Highlights-Domestic Market

- **All India kharif Pulses area is lagging behind by 17.63 % to 82.41 against 100.04 lakh ha** last year as on 20th July 2018. Farmers have covered 28.60 lakh ha against 31.87 lakh ha last year under Tur till date, lower by 10.24 %. Normal area under Tur is 41.90 lakh ha. Even, Urad area is down by 28.88 % to 22.16 against 31.16 lakh ha. Normal area of kharif Urad is 27 lakh ha. Moong area is running behind by 1.78 % to 23.38 lakh ha against 23.80 lakh ha last year. Normal area under Moong is 24.93 lakh ha. Other pulses area too is lower by 39.71% to 7.76 lakh ha than last year. Farmers had covered 12.86 lakh ha under other pulses last year. However, area under Kulthi has increased by 48.29 % to 0.50 lakh ha against normal of 2.27 lakh ha.
- **Chana market traded lower due to stockists selling at higher level. With decreased selling pressure** market is expected to improve once again. This week market may move up by Rs 100 to Rs150 from current level. In August market may face pressure once again as firmness would encourage small stockists to release stock. August onward govt may start releasing stock from its godowns. So it is good to sell around mid August above Rs4600-4700. Chana traded at Rs 4500 in Delhi market amid 7-10 motors arrival.
- **Urad market too improved slightly and it traded in the range of Rs5350-3650 in Mumbai and Rs 4100-4200 in Chennai.** Import continues in restricted quantity. Stockists are active and area is expected to decline this year by 10 to 12 %. Besides, govt would buy Urad at Rs5600. It would not allow market to decrease from current level. Market is expected to move in the range of Rs3500 to Rs 4000 in Mumbai and Rs 4000 to Rs4500 in Chennai.
- **Tur price is unlikely to decline from current level despite continuous selling by govt.'s agencies** and ample stock available in private hands. Area under Tur is bound to decline this year and production would be in the range of 31 to 35 lakh tonne. Import remains restricted. Around 50 % old stock is said to be sold out. So there is a chance for improvement at this level. Govt would procure new crop at Rs5650 and it would remain supportive to cash market. Dal demand is likely to improve due to festive season. Over all tone remains firm.
- **Moong market traded slightly up and stayed steady around Rs 5300 in Jaipur market. Despite higher MSP** market is unlikely to move up from current level as there is sufficient stock in private as well as govt.'s hands. Kharif Moong area has improved and will continue to improve. This means higher production this year too. However, govt would buy moong at MSP of Rs 6975, so market is unlikely to move lower. Normal trade might be seen in weeks ahead. It may trade in the range of Rs5000 to Rs5600 at various centers.
- **Masur may trade firm as stock in Canada have come down while area have declined this year.** Crop condition is good so far. As dependency of import would continue, Indian market is bound to go up further by Rs 300 to Rs400. Stake holders should buy on dip. Stockists are unwilling to sell at current level and it may push lentil price up in coming weeks. Govt would start releasing stock from August end and it would cap uptrend beyond a certain level.
- **Pea market is likely to trade firm as there is good demand in market while stock is not enough to create any pressure on market.** Import is not possible till Sept. So there is a possibility of supply -demand mismatch. It would push pea price further up in cash market. Chana and besan market too remains supportive for peas market. Stockists are active. Further firmness would depend on govt.'s decision on import in Sept.
- **FCI has offered 31084.46MT Tur for e-auction today and e-auction from Khari 2016-17 stock** would continue till stock ends. The highest quantity was offered for sale in Karnataka at 8 centers. The quantity in question is 12058.60MT. In Maharashtra total 10051.63 MT has been offered at 9 centers by FCI. In south Indian states Telangana (FCI) has offered 8330.29 MT while AP FCI has offered 530.32MT Tur for auction.
- **India imported total 484248MT pulses from March to June-2018. Out of total Chickpea import** was registered at 14742.3MT, Tur 45963.6MT, Green peas 28361.3MT, Lentil 19544.5MT, Black Mapte 18330.7MT, Moong 8464.04MT, yellow pea 318726MT, Kidneybean 33715.9MT. Chickpea import increased by 141.21% to 3054.22 MT from May-2018. However, Tur import decreased by 36.72% to 11910.1 MT in June. Green Peas import increased by 22.45 % to 8524.17 MT, lentil import

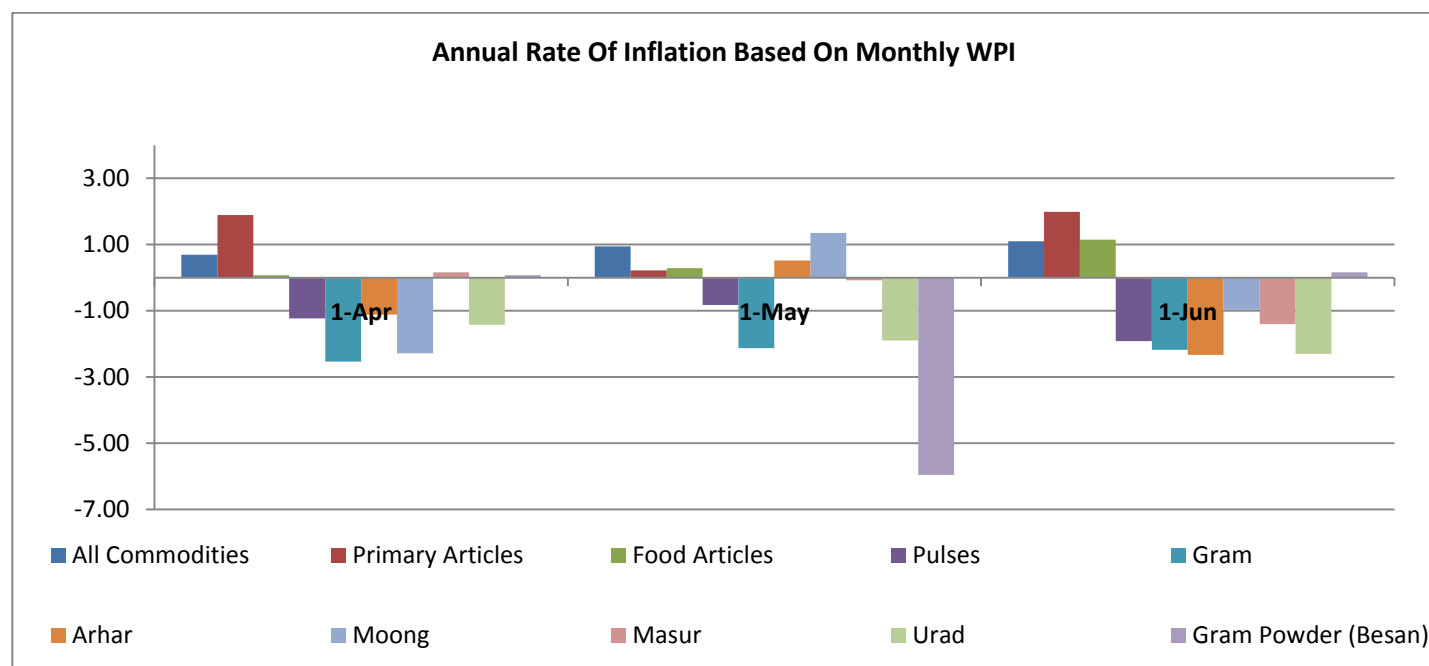

increased by 598.87% to 19544.5 MT in June. Even Urad import increased by 112.39% to 7736.39 MT. Moong import decreased by 3.52% to 799.85 MT during the same period.

International Market:

- **Global chickpea market traded down during the week under review due to fear of bumper production in Canada and US this year.** preliminary report on yield hints lower than average yield, but this decline is said to be not enough to make supply side tight. US has larger area this year under chickpeas. Stockists and exporters have slashed price to encourage demand as big buyers like India remains out of the market. Pressure is likely to continue on global market despite lower crop size in Australia this year.
- **Global peas market traded under pressure before likely commencement of harvesting in northern hemisphere.** Major buyers like India & Pakistan are out of market right now and others are waiting for new crop pressure to build up. However, trading activities are seen in feed grade peas. Exporters in Canada have enough stock to cater the incoming demand in the weeks ahead. After harvesting pressure coming to an end, stockists/exporters may be active once again, that may help prices to recover from mid August.
- **Global lentil cash markets traded weak due to lower buying interest in spot market. Right now stock** is enough to cater existing demand. There is a fear of 10 % lower yield this year in comparison to 5 years average in Canada. If it limits to 10 % much, stock to use ratio would be not decrease to support cash market and there would be adequate supply in the market. Situation might be favorable in 3rd quarter, when Indian demand may emerge.
- **Global Chickpeas market traded almost mixed while gap between large and medium caliber has started increasing.** Even growers bids have been on decrease from May-2018. US farmers bids decreased by 26 % to \$705 MT. In Canada it decreased by 19% to \$490 in last two months. Recovery is expected at current level.
- **Peas demand from France has increased from European union. It has lent much needed support to pea market in France.** However, import volume from France in May was registered at 17,910 MT, lower by 7% to 19310 MT loaded in April. France had exported 9490 MT in May last year. France has exported total 268,720 MT peas so far in the season. Belgium brought around 12,300 MT, Netherland brought 2015 MT and Spain purchased around 1925 MT.
- **Canada lentil area is said to be lower than intended by one million acres to 3.77 MMT.** Agri experts expected it to be 4.05 million acres. Actually, at the time of sowing prices remained subdued and it impacted farmers to reduce area from 4.05 to 3.37 million ha. Canada had planted 4.4 million acres in 2018. Under current prevailing condition production would be only slip from last year's 2.559 million metric ton (MT) harvest to 2.495 million this year.
- **Chickpeas area in Canada & US has been registered higher than previous intention.** US farmers have planted 6.62 lakh acres against intention of 6.65 lakh acres. Farmers have covered 2.05 lakh acres under small chickpeas while Kabuli area increased from 3.46 to 4.57 lakh acres this year. Chickpeas area in Canada increased from 3.46 to 4.68 lakh acres. Unofficial Statistics Canada data suggests Canada planted 13,8000 acres of desi, 445,900 acres of kabuli and 9,200 acres of other types such as B-90.
- **Chickpeas area in Canada is likely to increase considerably from 1.6 lakh acres to 2.79 lakh acres in 2018.** While chickpeas are riskier to grow than lentils, the relative returns were starting to look better for chickpeas in the regions they're grown- says Carl Potts, executive director of the Saskatchewan Pulse Growers. According to him, growing North American demand for hummus, is another factor behind the strength in chickpeas market.
- **Lentils production in Australia too is bound to decline from 8.3 to 4.19 lakh tonne in 2017-18.** It is almost 50 % down from last year. Lentils area was reported higher by 16 % at 3.55 lakh ha. Due to rough weather condition Lentils production, would decline to 4.19 lakh tonne. Field peas production too, is bound to decline by 32.47 % to 2.8 lakh tonne in 2017-18. Australia had produced 4.15 lakh tonne field peas in 2016-17.

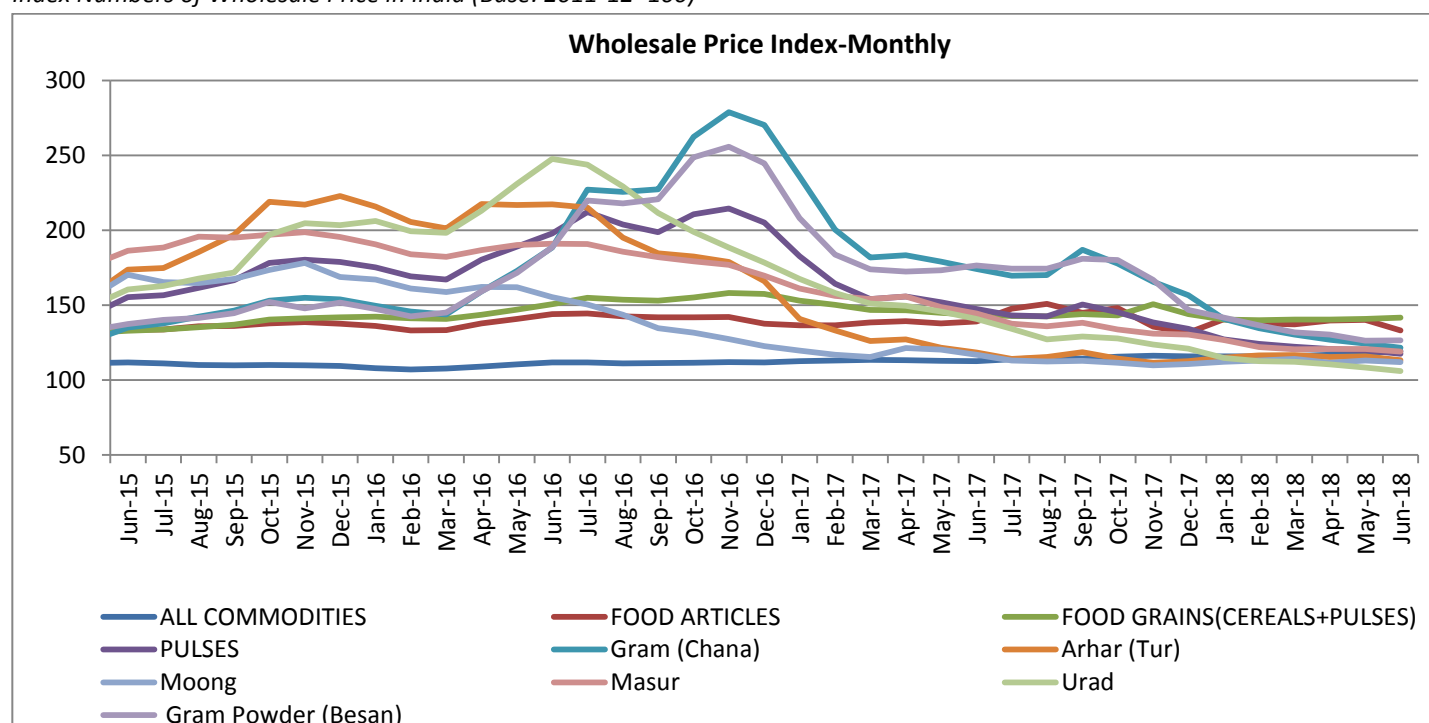

Weekly Outlook: -Pulses are likely to trade steady to slightly firm this week.

Monthly Wholesale Price Index:

Annual Rate Of Inflation:

Index Numbers of Wholesale Price in India (Base: 2011-12=100)

Pulses WPI decreased by 2.3 point from 119.8 in May to 117.5 in Jun-2018.

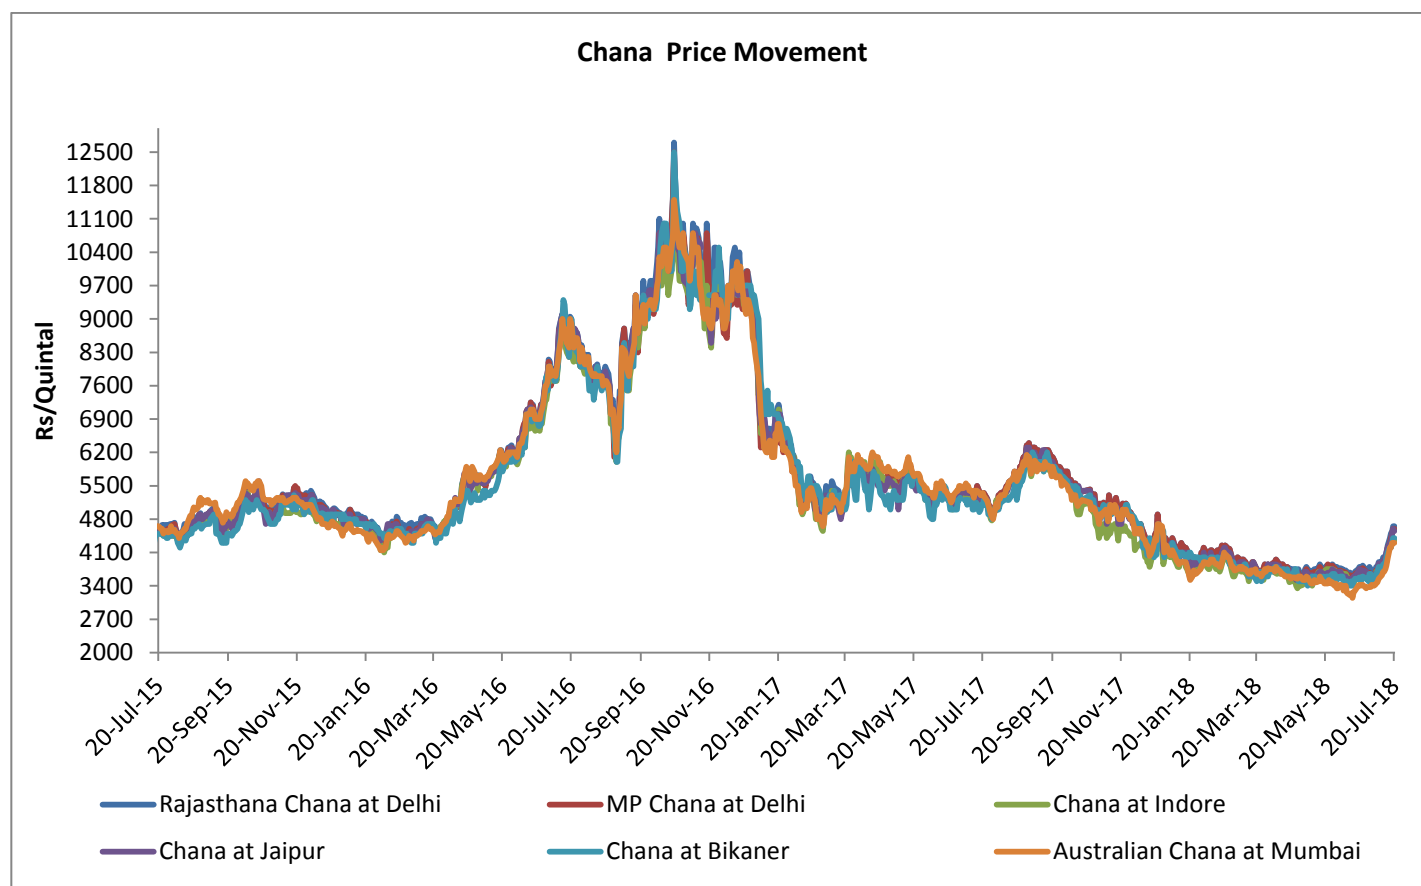

Pulses-Wise Scenario:

Chana

Current Scenario:

Demand for besan increased considerably supported by good demand from mills. Arrivals are decreasing in various mandis. Govt. is unwilling to sell chana from central pool at this point of time. It remains supportive to cash chana market. Availability of pea is lower in local market and it has encouraged chana demand in retail market. Chana in delhi market traded at Rs 4500 and Rs4600 per qtl. MP line and Rajasthan line respectively. With commencement of festive season demand is likely to increase further. In Mumbai too there is good demand Imported Chana is being offered at Rs 4300-4350 per qtl. Prices in all mandis are likely to improve in coming weeks. Sellers are not active right now. Overall trend remains firm.

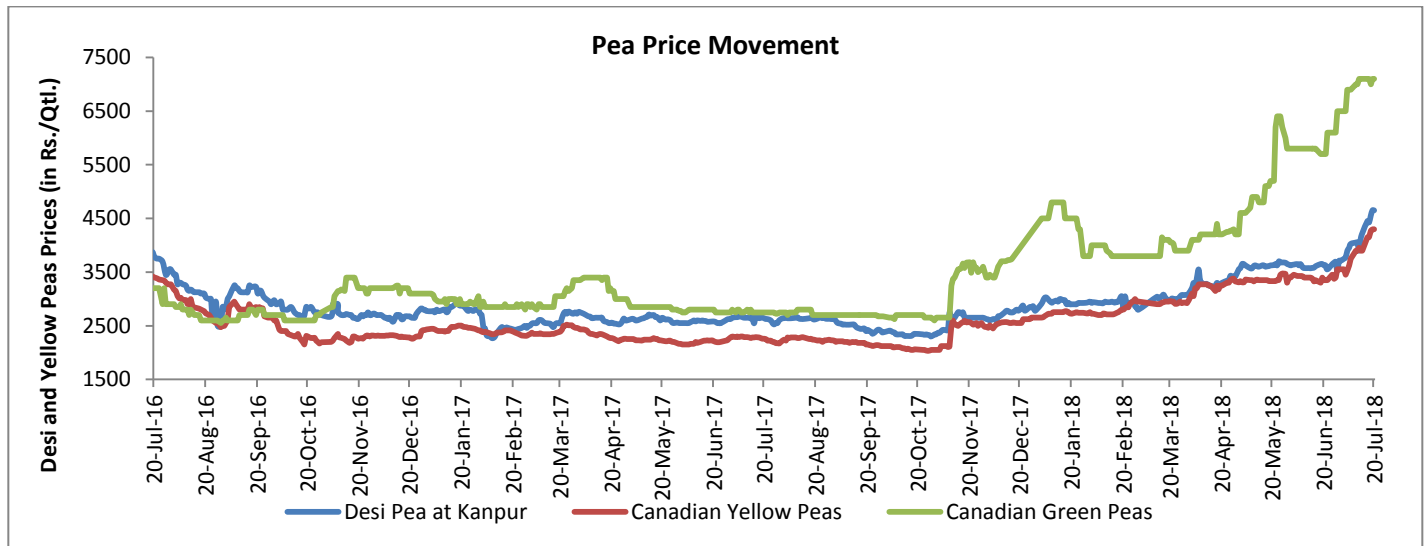

All India average price for Chana increased by 11.73 percent to Rs 4380 per qtl. Imported gram (old imported crop) price increased by 13.22 percent to Rs 4225 per Qtl. Australian chana is being quoted at Rs4200-4250. Following graph illustrates the chana price movement in different markets:

Market Outlook: Chana may trade steady to slightly firm this week too.

Peas (Matar):

Market Recap:

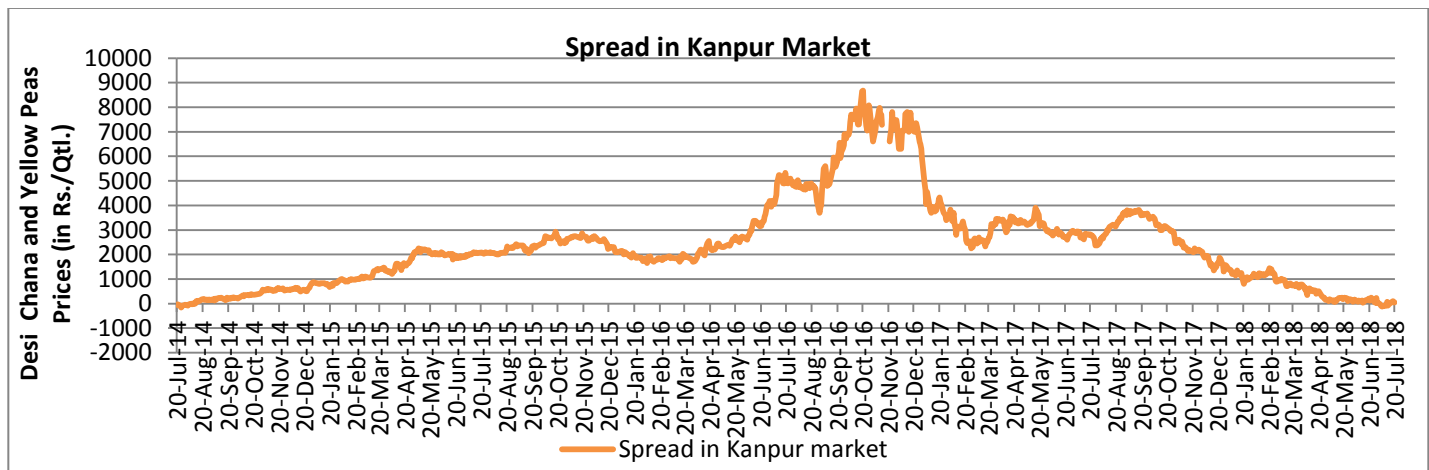

Availability of pea in domestic market is not enough to pressurize market amid good demand from retail sector. Till September, import is not possible. So pea market is likely to trade firm taking clue from firm chana market. There is good offtake from stock available at ports. Market sources say that there is 1.25 lakh tonne pea available at Mundra, Kandla, Hazira & Dahej ports. Besides, 0.75 lakh tonne at Tuticorin, Vizak, Kakinada, Kolkatta ports. In Kanpur there is 8,000 MT yeow pea and 35,000 MT desi pea stock is available. Even green pea stock is comparatively lower and it may move further up after slight correction. It is good to buy on dip. Peas from Ukraine is being offered at Rs4300 per qtl at Mumbai, Hazira and Mundra ports.

Current Market Dynamics & Outlook:

At Kanpur, Desi Peas traded up by 11.64 % at Rs 4545- due to good offtake from retailers/stockists. Canadian pea in Mumbai market traded up by 8.31 % to 4231 It may move further move up despite good availability at port. Costly import and improving chana price would continue to support peas market. However, downward correction is expected this week. Stake holders should buy on dip. Green pea is being traded at RS7000-7100 per qtl. in Mumbai.

Spread With Chana:

Spread between Chana and Peas, at Kanpur market moved into negative zone now due to higher peas price this week. Spread is expected to move in the range of 50 to 100 per quintal in the coming weeks, on relative movement in Chana prices. Overall outlook seems steady to slightly firm. Buying on dip is good, as imported pea costing would be higher.

Market Outlook: Outlook remains steady to slightly firm.

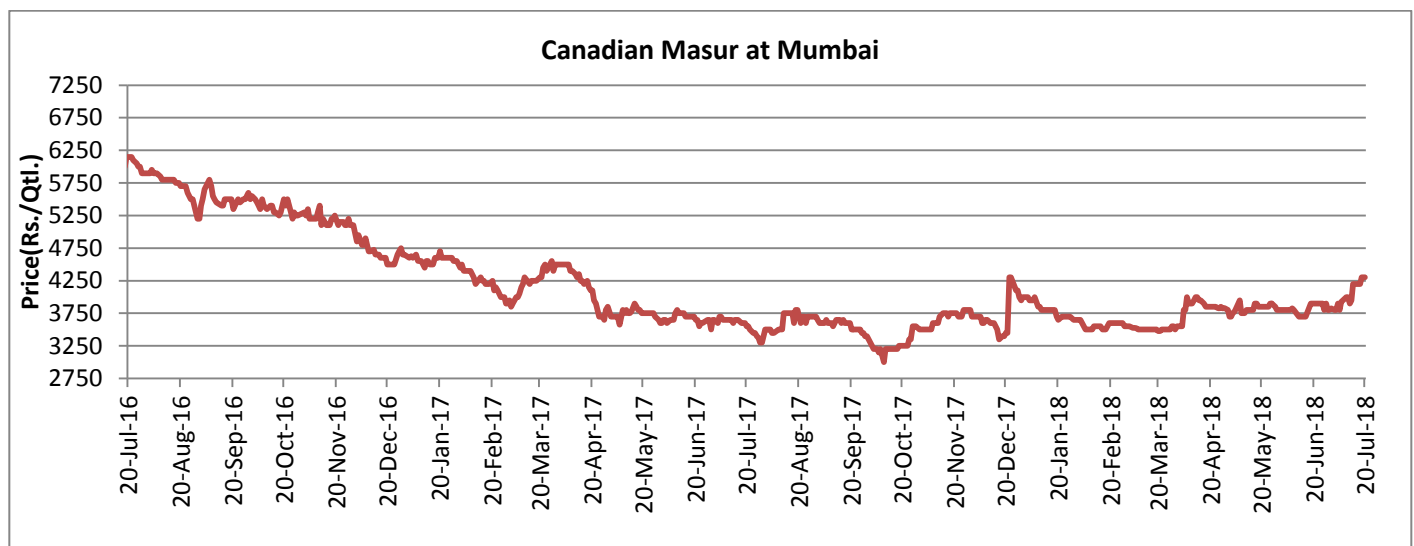

Lentils (Masoor):

Market Recap:

Masur market traded firm on good demand from retailers and wholesalers. Kanpur market improved by 6.65 % to Rs 4165. Slight correction might be seen at this level. However, overall tone remains firm and stake holders should buy on dip. Stockists too have retained stock in anticipation of higher price due to 30 % applicable duty. For American origin Lentil, it has been increased to 40 %. However, imported lentil in Mumbai and Kolkatta market decreased slightly as demand from retail ends has decreased. Demand is likely to increase. As govt is unwilling to sell masur from central pool stock right now, prices are expected to improve from current level. Buying on dip is good.

Current Scenario:

Weekly average price traded up by 6.65 % to Rs 4165 per qtl in Kanpur. Currently in Mumbai, it is being quoted at Rs 4260 per qtl, up by 6.23%. Steady to slightly firm tone may prevail this week too, as demand is likely to improve in coming weeks

Market Outlook: Prices are likely to notice steady to slightly firm tone this week.

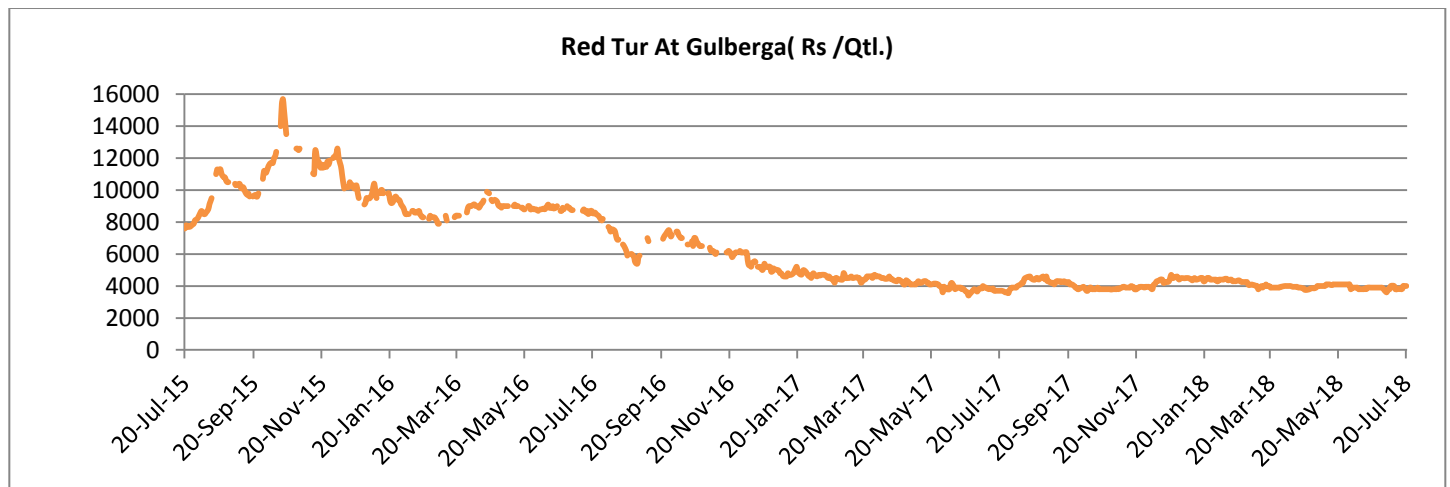

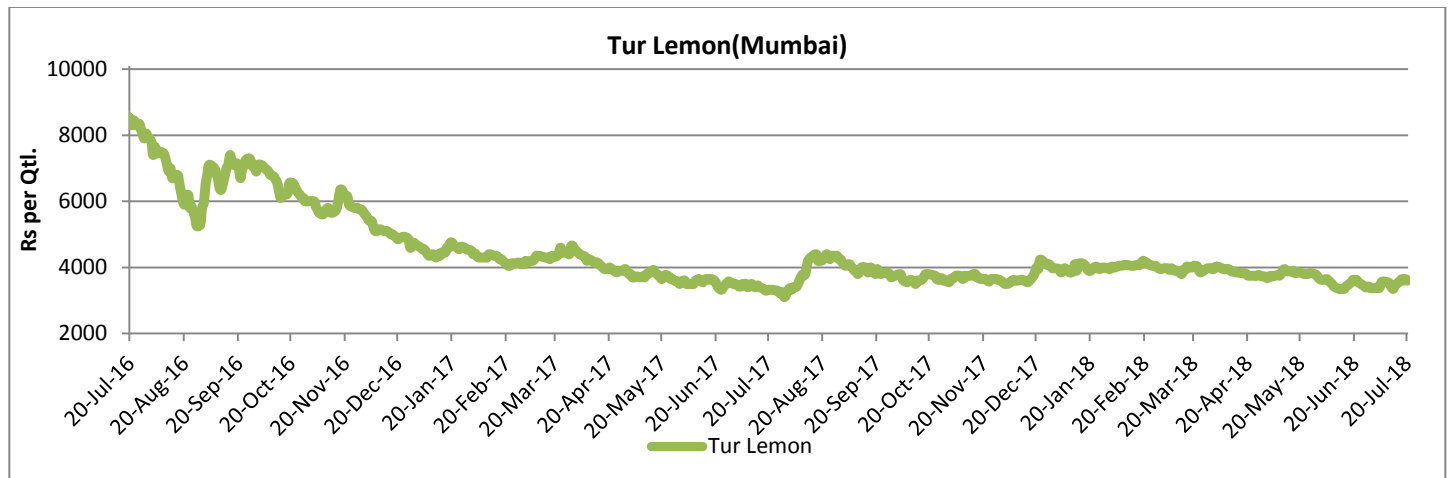

Pigeon Pea (Tur/Toor):

Market Recap:

Tur market is expected to improve from current level by Rs 100 to 200 per qtl in coming weeks. Higher MSP for new crop, lower all India area coverage by 15 to 20% and increasing intention of retaining stock by stockists amid slower pace of release from central pool stock are likely to support Tur market in weeks ahead. Stock in private hands is said to be decreased by 50 % from normal. It would continue to lend support to cash market. Maximum stock is in central pool and restricted release seems favorable for Tur market. Tur in Gulberga market stayed steady at Rs3850 -Rs4100 per qtl. It is good to buy after correction of Rs100-125 from current level..

Current Market Dynamics & Outlook:

Myanmar is offering lemon Tur (old) at \$390 per tonne and new Lemon Tur (Linkely) at \$400 per tonne basis Indian ports. Despite smart gains in prices at origin, there is import parity and import seems possible to the level of 3.5 lakh tonne in current MY. Govt may restrict selling through auction till Aug amid lower coverage may support cash market. Market should stabilize near 4200-4500 in the near to medium term. Stock in private hands has come down. Festive season commences and demand is likely to improve in coming weeks.

Market Outlook: Tur prices are likely to show steady to slightly firm movement this week.

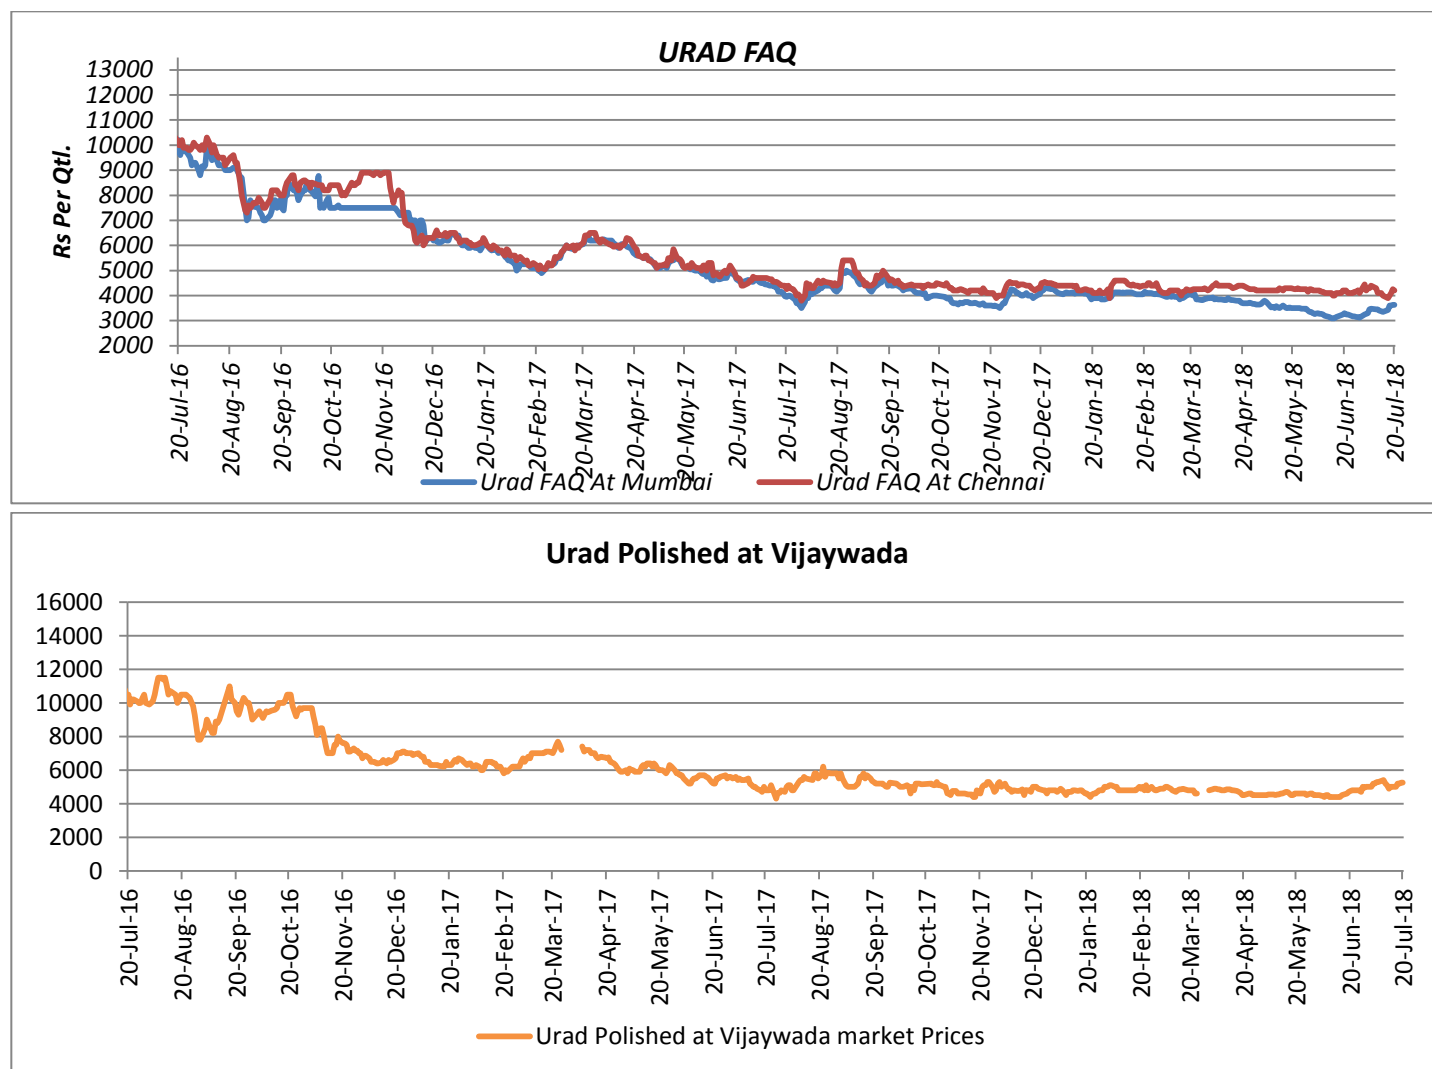

Black Matpe (Urad):

Urad market could not sustain its upward momentum and traded down at Rs 4100 to Rs 4200 per quintal in Chennai. Demand at higher level got affected. As supply side is higher at improved level, any major decline is unlikely in coming weeks. Higher MSP may encourage farmers to grow more Urad in kharif season. FAQ Urad is expected to stabilize near Rs 4000/4500 per quintal. SQ may trade at Rs 5000-5500 in the near term.

Myanmar is offering FAQ Urad at \$440 per tonne and SQ at \$560 per tonne basis against Indian (Chennai) prevailing price of \$635-45 per tonne. Imports to India are feasible at these prices and may occur soon as DGFT has allowed conditional import for the millers under allocated quota of 1.5 lakh tonne for current MY.

Current Market Dynamics & Outlook:

Urad FAQ at Mumbai (Rs.3600-3625 Qtl.) and Chennai (Rs.4000-4250 Qtl.) noticed steady tone. It traded steady in Vijaywada too. Steady to slightly firm movement might be seen in Urad market, due to good demand at higher level. The following graph shows the prices movement in different markets:-

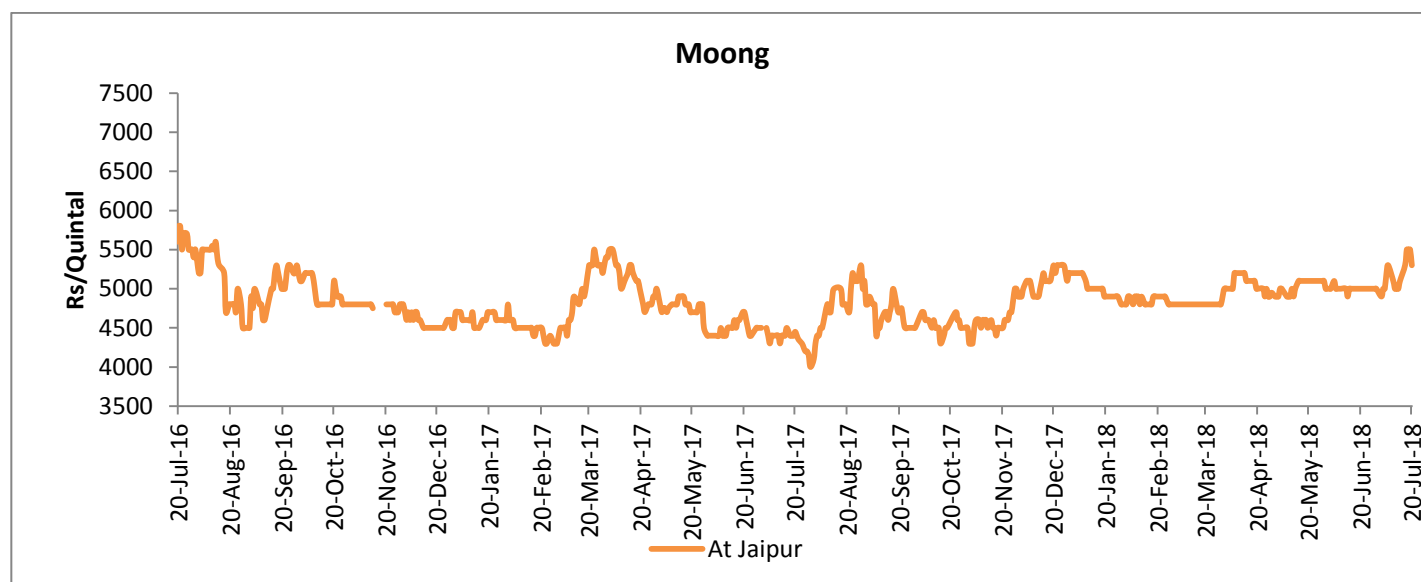

Market Outlook: Urad Prices are likely to show steady to slightly firm momentum this week too.

Green Gram (Moong):

Moong market too may trade down as selling increased at improved level. Prices is likely to improve once again as retainion would increase. Higher MSP may encourage farmers to grow more Moong.It would restrict uptrend in the near to medium term. . Beesides,higher availability in govt.'s custody and new crop expected to hit market by August end may restrict uptrend in the market.Area under moong is expected to increase by 30 % and it will add surplus.Overall scenario for moong in the short term seems steady. In Jaipur market moong traded at Rs 5000-5300 per qtl.Millers are active at this price right now.Buying around 4900-5000 is good.

Market Recap:

Market Outlook: Moong prices are likely to trade steady to slightly firm in the near term.
