Commodity-wise Domestic, International Prices and Arrivals at Different Centers

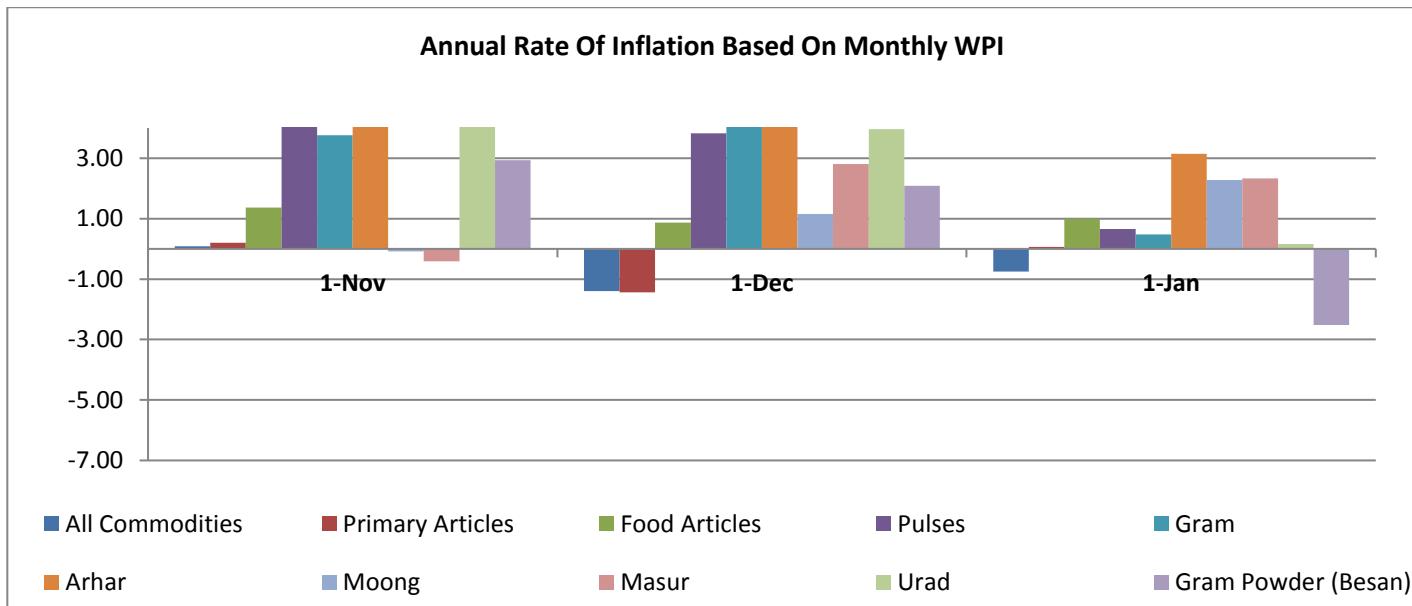

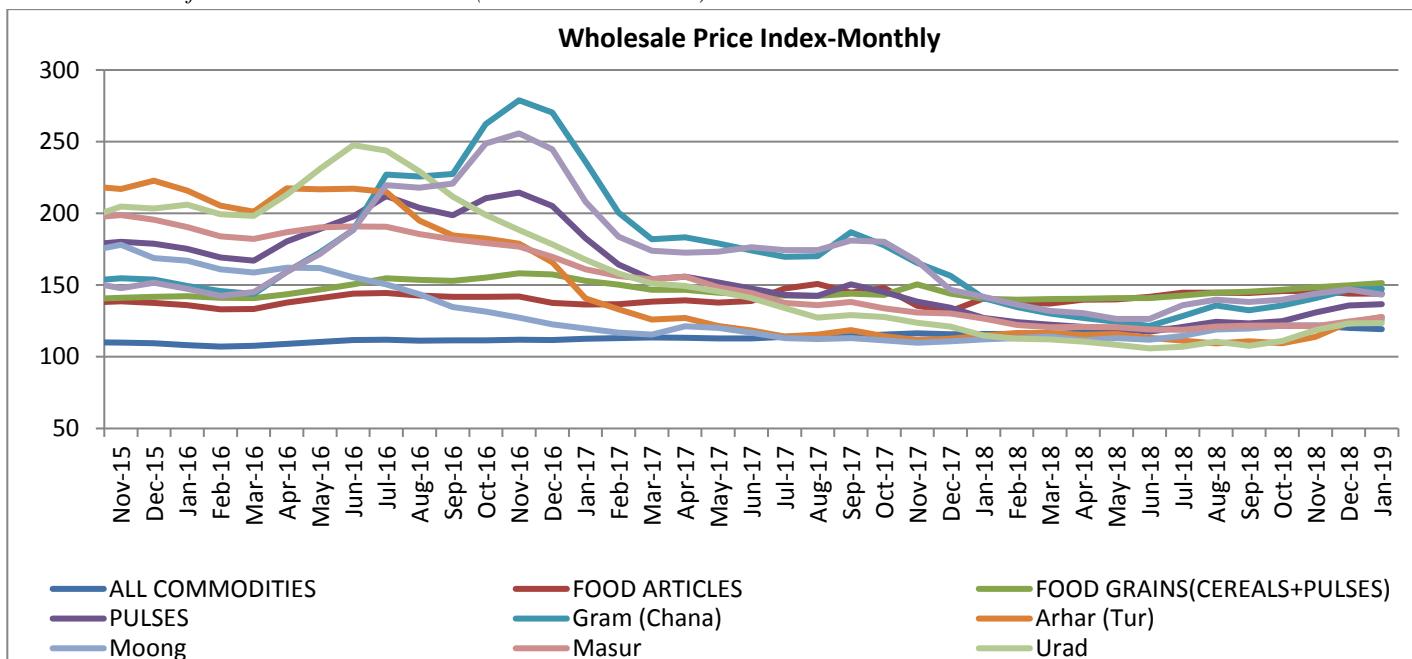

Highlights-Domestic Market:

- **Govt has released 2nd Adv. estimate for foodgrains on 28.02.2019.** As per the latest adv estimate tur production has been pegged at 3.68 million tonne against target of 4.5lakh tonne for 2018-19. For chana it has been pegged at 10.32 million tonne against target of 11.50million tonne . Urad production has been estimated at 26.8 in kharif and 0.69 in rabi season. Total production has been pegged at 3.36 million tonne. For moong it has been pegged at 2.41 million tonne including 0.57 million tonne rabi. Lentil production has been pegged at 1.53 lakh tonne. Total pulses production has been pegged at 24.02 million tonne.
- **Tur traded weak with increasing arrivals in major markets amid slower pace of procurement by various agencies.** Total procurement so far has reached at 1.44 lakh tonne by Nafed. Arrival pressure is likely to continue amid restricted buying by private trades. There is a common view in the market that tur price may go down by Rs100-150 more from current level as bulk users demand remains sluggish at this point of time. However, any major slight is unlikely as crop size is lower this year. Agriwatch estimate for tur production is 36.21 lakh tonne for the year while govt.'s 2nd adv estimate released on 28th Feb has put it at 36.8 lakh tonne. As carryout is higher, any major jump from current level is unlikely. Market is awaiting demand. Currently tur market is being traded at Rs 5000-5200 in Gulberga market. This weak it may trade slightly lower. Myanmar is offering tur at \$580 per MT. Total procurement from kharif-2018 has reached 144112.60MT as on 27th Feb-2019.
- **Urad market traded almost steady during the week under review.** Slackened demand from mills and higher production adv estimate amid higher carryout have capped market at current level. Govt has estimated 3.36 million tonne for 2018-19 in the 2nd Adv estimate released on 28th Feb-2019. Private trade see it at higher side. It includes 2.68 MMT from Kharif and 0.69 from Rabi. Despite lower crop size from kharif ,carryout is at higher side and it may restrict uptrend in coming weeks. With opening of weather demand is likely to improve. With ongoing procurement drive, any major decline is unlikely. Urad may continue to trade at Rs4100-4400 per qtl in various markets. In Chennai market urad is being traded at Rs4200-4250 per qtl. Burma is offering FAQ urad at \$460 & SQ at \$570 per tonne. Imported stock too is capping market to get firmer. Steady tone may prevail in urad cash market.
- **Steady tone prevailed in cash moong market while demand remains sluggish during the week under review.** Higher old stock have capped market to get firmer at current level despite commencement of rabi procurement drive. Millers are engaged on need based buying only. So prices are expected to stay steady. There is no parity for export while Myanmar is offering moong at \$680 per MT. With opening of weather demand is likely to improve. However, prices would continue to rule below MSP as bigger UP crop is expected from March end. Procurement drive remains slow. Moong in Jaipur market is being traded at Rs5600 while in other market it is being traded at Rs 5200 to 5600 per qtl. Supply side seems at ease.
- **Chana traded lower as expected last week and more down side is expected as arrival is likely to increase from MP and Rajasthan.** Besides, NAFED release too continues below Rs4000 per qtl through auction. Weather is likely to remain dry in coming weeks. Maximum old stock is available in Rajasthan and MP and higher size of new crop too. It may cap uptrend momentum to a certain extent. One positive factor seems here is demand improvement for holi and procurement drive. It may help market to recover slightly. However, overall, tone remains weak. Chana is being traded at Rs4100-4200 at Delhi market. It may come down below 4000 in Delhi market by end March. Some improvement might be seen due to festive demand. However, it would not sustain.
- **Lentil market is likely to stay steady to weak in near future.** Crop arrival is expected to be delayed due to rains in past week. There is no export demand from Bangladesh due to difference in buyer/seller bids. NAFED has stopped sale of masoor. Furthermore, Masoor crop is weak this year, which would lead to lower production. These developments have provided some support to domestic prices and meet shortages, if any, in MY 2019-20. Market is likely to fall by Rs 200-300 per quintal on low demand and fresh arrivals.
- **DGFT has separated HS code for moong and urad now.** Before this HS code for urad and moong was 07133100. Now it is 07133110 for urad and 07133100 for moong. Actually, it would make it easy to quantify import-export of both commodities now.

International Market:

- **Chickpea export from Argentina increased in Jan-2019 in comparison to Dec-2018 as per latest update by Instituto Nacional de Estadisticay Censos.** It has exported 7,559 MT in Jan against 5233 MT in Dec. Thus total sales during the MY reached to 141309 MT. However, it is lower by 15% from last year. UAE brought 1,698 MT, followed by Spain at 1,098 MT. Others countries have brought 1,824 MT.
- **Canada & US are going to object import restriction imposed by India in WTO.** As per Commerce Ministry Official both the countries are against the quantitative cap on pulses imports. This is the second objection in WTO against India. Earlier, both the countries had objected under-reporting of market price support for five varieties of pulses under the minimum support
- **Chickpeas production in Canada is expected to decrease from 311 to 130 thousand tonne in 2019-20.** Area under chickpeas too may decline from 176 to 74 thousand ha in 2019-20. Import is expected to decline from 25 to 18 thousand tonne. Thus total supply would decrease from 350 to 343 thousand tonne. However export volume may increase from 90 to 100 thousand Tonne. Carryout stock is expected to decline from 195 to 175 thousand tonne in 2019-20. Price is expected to hover in the range of \$520 to 550 per MT as per Statistics Canada and Agriculture.
- **Canada & US are going to object import restriction imposed by India in WTO.** As per Commerce Ministry Official, both the countries are against the quantitative cap on pulses imports. This is the second objection in WTO against India. Earlier, both the countries had objected under-reporting of market price support for five varieties of pulses under the minimum support price (MSP).
- **Lentil production in US is slightly down to 381384 MT against 339381 produced last year.** Earlier USDA had projected 398384 MT. Despite lower area coverage by 1.1 million acres production increased due to better growing condition this year. Average yield increased from 678 pounds per seeded acre to 1,078 pound per acre. US mostly produces green lentil and it is facing challenge due to surplus production in Canada and other parts of the world.
- **Recent rains and cold wave in Punjab region of Pakistan have greatly benefitted standing chana crop and local production of chana in Punjab(Pak) is likely To Increase 3 to 5 Lakh Tonne Due To Improved Weather Condition.** Punjab(Pak) is expected to increase by 2 lakh tonne from 3 to 5 lakh tonne this year. This means there would be no short supply of chana in Pakistan this year
- **Chickpea production in Canada, is expected to increase from 1.02 lakh tonne to 3.11 lakh tonne in 2018-19 due to higher yield and area.** Area too is expected to reach from 68 to 179 thousand ha with expected yield of 1.77 MT per ha. Export is expected to come down from 48 to 25 thousand MT in 2018-19. Due to higher production, total supply is expected to increase from 1.51 to 3.37 lakh tonne. Export is expected to decrease from 1.16 to 1 lakh tonne in 2018-19
- **Lentil production in Canada, is expected to decrease by 18% to 20.98 lakh tonne due to lower harvested area and yields.** Large green lentil production is estimated to have risen from last year, to 6 lakh tonne while red lentil production fell to about 12 lakh tonne. Production of the other types of lentil is estimated to have risen to 3 lakh tonne for 2018-19
- **Pea production in Canada is expected to decline from 41.12 to 35.81 lakh tonne in 2018-19 due to lower harvested area, particularly in Saskatchewan and Alberta despite similar yield seen last year.** Out of total, yellow peas production may touch 30 lakh tonne, while green pea at 4 lakh tonne. The are other varieties. Supply side has decreased slightly from 44.24 to 42.26 lakh tonne due to higher carry in. Average price may be hinged at \$240-270 per MT in 2018-19. Crop year is Aug to Jul in Canada.
- **Chickpea area in Australia is expected to decline by 70.70 % to 3.27 lakh ha in 2018-19.** It was 11.16 lakh ha in 2017-18. Production has been pegged at 3.51 lakh tonne, lower by 69.43% from last year(2017-18). Lentil area is expected to decline by 15.86% to 2.97 lakh ha in 2018-19. It was 3.53 lakh ha in 2017-18. Pea area is expected to decline by 23.42% to 1.70 lakh ha in 2018-19. Production is likely to decline by 28.03 % to 2.08 lakh tonne.

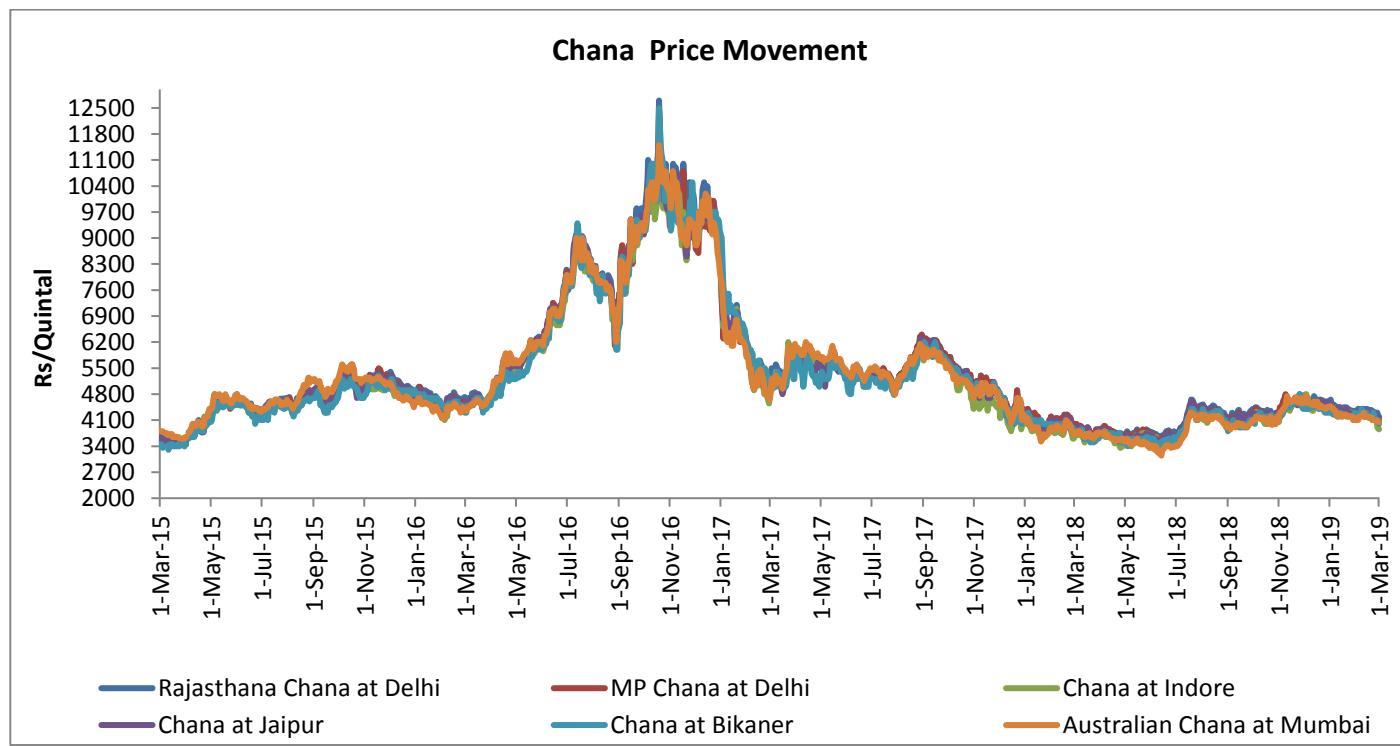

Monthly Outlook: -Pulses are likely to trade steady to slightly weak..

Monthly Wholesale Price Index:

Annual Rate Of Inflation:
Index Numbers of Wholesale Price in India (Base: 2011-12=100)

Pulses WPI increased by 0.9 point from 135.8 in Dec to 136.7 in Jan-2019.

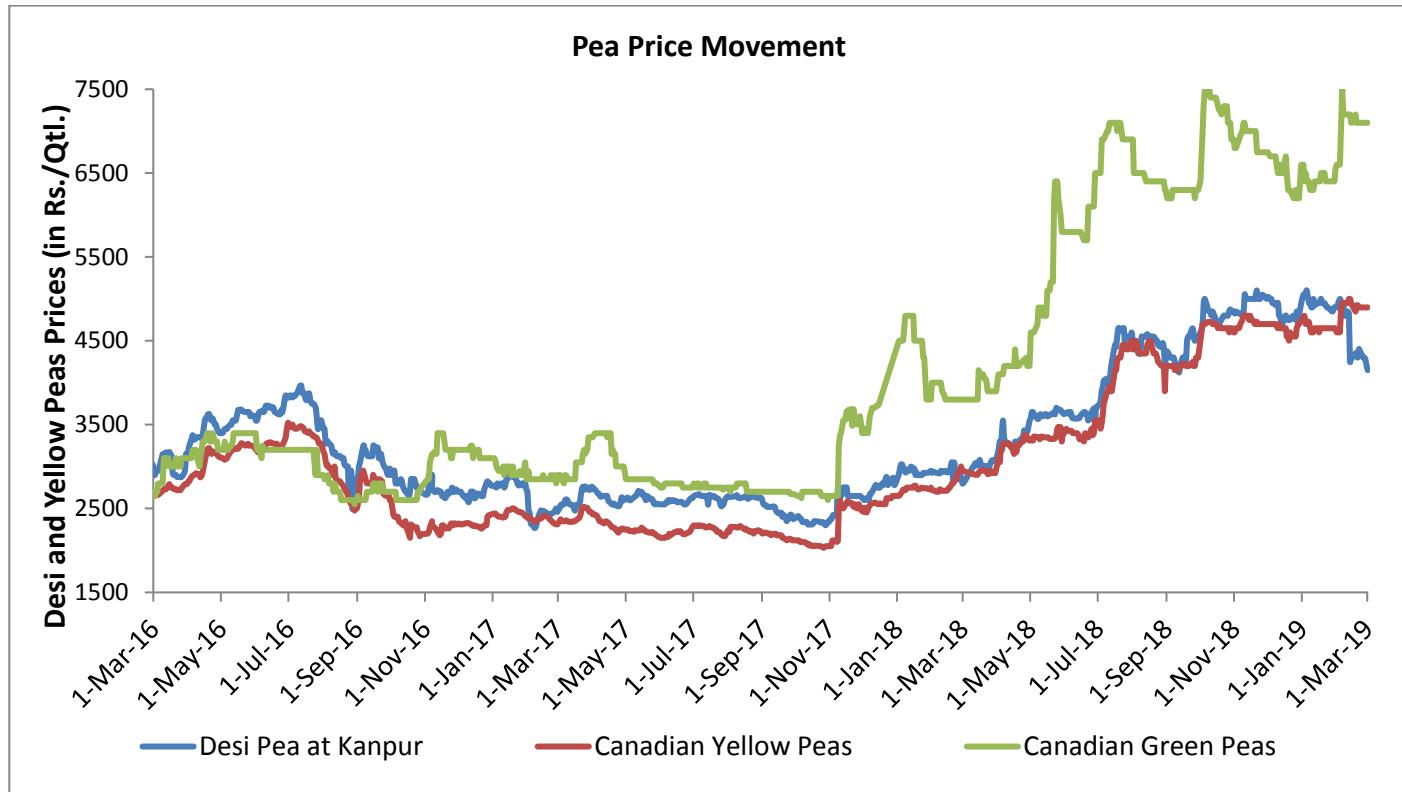

Pulses-Wise Scenario:
Chana
Current Scenario:

Chana cash market traded weak in the first half of the review week and recovered slightly at week end. Recovery is unlikely to sustain as supply side is continuously easing with higher arrival from MP and Rajasthan. Cash chana market may recover slightly due to higher besan demand for holi and wet weather conditions in some parts of major growing states. If hail storm occurs, market may move further up. However, firmness would not continue as there is plenty of stock in NAFED custody. Currently, in Delhi market chana is being traded at Rs 4100 to 4200 per qtl. With increasing pressure chana price in cash market may slip below 4000 in Delhi market. Some support might be seen with commencement of procurement. In normal condition market would move to Rs 4500-4600 in April/May. Import is not possible. Sudan offers chana at Rs 3900 at Indian port and some buyers are active.

All India average price for Chana decreased by 2.91 percent from Rs 4246 to 4124 per qtl. Australian Chana price too moved down by 1.80% to Rs 4070 per 100kg during the same period. Following graph illustrates the chana price movement in different markets:

Market Outlook: Chana may continue to trade range bound with weak bias likely to continue. Fundamentally, it lacks support due to higher stock in central pool and improved weather condition despite lower area coverage and halted import due to higher duty.

Peas (Matar):
Market Recap:

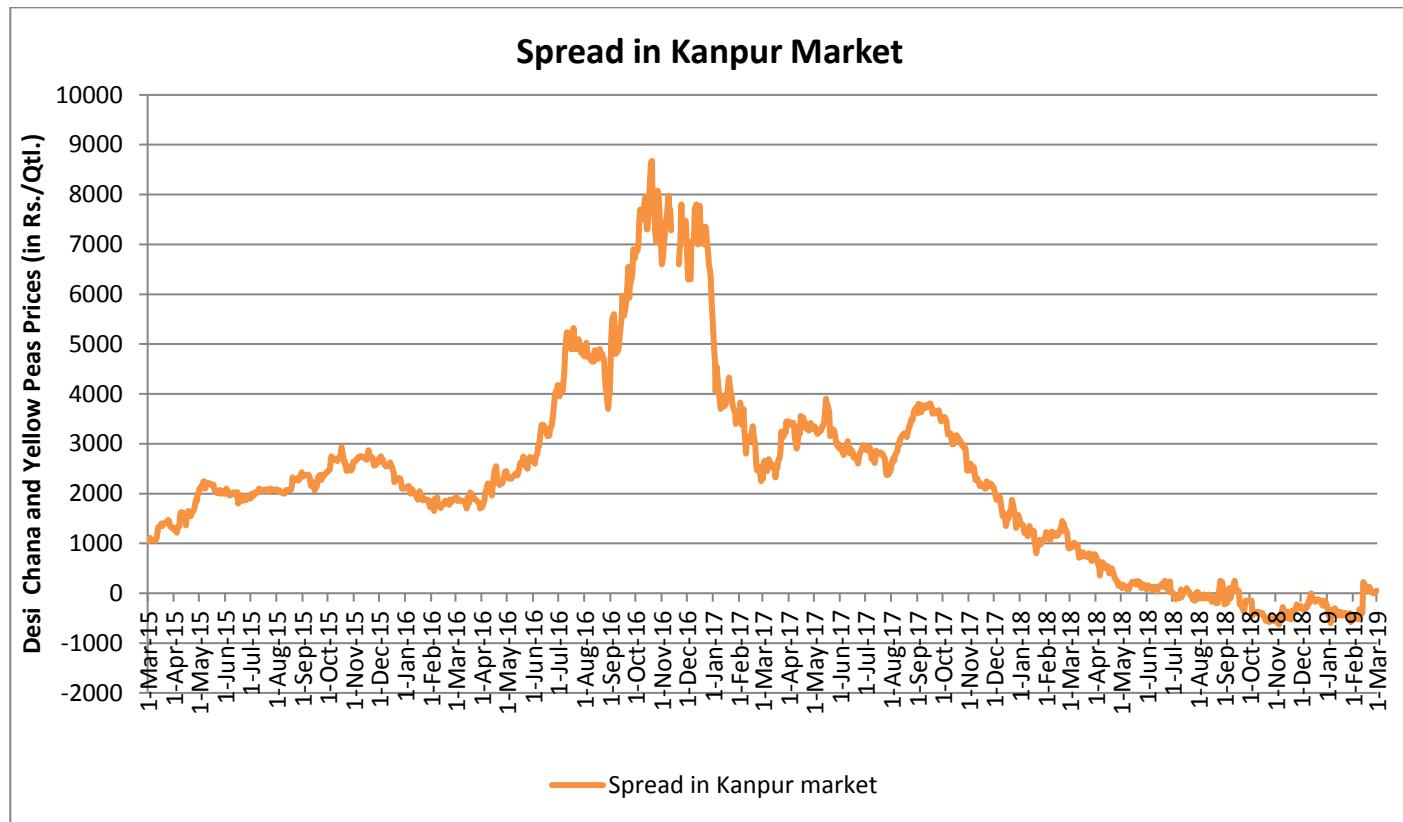

Pea market traded steady with weak bias likely to continue. New crop is expected from mid March and it would ease supply in domestic market. Pea in Mumbai market is being traded at Rs 4900 while in Kanpur market it is being traded at Rs 4375 per qtl. As chana price is decreasing and new crop is at hand, any firm momentum in pea market is unlikely this week. New crop in local market too would hit mandis from Mid March. Govt has already extended import restriction from Dec to March 2019 and it has lent some support to cash pea market amid lower stock at ports. Besides, pea in green form is available in local market and it is available at Rs 15-18 per kg. Overall sentiment remains weak. Area under pea is almost 11.36% higher this year at 10.45 lakh ha.. Overall tone remains weak in the near term. Selling on higher level seems good on rise.

Current Market Dynamics & Outlook:

Pea traded at Rs 4175 in Kanpur market, almost Rs 200 down from previous week due to weak demand and lower price for chana despite decreasing stock at port and import restriction. Market has already taken account of impact of extension of import ban till March-2019 amid lower stock at port. Consumption of pea in besan is weak as chana is available at cheaper price. In short term, demand is expected to remain weak due to higher availability of green vegetable and weak chana market. New crop is due too. The govt may increase import limit to 2 lakh tonne from April-2019. The move is said to be under consideration.

Spread With Chana:

Spread between Chana and Peas, at Kanpur market , has started moving in positive zone due to decreased pea price in Kanpur market. Spread is expected to remain in the positive zone of minus Rs100 to 200 in March on relative movement in Chana and pea price.

MarketOutlook: Outlook remains steady to slightly weak this week.

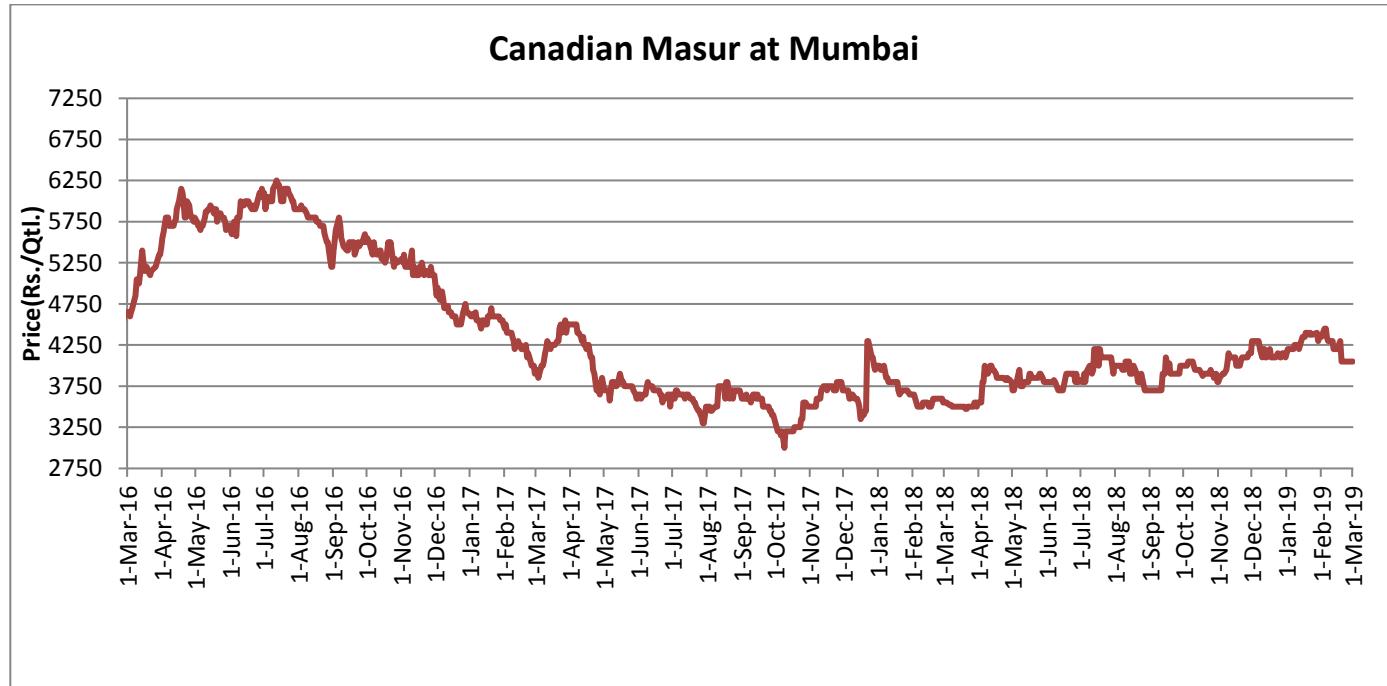

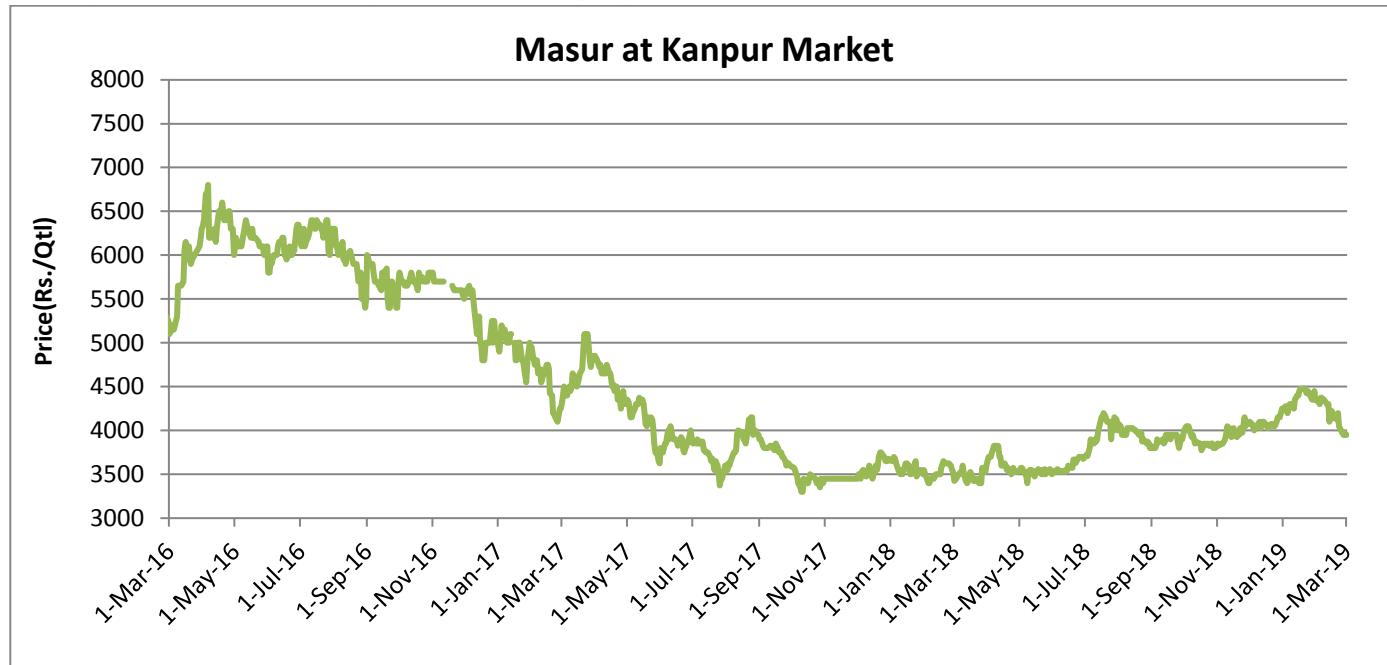

Lentils (Masoor):

Market Recap:

New crop started coming into mandi of MP and Uttar Pradesh .it is expected from Bihar from mid-March.Recent rains in major growing belt of MP and UP has provided much respite to late sown crop. So, some down ward correction might be seen in lentil cash market. However, if weather turns rough and hail storm occurs in the beginning of March ,some cap on decreasing trend might be seen . Arrival might be delayed by 15 days from late sown crop. So weather in next 10 days is very crucial for cash lentil market . Cash market may decrease further by Rs200 more..Demand is weak. Cash market may trade in the range of Rs3700-3900.. Steady to slightly weak tone may prevail this week.

Current Scenario:

In the 4th week of Feb-2019, average price in key market like Kanpur was down by 4.13 % to Rs 3960 per qtl. Prices are likely to trade steady to slightly weak in March to a certain extent. New crop will be available in domestic market from mid of this month..New arrival started clicking in in Ganj Vasoda and Pratapgarh. So any unexpected spike is unlikely at this level.Masur may trade in the range of Rs 3700-3900 in the near term.

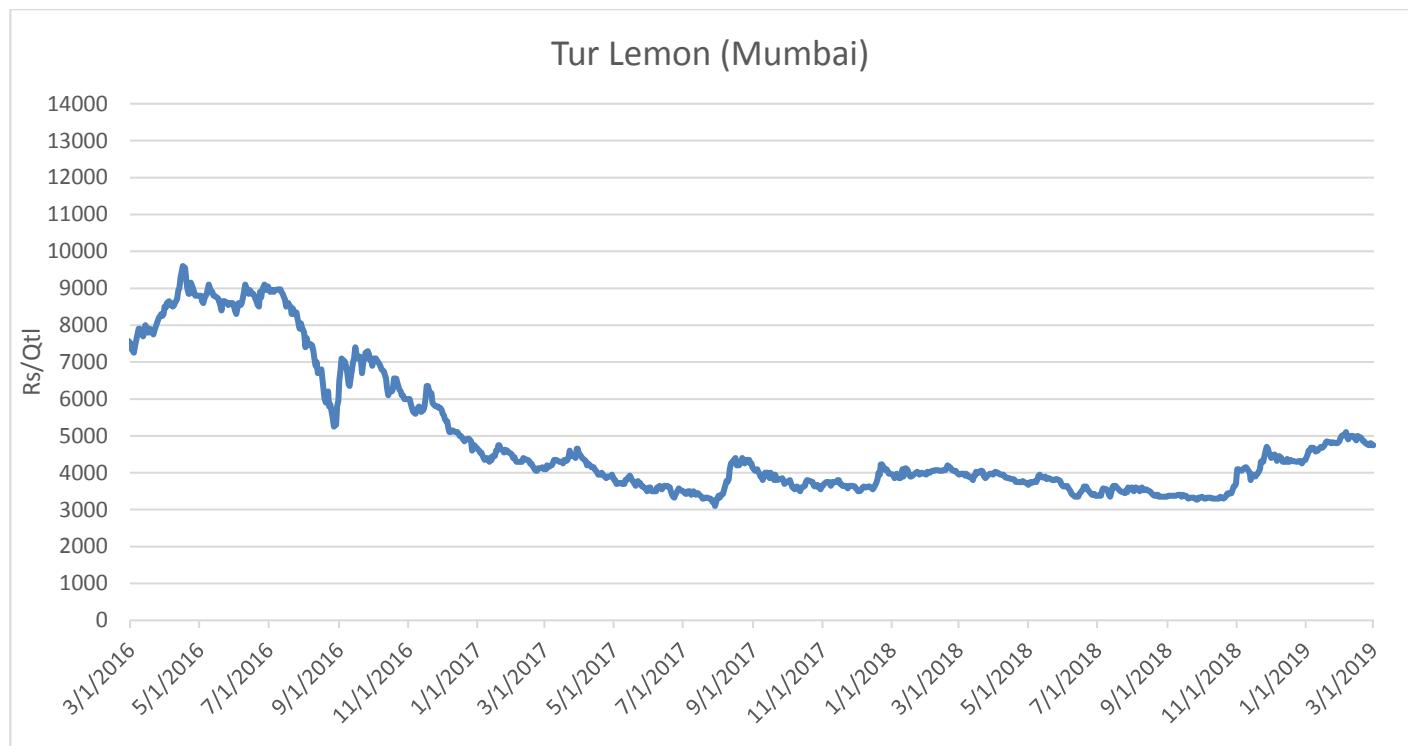

Market Outlook: Prices are likely to notice weak movement due to weak demand

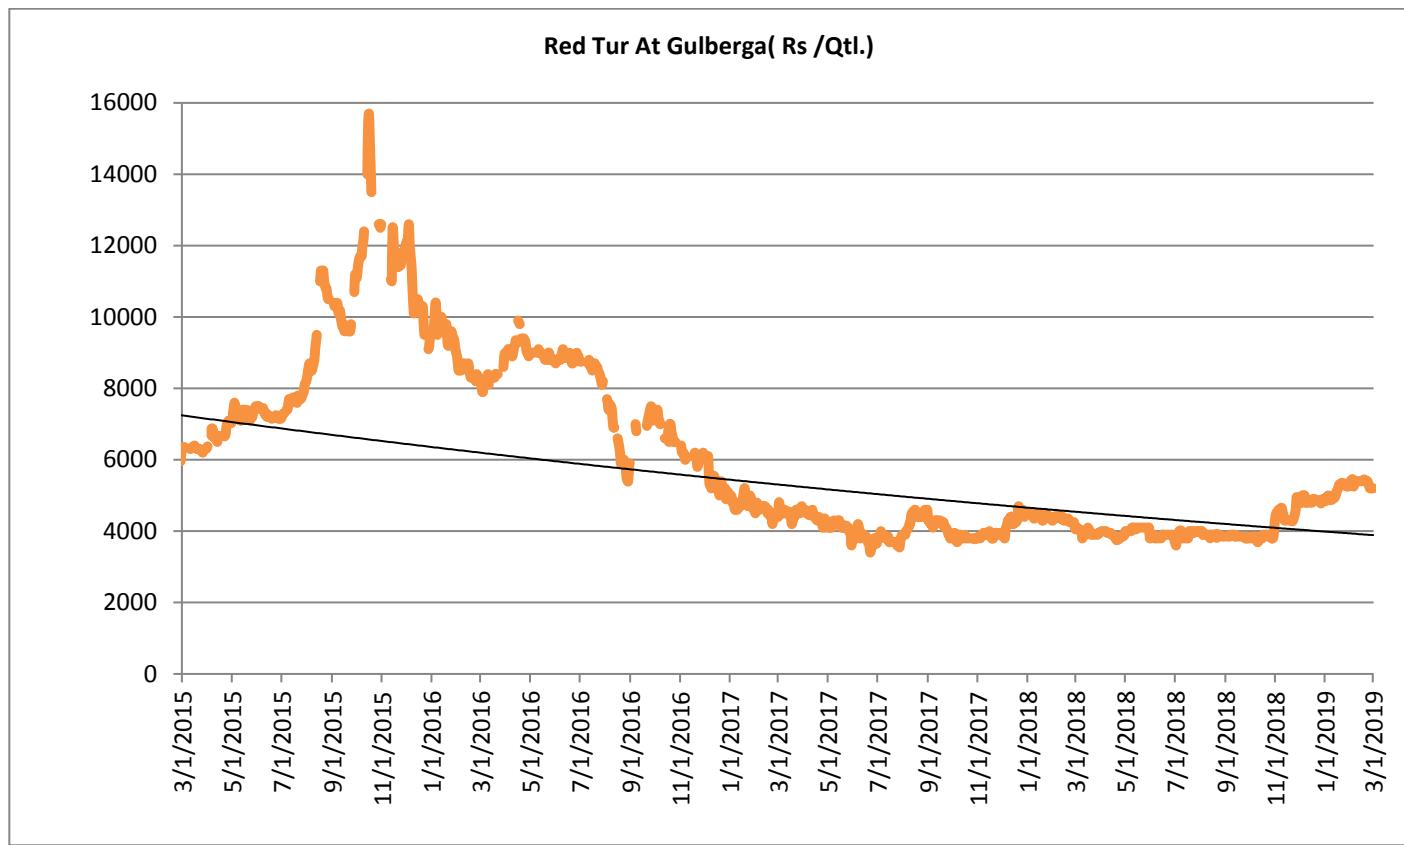

Pigeon Pea (Tur/Toor):
Market Recap:

Despite ongoing procurement drive and lower crop size tur market remains under pressure due to weak demand and higher availability of old crop at lower level. Stockists are releasing old crop. Tur market may dip further, by Rs 100-150 as arrival in major markets are increasing. Overall view for tur market remains firm and it would move up again in the medium term. In Gulberga market, Tur is being traded at Rs 5000 to 5200 while in Mumbai it is being traded at Rs4900-5000. On going procurement drive remains supportive. Besides, lower crop size (36.21 lakh tonne) against 38.67 lakh tonne last year may also help market to trade firm in the medium term.

Current Market Dynamics & Outlook:

Tur market is expected to stay steady to slightly weak due to poor demand and increasing arrival in major markets. Buying by private trade remains restricted. However, medium term outlook remains firm due to import ban till March-2019 and lower crop size (36 lakh tonne). Stake holders should buy on correction.

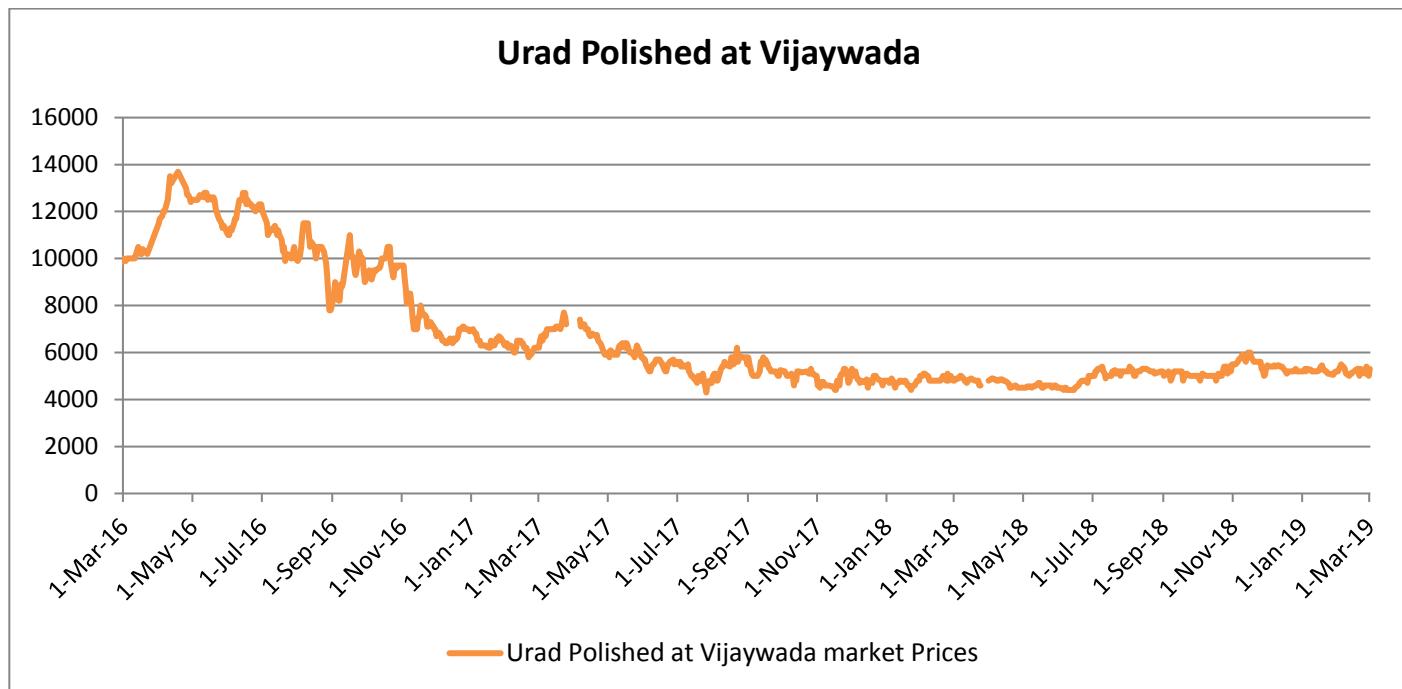

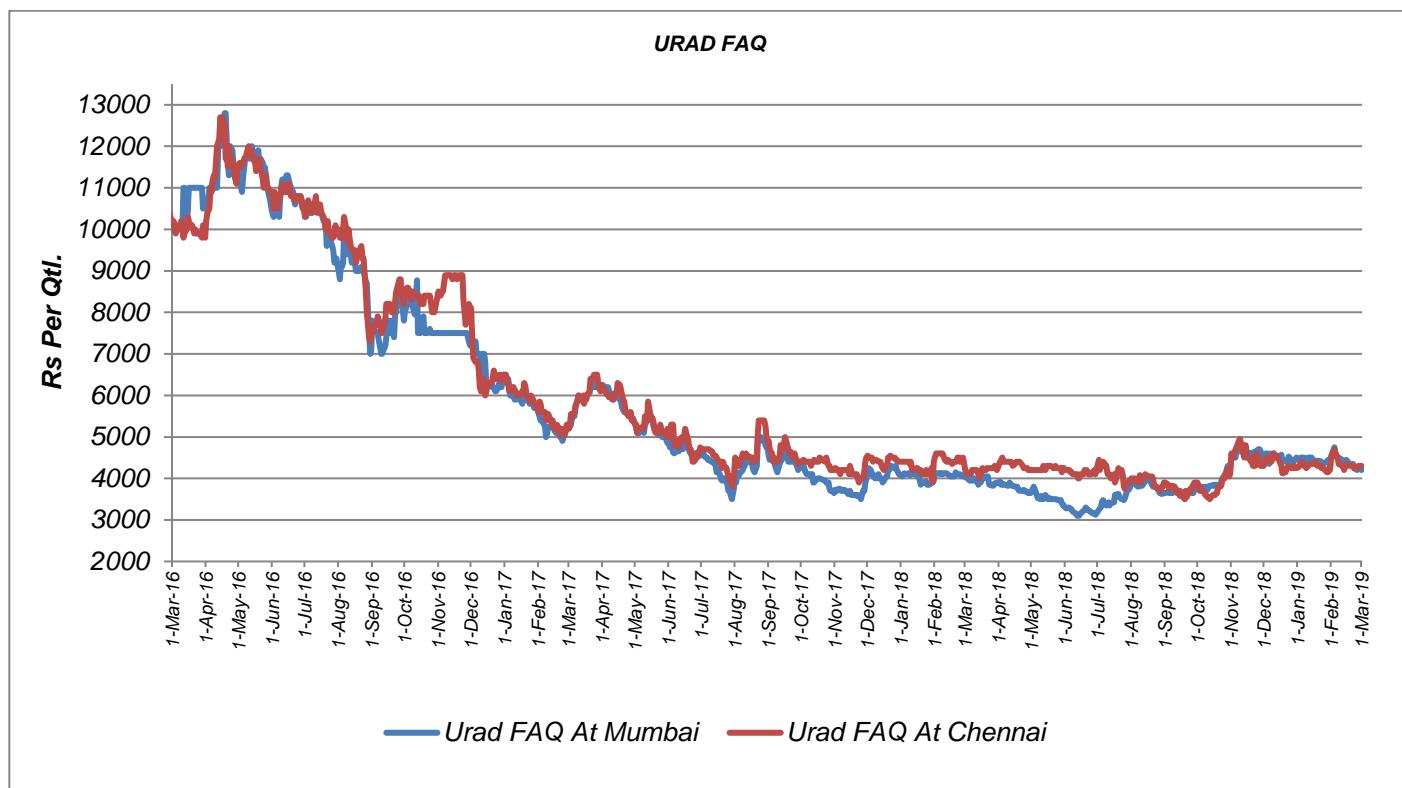

Market Outlook: *Tur market may dip by Rs150 more with increasing arrivals.*

Black Matpe (Urad):

Urad market traded almost steady during the week under review. Slackened demand from mills and higher production adv estimate amid higher carryout have capped market at current level. Govt has estimated 3.36 million tonne for 2018-19 in the 2nd Adv estimate released on 28th Feb-2019. Private trade see it at higher side. It includes 2.68 MMT from Kharif and 0.69 from Rabi. Despite lower crop size from kharif, carryout is at higher side and it may restrict uptrend in coming weeks. With opening of weather demand is likely to improve. With ongoing procurement drive, any major decline is unlikely. Urad may continue to trade at Rs4100-4400 per qtl in various markets. In Chennai market urad is being traded at Rs4200-4250 per qtl. Burma is offering FAQ urad at \$460 & SQ at \$570 per tonne. Imported stock too is capping market to get firmer. Steady tone may prevail in urad cash market.

Current Market Dynamics & Outlook:

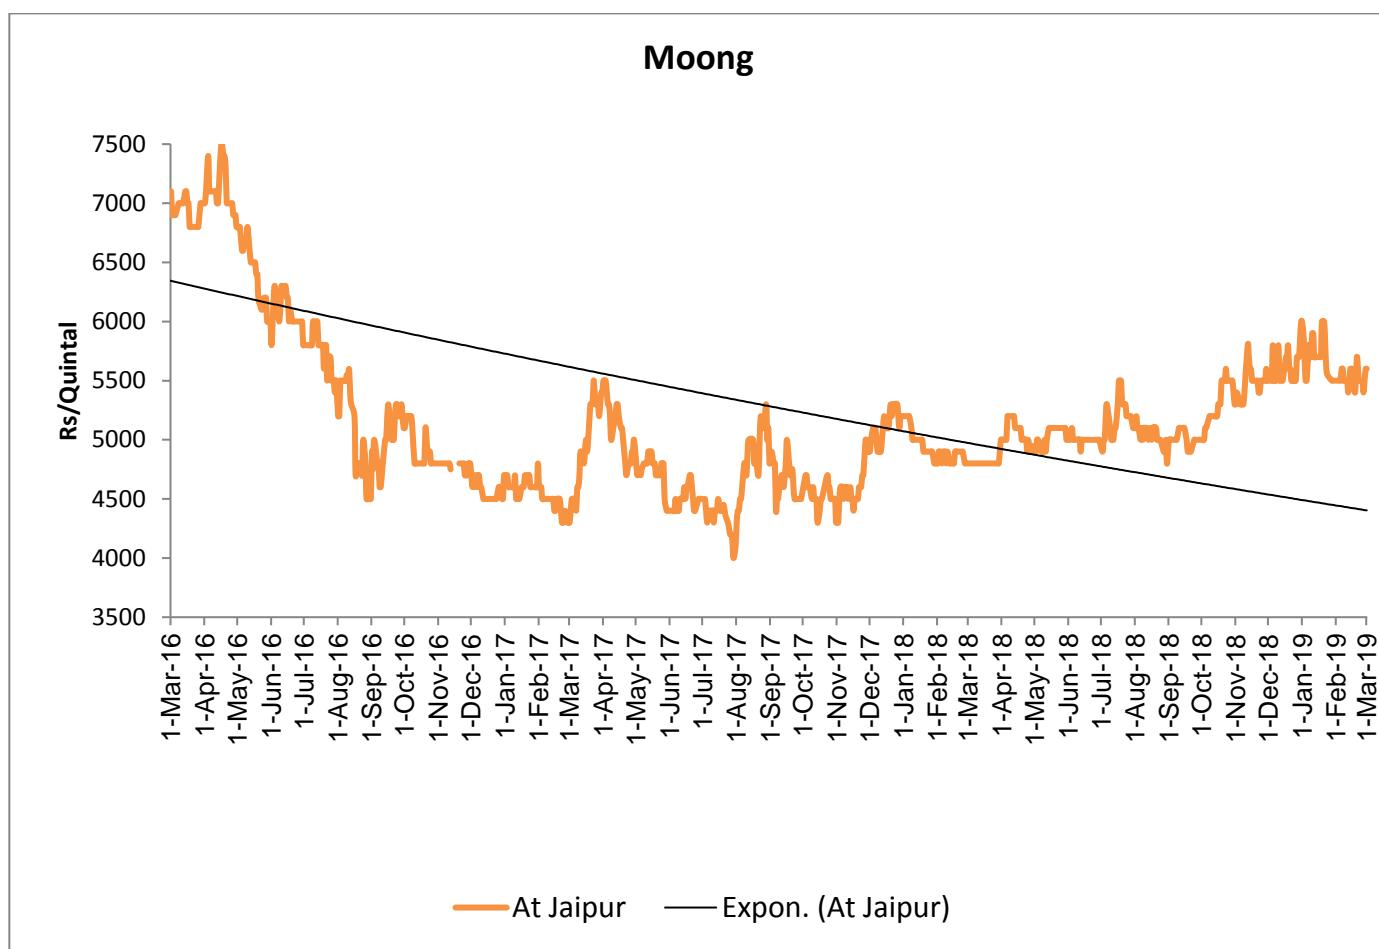

Urad FAQ at Mumbai (Rs 4200 per Qtl.) and Chennai (Rs.4250-4300 Qtl.) noticed weak tone. It traded down in Vijaywada too. Improvement might be seen in Urad market once again after slight correction and opening up of weather. Demand is likely to increase from mid March. The following graph shows the prices movement in different markets:-

Market Outlook: *Urad Prices are likely to show steady to slightly weak momentum this week*

Green Gram (Moong):
Market Recap:

Demand for moong dal remains affected from cash market. Bulk buyers are unwilling to buy at higher level and fulfilling their immediate requirements. Supply side in domestic market is at ease against weak demand. So, any major jump is unlikely in moong market despite restricted supply from Rajasthan, Gujarat and MP line. Moong is being traded at Rs 5400-5500 in Jaipur market. It may dip by Rs100 more from current level. New crop from UP and Bihar is expected from March end. So steady to slightly weak tone may prevail this week too. Moong would continue to trade in the range of Rs5300 to Rs5600 in Jaipur market. Myanmar is offering moong at \$680 per MT.

Market Outlook: Moong prices are likely to trade steady to slightly weak in the near term.

Pulses Wise Technical Outlook For The Week:-

Chana:

Outlook –We expect prices to move steady to slightly weak in the coming days.

- ❖ Chart depicts steady to slightly weak movement in March.
- ❖ RSI is moving down in neutral region.
- ❖ Expected price band for Chana in Delhi is 4000 to 4200 levels in this week..

Strategy: Sell on rise

Trade Recommendations: Go short around 4200 with the first target of 4050 and second target 4000 with stop loss at 4250 level.

Delhi Chana Physical:

| Support & Resistance | | | | |
|----------------------|------|------|------|------|
| S2 | S1 | PCP | R1 | R2 |
| 4000 | 4100 | 4100 | 4350 | 4400 |

Spot Market outlook: Chana prices are likely to show steady to slightly weak movement this week.

Peas:
Yellow Peas -Canadian Origin (at Mumbai) - Spot Market Weekly Chart

Outlook - We expect prices to notice weak movement in this week taking clue from weak chana,. Weak demand despite decreasing stock at ports may cap uptrend.

- Candle stick chart denotes weak movement in the market.
- RSI is moving down in neutral region.
- Expected price band for pea is 4600- 5000 in this month.

Strategy: Sell on rise

Trade Recommendations: Go short around 5000 with the first target of 4800 and second target 4700 with stop loss at 5000 level.

| Support & Resistance | | | | |
