Highlights-Domestic Market

- **All India kharif Pulses area is lagging behind by 19.36 % to 33.60 against 41.67 lakh ha last year** as on 6th July 2018. Farmers have covered 13.30 lakh ha against 16.63 last year under Tur till date, lower by 20.02 %. Normal area under Tur is 41.90 lakh ha. Even Urad area is lagging behind by 18.45 % to 7.38 against 9.05 lakh ha. Normal area of kharif Urad is 27 lakh ha. Moong area is running behind by 15.57 % to 9.84 lakh ha against 11.66 lakh ha last year. Normal area under Moong is 24.93 lakh ha. other pulses area too is lower than last year. Farmer's have covered 36.40 % lower area so far. It is 2.63 against 4.14 lakh ha so far against normal of 15.83 lakh ha. However, area under Kulthi has increased by 125 % to 0.45 lakh ha against normal of 2.27 lakh ha.
- **Tur market is expected to improve from current level by Rs 300 to 400 per qtl in coming weeks.** Higher MSP for new crop, lower all India area coverage by 25 to 30% and increasing intention of retaining stock by stockists amid slower pace of release from central pool stock are likely to support Tur market in weeks ahead. Stock in private hands is said to be decreased by 50 % from normal. It would continue to lend support to cash market. Maximum stock is in central pool and restricted release seems favorable for Tur market. Tur in Gulberga market is up by Rs200 to Rs3900 -Rs4100 per qtl. It is good to buy after correction of Rs100-125 from current level.
- **Urad market moved up by Rs 300 to Rs 4100-4300 per qtl in Chennai. Good demand** amid higher MSP may push market further up by Rs 200/300 from current level. Lower area coverage would remain supportive. As loading is under process in Burma and is expected to hit Indian market by 20 to 24th July, firmness may be contained at higher level. However, with continuation of good demand in domestic market uptrend would be contained. Urad market is expected to stabilize at Rs 4400/4600 per qtl. SQ may trade at Rs 5500 -5600 in the near term. It is good to buy on dip.
- **Moong market too may trade up as retention would increase due to higher MSP** for new kharif crop. It may touch MSP level soon. However, higher availability in govt.'s custody and new crop expected to hit market by August end may restrict uptrend in the market. Area under moong is expected to increase by 30 % and it will add surplus. Overall scenario for moong in the short term seems firm. In Jaipur market moong traded at Rs 5200-5300 per qtl. Millers are active at this price right now. Buy around at Rs5000-5100. Area is likely to improve this kharif season on the back of higher MSP.
- **Chana market may move up by Rs 300 to 400 from current level as millers are active to buy.** There is a common perception in the market that govt would increase MSP for Chana by 50 % of its production cost (Rs 3250 per qtl). If basis for increase is applied like kharif pulses, MSP for chana may be declared at Rs4825 for the new crop. Besides, maximum stock is in govt.'s custody and govt would not release it before sept. It would push market up.
- **Even lentil and peas prices are expected to move up getting support from other pulses.** Lentil import at 30 % duty from Canada/Australia & at 40% from US origin would make it costly. Marketable surplus in domestic market is expected to come down by August end. Besides, likely higher MSP for new crop (50% higher than production cost) in October would support market. Lentil and pea price may move up by 200 to 300 from current level.
- **India has revised import duty on Chana from 60 to 70% plus surcharge for US origin Chickpeas.** It has also revised import duty on lentil from 30% to 40% plus surcharge for US origin lentil. It will be applicable from 4th August-2018. Import duty will remain same for other origins as was applicable before this hike.

- **Indian importers imported total 114244.86MT pulses in May-2018, lower by 3.11 % from previous month.** The latest import data shows that green peas import increased by 158 % to 6961.54 MT in May. For details see import table given below.
- **MSP hike for kharif pulses and likely hike for rabi on same pattern amid growing fear of lower acreage for Urad and MSP hike for kharif pulses and likely hike for rabi on same pattern amid growing fear of lower acreage for Urad and Tur have encouraged buyers to start buying pulses with fresh spree. Around 50% of marketable surplus in private hands is said to be offloaded at lower price. Besides, restricted import flow and fresh demand from mills have pushed cash market price up. Firmness is likely to continue this week too. Urad and Tur may stabilize near Rs4500-4600 in Chennai and Rs 4200-4500 in Gulberga respectively. Overall pulses market may trade firm.**

International Market:

- **Canada lentil area is said to be lower than intended by one million acres to 3.77 MMT.** Agri experts expected it to be 4.05 million acres. Actually, at the time of sowing prices remained subdued and it impacted farmers to reduce area from 4.05 to 3.37 million ha. Canada had planted 4.4 million acres in 2018. Under current prevailing condition production would be only slip from last year's 2.559 million metric ton (MT) harvest to 2.495 million this year.
- **Chickpeas area in Canada & US has been registered higher than previous intention.** US farmers have planted 6.62 lakh acres against intention of 6.65 lakh acres. Farmers have covered 2.05 lakh acres under small chickpeas while Kabuli area increased from 3.46 to 4.57 lakh acres this year. Chickpeas area in Canada increased from 3.46 to 4.68 lakh acres. Unofficial Statistics Canada data suggests Canada planted 13,8000 acres of desi, 445,900 acres of kabuli and 9,200 acres of other types such as B-90.
- **The latest release of The Canadian Grain Commission hints that Canada exported around 373,000 MT pea through licensed terminal in May-2018.** Data does not include containers export. The exported volume is higher by 85% from 2.01 lakh MT exported in May-2017. It is almost double from exported volume of 1.77 lakh MT in April-2018. India imported around 30,000 MT from Canada in May-2018.
- **80% of newly sown pulses crop in Canada, are passing through normal developmental stages** and almost 20% are below normal development stages. Recent rains in major growing areas have helped standing crops in most of the regions. More rains are required for better growth of pulses. According to Saskatchewan Agriculture and Food crops some area are still stressed and showing the impact of dry conditions. Available moisture level in the field is not enough to ensure better growth of the crop. However, some areas like East and central Saskatchewan condition remains favorable.
- **Chickpea production in US is likely to increase from 3.13(2017) to 4.34 lakh tonne in 2018.** Lentil production may be steady at around 3.39 lakh tonne this year. Pea production too would increase from 6.43 to 6.69 lakh tonne in 2018. Sowing of pulses continues in US and Canada. As major buyers are almost out of the market, global pulses market may stay steady to slightly weak in coming weeks.
- **Chickpeas area in Canada is likely to increase considerably from 1.6 lakh acres to 2.79 lakh acres in 2018.** While chickpeas are riskier to grow than lentils, the relative returns were starting to look better for chickpeas in the regions they're grown-says Carl Potts, executive director of the Saskatchewan Pulse Growers. According to him, growing North American demand for hummus, is another factor behind the strength in chickpeas market.

- Chickpeas production in Australia is expected to decrease by 47.85 % to 10.45 lakhtonne in 2017-18** from record 2004 lakh tonne 2016-17. Despite 4.43 % higher area coverage, production is bound to decrease drastically due to hot and dry weather condition prevalent in the major growing regions. Chickpeas area increased from 1069 to 1144 thousand ha in 2017-18.
- Lentils area in Canada is bound to decline from 23.72 to 17.43 lakh ha in 2017-18.** It is lower by 23.54 % from last year. Yield is expected to improve from 1.45 to 1.55 t per ha. Total production is expected to decline by 16 % from 32.48 to 27.25 lakh ha. As production would decline, total supply would decline by 10.43 % to 30.35 lakh t. Average price in 2017-18 may rule in the range of C\$720 to 750 per T.
- Lentils production in Australia too is bound to decline from 8.3 to 4.19 lakh tonne in 2017-18.** It is almost 50 % down from last year. Lentils area was reported higher by 16 % at 3.55 lakh ha. Due to rough weather condition Lentils production, would decline to 4.19 lakh tonne. Field peas production too, is bound to decline by 32.47 % to 2.8 lakh tonne in 2017-18. Australia had produced 4.15 lakh tonne field peas in 2016-17.

Weekly Outlook: -Pulses are likely to steady to slightly firm.

Monthly Wholesale Price Index:

Annual Rate Of Inflation:

Index Numbers of Wholesale Price in India (Base: 2011-12=100)

Pulses WPI decreased by 1 point from 120.8 in April to 119.8 in May-2018.

Pulses-Wise Scenario:

Chana

Current Scenario:

Improved demand for chana from millers and negligible arrivals in mandis have lent support to cash chana market in the week under review. Market participants are expecting higher MSP for chana in Oct like other kharif pulses. Besides, maximum stock is in govt.'s custody and govt is in no hurry to release it in open market. All these developments have pushed chana price up. Chana market is expected to stabilize near Rs4000/4200 in coming weeks but not without a minor correction. Buyers should buy on dip.

All India average price for Chana increased by 2.43 percent to Rs 3708 per qtl. Imported gram (old imported crop) price increased by 3.22 percent to Rs 3460 per Qtl. Following graph illustrates the chana price movement in different markets:

Chana Price Movement

Market Outlook: Chana may trade steady to slightly firm this week.

Peas (Matar):

Market Recap:

Pea market is likely to trade firm this week too as there is expected support from cash chana market. Besides, there is good offtake from stock available at ports. Market sources say that there is 2.0 lakh tonne pea available at Mundra,kandla ,Hazira &Dahej ports.Besides,1.10 lakh tonne at Tuticorin.Vizak,Kakinada,Kolkatta ports.In Kanpur there is 12000 MT yeow pea and 50,000 MT desi pea stock is available.Around 1.5lakh tonne pea is likely to hit Indian port this week. So there is plenty of stock and it would restrict uptrend in coming weeks. However,green pea stock is comparatively lower and it may move further up after slight correction.

Current Market Dynamics & Outlook:

At Kanpur, Desi Peas traded up by 5.95% at Rs 3880- due to good offtake from retailers/stockists. Canadian pea in Mumbai market traded up by 0.95% to 3580. It may move further up despite higher availability at port.Costly import and improving chana price would continue to support peas market. However,downward correction is expected this week.Stake holders should buy on dip.Green pea is being traded at RS6800-6900 per qtl. in Mumbai.

Spread With Chana:

Spread between Chana and Peas, at Kanpur market moved into negative zone now due to higher peas price this week. Spread is expected to move in the range of -50 to -100 per quintal in the coming weeks, on relative movement in Chana prices. Overall outlook seems steady to slightly firm. Buying on dip is good, as imported pea costing would be higher.

MarketOutlook: Outlook remains steady to slightly firm.

Lentils (Masoor):

Market Recap:

Masur in Kanpur market traded up by 2.02% to Rs3777 per qtl. as available stock in local market is said to be lower by 25 % from last year. Stockists too have retained stock in anticipation of higher price due to 30 % applicable duty. For American origin Lentil, it has been increased to 40 %.However,imported lentil in Mumbai and Kolkatta market decreased slightly as demand from retail ends has decreased. As lentil dal price is higher in domestic market,consumers are shifting to Tur dal,which is comparatively cheaper than masur dal right now. So any spike at this level is unexpected.Steady tone may prevail in lentil cash market.

Current Scenario:

Weekly average price traded up by 2.02 % to Rs 3777 per qtl. Currently in Mumbai, it is being quoted at Rs 3900 per qtl, up by 1.12 % to RS3900 per qtl.. Steady tone may prevail this week too, as demand is unlikely to improve at current level.

Canadian Masur at Mumbai

Market Outlook: Prices are likely to notice steady tone this week.

Pigeon Pea (Tur/Toor):

Market Recap:

Tur market is expected to improve from current level by Rs 300 to 400 per qtl in coming weeks. Higher MSP for new crop, lower all India area coverage by 25 to 30% and increasing intention of retaining stock by stockists amid slower pace of release from central pool stock are likely to support Tur market in weeks ahead. Stock in private hands is said to be decreased by 50 % from normal. It would continue to lend support to cash market. Maximum stock is in central pool and restricted release seems favorable for Tur market. Tur in Gulberga market is up by Rs200 to Rs3900 -Rs4100 per qtl. It is good to buy after correction of Rs100-125 from current level..

Current Market Dynamics & Outlook:

Myanmar is offering lemon Tur (old) at \$440 per tonne and new Lemon Tur (Linkely) at \$460 per tonne basis Indian ports. Despite smart gains in prices at origin, there is import parity and import seems possible to the level of 3.5 lakh tonne in current MY. Govt may restrict selling through auction till Aug amid lower coverage may support cash market. Market should stabilize near 4200-4500 in the near to medium term. Stock in private hands has come down.

Market Outlook: Tur prices are likely to show steady to slightly firm movement this week.

Black Matpe (Urad):

Urad cash market moved up by Rs 300 to Rs 4100-4300 per qtl in Chennai. Good demand amid higher MSP may push market further up by Rs 200/300 from current level. Lower area coverage would remain supportive. As loading is under process in Burma and is expected to hit Indian market by 20 to 24th July, firmness may be contained at higher level. However, with continuation of good demand in domestic market uptrend would be contained. Urad market is expected to stabilize at Rs 4400/4600 per qtl. SQ may trade at Rs 5500 -5600 in the near term. It is good to buy on dip.

Myanmar is offering FAQ Urad at \$450 per tonne and SQ at \$570 per tonne basis against Indian (Chennai) prevailing price of \$625-35 per tonne. Imports to India are feasible at these prices and may occur soon as DGFT has allowed conditional import for the millers under allocated quota of 1.5 lakh tonne for current MY.

Current Market Dynamics & Outlook:

Urad FAQ at Mumbai (Rs.3400-3475 Qtl.) and Chennai (Rs.4300-4400 Qtl.) noticed firm tone. It traded up in Vijaywada too. Steady to firm movement might be seen in Urad market, due to good demand at higher level. The following graph shows the prices movement in different markets:-

Market Outlook: Urad Prices are likely to show steady to firm momentum this week too.

Green Gram (Moong):

Moong market too may trade up as retention would increase due to higher MSP for new kharif crop. It may touch MSP level soon. However, higher availability in govt.'s custody and new crop expected to hit market by August end may restrict uptrend in the market. Area under moong is expected to increase by 30 % and it will add surplus. Overall scenario for moong in the short term seems firm. In Jaipur market moong traded at Rs 5200-5300 per qtl. Millers are active at this price right now. Millers are active at current price. Buying around 5100 is good.

Market Recap:

Market Outlook: Moong prices are likely to trade steady to slightly firm in the near term.
