Commodity-wise Domestic, International Prices and Arrivals at Different Centers

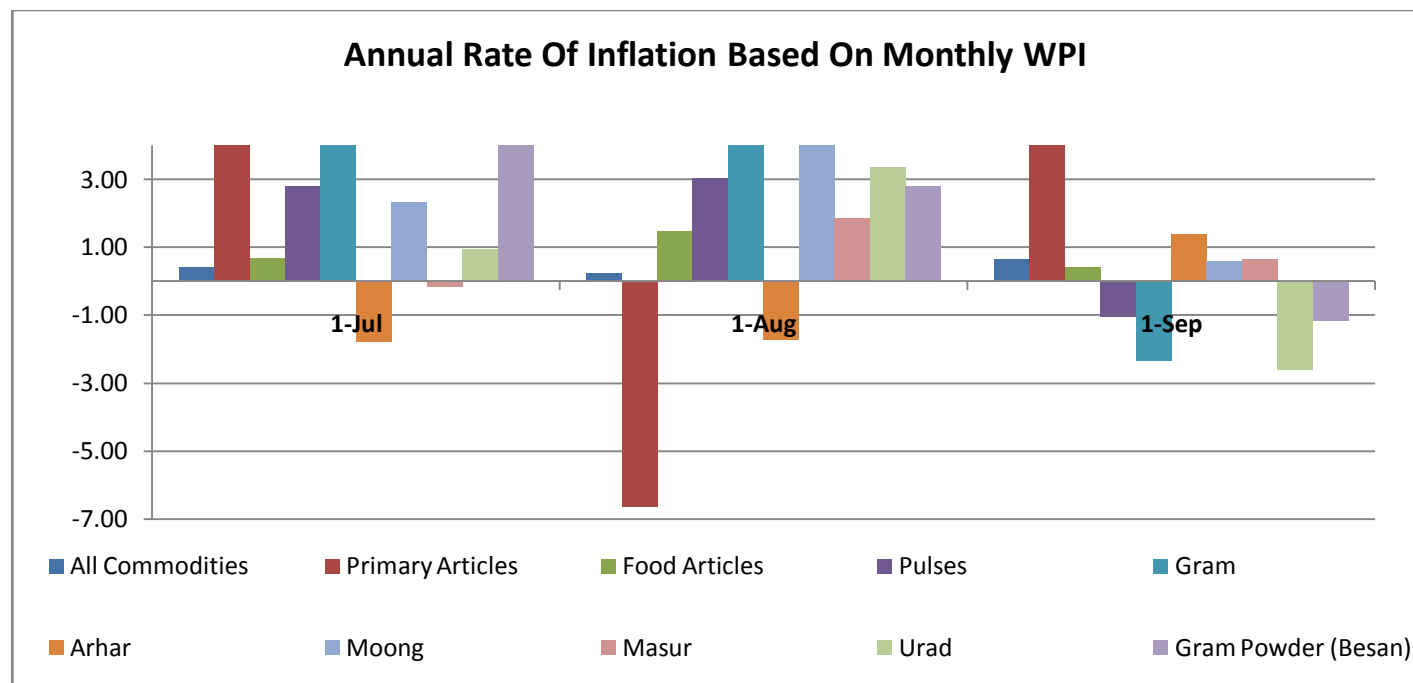

Highlights-Domestic Market:

- **Rabi pulses sowing was down by 28.11% to 39.06 lakh ha. as on 9th Nov-2018 .Chana sowing has been reported down by 32.92 % to 27.14 against 40.46 lakh ha,Masur sowing was down by 41.10 % to 3.11 lakh ha against 5.28 lakh ha, Pea sowing was reported down by 25.67 % to at 2.49 against 3.35 lakh ha,Urad sowing was recorded 13.68% down by 0.82 lakh ha against 0.95 lakh ha and moong sowing was up by 61.11 % to 0.259 against 0.18 lakh ha.**
- **Firmness in cash chana market continues on the back of poor arrival in major markets ,good festive demand and buyer's increased interest at current level.**Millers from Indore are buying chana from Gwalior line while Millers in Delhi are active for Rajasthan and MP line chana.Growing fear of lower crop due to lower area coverage so far and prevailing moisture stress in the field are not favorable for sowing.Dry condition may further delay sowing. Farmers in MP,Maharashtra ,AP and Gujarat are waiting for post monsoon rains.In major producing states like Raj,MP and Mah farmers have planted only 50 to 55% chana so far.Under emerging condition chana may move towards 5000 level soon. However,one correction is expected at this level.Chana is being traded at 4550-4650 in Delhi market.
- **Crop failure in Rajasthan has started impacting supply availability in north India and stockists** have restricted selling in anticipation of further upward momentum in the near to medium term.Nafed has stopped selling through tender, so millers are dependant on private market.In cash market moong is being traded at 5300-5600 per qtl and buyers are silent and increasing selling price.Quality moong is being sold at Rs5200-5400 in Ranchi,while in Jodhpur market it is being sold at Rs5800-6000 per qtl.New crop is from rabi season would be available from Feb-Mar amid procurement at MSP would further push moong price up.Myanmar too has increased CiF quote from \$735 to \$740 in last one week.Availability in Burma is lower too. Overall sentiments remain firm.
- **Drought like condition in southern India in monsoon season and also lower than normal rainfall in post monsoon months** has started impacting standing kharif crop- particularly in southern India. As a result, millers and stockists are actively buying in NAFED's auctions. Overall sentiment in the market has become positive, even though overall acreage has crossed last year's level and is up by 0.58% to 45.83 lakh ha as on 20th Sep 2018. Agriwatch expects 38-39 lakh MT crop in the first adv.estimate and it may revise it down further as farmers are repoting 5 to10% lower yield, which may push market further up in coming weeks. New crop has just started in Karnataka and Maharashtra and was traded at Rs4800.Old cropin Gulberga is being traded at 4400-4600 per qtl. Uptrend in Tur market is likely to continue this week too.
- **Arrival from upcountry markets of desi urad in major consuming markets has almost halted** amid lower stock of imported urad and lower crop size in Kharif& unfavorable condition for rabi planting have fueled Urad price in last one week and it would move up further on the back of good buying support from stockists.FaQ is being traded at Rs5000-5100. Supply form Latur,Udgirline is lower as Urad is consumed locally there due to higher price.Urad from Shivpuri-Katni line is being loaded for Kanpurline as parity is there.There is no new crop in near future. So Urad FAQ may touch MSP soon. SQ is already being traded at 5600-5700 per qtl. Analysing the situation exporters in Myanmar have increased quotes to \$640 &770 per MT for FAQ and SQ respectively.
- **Lentil market is expected to trade steady to firm. As of now, Import demand from Bangladesh is low as** Indian export quotes are high. Nepal is offering lentils around \$800 per tonne for export to Bangladesh. Quality of Indian lentils is better than lentils offered by Nepal. However, there is no short supply in the market. Stake holders should buy on dip. Govt. has accepted the CACP recommendation of hike in Chana & Lentils MSP for Rabi marketing year 2019-20. Chana & Masur MSP has been increased from Rs 4400 & Rs 4250 to Rs 4620 & Rs 4475 per quintal respectively. Furthermore, an analysis of cost of production of Rabi crops shows that farmers will get a maximum return of 75.2 percent for gram and 76.7 percent for lentils.
- **Peas market is expected to remain weak on lower demand at higher level despite lower stockat port.** Furthermore government has increased restriction on pea until 31st December 2018.

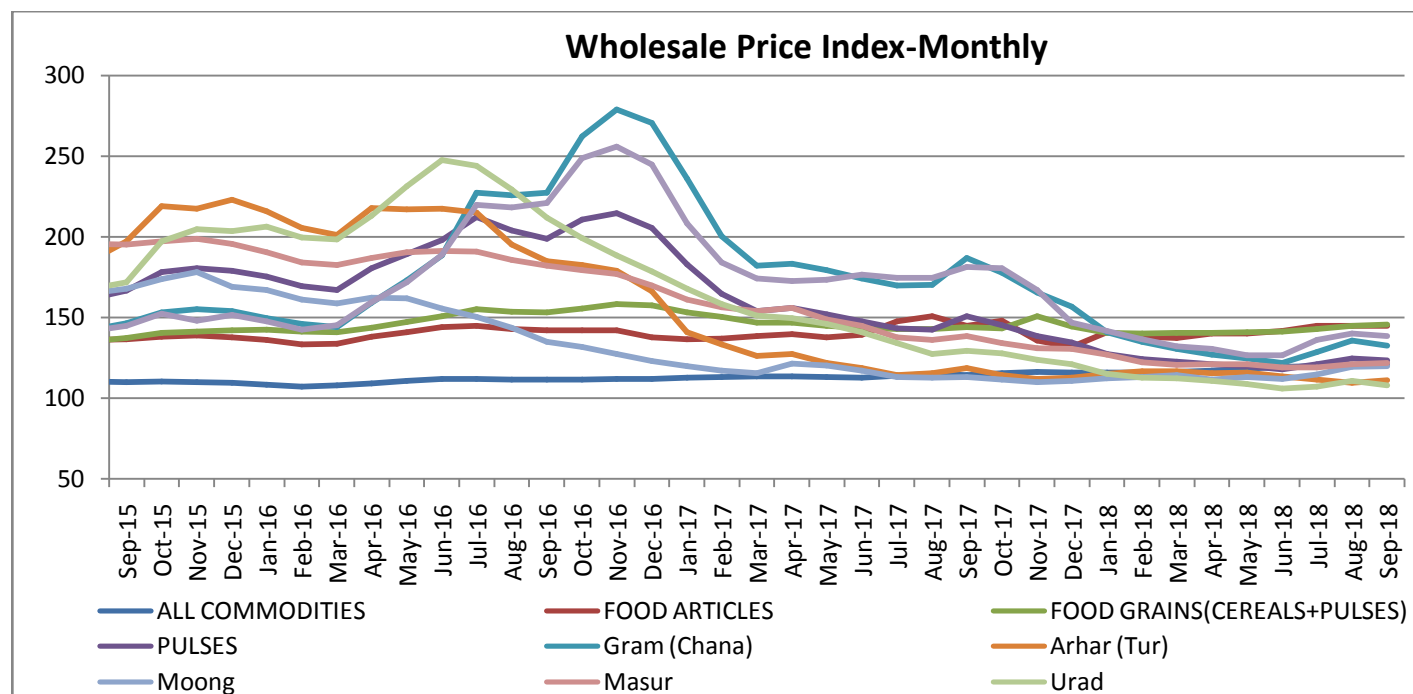

International Market:

- **As per the latest update by The Canadian Grain Commission (CGC) Canada loaded 33,600 metric tons lentils for export in September. It was 67,500 MT in Sep 2017. In August 69,100 MT had been shipped. Canada has exported total 102,600 MT lentil for this MY against 69,800 MT same period last year.**
- **Global chickpea markets traded almost mixed. Kabuli traded slightly weak while desi type traded firm due to production concern in Australia. Planting started in mid Oct. Sowing progress in India too is not going well due to moisture stress in the field. Lower crop size in Australia may keep global market supported in coming weeks. Farmers in Australia have covered 1.46 million hectares, compared to 860,000 during the same period last year; while only 730,000 hectares of pulses have been planted so far, down from 2.417 million last year.**
- **Lentil Production in Canada is expected to decline by 15.31 % from 25.59 to 21.67 lakh tonne in 2018-19. Import has been estimated same as last year at 35,000 MT. Despite lower production carryout is expected to decrease slightly from 8.76 to 8 lakh tonne. Even area is expected to decline by 14.47 % to 15.25 lakh ha. It was 17.83 lakh ha last year. Yield has been estimated to remain same as last year at 1.44 tonne per ha. Export may increase by 16.88 % to 18 lakh tonne in 2018-19. It was 15.40 lakh tonne in 2017-18. Prices are likely to hinge in the range of \$370 to 400 per MT**
- **USDA production estimate for this year's crop is at higher side at 5.71 lakh MT. It is around 80 % higher than last year when chickpea production was registered at 3.16 lakh MT. Yield and area too are higher this year with favorable weather condition. Farmers had planted a total of 853,146 acres of chickpeas this year. Out of total acreage Kabuli share was 632,482 acres, small chickpea 209,338 acres & desi 11,326 acres.**
- **Global chickpea market traded steady during the week under review. Demand remains weak and higher availability of medium and small chana continues to weigh on market fundamental. According to Statistics, Canada has pegged chickpea production higher by 7% to 282,800 MT against provincial agri dept. estimate of 202,400 MT for 2018-19. Other agency have estimated production at 2.64 lakh tonne against 1.02 lakh tonne in 2018-17-18. Prices are likely to move in the range of \$450 to \$480 per tonne.**
- **Dry pea area in Canada is expected to decline by 11.71 % to 14.62 lakh ha in 2018-19. It was 16.56 lakh ha last year. Yield is expected to increase slightly from 2.50 to 2.55 tonne per ha in 2018-19. Production is likely to decline by 11.60 % to 36.35 lakh tonne in 2018-19. It was 41.12 lakh tonne in 2017-18. Import is likely to increase from 12 to 15 thousand MT. Export is likely to decline by 6% from 30.86 to 29.00 lakh tonne in 2018-19. Domestic use is likely to increase by 30.81 % to from 6.88 to 9.01 lakh tonne. Prices are likely to hover in the range of \$220 to \$250 per MT.**
- **Chickpea area in Australia is expected to decline by 70.70 % to 3.27 lakh ha in 2018-19. It was 11.16 lakh ha in 2017-18. Production has been pegged at 3.51 lakh tonne, lower by 69.43% from last year (2017-18). Even lentil area is expected to decline by 15.86 % to 2.97 lakh ha in 2018-19. It was 3.53 lakh ha in 2017-18. Pea area is expected to decline by 23.42 % to 1.70 lakh ha in 2018-19. Production is likely to decline by 28.03 % to 2.08 lakh tonne. As demand from global market remains weak, farmers would prefer to reduce area under pulses. Major buyers like India is out of global market right now due to ample availability of pulses in India.**
- **Myanmar exported around 7 lakh tonne pulses and beans in last six months beginning from April-2018 despite restricted buying by Indian importers. Till August, India imported pulses and beans from Myanmar under restricted quota and considering the ample availability in domestic market, India is not going to allow pulses import beyond limit with certain conditions/licence to import according to Min Ko Oo, secretary of Myanmar Pulses, Beans & Sesame Seeds Merchants Association.**
- **Normally, Myanmar imports 12 to 15 lakh tonne pulses and beans annually. This year Myanmar might be able to export 12 lakh tonne pulses and beans. Pulses prices are lower in Myanmar as major buyers like India is almost out of market. Besides India, Bangladesh, Pakistan, and Nepal buy beans and pulses from Myanmar**

Weekly Outlook: -Pulses prices are likely to move up this week too.

Monthly Wholesale Price Index:**Annual Rate Of Inflation:**

Index Numbers of Wholesale Price in India (Base: 2011-12=100)

Pulses WPI decreased by 1.3point from 124.5in Aug to 123.2.in Sep-2018.

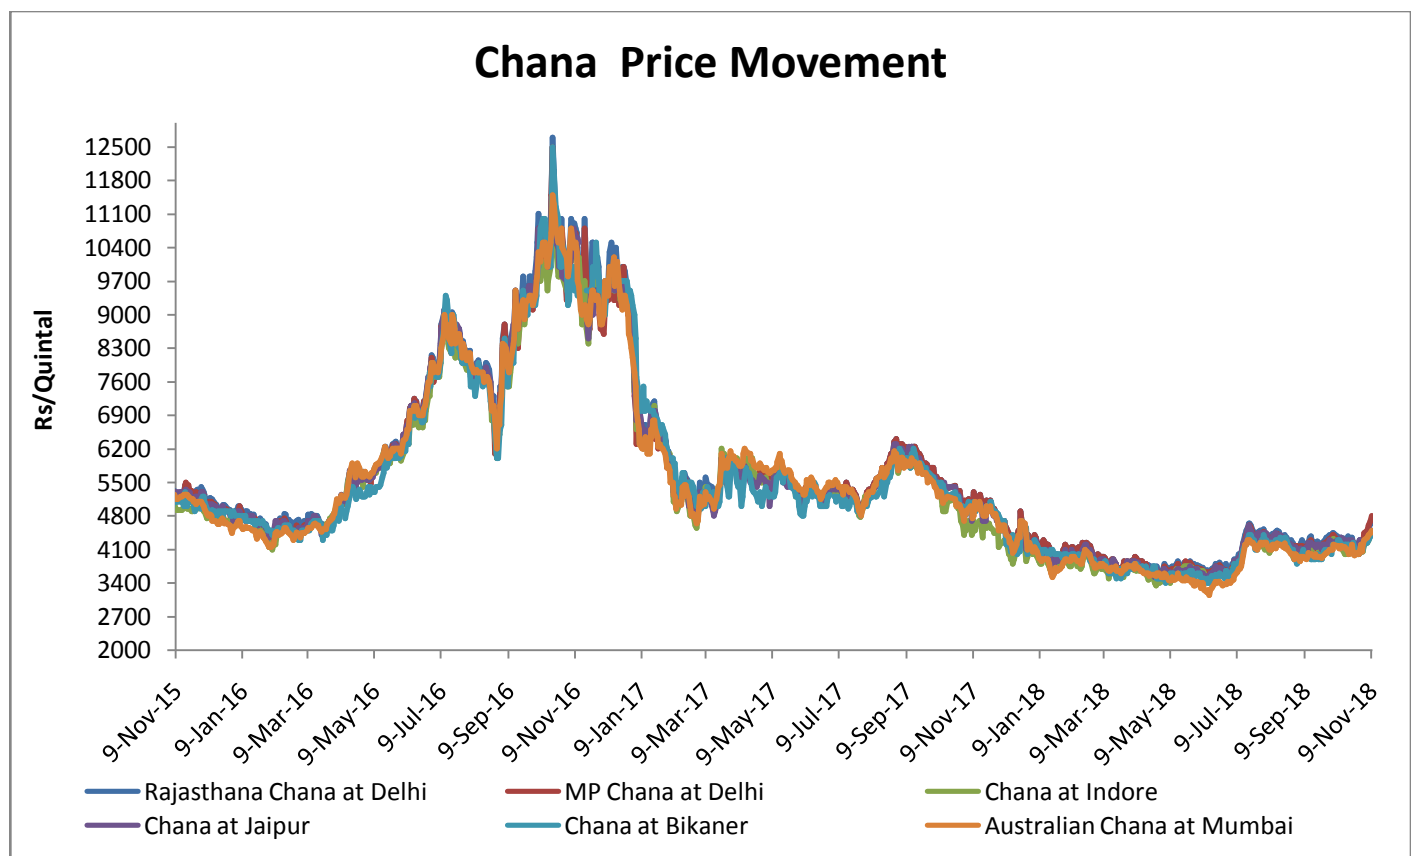

Pulses-Wise Scenario:

Chana

Current Scenario:

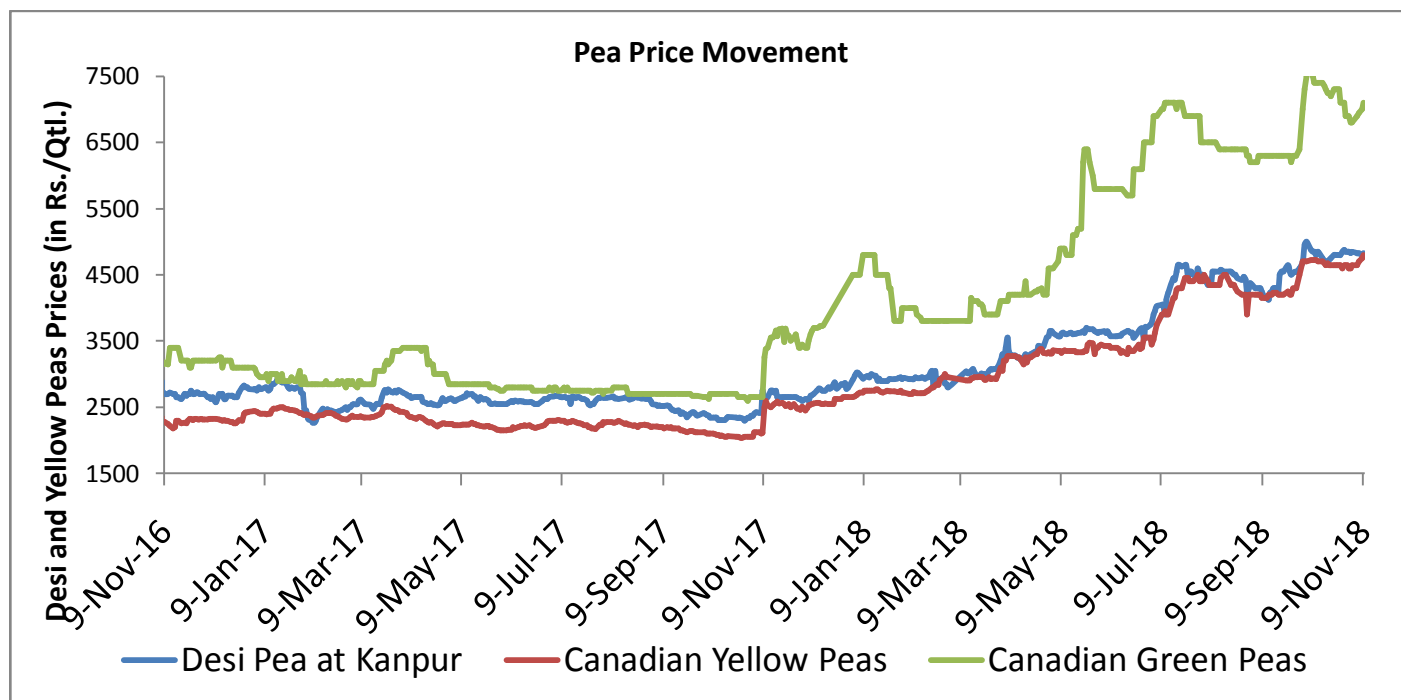

Firmness in cash chana market continues on the back of poor arrival in major markets, good festive demand and buyer's increased interest at current level. Millers from Indore are buying chana from Gwalior line while Millers in Delhi are active for Rajasthan and MP line chana. Growing fear of lower crop due to lower area coverage so far and prevailing moisture stress in the field are not favorable for sowing. Dry condition may further delay sowing. Farmers in MP, Maharashtra, AP and Gujarat are waiting for post monsoon rains. In major producing states like Raj, MP and Mah farmers have planted only 30 to 35% chana so far. Under emerging condition chana may move towards 5000 level soon. However, one correction is expected at this level. Chana is being traded at 4700-4750 in Delhi market.

All India average price for Chana increased by 3.42 percent from Rs 4200 to 4375 per qtl. Australian Chana price too moved up by 4.4% to Rs 4450 per 100kg during the same period. Following graph illustrates the chana price movement in different markets:

Market Outlook: Chana may continue to trade firm this week too.

Peas (Matar):

**Market Recap:**

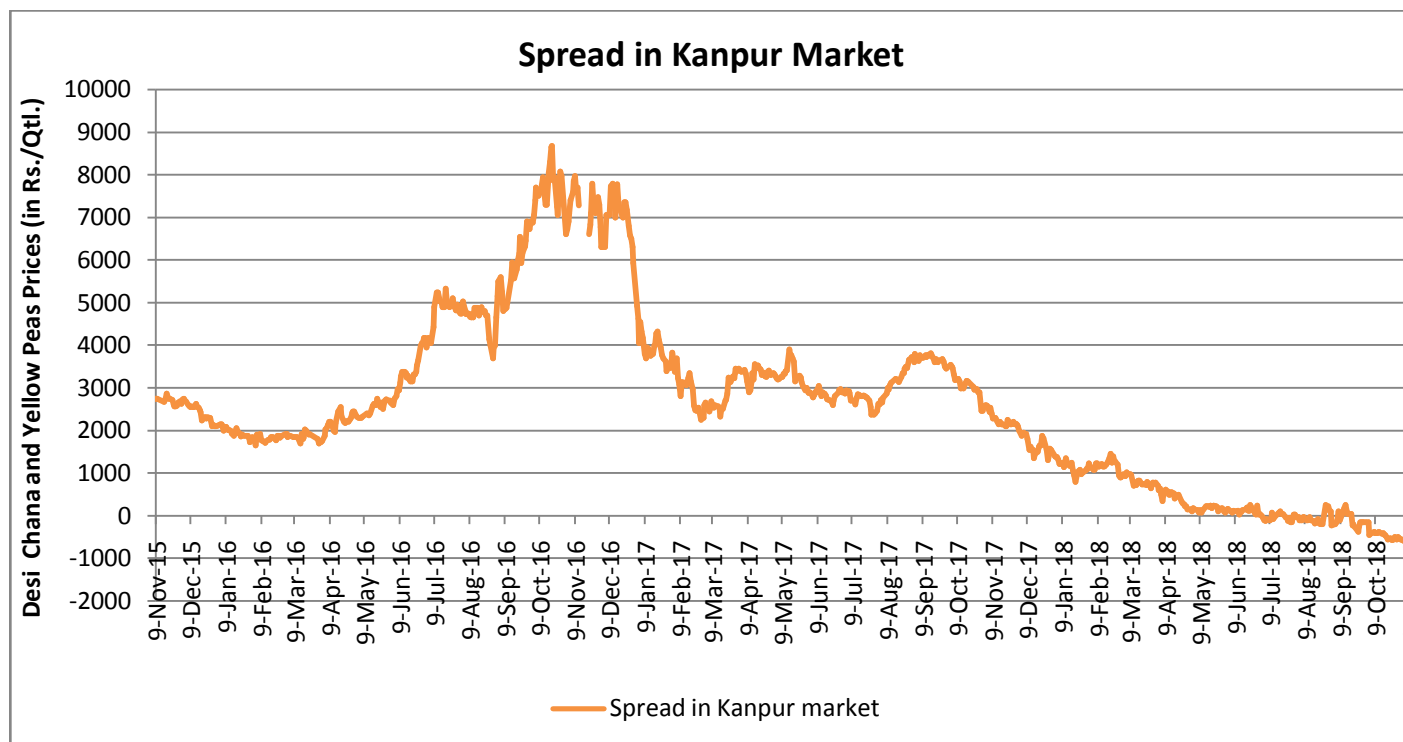

Pea prices moved up on decreasing stock at ports and increasing chana price despite decreased demand at higher level. If chana continues to trade up, matar price too would move up in tandem with chana price... Stock available in domestic market and at ports is said to be lower than consumption till Dec. So stake holders should buy and hold stock.. Firmness in pea market depends on chana price movement. Area in MP, UP and other states is lagging behind by 25% so far. Overall tone remains firm.

Current Market Dynamics & Outlook:

Pea traded at Rs 4850-4900 in Kanpur market, slightly higher than last week due to strong demand at current level. Higher import cost, import restriction till Dec and lower stock in domestic market may remain supportive in the near to medium term. Import is not possible till 30th Dec-2018. So, stake holders should buy after downward correction and hold it for the level of 5000..

Spread With Chana:

Spread between Chana and Peas, at Kanpur market still in negative zone despite smart gains in chana price. Spread is expected to move in the negative range of 250 to 400 per quintal in Nov on relative movement in Chana prices. Overall outlook seems steady to slightly firm

Market Outlook: Outlook remains steady to slightly firm.

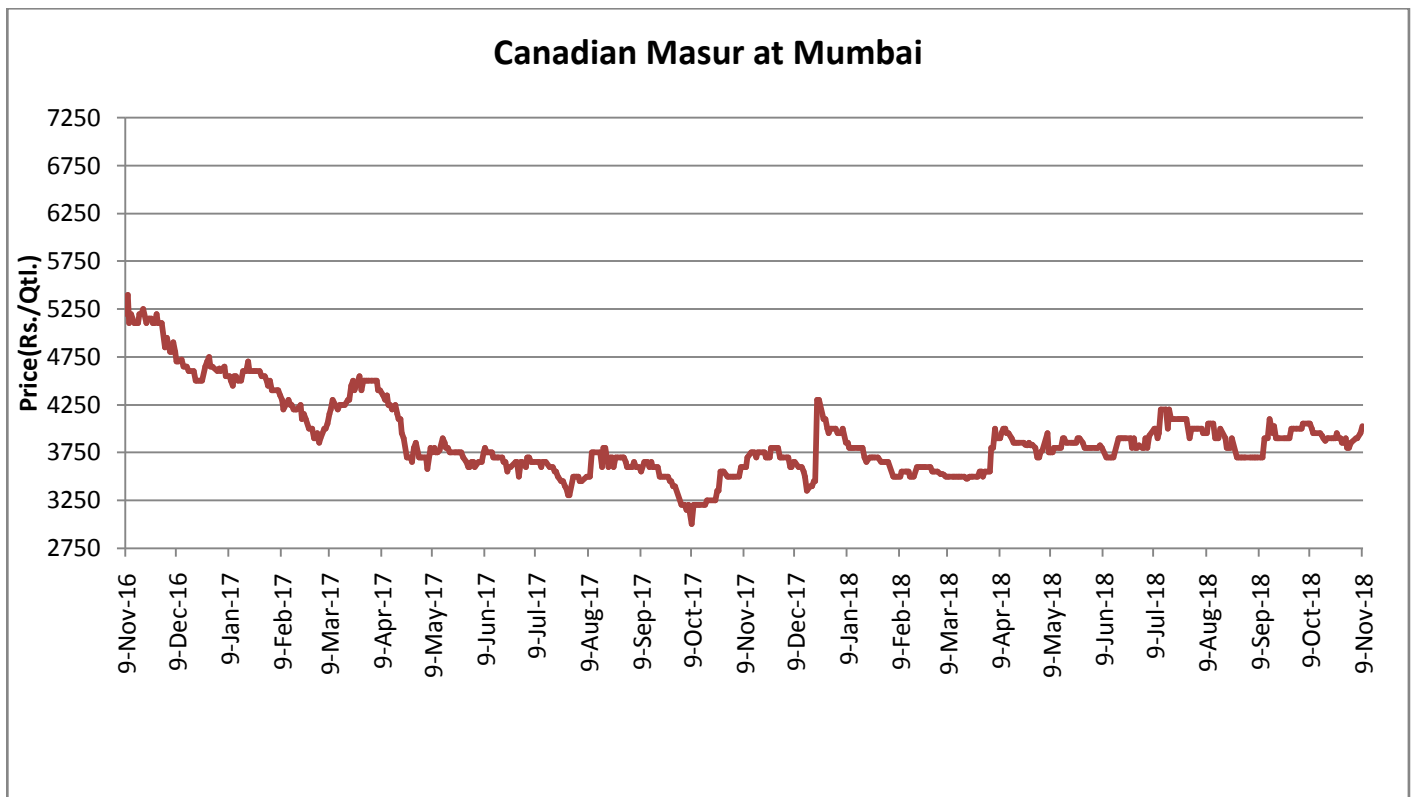

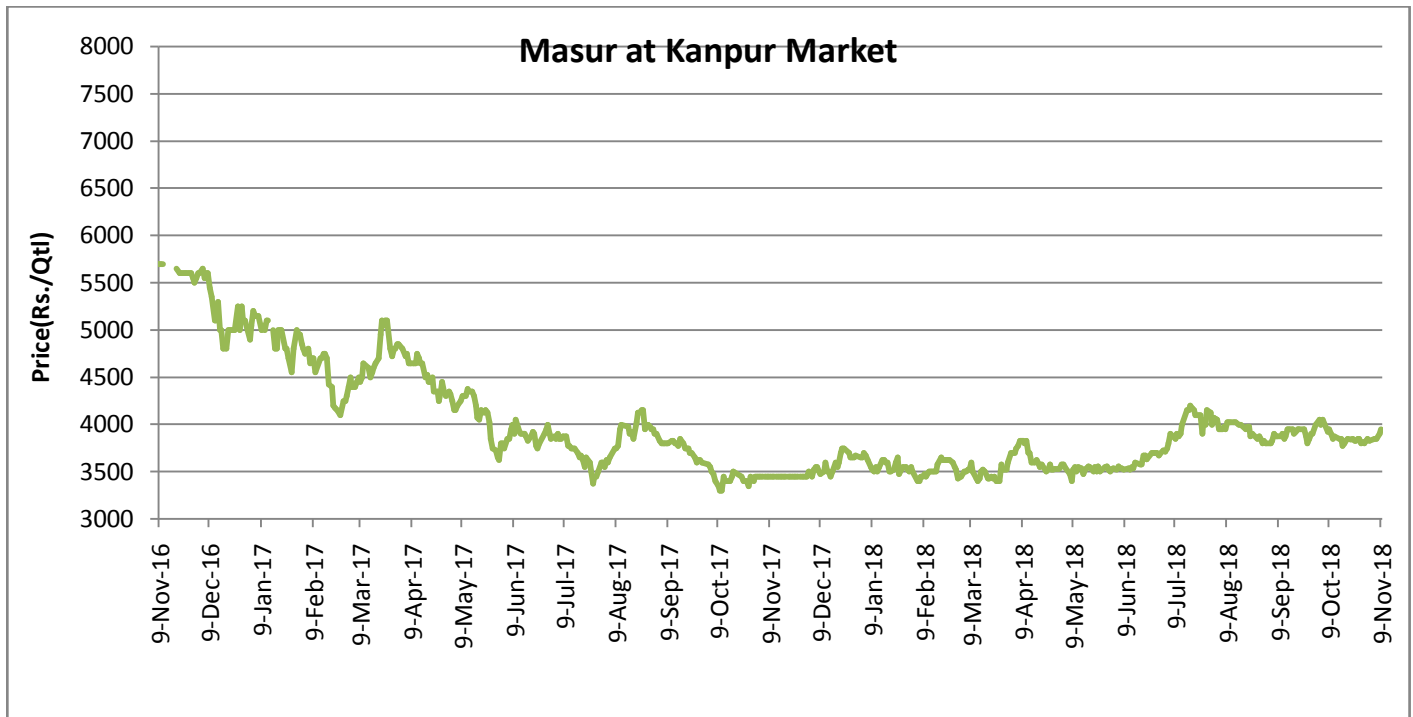

Lentils (Masoor):

Market Recap:

Area coverage is lagging behind in the initial state of sowing. It may pick up in Nov. Masur market is likely to trade firm in coming weeks. Demand is expected to improve in Nov. As per trade sources, India has exported 1000.45 MT of Lentil at an average FoB of \$821.65 per tonne during the month of September -2018 compared to 711.75 MT at an average FoB of \$893.78 per tonne in August-2018. Vessel (Sea Breeze) with 32350.00 tonnes of lentil is at berth for discharge. The vessel Sea Breeze is at berth since 04th October 2018. Despite continuous import, Lentil market is expected to move steady to firm on expectation of import duty hike and export incentive in Oct. Import quantity remains restricted amid hope of improvement in demand due to festive season. As there is plenty of stock lying in NAFED godowns, any major spike is unlikely. India has imported 34757.26 MT of yellow pea at an average CiF of \$274.95 per tonnes during the month of August -2018.

Current Scenario:

In Nov 1st week-2018, average price in key market Kanpur was up by 1.75 % to Rs 3900-3950 per qtl. Prices are likely to trade steady to slightly firm in Nov to a certain extent. Other pulses too remain supportive for lentil market:

Market Outlook: Prices are likely to notice steady to firm this week.

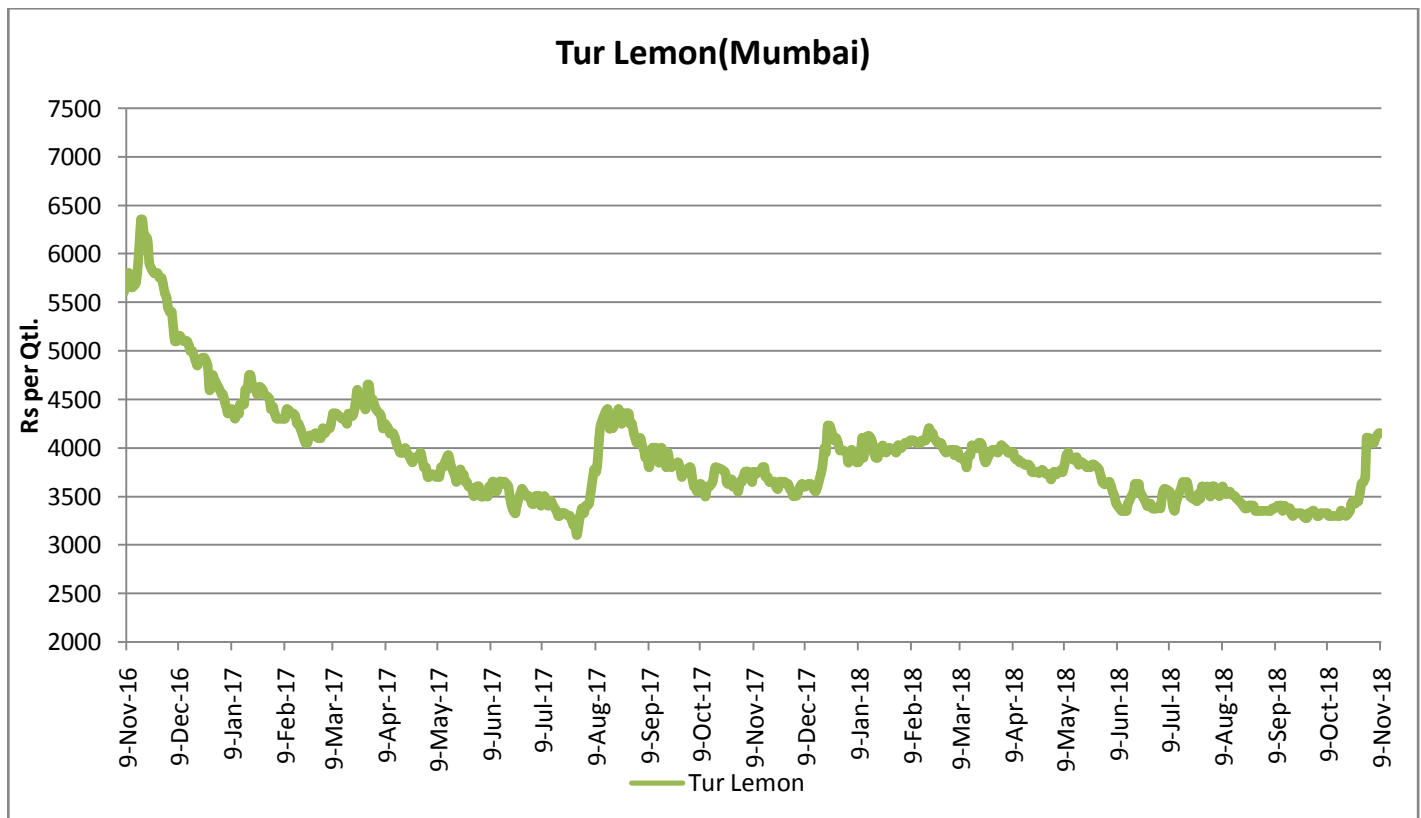

Pigeon Pea (Tur/Toor):

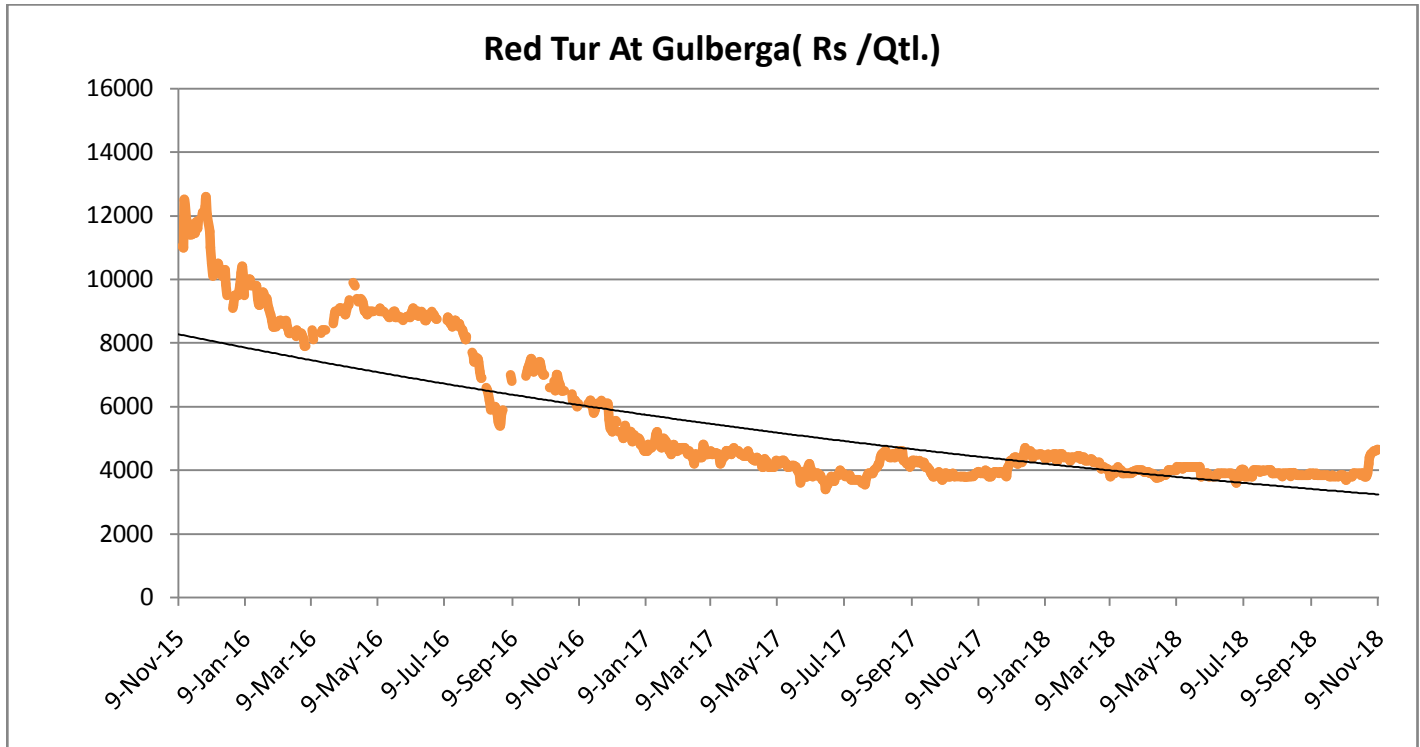

Market Recap:

Drought like condition in southern India in monsoon season and also lower than normal rainfall in post monsoon months has started impacting standing kharif crop- particularly in southern India. As a result, millers and stockists are actively buying in NAFED's auctions. Overall sentiment in the market has become positive, even though overall acreage has crossed last year's level and is up by 0.58% to 45.83 lakh ha as on 20th Sep 2018. Agriwatch expects 38-39 lakh MT crop in the first adv.estimate and it may revise it down further as farmers are reporting 5 to 10% lower yield, which may push market further up in coming weeks. New crop has just started in Karnataka and Maharashtra and was traded at Rs4800. Old crop in Gulberga is being traded at 4400-4600 per qtl. Uptrend in Tur market is likely to continue this week too. Cash market is likely to stay steady to slightly firm

Current Market Dynamics & Outlook:

Tur market is expected to stay steady to slightly firm on the back of higher MSP (Rs5675). Burma offered lemon tur new & old at \$540 per tonne basis Indian port. Linkely was offered at \$535 per tonne basis Indian port. Overall trend seems firm.

Market Outlook: Tur prices are likely to show steady to slightly firm movement in the weeks ahead as trading activities are likely to improve amid festive demand and fear of lower yield may push market further up.

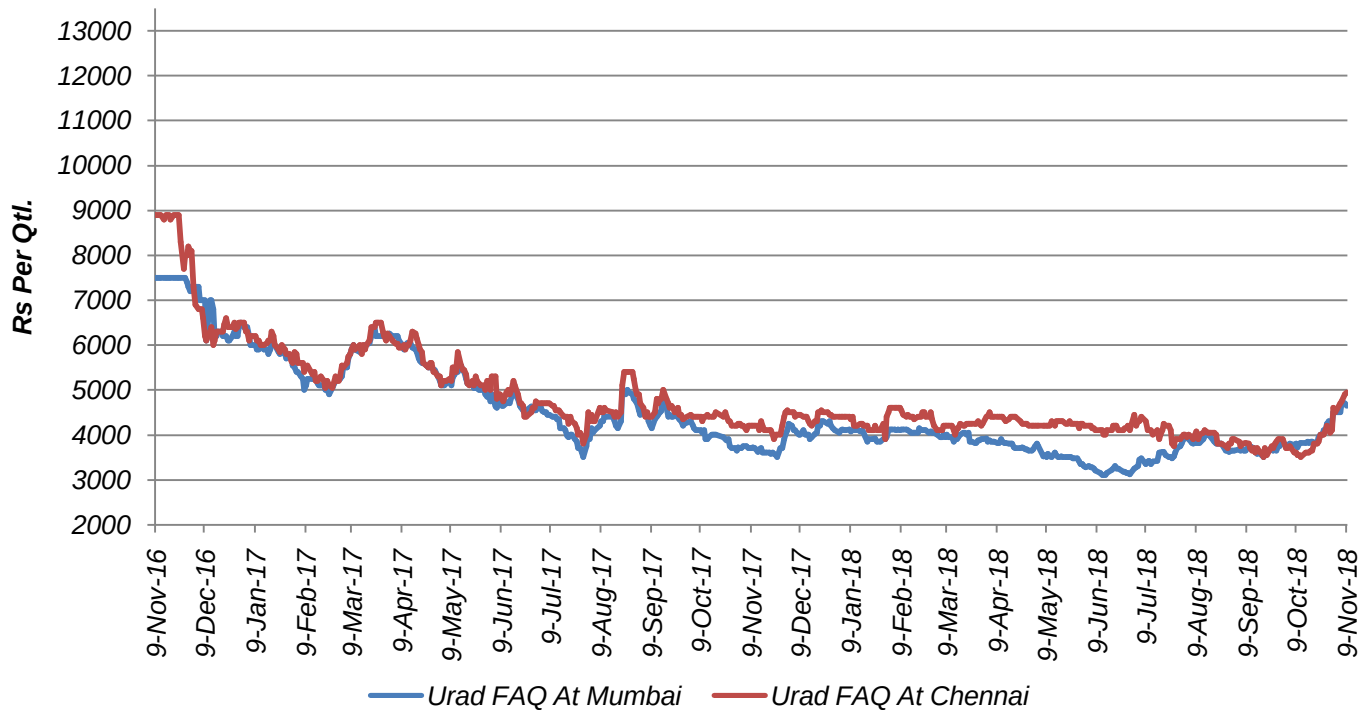

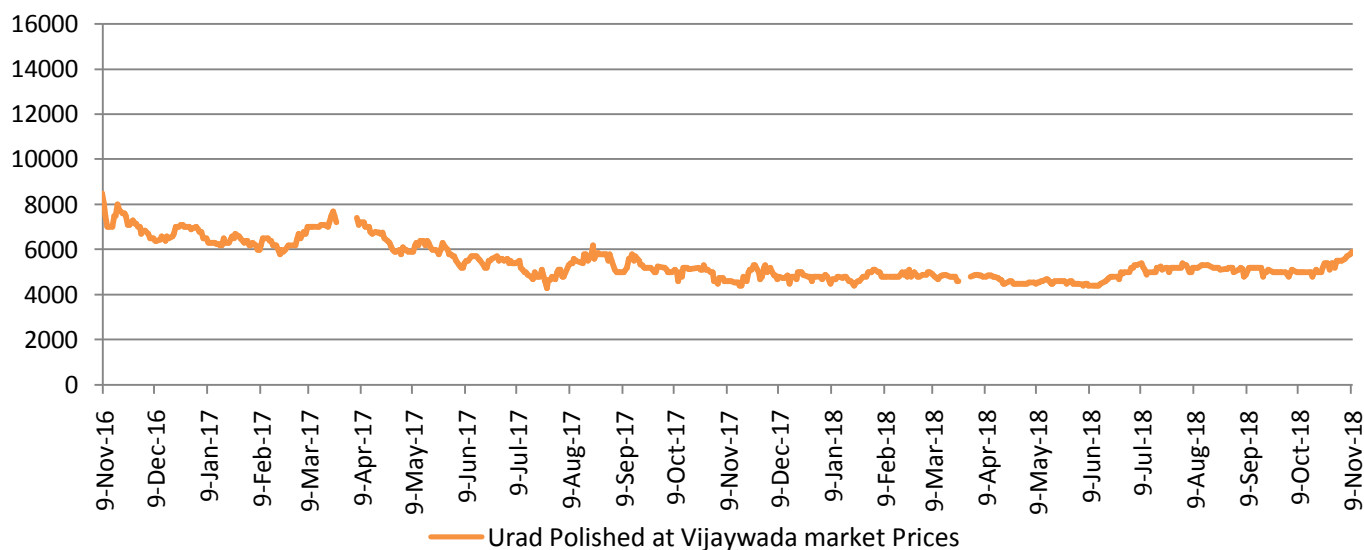

Black Matpe (Urad):

Arrival from upcountry markets of desi urad in major consuming markets has almost halted amid lower stock of imported urad and lower crop size in Kharif & unfavorable condition for rabi planting have fueled Urad price in last one week and it would move up further on the back of good buying support from stockists. FaQ is being traded at Rs5000-5100. Supply from Latur, Udgir line is lower as Urad is consumed locally there due to higher price. Urad from Shivpuri-Katni line is being loaded for Kanpur line as parity is there. There is no new crop in near future. So Urad FaQ may touch MSP soon. SQ is already being traded at 5600-5700 per qtl.

Rabi Urad area is lagging by 13.68 % to 0.82 lakh ha from last year as on 9th Nov-2018. Weather remains unfavorable. So production is expected to decrease further this year amid restricted import.

Current Market Dynamics & Outlook:

Urad FaQ at Mumbai (Rs.4650 per Qtl.) and Chennai (Rs.4900-4950 Qtl.) noticed firm tone. It traded steady in Vijaywada too. Steady to firm movement might be seen in Urad market, due to improved demand. The following graph shows the price movement in different markets:-

URAD FAQ**Urad Polished at Vijaywada**

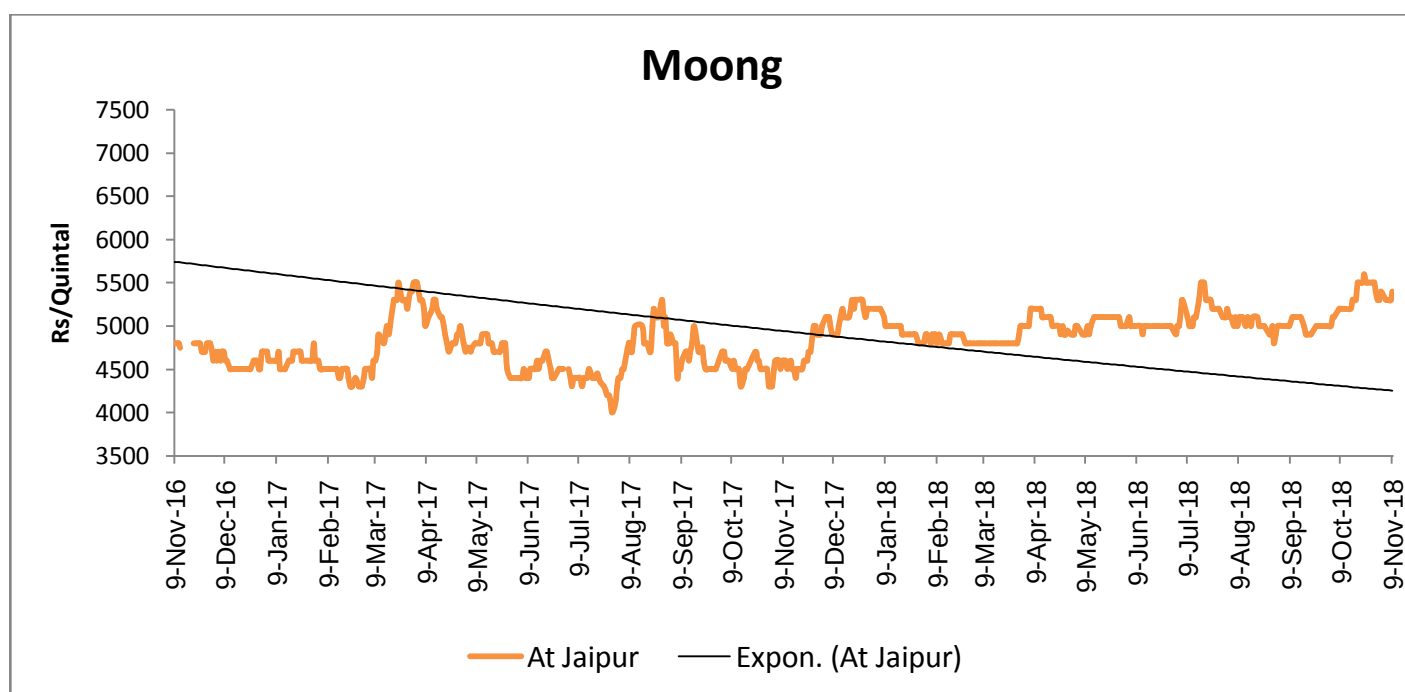

Market Outlook: Urad Prices are likely to show steady to slightly firm momentum this week too.

Green Gram (Moong):

Market Recap:

Crop failure in Rajasthan has started impacting supply availability in north India and stockists have restricted selling in anticipation of further upward momentum in the near to medium term. Nafed has stopped selling through tender, so millers are dependant on private market. In cash market moong is being traded at 5300-5600 per qtl and buyers are silent and increasing selling price. Quality moong is being sold at Rs5200-5400 in Ranchi, while in Jodhpur market it is being sold at Rs5800-6000 per qtl. New crop is from rabi season would be available from Feb-Mar amid procurement at MSP would further push moong price up. Myanmar too has increased CiF quote from \$735 to \$740 in last one week. Availability in Burma is lower too. Overall sentiments remain firm.

Market Outlook: Moong prices are likely to trade steady to slightly weak in the near term.

Pulses Wise Technical Outlook For The Week:-

Chana:

Outlook –We expect prices to move steady to slightly firm in the coming days.

- ❖ Chart depicts steady to slightly firm movement in Nov.
- ❖ RSI is moving up in neutral region.
- ❖ Expected price band for Chana in Delhi is 4650 to 4950 levels in this month.

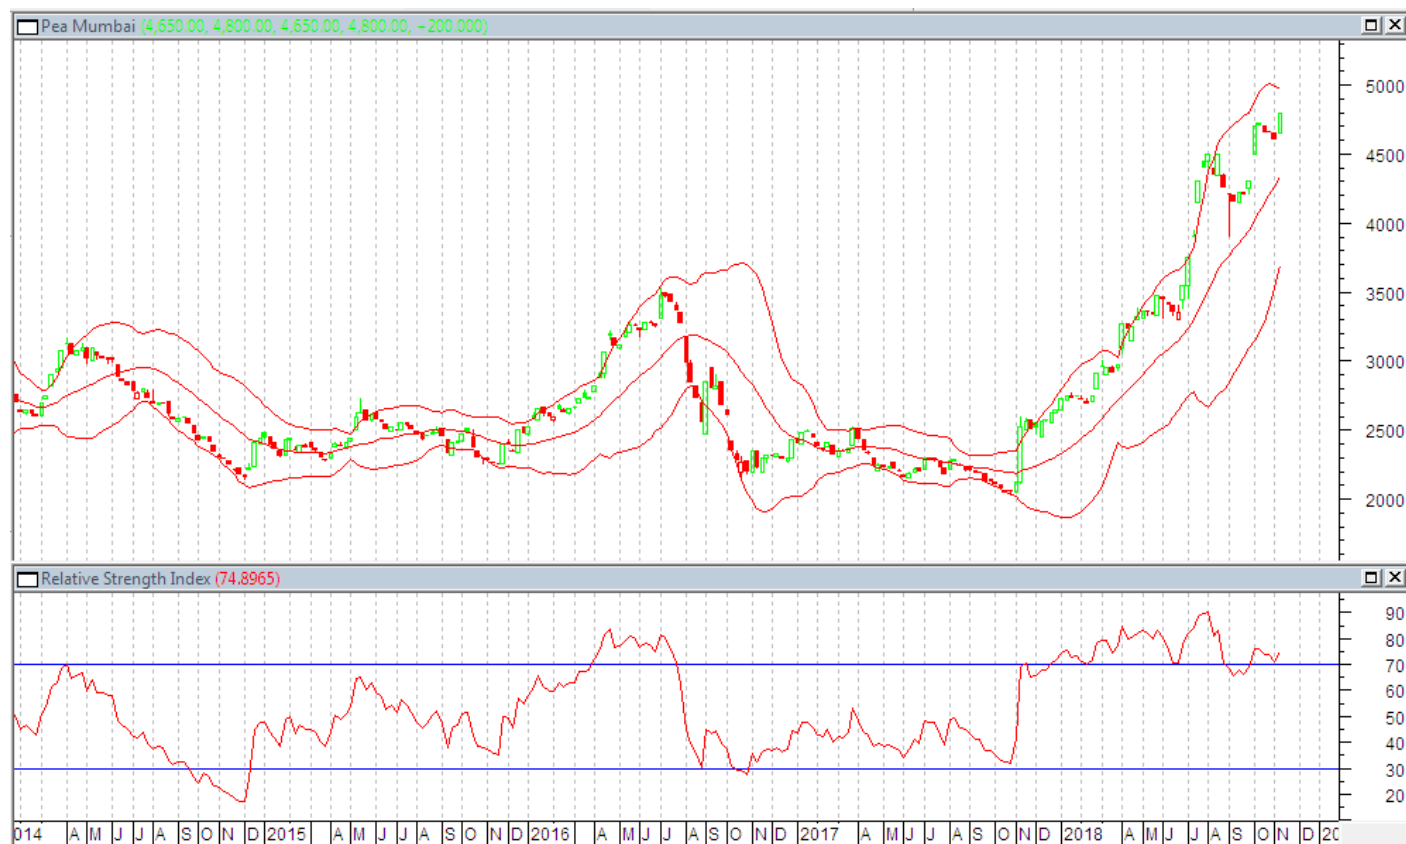

Strategy: Buy on dip

Trade Recommendations: Go long around 4650 with the first target of 4850 and second target 4950 with stop loss at 4600 level.

Delhi Chana Physical :

Support & Resistance				
S2	S1	PCP	R1	R2
4500	4600	4750	5000	5250

Spot Market outlook: Chana prices are likely to show steady to slightly firm movement.

**Peas:****Yellow Peas -Canadian Origin (at Mumbai) - Spot Market Weekly Chart**

Outlook - We expect prices to notice firm movement in this month taking clue from firm chana , improved demand and decreasing stock at ports.

- Candlestick chart denotes firm movement in the market.
- RSI is moving up in neutral region.
- Expected price band for pea is 4700- 5000 in this month.

Strategy: Buy on dip

Trade Recommendations: Go long around 4700 with the first target of 4950 and second target 4950 with stop loss at 4650 level.

Support & Resistance				
S2	S1	PCP	R1	R2
