## Highlights-Domestic Market

- All India Pulses Kharif pulses sowing area is lagging by 24.42 % to 5.91 lakh ha** against 7.82 lakh ha last year as on 22<sup>nd</sup> June-2018. Tur & Moong area is running behind by 44.81 and 1.46 % to 1.70 & 2.02 lakh ha. Normal kharif area under Tur is 41.90 lakh ha while it is 24.93 lakh ha for Moong. Urad area too is running behind by 42.36 to 0.83 lakh ha so far. Sowing pace has been delayed by lack of rains in many growing states. Fresh showers of rains are expected from this week as monsoon revives again. See details in table below at page no - 12: Kharif sowing activities are expected to improve with good rainfall in Gujarat, Maharashtra & South India. It is likely to move towards north and central India soon.
- India has revised import duty on Chana from 60 to 70% plus surcharge for US origin Chickpeas.** It has also revised import duty on lentil from 30% to 40% plus surcharge for US origin lentil. It will be applicable from 4th August-2018. Import duty will remain same for other origins as was applicable before this hike.
- Indian importers imported total 114244.86 MT pulses in May-2018, lower by 3.11 % from previous month.** The latest import data shows that green peas import increased by 158 % to 6961.54 MT in May. Even Tur import increased by 280 % from 4958.77 MT to 18821.66 MT in May. Even moong import increased by 9.29% to 829 MT. However, import of other pulses declined in comparison to April. Chana import declined from 2209.55 to 1266.23 MT. Lentil import decreased from 2659.33 to 1703.9 MT during the same period. Urad import declined by 7.35 % from 3931.62 to 3642.52 MT. Even yellow peas import declined by 18.01 % from 87889.81 MT to 72062.99 MT. Kidneybean import declined by 30.15 % from 12823.5 to 8957.42 MT. India had imported 117909.73 MT in April. Import flow is likely to decline further in coming weeks.
- Despite lower area coverage under Tur pressure on price continues. Buyers and sellers both** seems in an inactive mood. Mills are purchasing only limited quantity based on their immediate demand. Stock is ample in private hands as well as in govt.'s custody. Besides, liquidity crunch too are disturbing normal trade in mandis. In Gulberga market Tur is being traded at Rs 3850 to Rs 3950 per qtl. Any major recovery at this point of time is unlikely. Import continues and it is distorting market sentiments.
- Chana market improves slightly and is expected to stay steady to slightly weak as there** is no support from bulk buyers. Hefty stock (over 25 lakh tonne) in govt.'s custody and weak demand at this point of time weigh on market fundamentals. Govt may start releasing chana stock before kharif arrivals. It would build up pressure again on chana market. In Delhi market Chana is being traded at Rs 3725 (Rajasthan chana) & Rs 3650 (MP chana).
- All India Chana procurement under price support scheme reached record high at 2557567.099 MT** till 14th June-2018. Chana procurement is almost over now. The highest procurement (1587079.537 MT) has been registered in MP, followed by Rajasthan (455824.95 MT), Karnataka (127301.264 MT), Maharashtra (171282.39), Gujarat (83601.90 MT), Andhra Pradesh (77662.450 MT), Telangana (50000.059 MT) and UP (4854.55 MT).
- Lentil cash market is facing demand problem and there is talk in the market that** consumers are shifting from masoor to tur. It has affected normal demand in the market. Besides, there is 235140.65 MT stock in central pool and it may go up further as procurement is still on. Govt would start sell it before kharif crop starts. It would restrict cash market to move up one way. As prices have come down slight recovery is expected as stock of imported masoor is decreasing fast.

- ***There is no respite for Urad market as there is plenty of stock available in central pool and cheaper import continues.*** In Chennai market Urad FAQ is being traded at Rs 4100-4150 per qtl. New crop in MP and Other states too is pressurizing market to a certain extent.
- ***Yellow pea import is not possible till 30<sup>th</sup> June-2018 as quota set for one lakh tonne is over and it has helped market to move up suddenly. There is possibility that govt may restrict import for further three months and it would lend support to pea market.*** India imported around 72,000 MT Pea in May-2018. Prices of pea may move up again after slight downward correction.

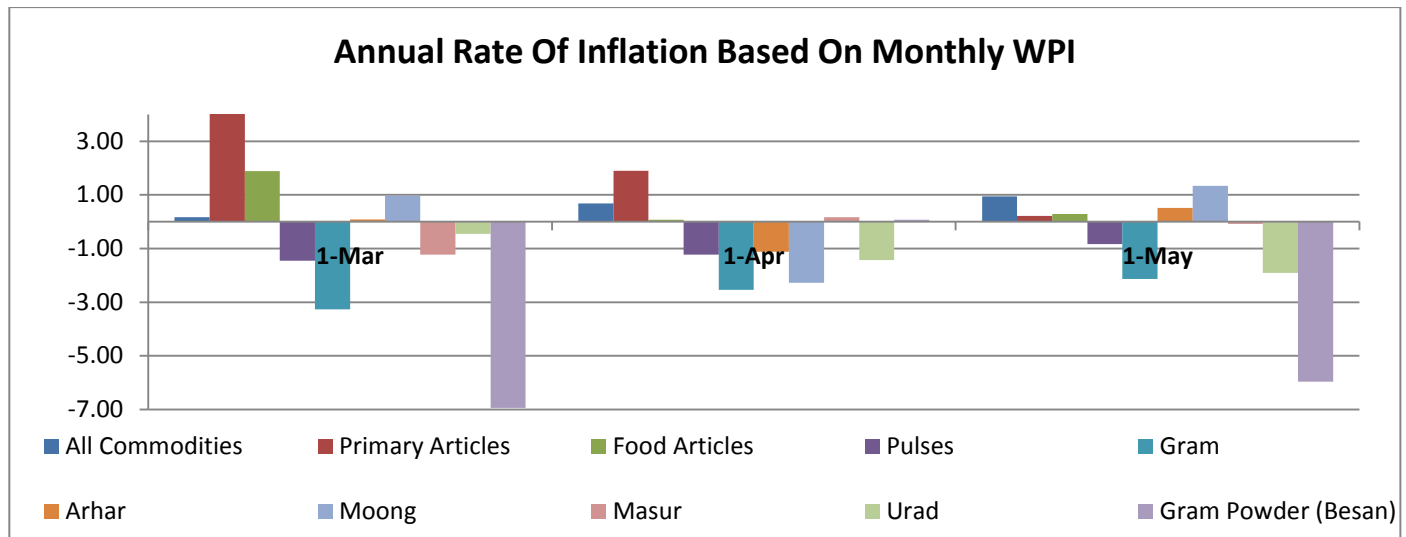

#### **International Market:**

- ***Newly sown 80% pulses crop in Canada are passing through normal developmental stages*** and almost 20% are below normal development stages. Recent rains in major growing areas have helped standing crops in most of the regions. More rains are required for better growth of pulses. According to Saskatchewan Agriculture and Food crops some areas are still stressed and showing the impact of dry conditions. Available moisture level in the field is not enough to ensure better growth of the crop. However, some areas like East and central Saskatchewan condition remains favorable.
- ***Lentil markets were traded steady in dull buying interest during the past week.*** Seeding of the North American crop is now complete, with many areas reporting improvements in soil moisture conditions on account of recent rainfall events. Markets continue to doubt that farmers planted as many lentils as intended in Canada, with expectations high that the coming June 29 seeded area estimate will show a bigger drop in area than the current official forecast.
- ***Field Pea exporters in France are trying to fulfill regional demand as opportunity in bulk importers countries remains bleak.*** France exported around 19310 MT pea in April month, lower by 9 % from 21235 MT shipped in March-2018. However, it is almost double from April-2017 when France exported only 10,940 MT pea. Major buyers were Belgium, Netherlands, Spain and Italy. These 4 countries brought 18093 MT together out of 21235 MT shipped in April-2018.
- ***Chickpea production in US is likely to increase from 3.13(2017) to 4.34 lakh tonne in 2018.*** Lentil production may be steady at around 3.39 lakh tonne this year. Pea production too would increase from 6.43 to 6.69 lakh tonne in 2018. Sowing of pulses continues in US and Canada. As major buyers are almost out of the market, global pulses market may stay steady to slightly weak in coming weeks.
- ***Chickpeas area in Canada is likely to increase considerably from 1.6 lakh acres to 2.79 lakh acres in 2018.*** While chickpeas are riskier to grow than lentils, the relative returns were starting to look better for chickpeas in the regions they're grown - says Carl Potts, executive director of the Saskatchewan Pulse Growers. According to him, growing North American demand for hummus, is another factor behind the strength in chickpeas market.
- ***Chickpeas production in Australia is expected to decrease by 47.85 % to 10.45 lakh tonne in 2017-18*** from record 2004 lakh tonne 2016-17. Despite 4.43 % higher area coverage, production is bound to decrease drastically due to hot and dry weather condition prevalent in the major growing regions. Chickpeas area increased from 1069 to 1144 thousand ha in 2017-18.
- ***Lentils area in Canada is bound to decline from 23.72 to 17.43 lakh ha in 2017-18.*** It is lower by 23.54 % from last year. Yield is expected to improve from 1.45 to 1.55 t per ha. Total production is expected to decline by 16 % from 32.48 to 27.25 lakh ha. As production would decline, total supply would decline by 10.43 % to 30.35 lakh t. Average price in 2017-18 may range in the range of C\$720 to 750 per T.

- **Lentils production in Australia too is bound to decline from 8.3 to 4.19 lakh tonne in 2017-18.** It is almost 50 % down from last year. Lentils area was reported higher by 16 % at 3.55 lakh ha. Due to rough weather condition Lentils production, would decline to 4.19 lakh tonne. Field peas production too, is bound to decline by 32.47 % to 2.8 lakh tonne in 2017-18. Australia had produced 4.15 lakh tonne field peas in 2016-17.

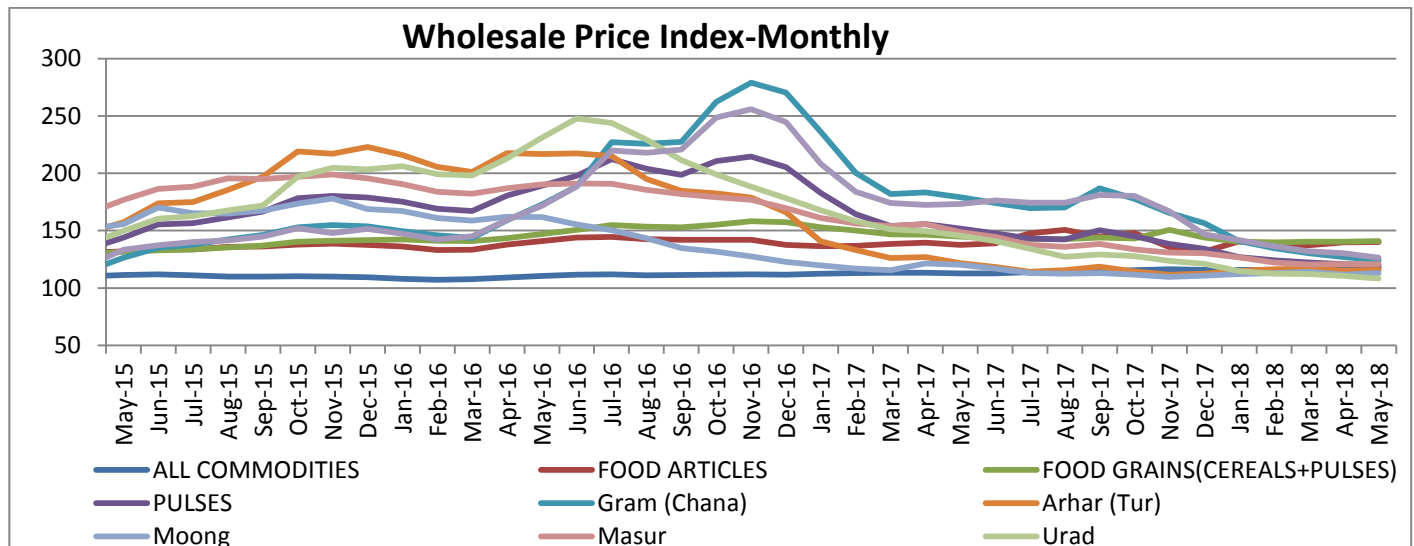

**Weekly Outlook:** -Pulses are likely to steady to slightly firm.

**Monthly Wholesale Price Index:**

**Annual Rate Of Inflation:**

Index Numbers of Wholesale Price in India (Base: 2011-12=100)

Pulses WPI decreased by 1 point from 120.8 in Mar to 119.8 in May-2018.

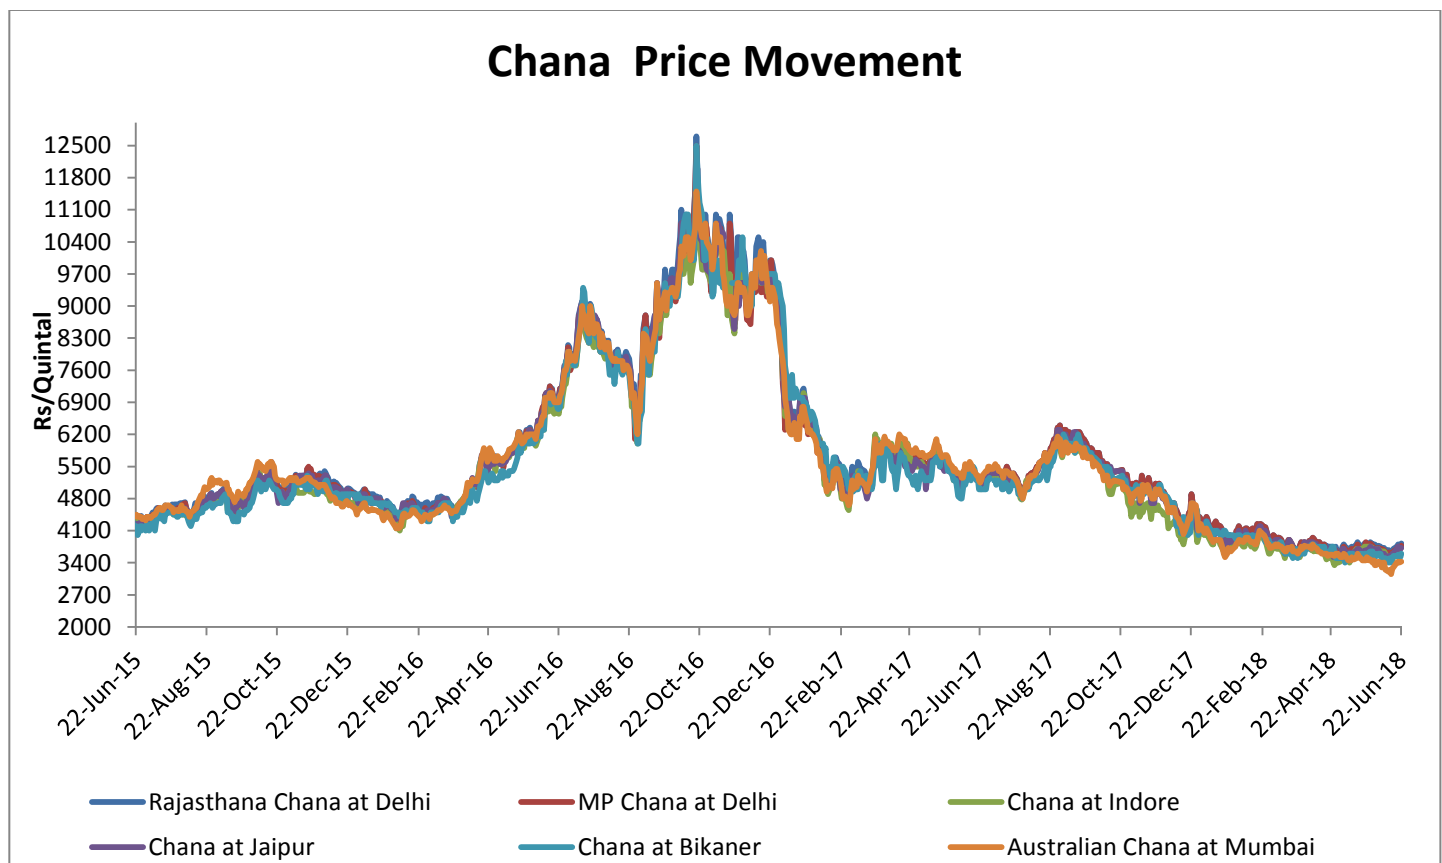

## Pulses-Wise Scenario:

### Chana

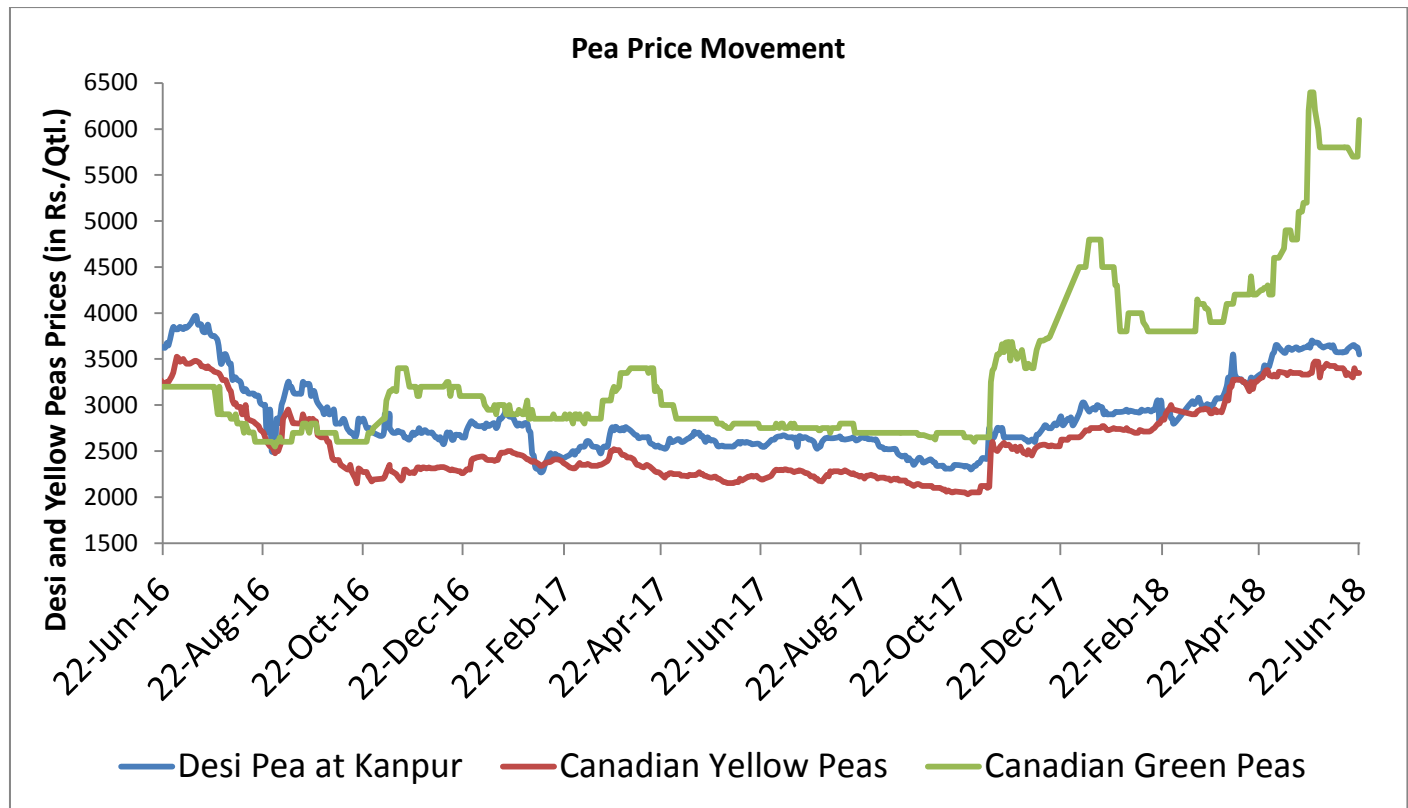

#### Current Scenario:

Chana cash market traded slightly up on buying interest at lower level. However, millers are avoiding bulk buying as govt has more than 25 lakh tonne stock in its custody. There is a fear in the market that govt would start releasing stock before new kharif crop and it would depress market. The latest development of imposing higher duty on Chana and Lentil on US origin would not help market much as quantity imported from US is much lower. Cash market is expected to trade steady to slightly weak this week. Arrival in mandis are decreasing while demand remains unsupportive. There is a common view in the market that market should stabilize near 3800-4000 in coming weeks As govt has imple chana stock, any major bounce is unlikely.

All India average price for Chana increased by 4.33 percent to Rs 3683 per qtl. Australian Chana (old imported crop) price decreased by 4.56 percent to Rs 3415 per 100kg. Following graph illustrates the chana price movement in different markets:

**Market Outlook:** Steady to slightly weak tone seems possible this week.

**Peas (Matar):****Market Recap:**

Pea market is likely to move up from current level after slight dip as stock is not enough to cater the existing demand. Market men say that total imported stock is not more than 1 lakh tonne. If govt. extends restriction on import for further 3 months, market may jump again. Green pea already moved up as imported stock is depleting fast in domestic market. So supply demand mismatch is obvious. It would help market to move up again.

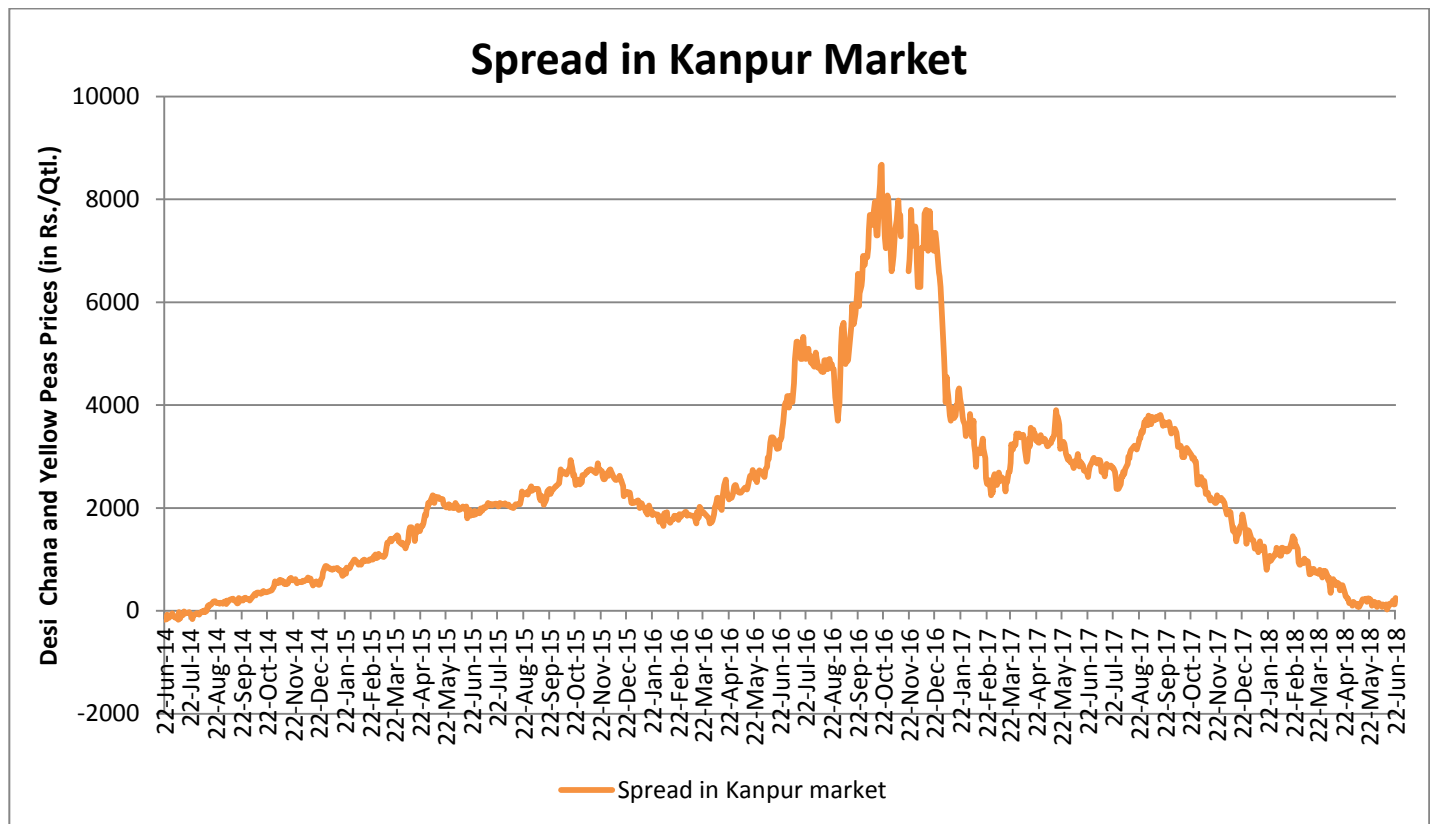

**Current Market Dynamics & Outlook:**

At Kanpur, Desi Peas traded up by 1.02 at Rs 3620- due to firm demand and increased chana price. However, hope of improving chana demand and declining peas stock at port may support uptrend in the market. Russian pea is being traded at Rs 3170 in Mumbai while Canadian Matar, is being quoted at Rs 3350 per qtl. Green peas, was quoted at Rs 5750-5800 per qtl. Market is expected to trade steady to slightly weak in the near term. With current applicable duty and quantity restriction, import volume is expected to remain restricted.

**Spread With Chana:**

Spread between Chana and Peas, at Kanpur market increased by Rs 78 to Rs 170 per qtl owing to increased prices of peas and almost stable chana price. Spread is expected to move in the range of 100 to 200 per quintal in the coming weeks, on relative movement in Chana prices. Overall outlook seems steady to slightly weak. Buying on dip is good, as imported pea costing would be higher. Imported stock is declining.

**Market Outlook:** Outlook remains steady this week.

**Lentils (Masoor):**

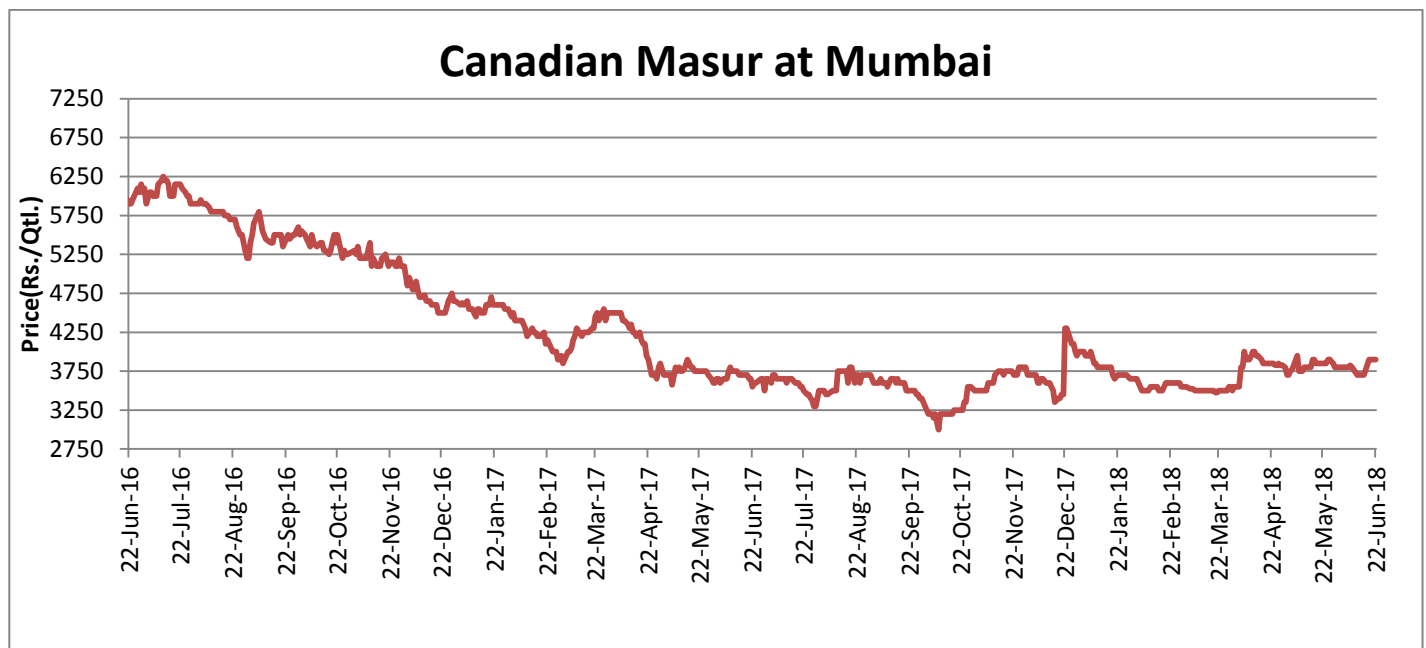

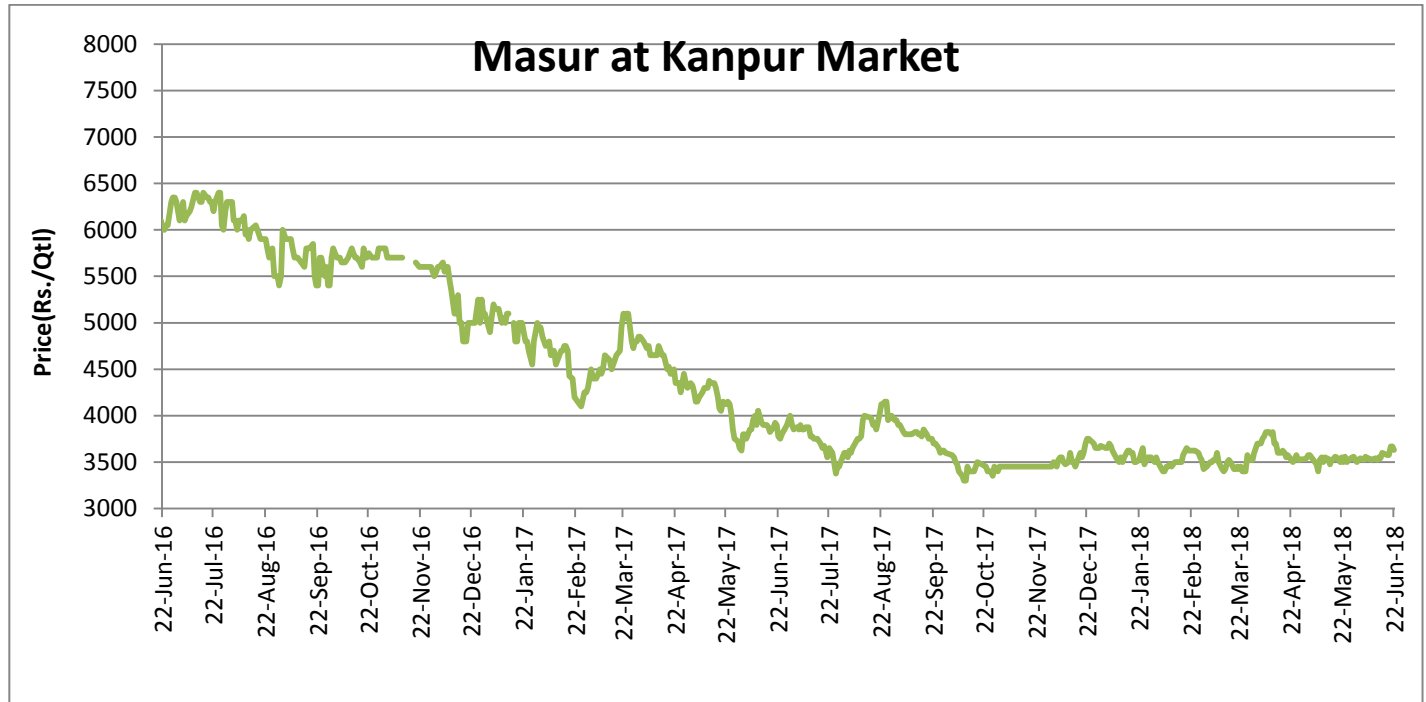

**Market Recap:**

Kanpur market opened with a weak note in the beginning of the week but recovered again at the end of the week. Imposition of 30% import duty would continue to restrict import. Arrival has decreased. Buyers should take possession after correction. Overall sentiments remain firm in the medium term. Stakeholders should buy on dip. Fresh demand from retail market is awaited. However, consumer shifting to tur dal remains restrictive for a major firmness. The latest duty imposition on US lentil would not impact Indian market much as volume imported from US is lesser quantity.

**Current Scenario:**

Weekly average price traded up by 2.05 % to Rs 3624 per qtl. Currently in Mumbai, it is being quoted at Rs 3900 per qtl. Steady tone may prevail this week too as demand is likely to improve. Firmness would be limited due to lower demand from end users.

**Market Outlook:** Prices are likely to notice steady tone this week.

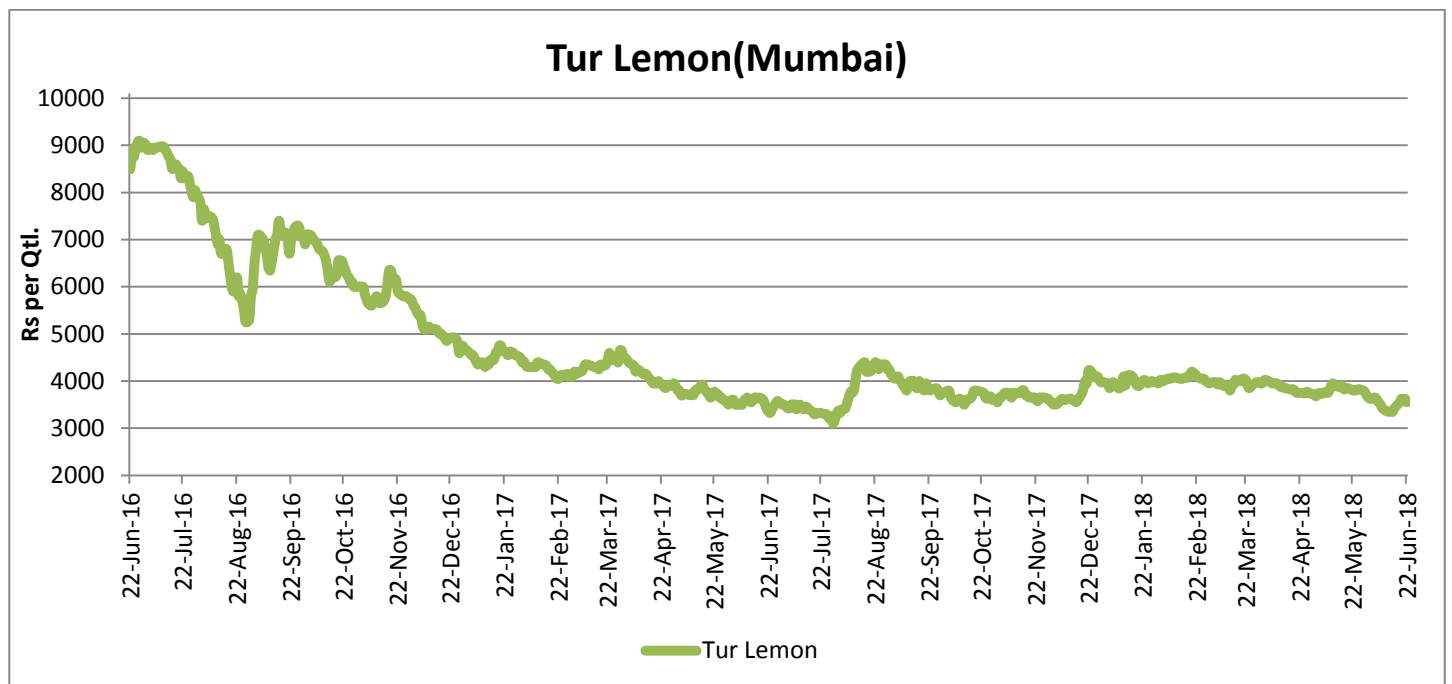

## Pigeon Pea (Tur/Toor):

### Market Recap:

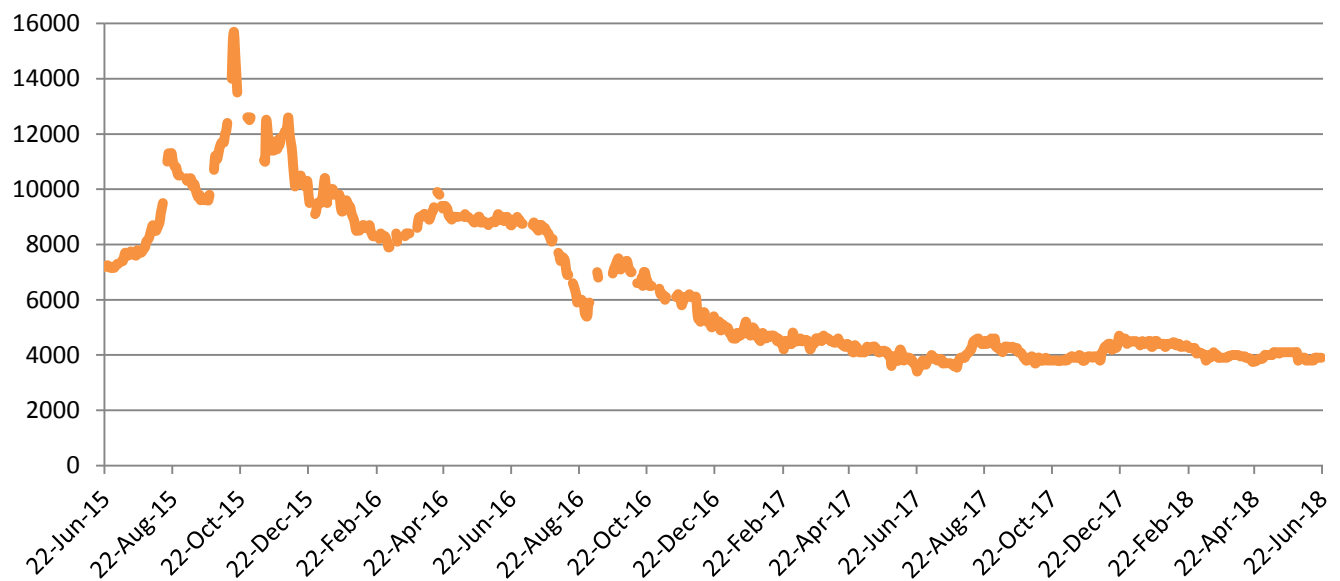

Tur area is lagging behind by 44.81 % to 1.70 lakh ha so far. In Karnataka only 0.90 lakh ha has been covered against 1.95 lakh ha last year till date. It is running behind by 68% in Telangana and 66% in AP. However, it is up by 18 % in Maharashtra so far. Sowing pace is slower and farmers are waiting for monsoon to revive again, expected by the end of this week again. However, excess stock in central pool and import would continue to restrict tur prices in coming weeks. In Gulberga market Tur is being traded at Rs3900 per qtl. Analysing higher stock in central pool, stockists may resort to selling around 4000-4200 and it would impact price again. Govt may increase selling of Tur before new kharif crop.

### Current Market Dynamics & Outlook:

Myanmar is offering lemon Tur (old) at \$445 per tonne and new Lemon Tur (Linkely) at \$460 per tonne basis Indian ports. Despite smart gains in prices at origin, there is import parity and import seems possible to the level of 3.5 lakh tonne in current MY. Selling through auction from central pool stock too continues and it would help keep the prices under leash so that consumers are not burdened with sudden high prices.

### Red Tur At Gulberga( Rs /Qtl.)

**Market Outlook:** Tur prices are likely to show steady to slightly firm movement this week.

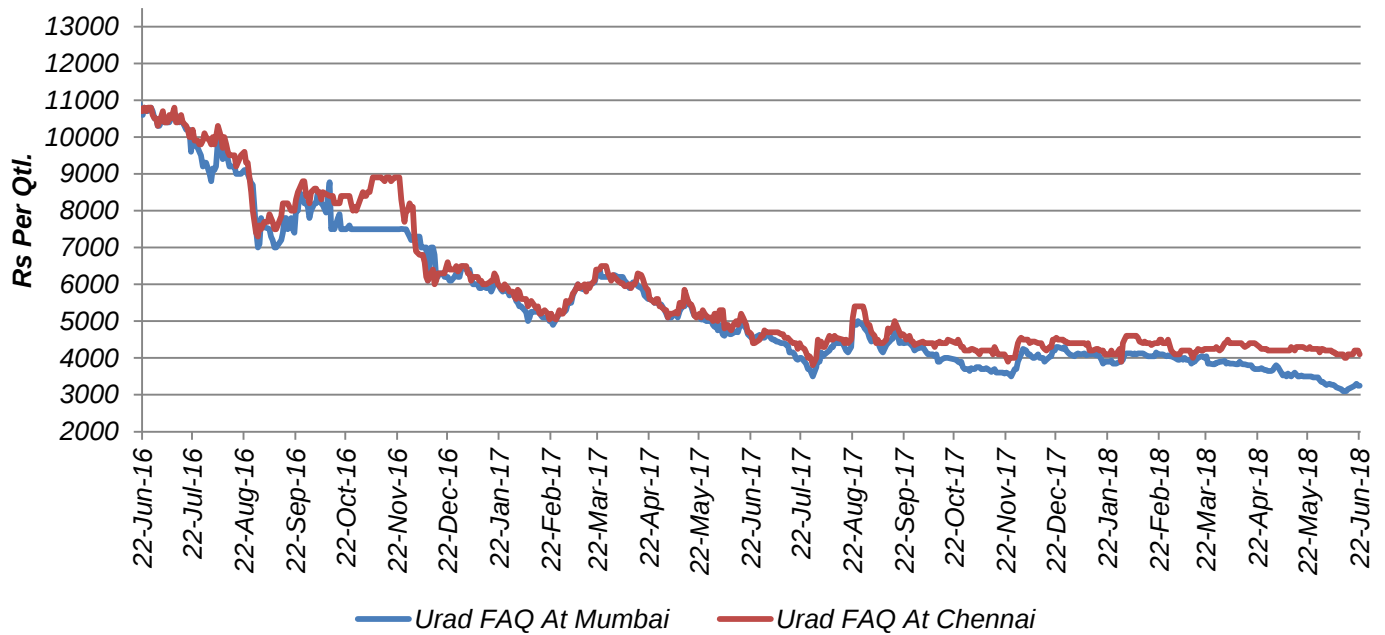

#### Black Matpe (Urad):

Steady to slightly weak tone may be seen in Urad market despite procurement drive in MP and UP. Stock is higher while demand remains depressed. Urad area too is running behind by 42.36 % so far. It is 38% lower than last year in Karnataka and 62% in AP. It is running behind by 61% in Tamil Nadu while 20% in Maharashtra so far. Farmers are shifting Urad area to groundnuts, soybean, chili and cotton. Selling from central pool stock would continue. Import is possible as there is a cheaper availability of Urad in Burma despite recent uptrend in price there. Myanmar is offering FAQ Urad at \$450 per tonne and SQ at \$570 per tonne basis Indian ports against Indian (Chennai) prevailing price of \$625 per tonne. Imports to India are feasible at these prices and may occur soon as DGFT has allowed conditional import for the millers under allocated quota of 1.5 lakh tonne for current MY.

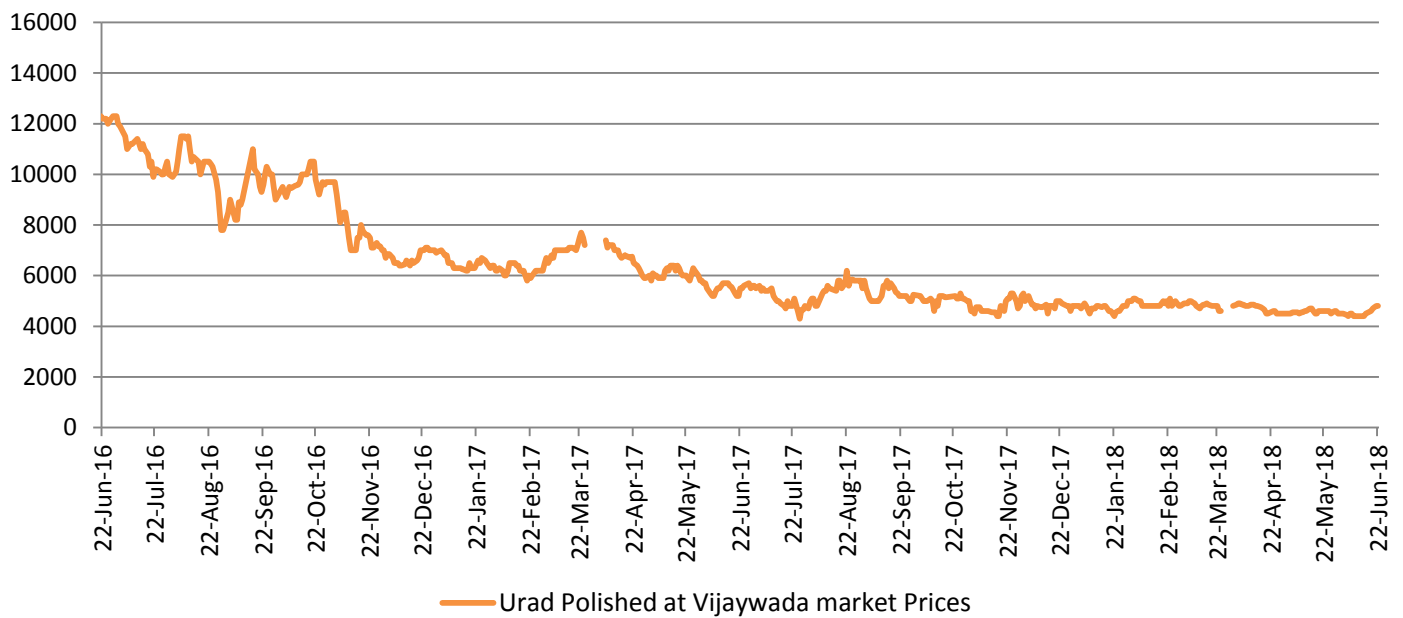

#### Current Market Dynamics & Outlook:

Urad FAQ at Mumbai (Rs.3200-3250Qtl.) and Chennai (Rs.4100-4150Qtl.) noticed weak tone. It traded down in Vijaywara too. Steady to weak movement might be seen in Urad market due to lack of demand at higher level. The following graph shows the prices movement in different markets:-

### URAD FAQ

### Urad Polished at Vijaywada

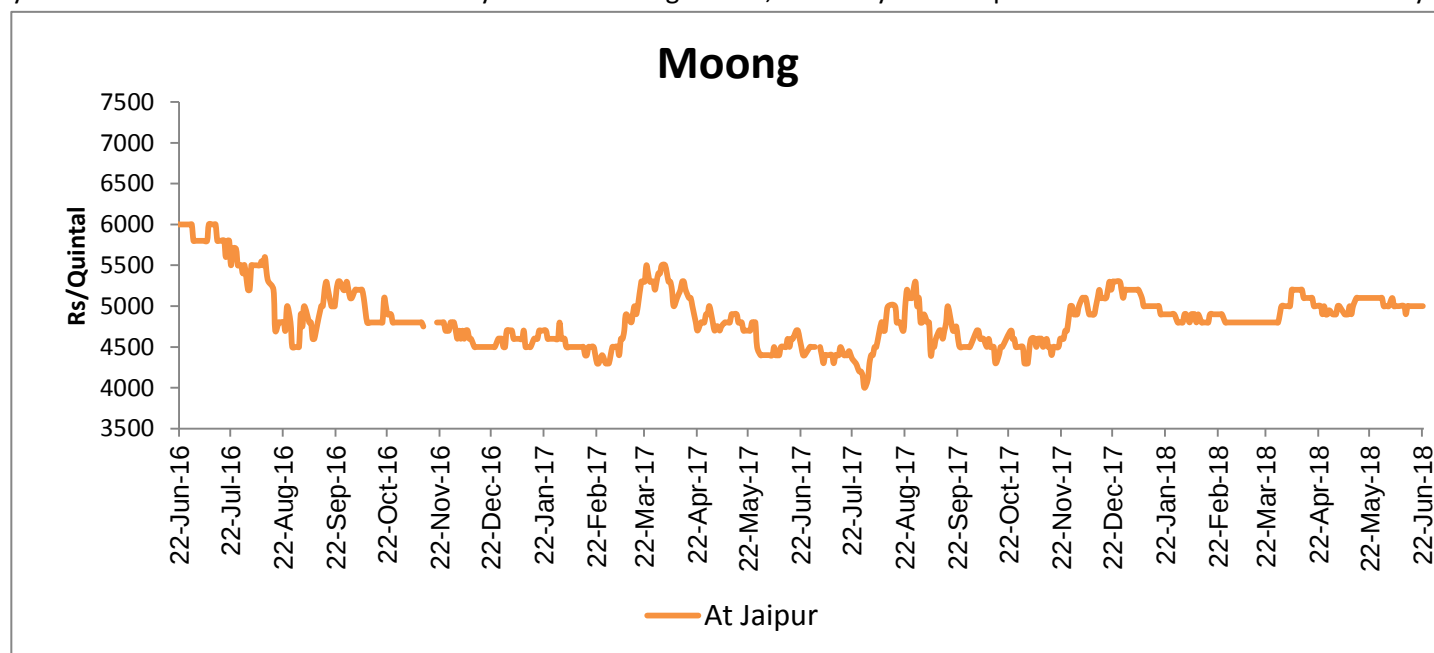

**Market Outlook:** Urad Prices are likely to show steady to weak momentum this week too.

## Green Gram (Moong):

### Market Recap:

There is a report of 30 to 40 % lower crop in Bihar and UP. Hence, arrival is not increasing as per expectation. Despite lower demand for dhoya and chilka dal and affected purchasing power due to liquidity crunch, moong is likely to trade at current level. Dal mills are active. Moong from Allahabad line was traded up by Rs 100 to Rs4800-4850. Moong market is expected to trade in the range of Rs 4800 to Rs5200 per qtl. this week.

Agriwatch preliminary estimate for 2018-19 kharif /Rabi crop stands at 18.04 lakh tonne against 19.25 lakh tonne produced last year. The preliminary estimate is based on farmer's pre-sowing intention. Farmer's may shift some Moong area to soybean, groundnut, chilli and cotton this year. However, likely good rainfall, may improve yield this year in kharif season. Carryout is higher, so any unexpected firmness is unlikely.

**Market Outlook:** Moong prices are likely to trade steady to slightly weak in the near term.

### Pulses Import & Average CiF:
