Highlights-Domestic Market

- **All India kharif Pulses area is lagging behind by 3.91 % to 115.57 against 120.27 lakh ha** last year as on 03rd Aug 2018. Farmers have covered 39.89 lakh ha against 39.38 last year under Tur till date, up by 1.30 %. Normal area under Tur is 41.90 lakh ha. Even Urad area is lagging behind by 11.28 % to 32.51 against 36.65 lakh ha. Normal area of kharif Urad is 27 lakh ha. Moong area is running up by 2.53 % to 29.79 lakh ha against 29.05 lakh ha last year. Normal area under Moong is 24.93 lakh ha. Other pulses area too is lower by 14.03% than last year. It is 12.74 against 14.82 lakh ha so far against normal of 15.83 lakh ha. However, area under Kulthi has increased by 71.08 % to 0.63 lakh ha against normal of 2.27 lakh ha.
- **Nafed seems not in a hurry to sell chana immediately. Total stock in central pool under govt. custody** is said to be around 27.5 to 28 lakh tonne. Nafed may start selling chana from end Aug-Sep. As six months is left for consumption and stock in private hands is 50 to 60% lower than normal years, Nafed selling would not impact market much. Experts expect Nafed selling would start above MSP in restricted way. Arrival in Mandis has decreased to a negligible level and demand for dal is improving. It may remain supportive for Chana market in coming weeks. Govt may retain 10 lakh tonne chana for buffer. So 17 to 18 lakh tonne might be sold in next six months. So pressure is unlikely to be felt on cash market.
- **Cash Tur market traded slightly up after commencement of normal trading activities. Dall millers are active** as demand for dal started improving just ahead of festive season. Area under kharif Tur has improved slightly and is expected to remain at same level as was seen last year (42 lakh ha). Tur market is expected to improve from current level by Rs100 to 150 per quintal in coming weeks and Gulbarga market may move up to the level of Rs 4000-4200. Higher MSP for new crop may remain supportive. However, any major spike is unlikely in the near term as selling from central pool stock continues.
- **As expected by Agriwatch last week Urad market traded down by Rs 100 to Rs3900-4000 in Chennai market.** As demand for Urad dal is weak, any major recovery in market is unlikely in the near term. Range bound movement is expected this week. Pressure on market is unlikely to build up as central pool stock is coming down and it would cap downward trend. Lower kharif area may support urad price in the medium term. Higher MSP and restricted urad import may push up urad price in the medium term to a certain extent. FAQ Urad is expected to stabilize near Rs.3900/4300 per quintal. SQ may trade at Rs 5000-5500 in the near to medium term.
- **Moong market is likely to trade steady to slightly firm as private trades are unwilling to sell at this level** despite continuous selling from central pool stock at various centers. Stock in central pool is decreasing while demand for moong and moong dal is improving. Millers are active at higher level and it would support market at current level despite arrivals from summer crop. Besides, higher MSP may push market up from current level as market expects higher procurement from kharif crop at Rs 6975 per qtl. Jaipur market may trade in the range of Rs5000 to Rs 5400 per qtl. this week.
- **Myanmar offered lemon tur (new & old) at \$ 380 per tonne. Basis Indian port. Linkly too is being offered** at \$380 per tonne, down by \$10, urad FAQ was offered down by \$5 to \$310 and SQ at \$455 basis Indian port. Chana v2 Kabuli was offered at \$620 per tonne and Hollan at \$655 per tonne. Moong Pakaku was offered at \$680 per tonne.
- **Lentil market may trade steady to slightly weak this week. Domestic demand for dal may support** market to a certain extent. Uptrend in Masur market is unlikely to continue despite lower availability of imported stock in Kolkata and Mumbai. It would not allow market to go unexpectedly down. However, market should not ignore huge stock (243450.18MT) in central pool procured during the season. Other price limiting factor is lower price for Tur and it is directly affecting Masur dal consumers right now. Tur dal is still available at Rs55-60 per kg against 50 to 55 per kg for Masur. So consumers have option to shift from Masur to Tur. Govt. agencies have around 10 lakh tonne Tur stock and they would start liquidating it before Nov when new crop hits the market. It would pressurize lentil price in the months ahead.
- **Pea market is likely to trade firm as there is good demand in market while stock is not enough to** create any pressure on market. Import is not possible till Sept. So there is a possibility of supply-demand mismatch. It would push pea price further up in cash market. Chana and besan market too remains supportive for peas market. Stockists are active. Further firmness would depend on govt.'s decision on import in Sept.

- **India imported total 484248MT pulses from March to June-2018.** Out of total Chickpea import was registered at 14742.3MT, Tur 45963.6MT, Greenpeas 28361.3MT, Lentil 19544.5MT, Black Mapte 18330.7MT, Moong 8464.04MT, yellow pea 318726MT, Kidneybean 33715.9MT. Chickpea import increased by 141.21% to 3054.22 MT from May-2018. However, Tur import decreased by 36.72% to 11910.1 MT in June. Green Peas import increased by 22.45 % to 8524.17 MT, lentil import increased by 598.87% to 19544.5 MT in June. Even Urad import increased by 112.39% to 7736.39MT. Moong import decreased by 3.52% to 799.85MT during the same period.

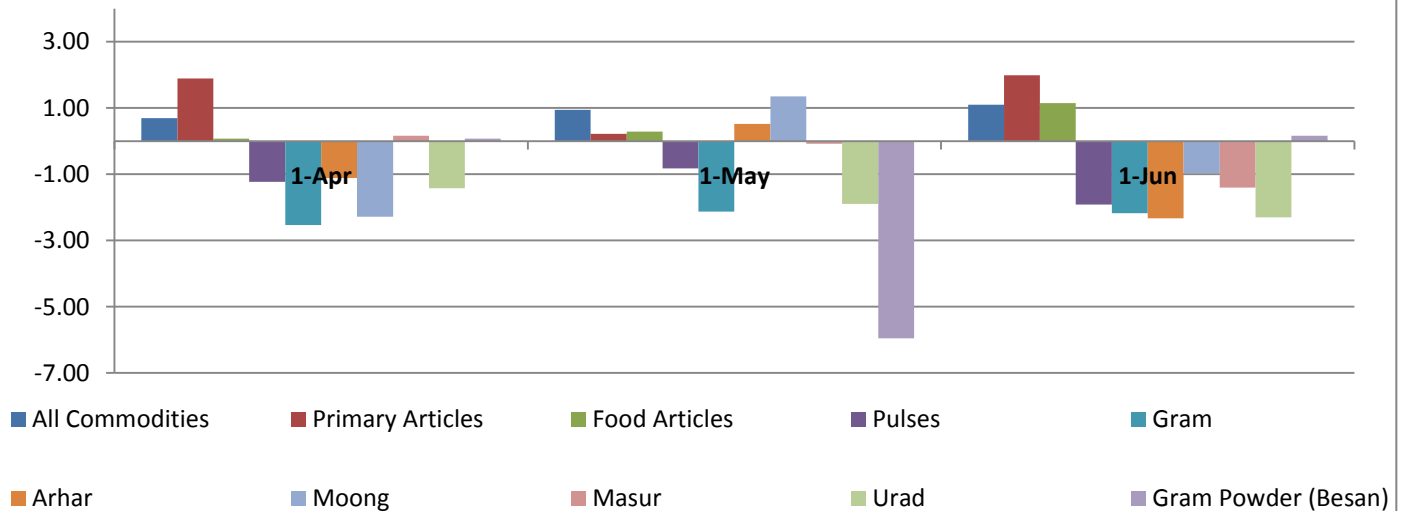

International Market:

- **Lentil Production in Turkey has been pegged down by 12% to 3.8 lakh tonne from last year.** The reason of lower production is mainly attributed to bad weather condition in parts of south eastern region. Harvesting is over by first week of July. In some particular region farmers have lost 50 % yield due to heavy rains and water lodging. However chickpeas area increased due to govt.'s support and higher return in 2018. The major chickpeas producing regions are Central Anatolia and somewhat in the Southeastern region. This year chickpeas production has been pegged at 5.5 lakh tonne, up by 15 % from last year. The GOT announced the MY 2018/19 chickpeas procurement price on June 25, 2018 at 3,250 TL/MT (around \$700/MT).
- **The Canadian Grain Commission latest update shows that Canada has 29,800 metric tons lentils** through licensed facilities in June against 68,600 MT were shipped the same month last year, while movement is up from the 19,600 MT shipped the previous month. Thus total export for the current marketing year touched to 284,600 MT against 853,100 MT during the same period last season.
- **Masur Crop condition in Canada is said to be good so far.** the latest update shows that 55% Masur crop is in good condition while 28% is in fair condition and 9% is said to be in bad condition. Harvesting of masur early sown crop may start from 2nd week of August. Canada has huge old stock of Masur (around 18-20 lakh tonne) and India being out of market, Canadian exporters may seek other buyers to consume its surplus stock. It may pressurize global masur market to some extent in coming week.
- **As per the latest market update production of Chickpeas in Australia may be around 3.09 lakh tonne.** Queensland production has been pegged at 2.17 lakh tonne. Field Pea production may touch 3.01 lakh tonne, Lentil production has been pegged at 3.47 lakh tonne. total pulses production including Lupins and Faba beans has been pegged at 1713 lakh tonne. It is 72% lower in case of chickpeas, 9% up in case of peas, 26% down in case of lentils when compared to 2017.
- **Global peas market traded under pressure before likely commencement of harvesting in northern hemisphere.** Major buyers like India & Pakistan are out of market right now and others are waiting for new crop pressure to build up. However, trading activities are seen in feed grade peas. Exporters in Canada have enough stock to cater the incoming demand in the weeks ahead. After harvesting pressure coming to an end, stockists/exporters may be active once again, that may help prices to recover from mid August.
- **Canada lentil area is said to be lower than intended by one million acres to 3.77 MMT.** Agri experts expected it to be 4.05 million acres. Actually, at the time of sowing prices remained subdued and it impacted farmers to reduce area from 4.05 to 3.37 million ha. Canada had planted 4.4 million acres in 2018. Under current prevailing condition production would be only slip from last year's 2.559 million metric ton (MT) harvest to 2.495 million this year.
- **Chickpeas area in Canada & US has been registered higher than previous intention.** US farmers have planted 6.62 lakh acres against intention of 6.65 lakh acres. Farmers have covered 2.05 lakh acres under small chickpeas while Kabuli area increased from 3.46 to 4.57 lakh acres this year. Chickpeas area in Canada increased from 3.46 to 4.68 lakh acres. Unofficial Statistics Canada data suggests Canada planted 13,8000 acres of desi, 445,900 acres of kabuli and 9,200 acres of other types such as B-90.
- **Chickpeas area in Canada is likely to increase considerably from 1.6 lakh acres to 2.79 lakh acres in 2018.**

Weekly Outlook: -Pulses are likely to trade steady to slightly firm this week.

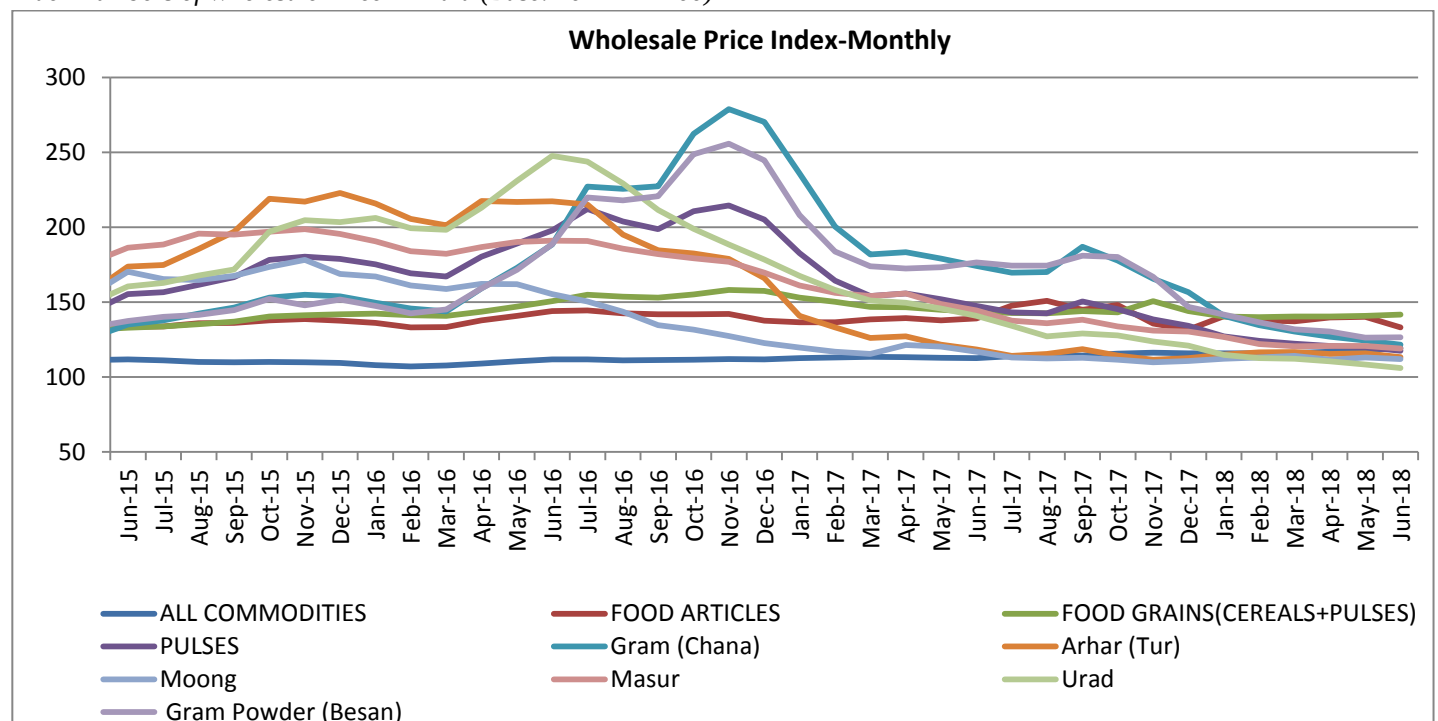

Monthly Wholesale Price Index:

Annual Rate Of Inflation Based On Monthly WPI

Annual Rate Of Inflation:

Index Numbers of Wholesale Price in India (Base: 2011-12=100)

Pulses WPI decreased by 2.3 point from 119.8 in May to 117.5 in Jun-2018.

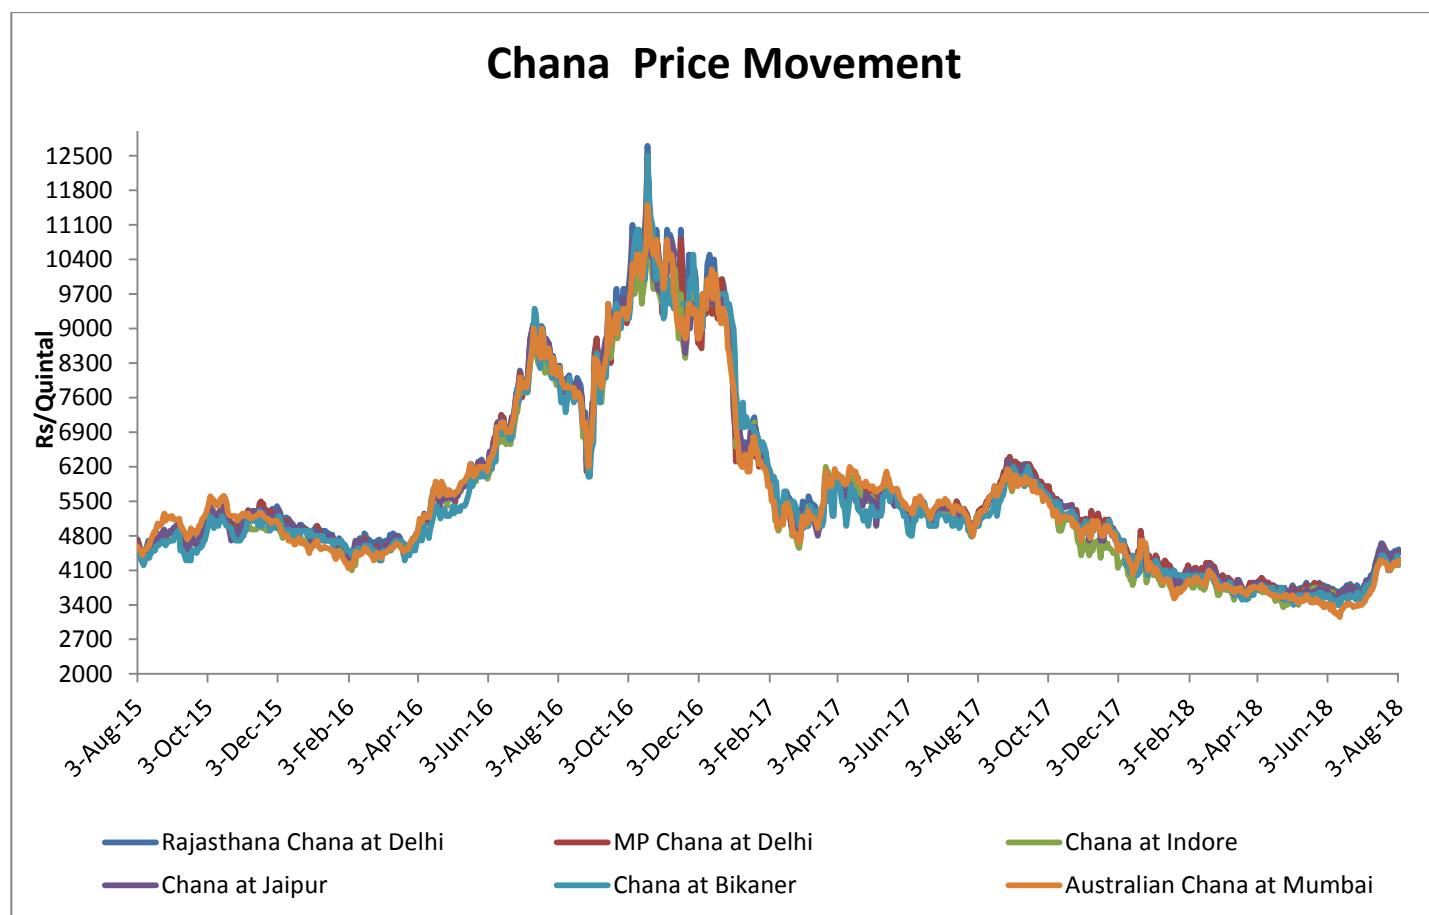

Pulses-Wise Scenario:

Chana

Current Scenario:

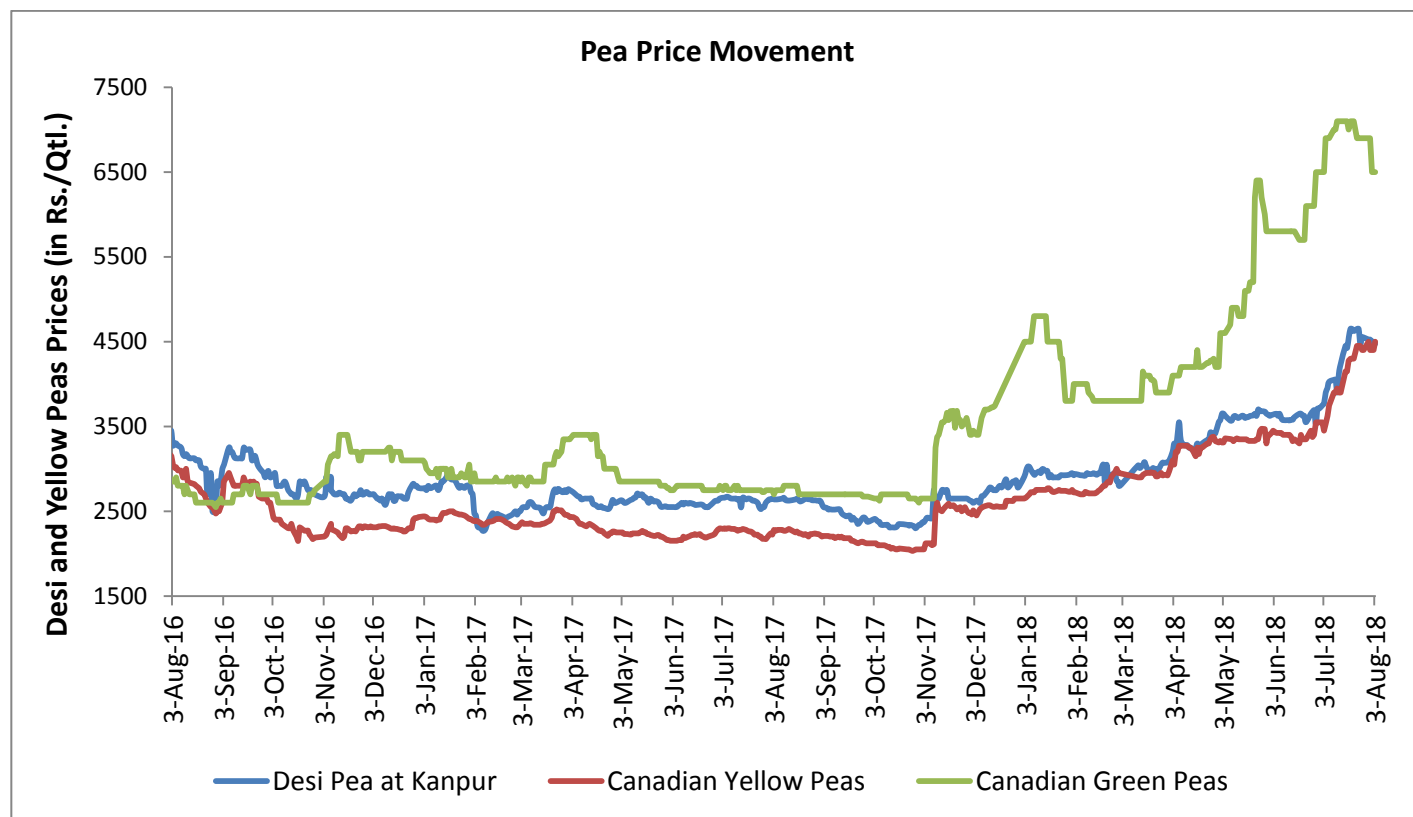

Nafed seems not in a hurry to sell chana immediately. Total stock in central pool under govt. custody is said to be around 27.5 to 28 lakh tonne. Nafed may start selling chana from end Aug-Sep. As six months is left for consumption and stock in private hands is 50 to 60% lower than normal years, Nafed selling would not impact market much. Experts expect Nafed selling would start above MSP in restricted way. Arrival in Mandis has decreased to a negligible level and demand for dal is improving. It may remain supportive for Chana market in coming weeks. Govt may retain 10 lakh tonne chana for buffer. So 17 to 18 lakh tonne might be sold in next six months. So pressure is unlikely to be felt on cash market.

All India average price for Chana increased by 1.18 percent to Rs 4384 per qtl. Imported gram (old imported crop) price increased by 1.60 percent to Rs 4250 per Qtl. Australian chana is being quoted at Rs4250-4300. Following graph illustrates the chana price movement in different markets:

Market Outlook: Chana may trade steady to slightly firm this week too.

Peas (Matar):

Market Recap:

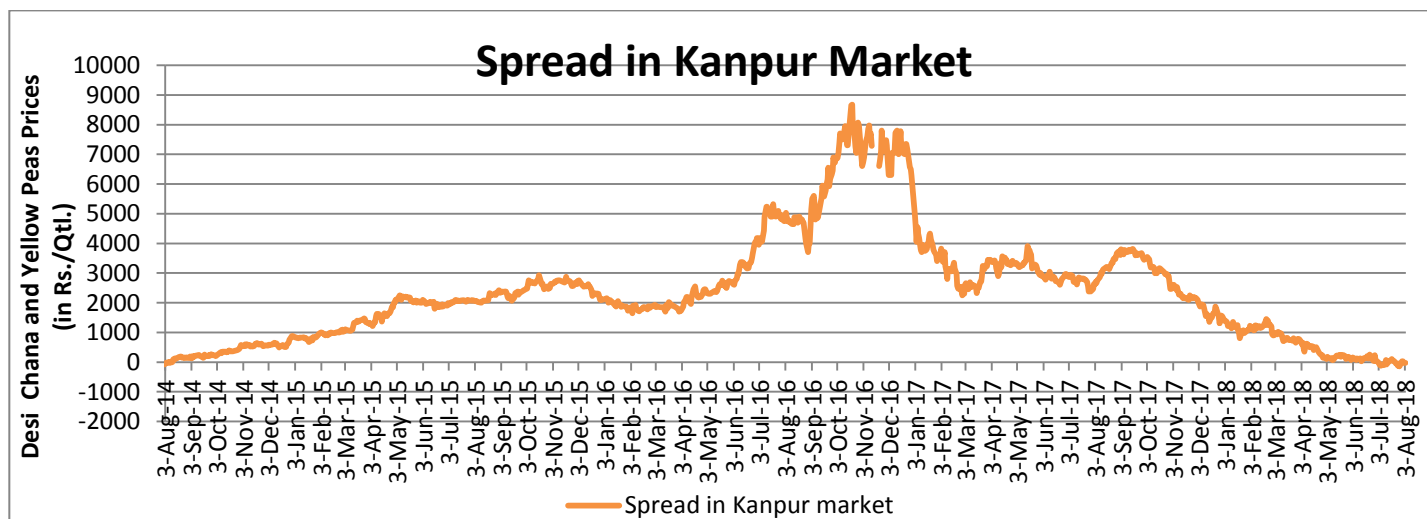

Availability of pea in domestic market is not enough to pressurize market amid good demand from retail sector. Till September, import is not possible. So pea market is likely to trade firm taking clue from firm chana market. There is good offtake from stock available at ports. Market sources say that there is 1.25 lakh tonne pea available at Mundra, Kandla, Hazira & Dahej ports. Besides, 0.75 lakh tonne at Tuticorin, Vizak, Kakinada, Kolkatta ports. In Kanpur there is 8,000 MT yeow pea and 35,000 MT desi pea stock is available. Even green pea stock is comparatively lower and it may move further up after slight correction. It is good to buy on dip. Peas from Ukraine is being offered at Rs4300 per qtl at Mumbai, Hazira and Mundra ports.

Current Market Dynamics & Outlook:

At Kanpur, Desi Peas traded down by 0.64 % at Rs 4505- due to poor offtake from retailers/stockists. Canadian pea in Mumbai market traded up by 0.11 % to 4440. However, it may move up despite firm chana price at port. Costly import and improving chana price would continue to support peas market. However, downward correction is expected this week. Stake holders should buy on dip. Green pea is being traded at Rs6800-6900 per qtl. in Mumbai.

Spread With Chana:

Spread between Chana and Peas, at Kanpur market moved into negative zone now due to higher peas price this week. Spread is expected to move in the range of 100 to 200 per quintal in the coming weeks, on relative movement in Chana prices. Overall outlook seems steady to slightly firm. Buying on dip is good, as imported pea costing would be higher.

Market Outlook: Outlook remains steady to slightly firm.

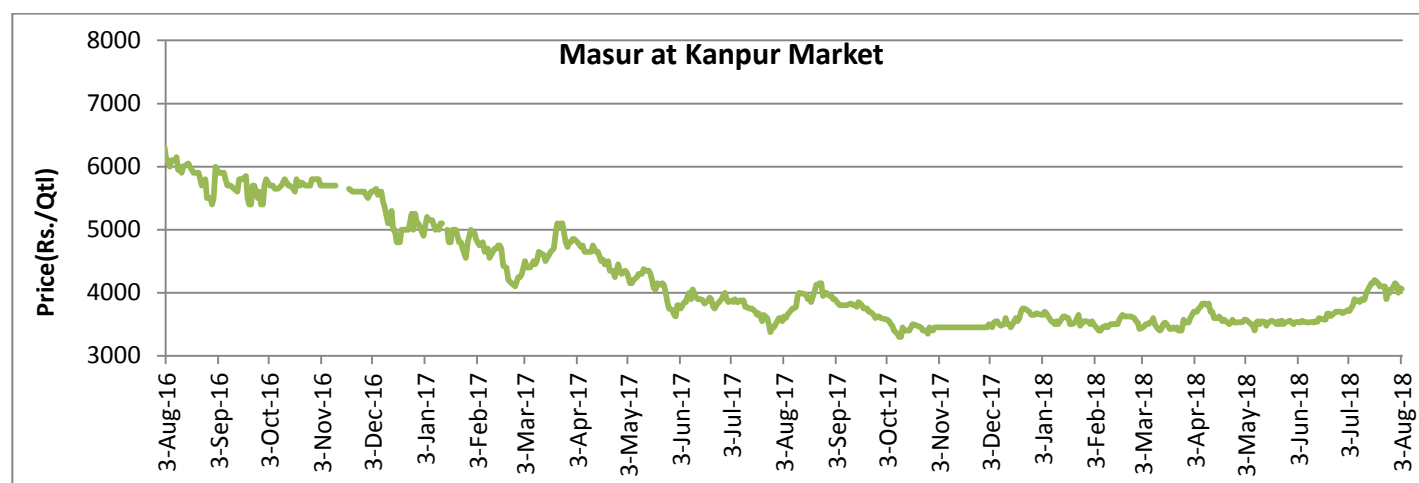

Lentils (Masoor):

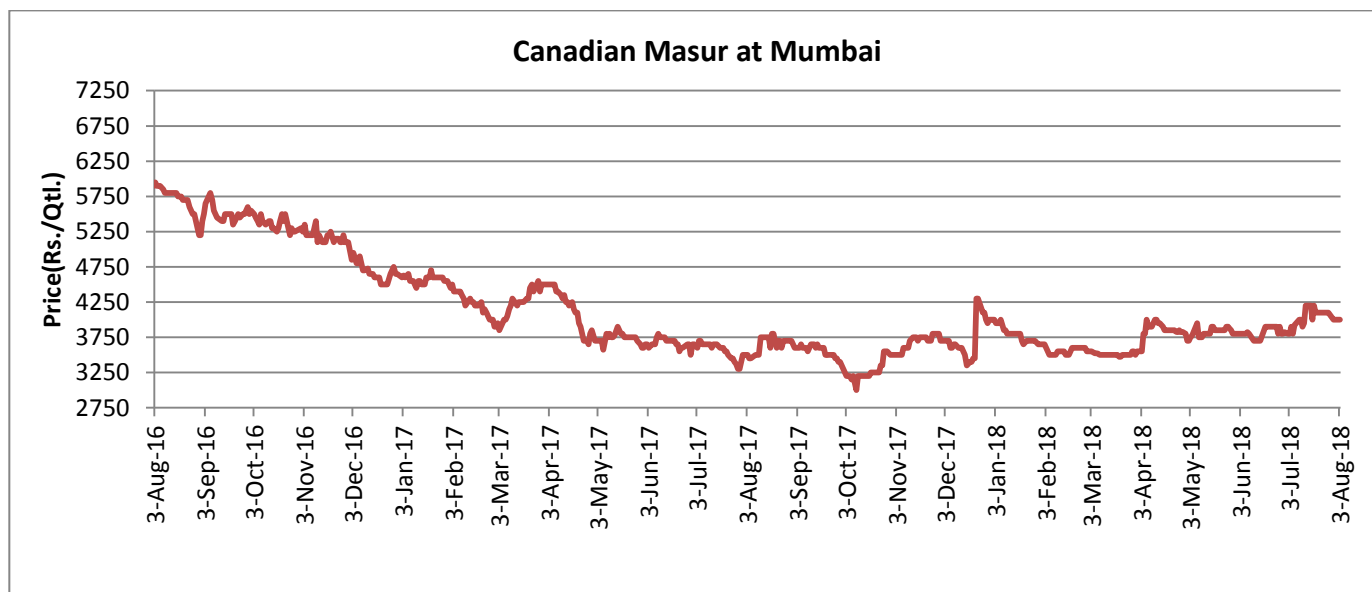

Market Recap:

Lentil market may trade steady to slightly weak this week. Domestic demand for dal may support market to a certain extent. Uptrend in Masur market is unlikely to continue despite lower availability of imported stock in Kolkata and Mumbai. It would not allow market to go unexpectedly down. However, market should not ignore huge stock (243450.18MT) in central pool procured during the season. Other price limiting factor is lower price for Tur and it is directly affecting Masur dal consumers right now. Tur dal is still available at Rs55-60 per kg against 50 to 55 per kg for Masur. So consumers have option to shift from Masur to Tur. Govt. agencies have around 10 lakh tonne Tur stock and they would start liquidating it before Nov when new crop hits the market. It would pressurize lentil price in the months ahead.

Current Scenario:

Weekly average price traded down by 1.29 % to Rs 4082 per qtl in Kanpur. Currently in Mumbai, it is being quoted at Rs 4000 per qtl, down by 2.43 %.. Steady to slightly weak tone may prevail this week too, as demand is yet to pick up.

Market Outlook: Prices are likely to notice steady to slightly weak tone this week.

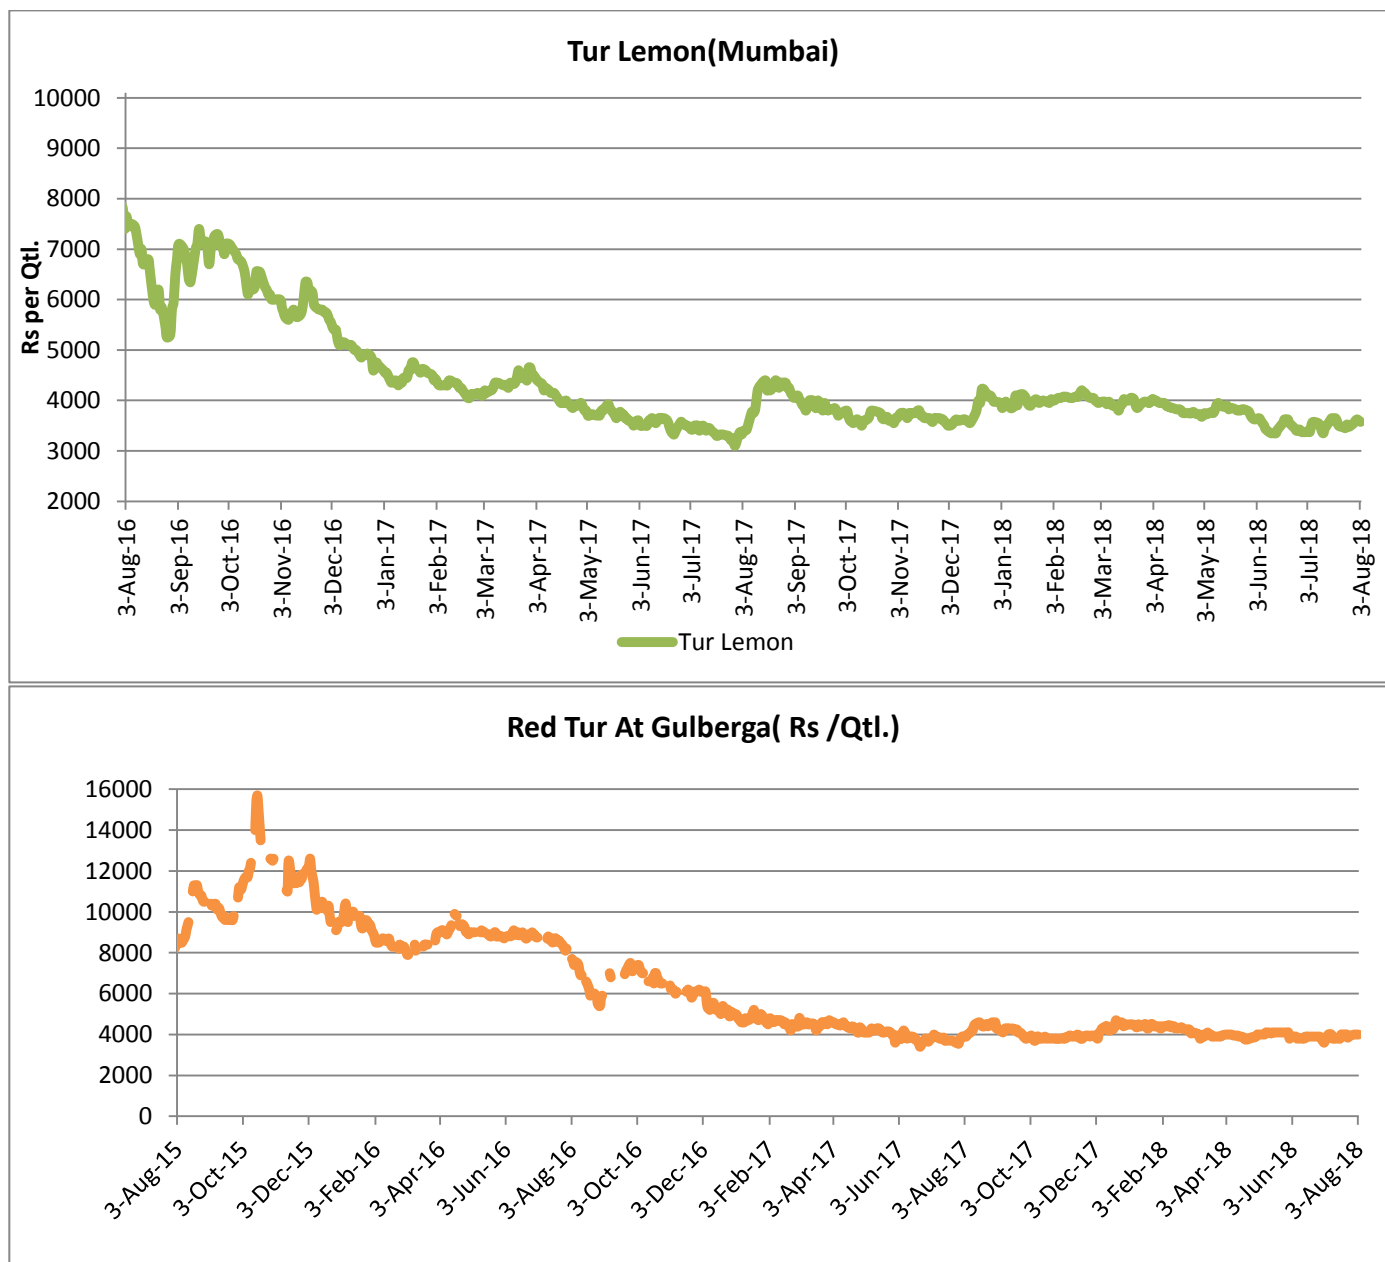

Pigeon Pea (Tur/Toor):

Market Recap:

Tur market is expected to improve from current level by Rs 100 to 200 per qtl in coming weeks. Higher MSP for new crop, lower all India area coverage by 15 to 20% and increasing intention of retaining stock by stockists amid slower pace of release from central pool stock are likely to support Tur market in weeks ahead. Stock in private hands is said to be decreased by 50 % from normal. It would continue to lend support to cash market. Maximum stock is in central pool and restricted release seems favorable for Tur market. Tur in Gulberga market stayed steady at Rs3850 -Rs4100 per qtl. It is good to buy after correction of Rs100-125 from current level..

Current Market Dynamics & Outlook:

Myanmar is offering lemon Tur (old) at \$380 per tonne and new Lemon Tur (Linkely) at \$390 per tonne basis Indian ports. Despite smart gains in prices at origin, there is import parity and import seems possible to the level of 3.5 lakh tonne in current MY. Govt may restrict selling through auction till Aug amid lower coverage may support cash market. Market should stabilize near 4200-4500 in the near to medium term. Stock in private hands has come down. Festive season commences and demand is likely to improve in coming weeks.

Market Outlook: Tur prices are likely to show steady to slightly firm movement this week as trading activities increased due to calling of transporters strike.

Black Matpe (Urad):

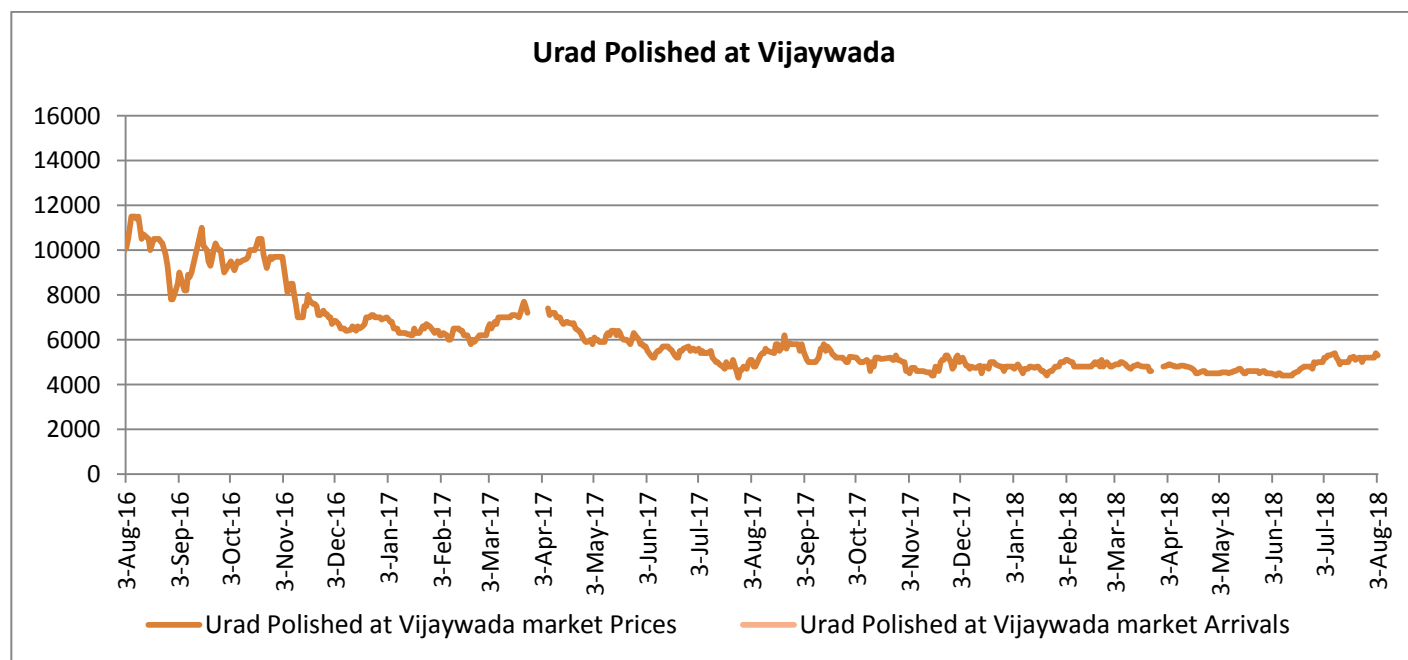

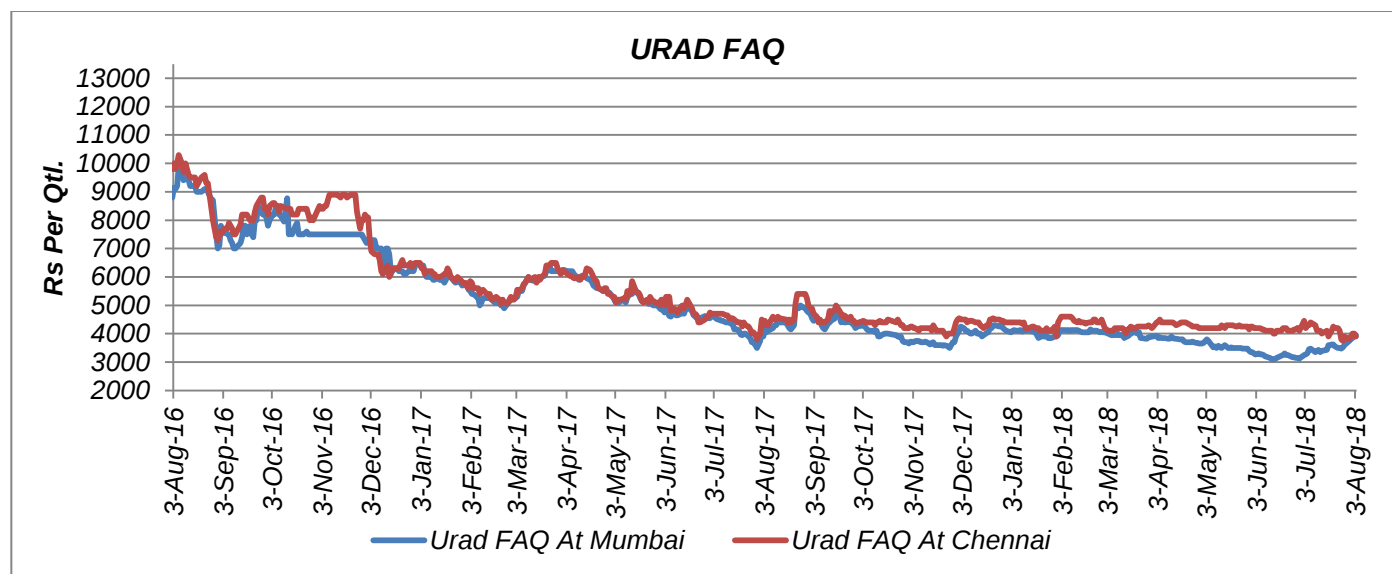

Urad market stayed steady to slightly weak due to transporters strike and traded down by Rs 100 to Rs 3850 -3900 per quintal in Chennai. As movement remained restricted, almost halted, demand was seen subdued. With strike coming to an end, normal trading activities are likely to resume and it may support price at a lower level. Besides, lower kharif acreage, likely festive demand may remain supportive to cash market to a certain extent. Higher MSP may encourage farmers to grow more Urad in kharif season. FAQ Urad is expected to stabilize near Rs 4000/4400 per quintal. SQ may trade at Rs 5000-5500 in the near to medium term.

Myanmar is offering FAQ Urad at \$315 per tonne and SQ at \$465 per tonne basis against Indian (Chennai) prevailing price of \$635-45 per tonne. Imports to India are feasible at these prices and may occur soon as DGFT has allowed conditional import for the millers under allocated quota of 1.5 lakh tonne for current MY.

Current Market Dynamics & Outlook:

Urad FAQ at Mumbai (Rs.3600-3650 per Qtl.) and Chennai (Rs.3900-4150 Qtl.) noticed steady tone. It traded steady in Vijaywada too. Range bound movement might be seen in Urad market, due to weak demand at higher level. The following graph shows the prices movement in different markets:-

Market Outlook: Urad Prices are likely to show steady momentum this week .

**All Pulses Progressive Kharif Sowing- Aug2018:**
