**Commodity-wise Domestic, International Prices and Arrivals at Different Centers**

## Highlights-Domestic Market:

- **India imported total 120256 MT pulses in July against 178849 MT in Jun-2018.** It is 32.76 percent lower than Jun. Out of total import Urad and yellow pea topped in list with 42702 & 40919.6 MT respectively. There is no import of chana in July against 3024.2MT in June. Tur, Urad and Moong import increased by 49.9, 451.96 & 741.68 percent from June. Tur import increased from 11910 to 17862 MT, Moong from 799 to 6732.19MT and Urad from 7736.4 to 42702MT in July. However, green pea import decreased from 8524 to 4023 MT during the review period. Even lentil and yellow pea import decreased from 11908 to 6859.3MT and 128719 to 40919.6MTK in July. Kidney bean from 6197.42 to 1157.04 MT. Overall, pulses import volume has decreased. From March-2018 to July-2018 India has imported total 604505 MT pulses so far.
- **All India kharif Pulses area is lagging behind by 2.27 % to 130.83 against 133.87 lakh ha last year as on 24<sup>th</sup> Aug 2018.** Farmers have covered 43.82 lakh ha against 43.82 last year under Tur till date, same as last year. Normal area under Tur is 41.90 lakh ha. However, Urad area is lagging behind by 12.97 % to 37.02 against 42.54 lakh ha. Normal area of kharif Urad is 27 lakh ha. Moong area is running up by 6.33 % to 33.31 lakh ha against 31.33 lakh ha last year. Normal area under Moong is 24.93 lakh ha. Other pulses area too is up by 1.60 % than last year. It is 15.94 against 15.69 lakh ha so far against normal of 15.83 lakh ha. Area under Kulthi has increased by 47.09 % to 0.73 lakh ha against normal of 2.27 lakh ha so far.
- **Nafed may start selling Chana and Masur through e-auction procured during MY 2018-19.** Notably, it would be sold at MSP(Rs4250 without bonus) Date is yet to be decided. With bonus chana has been procured at Rs4400 per qtl. Farmers have not received payments as yet and their feel dejected. govt. has taken this decision for cooling down their anger and speeding up payment. Nafed has stock of 15.91 lakh tonne of chana & 2.29 lakh tonne of masur in MP out of total procured quantity of 27.32 and 2.43 lakh tonne. MSP for chana is 4250 & for masur Rs4150 without bonus. As pulses would be sold through e-auction at MSP, so any major impact on cash market is unlikely. However, it may cap uptrend in the short to medium term. Nafed would prefer to sell stock soon as storage space is required for new kharif crop.
- **The National Commodity & Derivatives Exchange has approached to Sebi for approval of re-launching of Tur and Urad futures.** Notably, tur and urad futures were suspended in January-2007 due to price volatility and some irregularities at various levels. As prices of pulses are ruling below MSP and govt has ample stock in central pool, NCDEX officials feel that re-lunching of futures contact may help farmers by indicating price and they can hedge against it.
- **Sluggish demand for Tur dal and steady quotes in Burma at \$275-80 per MT have discouraged importers** to strike fresh deal for Tur. Assuming that private import would not touch the level of 2 lakh tonne during current MY, prices should recover from current level to a certain extent. However, main bottleneck for a major recovery is availability of old imported Tur from Mozambique, Malawi and Sudan stored in big millers godowns. Mills continues to sell old stock. Mills from Katni lines have started selling dal at discount of Rs 50 per qtl. Besides, in Mumbai stockists have resumed selling once again and offered Tur at Rs 3450/3500. Lemon Tur is being offered at Rs 3650 to Rs 3680 per qtl. At current price stake holders should buy Tur, it is ruling at recent bottom level. It may recover by Rs 100 to Rs 200 from current level.
- **There is no parity for moong from any markets. However, weak demand for dal has suppressed moong price** in major domestic markets. As there is lower supply from Rajasthan this year, any downfall at current level is unlikely. There is a report of lower crop in Kekri, Shekhawati and Kishangarh lines. Besides, some quality issue may surface from Akola and Khamgaon. All these developments may not allow moong to decrease from current level. Moong from Kanpur and Allahabad line too is not good. So any major dip is unlikely. It is being traded at Rs 5200 to Rs 5400 per qtl in Kanpur. Allahabad line. Besides, govt. would procure moong at MSP. So buy at current level seems good.
- **Myanmar offered lemon tur (new & old) at \$ 380 per tonne. Basis Indian port. Linkly too is being offered at \$380 per tonne, down by \$10 , urad FAQ was offered down by \$5 to \$310 and SQ at \$455 basis Indian port.** Chana v2 Kabuli was offered at \$620 per tonne and Hollan at \$655 per tonne. Moong Pakaku was offered at \$680 per tonne.
- **Lentil market may trade steady to slightly weak this week. Domestic demand for dal may support market to a certain extent.** Uptrend in Masur market is unlikely to continue despite lower availability of imported stock in Kolkata and

Mumbai. It would not allow market to go unexpectedly down. However, market should not ignore huge stock (243450.18MT)in central pool procured during the season. Other price limiting factor is lower price for Tur and it is directly affecting Masur dal consumers right now. Tur dal is still available at Rs55-60 per kg against 50 to 55 per kg for Masur. So consumers have option to shift from Masur to Tur. Govt. agencies have around 10 lakh tonne Tur stock and they would start liquidating it before Nov when new crop hits the market. It would pressurize lentil price in the months ahead.

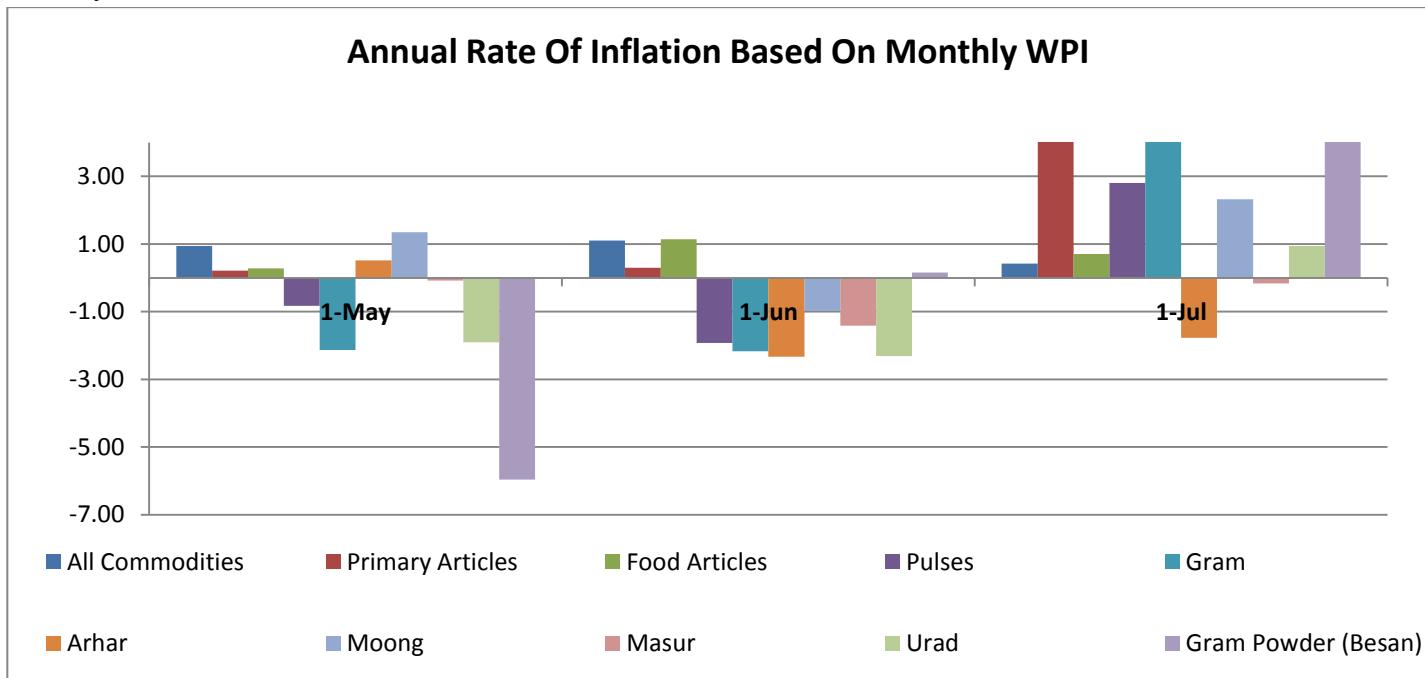

#### **International Market:**

- **Global field pea markets ended weak on the back of likely pressure from the commencement of harvesting in northern hemisphere countries.** Pea harvesting in Canada has been pegged at 21 % against 28% last year till 20th August. However, it is higher of recent average of 19%.As condition for harvesting is very congenial due to dry and hot weather condition,pace of harvesting would increase and pressure might be felt on physical market soon in Canada.
- **With bearish USDA crop report global chickpea market traded under pressure.** However,lower crop size in Australia & Tanzania may support chickpeas amarket in coming weeks.Production of chickpea in US may jump to a record level this year.Area under chickpea in US has increased from 623800 acres to 822,000 acres.The USDA reckons farmers planted 211,200 acres of small chickpeas, up from 179,500 last year; and 608,500 acres of large, compared to last year's 439,300 acres. Higher area in US can make up lower crop size in Australia to some extent.Fundamental for chickpea has started changing into positive now.It may continue to support global chickpea market.
- **Canadian Desi Chickpeas markets finished the 2017-18 marketing year with prices falling 21% below the recent three year average annual price on inter-dealer markets in that country.** Analysis of the monthly price pattern reveals the highest monthly average was \$915.00 per MT in September, while the lowest monthly average trading level was \$512.50 per MT in April.During the latest three year period, the highest monthly average trading level was \$870.83 per MT in June, compared to the lowest monthly average of \$777.50 per MT in February.
- **As per the latest market update production of Chickpeas in Australia may be around 3.09 lakh tonne.** Queensland production has been pegged at 2.17 lakh tonne. Field Pea production may touch 3.01 lakh tonne,Lentil production has been pegged at 3.47 lakh tonne.total pulses production including Lupins and Faba beans has been pegged at 1713 lakh tonne.It is 72% lower in case of chickpeas,9% up in case of peas,,26% down in case of lentils when compared to 2017.
- **Lentil markets traded slightly down from previous week as harvests are on in both the United States and Canada.**Pressure is likely to on in August as farmers seem to sell 50 % of their crop as soon as soon as possible.Markets were not helped by rising tensions between the United States and Turkey. Fears that will devolve into another trade war had a negative impact on the value of the Turkish lira.
- **The Canadian Grain Commission latest update shows that Canada has 29,800 metric tons lentils through licensed facilitiesin June against 68,600 MT were shipped the same month last year, while movement is up from the 19,600 MT shipped the previous month.** Thus total export for the current marketing year touched to 284,600 MT against853,100 MT during the same period last season.
- **Global peas market traded under pressure before likely commencement of harvesting in northern hemisphere.**Major buyers like India & Pakistan are out of market right now and others are waiting for new crop pressure to build up.However,trading activities are seen in feed grade peas.Exporters in Canada have enough stock to cater the incoming demand in the weeks ahead.After harvestimng pressure coming to an end ,stockists/exporters may be active once again,that may help prices to recover from mid August.
- **Canada lentil area is said to be lower than intended by one million acres to 3.77 MMT.**Agri experts expected it to be 4.05 million acres. Actually, at the time of sowing prices remained subdued and it impacted farmers to reduce area from 4.05 to 3.37 million ha. Canada had planted 4.4million acres in 2018.Under current prevailing condition production would be only slip from last year's 2.559 million metric ton (MT) harvest to 2.495 million this year.

**Weekly Outlook:** -Pulses are likely to trade steady to slightly weak this week.

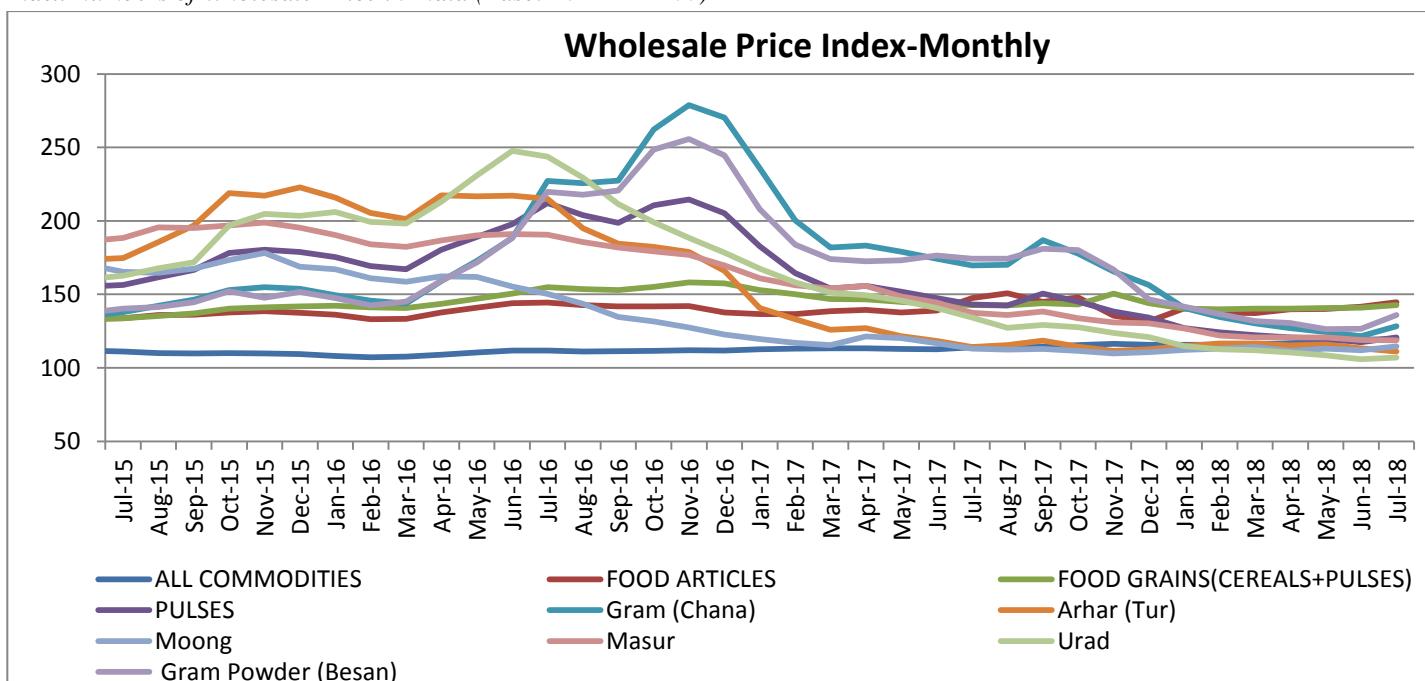

### Monthly Wholesale Price Index:

### Annual Rate Of Inflation:

Index Numbers of Wholesale Price in India (Base: 2011-12=100)

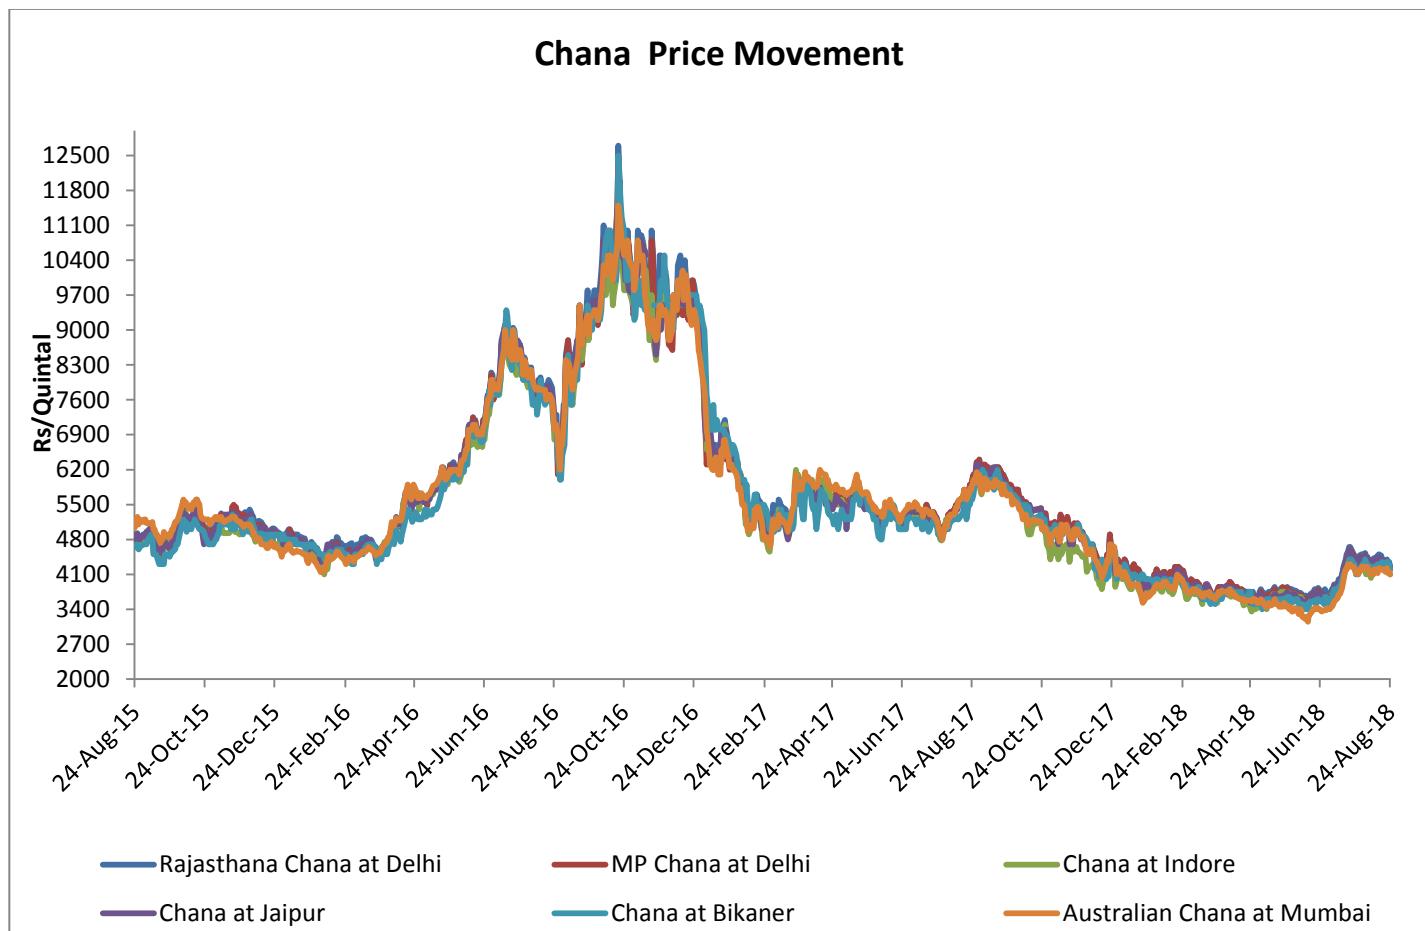

Pulses WPI increased by 3.3 point from 117.5 in Jun to 120.8 in Jul-2018.

**Pulses-Wise Scenario:****Chana****Current Scenario:**

*Chana market is likely to trade weak as Nafed may start selling chana soon as it needs storage space for new kharif crop. Date for selling is yet to be decided. There is a common perception in the market that Nafed would release stock at MSP. As there is lower rainfall in major growing region, area under chana may decline by 8 to 10 % from record of last year. So govt may retain 1 million tonne for buffer. Besides, there is no possibility of import as Australian crop is only 3.5 lakh tonne. Good demand during next two-three months may help chana market to stay steady or slightly firm in coming weeks. Arrivals in mandis have decreased and stockists are unwilling to sell it at current level, sensing uptrend in coming months.*

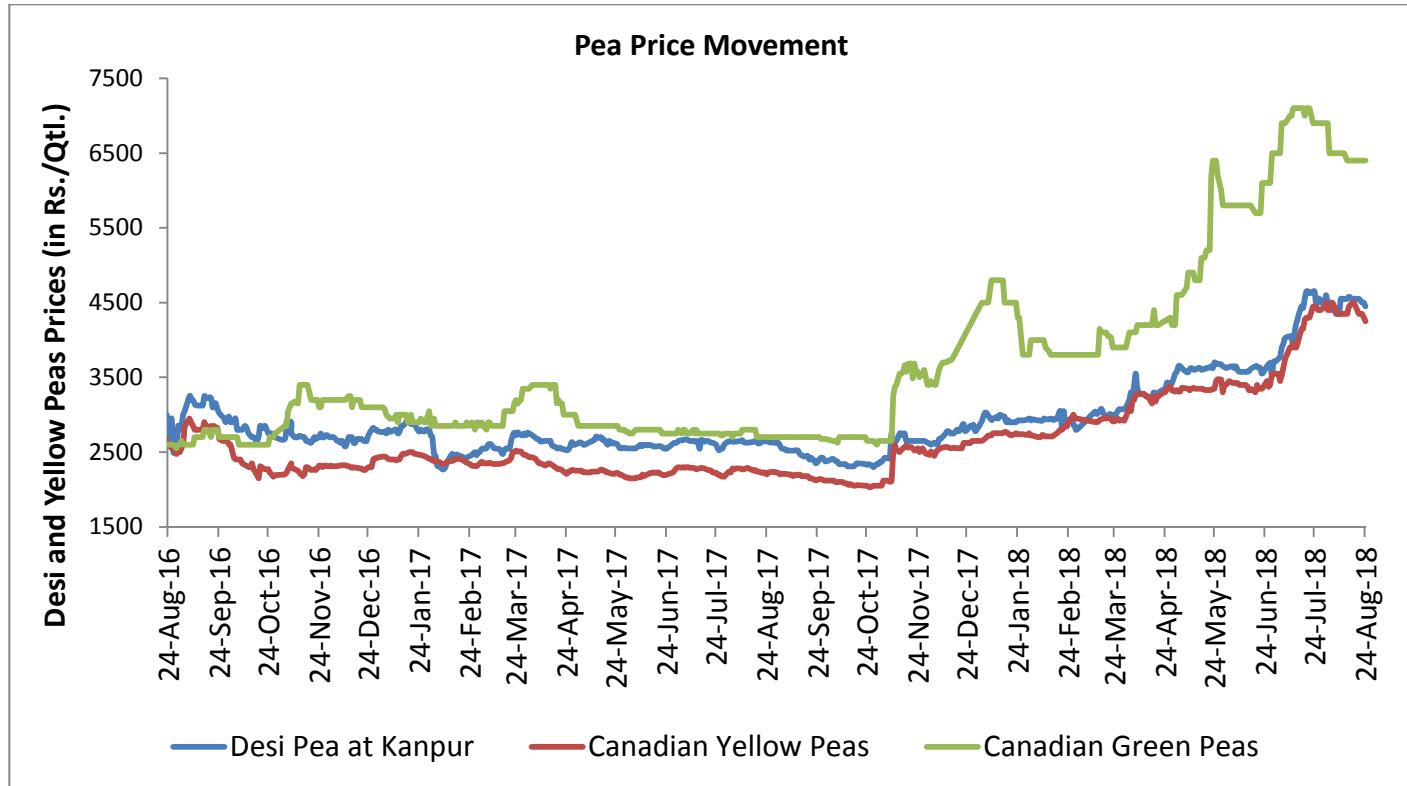

*Chana in Delhi market is being traded at Rs 4250-4300 per qtl. All India average price for Chana decreased by 1.35 percent to Rs 4310 per qtl. Imported gram (old imported crop) price decreased by 0.28 percent to Rs 4110 per Qtl. Australian chana is being quoted at Rs 4200-4225. Following graph illustrates the chana price movement in different markets:*

**Market Outlook:** Chana may trade steady to slightly weak this week too.

### Peas (Matar):

#### Market Recap:

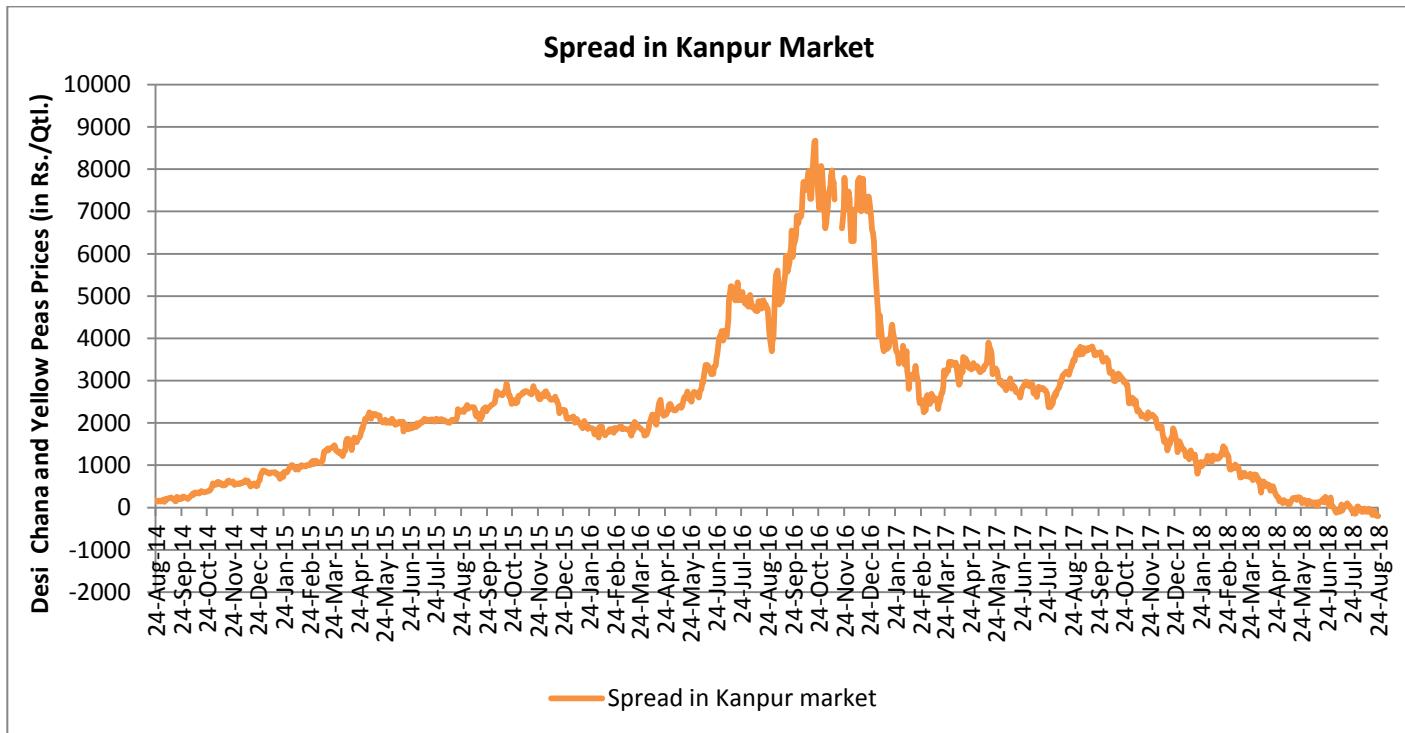

Demand got affected for peas as chana is available at lower price in cash market despite lower stock of pea in domestic market. Slight downward correction may continue this week too. Peas may touch Rs 4000-4100 once again. At this level stake holders should buy. As demand is expected to improve, market may move up soon after touching 4000-4100 level.

#### Current Market Dynamics & Outlook:

At Kanpur, Desi Peas traded down by 3.45 % at Rs 4250- due to weak offtake from retailers/stockists. Canadian pea in Mumbai market traded down by 2.62 % to 4250. However, it may move further down by Rs 100 as chana is getting weaker. Weak demand and decreasing chana price would pressurize peas market. Slight downward correction is expected this week too. Stake holders should buy on dip. Green pea is being traded at RS6400-6400 per qtl. in Mumbai. It may decrease to 6200.

#### Spread With Chana:

Spread between Chana and Peas, at Kanpur market moved into negative zone now due to higher peas price this week. Spread is expected to move in the range of 150 to 250 per quintal in the coming weeks, on relative movement in Chana prices. Overall outlook seems steady to slightly weak. Buying on dip is good, as imported pea costing remain be higher.

**Market Outlook:** Outlook remains steady to slightly weak.

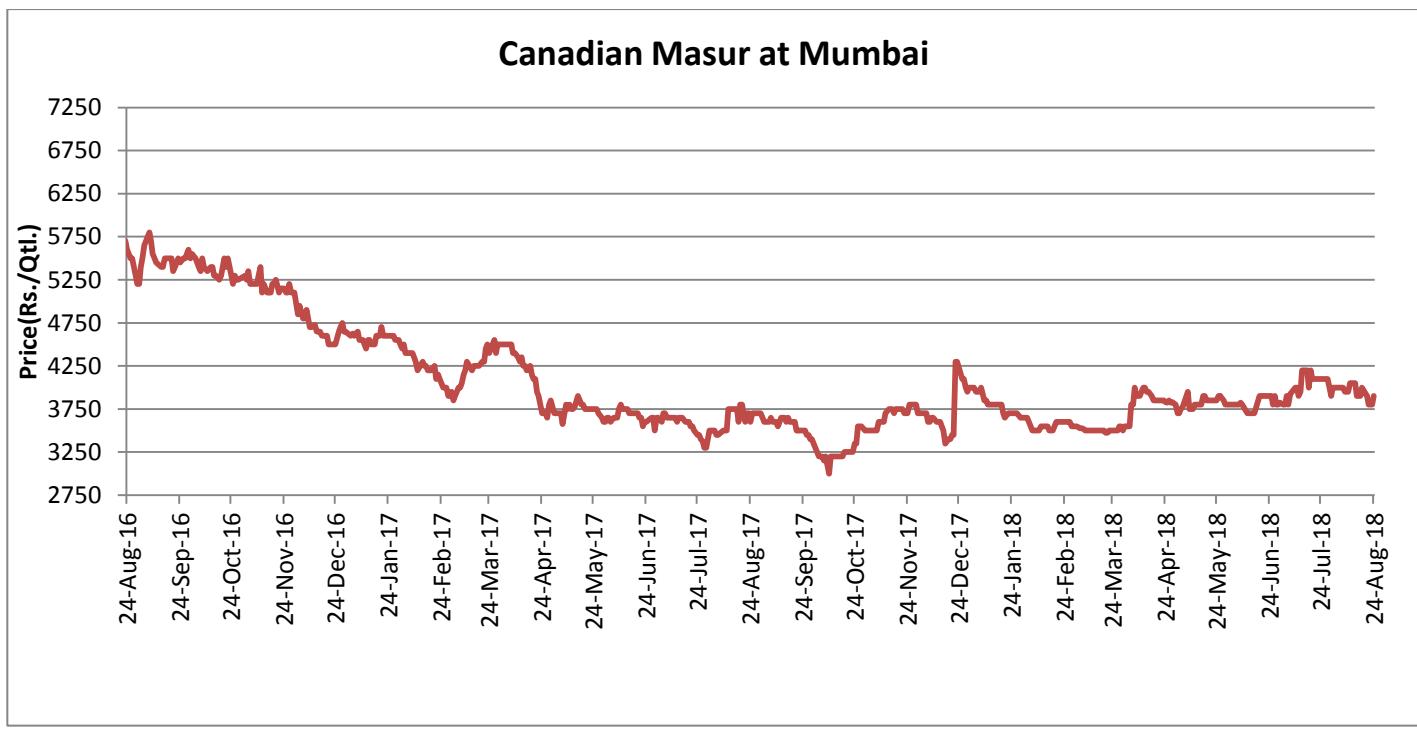

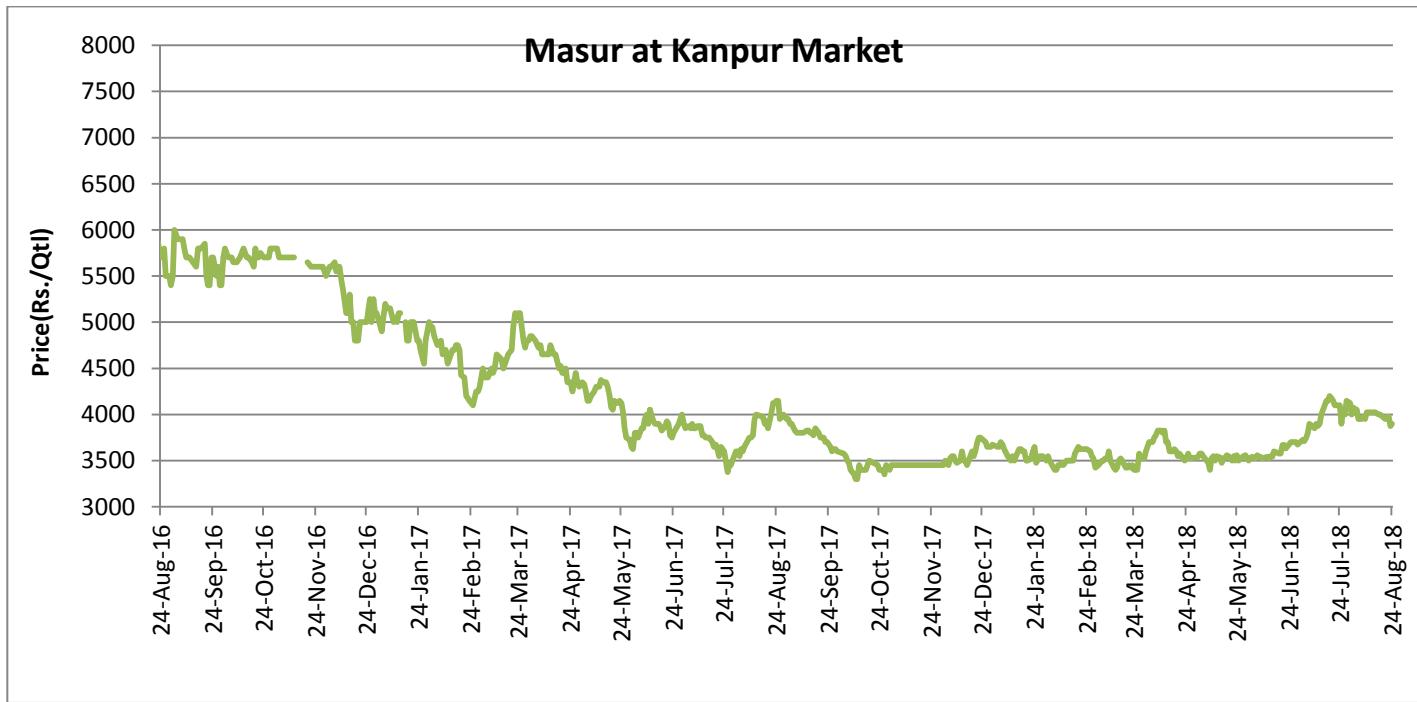

#### Lentils (Masoor):

#### Market Recap:

Around 5000 MT has been offered by Nafed for selling and it would continue in months ahead. it may cap any major uptrend in the near term. Lentil market may trade steady to slightly weak this week. Domestic demand for dal may support market to a certain extent. Uptrend in Masur market is unlikely to continue despite lower availability of imported stock in Kolkata and Mumbai. It would not allow market to go unexpectedly down. However, market should not ignore huge stock (243450.18MT) in central pool procured during the season. Other price limiting factor is lower price for Tur and it is directly affecting Masur dal consumers right now. Tur dal is still available at Rs55-60 per kg against 50 to 55 per kg for Masur. So consumers have option to shift from Masur to Tur. Govt. agencies have around 10 lakh tonne Tur stock and they would start liquidating it before Nov when new crop hits the market. It would pressurize lentil price in the months ahead.

#### Current Scenario:

Weekly average price traded up by 1.50 % to Rs 3925 per qtl in Kanpur. Currently in Mumbai, it is being quoted at Rs 3900-3950 per qtl, slightly down.. Steady to weak tone may prevail this week too, as demand is yet to pick up.

27<sup>th</sup> Aug, 2018

**Market Outlook:** Prices are likely to notice steady to weak tone this week.

### Pigeon Pea (Tur/Toor):

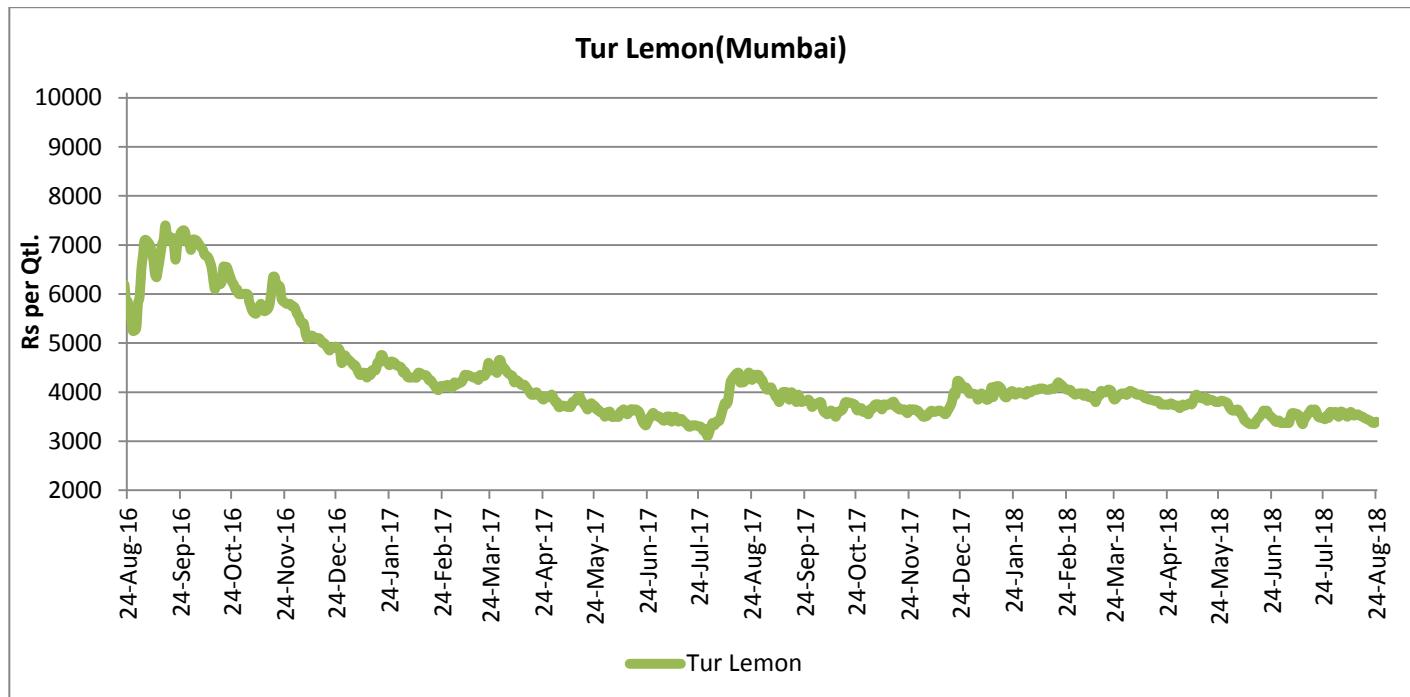

#### Market Recap:

Lack of fresh demand and continued auction from state agencies have capped cash tur market this week despite higher MSP(Rs 5675).Area under Tur is almost same as last year .However ,lower rainfall in major growing region may impact normal yield and resultantly final crop size too. Market is still awaiting demand to pick up as it improves in Sep/Oct due to festive months.

Selling by stockists of imported Tur in Mumbai pressurized cash tur market and it traded down by Rs25 to Rs50 to Rs 3450 -3550 per qtl.new crop is three months away now while Maghee tur would come in January from Maharashtra and Karnataka.Old imported tur stock (around one lakh tonne) of Malawi and Mozambique is still left unsold.it may cap market to move beyond a certain level.However,demand from dal millers around Rs 3650-3750 may help market to sustain at current level.Tur price may move up if fear of lower yield materializes into reality

#### Current Market Dynamics & Outlook:

Myanmar is offering lemon Tur (old) at \$380 per tonne and new Lemon Tur (Linkely) at \$390 per tonne basis Indian ports. Despite smart gains in prices at origin, there is import parity and import seems possible to the level of 3.5 lakh tonne in current MY. Govt may restrict selling through auction till Aug amid lower coverage may support cash market. Market should stabilize near 4200-4500 in the near to medium term.Stock in private hands has come down.Festive season commences and demand is likely to improve in coming weeks.

### Red Tur At Gulberga( Rs /Qtl.)

**Market Outlook:** Tur prices are likely to show steady movement this week as trading activities remained sluggish.

#### Black Matpe (Urad):

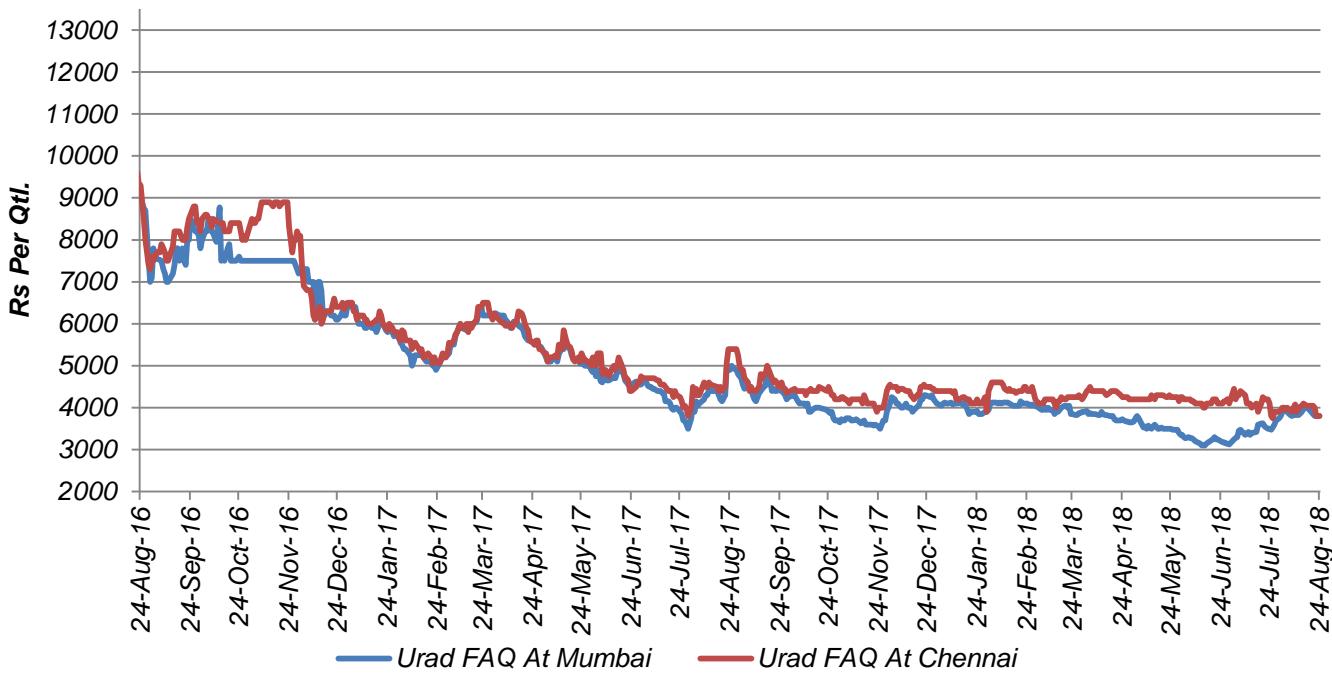

As expected by Agriwatch last week Urad market traded steady to slightly weak and traded down by Rs 100 to Rs 3800-3900 in Chennai market. As demand for Urad dal is weak, any major recovery in market is unlikely in the near term. Rangebound movement is expected this week. Pressure on market is unlikely to build up as central pool stock is coming down and lower area coverage would remain supportive to cash market to some extent. Lower kharif area may support urad price in the medium term. Higher MSP and restricted urad import may push up urad price in the medium term. FAQ Urad is expected to stabilize near Rs.3800/4200 per quintal. SQ may trade at Rs 5000-5500 in the near to medium term. Myanmar is offering FAQ Urad at \$315 per tonne and SQ at \$465 per tonne basis against Indian (Chennai) prevailing price of \$635-45 per tonne. Imports to India are feasible at these prices and may occur soon as DGFT has allowed conditional import for the millers under allocated quota of 1.5 lakh tonne for current MY.

#### Current Market Dynamics & Outlook:

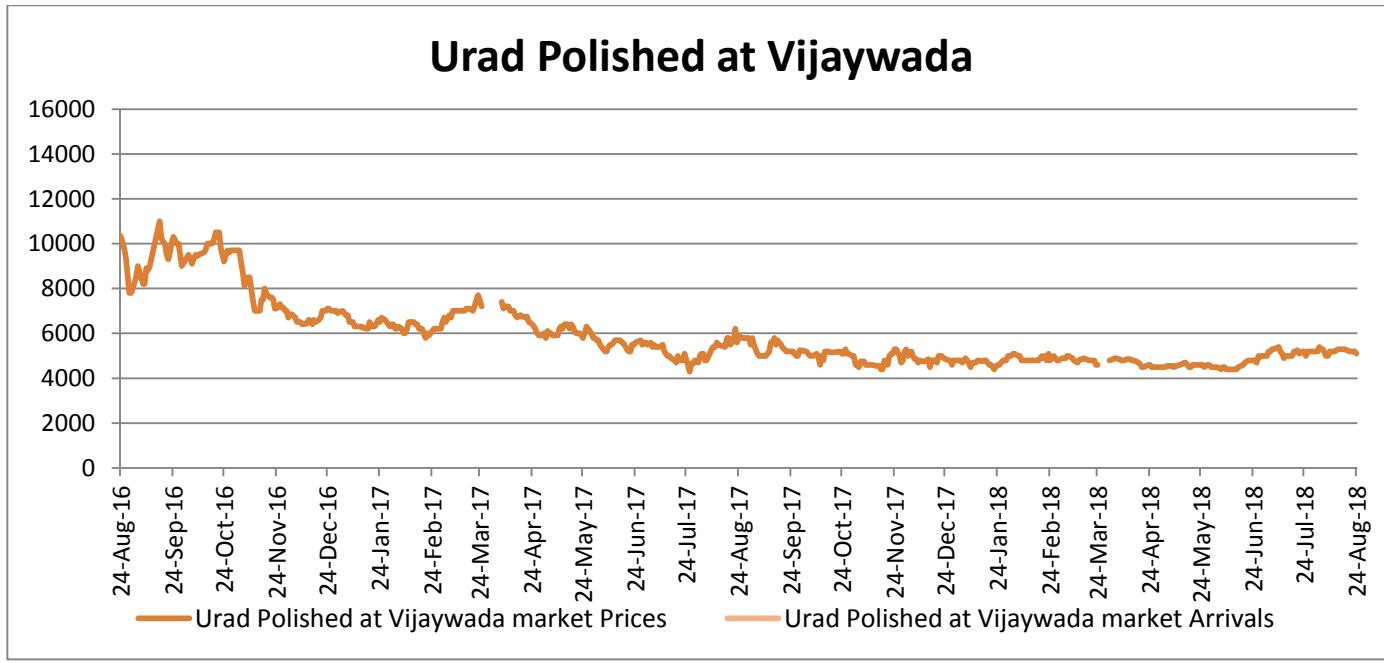

Urad FAQ at Mumbai (Rs.3650-3850 per Qtl.) and Chennai (Rs.3800-3950 Qtl.) noticed weak tone. It traded steady in Vijaywada too. Range bound movement might be seen in Urad market, due to weak demand at higher level. The following graph shows the prices movement in different markets:-

27<sup>th</sup> Aug, 2018

### URAD FAQ

### Urad Polished at Vijaywada

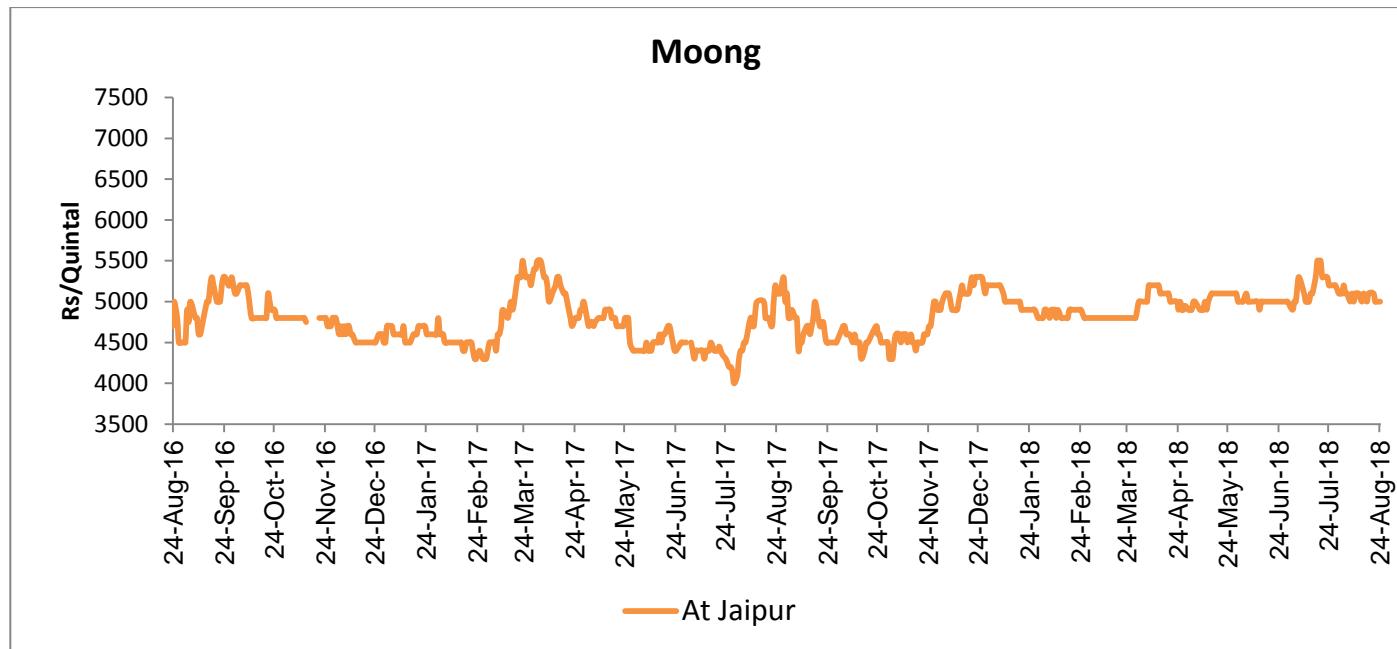

**Market Outlook:** Urad Prices are likely to show steady to slightly weak momentum this week .

#### Green Gram (Moong):

New arrival from kharif moong has started increasing in Karnataka and it has pressurized market once again. Cash moong market may dip by Rs200 from current level. Procurement of new MSP Rs6975) announced for Kharif crop is yet to begin. In cash

market moong is being traded at Rs 4900 to 5450 per qtl. Farmers in Karnataka have demanded to procure moong on MSP as soon as possible.

### Market Recap:

**Market Outlook:** Moong prices are likely to trade steady to slightly weak in the near term.
