purchasing. So, buying interest of other countries would not fill the gap. So price is likely to stabilize at current level.
- **Chickpeas production in Australia is expected to decrease by 47.85 % to 10.45 lakhtonne** in 2017-18 from record 2004 lakh tonne 2016-17. Despite 4.43 % higher area coverage, production is bound to decrease drastically due to hot and dry weather condition prevalent in the major growing regions. Chickpeas area increased from 1069 to 1144 thousand ha in 2017-18.

- **Lentils area in Canada is bound to decline from 23.72 to 17.43 lakh ha in 2017-18.** It is lower by 23.54 % from last year. Yield is expected to improve from 1.45 to 1.55 t per ha. Total production is expected to decline by 16 % from 32.48 to 27.25 lakh ha. As production, would decline, total supply would decline by 10.43 % to 30.35 lakh t. Average price in 2017-18 may rule in the range of C\$720 to 750 per T.
- **Lentils production in Australia too is bound to decline from 8.3 to 4.19 lakh tonne in 2017-18.** It is almost 50 % down from last year. Lentils area was reported higher by 16 % at 3.55 lakh ha. Due to rough weather condition Lentils production, would decline to 4.19 lakh tonne. Field peas production too, is bound to decline by 32.47 % to 2.8 lakh tonne in 2017-18. Australia had produced 4.15 lakh tonne field peas in 2016-17.
- **Imposition of 50% import duty on all peas, has started impacting export** volume from Canada, According to Agriculture and Agri-Food, Canada Peas export would decrease from 3.9 MMT (2016-17 to 2.4 MMT in 2017-18. Lower export volume would increase carryout by around 5 lakh ton, higher than normal expectation. Yellow peas prices are hovering in the range of C\$5.00 to C\$6.50 a bushel in western Canada.

Weekly Outlook: -Pulses are likely to trade range bound .

Monthly Wholesale Price Index:

Annual Rate Of Inflation:

Index Numbers of Wholesale Price in India (Base: 2011-12=100)

Pulses WPI decreased by 0.08 point from 124.1 in Feb to 122.3 in Mar-2018.

Pulses-Wise Scenario:

Chana

Current Scenario:

Pressure on chana cash market continues as private buying remains restricted on prevailing weak inner tone in cash market. As crop size is higher amid limited private buying, procurement drives in various states are not able to provide much support to cash market at current level. Uptrend in Chana market is unlikely in the near term. 7 % export incentive for export of pulses including chana and chana dal amid removal of mandatory roasted chana/ chana dal export in consumer pack of one kg by DGFT, would encourage chana price in local market to a certain extent. Farmers have restricted selling of chana in expectation of higher price. Demand from mills too is not expected to improve immediately. So only govt.'s buying, would not help market much. In a latest development, govt is planning to export chana in Afghanistan through MMTC. Recovery is unlikely in April.

All India average price for Chana decreased by 3.63 percent to Rs 3636 per qtl. Even Australian Chana price declined by 2.60 percent to Rs 3587 per 100kg. Following graph illustrates the chana price movement in different markets:

Chana Price Movement

Market Outlook: Steady to slightly weak tone is possible this week too. *Buying on dip is good for stakeholders.*

Peas (Matar):

Market Recap:

Desi pea and green pea traded slightly up while Canadian pea traded down this week. Overall tone seems weak in the short term. Supply side is almost normal against weak demand. More downward correction is expected as Chana price is moving down. Right now, 50 % duty is applicable on all peas. The all India average price decreased slightly, by 0.11 % to Rs 3578 per qtl. In Kanpur market it traded weak by 0.10 to Rs 3270 per qtl. Higher import cost may remain supportive and restrict downward trend.

Current Market Dynamics & Outlook:

At Kanpur, Desi Peas traded up at Rs 3300 due to good demand. However, subdued chana demand may restrict uptrend in the market. Firm movement is unlikely due to decreased Chana price. Russian pea is being traded at Rs 3125 in Mumbai while Canadian Matar, is being quoted at Rs 3230 per qtl. Green peas, was quoted at 4100-4200 per qtl. Market is expected to trade weak in the near term. With current applicable duty, import volume is expected to come to a halt in April.

Spread With Chana:

Spread between Chana and Peas, at Kanpur market decreased by Rs 40 to Rs 484 per qtl owing to increased prices of peas and decreased chana price. Spread is expected to move in the range of 400 to 600 per quintal in the coming weeks, on relative movement in Chana prices. Overall outlook seems steady to slightly weak. Buying on dip is good, as imported pea costing would be higher.

Market Outlook: Outlook remains steady to slightly weak this week.

Lentils (Masoor):

Market Recap:

Kanpur market opened with a weak note in the beginning of the week and maintained its weak momentum at the end of the week. Imposition of 30% import duty would continue to restrict import. New crop is coming into mandis. Buyers should take possession after correction. Production is expected to be slightly lower than normal expectation. Overall sentiments remain firm in the medium term. Stakeholders should buy on dip. Demand from Bengal would support market. Masur dal demand is likely to improve in coming weeks.

Current Scenario:

Weekly average price decreased by 4.97% to Rs 3591 per qtl. Currently in Mumbai it is being quoted at Rs 3850 per qtl. Steady to weak tone may prevail this week too, due to restricted buying .

Market Outlook: Prices are likely to notice weak movement this week.

Pigeon Pea (Tur/Toor):

Market Recap:

Tur cash market traded weak during the week under review. Private buying remains restricted as govt. agencies remained active to procure at MSP. As millers demand remains weak, improvement in cash market is unlikely in the near term. There is a growing fear in the market that import, up to the level of 2 lakh tonne is possible as prices in African countries and Myanmar is much lower than India. With 30 percent import duty Myanmar Tur may hit Indian market at Rs 2800/3000 per qtl. African Tur is even more cheaper. It is advisable to buy on dip.

Current Market Dynamics & Outlook:

Private traders remain skeptical over import, as government has not notified any further move regarding import of Tur as of now. This means import is possible up to the limit of 2 lakh tonne during the fiscal year beginning 1st April 2018. This may discourage private buyers from holding stocks, thus keeping pressure on prices. Range bound movement may prevail in cash market this week.

Market Outlook: Tur prices are likely to show steady movement this week..

Black Matpe (Urad):

Urad cash market traded almost unchanged at previous level. Firmness in market is unlikely as there is ample availability of stock in private as well as govt's custody. In a latest development, central govt has given green signal for procuring 3000 MT Urad in Tamil Nadu and 1 lakh MT in Andhra Pradesh from Rabi season 2018 at MSP. It may support Urad price in local market to a certain extent. Odisha govt. has approved to procure Urad, Moong and Tur from farmers on MSP. Markfed will procure pulses in the state. Procurement quantity remains unspecified. Import is possible as govt has not notified any ban on fixed quota of 1.5 lakh tonne for three years starting from 1st April-2018. Import is possible from Burma as it is offering Urad at much lower prices- FAQ at \$360-365 and SQ at \$480 per tonne.

Current Market Dynamics & Outlook:

Urad FAQ at Mumbai (Rs.3700-3850Qtl.) and Chennai (Rs.4350-4450Qtl.) noticed firm tone. It traded down in Vijaywara too. Steady to weak movement might be seen in Urad market due to lack of demand at higher level. The following graph shows the prices movement in different markets:-

Market Outlook: Urad Prices are likely to show steady momentum this week.

Green Gram (Moong):

**Market Recap:**

Moong cash market traded down, by Rs100 to Rs 4900-5000 per qtl. as buyers restricted buying at higher level, just ahead of Rabi Moong arrival. Ample availability of Moong in central pool and continuous selling through auction, continue to cap firm momentum. Cash market may decrease by Rs 100-150 more this week despite ongoing procurement drive. It is likely to trade in the range of Rs 4800-5200 per qtl. in Jaipur market. Dal demand is likely to improve as availability of vegetables starts decreasing with increasing temperature. However, selling by Nafed and Markfed would restrict market from moving beyond a certain level. It would continue to balance supply side and would continue to affect market sentiments in the weeks ahead.

Market Outlook: Moong prices are likely to trade steady in the near term.
