Commodity-wise Domestic, International Prices and Arrivals at Different Centers

Highlights-Domestic Market:

- **Normal pulses area for all pulses in kharif season is 111.93 lakh ha.**The planting season started with slower sowing pace. Farmers have covered 1.08 lakh ha so far against 1.61 lakh ha last year. It is lagging behind by 33.33% so far. Tur area coverage reported 0.08/0.10, urad area 0.28/0.42, Moong area 0.23/0.32, others 0.45/0.73 lakh ha as on 1st June -2018. See details in table:
- **Kharif pulses sowing started with slow pace and planting progress shows decrease in all pulses area, except Kulthi till 1st June 2018.** 20% Tur area is lagging behind by 20% from last year to 0.08 lakh ha. Normal area under Tur is 41.90 lakh ha. Area under Tur is expected to slip by 15 to 20 % this year, due to lower price realisation. MSP for Tur for 2018-19 crop has been recommended up by Rs400 to Rs 5850. However, farmers have received 3900 to 4200 per qtl. against set MSP of Rs 5450 last year. Area is bound to decline despite good forecast for rains this year.
- **Tur market is likely to trade steady to firm as it has adjusted the impact of opening of import (2 lakh tonne) from Burma & Mozambique (1.5 lakh tonne) this year (2018-19).** As govt has ample stock (around 8.5 to 9 lakh tonne), any major spike is unlikely. However, it would continue to trade steady to slightly firm. Higher MSP (proposed at Rs 5850 per 100 kg) may encourage farmers to maintain area at least, at last year's level. Good monsoon rain is expected, so production is unlikely to decrease this kharif season. In Gulbarga market Tur is being traded at Rs 3700 to Rs 4100 per qtl. It is necessary to have a close eye on recent developments that are still influencing markets.
- **Normal Urad area for kharif season is 27 lakh ha. It is running behind by 34% to 0.28 lakh ha as on 1st June-2018.** Kharif Urad planting too started with slower pace and lower price realization may discourage farmers to cut urad kharif area this year by 10 to 15 %. Farmers received Rs 1500 to Rs 1600 lower price than set MSP of Rs 5400 last year. This year CACP has recommended hike of Rs 400 per qtl. to Rs 5800 for kharif Urad. Despite procurement drive in various states, farmers remained discouraged throughout the season, as no of beneficiary farmers is much lower.
- **There is no respite for Moong too. Initial planting progress is not very encouraging.** However, moong area might be same as last year or increase slightly, as farmers received comparatively better price for moong. Area in Maharashtra, MP, AP may increase as state govt is more active there. Normal kharif moong area is 24.93 lakh ha. It is running behind by 29% to 0.23 lakh ha so far. The CACP has recommended to increase MSP for moong from Rs 5575 to Rs 5925 per qtl. Over all scenario for kharif moong production seems good this year.
- **Moong in Jaipur market is being traded at Rs 4800-5000 while it is being traded at Rs 4500 to 5000 in Indore.** New Moong is being traded at Rs 5000 -5100 per qtl. Moong production estimate has been revised down from 1.42 to 1.39 MMT in 3d Adv estimate against the set target of 1.65 MMT for 2017-18 for kharif.
- **DES has revised pulses production estimates from 23.95 to 24.51 MMT in the 3rd Adv. Est released on 16th May-2018 for 2017-18 season.** It has finalized last year production at 23.13 MMT.
- **Yellow pea import is not possible till 30th June-2018, as quota set for one lakh tonne is over and it has helped market to move up suddenly.** After June import would resume at 50 percent import duty. Till then, steady to slightly firm trend may prevail in yellow & green pea market.
- **In a latest development, MP state govt has approved buying of 11,27,325 tonne chana on MSP.** Nafed has procured total 7.89 lakh tonne chana so far. Out of total, it has procured 3.65 lakh tonne chana in MP so far.
- **Masur cash market traded firm and increased by Rs 100 per qtl. due to improved buying by mills.** Upward momentum is expected to continue this week too, as demand from bulk buyers has improved. Import is likely to remain restricted due to 30 % duty and ample availability from new local crop. Procurement on MSP in MP and

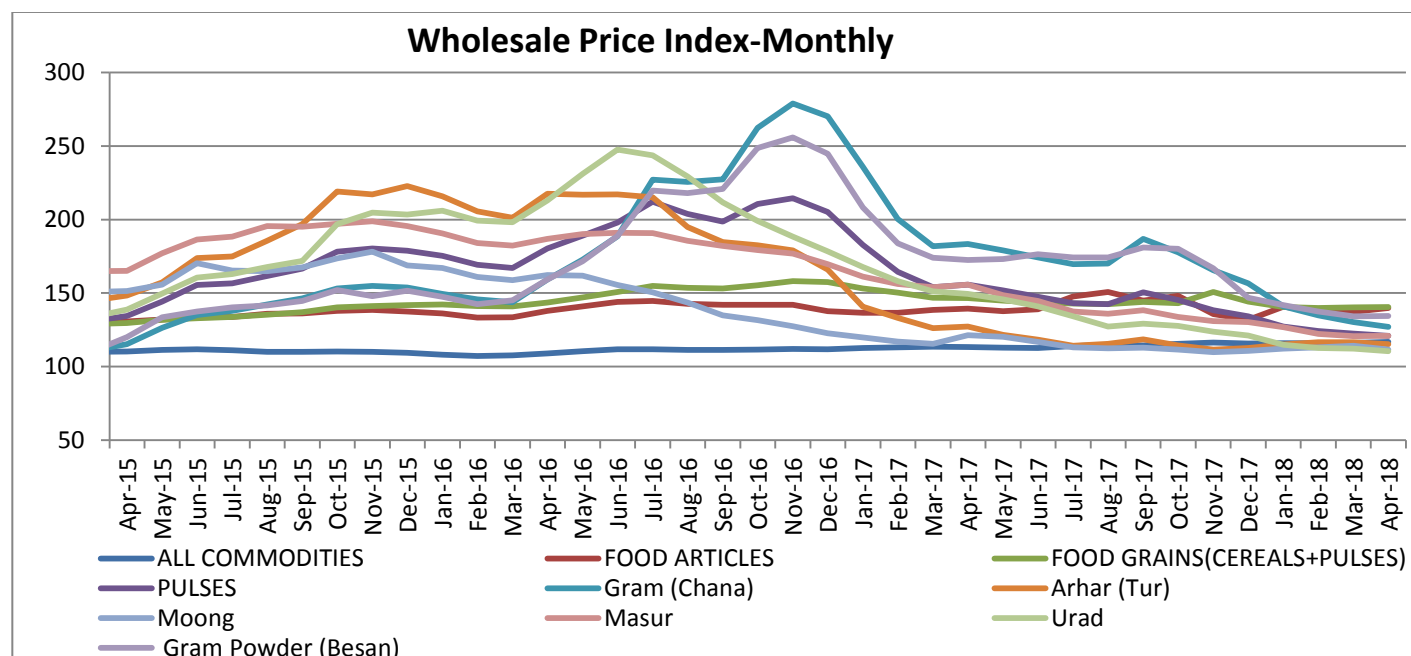

Uttar Pradesh may lend some support to cash market in coming weeks. In Mumbai market, masur is being traded in the range of Rs3500 to Rs3850 per qtl.

International Market:

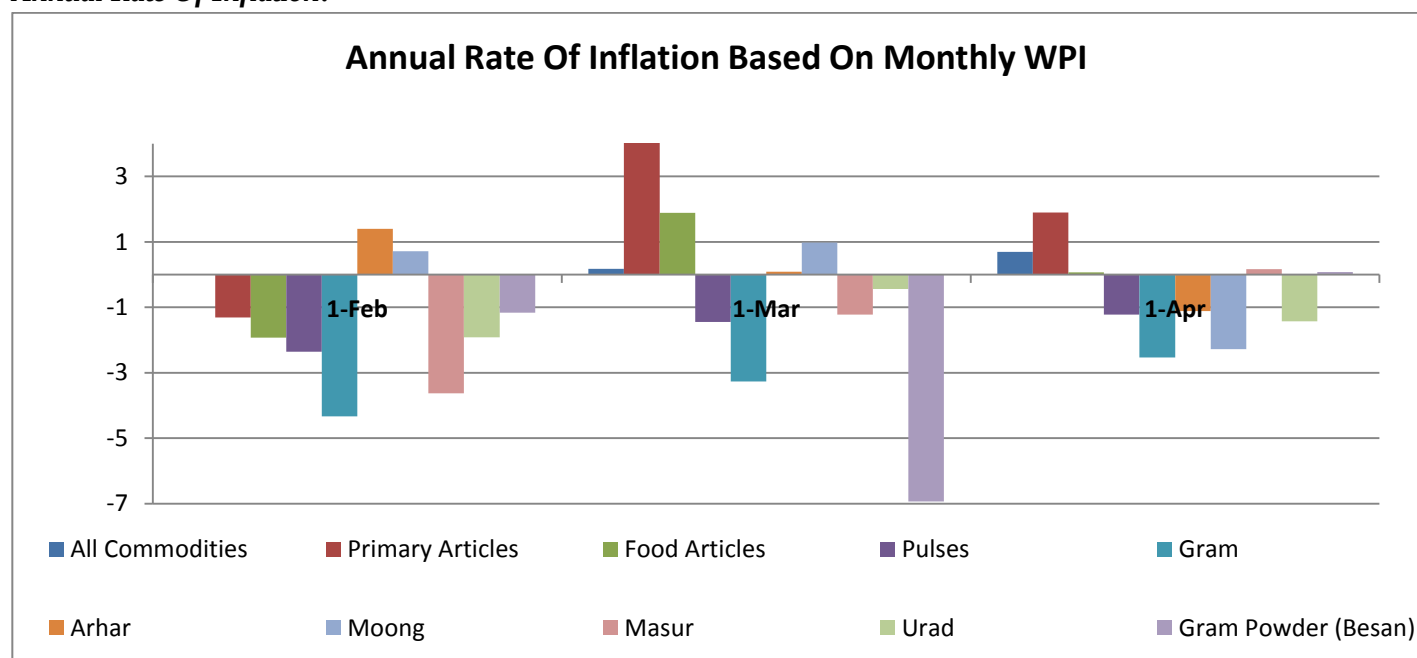

- **As per Canadian Grain Commission latest report Canada has exported around 1.78 lakh tonne pea in April-2018.** The quantity may be higher as it does not include export in containers. Official data might be slightly higher. Canada had exported 4.18 lakh tonne in April-2017, higher by 57 % from export in April-2018. However, it is quite higher from march shipment 57,500 MT. Higher export and improved demand may push pea price up in global market despite weak demand from India at this point of time.
- **Canada exported 36,600 MT lentil in April-2018. It is higher by 3500 MT shipped in April-2017.** Canada had exported 33,100 MT lentil in April-2017. It is also higher than March shipment (17,900 MT). B'desh and US were major buyers for lentil in April-2018. However, total shipped quantity in this My has been registered at 235,200 MT while last year till April it was 700,600 MT.
- **The current 2017-18 season for pulses in Black Sea Region is coming to an end now.** Ukraine & Russia are major pea producing countries now. Pea production contributes 75 to 80 % in total pulses production in these countries. In 2017 both countries harvested bumper pea crop. Export of pea from these countries, continues to increase from last two years. Ukraine exported record volume of peas during the first ten months of the 2017/18 season. This is already up 50% from the whole of MY 2016/17. This year too Ukraine & Russia would continue to dominate global pea trade despite lower price.
- **Chickpea production in US is likely to increase from 3.13(2017) to 4.34 lakh tonne in 2018.** Lentil production may be steady at around 3.39 lakh tonne this year. Pea production too would increase from 6.43 to 6.69 lakh tonne in 2018. Sowing of pulses continues in US and Canada. As major buyers are almost out of the market, global pulses market may stay steady to slightly weak in coming weeks.
- **Chickpeas area in Canada is likely to increase considerably from 1.6 lakh acres to 2.79 lakh acres in 2018.** While chickpeas are riskier to grow than lentils, the relative returns were starting to look better for chickpeas in the regions they're grown - says Carl Potts, executive director of the Saskatchewan Pulse Growers. According to him, growing North American demand for hummus, is another factor behind the strength in chickpeas market.
- **Chickpeas production in Australia is expected to decrease by 47.85 % to 10.45 lakh tonne in 2017-18** from record 2004 lakh tonne 2016-17. Despite 4.43 % higher area coverage, production is bound to decrease drastically due to hot and dry weather condition prevalent in the major growing regions. Chickpeas area increased from 1069 to 1144 thousand ha in 2017-18.
- **Lentils area in Canada is bound to decline from 23.72 to 17.43 lakh ha in 2017-18.** It is lower by 23.54 % from last year. Yield is expected to improve from 1.45 to 1.55 t per ha. Total production is expected to decline by 16 % from 32.48 to 27.25 lakh ha. As production, would decline, total supply would decline by 10.43 % to 30.35 lakh t. Average price in 2017-18 may rule in the range of C\$720 to 750 per T.
- **Lentils production in Australia too is bound to decline from 8.3 to 4.19 lakh tonne in 2017-18.** It is almost 50 % down from last year. Lentils area was reported higher by 16 % at 3.55 lakh ha. Due to rough weather condition Lentils production, would decline to 4.19 lakh tonne. Field peas production too, is bound to decline by 32.47 % to 2.8 lakh tonne in 2017-18. Australia had produced 4.15 lakh tonne field peas in 2016-17.

Weekly Outlook: -Pulses are likely to steady to slightly firm.

Monthly Wholesale Price Index:

Annual Rate Of Inflation:

Index Numbers of Wholesale Price in India (Base: 2011-12=100)

Pulses WPI decreased by 1.5 point from 122.3 in Mar to 120.8 in Apr-2018.

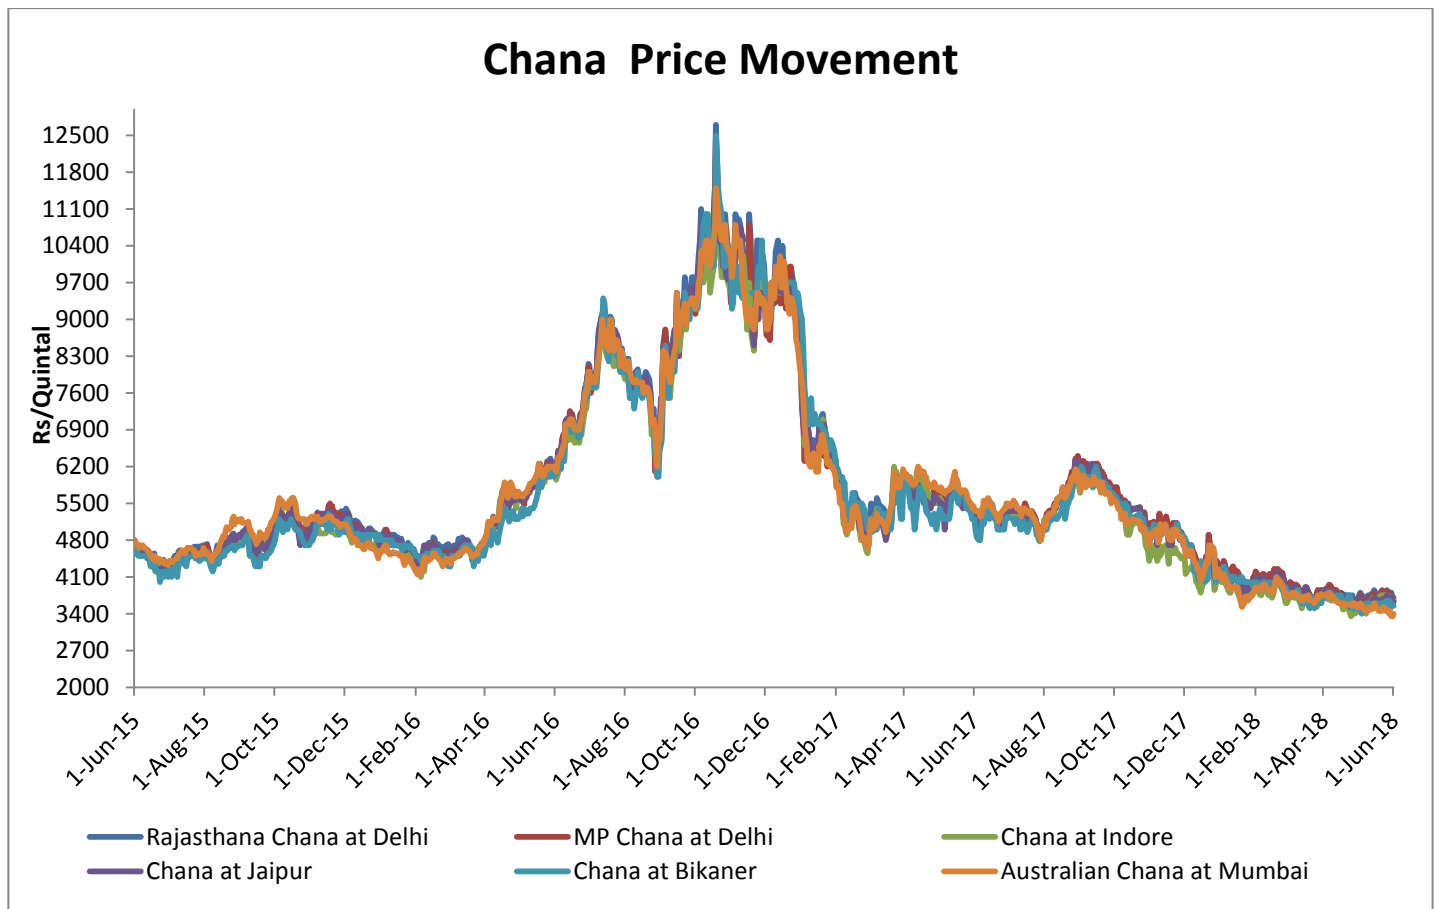

Pulses-Wise Scenario:

Chana

Current Scenario:

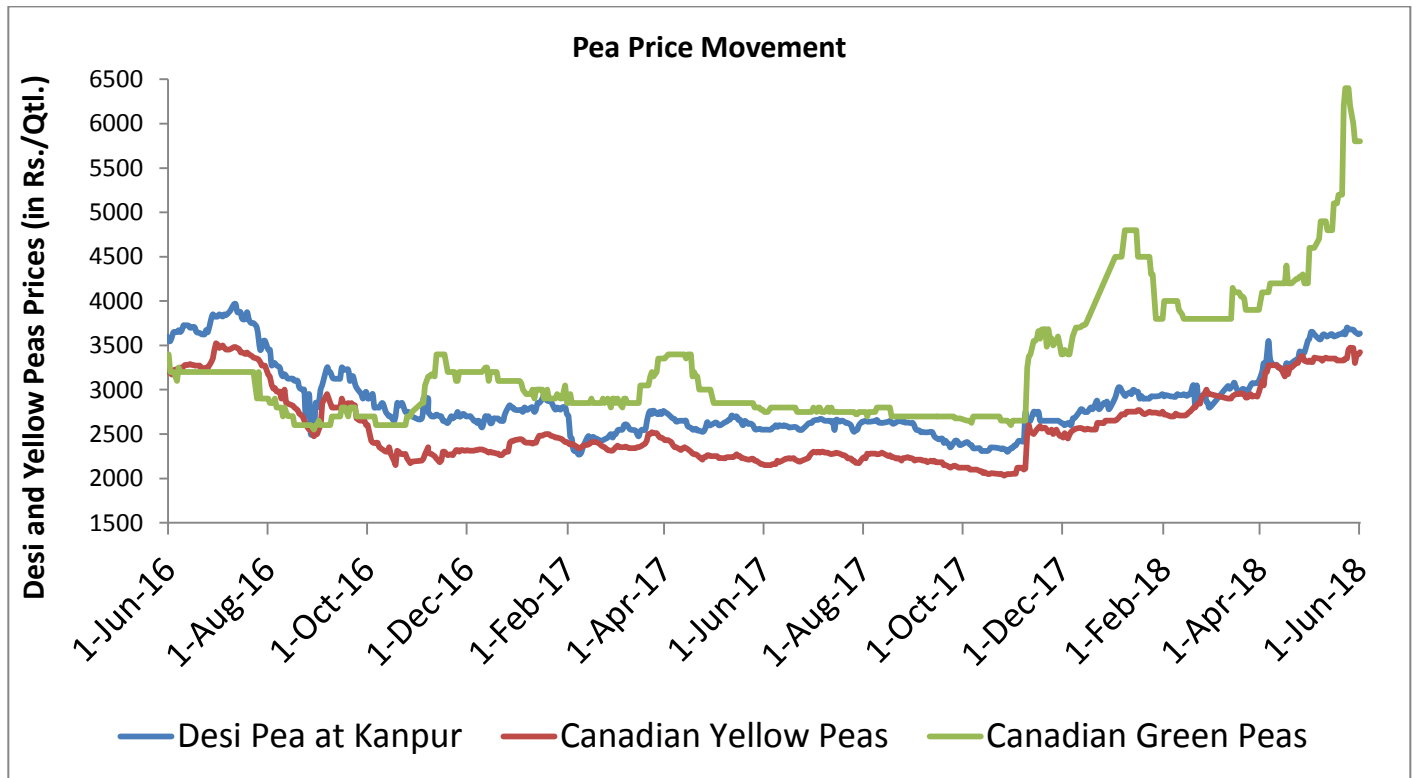

Chana cash market traded under pressure taking clue from weak futures despite procurement drive in MP, Maharashtra and Rajasthan. As maximum approved quantity (1577000 MT) for procurement is nearing completion, pressure is building up on cash market once again. Nafed & other agencies have procured over 14 lakh tonne chana so far, pace of procurement would decrease now. Arrival in mandis has started decreasing. However, demand remains weak against normal expectation. Chana in Delhi market is being traded down by Rs 50 to Rs 3700 per qtl. It may trade Rs50 down further. Improvement in Chana market is expected in second half of June.

All India average price for Chana increased by 1.15 percent to Rs 3675 per qtl. Australian Chana(old imported crop) price decreased by 2.23 percent to Rs 3390per 100kg. Following graph illustrates the chana price movement in different markets:

Market Outlook: Steady to slightly weak tone seems possible this week too. *Buying on dip is good for stakeholders.*

Peas (Matar):

Market Recap:

Desi pea, green pea and Canadian pea traded down this week due weak demand and declining chana price. Overall tone seems firm in the medium term. Supply-demand side seems balance right now but may turn mismatched in coming months. Downward correction is not expected, as Chana price is likely to stay steady at current level. Right now, 50 % duty is applicable on all peas. All India average price decreased by 1.77 % to Rs 4294 per qtl. In Kanpur market, it traded down at Rs 3635 per qtl. Higher import cost may remain supportive in the near to medium term. Import is not possible till 30th June, as quota of 1 lakh tonne from Apr to Jun-2018 is over now.

Current Market Dynamics & Outlook:

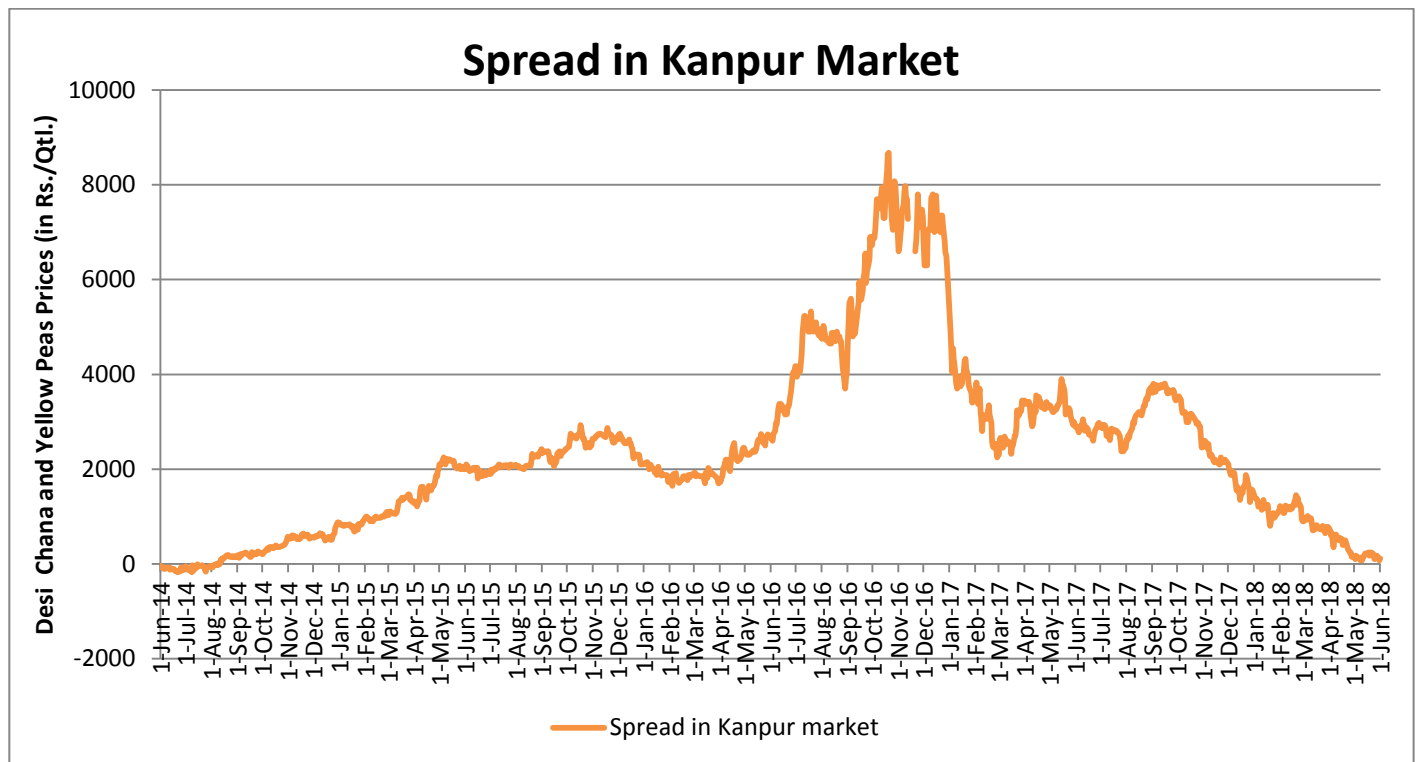

At Kanpur, Desi Peas traded down by 0.77 at Rs 3635- due to weak demand and decreased chana price. However, hope for improving chana demand may support uptrend in the market. Russian pea is being traded at Rs 3221 in Mumbai while Canadian Matar, is being quoted at Rs 3425 per qtl. Green peas, was quoted at Rs 5800 per qtl. Market is expected to trade steady to slightly firm in the near term. With current applicable duty and quantity restriction, import volume is expected to remain restricted.

Spread With Chana:

Spread between Chana and Peas, at Kanpur market decreased by Rs 66 to Rs 125 per qtl owing to increased prices of peas. Spread is expected to move in the range of 100 to 150 per quintal in the coming weeks, on

relative movement in Chana prices. Overall outlook seems steady to slightly firm. Buying on dip is good, as imported pea costing would be higher.

Market Outlook: Outlook remains steady to slightly weak this week.

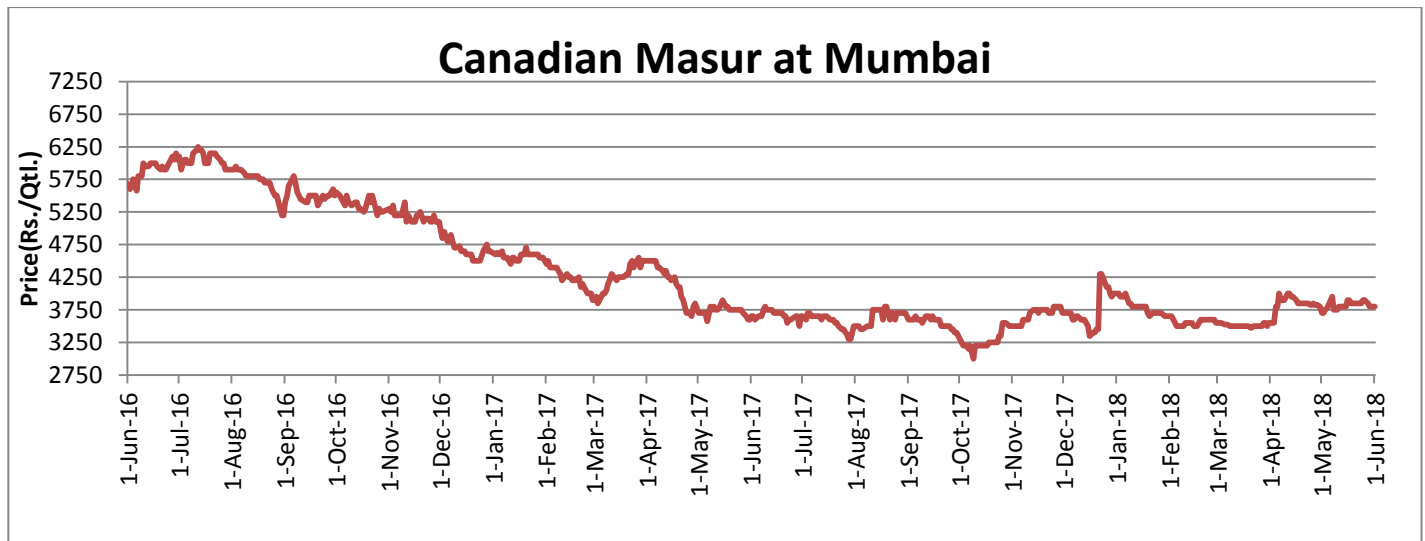

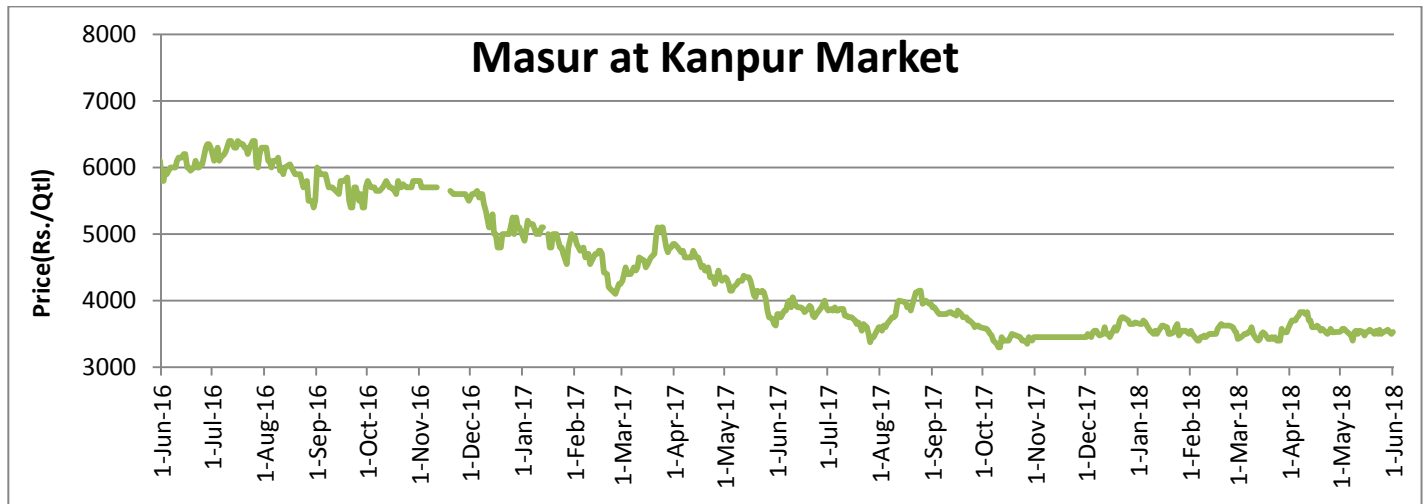

Lentils (Masoor):

Market Recap:

Kanpur market opened with a firm note in the beginning of the week but could not sustain firm momentum at the end of the week. Imposition of 30% import duty would continue to restrict import. Arrival has decreased. Buyers should take possession after correction. Overall sentiments remain firm in the medium term. Stakeholders should buy on dip. Demand from Bengal would support market. Masur dal demand is likely to improve in coming weeks.

Current Scenario:

Weekly average price increased by 0.19% to Rs 3545 per qtl. Currently in Mumbai it is being quoted at Rs 3800 per qtl. Steady to firm tone may prevail this week as demand is likely to improve. However, illegal import from neighboring countries may cap uptrend as per market source.

Market Outlook: Prices are likely to notice firm movement this week.

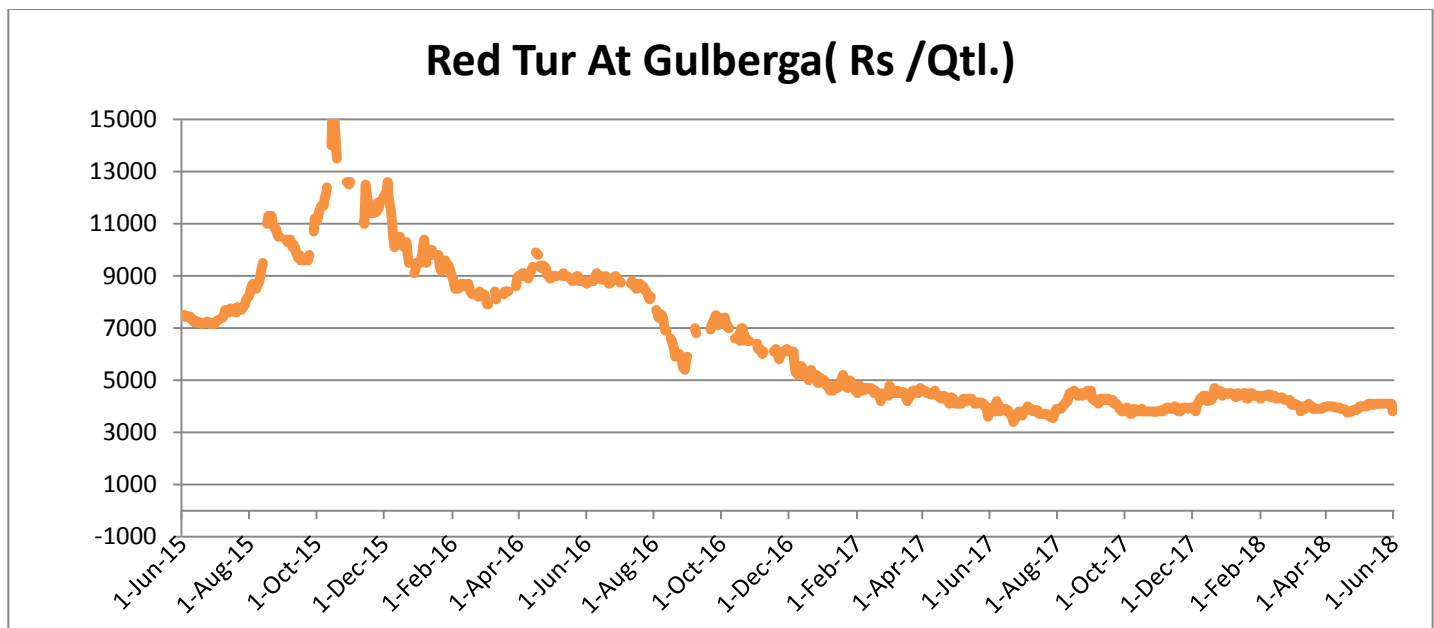

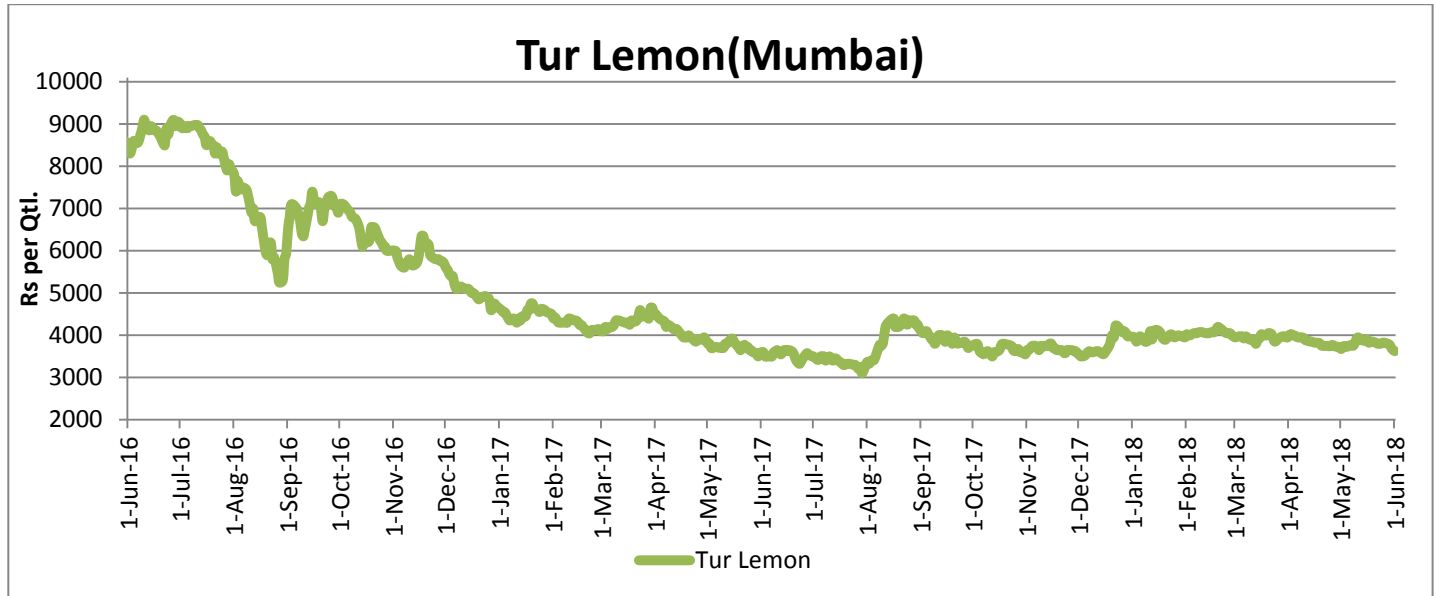

Pigeon Pea (Tur/Toor):

Market Recap:

Tur market traded almost steady at Rs 3850 to Rs4250 in Gulberga market. Uptrend is unlikely this week as demand for dal remains subdued. Private buying is weak as market is still facing liquidity crunch. Besides, govt has stock of over 10 lakh tonne(new over 8.5 lakh tonne & old around 1.5 lakh tonne) right now.Selling through auction would continue and it would not allow market to move beyond a certain level despite fear of lower area coverage this year. Around 3.5 lakh tonne import would put further pressure on Tur cash market.

Current Market Dynamics & Outlook:

Tur market is expected to improve as import through quota system would not hurt market much. This means import is possible up to the limit of 2 lakh tonne during the fiscal year beginning, 1st April 2018 and only millers would get permission to import under quota allocated to them. This may encourage private buyers for holding stocks. Range bound movement may prevail in cash market this week.

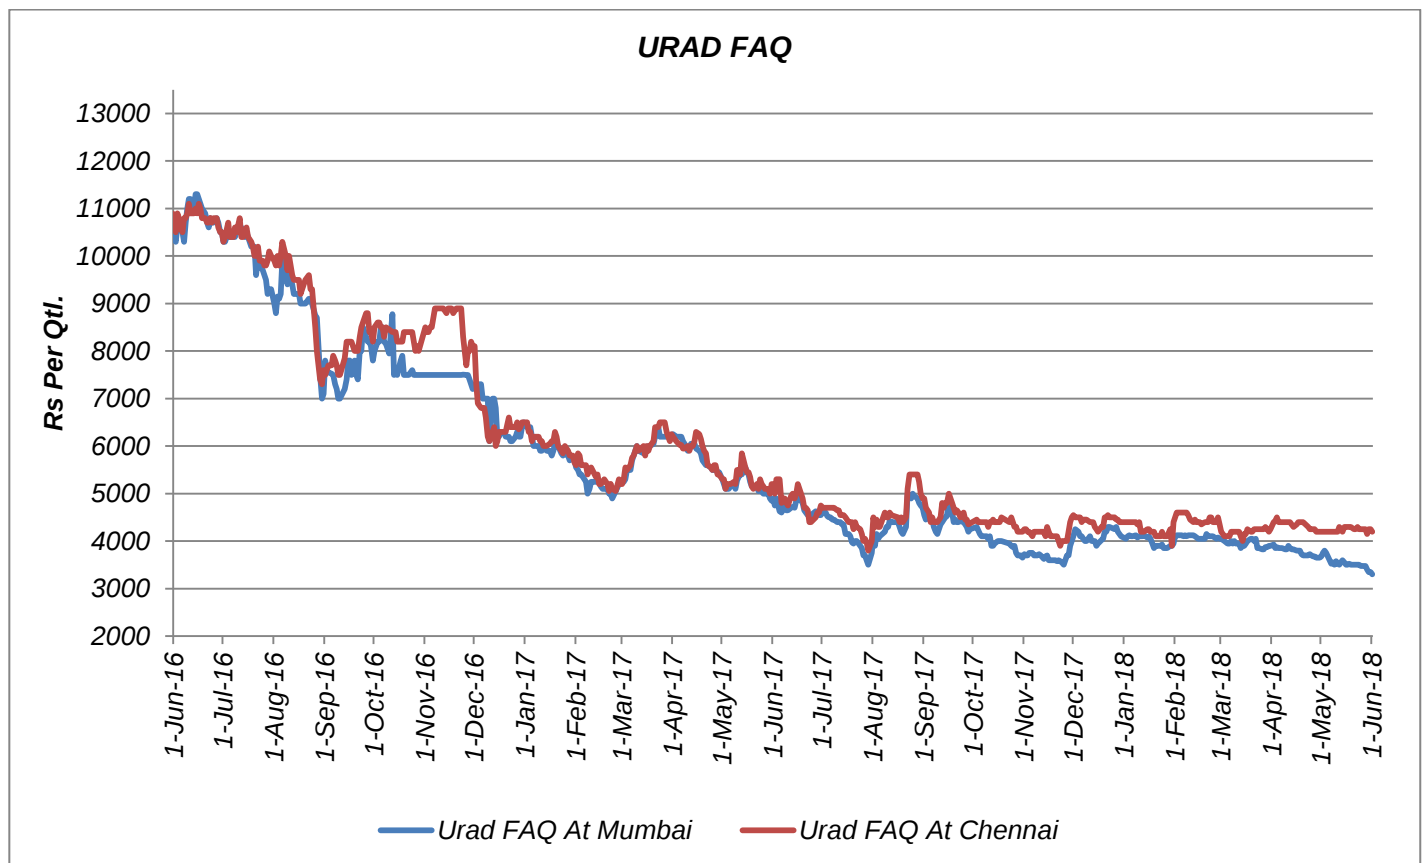

Market Outlook: Tur prices are likely to show steady to slightly firm movement this week..

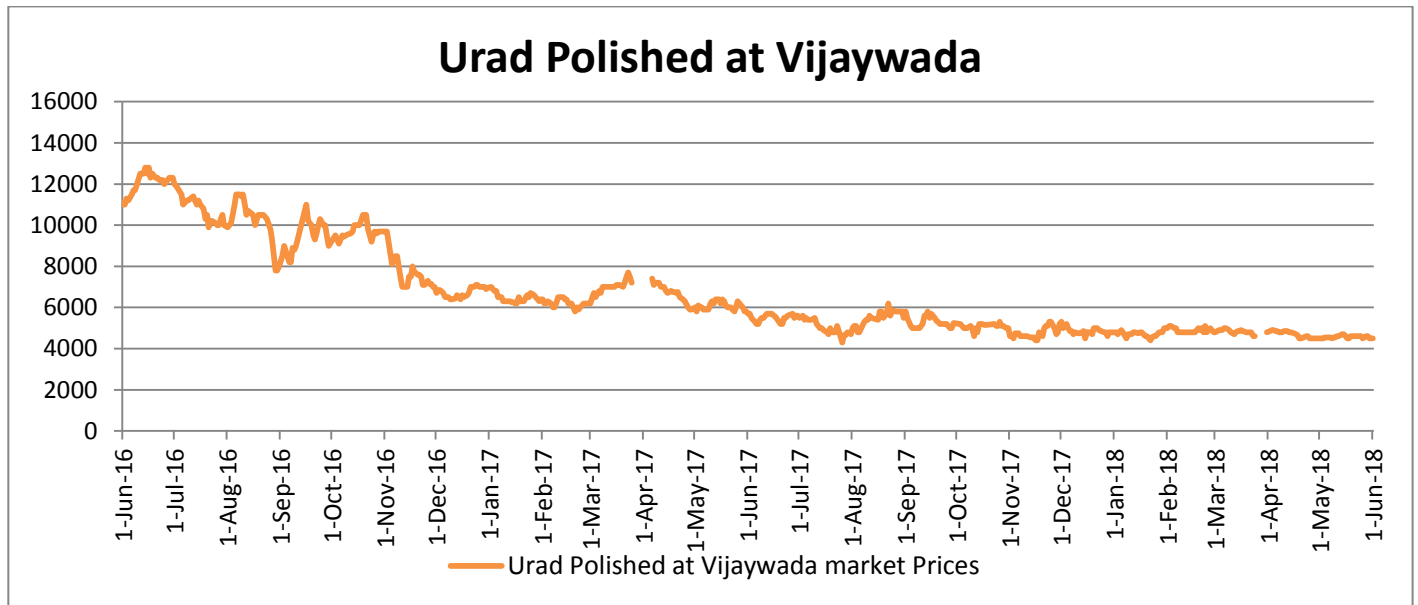

Black Matpe (Urad):

Steady tone is likely to prevail in Urad market due to normal supply –demand side. Increased quotes in Burma has capped downward trend in domestic market. As prevailing price in domestic market is ruling lower,,farmers may reduce Urad area this kharif season. Both selling by stockists and buying by mills remained restricted.As stock is higher,planting area this kharif season may be major price influencing factor in coming months.Selling from central pool stock would continue..Import is possible as govt has not notified any ban on fixed quota of 1.5 lakh tonne for three years, starting from 1st April-2018.Import is possible from Burma as it is offering Urad at much lower prices- FAQ at \$360-365 and SQ at \$480per tonne.

Current Market Dynamics & Outlook:

Urad FAQ at Mumbai (Rs.3600-3700Qtl.) and Chennai (Rs.4200-4250Qtl.) noticed weak tone. It traded down in Vijaywara too. Steady to weak movement might be seen in Urad market due to lack of demand at higher level. The following graph shows the prices movement in different markets:-

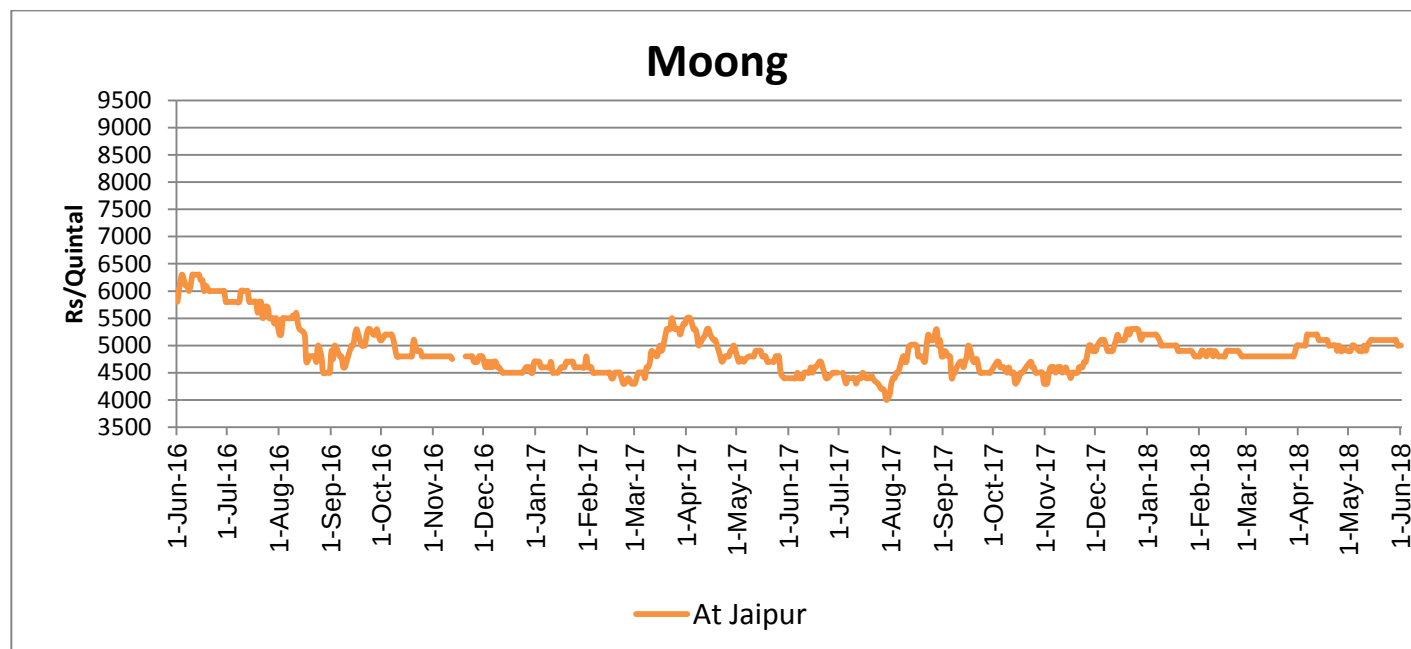

Market Outlook: Urad Prices are likely to show steady to weak momentum this week too.

Green Gram (Moong):

Market Recap:

Moong market traded slightly down with new arrival in Bihar and U.P. Quality of new moong is good and pressure would continue till 20th June. Rains and hailstorm have affected moong crop in Gaya region. If it continues, quality may be affected and moong may be discoloured. As stock in central pool is over 1.87 lakh tone, supply side is expected to be normal. As on 25.05.2018, Nafed has procured 2.02 lakh tonne. Out of this only 19000 tonne has been sold out. Demand is weak and steady to weak tone may prevail in moong market in next two-three weeks.

Market Outlook: Moong prices are likely to trade steady to slightly weak in the near term.
