Commodity-wise Domestic, International Prices and Arrivals at Different Centers

Highlights-Domestic Market:

- Maharashtra,Gujarat,A.P.,Telangana and Tamil Nadu may face acute shortage of water.**Central water commission has released an alert regarding water level much below than normal expectation at this point of time.Total 91reservoirs have only 24% water from its normal capacity.The situation is more critical in western and south Indian states. In these states average availability of water level is the lowest during last 10 years.However, IMD is still hopeful for normal rainfall against the growing fear of El-Nino affected monsoon rains in India concluded by various international weather agencies. Monsoon is expected to set in Kerala on 8th June.
- Nafed started buying tur in Kamgaon in Maharashtra on open market price.It has procured 10 MT** good quality of tur at Rs5700 to 5900 per qtl.Arrival was reported around 700 qtl.There is gossip in the market that Nafed may procure tur at market price in other market too.If nafed procures more tur in open market above MSP, tur market may move further up in coming weeks. Stockiests are unwilling to sell their stock as they are well aware of lower crop size of crop and decreasing stock. Besides, restriction remains intact on import volume at 2lakh MT for private mills/trades.All these developments are fueling tur price.It may move towards Rs 5800-6400 per qtl. Soon.Myanmar is offering tur at \$725 per qtl basis indian ports.As buying is expected to remain limited at higher level till election result,prices of tur would trade range bound.. Besides, on set of monsoon timing too would remain price affecting factors. In Gulberga market tur is being traded at Rs 5900-6000 per qtl.
- Recovery continued in cash urad market during the week under review. Demand for quality urad** has improved amid restricted release by stockiest. Besides, The DGFT has fixed import quota of urad at 1.5 lakh MT for the whole year starting from 1st April-2019. As demand for urad dal improves in summer season, prices are expected to move up slightly from current level. No big crop is due till Sep. Before this, green urad would hit market from MP and UP but would mostly be consumed locally in Dhoya dal. Under prevailing market scenario urad price may move up by Rs 300 to 400 more from current level. Buyers from Pakistan are active in Myanmar and are buying SQ at \$660/665 per tonne.,as there is good buying, price in Myanmar would go up further in coming weeks.
- Stockists are unwilling to sell moong sensing uptrend to continue in moong market.** Offtake from mills have increased. It has helped market to move up. There is no scope of import before July and shortage of quality moong is obvious in cash market. It may push up moong price again by Rs 200 from current level. In Jaipur market, moong is being traded at Rs 6200-6300 and in Jodhpur it is being traded at Rs 6000-6200 per qtl. Availability of moong is lower in Maharashtra. In Karnataka moong is being traded at Rs 5800-6000. Stake holders should buy on correction. No new crop is due in next two months.
- Active buying by stockists pushed chana price up in major market amid firm futures. There is a** good demand for dal and it may further push price up. Chana at Delhi market is being traded at Rs 4650-4750. It may cross Rs 4800 soon. At this level market should stabilize. Arrival is decreasing while procurement on MSP is on in various states. Demand from besan industry increased amid higher demand for whole chana due to Ramdan.Stockists held stock, taking clue from firm futures. Chana in Delhi market has already crossed MSP .At this level stockists may prefer to release 20 % stock as demand for chana in monsoon seson decreases. At 70 % import duty there is no parity for export. Myanmar is offering chana at \$680-690 per MT basis Indian port.
- As per market sources the import quota for pea may be increased by 50000 tonnes. The current restriction** allows an import of 1.5 LMT of peas (Yellow peas, Green peas, kasper peas and Dun peas) during 01st April 2019 to 31st March 2020. Agriculture ministry expects a production of 240.20 LMT in 2018-19 compared to 252.30 LMT in 2017-18. As a result pea prices have fallen by Rs 100 per quintal in past weeks.Pea market is likely to stay steady to slightly weak.
- As per latest update, lower imports has led to increase in prices of lentil by Rs 50 per quintal** at ports. Lentil vessel is being quoted at Rs 4050-4150 per quintal and container is being quoted at Rs 4200-4250 per quintal. Furthermore

arrivals in domestic market is also low. Lentil stockiest are increasing their buying at a steady pace. All these factors are providing support to lentil market and as a result lentil prices have increased by Rs 100-150 per quintal in previous week.

International Market:

- **Production of Chickpeas in Canada is expected to decrease by 58.19 % to 1.30 lakh MT** in 2019-20, against 3.11 lakh tonne in 2018-19. Yield for the year has been pegged slightly down at 1.76 MT per ha against 1.77 MT /ha last year. Even total supply is expected to decrease by 0.57% from 3.50 to 3.48 lakh MT due to higher expected export in 2019-20. Export has been pegged at 1 lakh tonne, up by 0.10 lakh MT from 2018-19. Carryout is likely to decrease from 1.95 lakh Mt to 1.8 lakh MT in 2019-20. Price is likely to hover in the range of \$ 500 to 530 per MT in 2019-20.
- **Production of lentil in Canada is expected to increase by 0.38 % to 21 lakh MT in 2019-20**, against 20.92 lakh tonne in 2018-19. Yield for the year has been pegged slightly up by 5% to 1.47 MT per ha against 1.4 MT /ha last year. However, total supply is expected to decrease by 2.01 % from 29.80 to 29.20 lakh MT due to 4.92% lower production pegged for 2019-20. Export has been pegged 1 lakh MT higher at 18 lakh tonne in 2019-20. Carryout is likely to decline from 8.0 lakh Mt to 6.35 lakh MT in 2019-20. Stock to use ratio is expected to decline from 37 to 28 % in 2019-20. Price is likely to hover in the range of \$ 390 to 420 per MT in 2019-20.
- **Adverse weather condition at the point of crop growth stage in Myanmar has affected Tur and urad crop.** Despite good area coverage this year, production is likely to decline by 15 to 20 percent. Lower crop in India this year and weak prospects in Myanmar may push tur market further up in May. Farmers in Africa too have planted lesser area this year. So, pulses market may find good support in 2nd half of the year. Myanmar is offering new tur at \$770 in forward deal basis Indian ports. Old crop is being offered at \$660 per MT.
- **As per USDA pre sowing intention report, dry pea area is expected to increase by 3% to 8.81 lakh acres** this year. Area may increase in Idaho, Montana, South Dakota, and Washington from last year. However, it may decline in Nebraska and North Dakota.
- **As per USDA report lentil area in US declined by 29 % from last year to 5.55 lakh acres in 2019.** Planted area is expected to decline in Montana and North Dakota while in Idaho and Washington it is expected to remain unchanged. If materialized, it will be the lowest area coverage since 2015.
- **As per the latest USDA seeding intention, expected area coverage under chickpea in US may decline** by 40% to 5.19 lakh acres. Out of this, small chickpeas area may be at 1.37 lakh acres, large chickpea at 3.82 lakh acres. It would be the lowest since 2016.
- **Chickpea production in Australia has been forecast at 330 thousand MT for 2018-19 against 1148 thousand** produced in 2017-18. Faba bean production too has been estimated at 214 thousand MT against 330 last year. Field pea production has been pegged at 194 thousand MT against 289 in 2017-18. Lentil production estimate too has been pegged at 343 thousand MT against 485 thousand MT. However, Lupins production estimate has been pegged higher at 710 thousand MT for 2018-19. It was 631 last year.
- **As per statistics Canada land in pulses and specialty crops may decline in 2019-20 if farmer's stick** to their seeding intentions. They intend to plant 8.82 million acres of pulses and special crops, down from 8.98 million last year and below the recent five-year average of 9.52 million acres. The only crops showing an increase over last year are peas, which could climb from 3.615 to 4.035 million acres.

Weekly Outlook: -Pulses are likely to trade steady to slightly firm in this week.

Monthly Wholesale Price Index:

Annual Rate Of Inflation:

Index Numbers of Wholesale Price in India (Base: 2011-12=100)

Pulses WPI increased by 2.8 point from 135.3 in Mar to 138.1 in Apr-2019

Pulses-Wise Scenario:

Chana

Current Scenario:

Uptrend in cash chana market continued despite higher stock in cold storage and central pool. Stockists have started holding chana stock taking clue from firm futures and decreasing arrivals in major markets. Demand for Ramdan and increased use of sattu too have helped market to recover. Bulk buyers are active as demand from retail market started increasing. Chana prices in cash market moved up by 200-250 from previous week and may move up further by Rs 100-150 from current level. Increased procurement pace and higher pea price too have helped market to go up. Stockiest and mills are active for bulk purchase at higher level. Nafed procurement drive too has improved. Nafed has procured 1.95 lakh MT chana at MSP so far. In Delhi market, chana is being traded at Rs4650-4750 per qtl. Overall trend seems steady to slightly firm in the short to medium term.

All India average price for Chana traded up by 2.59 % to Rs 4548. Australian chana price too traded up by 1.21 % at Rs 4450 per 100kg during the same period. Following graph illustrates the chana price movement in different markets:

Market Outlook: Chana may trade steady to slightly firm this week too.

Peas (Matar):

Market Recap:

Pea market traded firm taking clue from firm chana in cash market. Unexpected spurt in chana price and import quota restriction at 1.5 lakh tonne for the whole year have helped market to recover. If chana continues to trade firm, pea may trade firm as supply side is expected to be tight in coming weeks. Stockists have started holding stock. Govt. may increase import quota to 2 lakh MT in coming months. Earlier market was expecting higher import quota. Pea in Mumbai market is being traded at Rs. 4850-4975, while in Kanpur market it is being traded at Rs 5000-5100 per qtl. As chana price has started increasing, pea too may trade firm amid decreasing arrival. As, there would be shortage of imported crop, price is bound to move up taking clue from other pulses in the second half of the year. Stake holders should buy on downward correction.

Current Market Dynamics & Outlook:

Pea traded at Rs5000-5050 in Kanpur market, almost Rs 100 up from previous week due to improved buying by bulk users' demand and increasing chana price. Decreasing imported stock may support pea price further by Rs 100. Now importers would be able to import only 1.5 lakh tonne till March -2020 if govt. does not increase quota by 50,000 MT, short supply may be visible in coming months. In the medium term, demand is expected to improve as price of pulses would move up from current level. Stake holders should buy on slight decline.

Spread With Chana:

Spread between Chana and Peas, at Kanpur market has stayed in negative zone and gap increased slightly due to increased pea price in Kanpur market. Spread is expected to remain in negative zone of 350-450 in May on relative movement in Chana and pea price.

MarketOutlook: Outlook remains steady to slightly firm this week.

Lentils (Masoor):

Market Recap:

As per latest update, lower imports has led to increase in prices of lentil by Rs 200 -250 per quintal at ports. Lentil vessel is being quoted at Rs 4100-4150 per quintal and container is being quoted at Rs 4200 per quintal. Further more arrivals in domestic market is also low. Lentil stockiest are increasing their buying at a steady pace. All these factors are providing support to lentil market and as a result lentil prices may increase by Rs 100-150 per quintal in coming week. Lentil arrivals are not creating much pressure on prices. This would provide support to domestic market prices. However, higher stock in central pool may cap upward momentum to a certain extent. As prices of other pulses have started improving, lentil too may trade up again. Improvement in demand from Nepal and B'desh, may push lentil price up. Cash market may trade in the range of Rs4350-4600 this week too.

Current Scenario:

In the 3rd week of May-2019, average price in key market like Kanpur was up by 1.5% to Rs 4400 per qtl. Prices are likely to trade up in May to a certain extent. Demand from neighboring countries is awaited. Masur may get support from firmness in other pulses too in coming weeks.

Market Outlook: Prices are likely to notice firm movement due to procurement drive, virtual stop of selling by Nafed and decreasing arrival amid lower import volume.

Pigeon Pea (Tur/Toor):

Market Recap:

Nafed has procured 2.90 lakh MT tur on MSP so far. It has procured 1.21 lakh tonne tur in Karnataka, 70 thousand tonne in Telangana, 53,000 MT in Maharashtra, 30,000 MT in Gujarat and 5,000 MT in AP. Madhya Pradesh and Tamil Nadu have contributed 1,800 and 400 MT respectively as on 1st May 2019. Tur traded firm due to poor arrival flow amid ongoing procurement drive at MSP which has increased this week. There is a common view in the market that tur price may go up by Rs200 more from current level as bulk users demand started improving. Agriwatch estimate for tur production is 36.21 lakh tonne for the year while govt.'s 2nd adv estimate released on 28th Feb has put it at 36.8 lakh tonne. Market is awaiting demand from bulk buyers. Currently tur market is being traded at Rs 5850-6000 in Gulberga market. This week it may trade slightly up. Myanmar is offering new tur at \$730 per MT in forward deal. Old is being offered at \$675 per MT.

Current Market Dynamics & Outlook:

Tur market is expected to stay steady to slightly firm due to improved demand and decreasing arrival in major markets. Buying by private trade too has improved. Crop in Myanmar too is 20% lower this year. Overall outlook for Tur cash market remains firm in the short to medium term. Stake holders should buy on down ward correction.

Market Outlook: *Tur market may trade firm by Rs150-250 more with decreasing arrivals and renewed buying spree.*

Black Matpe (Urad):

Urad cash market traded firm taking clue of diminished possibility of import till July and active buying by mills. Besides, stockists too have started holding stocks in anticipation of higher price. Demand for quality urad too has improved amid restricted release by stockiest. Besides, The DGFT has fixed import quota of urad at 1.5 lakh MT for the whole year starting from 1st April-2019. As demand for urad dal improves in summer season, prices are expected to move up slightly from current level. No big crop is due till Sep. Before this, green urad would hit market from MP and UP but mostly would be consumed locally in Dhoya dal. Under prevailing market scenario urad price may move up by Rs 200 to 250 more from current level. Currently it is being traded at Rs 4850 to 4950 in Mumbai market. After a slight downward correction urad may move further up by Rs 100-200. Stake holders should buy on dip and hold stock.

Current Market Dynamics & Outlook:

Urad FAQ at Mumbai (Rs Rs4800-4900 per Qtl.) and Chennai (Rs.4950-5000 Qtl.) noticed firm tone. It traded up in Vijaywada too. Improvement might be seen in Urad market once again after slight correction and opening up of weather. Demand is likely to increase with increasing temperature .The following graph shows the prices movement in different markets:-

Market Outlook: Urad Prices are likely to show steady to slightly firm momentum this week

Green Gram (Moong):

Market Recap:

Stockists are unwilling to sell moong sensing uptrend to continue in moong market. Offtake from mills have increased. It has helped market to move up. There is no scope of import before July and shortage of quality moong is obvious in cash market. It may push up moong price again by Rs 200 from current level. In Jaipur market, moong is being traded at Rs 6200-6300 and in Jodhpur it is being traded at Rs 6000-6200 per qtl. Availability of moong is lower in Maharashtra. In Karnataka moong is being traded at Rs 5800-6000. Stake holders should buy on correction. No new crop is due in next two months.

Market Outlook: Moong prices are likely to trade slightly weak in the near term.
