**Commodity-wise Domestic, International Prices and Arrivals at Different Centers****Highlights-Domestic Market:**

- **Gossips are circulating into market that Indian exporters have exported around 300 containers chana** for Saudi Arab and more deals are under process in last for months. It is Australian chana imported in 2017. Besides, Bangladesh has brought round 8000-10000 MT Indian chana from Maharashtra. As demand for chana and chana dal is likely to increase in festive months, prices are expected to move up from current level.
- **Other bullish factor like fear of lower rainfall in some major producing states may affect chana sowing in Oct-Nov.** Govt may maintain buffer stock of 1MMT this year as Australian crop is expected to be lower than 3.5 lakh tonne due to severe drought. This means supply from central pool through state govt. would not impact prevailing market sentiment much. Around 17 lakh tonne out of 27 lakh tonne would be distributed in next six months for midday meal and PDS .Import is not possible and export opportunity is increasing. All these developments remain supportive to chana cash market. It is expected to move up.
- **New arrival from kharif moong has started increasing in Karnataka and it has pressurized market** once again. Cash moong market may dip by Rs200 from current level. Procurement of new MSP Rs6975) announced for Kharif crop is yet to begin. In cash market moong is being traded at Rs 5100 to 5650 per qtl. Farmers in Karnataka have demanded to procure moong on MSP as soon as possible.
- **Lack of fresh demand and continued auction from state agencies have capped cash tur market this week** despite higher MSP(Rs 5675).Area under Tur is almost same as last year .However ,lower rainfall in major growing region may impact normal yield and resultantly final crop size too. Market is still awaiting demand to pick up as it improves in Sep/Oct due to festive months.
- **Area under Urad is lagging behind by 12% so far to 34.93 lakh ha against 39.69 lakh ha last year.** As sowing season is at final stage, no major change in area is expected now. Lower rainfall too may impact final size of the crop this season. Higher MSP, likely lower production size ,import limit and expected festive demand may support urad market in coming weeks. Commencement of buying expected by the end of this month may push Urad price up by Rs 250 to Rs 400 from current level.
- **The latest sowing fig is awaited.All India kharif Pulses area is lagging behind by 2.92 % to 124.15 against 127.89 lakh ha** last year as on 10<sup>th</sup> Aug 2018.Farmers have covered 42.17 lakh ha against 42.24last year under Tur till date, down by 0.17 %. Normal area under Tur is 41.90 lakh ha. Even Urad area is lagging behind by 11.99 % to 34.93 against 39.69 lakh ha. Normal area of kharif Urad is 27 lakh ha. Moong area is running up by 6.11 % to 32.13 lakh ha against 30.28 lakh ha last year. Normal area under Moong is 24.93 lakh ha. Other pulses area too is lower by 6.68 % than last year .It is 14.26 against 15.28 lakh ha so far against normal of 15.83 lakh ha. However, area under Kulthi has increased by 67.51 % to 0.66 lakh ha against normal of 2.27 lakh ha
- **Mayanmar offered lemon tur (new & old) at \$ 380 per tonne. Basis Indian port. Linkly too is being offered** at \$380 per tonne, down by \$10 ,urad FAQ was offered down by \$5 to \$310 and SQ at \$455 basis Indian port.Chana v2 Kabuli was offered at \$620 per tonne and Hollan at \$655 per tonne.Moong Pakaku was offered at \$680 per tonne.
- **Lentil market may trade steady to slightly weak this week. Domestic demand for dal may support** market to a certain extent. Uptrend in Masur market is unlikely to continue despite lower availability of imported stock in Kolkata and Mumbai. It would not allow market to go unexpectedly down. However, market should not ignore huge stock (243450.18MT)in central pool procured during the season. Other price limiting factor is lower price for Tur and it is directly affecting Masur dal consumers right now. Tur dal is still available at Rs55-60 per kg against 50 to 55 per kg for Masur. So consumers have option to shift from Masur to Tur. Govt. agencies have around 10 lakh tonne Tur stock and they would start liquidating it before Nov when new crop hits the market. It would pressurize lentil price in the months ahead.
- **Pea market may trade firm as stock at ports and in domestic market is decreasing fast now.Import volume this year has been comparatively much lower with higher import duty.As chana prices are likely to move up, pea too may trade firm in coming weeks.Desi pea in Kanpur market traded at Rs4500-4550,while Canadian pea is being offered at Rs4350 per qtl.Demand for pea is likely to improve with commencement of festive season.**

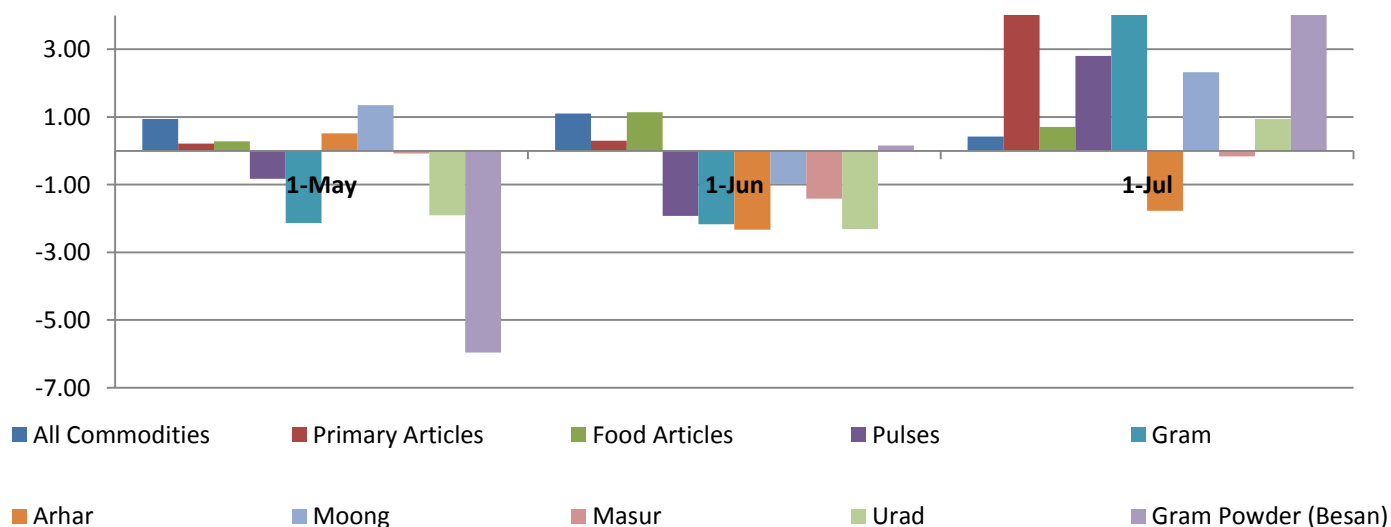

### International Market:

- **Canadian Desi Chickpeas markets finished the 2017-18 marketing year with prices falling 21% below** the recent three year average annual price on inter-dealer markets in that country. Analysis of the monthly price pattern reveals the highest monthly average was \$915.00 per MT in September, while the lowest monthly average trading level was \$512.50 per MT in April. During the latest three year period, the highest monthly average trading level was \$870.83 per MT in June, compared to the lowest monthly average of \$777.50 per MT in February.
- **Markets for medium and small caliber kabuli chickpeas came under intense pressure during the** past week as markets expected a bearish USDA crop report. Production in the United States was expected to set a record, but markets were surprised to see that output will likely exceed pinto beans for the first time in U.S. history. In its latest crop report, the USDA boosted estimated land in chickpeas from an initial estimate of 662,300 acres to 822,000, well above last year's 623,800. The USDA reckons farmers planted 211,200 acres of small chickpeas, up from 179,500 last year; and 608,500 acres of large, compared to last year's 439,300 acres.
- **As per the latest market update production of Chickpeas in Australia may be around 3.09 lakh tonne.** Queensland production has been pegged at 2.17 lakh tonne. Field Pea production may touch 3.01 lakh tonne, Lentil production has been pegged at 3.47 lakh tonne. total pulses production including Lupins and Faba beans has been pegged at 1713 lakh tonne. It is 72% lower in case of chickpeas, 9% up in case of peas, 26% down in case of lentils when compared to 2017.
- **Lentil markets traded slightly down from previous week as harvests are on in both the United States and** Canada. Pressure is likely to on in August as farmers seem to sell 50 % of their crop as soon as soon as possible. Markets were not helped by rising tensions between the United States and Turkey. Fears that will devolve into another trade war had a negative impact on the value of the Turkish lira.
- **The Canadian Grain Commission latest update shows that Canada has 29,800 metric tons** lentils through licensed facilities in June against 68,600 MT were shipped the same month last year, while movement is up from the 19,600 MT shipped the previous month. Thus total export for the current marketing year touched to 284,600 MT against 853,100 MT during the same period last season.
- **Masur Crop condition in Canada is said to be good so far. the latest update shows that 55% Masur** crop is in good condition while 28% is in fair condition and 9% is said to be in bad condition. Harvesting of masur early sown crop may start from 2nd week of August. Canada has huge old stock of Masur (around 18-20 lakh tonne) and India being out of market, Canadian exporters may seek other buyers to consume its surplus stock. It may pressurize global masur market to some extent in coming week.
- **Global peas market traded under pressure before likely commencement of harvesting in northern** hemisphere. Major buyers like India & Pakistan are out of market right now and others are waiting for new crop pressure to build up. However, trading activities are seen in feed grade peas. Exporters in Canada have enough stock to cater the incoming demand in the weeks ahead. After harvestimng pressure coming to an end, stockists/exporters may be active once again, that may help prices to recover from mid August.
- **Canada lentil area is said to be lower than intended by one million acres to 3.77 MMT.** Agri experts expected it to be 4.05 million acres. Actually, at the time of sowing prices remained subdued and it impacted farmers to reduce area from 4.05 to 3.37 million ha. Canada had planted 4.4 million acres in 2018. Under current prevailing condition production would be only slip from last year's 2.559 million metric ton (MT) harvest to 2.495 million this year.

**Weekly Outlook:** -Pulses are likely to trade steady to slightly firm this week.

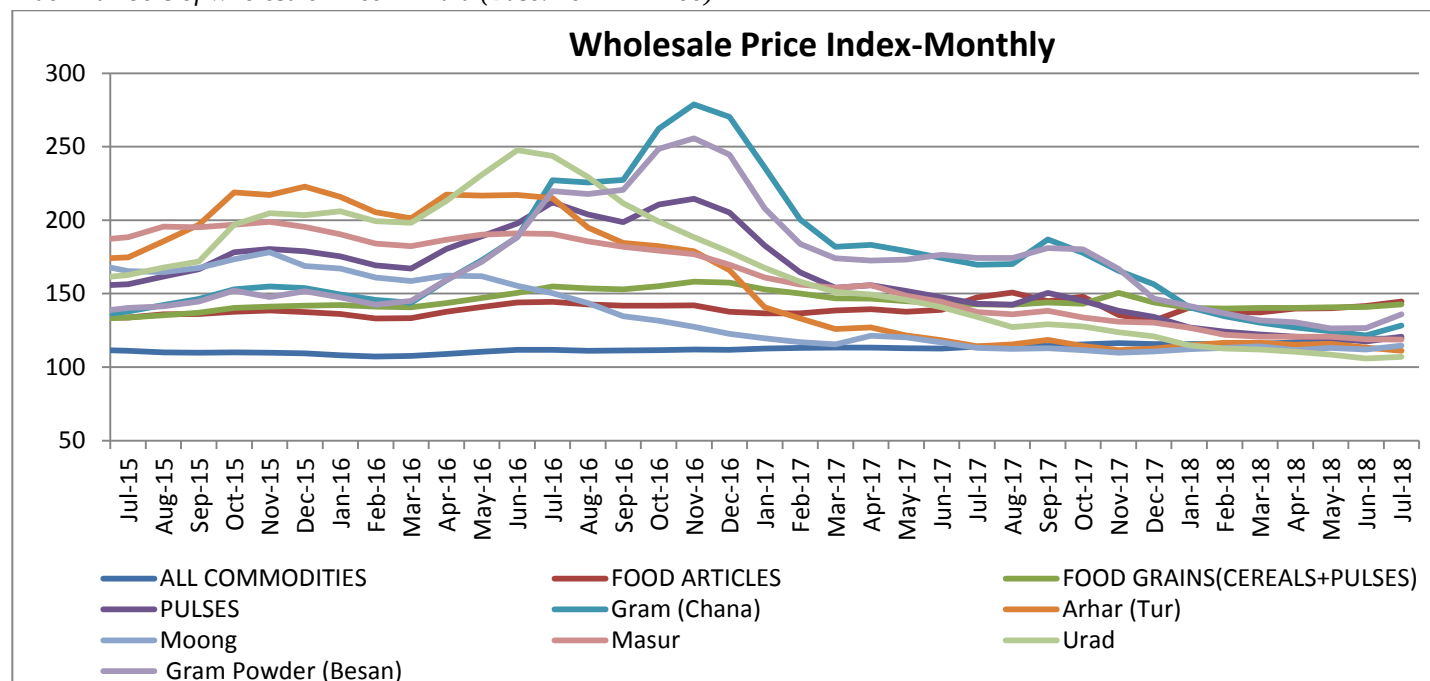

### Monthly Wholesale Price Index:

### Annual Rate Of Inflation Based On Monthly WPI

### Annual Rate Of Inflation:

Index Numbers of Wholesale Price in India (Base: 2011-12=100)

Pulses WPI increased by 3.3 point from 117.5 in Jun to 120.8 in Jul-2018.

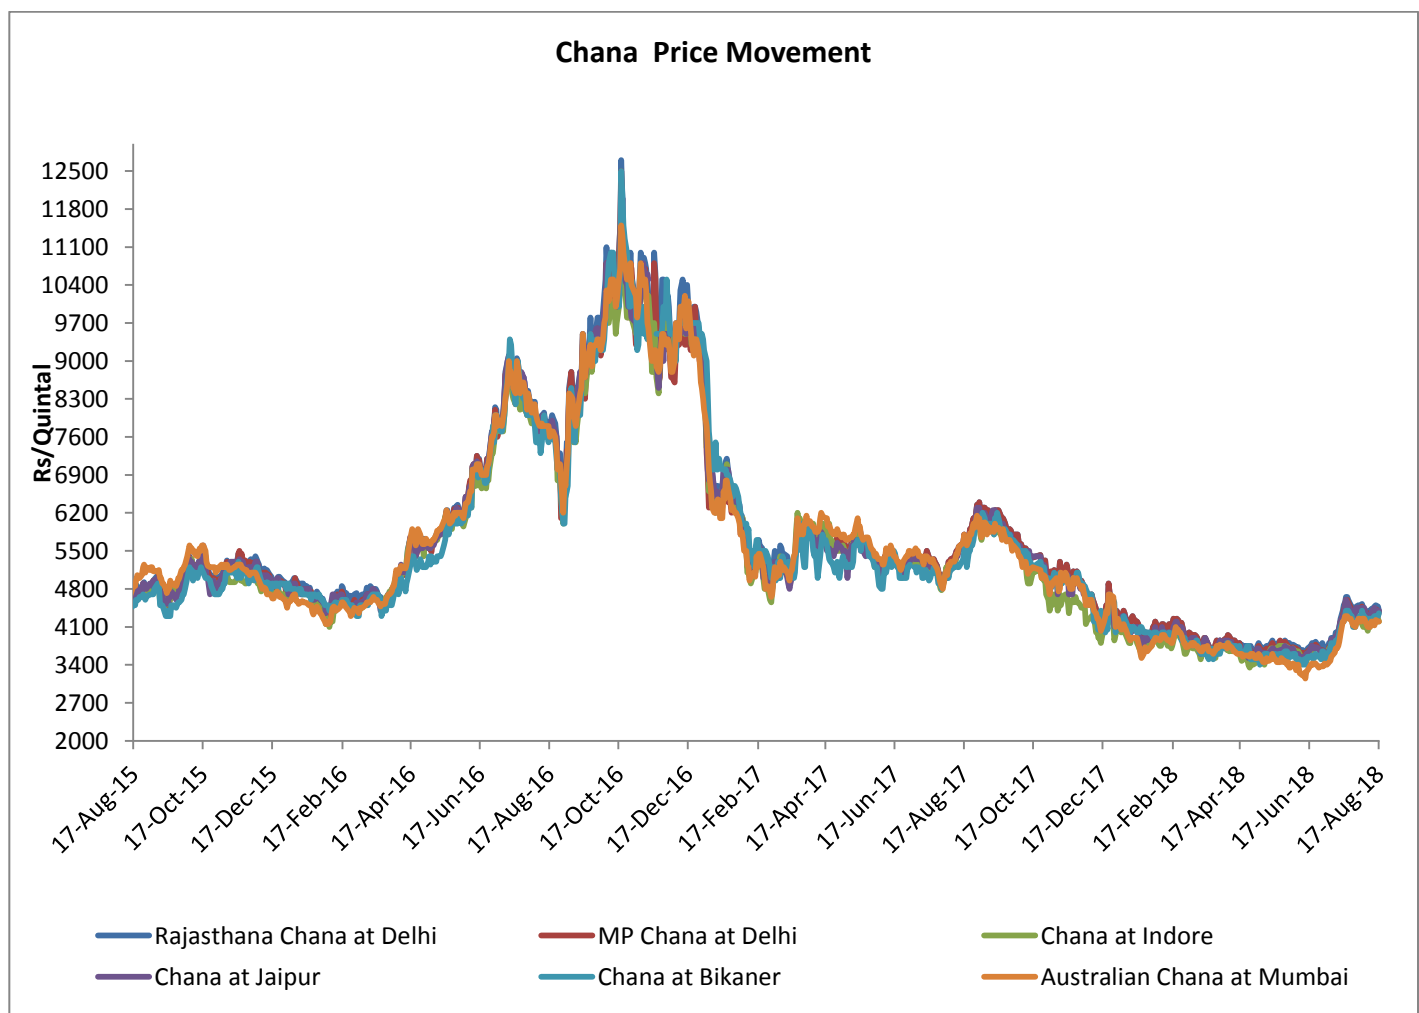

## Pulses-Wise Scenario:

### Chana

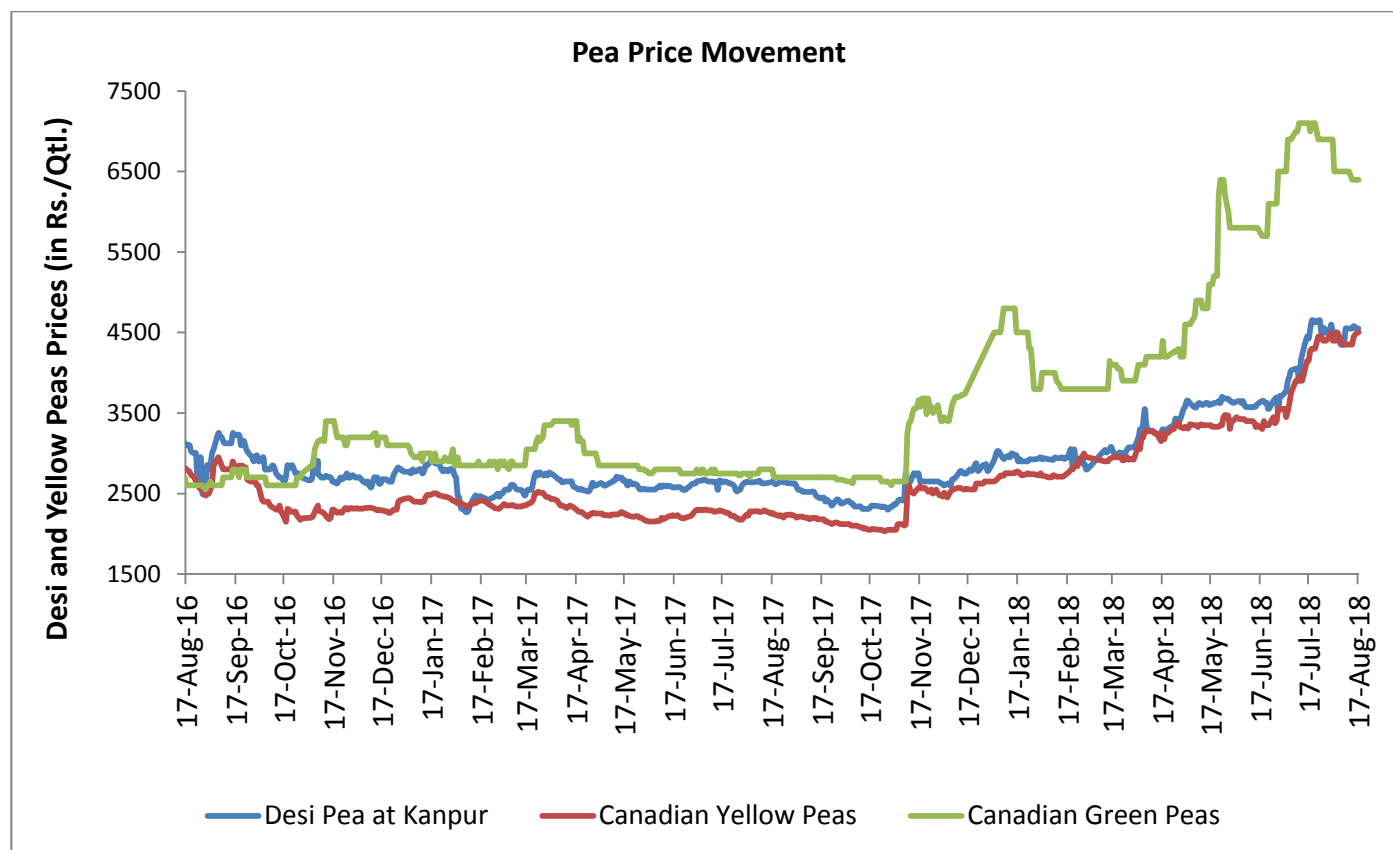

#### Current Scenario:

Chana market is likely to trade firm as govt. would not release entire quantity through auction. As there is lower rainfall in major growing region, area under chana may decline by 8 to 10 % from record of last year. So govt may retain 1 million tonne in buffer. Besides, there is no possibility of import as Australian crop is only 3.5 lakh tonne. Good demand during next two-three months may help chana market move up in coming weeks. Arrivals in mandis have decreased and stockists are unwilling to sell it at current level, sensing uptrend in coming months.

Chana in Delhi market is being traded at Rs 4450-4500 per qtl. All India average price for Chana decreased by 2.47 percent to Rs 4354 per qtl. Imported gram (old imported crop) price decreased by 2.08 percent to Rs 4140 per Qtl. Australian chana is being quoted at Rs 4250-4300. Following graph illustrates the chana price movement in different markets:

**Market Outlook:** Chana may trade steady to slightly firm this week too.

**Peas (Matar):****Market Recap:**

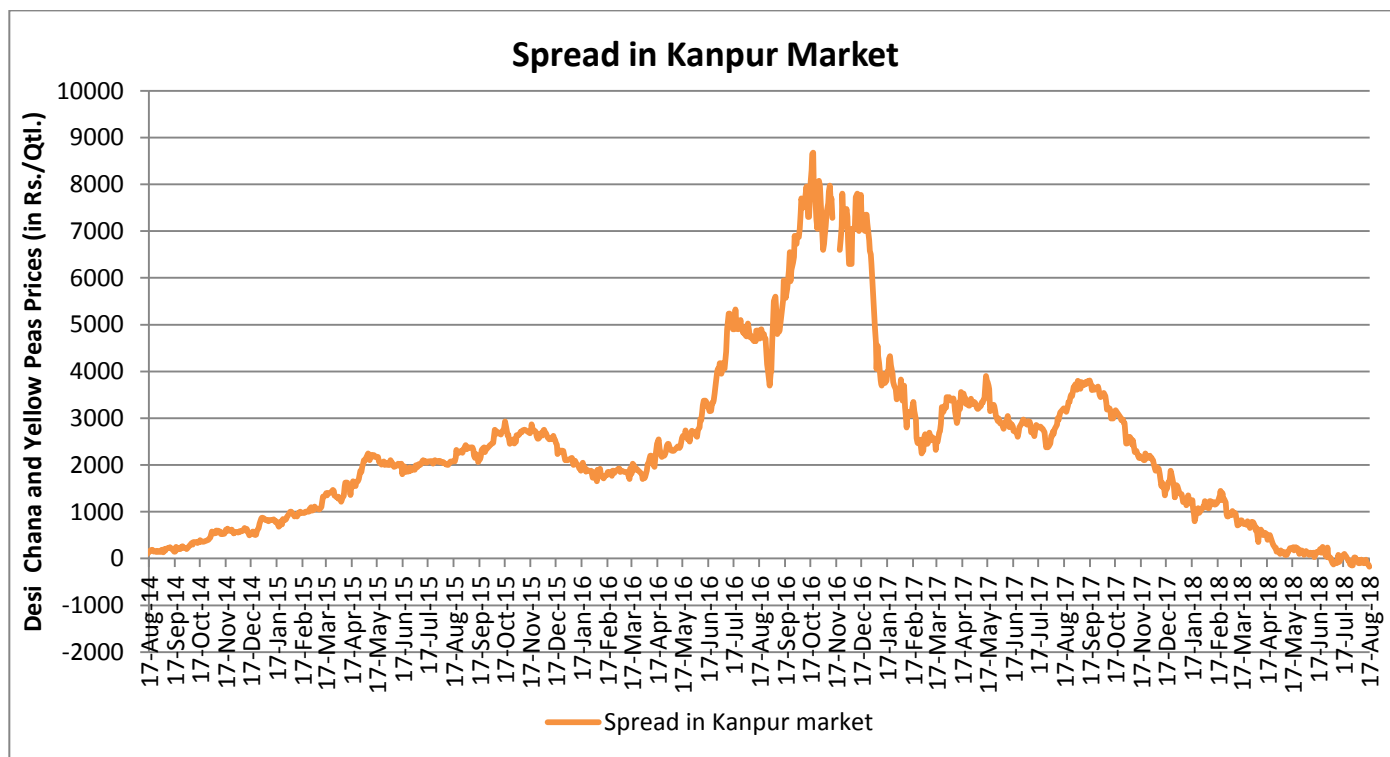

Availability of pea in domestic market is not enough to pressurize market amid good demand from retail sector and bulk buyers. Till September, import is not possible. So pea market is likely to trade firm taking clue from firm chana market. There is good offtake from stock available at ports. Market sources say that there is 1.00 lakh tonne pea available at Mundra, Kandla, Hazira & Dahej ports. Besides, 0.60 lakh tonne at Tuticorin, Vizak, Kakinada, Kolkatta ports. In Kanpur there is 8,000 MT yeow pea and 35,000 MT desi pea stock is available. Even green pea stock is comparatively lower and it may move further up after slight downward correction. It is good to buy on dip. Peas from Ukraine is being offered at Rs4300 per qtl at Mumbai, Hazira and mundra ports.

**Current Market Dynamics & Outlook:**

At Kanpur, Desi Peas traded UP by 0.64 % at Rs 4550- due to good offtake from retailers/stockists. Canadian pea in Mumbai market traded down by 0.72 % to 4350. However, it may move firm as chana is getting firmer. Costly import and improving chana price would continue to support peas market. However, slight downward correction is expected this week. Stake holders should buy on dip. Green pea is being traded at RS6500-6600 per qtl. in Mumbai.

**Spread With Chana:**

Spread between Chana and Peas, at Kanpur market moved into negative zone now due to higher peas price this week. Spread is expected to move in the range of 75 to 150 per quintal in the coming weeks, on relative movement in Chana prices. Overall outlook seems steady to slightly firm. Buying on dip is good, as imported pea costing remain be higher.

**Market Outlook:** Outlook remains steady to slightly firm.

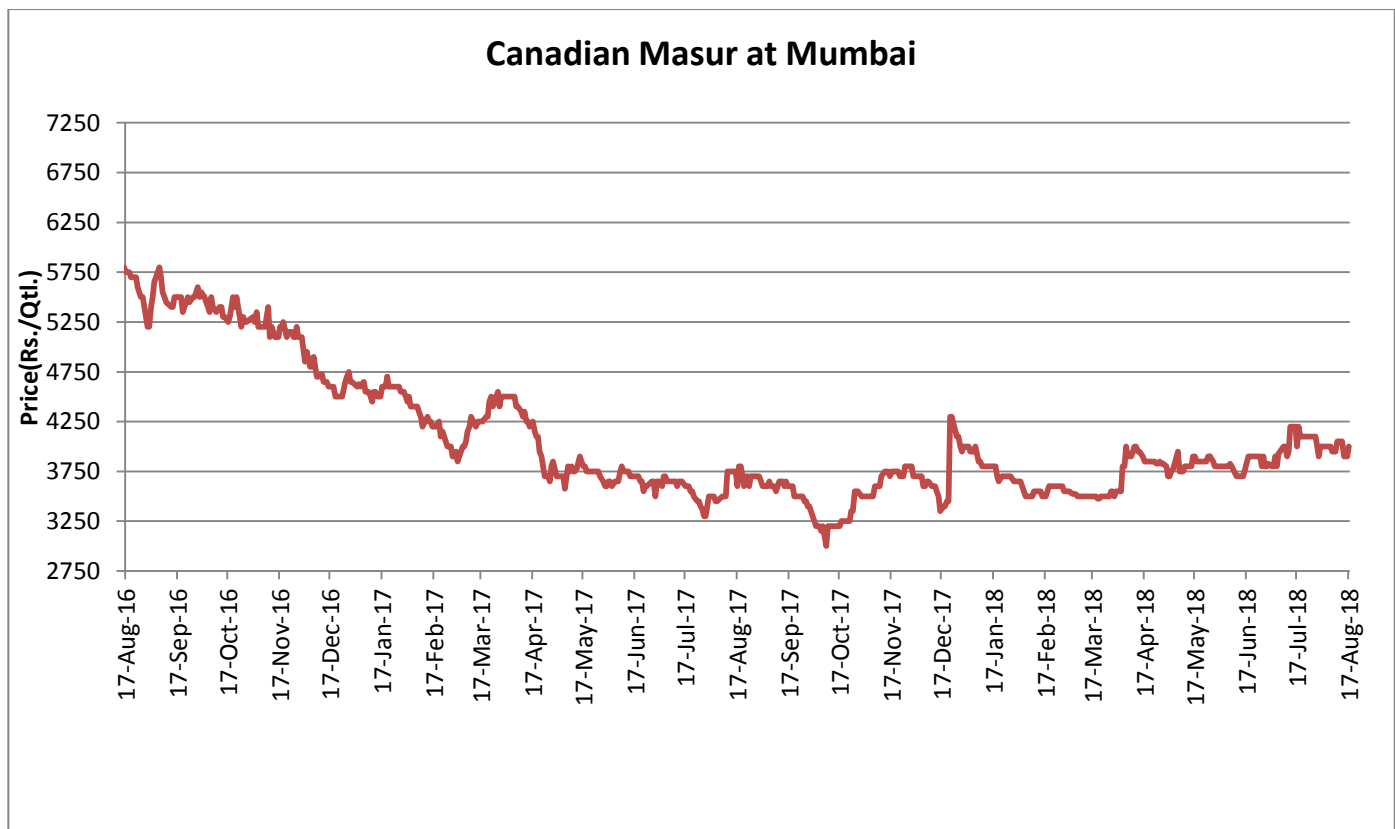

**Lentils (Masoor):**

### Market Recap:

Around 5000 MT has been offered by Nafed for selling and it would continue in months ahead. It may cap any major uptrend in the near term. Lentil market may trade steady to slightly weak this week. Domestic demand for dal may support market to a certain extent. Uptrend in Masur market is unlikely to continue despite lower availability of imported stock in Kolkata and Mumbai. It would not allow market to go unexpectedly down. However, market should not ignore huge stock (243450.18MT) in central pool procured during the season. Other price limiting factor is lower price for Tur and it is directly affecting Masur dal consumers right now. Tur dal is still available at Rs55-60 per kg against 50 to 55 per kg for Masur. So consumers have option to shift from Masur to Tur. Govt. agencies have around 10 lakh tonne Tur stock and they would start liquidating it before Nov when new crop hits the market. It would pressurize lentil price in the months ahead.

### Current Scenario:

Weekly average price traded up by 1.25 % to Rs 4000 per qtl in Kanpur. Currently in Mumbai, it is being quoted at Rs 4000-4100 per qtl, slightly down.. Steady tone may prevail this week too, as demand is yet to pick up.

**Market Outlook:** Prices are likely to notice steady tone this week.

## Pigeon Pea (Tur/Toor):

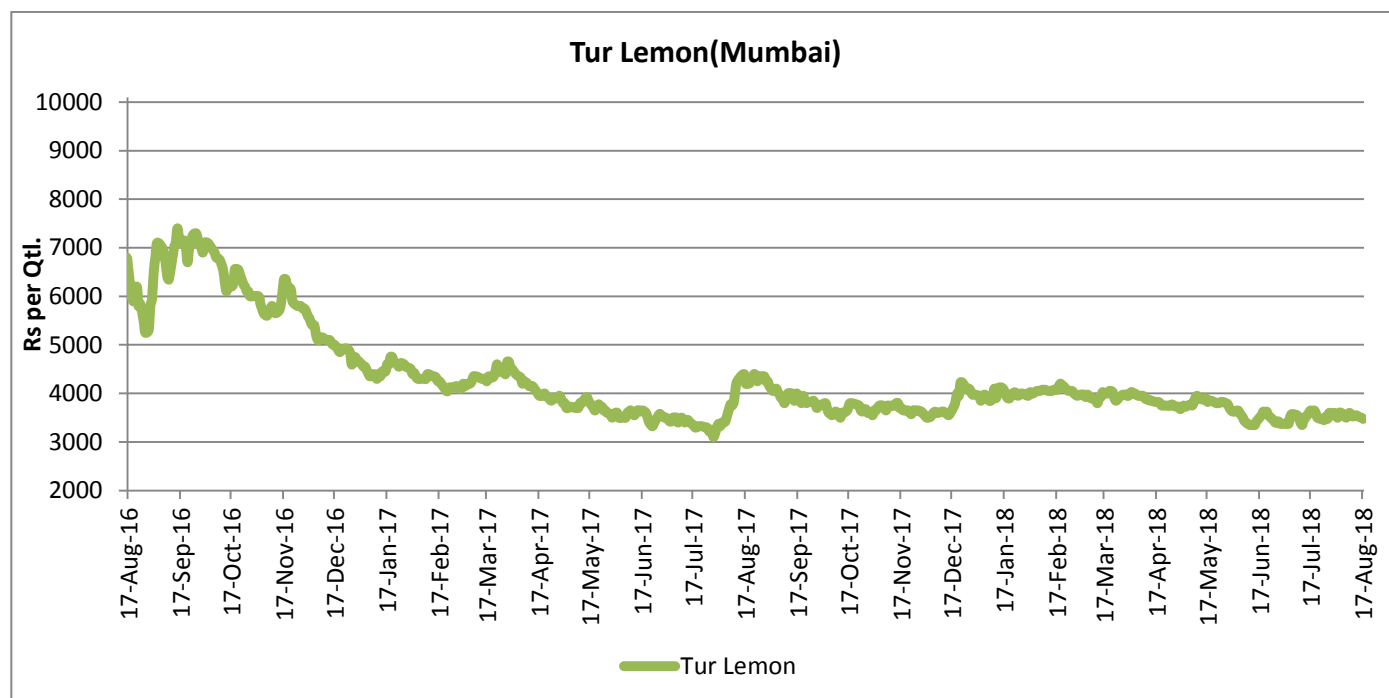

### Market Recap:

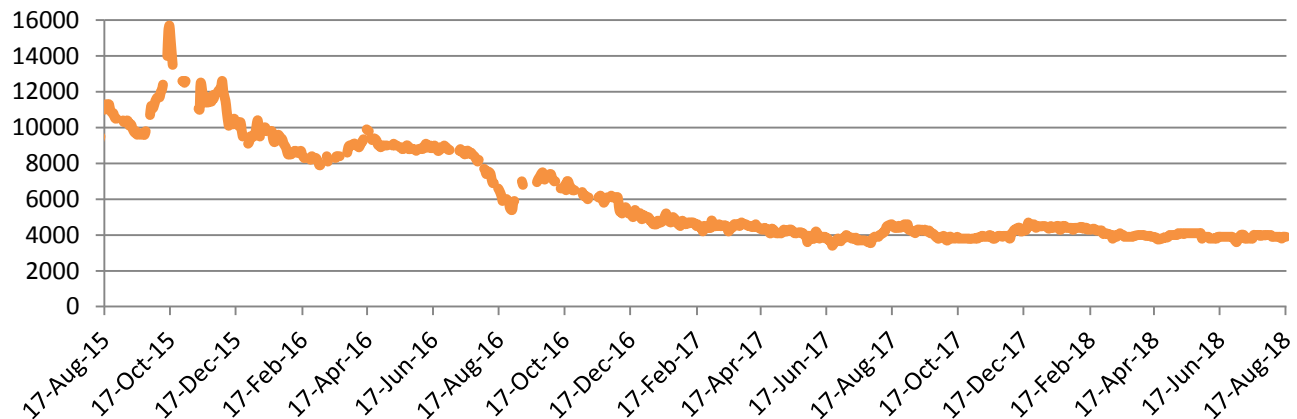

Lack of fresh demand and continued auction from state agencies have capped cash tur market this week despite higher MSP(Rs 5675).Area under Tur is almost same as last year .However ,lower rainfall in major growing region may impact normal yield and resultantly final crop size too. Market is still awaiting demand to pick up as it improves in Sep/Oct due to festive months.

Selling by stockists of imported Tur in Mumbai pressurized cash tur market and it traded down by Rs25 to Rs50 to Rs 3450 -3550 per qtl.new crop is three months away now while Maghee tur would come in January from Maharashtra and Karnataka.Old imported tur stock (around one lakh tonne) of Malawi and Mozambique is still left unsold.it may cap market to move beyond a certain level.However,demand from dal millers around Rs 3650-3750 may help market to sustain at current level.Tur price may move up if fear of lower yield materializes into reality

### Current Market Dynamics & Outlook:

Myanmar is offering lemon Tur (old) at \$380 per tonne and new Lemon Tur (Linkely) at \$390 per tonne basis Indian ports. Despite smart gains in prices at origin, there is import parity and import seems possible to the level of 3.5 lakh tonne in current MY. Govt may restrict selling through auction till Aug amid lower coverage may support cash market. Market should stabilize near 4200-4500 in the near to medium term.Stock in private hands has come down.Festive season commences and demand is likely to improve in coming weeks.

**Red Tur At Gulberga( Rs /Qtl.)**

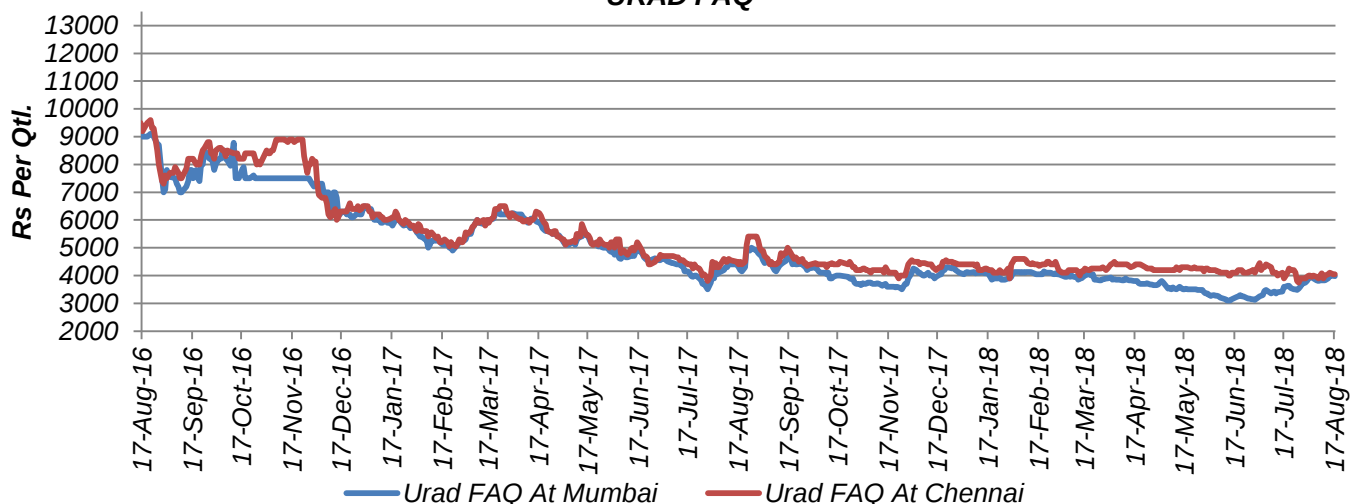

**Market Outlook:** Tur prices are likely to show steady movement this week as trading activities remained sluggish.

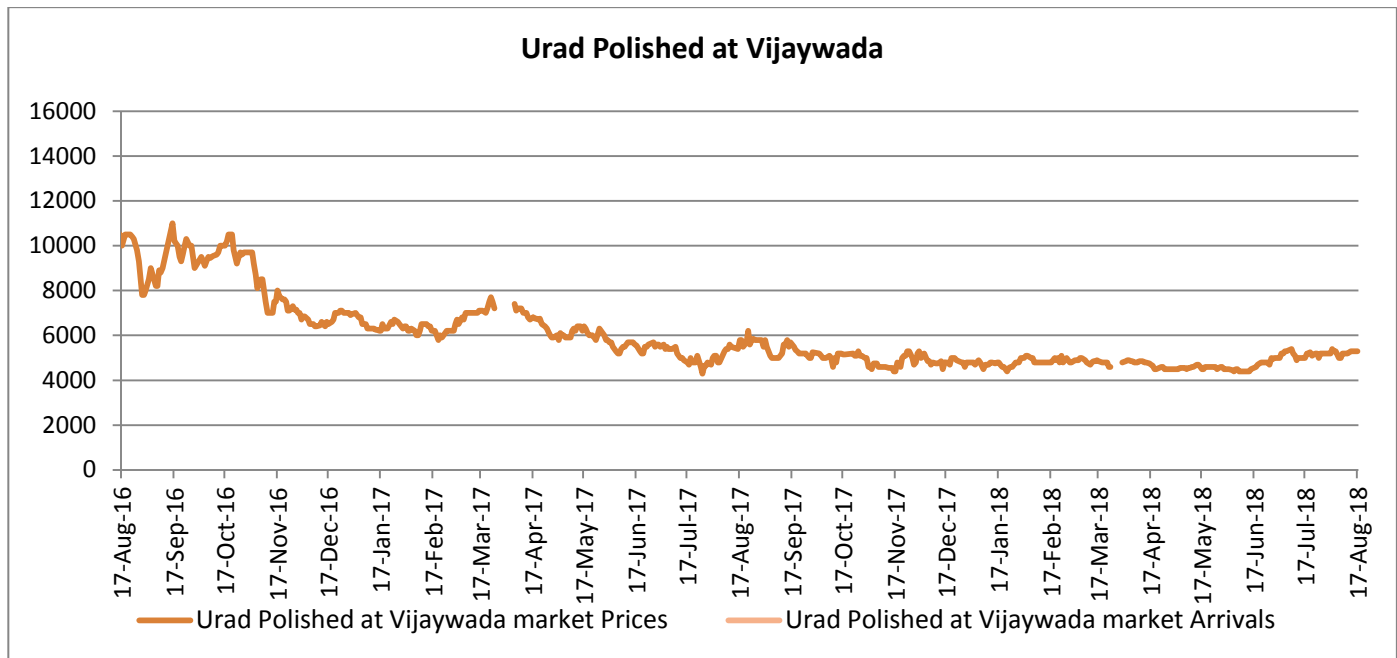

#### **Black Matpe (Urad):**

As expected by Agriwatch last week Urad market traded steady to slightly firm and traded up by Rs 100 to Rs 3900-4000 in Chennai market. As demand for Urad dal is weak, any major recovery in market is unlikely in the near term. Rangebound movement is expected this week. Pressure on market is unlikely to build up as central pool stock is coming down and lower area coverage would remain supportive to cash market to some extent. Lower kharif area may support urad price in the medium term. Higher MSP and restricted urad import may push up urad price in the medium term. FAQ Urad is expected to stabilize near Rs.3900/4400 per quintal. SQ may trade at Rs 5000-5500 in the near to medium term. Myanmar is offering FAQ Urad at \$315 per tonne and SQ at \$465 per tonne basis against Indian (Chennai) prevailing price of \$635-45 per tonne. Imports to India are feasible at these prices and may occur soon as DGFT has allowed conditional import for the millers under allocated quota of 1.5 lakh tonne for current MY.

#### **Current Market Dynamics & Outlook:**

Urad FAQ at Mumbai (Rs.3650-3750 per Qtl.) and Chennai (Rs.3900-4050 Qtl.) noticed steady tone. It traded steady in Vijaywada too. Range bound movement might be seen in Urad market, due to weak demand at higher level. The following graph shows the prices movement in different markets:-

**URAD FAQ**

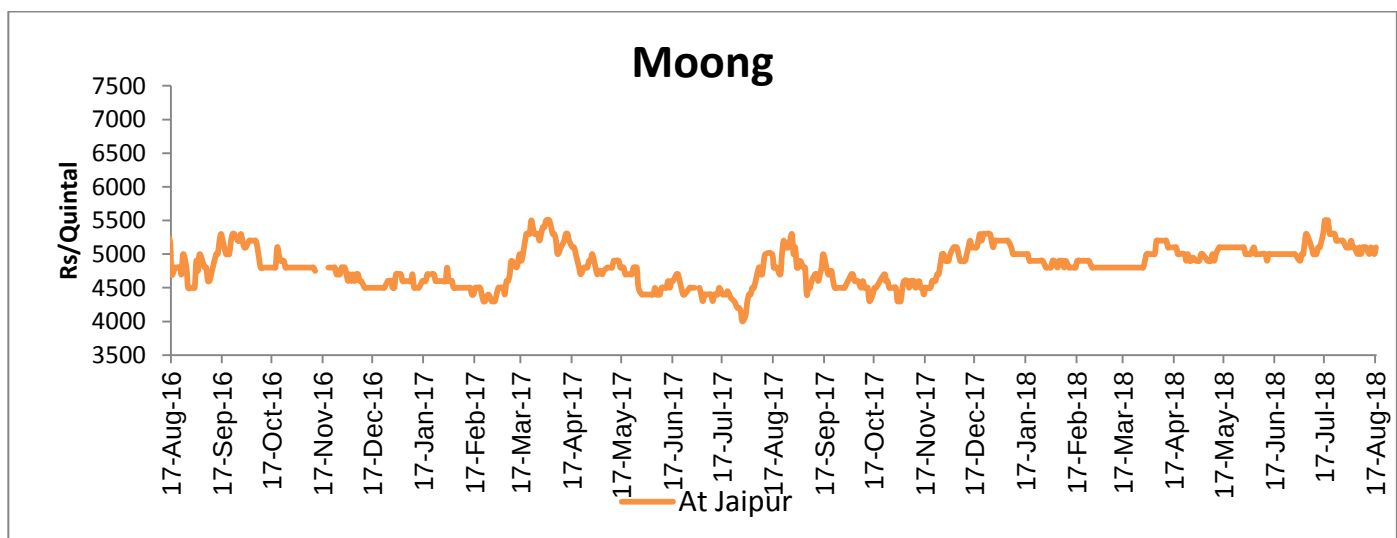

**Market Outlook:** Urad Prices are likely to show steady to slightly firm momentum this week .

#### Green Gram (Moong):

New arrival from kharif moong has started increasing in Karnataka and it has pressurized market once again. Cash moong market may dip by Rs200 from current level. Procurement of new MSP Rs6975) announced for Kharif crop is yet to begin. In cash market moong is being traded at Rs 5100 to 5650 per qtl. Farmers in Karnataka have demanded to procure moong on MSP as soon as possible.

#### Market Recap:

**Market Outlook:** Moong prices are likely to trade steady to slightly weak in the near term.

**Pulses Import & Average CiF:**

| Month  | Chickpea    |            | Tur         |            | Green Peas  |            | Lentil      |            |
