Commodity-wise Domestic, International Prices and Arrivals at Different Centers

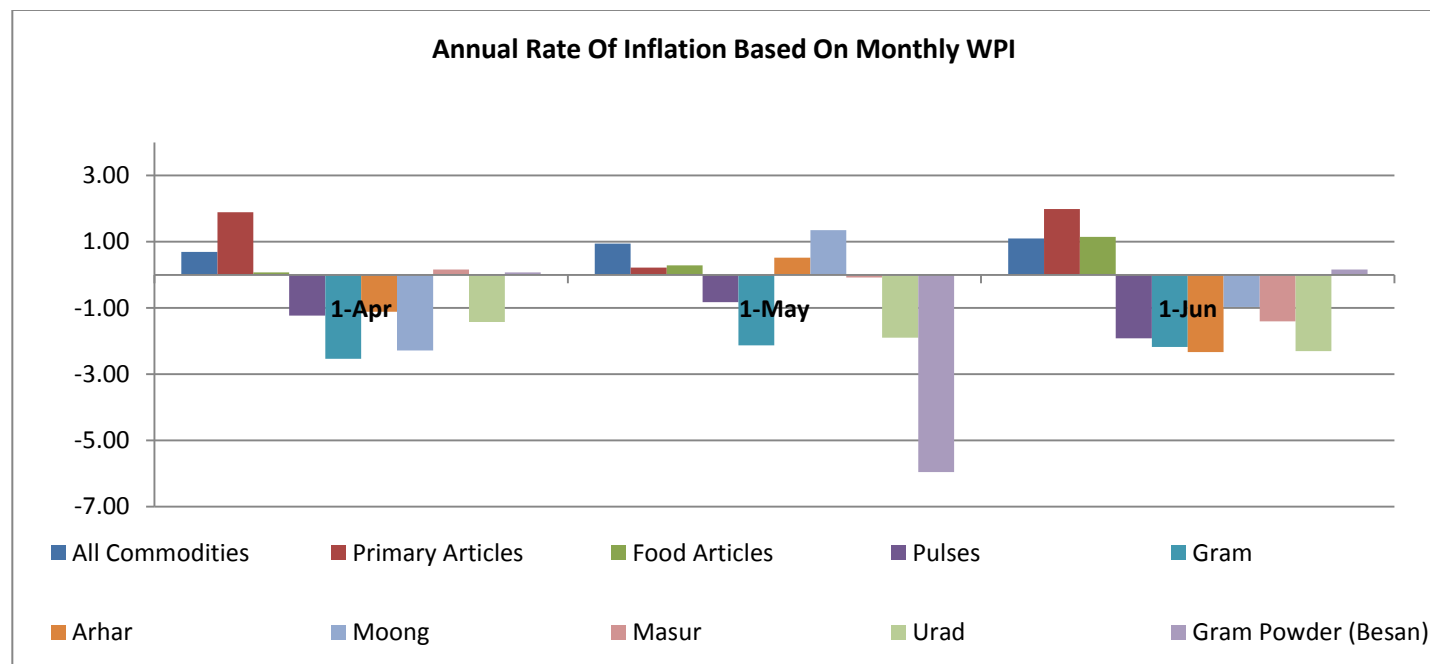

Highlights-Domestic Market

- **All India kharif Pulses area is lagging behind by 8.73 % to 103.35 against 113.24 lakh ha** last year as on 27th July 2018. Farmers have covered 35.05 lakh ha against 36.66 last year under Tur till date, lower by 4.40 %. Normal area under Tur is 41.90 lakh ha. Even Urad area is lagging behind by 16.08 % to 29.51 against 35.17 lakh ha. Normal area of kharif Urad is 27 lakh ha. Moong area is running up by 3.69 % to 27.45 lakh ha against 26.47 lakh ha last year. Normal area under Moong is 24.93 lakh ha. other pulses area too is lower by 26.49% than last year. It is 10.71 against 14.57 lakh ha so far against normal of 15.83 lakh ha. However, area under Kulthi has increased by 71.39 % to 0.63 lakh ha against normal of 2.27 lakh ha
- **Despite intention of selling chana from central pool stock by Nafed after finding green** signal from central govt. cash chana market is unlikely to trade lower as arrival has come down at negligible level at this point of time. Demand for dal is good. Chana in Delhi market traded at Rs 4400 (Rajasthan line) and Rs 4350 (MP line). Arrival was recorded at 10 motors. Australian Chana in Mumbai is being traded at Rs 4200 while it is being offered at 4250-4275 at Mundra port. Agriwatch expects chana price to stay steady in the near term and move up in the medium term from current level. Selling from Nafed might be delayed for a couple of weeks.
- **There is good demand for Tur dal in cash market. Market is expected to move up by Rs150 to 200** from current level as millers buying interest is expected to improve. FCI and Nafed continues to sell through auction and it may cap uptrend to a certain level. There was limited trading activities in cash market due to transport strike. As now strike is over, trading activities are likely to improve. Sowing area under Tur is lagging behind by 4.40 % to 35.05 lakh ha from last year till 27 Jul 2018. Normal area under Tur is 41.91 lakh ha. Stock in millers hand is decreasing and they will start purchasing once again to fulfill their immediate requirement. All these developments would push up prices in cash market.
- **Taking clue from Chana and Tur amid improved demand from millers/retail end masur and urad** may trade slightly up in coming weeks. Area under Urad has decreased by 16.08% to 29.51 lakh ha as on 27 Jul 2018. Normal area under kharif Urad is 27 lakh ha. As area is higher than normal, any major spike in Urad market is unlikely in the medium term. There is good carryout and supply side seems higher than actual demand. In Chennai market SQ new is being traded at Rs 4900 while FAQ new at Rs 3800.
- **Moong market traded slightly up and stayed steady around Rs 5300 in Jaipur market. Despite higher MSP** market is unlikely to move up from current level as there is sufficient stock in private as well as govt.'s hands. Kharif Moong area has improved and will continue to improve. This means higher production this year too. However, govt would buy moong at MSP of Rs 6975, so market is unlikely to move lower. Normal trade might be seen in weeks ahead. It may trade in the range of Rs 5000 to Rs 5600 at various centers.
- **Pea market is likely to trade firm as there is good demand in market while stock is not enough to** create any pressure on market. Import is not possible till Sept. So there is a possibility of supply-demand mismatch. It would push pea price further up in cash market. Chana and besan market too remains supportive for peas market. Stockists are active. Further firmness would depend on govt.'s decision on import in Sept.
- All India transporters strike called off and trading activities are likely to improve this week. It may push up price of pulses to a certain extent.
- **FCI has offered 31084.46 MT Tur for e-auction today and e-auction from Khari 2016-17 stock** would continue till stock ends. The highest quantity was offered for sale in Karnataka at 8 centers. The quantity in question is 12058.60 MT. In Maharashtra total 10051.63 MT has been offered at 9 centers by FCI. In south Indian states Telangana (FCI) has offered 8330.29 MT while AP FCI has offered 530.32 MT Tur for auction.
- **India imported total 484248 MT pulses from March to June-2018. Out of total Chickpea** import was registered at 14742.3 MT, Tur 45963.6 MT, Green peas 28361.3 MT, Lentil 19544.5 MT, Black Mapte 18330.7 MT, Moong 8464.04 MT, yellow pea 31872.6 MT, Kidney bean 33715.9 MT. Chickpea import increased by 141.21% to 3054.22 MT from May-2018. However, Tur import decreased by 36.72% to 11910.1 MT in June. Green Peas import increased by 22.45 % to 8524.17 MT, lentil import increased by 598.87% to 19544.5 MT in June. Even Urad import increased by 112.39% to 7736.39 MT. Moong import decreased by 3.52% to 799.85 MT during the same period.

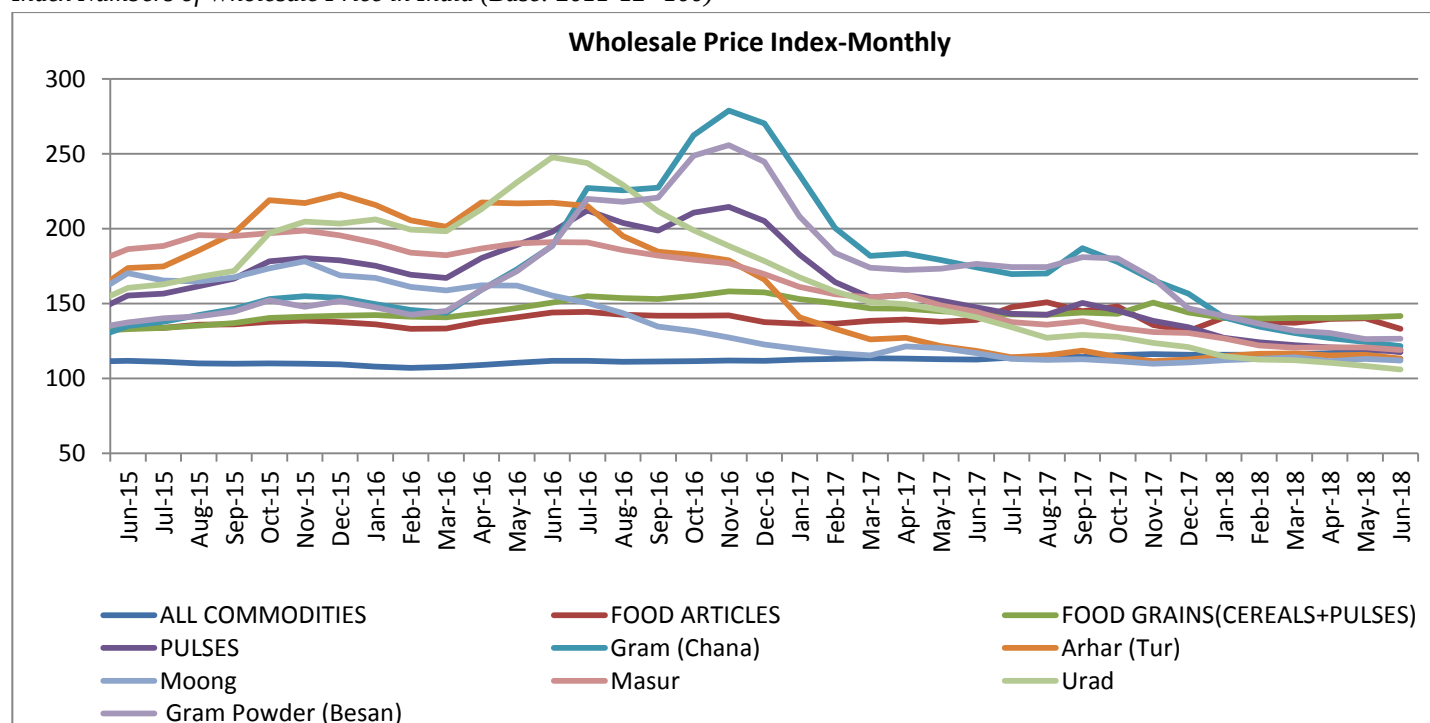

International Market:

- **The Canadian Grain Commission latest update shows that Canada has 29,800 metric tons lentils** through licensed facilities in June against 68,600 MT were shipped the same month last year, while movement is up from the 19,600 MT shipped the previous month. Thus total export for the current marketing year touched to 284,600 MT against 853,100 MT during the same period last season.
- **Masur Crop condition in Canada is said to be good so far. the latest update shows that 55% Masur crop** is in good condition while 28% is in fair condition and 9% is said to be in bad condition. Harvesting of masur early sown crop may start from 2nd week of August. Canada has huge old stock of Masur (around 18-20 lakh tonne) and India being out of market, Canadian exporters may seek other buyers to consume its surplus stock. It may pressurize global masur market to some extent in coming week.
- **As per the latest market update production of Chickpeas in Australia may be around 3.09 lakh tonne.** Queensland production has been pegged at 2.17 lakh tonne. Field Pea production may touch 3.01 lakh tonne, Lentil production has been pegged at 3.47 lakh tonne. total pulses production including Lupins and Faba beans has been pegged at 1713 lakh tonne. It is 72% lower in case of chickpeas, 9% up in case of peas, 26% down in case of lentils when compared to 2017.
- **Global chickpea market traded down during the week under review due to fear of bumper production** in Canada and US this year. preliminary report on yield hints lower than average yield, but this decline is said to be not enough to make supply side tight. US has larger area this year under chickpeas. Stockists and exporters have slashed price to encourage demand as big buyers like India remains out of the market. Pressure is likely to continue on global market despite lower crop size in Australia this year.
- **Global peas market traded under pressure before likely commencement of harvesting in northern hemisphere.** Major buyers like India & Pakistan are out of market right now and others are waiting for new crop pressure to build up. However, trading activities are seen in feed grade peas. Exporters in Canada have enough stock to cater the incoming demand in the weeks ahead. After harvesting pressure coming to an end, stockists/exporters may be active once again, that may help prices to recover from mid August.
- **Canada lentil area is said to be lower than intended by one million acres to 3.77 MMT.** Agri experts expected it to be 4.05 million acres. Actually, at the time of sowing prices remained subdued and it impacted farmers to reduce area from 4.05 to 3.37 million ha. Canada had planted 4.4 million acres in 2018. Under current prevailing condition production would be only slip from last year's 2.559 million metric ton (MT) harvest to 2.495 million this year.
- **Chickpeas area in Canada & US has been registered higher than previous intention.** US farmers have planted 6.62 lakh acres against intention of 6.65 lakh acres. Farmers have covered 2.05 lakh acres under small chickpeas while Kabuli area increased from 3.46 to 4.57 lakh acres this year. Chickpeas area in Canada increased from 3.46 to 4.68 lakh acres. Unofficial Statistics Canada data suggests Canada planted 13,8000 acres of desi, 445,900 acres of kabuli and 9,200 acres of other types such as B-90.
- **Chickpeas area in Canada is likely to increase considerably from 1.6 lakh acres to 2.79 lakh acres in 2018.** While chickpeas are riskier to grow than lentils, the relative returns were starting to look better for chickpeas in the regions they're grown - says Carl Potts, executive director of the Saskatchewan Pulse Growers. According to him, growing North American demand for hummus is another factor behind the strength in chickpeas market.

Weekly Outlook: -Pulses are likely to trade range bound this week.

Monthly Wholesale Price Index:**Annual Rate Of Inflation:**

Index Numbers of Wholesale Price in India (Base: 2011-12=100)

Pulses WPI decreased by 2.3 point from 119.8 in May to 117.5 in Jun-2018.

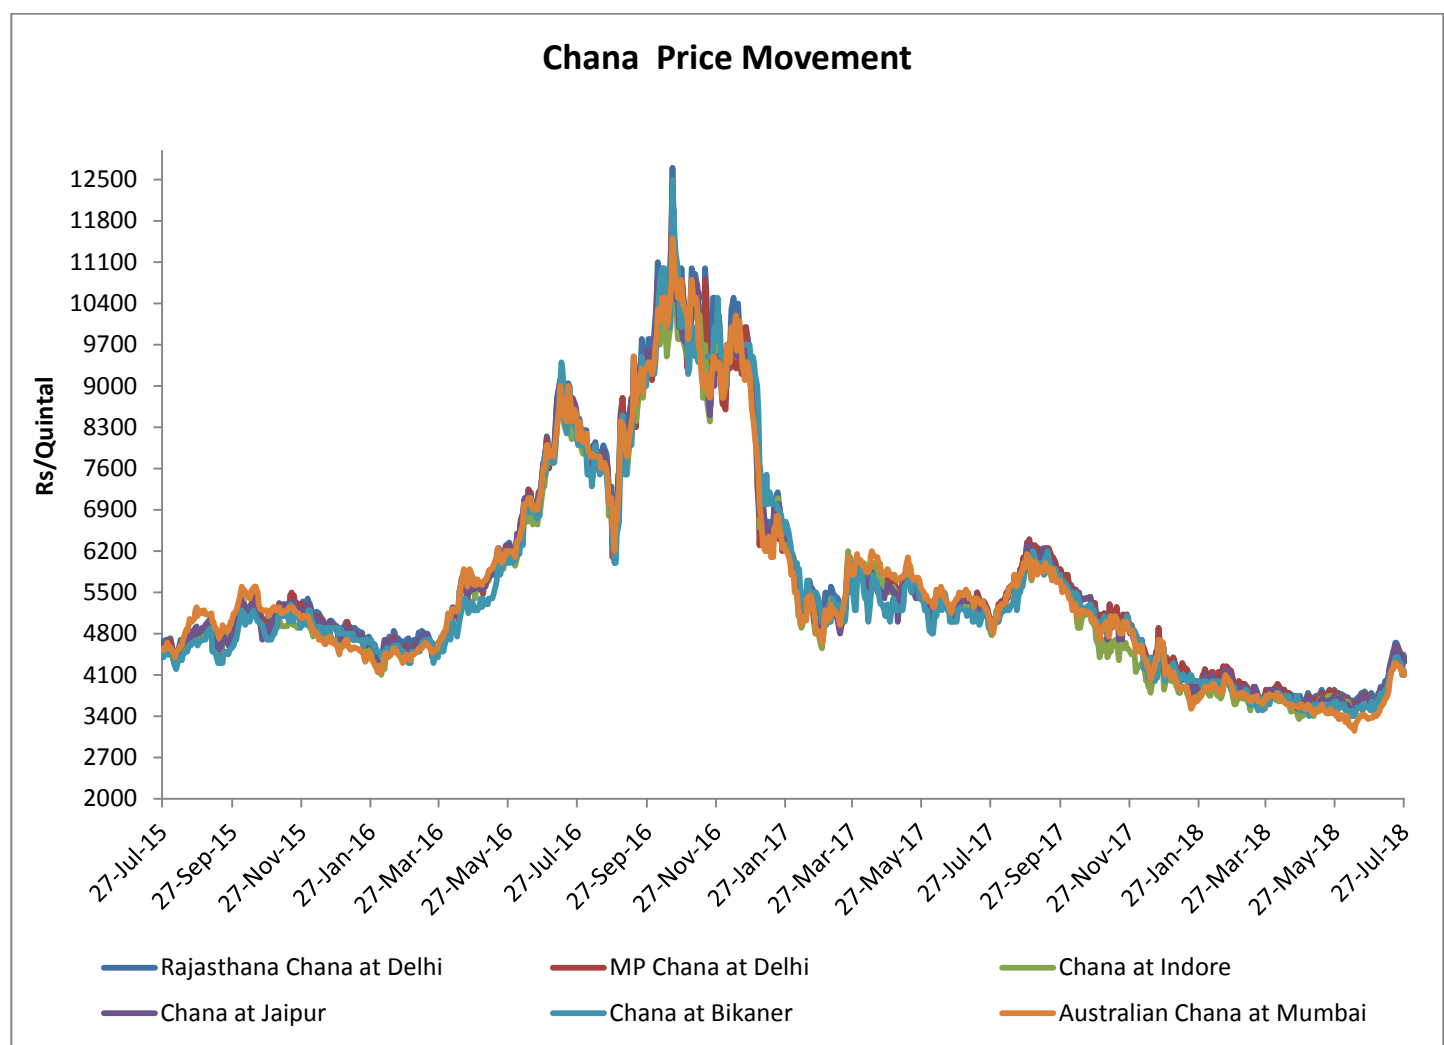

Pulses-Wise Scenario:

Chana

Current Scenario:

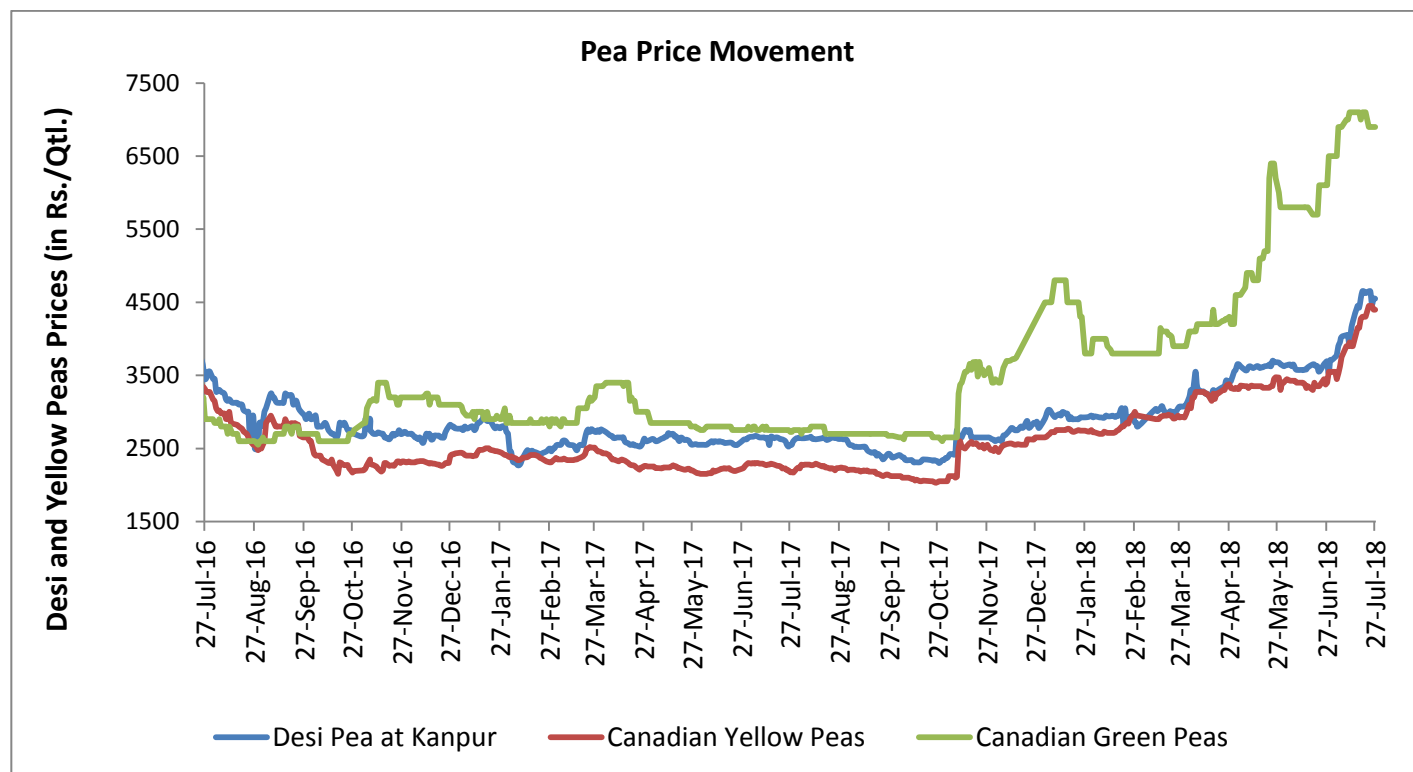

With new coming into market that Nafed would start selling chana from central pool stock near MSP level, cash market traded down by Rs200 to Rs 3450-4400 in Delhi market. Transport strike, selling intention from central pool stock capped uptrend move in cash chana market during week under review. As demand of dal is likely to improve due to beginning of festive season, Chana market is likely to trade steady to slightly firm this week. Arrival in mandis has decreased considerably and stockists are unwilling to release stock at this point of time.

All India average price for Chana decreased by 1.08 percent to Rs 4332 per qtl. Imported gram (old imported crop) price decreased by 0.68 percent to Rs 4183 per Qtl. Australian chana is being quoted at Rs4100-4150. Following graph illustrates the chana price movement in different markets:

Market Outlook: Chana may trade steady to slightly firm this week .

Peas (Matar):

Market Recap:

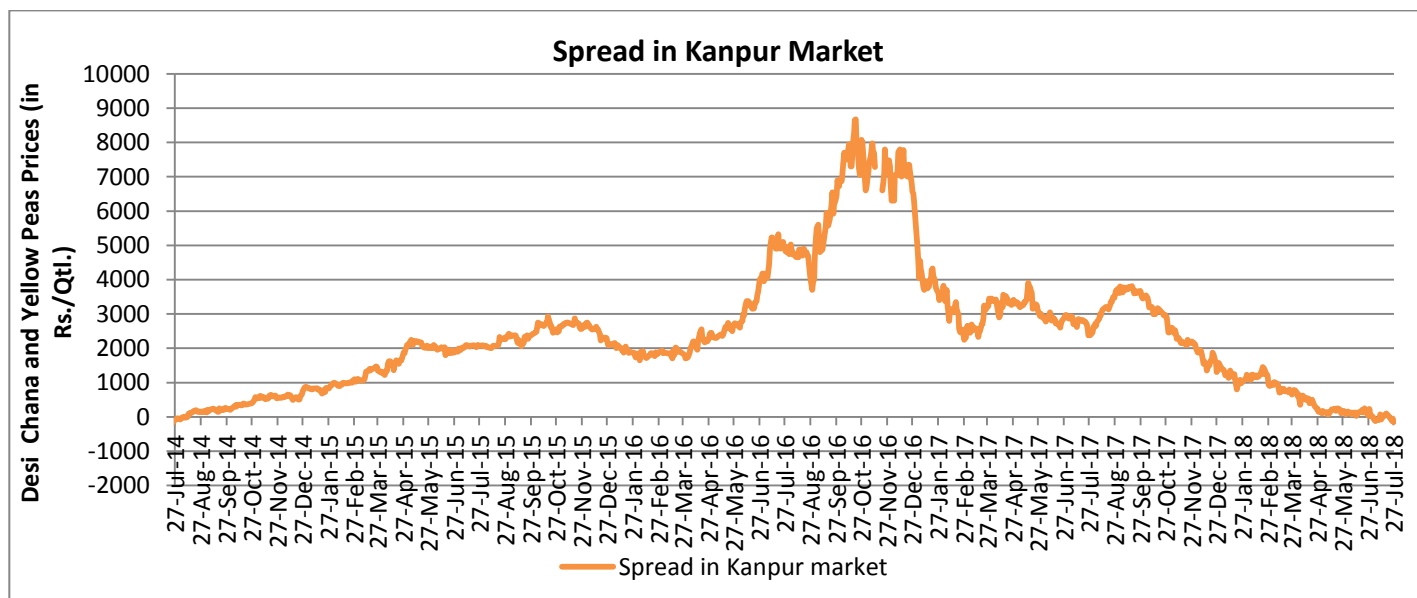

Availability of pea in domestic market is not enough to pressurize market amid good demand from retail sector. Till September, import is not possible. So pea market is likely to trade firm taking clue from firm chana market. There is good offtake from stock available at ports. Market sources say that there is 1.25 lakh tonne pea available at Mundra, Kandla, Hazira & Dahej ports. Besides, 0.75 lakh tonne at Tuticorin, Vizak, Kakinada, Kolkatta ports. In Kanpur there is 8,000 MT yeow pea and 35,000 MT desi pea stock is available. Even green pea stock is comparatively lower and it may move further up after slight correction. It is good to buy on dip. Peas from Ukraine is being offered at Rs4300 per qtl at Mumbai, Hazira and Mundra ports.

Current Market Dynamics & Outlook:

At Kanpur, Desi Peas traded up by 0.75 % at Rs 4575- due to good offtake from retailers/stockists. Canadian pea in Mumbai market traded up by 8.51 % to 4430 It may move further up despite good availability at port. Costly import and improving chana price would continue to support peas market. However, downward correction is expected this week. Stake holders should buy on dip. Green pea is being traded at RS6800-6900 per qtl. in Mumbai.

Spread With Chana:

Spread between Chana and Peas, at Kanpur market moved into negative zone now due to higher peas price this week. Spread is expected to move in the range of 100 to 200 per quintal in the coming weeks, on relative movement in Chana prices. Overall outlook seems steady to slightly firm. Buying on dip is good, as imported pea costing would be higher.

Market Outlook: Outlook remains steady to slightly firm.

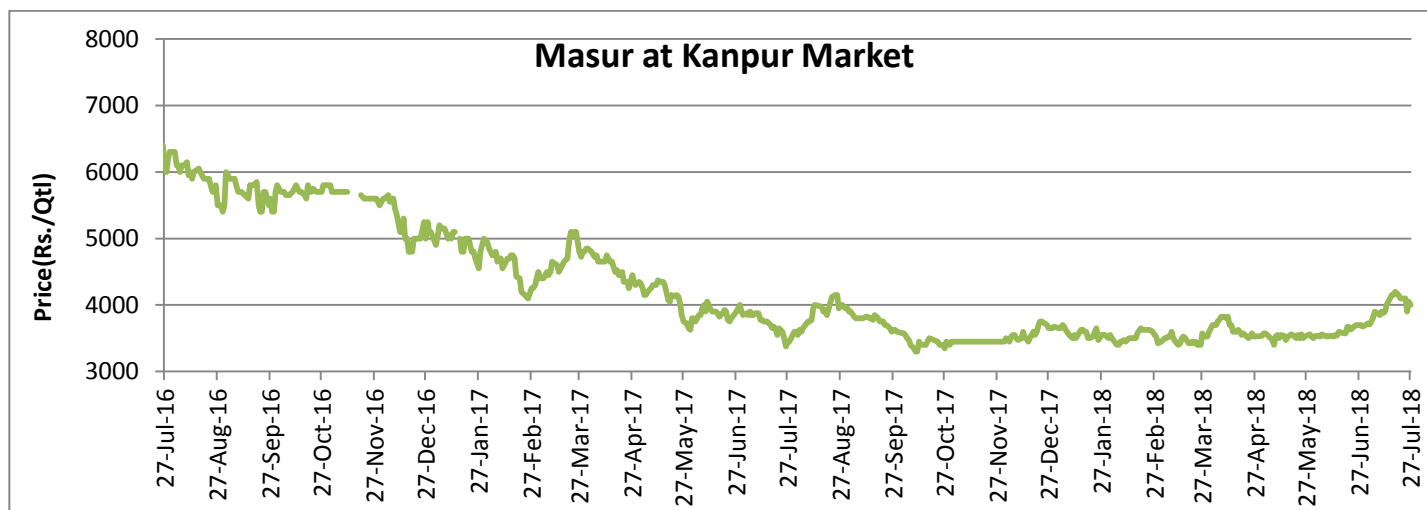

Lentils (Masoor):

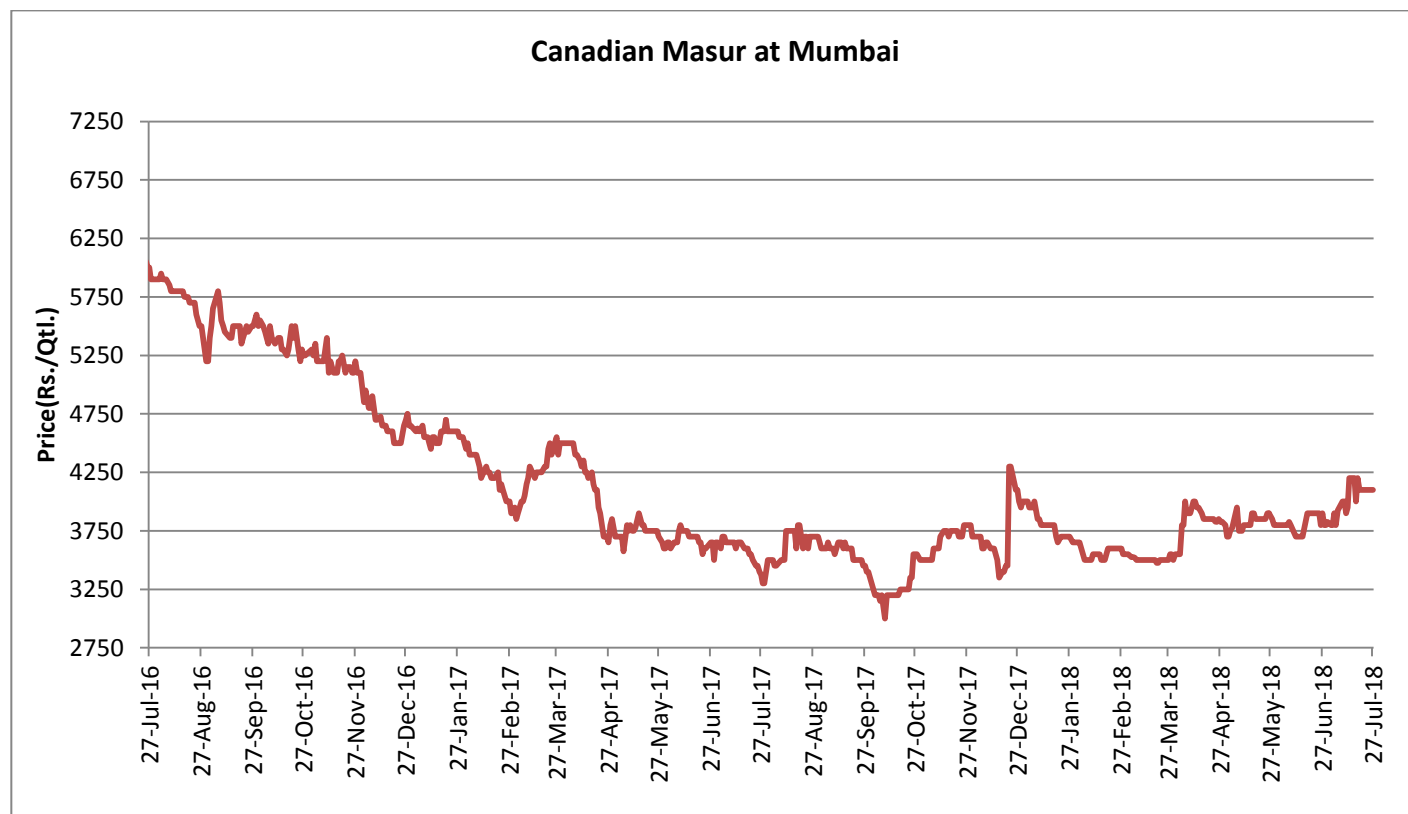

Market Recap:

Masur market traded down on slack demand from retailers and wholesalers. Kanpur market decreased by 3.24 % to Rs 4100. Slight correction might be seen at this level. However, overall tone remains firm and stake holders should buy on dip. Stockists too have retained stock in anticipation of higher price due to 30 % applicable duty. For American origin Lentil, it has been increased to 40 %. However, imported lentil in Mumbai and Kolkatta market decreased slightly as demand from retail ends has decreased. Demand is likely to increase. As govt is unwilling to sell masur from central pool stock right now, prices are expected to improve from current level. Buying on dip is good.

Current Scenario:

Weekly average price traded down by 3.24 % to Rs 4000 per qtl in Kanpur. Currently in Mumbai, it is being quoted at Rs 4100 per qtl, down by 3.75 %.. Steady to slightly weak tone may prevail this week too, as demand is yet to pick up.

Market Outlook: Prices are likely to notice steady to slightly weak tone this week.

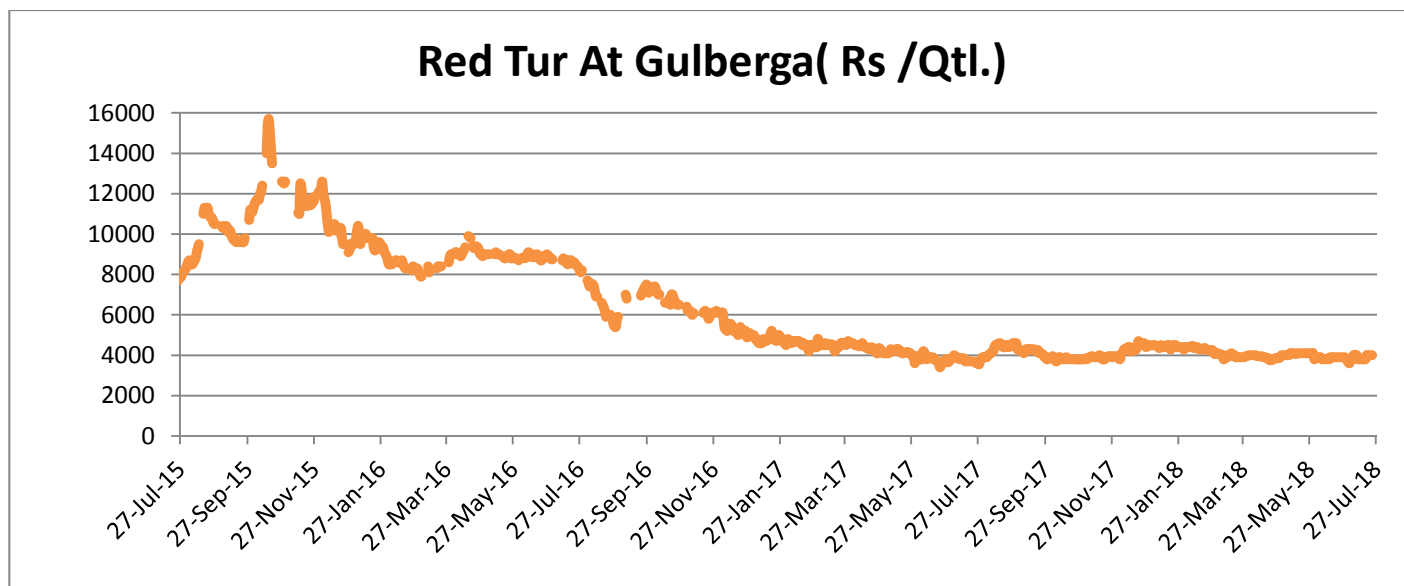

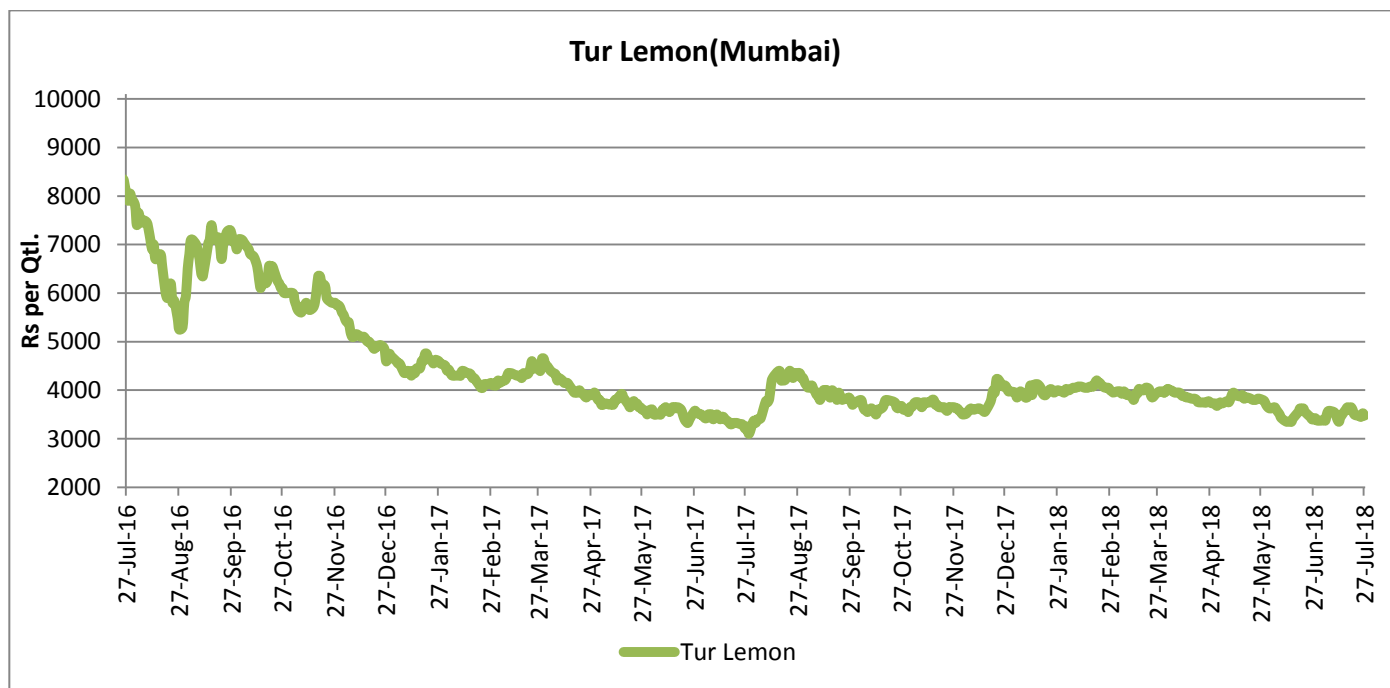

Pigeon Pea (Tur/Toor):

Market Recap:

Tur market is expected to improve from current level by Rs 100 to 200 per qtl in coming weeks. Higher MSP for new crop, lower all India area coverage by 15 to 20% and increasing intention of retaining stock by stockists amid slower pace of release from central pool stock are likely to support Tur market in weeks ahead. Stock in private hands is said to be decreased by 50 % from normal. It would continue to lend support to cash market. Maximum stock is in central pool and restricted release seems favorable for Tur market. Tur in Gulberga market stayed steady at Rs3850 -Rs4100 per qtl. It is good to buy after correction of Rs100-125 from current level..

Current Market Dynamics & Outlook:

Myanmar is offering lemon Tur (old) at \$390 per tonne and new Lemon Tur (Linkely) at \$400 per tonne basis Indian ports. Despite smart gains in prices at origin, there is import parity and import seems possible to the level of 3.5 lakh tonne in current MY. Govt may restrict selling through auction till Aug amid lower coverage may support cash market. Market should stabilize near 4200-4500 in the near to medium term. Stock in private hands has come down. Festive season commences and demand is likely to improve in coming weeks.

Market Outlook: Tur prices are likely to show steady to slightly firm movement this week as trading activities increased due to calling of transporters strike..

Black Matpe (Urad):

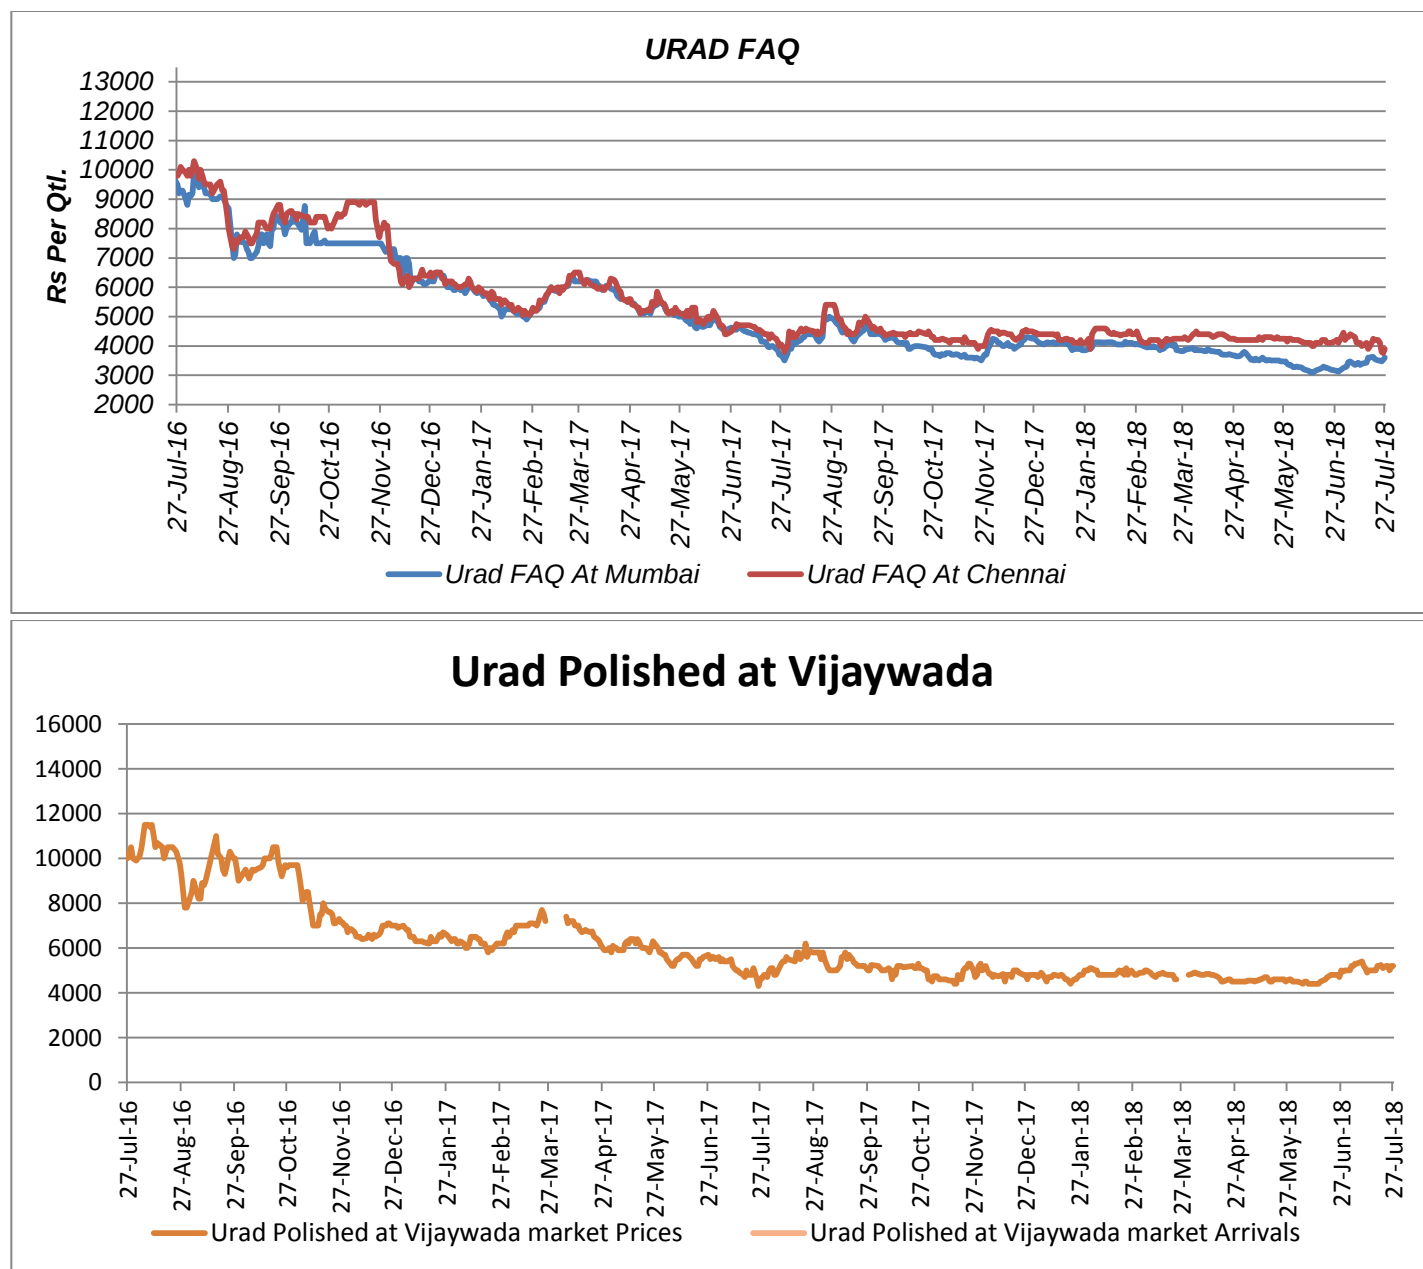

Urad market stayed steady to slightly weak last week due to transporters strike and traded down by Rs 100 to Rs 3850 -3900 per quintal in Chennai. As movement remained restricted, almost halted, demand was seen subdued. With strike coming to an end, normal trading activities are likely to resume and it may support price at lower level. Besides, lower kharif acreage, likely festive demand may remain supportive to cash market to a certain extent. Higher MSP may encourage farmers to grow more Urad in kharif season. FAQ Urad is expected to stabilize near Rs 4000/4400 per quintal. SQ may trade at Rs 5000-5500 in the near to medium term.

Myanmar is offering FAQ Urad at \$440 per tonne and SQ at \$560 per tonne basis against Indian (Chennai) prevailing price of \$635-45 per tonne. Imports to India are feasible at these prices and may occur soon as DGFT has allowed conditional import for the millers under allocated quota of 1.5 lakh tonne for current MY.

Current Market Dynamics & Outlook:

Urad FAQ at Mumbai (Rs.3600-3650/Qtl.) and Chennai (Rs.3900-4150 Qtl.) noticed steady tone. It traded steady in Vijaywada too. Steady to slightly firm movement might be seen in Urad market, due to good demand at higher level. The following graph shows the prices movement in different markets:-

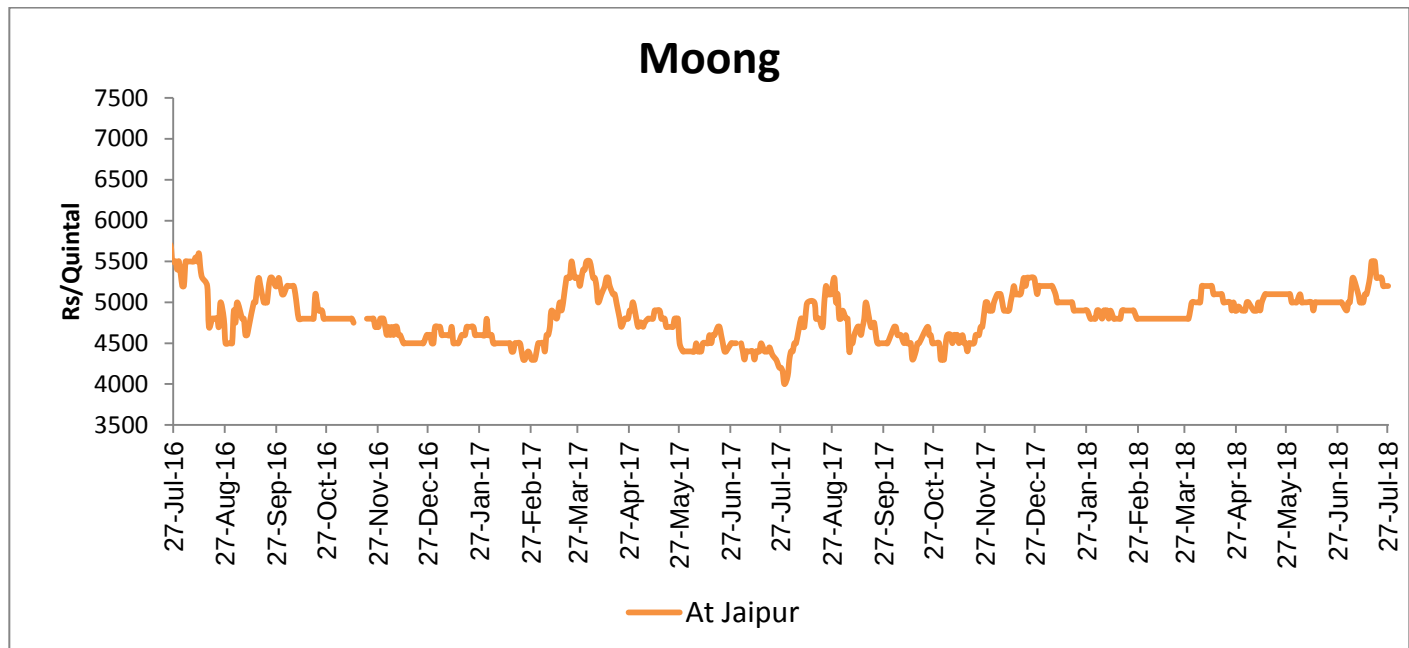

Market Outlook: Urad Prices are likely to show steady to slightly firm momentum this week too.

Green Gram (Moong):

Moong cash market traded almost steady to slightly weak in the range of Rs5000 to Rs5300 per qtl. Millers are buying limited quantity as there is plenty of stock in cash market and selling continues from central pool stock. Arrival of summer moong continues in MP, Rajasthan and Gujarat in lower volume. Area under kharif Moong is bound to increase and possibility of bumper crop seems on the card once again in Rajasthan, MP, and Maharashtra. Steady to slightly weak tone may be seen in Moong market due to higher area and ample availability of stock from last years crop.

Market Recap:

Market Outlook: Moong prices are likely to trade steady to slightly weak in the near term.
