- ✓ Australia Pulses Supply & Demand

Commodity-wise Domestic, International Prices and Arrivals at Different Centers

Highlights-Domestic Market:

- ***DES has revised pulses production estimates from 23.95 to 24.51MMT in the 3rd Adv.Est released on 16th May-2018 for 2017-18 season. It has finalized last year production at 23.13 MMT.***
- ***According to agriculture ministry, import of pulses in India has declined by around 10 lakh tonne from 66 in 2016-17 to 56.5 lakh tonne in 2017-18 due to bumper rabi & kharif crops in two consecutive years and import restriction imposed by govt to support domestic cash market. Lower import last year has saved around 9775 crore in foreign exchange..***
- ***Notably, India has produced record 23.95 MMT pulses in 2017-18 against 23.13 in 2016-17. This year too there is good production prospects and India expects one more bumper crop in kharif 2018-19. Good monsoon rainfall and higher MSP have encouraged farmers to grow more pulses. However, situation is not favorable for farmers due to lower realization this year. If prices continue to rule below MSP, farmers may reduce Tur and Urad Area in kharif season.***
- ***Govt. has allowed only millers to import of pulses under set quantity and they would have to import it under quota system set by DGFT till March-2019. There is a common view in the market that it would help market to recover in the short to medium term. Millers have to apply till 25th May-2018 for Import and center would allocate quota for mills on 1st June-2018. Mills would be required to give weekly information regarding import.***
- ***In a latest development MP state govt has approved buying of 11,27,325 tonne chana on MSP. Nafed has procured total 7.89 lakh tonne chana so far. Out of total it has procured 3.65 lakh tone chana in MP so far.***
- ***Good pre-monsoon rainfall in Moong growing belt in Karnataka and more rainfall expected this week would encourage kharif moong sowing in Karnataka, especially in Mysore and Gadag regions this year. Sowing is likely to commence in the third week of May. New crop would arrive in the market approximately during second week of July. As crop size is small, prices may not be impacted much. However, new moong from UP and Bihar may cap uptrend in the near term. Quality of summer Moong crop in UP and Bihar is good. As Moong is fetching comparatively good price in pulses segment, farmers may increase Moong area in kharif season.***
- ***Moong production estimate has been revised down from 1.42 to 1.39 MMT in 3d Adv estimate against the set target of 1.65 MMT for 2017-18 for kharif. However, it has been revised up from 0.32 to 0.51 MMT for Rabi against set target of 0.65 MMT. Overall production is estimated lower by around 4 lakh tonne from set target of 2.3 MMT.***
- ***Tur market traded up by Rs 50 per quintal during the week under review taking clue from decreasing arrivals in major mandis, growing fears of lower acreage and almost halted imports. Import has been allowed with certain condition. awaited approval for import under restricted quota of 2 lakh tonne for the entire financial year. Millers demand due to beginning of marriage season is expected to improve in coming weeks and it may continue to lend support to cash market fundamentals***
- ***Urad market traded almost flat during the week under review. As per pre-sowing intention, area under kharif urad across the country may decline by 10-15%. Lower price realization remains discouraging for farmers. Steady to slightly weak tone may prevail in cash Urad market this week. Urad at Mumbai market is being traded at Rs 3650 to 4000 per quintal. Market is waiting for demand. Bulk buyers like millers, remain sidelined with prevailing weak undertone. New Urad in MP begins now. Overall sentiments remain weak,***
- ***Import of yellow peas would be limited to 1 lakh tonne till 30th June-2018. It will be affective from 1st April to 30th June-2018 for three months. The restricted quantity includes import from 1April to 25th April too. Till 24 th April around 40,000 tonne yellow peas have been imported . So now only 60,000 more yellow peas can be imported till June-2018. new restriction is on yellow peas . Green peas and Duunn peas import remains***

unaffected. It would badly affect France. France had exported 41000 tonne yellow peas to India from April to June last year. This means residual supplies of yellow peas in global market would be higher than normal expectation, that will affect global peas price in coming weeks.

- **Masur cash market traded firm and increased by Rs 100 per qtl. due to improved buying by mills.** Upward momentum is expected to continue this week too as demand from bulk buyers has improved. Import is likely to remain restricted due to 30 % duty and ample availability from new local crop. Procurement on MSP in MP and Uttar Pradesh may lend some support to cash market in coming weeks. In Mumbai market, masur is being traded in the range of Rs3500 to Rs3850 per qtl.

International Market:

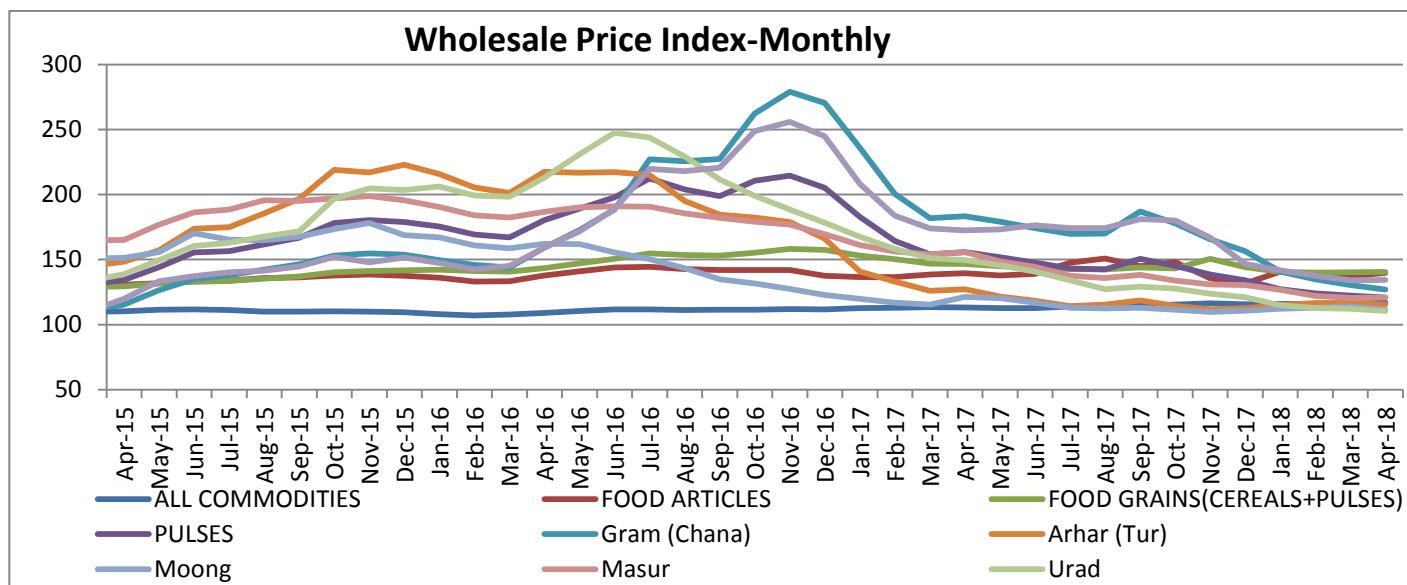

- **Chickpea production in US is likely to increase from 3.13(2017) to 4.34 lakh tonne in 2018.** Lentil production may steady at around 3.39 lakh tonne this year. Pea production too would increase from 6.43 to 6.69 lakh tonne in 2018. Sowing of pulses continues in US and Canada. As major buyers are almost out of the market, global pulses market may stay steady to slightly weak in coming weeks.
- **Global chickpeas market continued to trade steady to slightly firm as exporters and processors** continue to buy for fulfilling their immediate demand for the market. Chickpea planting is underway in Canada & US and slow progress of seeding and delayed sowing have increased fear of lower crop size as crop may face bad weather condition during flowering stages. Sowing progress is running behind by 60 % so far. It is only 20 % so far against last year of 46 % and recent average of 35%.
- **Despite higher inventory (farms & commercial combined) of lentil in Canada lentil market** remained unaffected. At the end of March total lentil inventory in Canada was registered at 1.53 million metric tons (MT). Inventory was highest at record at 1.55 million MT in 2014. Out of this farmers have over 1.36 million MT and the trades 168,000 MT in their custody. According to Statistics Canada inventories in Saskatchewan increased from 835,000 MT last year to 1.25 million MT this year. However, it was decreased from 130,000 to 112,000 MT in Alberta.
- **Burma is offering Tur Lemon at \$290 & likely at \$300 per tonne basis Indian port.** Urad is being offered at \$350 & SQ at \$470. Mung Pakku is at \$640 per tonne. Burmese quotes may move up by \$10 to 20 per tonne in coming weeks. Any major jump is unlikely as there is plenty of stock available in domestic market. Importers may avoid any fresh deal immediately. Agriwatch expects import in second half of the year.
- **Despite price distortion caused by Indian prohibitive import policy (50 % duty) on yellow peas, import & quantity restriction up to the level of 1lakh tonne till 30th June-2018,** farmers in Canada may not reduce their peas area. Preliminary intention shows that farmers would plant 2.171 million acres of peas this year, slightly higher (2.165 million acres) than last year. Actually, yellow peas demand from Canada is increasing, as China has started importing more peas for feed industry. Besides, Canadian fractionation plants' demand is increasing continuously. It has helped to reduce dependency on India to a certain extent.
- **Chickpeas area in Canada is likely to increase considerably from 1.6 lakh acres to 2.79 lakh acres in 2018.** While chickpeas are riskier to grow than lentils, the relative returns were starting to look better for chickpeas in the regions they're grown-says Carl Potts, executive director of the Saskatchewan Pulse Growers. According to him, growing North American demand for hummus is another factor behind the strength in chickpeas market..
- **Chickpeas production in Australia is expected to decrease by 47.85 % to 10.45 lakh tonne in 2017-18** from record 2004 lakh tonne 2016-17. Despite 4.43 % higher area coverage, production is bound to decrease drastically due to hot and dry weather condition prevalent in the major growing regions. Chickpeas area increased from 1069 to 1144 thousand ha in 2017-18.
- **Lentils area in Canada is bound to decline from 23.72 to 17.43 lakh ha in 2017-18.** It is lower by 23.54 % from last year. Yield is expected to improve from 1.45 to 1.55 t per ha. Total production is expected to decline by 16 %

from 32.48 to 27.25 lakh ha. As production, would decline, total supply would decline by 10.43 % to 30.35 lakh t. Average price in 2017-18 may rule in the range of C\$720 to 750 per T.

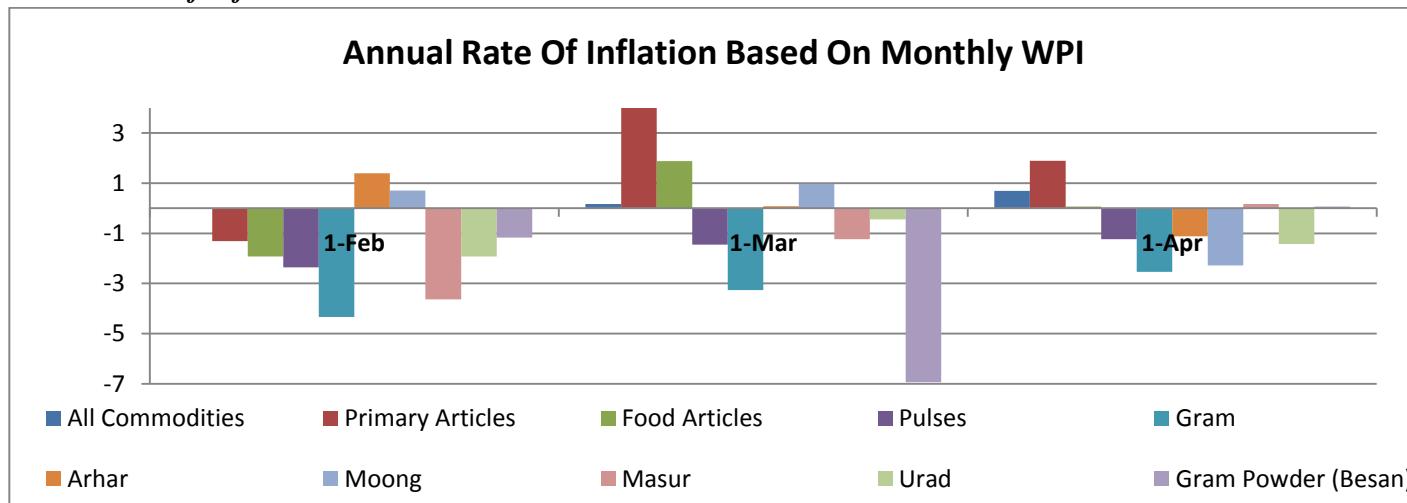

- Lentils production in Australia too is bound to decline from 8.3 to 4.19 lakh tonne in 2017-18. It is almost 50 % down from last year. Lentils area was reported higher by 16 % at 3.55 lakh ha. Due to rough weather condition Lentils production, would decline to 4.19 lakh tonne. Field peas production too, is bound to decline by 32.47 % to 2.8 lakh tonne in 2017-18. Australia had produced 4.15 lakh tonne field peas in 2016-17.**

Weekly Outlook: -Pulses are likely to steady to slightly firm.

Monthly Wholesale Price Index:

Annual Rate Of Inflation:

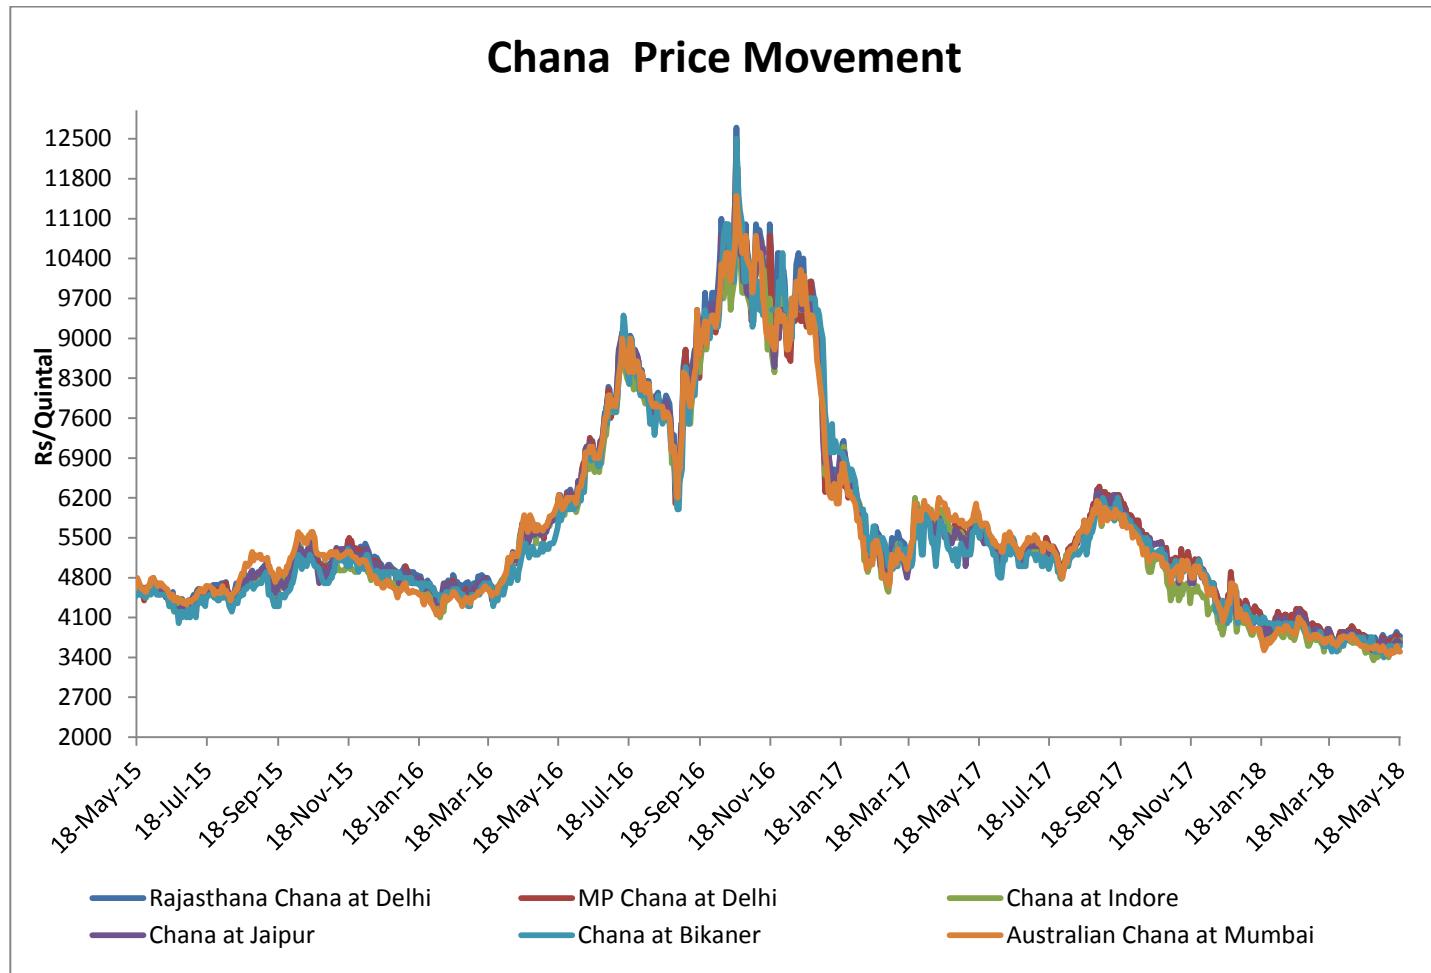

Index Numbers of Wholesale Price in India (Base: 2011-12=100)

Pulses WPI decreased by 1.5 point from 122.3 in Mar to 120.8 in Apr-2018.

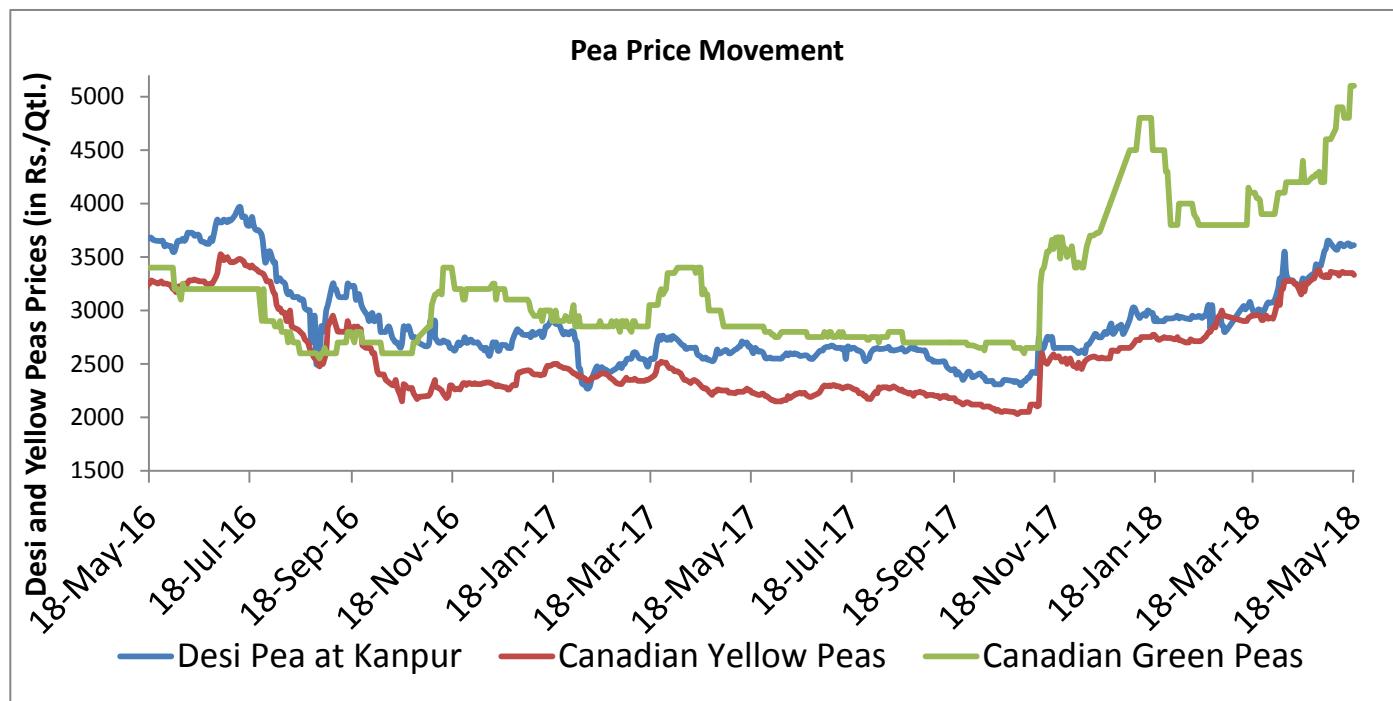

Pulses-Wise Scenario:**Chana****Current Scenario:**

Recovery in cash chana market is expected from current level as arrivals in various mandis continue to decline amid improvement in demand due to commencement of Ramadan month and loss of manogo crop from recent stormy winds in many mango producing states. Import is almost halted with imposition of 60 % duty. Besides, MP govt. would procure over 11 lakh tonne chana this season it may support cash market to a certain extent. Export may take place in second half in neighboring countries. In last one week chana in cash market has moved up by Rs100 per qtl. and it might improve Rs 100 more from current level. In Delhi market chana is being traded at Rs3750-3800. Buying at current level seems riskless.

All India average price for Chana increased by 1.82 percent to Rs 3679 per qtl. Even Australian Chana(old imported crop) price increased by 1.44 percent to Rs 3520 per 100kg. Following graph illustrates the chana price movement in different markets:

Market Outlook: Steady to slightly firm tone seems possible this week too. *Buying on dip is good for stakeholders.*

**Peas (Matar):****Market Recap:**

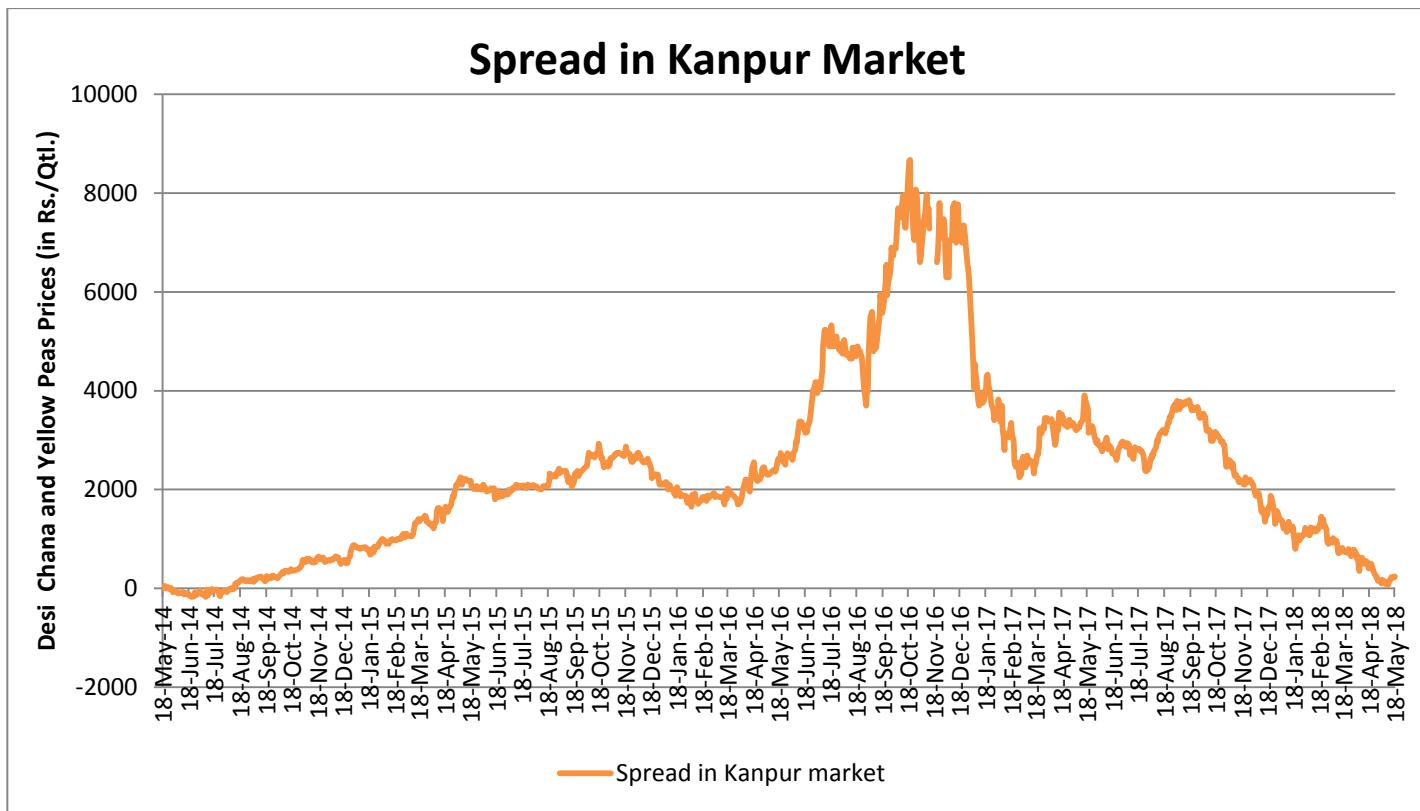

Desi pea, green pea and Canadian pea traded up this week due to restricted import volume till June-2018..Overall tone seems firm in the short to medium term. Supply-demand side is almost normal. Downward correction is unexpected as Chana price is likely to stay steady at current level. Right now, 50 % duty is applicable on all peas. All India average price increased by 1.64 % to Rs 3980 per qtl. In Kanpur market it traded steady at Rs 3610 per qtl. Higher import cost may remain supportive in the near term.

Current Market Dynamics & Outlook:

At Kanpur, Desi Peas traded almost steady at Rs 3610 due to weak demand and higher stock (around 2 lakh tonne) available in various states. However, hope for improving chana demand may support uptrend in the market. Russian pea is being traded at Rs 3181 in Mumbai while Canadian Matar, is being quoted at Rs 3321-3331 per qtl. Green peas, was quoted at 4900-5000 per qtl Market is expected to trade steady to slightly firm in the near term. With current applicable duty and quantity restriction, import volume is expected to come to a halt in May too.

Spread With Chana:

Spread between Chana and Peas, at Kanpur market increased by Rs 106 to Rs 213 per qtl owing to increased prices of peas . Spread is expected to move in the range of 150 to 250 per quintal in the coming weeks, on relative movement in Chana prices. Overall outlook seems steady to slightly firm. Buying on dip is good, as imported pea costing would be higher.

MarketOutlook: Outlook remains steady to slightly firm this week too.

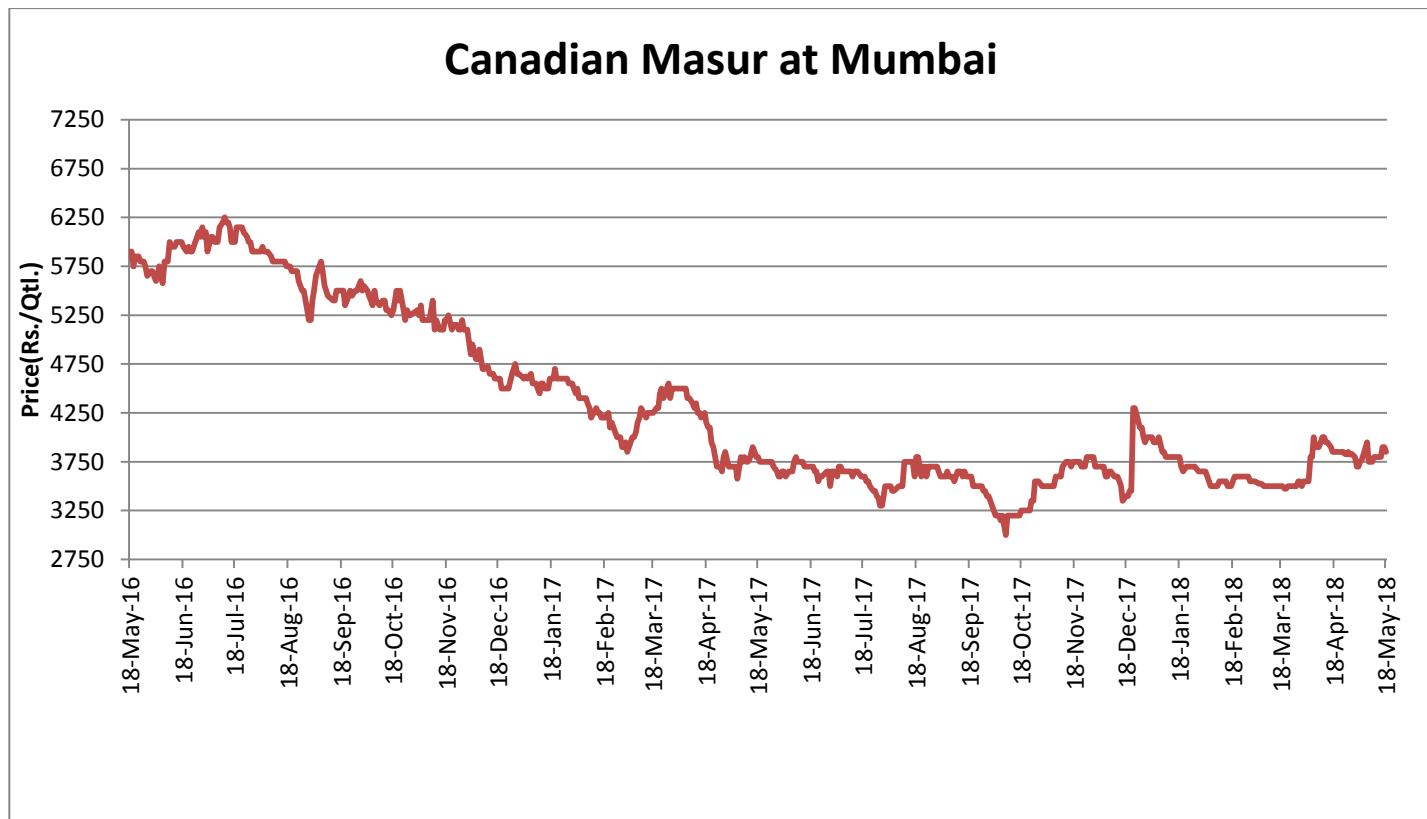

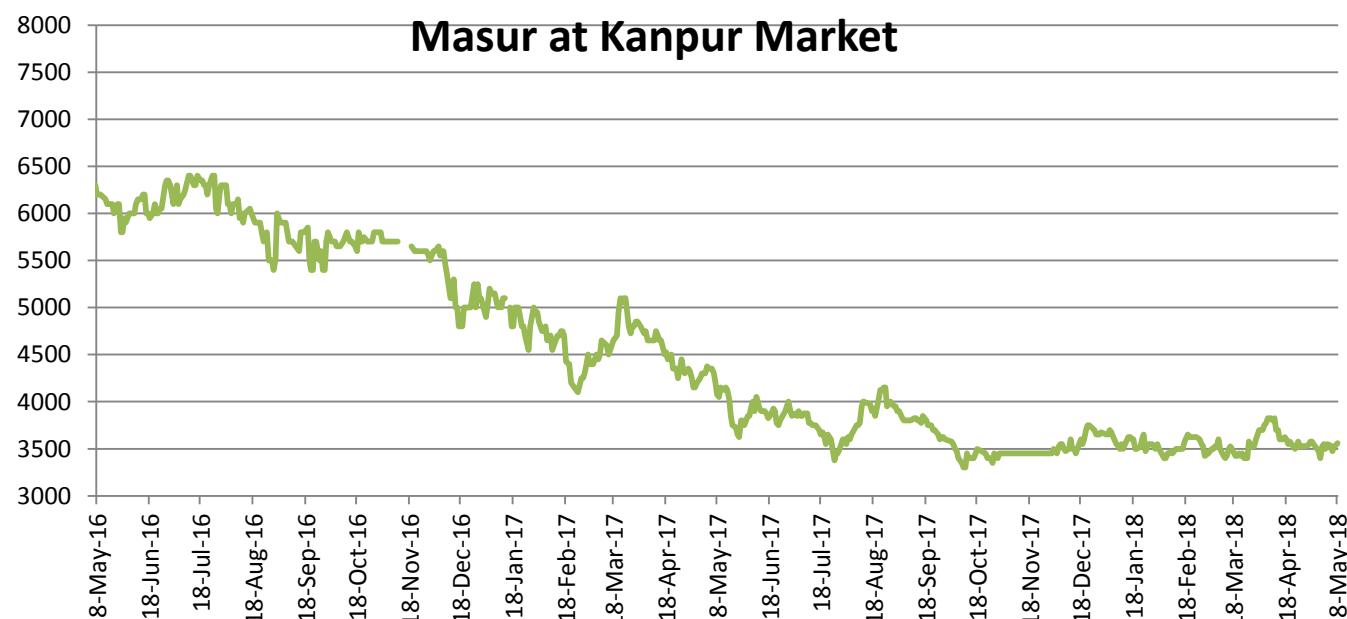

Lentils (Masoor):

Market Recap:

Kanpur market opened with a firm note in the beginning of the week but could not sustain firm momentum at the end of the week. Imposition of 30% import duty would continue to restrict import. Arrival has decreased.. Buyers should take possession after correction.. Overall sentiments remain firm in the medium term. Stakeholders should buy on dip. Demand from Bengal would support market. Masur dal demand is likely to improve in coming weeks.

Current Scenario:

Weekly average price decreased by 1.14% to Rs 3530 per qtl. Currently in Mumbai it is being quoted at Rs 3841 per qtl. Steady to firm tone may prevail this week as demand is likely to improve. However, illegal import from neighboring countries may cap uptrend as per market source.

21st May, 2018

Market Outlook: Prices are likely to notice firm movement this week.

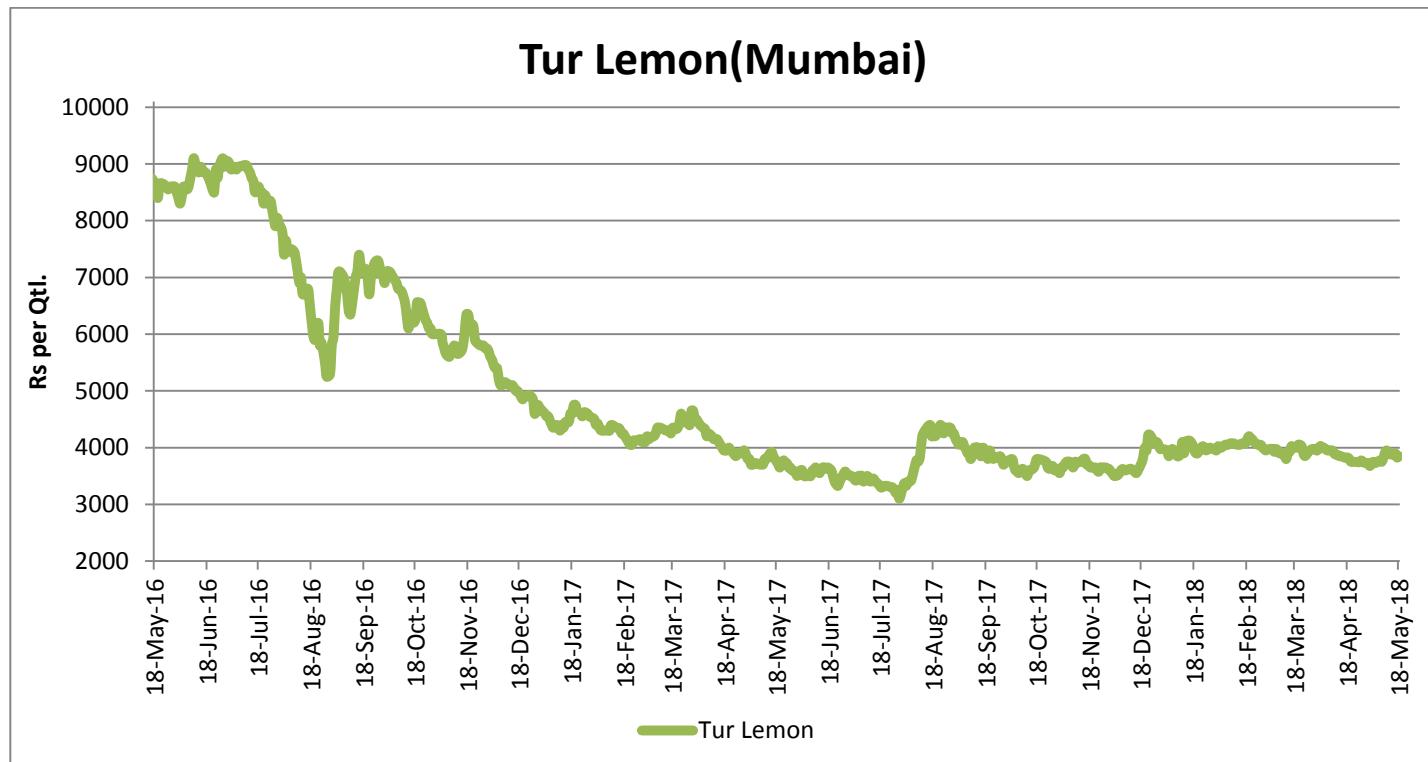

Pigeon Pea (Tur/Toor):

Market Recap:

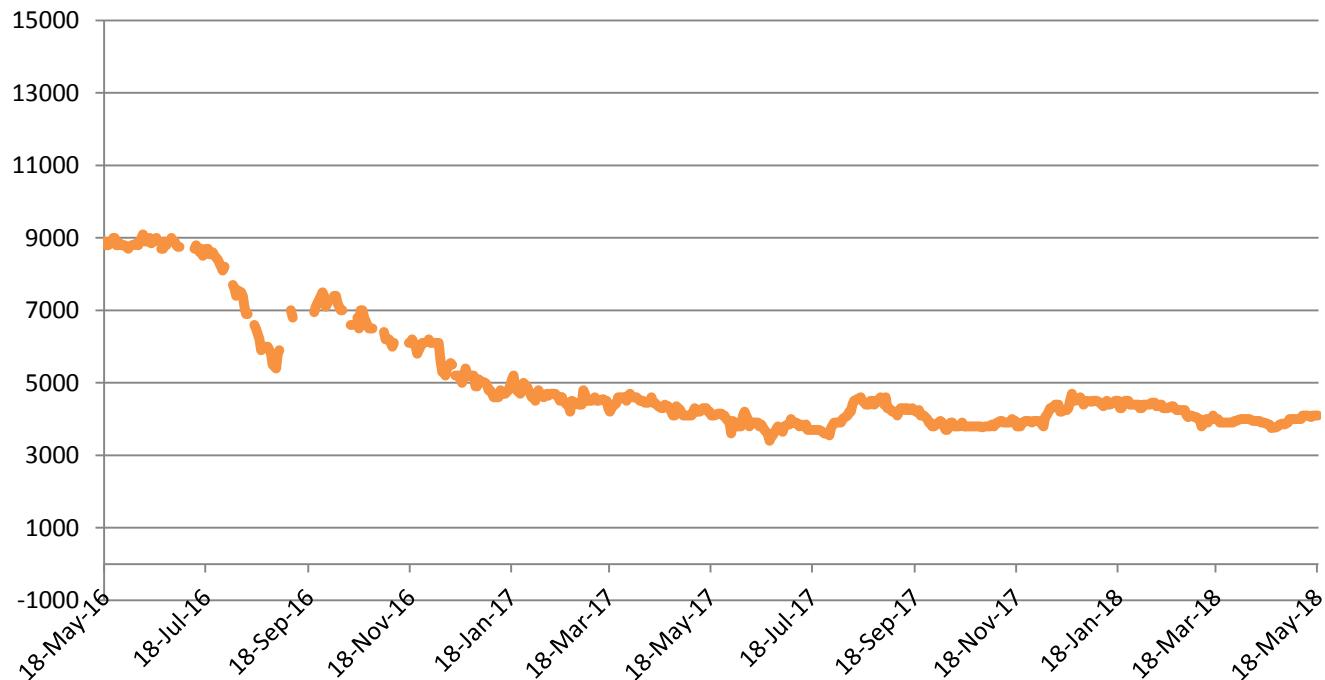

Tur market traded up by Rs 50 per quintal during the week under review taking clue from decreasing arrivals in major mandis, growing fears of lower acreage and almost halted imports. Import has been allowed with certain condition. Millers demand due to beginning of marriage season is expected to improve in coming weeks and it may continue to lend support to cash market fundamentals..It is advisable to buy on dip. Directorate of Economics & Statistics (DES), Agricultural Statistics Division has published its 3rd Adv. estimates for foodgrains this week and estimated Tur production at 4.18 MMT against the set target of 4.25 MMT for 2017-18.Tur production for 2016-17 has finally been pegged at 4.87 MMT. Tur production estimate has been revised up from 4.02MMT in 2nd Adv. Est. to 4.18 MMT in 3rd Adv estimate.

Current Market Dynamics & Outlook:

Tur market is expected to improve as import through quota system would not hurt market much.. This means import is possible up to the limit of 2 lakh tonne during the fiscal year beginning 1st April 2018 and only millers would get permission to import under quota allocated to them. This may encourage private buyers for holding stocks.. Range bound movement may prevail in cash market this week in the near term.

Red Tur At Gulberga(Rs /Qtl.)

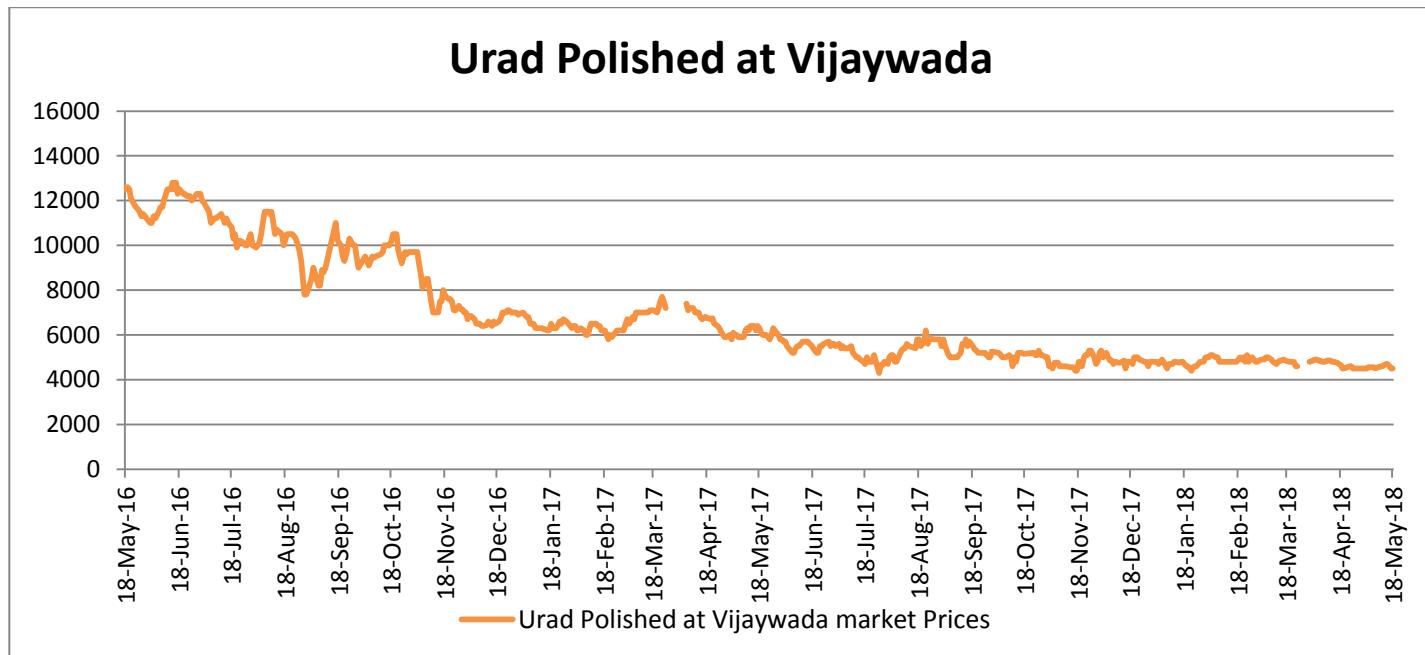

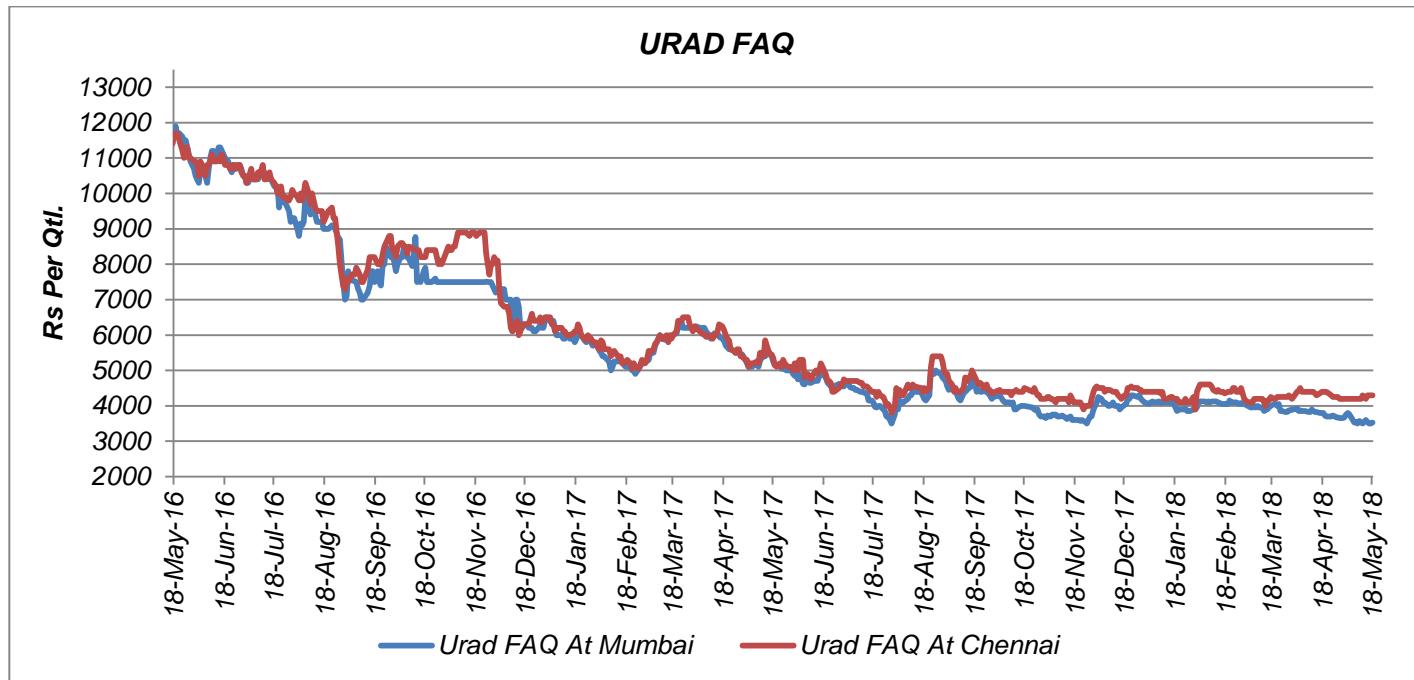

Market Outlook: Tur prices are likely to show steady to slightly firm movement this week..

Black Matpe (Urad):

Urad cash market traded weak. Firmness in market is unlikely as there is ample availability of stock in private as well as govts' custody. In a latest development, central govt has given green signal for procuring 3000 MT Urad in Tamil Nadu and 1lakh MT in Andhra Pradesh from Rabi season 2018 at MSP. It may support Urad price in local market to a certain extent. Odisha govt. has approved to procure Urad, Moong and Tur from farmers on MSP. Markfed will procure pulses in the state. Procurement quantity remains unspecified. Import is possible as govt has not notified any ban on fixed quota of 1.5 lakh tonne for the year starting from 1st April-2018. Import is possible from Burma as it is offering Urad at much lower prices- FAQ at \$360-365 and SQ at \$480 per tonne.

Current Market Dynamics & Outlook:

Urad FAQ at Mumbai (Rs.3650-3750Qtl.) and Chennai (Rs.4200-4250Qtl.) noticed weak tone. It traded down in Vijaywara too. Steady to weak movement might be seen in Urad market due to lack of demand at higher level. The following graph shows the prices movement in different markets:-

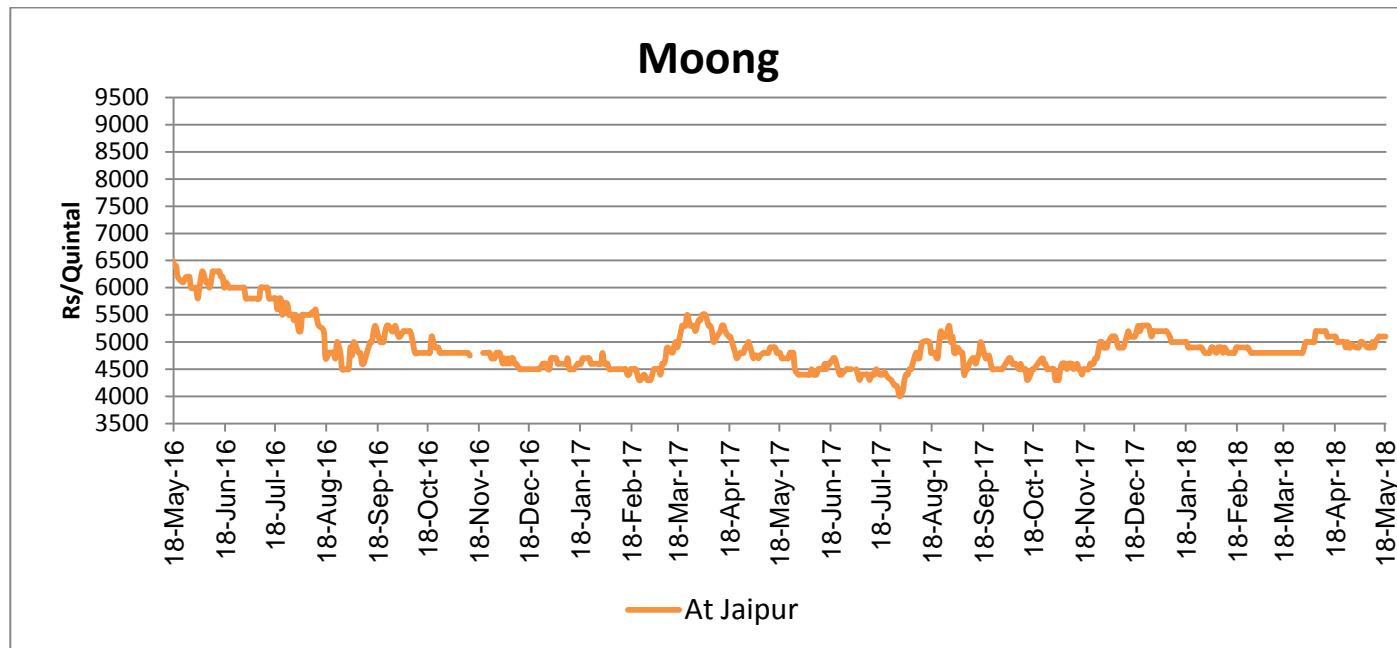

Market Outlook: Urad Prices are likely to show steady to weak momentum this week too.

Green Gram (Moong):

Market Recap:

Good pre-monsoon rainfall in Moong growing belt in Karnataka and more rainfall expected this week would encourage kharif moong sowing in Karnataka, especially in Mysore and Gadag regions this year. Sowing is

likely to commence in the third week of May. New crop would arrive in the market approximately during second week of July. As crop size is small, prices may not be impacted much. However, new moong from UP and Bihar may cap uptrend in the near term. Quality of summer Moong crop in UP and Bihar is good. As Moong is fetching comparatively good price in pulses segment, farmers may increase Moong area in kharif season. However, selling by Nafed and Markfed would restrict market from moving beyond a certain level. It would continue to balance supply side and would continue to affect market sentiments in the weeks ahead.

Market Outlook: Moong prices are likely to trade steady to slightly weak in the near term.
