Commodity-wise Domestic, International Prices and Arrivals at Different Centers

Highlights-Domestic Market:

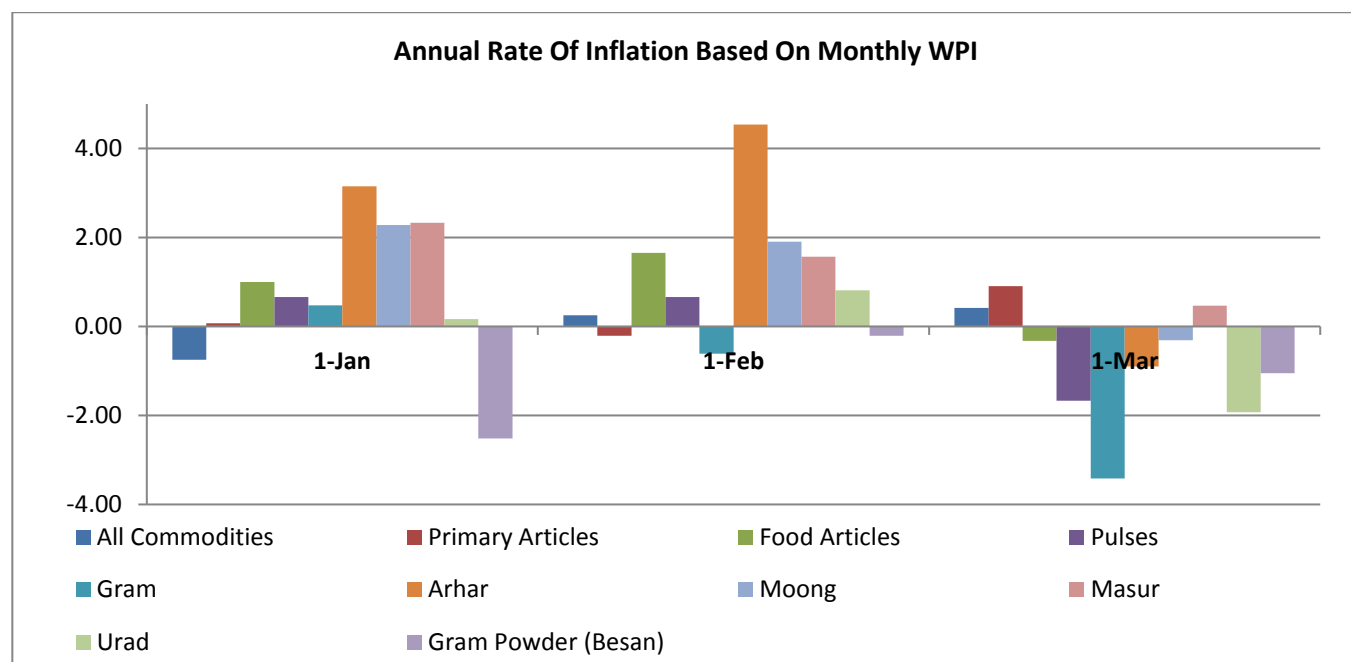

- **Slower procurement pace of Rabi crops has affected procurement target of 43.89 Lakh MT** (valued at `19,786 crore) for ongoing rabi harvesting season under PM-Aasha scheme. Till mid- April, procurement agencies have procured only 5% of fixed target for rabi season. rabi procurement season continues till 30th june, so improvement in volume is likely in coming weeks. However, target is unlikely to meet in next two months
- **Nafed, the nodal procuring agency for pulses and oilseeds, has procured about two lakh tonne** of these commodities, comprising gram, sunflower and mustard as of April 11. Actually, problem lies in releasing older crop and there is no defined mechanism for it. NAFED still has 35.6 lakh tonnes of oilseeds and pulses and is required to liquidate these at a fast pace.
- **Govt has allowed only millers to import pulses under procurement license. The quota of pulses import** has been fixed at 6.5 lakh tonne annually as last year. Out of total allowed import the share of tur 2lakh MT, of moong & Urad 1.5 lakh MT each and all peas including Kaspas and green 1.5 lakh MT. The no of applicants for import license is likely to increase 8 to 10 times this year as importers booked good profit last year. No of applicants may touch from 300 to 1800-2000.
- **Tur cash market traded under pressure due to higher arrivals and slower pace of procurement.** Millers are buying tur based on immediate needs and avoids bulk purchasing as crop from UP is expected to hit by April end and May. Crop condition in UP and Bihar is good so far. Import remains restricted at 2 lakh MT and it can be imported only by millers under import license. As crop size is lower at 35.21lakh MT, any major decline is unlikely. Agriwatch expects tur market to move in the range of Rs 4900 to 5100 in Gulberga market in the near term. up ward momentum might be seen in second half of the year. As there is forecast of good rainfall this year, better production prospects seems on the card.
- **Slight recovery in cash urad market was seen during the week under review. Demand for quality urad** has improved amid restricted release by stockiest. Besides, The DGFT has fixed import quota of urad at 1.5 lakh MT for the whole year starting from 1st April-2019. As demand for urad dal improves in summer season, prices are expected to move up slightly from current level. No big crop is due in Sep. Before this green urad would market from MP and UP but mostly would be consumed locally in Dhoya dal. Under prevailing market scenario urad price may move up by Rs 100 to 200 more from current level. Currently it is being traded at Rs 4500 to 4550 in Mumbai market.
- **Moong cash market is unlikely to sustain its upward momentum as demand at higher level gets affected** just ahead of new crop. Moong crop from various states would continue to hit cash market and supply side would be at ease. Crop from UP, MP, Bihar, Punjab and Orissa would continue to hit market at regular interval from April to Sep. It would restrict up trend. As there is ample availability of moong in central pool, especially in Rajasthan, millers would continue to source moong through Nafed. So Agriwatch expects market to stay steady to slightly weak in coming months. Moong in Jaipur market may trade at Rs 6000-6100. It may decrease by Rs 200 from current level.
- **Chana cash market traded almost steady at Rs4350-4400 in Delhi market. Weak demand at higher level** and higher stock in central pool continue to cap uptrend despite ongoing procurement drive. Procurement pace is slow and is likely to improve in coming weeks. State agencies would procure around 22 lakh MT chana this year. However, around 2 lakh MT has been procured so far. Recent rains and storm in Rajasthan and Gujarat have affected harvesting activities and arrival might be affected for few days. Overall tone in cash market seems steady to slightly firm this week.
- **MP govt would procure 11, 48750 MT chana at MSP in the state. Total procurement target for chana** has been fixed at 22,24,823 MT against 27.24 lakh MT last year. Procurement pace is likely to pick up and it may push up price once again. However, any major spike is unlikely as there is ample availability of chana in domestic market.
- **Peas market has become firm in past days due to import restriction imposed by government. This restriction** will allow an import of 1.5 LMT of peas (Yellow peas, Green peas, kaspas and Dun peas) during 01st April 2019 to 31st March 2020. Desi peas at Kanpur has increased from Rs 4150 per quintal to Rs 4525 per quintal.
- **Demand for lentil dal started improving and cash market is expected to trade up from current level** despite 1.5 lakh MT stock with Nafed. Restricted selling would help market to recover. However, any major spike is unlikely at this point of time. Lentil is being traded at Rs 4100-4300 in Kanpur market. Imported stock is being traded at Rs 3900-4000 per qtl. New arrival continues in MP and Bihar.

International Market:

- **Lentil area coverage for the 2019 crop year in US is expected to decrease by 29 % from last year to 555,000 acres.**Area may decline in Montana and North Dakota. Planting intentions in Idaho and Washington are expected to remain unchanged from a year ago. Based on area estimate/intention, it would be the lowest since 2015.
- **US farmers may plant 40% lower area under Chickpeas this year in US. As per pre sowing intention** farmers may plant 5.19 lakh acres in 2019. They may plant 137,000 acres small chickpeas, 382,000 acres large chickpeas around 38 & 40 % lower than last year. It would be the lowest since 2016.
- **Dry peas area in US is expected to increase by 3% to 8.81 lakh acres this year based** on pre-sowing intention of the farmers. Plantings are up in Idaho, Montana, South Dakota, and Washington. However, slightly decrease might be seen in Nebraska and North Dakota.
- **Production of lentil in Canada is expected to decrease by 4.39 % to 20 lakh MT in 2019-20** against 20 lakh tonne in 2018-19. Yield for the year has been pegged slightly up at 1.5 MT per ha against 1.4 MT /ha last year. However total supply is expected to decrease from 29.89 to 28.20 lakh MT due to lower production pegged for 2019-20. Export has been pegged at 18 lakh tonne almost unchanged from 2018-19. Carryout is likely to decline from 7.0 lakh Mt to 5.35 lakh MT in 2019-20. Stock to use ratio is expected to decline from 31 to 23 % in 2019-20. Price is likely to hover in the range of \$ 390 to 420 per MT in 2019-20.
- **Production of Chickpeas in Canada is expected to decrease by 116.39 % to 1.30 lakh MT in 2019-20** against 3.11 lakh tonne in 2018-19. Yield for the year has been pegged slightly down at 1.76 MT per ha against 1.77 MT /ha last year. However total supply is expected to increase from 3.37 to 3.48 lakh MT due to higher carryout for 2019-20. Export has been pegged at 1 lakh tonne almost unchanged from 2018-19. Carryout is likely to increase from 1.7 lakh Mt to 1.8 lakh MT in 2019-20. Price is likely to hover in the range of \$ 520 to 550 per MT in 2019-20.
- **Lentil production in US is slightly down to 381,384 MT against 339,381 produced last year. Earlier USDA** had projected 398,384 MT. Despite lower area coverage by 1.1 million acres, production increased due to better growing condition this year. Average yield increased from 678 pounds per seeded acre to 1,078 pound per acre. US mostly produces green lentil and it is facing challenge due to surplus production in Canada and other parts of the world.
- **Chickpea export from Russia increased from 9,104 (Oct) to 19,326 metric tons in Nov. However,** it was down by 28% in this calendar year at 78,889 MT from last year till Nov-2018. Pakistan, Turkey and Jordan were major buyers. They brought 616,746 and 2,547 MT so far.
- **Pea Export from Russia increased from 65,578 MT to 78,295 MT in Oct. This lifted export sales** so far during the calendar year to 967,095, up 14% last year. The major importer for the month was Turkey- 17,069 MT. Latvia-15,975 MT and Spain - 15,362 MT.
- **Chickpea production in Australia has been forecast at 330 thousand MT for 2018-19 against** 1148 thousand produced in 2017-18. Fava bean production too has been estimated at 214 thousand MT against 330 last year. Field pea production has been pegged at 194 thousand MT against 289 in 2017-18. Lentil production estimate too has been pegged at 343 thousand MT against 485 thousand MT. However, Lupins production estimate has been pegged higher at 710 thousand MT for 2018-19. It was 631 last year.
- **Lentil production in US is slightly down to 381,384 MT against 339,381 produced last year. Earlier USDA** had projected 398,384 MT. Despite lower area coverage by 1.1 million acres, production increased due to better growing condition this year. Average yield increased from 678 pounds per seeded acre to 1,078 pound per acre. US mostly produces green lentil and it is facing challenge due to surplus production in Canada and other parts of the world.

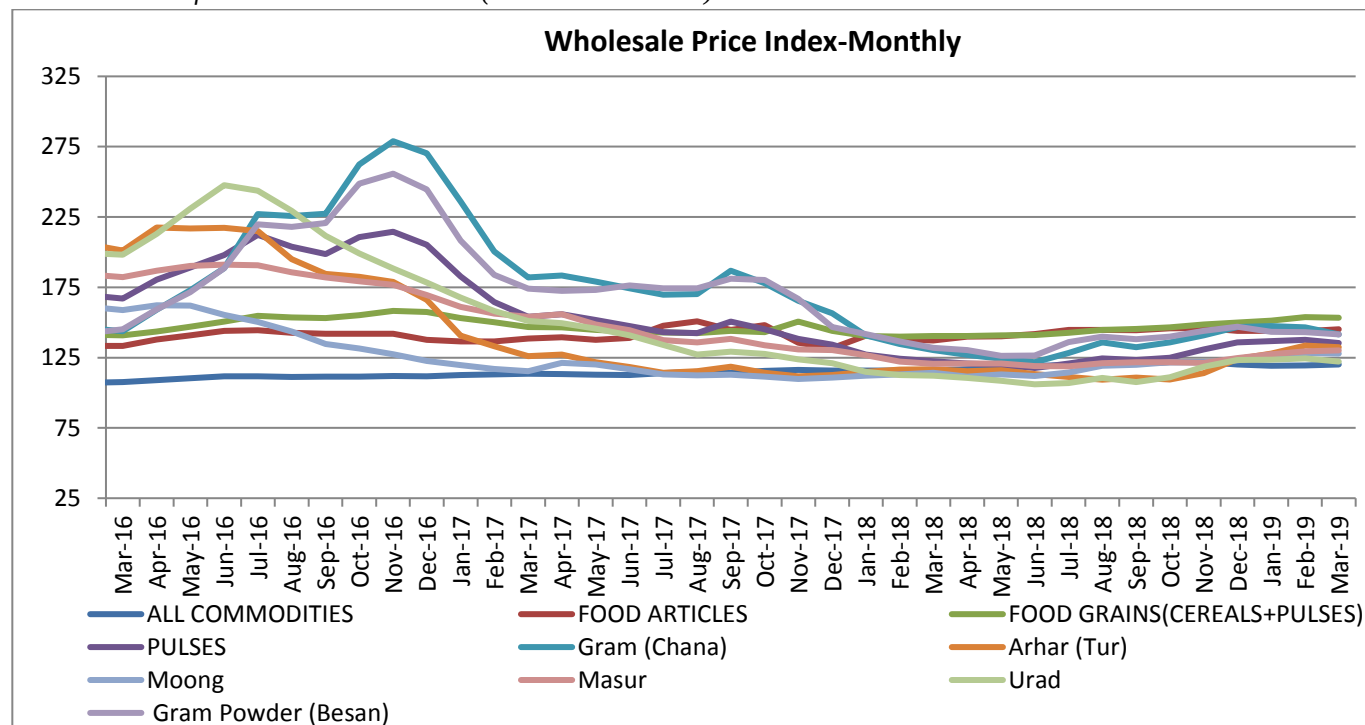

Monthly Outlook: -Pulses are likely to trade steady to slightly firm in this week.

Monthly Wholesale Price Index:

Annual Rate Of Inflation:

Index Numbers of Wholesale Price in India (Base: 2011-12=100)

Pulses WPI decreased by 2.3 point from 137.6 in Feb to 135.3 in Mar-2019

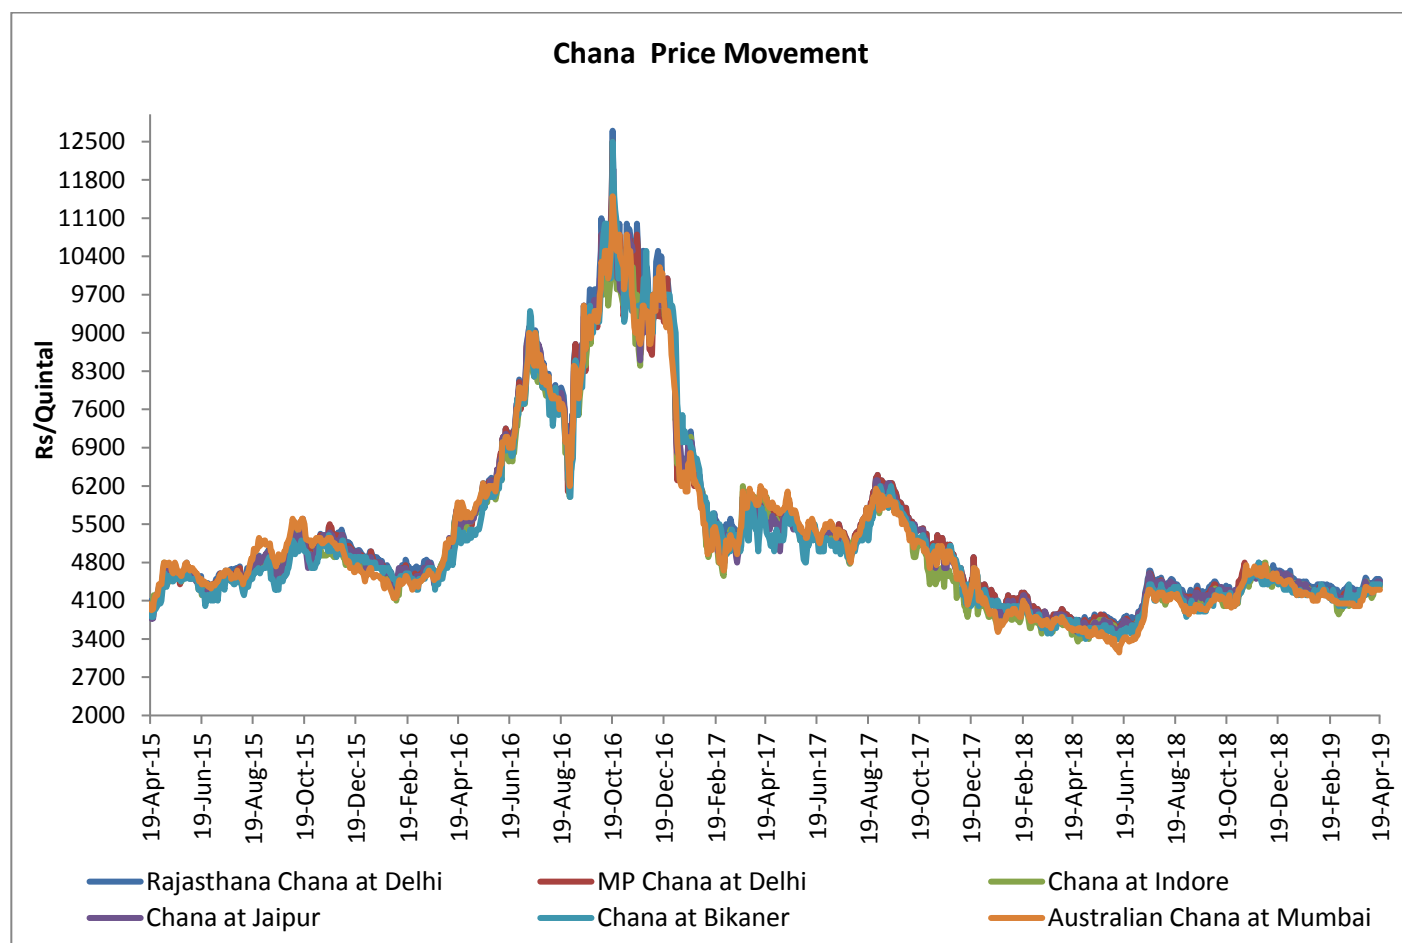

Pulses-Wise Scenario:

Chana

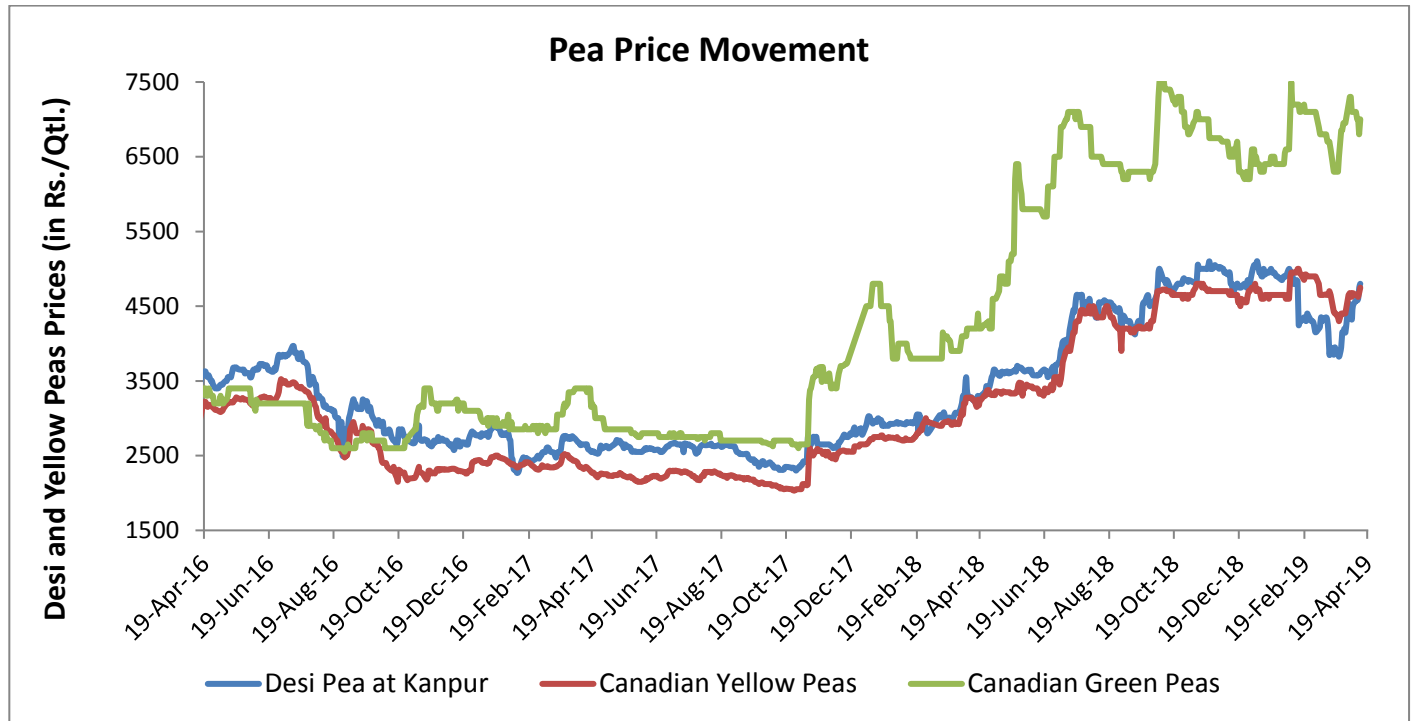

Current Scenario:

Chana prices in cash market stayed steady and likely to trade range bound this week due to slower pace of procurement.. Stockiest and mills are avoiding bulk purchase at higher level. Nafed is procuring chana on MSP at slower pace in Rajasthan and MP. As old stock is at higher level, procurement activities remain slower. Firmness may continue if Nafed increases its procurement pace. Nafed has procured 40949 MT chana at MSP so far. In Delhi market chana is being traded at Rs4350-4450 per qtl. Overall trend seems steady to slightly firm in the short term.

All India average price for Chana traded up by 1.96 % to Rs 4413. Australian chana price too traded up by 0.70 % at Rs 4300 per 100kg during the same period. Following graph illustrates the chana price movement in different markets:

Market Outlook: Chana may trade steady to slightly firm this week.

Peas (Matar):
Market Recap:

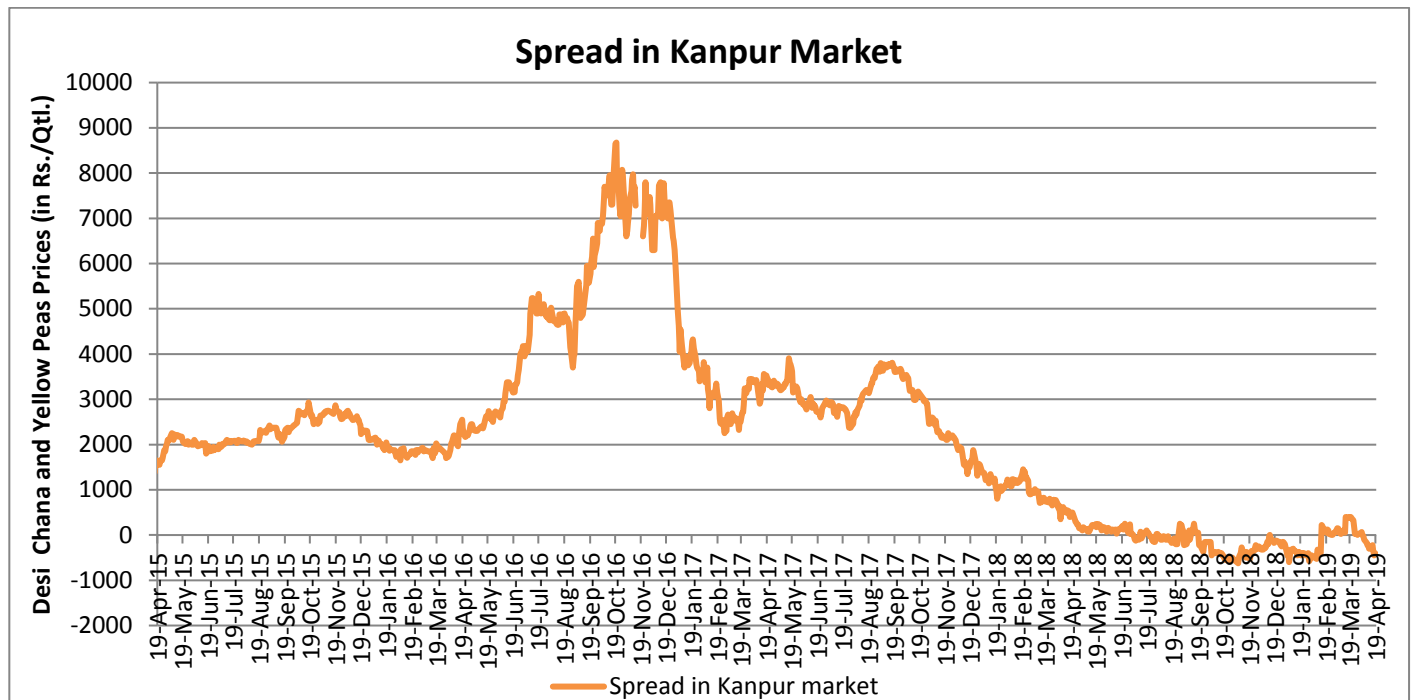

Pea market traded firm as expected and would continue to trade firm on import quota restriction at 1.5 lakh tonne for the whole year. With emerging scenario stockists have started holding stock while farmers too are unwilling to release stock at this point of time. With quota restriction, cash market moved up by Rs 100 from last week. Earlier market was expecting higher import quota. Pea in Mumbai market is being traded at Rs. 4800, while in Kanpur market it is being traded at Rs 4850 per qtl. As chana price has started increasing, so pea too may get support at current level. Arrival pressure from new crop too is decreasing now. As, there would be shortage of imported crop, price would bound to move up taking clue from other pulses. Stake holders should buy on dip.

Current Market Dynamics & Outlook:

Pea traded at Rs 4800-4850 in Kanpur market, almost Rs 50-100 up from previous week due to quota restriction and stockists holding. Imported stock is decreasing and it may push pea market further up by Rs 100. Now importers would be able to import Only 1.5 lakh tonne till March -2020. So, short supply is visible in coming months. In short to medium term, demand is expected to improve as price of pulses would move up from current level. Stake holders should buy on slight decline.

Spread With Chana:

Spread between Chana and Peas, at Kanpur market has stayed in negative zone and gap increased further due to increased pea price in Kanpur market. Spread is expected to remain in negative zone of 350-450 in April on relative movement in Chana and pea price.

Market Outlook: Outlook remains steady to slightly firm this week too.

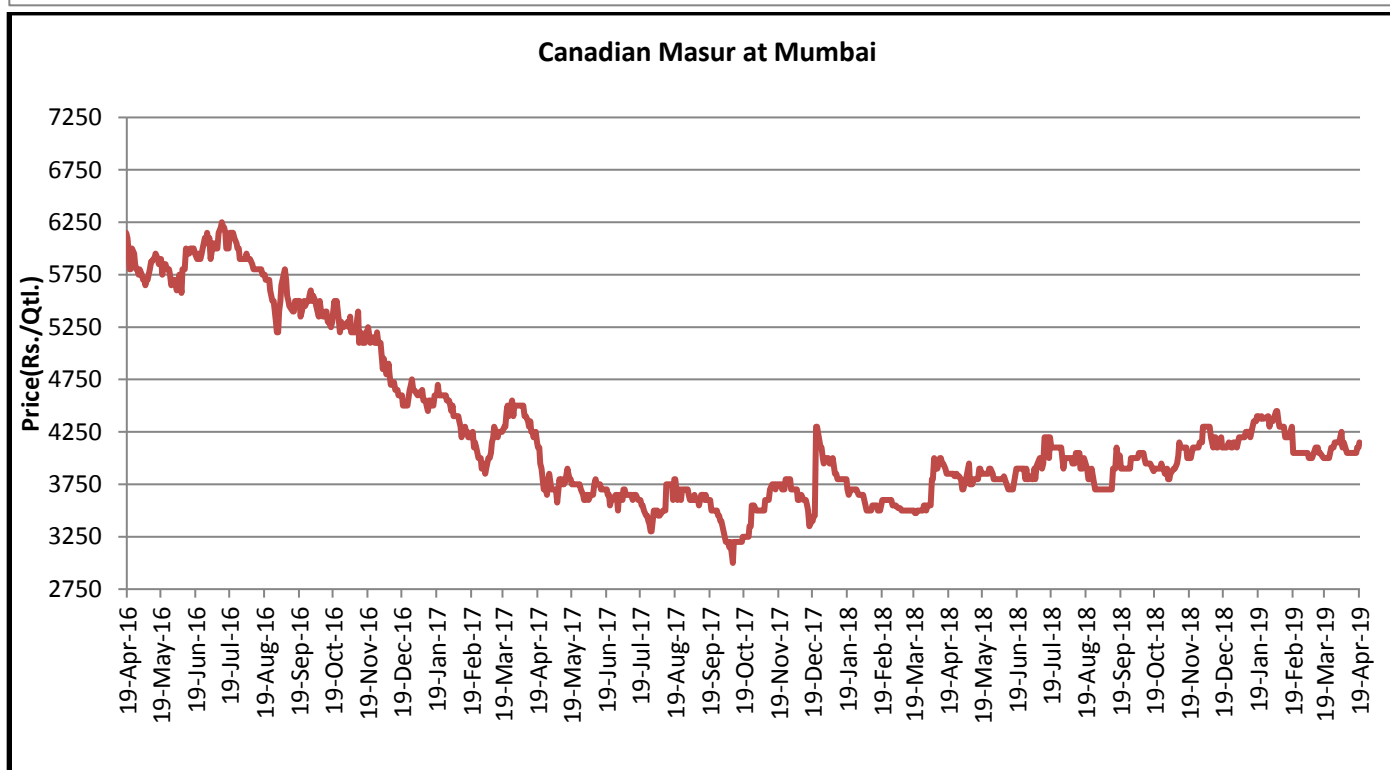

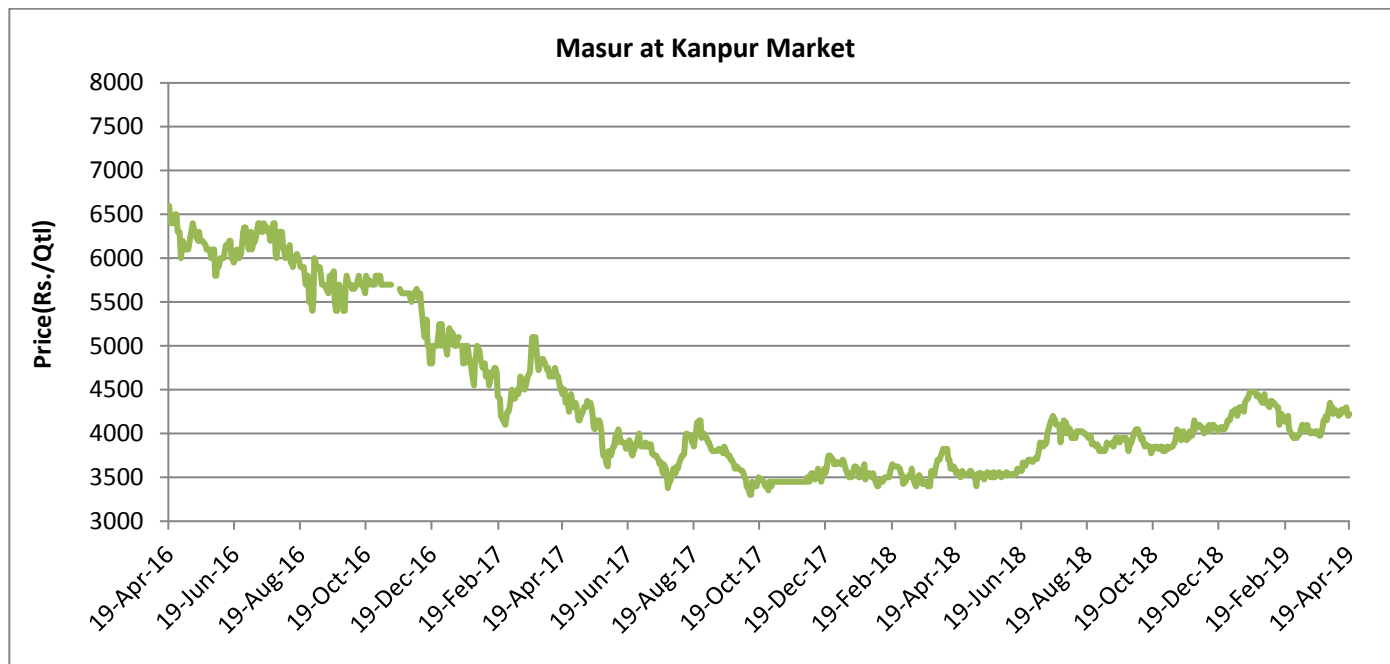

Lentils (Masoor):

Market Recap:

Lentil arrivals are not creating much pressure on prices. However, lentil stockiest are selling their old stock at higher levels due to which lentil market is breaking frequently. Imports would be difficult, if the market continue to break frequently. This would provide support to domestic market prices. Arrival pressure has started decreasing now and fresh demand amid increased stock holding may push up lentil price in coming weeks. However, higher stock in central pool may cap upward momentum. As prices of other pulses have started improving, lentil too may trade up again. Improvement in demand from Nepal and B'desh, may push lentil price up. Procurement drive may help market to this week. Cash market may trade in the range of Rs4000-4350 this week.

Current Scenario:

In the 3rd week of April-2019, average price in key market like Kanpur was down by 0.35 % to Rs 4200 per qtl. Prices are likely to trade up in April to a certain extent. Demand from neighboring countries is awaited. Masur may get support from firmness in other pulses too in coming weeks Demand from bulk buyers is awaited.

Market Outlook: Prices are likely to notice firm movement due to procurement drive and decreasing arrival

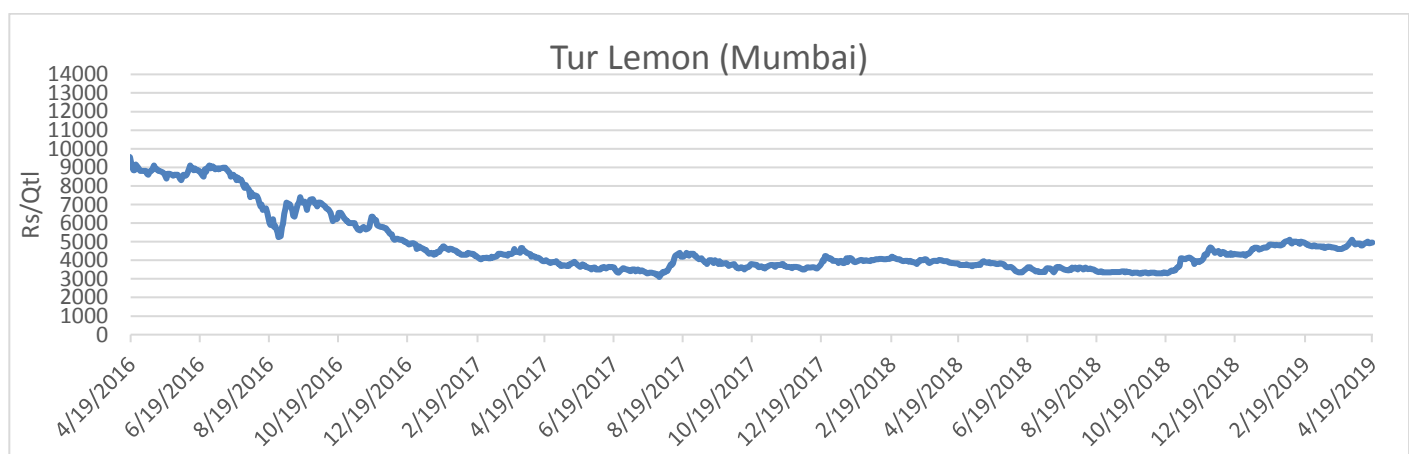

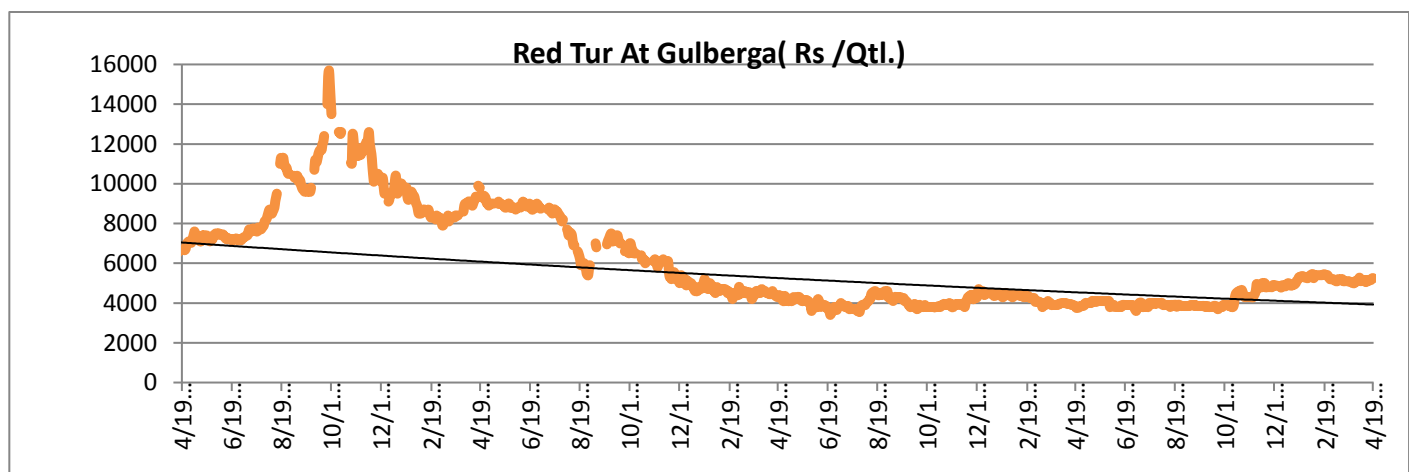

Pigeon Pea (Tur/Toor):

Market Recap:

Tur traded weak due to arrival flow amid restricted buying at MSP. Nafed is procuring only 2000 MT per day. Total procurement by Nafed, has reached 2.5 lakh tonne. There is a common view in the market that tur price may go down by Rs100 more from current level as bulk users demand remains restricted. Agriwatch estimate for tur production is 36.21 lakh tonne for the year while govt.'s 2nd adv estimate released on 28th Feb has put it at 36.8 lakh tonne. As carryout is higher, any major jump from current level is unlikely in the short term. Market is awaiting demand. Currently tur market is being traded at Rs 4950-5150 in Gulberga market. This week it may trade slightly lower. Myanmar is offering tur at \$660 per MT.

Current Market Dynamics & Outlook:

Tur market is expected to stay steady to slightly weak due to sluggish demand and unabatted arrival in major markets. Buying by private trade is yet to improve. Overall outlook for Tur cash market remains weak in the short term. Stake holders should buy on down ward correction,.

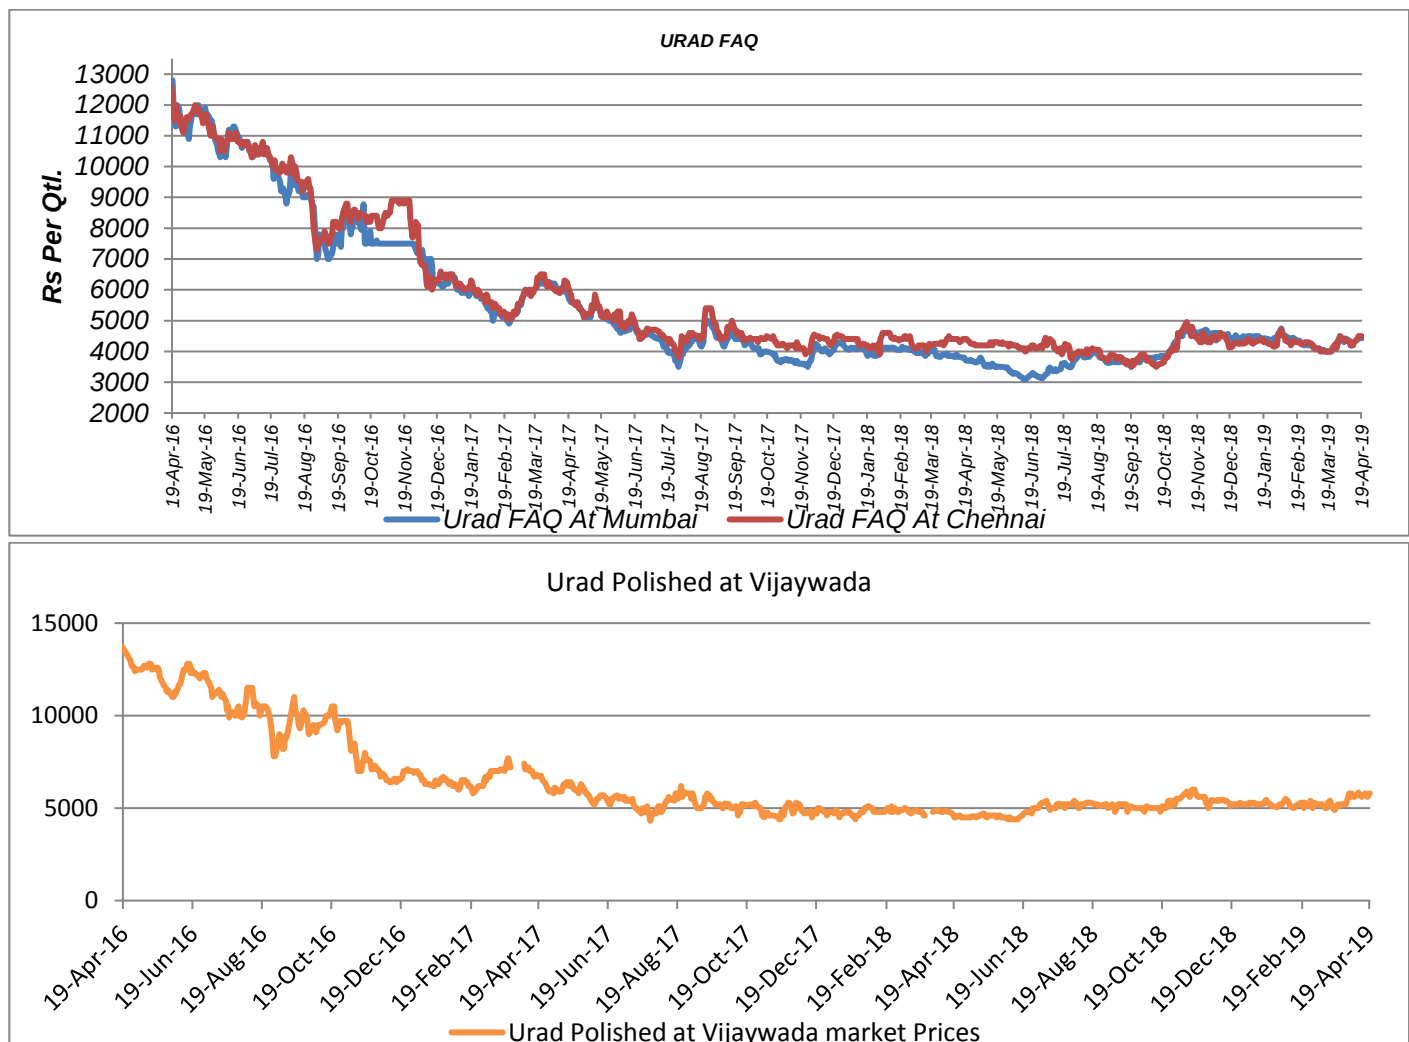

Market Outlook: Tur market may trade firm by Rs150-250 more with decreasing arrivals.

Black Matpe (Urad):

- Urad cash market is bound to go up in the medium term due to import cap at 1.5 lakh MT for the whole year, staring from 1st April-2019 to 31st March-2020. No new crop is due now. Next new arrival (big crop) is expected only in Sep. Before this, green urad (smaller crop size) would hit market from MP and Uttar Pradesh but mostly would be consumed in Dhoal dal. Currently, there is no parity for Delhi from Kota and Chandausi line. So, FAQ moved up by Rs 100 to Rs 4550-4650 and SQ to Rs 5550-5650. After a slight downward correction urad may move further up by Rs 200-300. Stake holders should buy on dip and hold stock.

Current Market Dynamics & Outlook:

Urad FAQ at Mumbai (Rs 4450-4500 per Qtl.) and Chennai (Rs. 4550-4650 Qtl.) noticed firm tone. It traded up in Vijaywada too. Improvement might be seen in Urad market once again after slight correction and opening up of weather. Demand is likely to increase from mid April. The following graph shows the prices movement in different markets:-

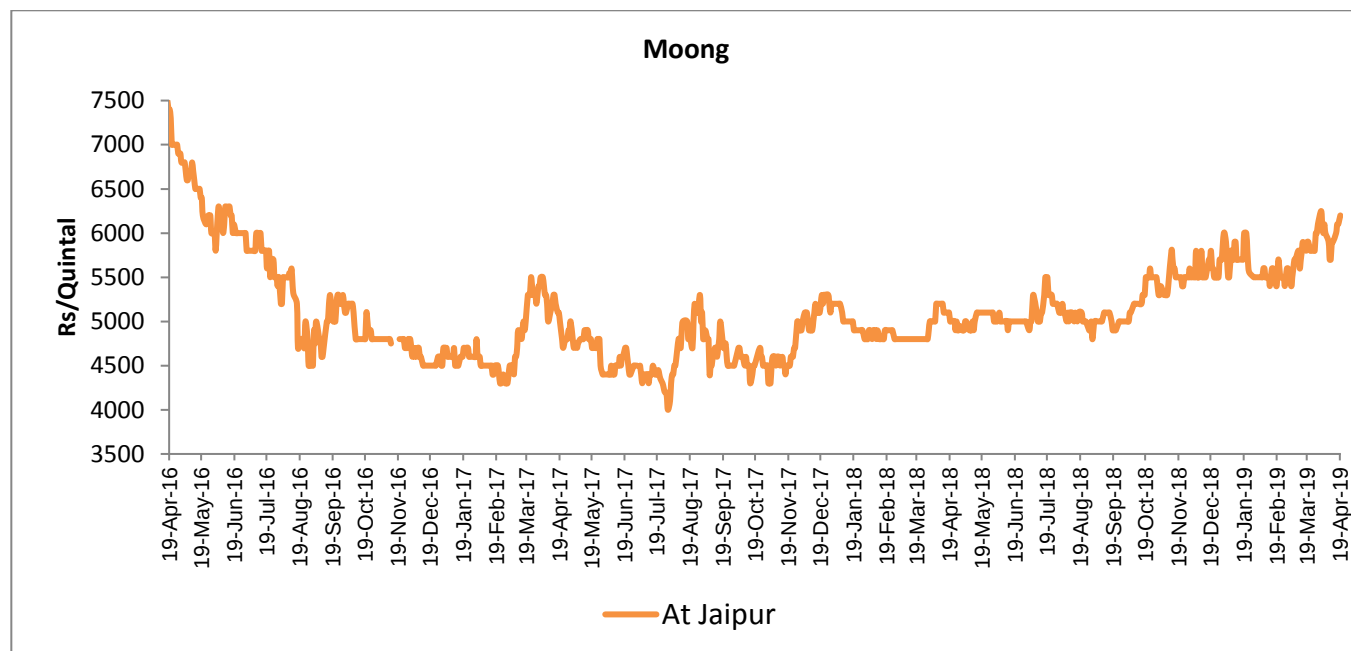

Market Outlook: Urad Prices are likely to show steady momentum this week

Green Gram (Moong):

Market Recap:

New crop of moong from UP and Bihar is expected to hit market not before May. So, cash moong market may move further up by Rs100-200, as old stock is decreasing and demand from mills have improved. Besides, import too is not possible, as there is no parity at current price. Moong in Jaipur market may touch 6400/6500 per qtl before arrival from UP. In the latest development, Nafed would start selling moong again in bulk volume and it may cap one way upward movement. Procurement too is on in restricted way from rabi crop. New crop, is almost one month away.

Market Outlook: Moong prices are likely to trade slightly firm in the near term.

Pulses Wise Technical Outlook For The Week:-

Chana:

Outlook –We expect prices to move steady to slightly firm in the coming days.

- ❖ Chart depicts steady to slightly firm movement in April.
- ❖ RSI is moving up in neutral region.
- ❖ Expected price band for Chana in Delhi is 4250 to 4500 levels in this week..

Strategy: Buy on dip

Trade Recommendations: Go long around 4300 with the first target of 4450 and second target 4500 with stop loss at 4250 level.

Delhi Chana Physical:

Support & Resistance				
S2	S1	PCP	R1	R2
4100	4250	4350	4450	4550

Spot Market outlook: Chana prices are likely to show steady to slightly firm movement this week

Peas:

Yellow Peas -Canadian Origin (at Mumbai) - Spot Market Weekly Chart

Outlook - We expect prices to notice firm movement in this week taking clue from firm chana and import ceiling at 1.5 lakh tonne for the while year .Improved demand and decreasing imported stock at ports may push up price in coming weeks.

Technical Analysis:

- Candle stick chart denotes firm movement in the market.
- RSI is moving up in neutral region.
- Expected price band for pea is 4600-4950 in this week

Strategy: Buy on dip

Trade Recommendations: Go long around 4700 with the first target of 4850 and second target 4900 with stop loss at 4650 level.

Support & Resistance				
S2	S1	PCP	R1	R2
4500	4650	4800	4990	5050

Masoor:

Desi Masoor (at Kanpur) Spot Market Weekly Chart:

Outlook –Steady to slightly firm movement is likely to be noticed in coming week.

- Chart depicts steady to firm movement in the market.
- RSI oscillator is moving up in neutral region.
- Expected price range is 4000-4350

Strategy: Buy on dip:

Trade Recommendations: Buy around 4150 with the first target of 4300 and second target 4350 with stop loss at 4100 level.
