Commodity-wise Domestic, International Prices and Arrivals at Different Centers

Highlights-Domestic Market:

- **Govt. has extended the ban on import of pulses to processed pulses also last week. Earlier, it was applicable to unprocessed pulses, like tur whole or moong, chana and peas. The latest move is expected to support pulses dal market to a certain extent. After this decision dal market moves up by Rs 100 to 150.**
- **With weak buying support, excess supply and liquidity crunch, chana market continued to reel under pressure despite procurement drive in various states. Lower demand for dal from retail sector too remains discouraging factor. As market is ruling below normal expected level, recovery in market is expected to start from mid-May. Buyer's interest might increase at current level. Australian Chana in Mumbai market is being quoted at Rs.3575-3600 per qtl. It is being traded at Rs.3650-3675 in Delhi market. MP Chana in Delhi is being traded at Rs.3650-3700. Slight recovery in market is expected this month.**
- **Moong seems under pressure due to lack of demand. However, stockists have restricted selling at decreased price in Delhi market. Unlike in Delhi, Moong offtake in Rajasthan was seen improving. It is being traded at Rs.4900 to Rs.5400 in Maharashtra. In Gulbarga it is being traded at Rs.4400 to Rs.5300 per quintal. As parity for import seems in sight, traders expect consignments from Myanmar may start arriving in India by May. Moong import is possible despite quantity restriction at 1.5 lakh tonne for the year. Prices of Moong in domestic market are hovering in the range of Rs.4800-5000, while Mozambique and Burma are offering Moong at \$545 & \$690 per tonne which convert to Rs.3536 and Rs.4475 per quintal respectively.**
- **Burma is offering lemon tur at \$330 and \$335 (new) per tonne basis CnF.Tur market may trade range bound in coming days.In a latest development Maharashtra state govt. would procure Tur till 15th May-2018 from earlier approved till 18th April-2018.**
- **There is news circulating in the market that Indian exporters have been able to clinch order around 6000 tonne chana export to west Asian countries & Bangladesh after announcement of 7 % export incentive to exporters. Around 5000 tonne chana has been shipped to Bangladesh last week at \$540 per tonne basis B,desh port. Besides, around 1000 tonne Chana & Chana dal are in process to be loaded for Dubai and Jeddah at the rate of \$575 & 675 basis CnF in the 2nd week of May**
- **Urad market traded almost flat during the week under review. As per pre-sowing intention, area under kharif urad across the country may decline by 10-15%. Lower price realization remains discouraging for farmers. Steady to slightly weak tone may prevail in cash Urad market this week. Urad at Mumbai market is being traded at Rs 3650 to 4000 per quintal. Market is waiting for demand. Bulk buyers like millers, remain sidelined with prevailing weak undertone.**
- **Import of yellow peas would be limited to 1 lakh tonne till 30th June-2018.It will be affective from 1st April to 30th June-2018 for three months. The restricted quantity includes import from 1April to 25th April too.Till 24 th April around 40,000 tonne yellow peas have been imported .So now only 60,000 more yellow peas can be imported till June-2018.new restriction is on yellow peas . Green peas and Duunn peas import remains unaffected. It would badly affect France. France had exported 41000 tonne yellow peas to Indian from April to June last year. This means residual supplies of yellow peas in global market would be higher than normal expectaion ,that will affect global peas price in coming weeks.**
- **Masur cash market could not sustain its uptrend and decreased by Rs 50 per qtl. more, due to restricted buying by mills. Downward correction is expected this week as demand flow from bulk buyers has weakened. As supply side is normal against poor demand,cash market may dip rs 100 more, from current level. Import is likely to remain restricted due to 30 % duty and ample availability from new local crop.Procurement on MSP in MP**

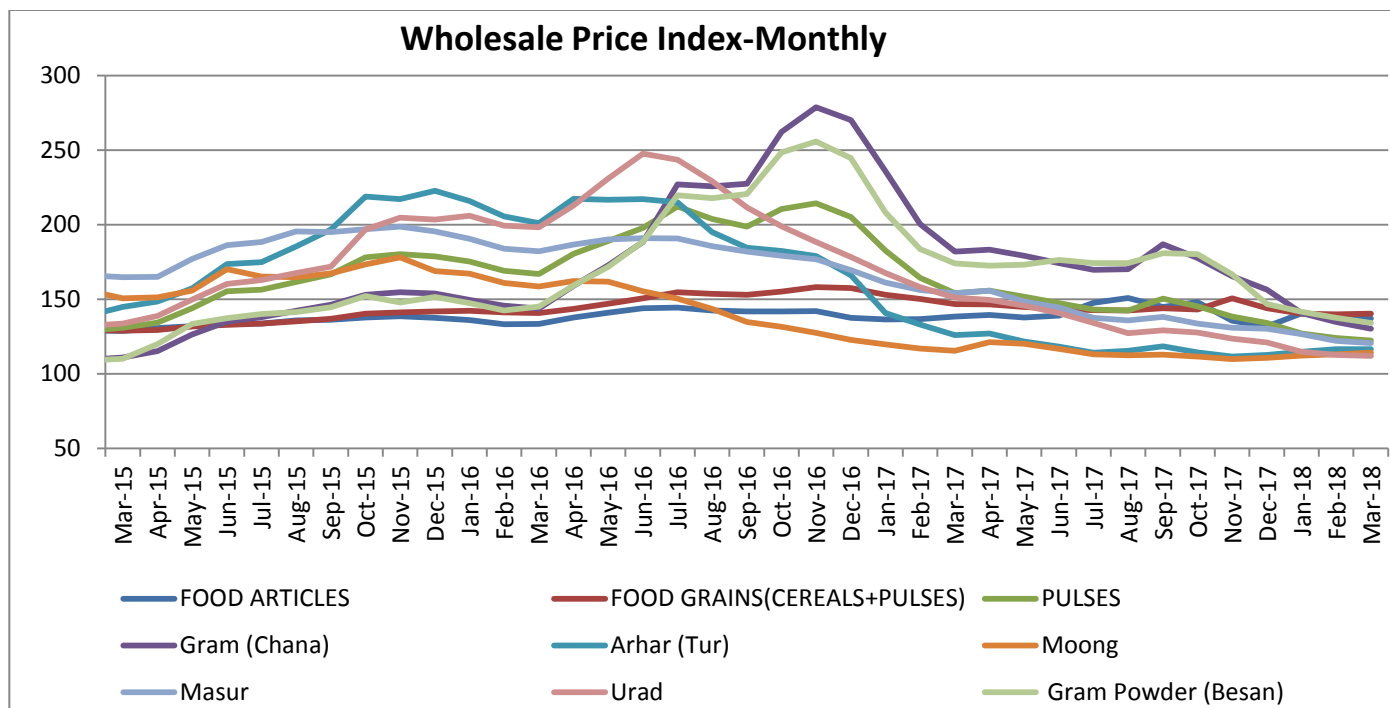

and Uttar Pradesh may lend some support to cash market in coming weeks. In Mumbai market, masur is being traded in the range of Rs3450 to Rs3850 per qtl.

International Market:

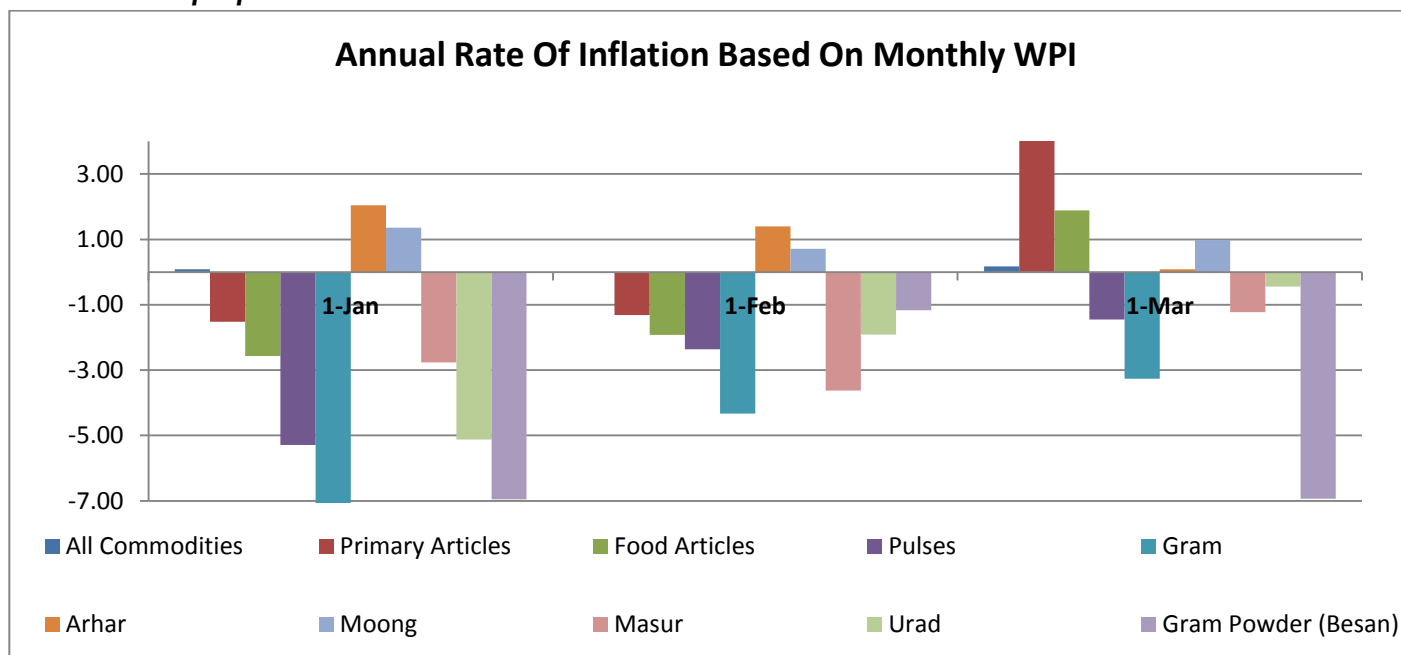

- **Despite price distortion caused by Indian prohibitive import policy (50 % duty) on yellow peas, import & quantity restriction up to the level of 1lakh tonne till 30th June-2018, farmers in Canada may not reduce their peas area.** Preliminary intention shows that farmers would plant 2.171 million acres of peas this year, slightly higher (2.165 million acres) than last year. Actually, yellow peas demand from Canada is increasing, as China has started importing more peas for feed industry. Besides, Canadian fractionation plants' demand is increasing continuously. It has helped to reduce dependency on India to a certain extent.
- **Chickpeas area in Canada is likely to increase considerably from 1.6 lakh acres to 2.79 lakh acres in 2018.** While chickpeas are riskier to grow than lentils, the relative returns were starting to look better for chickpeas in the regions they're grown-says Carl Potts, executive director of the Saskatchewan Pulse Growers. According to him, growing North American demand for hummus is another factor behind the strength in chickpeas market..
- **There is a rumour circulating in the market that Burma has loaded 50 containers each, of Urad and Tur (50 for Nepal.** There is a fear in the Indian market that it may be pushed into India through illegal way, as boarder remains open.
- **Production of urad and moong has decreased in Myanmar due to lower price realization, quality issue and virtually no demand from India, as per latest update by Myanmar Pulses, Beans and Sesame Seeds Merchant Association.** U Aung Htoo, deputy commerce minister of Myanmar is on visit to India (18 to 20 th Mar-2018) and discussion with Indian counterpart is on. The minister has requested to end quantity limit imposed on import, valid upto 31st March-2018. Under quantity restriction Indian cannot import more than 1.5 lakh tonne Urad & Moong (each) and 2 lakh tonne Tur in a marketing year.
- **After two consecutive bumper crop years of pulses in India, prices of pulses decreased below MSP level and pressure is still on.** So Indian govt is unlikely to increase import quantity in the first half of the current MY, starting from April. Farmers in Myanmar may decrease area under Moong and Urad this year and may shift to other alternate crops as prices are much below the production cost. Myanmar govt is planning to buy Moong to support farmers.
- **Chickpeas production in Australia is expected to decrease by 47.85 % to 10.45 lakh tonne in 2017-18 from record 2004 lakh tonne 2016-17.** Despite 4.43 % higher area coverage, production is bound to decrease drastically due to hot and dry weather condition prevalent in the major growing regions. Chickpeas area increased from 1069 to 1144 thousand ha in 2017-18.
- **Lentils area in Canada is bound to decline from 23.72 to 17.43 lakh ha in 2017-18.** It is lower by 23.54 % from last year. Yield is expected to improve from 1.45 to 1.55 t per ha. Total production is expected to decline by 16 % from 32.48 to 27.25 lakh ha. As production, would decline, total supply would decline by 10.43 % to 30.35 lakh t. Average price in 2017-18 may rule in the range of C\$720 to 750 per T.
- **Lentils production in Australia too is bound to decline from 8.3 to 4.19 lakh tonne in 2017-18.** It is almost 50 % down from last year. Lentils area was reported higher by 16 % at 3.55 lakh ha. Due to rough weather condition Lentils production, would decline to 4.19 lakh tonne. Field peas production too, is bound to decline by 32.47 % to 2.8 lakh tonne in 2017-18. Australia had produced 4.15 lakh tonne field peas in 2016-17.

Weekly Outlook: -Pulses are likely to trade range bound .

Monthly Wholesale Price Index:

Annual Rate Of Inflation:

Index Numbers of Wholesale Price in India (Base: 2011-12=100)

Pulses WPI decreased by 0.08 point from 124.1 in Feb to 122.3 in Mar-2018.

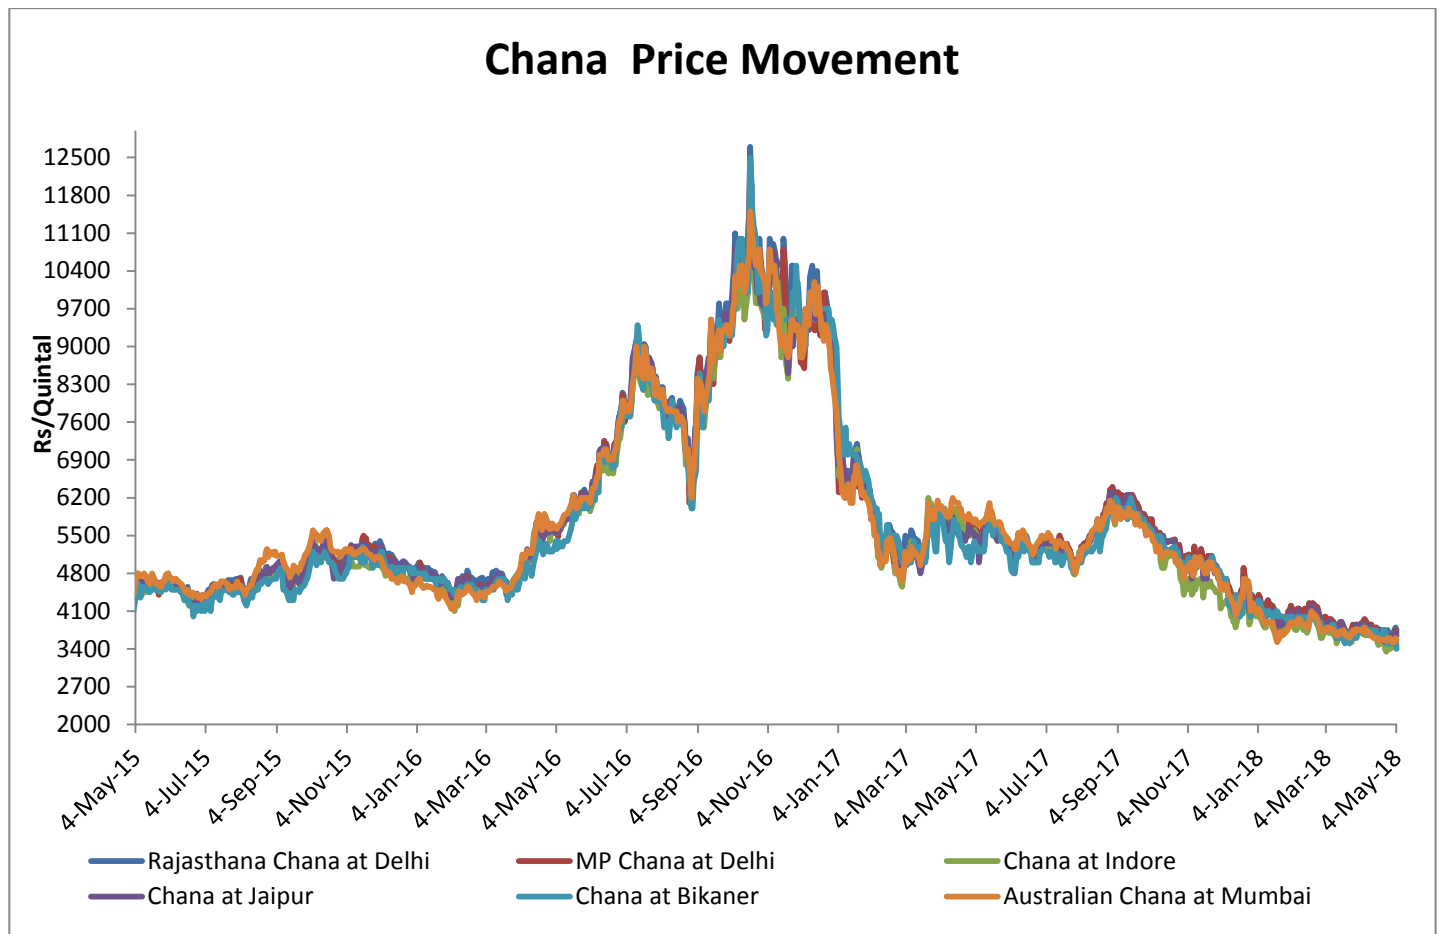

Pulses-Wise Scenario:

Chana

Current Scenario:

Despite various attempts to support domestic price by govt. Chana markets continues to rule below MSP. In uncertain market inner tone private participants have restricted buying. Demand is weak for dal and lack of liquidity too hampers normal trade in market. In a latest development the govt. has extended the ban on import of pulses to processed pulses also last week. Earlier, it was applicable to unprocessed pulses, like tur whole or moong, chana and peas. The latest move is expected to support pulses dal market to a certain extent. Chana market should stabilize near current level. Recovery is expected in June.

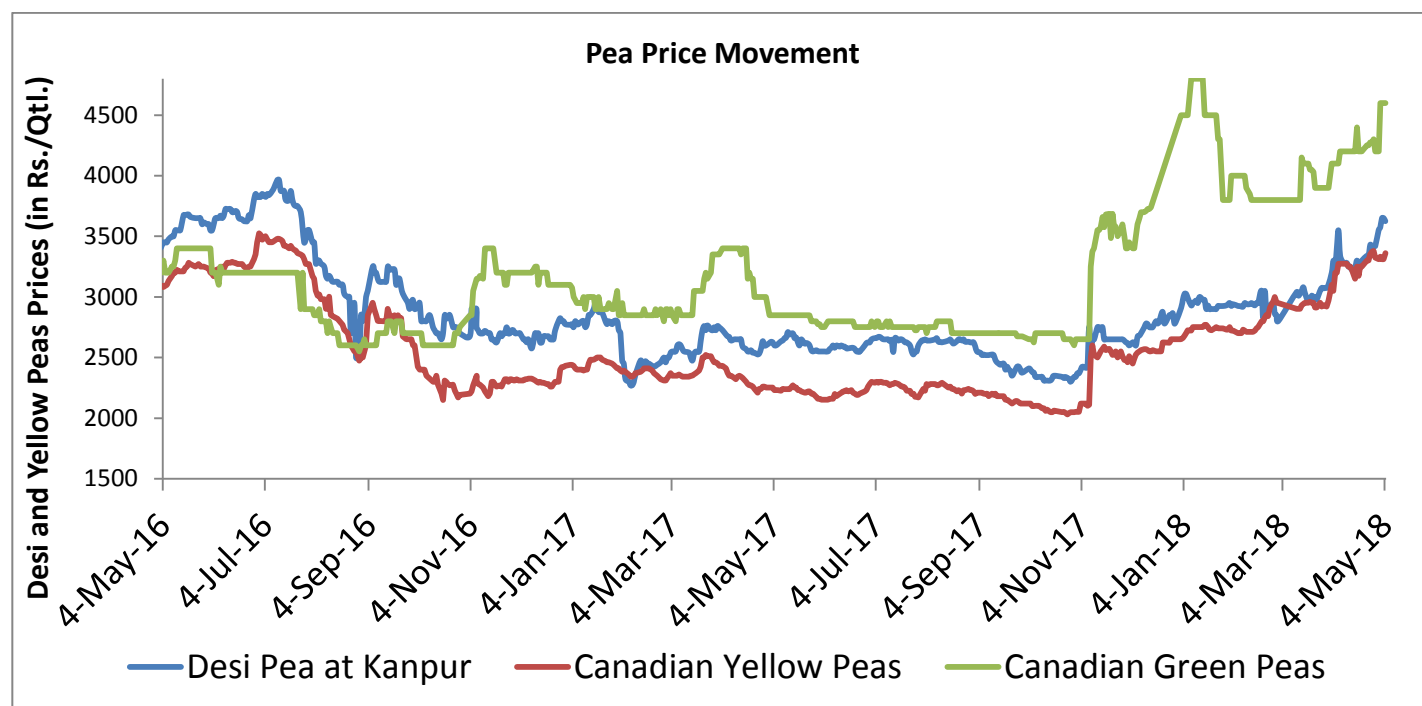

All India average price for Chana increased by 0.69 percent to Rs 3602 per qtl. However, Australian Chana price decreased by 0.83 percent to Rs 3550 per 100kg. Following graph illustrates the chana price movement in different markets:

Market Outlook: Steady to slightly weak tone seems possible this week too. Buying on dip is good for stakeholders.

Peas (Matar):

Market Recap:

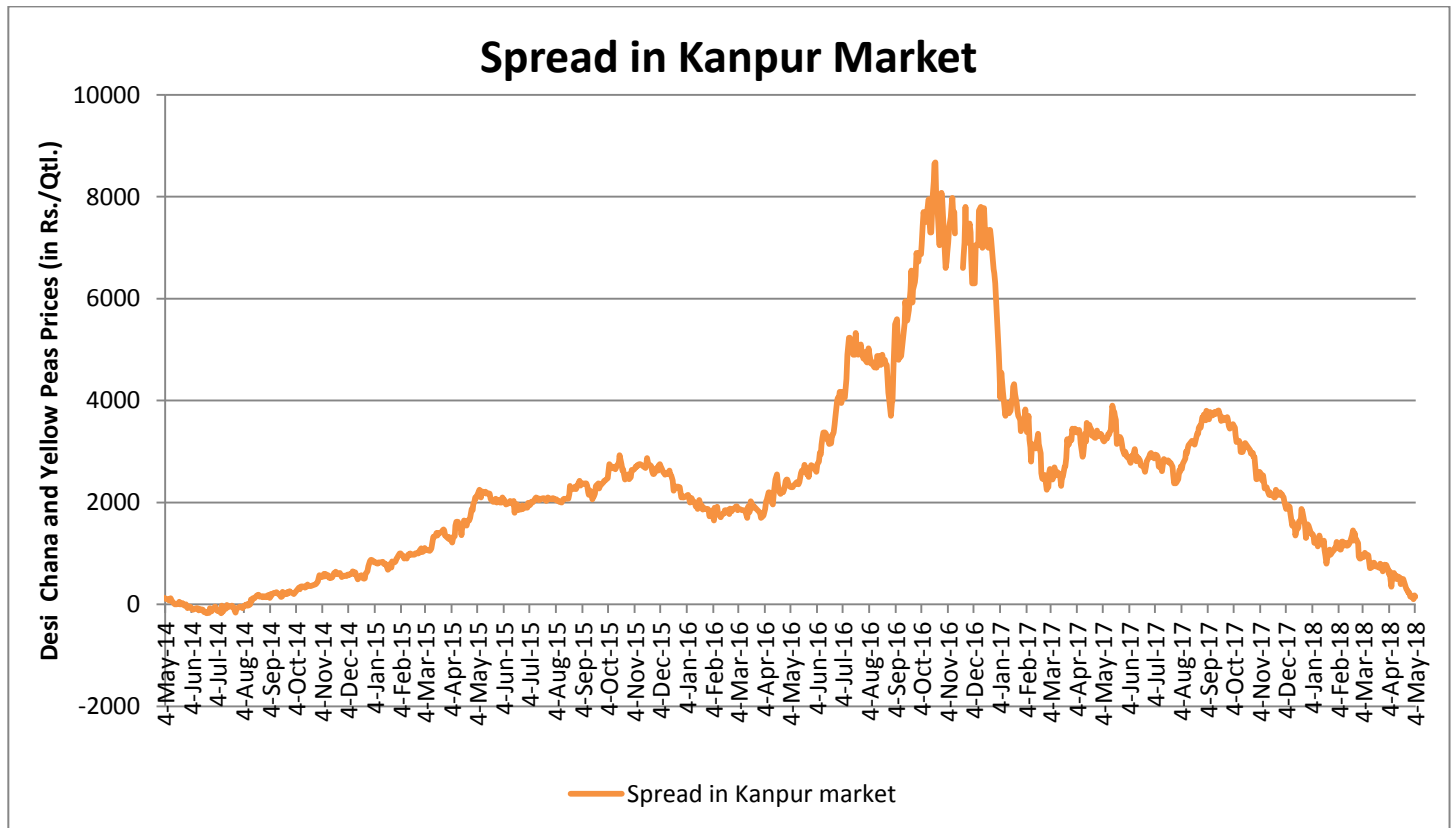

Desi pea, green pea and Canadian pea traded up this week due to restricted import volume till June-2018..Overall tone seems firm in the short to medium term. Supply-demand side is almost normal. Downward correction is unexpected as Chana price is likely to stay steady at current level. Right now, 50 % duty is applicable on all peas. All India average price increased by 4.03 % to Rs 3818 per qtl. In Kanpur market it traded firm by 5.98 to Rs 3610 per qtl. Higher import cost may remain supportive in the near term.

Current Market Dynamics & Outlook:

At Kanpur, Desi Peas traded up at Rs 3625 due to good demand. However, subdued chana demand may restrict uptrend in the market. Russian pea is being traded at Rs 3181 in Mumbai while Canadian Matar, is being quoted at Rs 3311-3321 per qtl. Green peas, was quoted at 4500-4600 per qtl Market is expected to trade steady to slightly firm in the near term. With current applicable duty and quantity restriction, import volume is expected to come to a halt in May too.

Spread With Chana:

Spread between Chana and Peas, at Kanpur market decreased by Rs 105 to Rs 145 per qtl owing to increased prices of peas and decreased chana price. Spread is expected to move in the range of 100 to 150 per quintal in the coming weeks, on relative movement in Chana prices. Overall outlook seems steady to slightly firm. Buying on dip is good, as imported pea costing would be higher.

Market Outlook: Outlook remains steady to slightly firm this week.

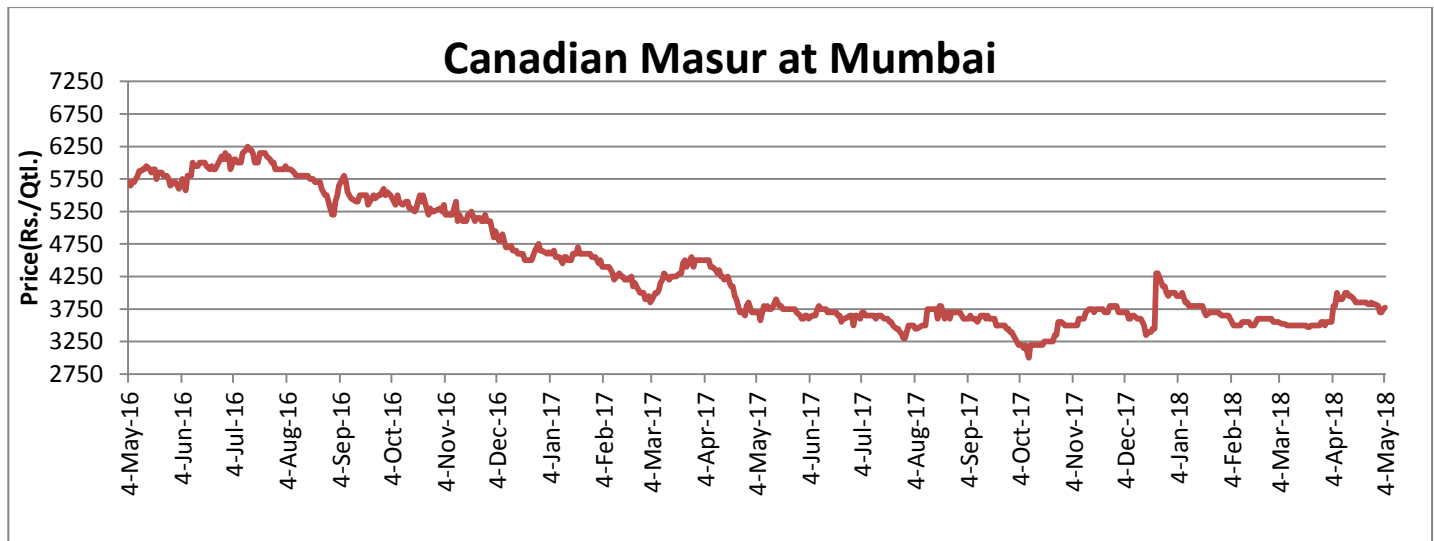

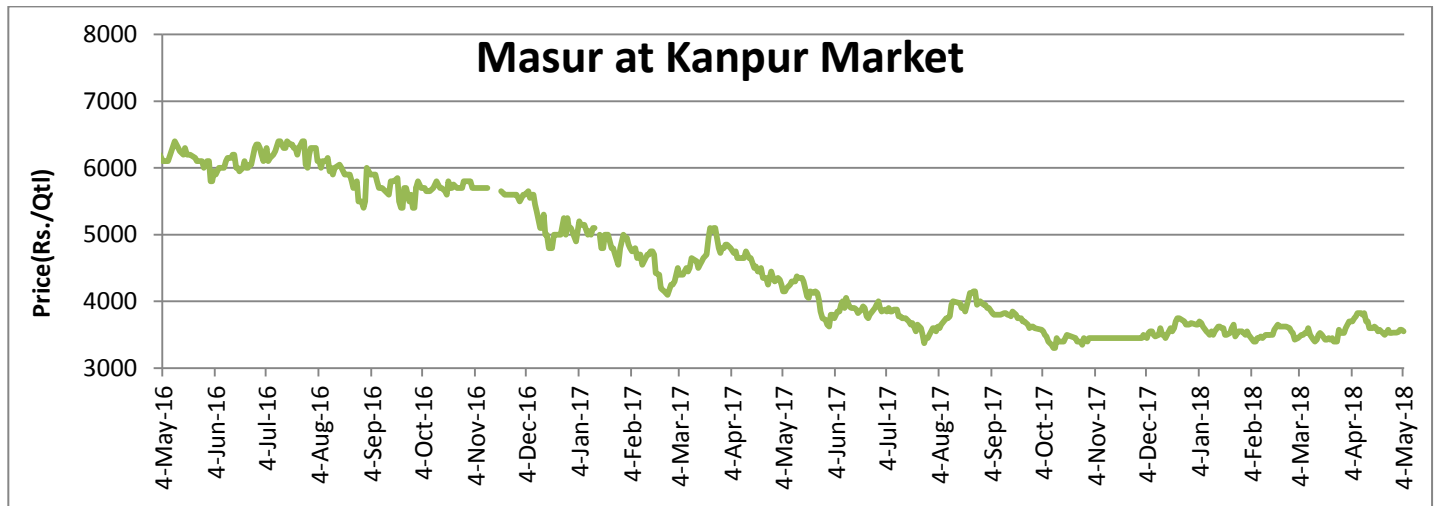

Lentils (Masoor):

Market Recap:

Kanpur market opened with a firm note in the beginning of the week but could not sustain firm momentum at the end of the week. Imposition of 30% import duty would continue to restrict import. New crop is coming into mandis. Buyers should take possession after correction. Production is expected to be slightly lower than normal expectation. Overall sentiments remain firm in the medium term. Stakeholders should buy on dip. Demand from Bengal would support market. Masur dal demand is likely to improve in coming weeks.

Current Scenario:

Weekly average price increased by 0.64% to Rs 3554 per qtl. Currently in Mumbai it is being quoted at Rs 3775 per qtl. Steady to weak tone may prevail this week too, due to restricted buying and illegal import from neighboring countries as per market source.

Market Outlook: Prices are likely to notice weak movement this week.

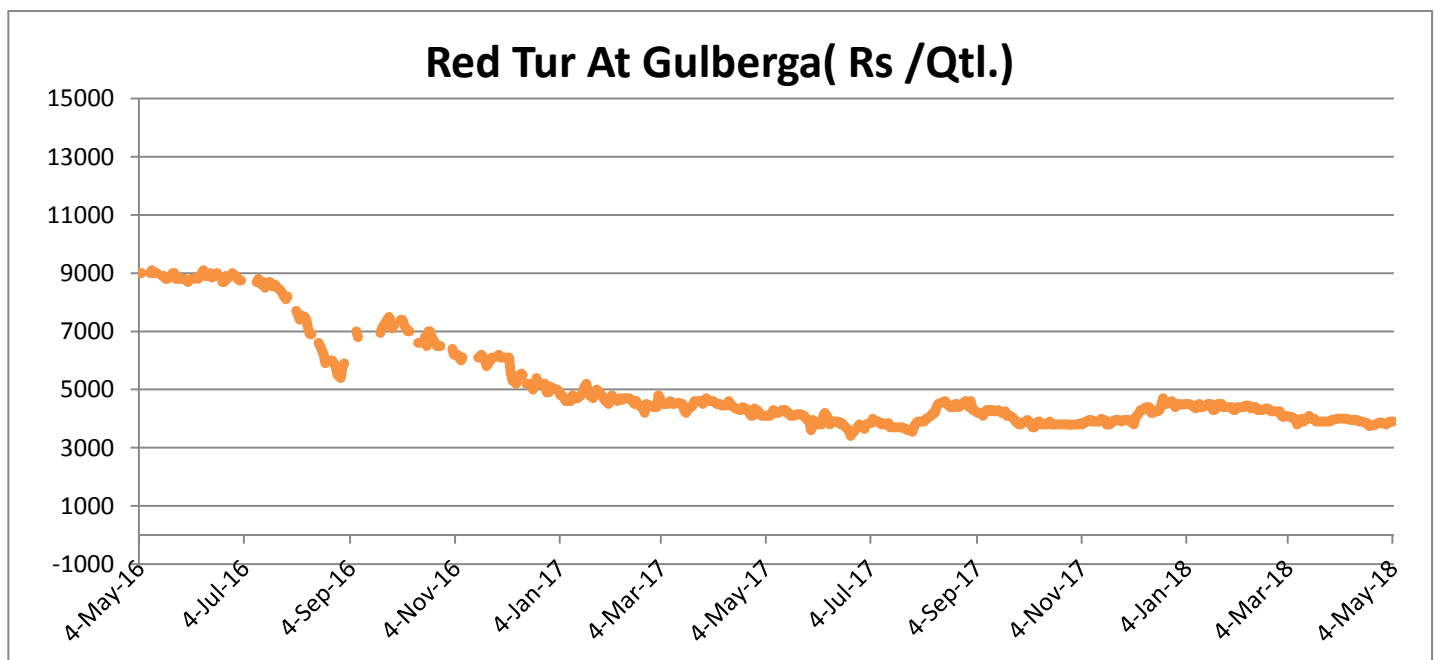

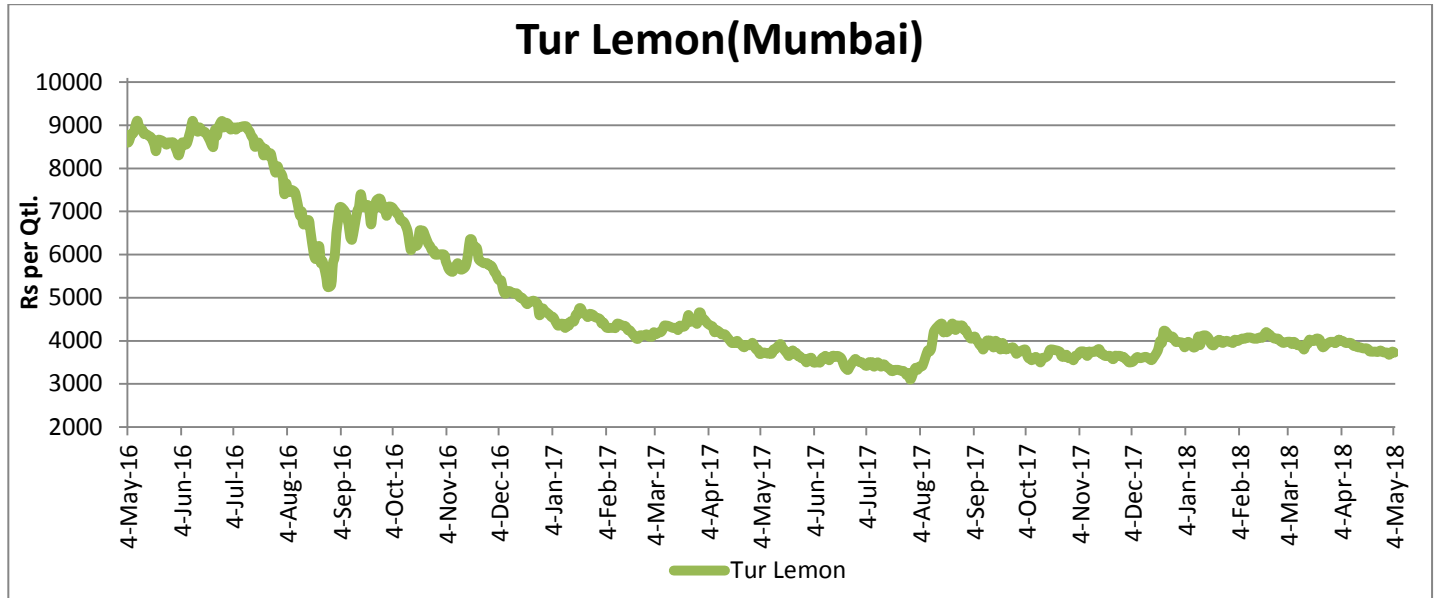

Pigeon Pea (Tur/Toor):

Market Recap:

Tur cash market traded weak during the week under review. Private buying remains restricted as govt. agencies remained active to procure at MSP. As millers demand remains weak, improvement in cash market is unlikely in the near term. There is a growing fear in the market that import, up to the level of 2 lakh tonne is possible as prices in African countries and Myanmar is much lower than India. With 30 percent import duty Myanmar Tur may hit Indian market at Rs 3000/3200 per qtl. African Tur is even more cheaper. It is advisable to buy on dip.

Current Market Dynamics & Outlook:

Private traders remain skeptical over import, as government has not notified any further move regarding import of Tur as of now. This means import is possible up to the limit of 2 lakh tonne during the fiscal year beginning 1st April 2018. This may discourage private buyers from holding stocks, thus keeping pressure on prices. Range bound movement may prevail in cash market this week.

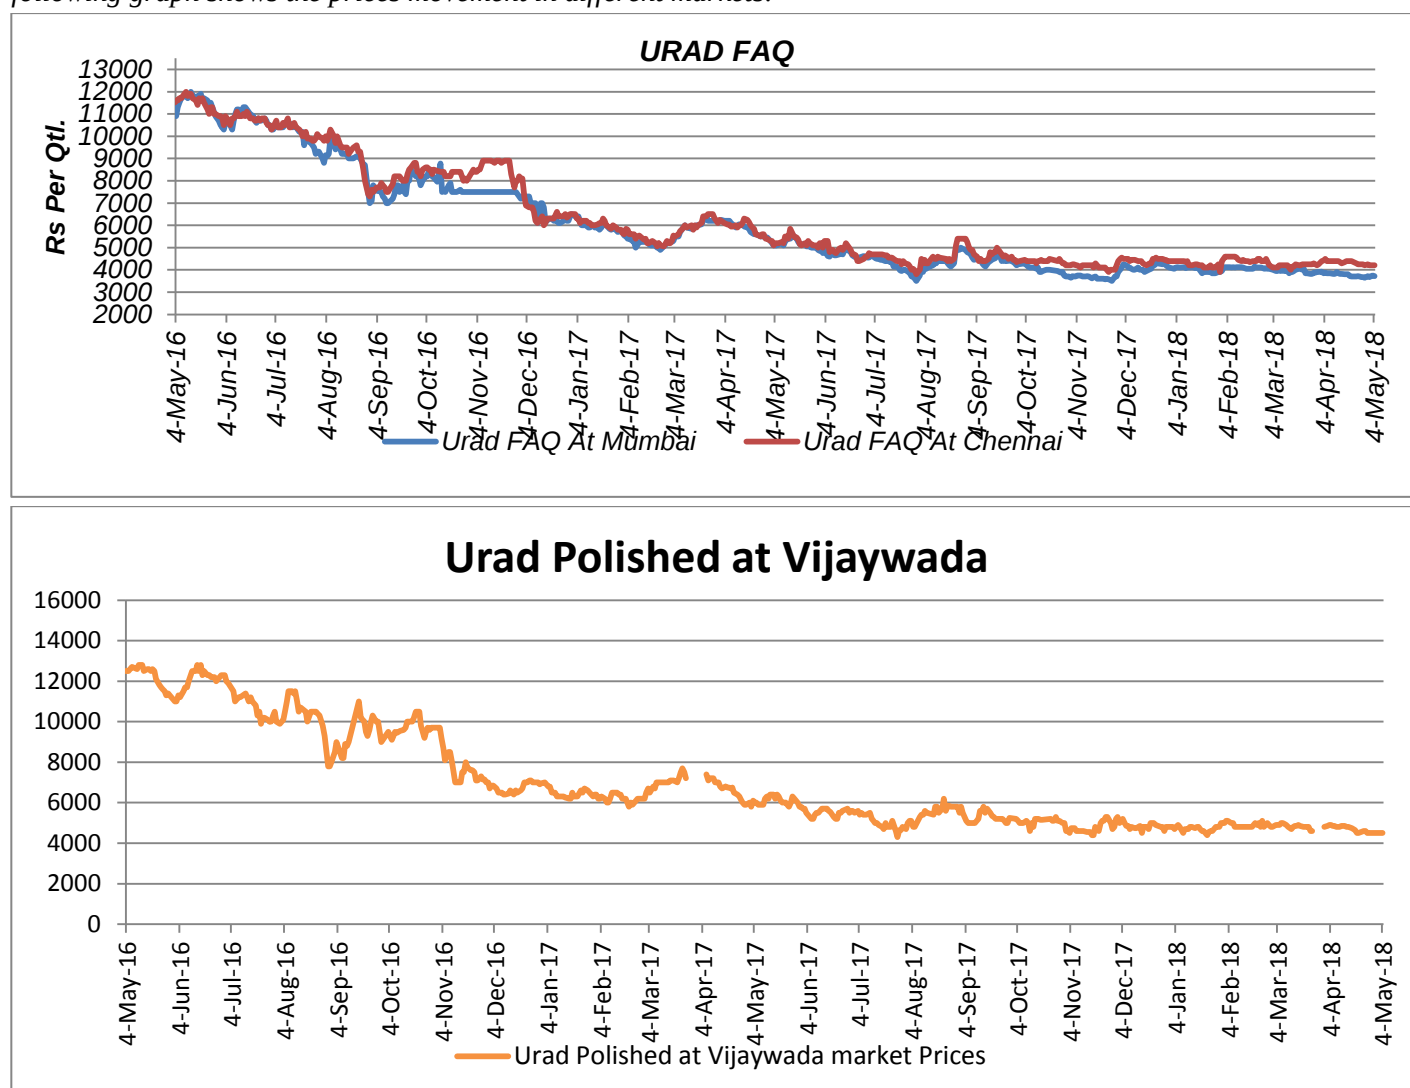

Market Outlook: Tur prices are likely to show steady movement this week..

Black Matpe (Urad):

Urad cash market traded weak. Firmness in market is unlikely as there is ample availability of stock in private as well as govt's custody. In a latest development, central govt has given green signal for procuring 3000 MT Urad in Tamil Nadu and 1 lakh MT in Andhra Pradesh from Rabi season 2018 at MSP. It may support Urad price in local market to a certain extent. Odisha govt. has approved to procure Urad, Moong and Tur from farmers on MSP. Markfed will procure pulses in the state. Procurement quantity remains unspecified. Import is possible as govt has not notified any ban on fixed quota of 1.5 lakh tonne for three years starting from 1st April-2018. Import is possible from Burma as it is offering Urad at much lower prices- FAQ at \$360-365 and SQ at \$480 per tonne.

Current Market Dynamics & Outlook:

Urad FAQ at Mumbai (Rs.3650-3750 Qtl.) and Chennai (Rs.4200-4250 Qtl.) noticed weak tone. It traded down in Vijaywada too. Steady to weak movement might be seen in Urad market due to lack of demand at higher level. The following graph shows the prices movement in different markets:-

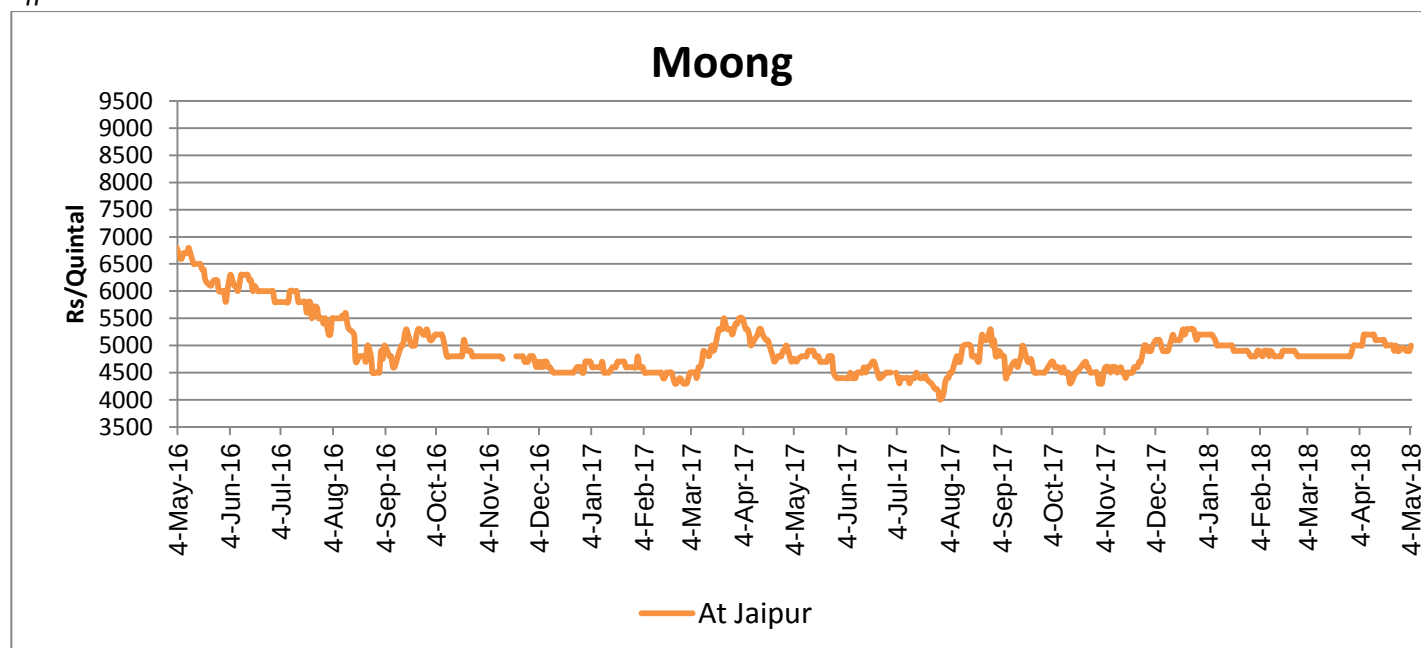

Market Outlook: Urad Prices are likely to show steady to weak momentum this week.

Green Gram (Moong):

Market Recap:

Moong cash market traded down, by Rs50 to Rs 4900-4950 per qtl. as buyers restricted buying at higher level, just ahead of Rabi Moong arrival. Ample availability of Moong in central pool and continuous selling through auction, continue to cap firm momentum. Cash market may decrease by Rs 100-150 more this week despite ongoing procurement drive. It is likely to trade in the range of Rs 4800-5200 per qtl. in Jaipur market. Dal demand is likely to improve as availability of vegetables starts decreasing with increasing temperature. However, selling by Nafed and Markfed would restrict market from moving beyond a certain level. It would continue to balance supply side and would continue to affect market sentiments in the weeks ahead.

Market Outlook: Moong prices are likely to trade steady to slightly weak in the near term.
