Commodity-wise Domestic, International Prices and Arrivals at Different Centers

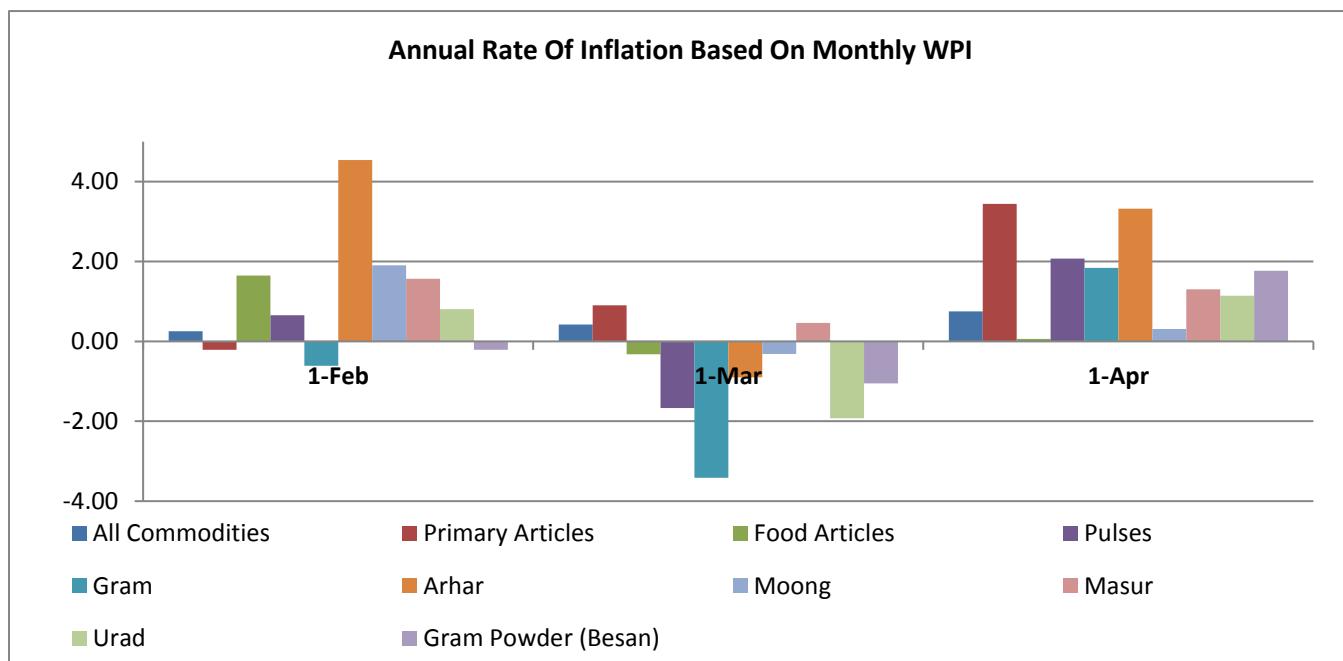

Highlights-Domestic Market:

- **There is gossips in the market that some big groups have sold tur in forward months** in large quantity. So, tur market is expected to stay steady in June and once the pressure gets released, market may move up again. Besides, availability of tur at Mumbai and Chennai ports is decreasing fast and import from Myanmar in bulk quantity is unlikely due to lower crop size there. Besides, Quota for applicants will be declared on 10th & 11 June and quota allocation is expected by June end. Lower domestic crop, delayed beginning of planting and stockiest's holding may remain supportive to the market fundamentals. It is being traded at Rs 5900-6000 in Gulberga market. Tur may move up further by Rs 500 from current level but in July. Govt has a close eye on tur price movement and has enough stock to deal with spiraling prices. Range bound movement is expected in the near term. Nafed still has 5.63 lakh MT old stock and 2.75 lakh MT new crop. Thus total stock comes to 8.38 lakh MT.
- **Urad may move move further up from current level after slight downward correction** as there is no crop in near future. Arrival of green urad is expected in UP from next week. However, it is a small crop. It would be consumed locally in dhoya dal. Crop from Shivpuri and Katni line has been exhausted now. Supply from Kota and Chandausi line is tight and it may push up urad price once again. With fixed import quota of 1.5 lakh MT, urad import flow would be limited too while stock at port is decreasing. It may push up urad price by Rs 300-450 more from current level in coming weeks. In Mumbai market urad FAQ is being traded at Rs 4800-4850. SQ is being traded at Rs 5800-5900 per qtl. Delayed monsoon rain may disturb commencement of planting in southern Indian states. Agriwatch expects demand –supply gap to widen further in the near to medium term.
- **Govt is monitoring pulses market and if prices continues to move up, action might be taken** to control the price. Moong market traded lower due to new arrival and poor demand for dhoya dal. New moong in MP was traded at Rs 6200-6300. Arrival was registered at 5 to 8 motors. Moong sourced from Jodhpur is in strong hands. As arrival pressure decreases, moong may trade up by Rs 200 from current level. Nafed still has 1.77 lakh MT in stock. Out of total 1.63 lakh MT is old stock while 14506 MT has been procured from summer crop. As procurement is on, stock would increase. New crop is coming from UP, MP and Bihar. So range bound movement might be seen in moong. New crop would hit market by August end. So any bigger jump is unlikely in cash moong market. It may continue to trade in the range of Rs 6200-6700, depending on market and quality of the crop. There is no parity for moong import as Myanmar is offering moong at \$830 per MT.
- **Arrivals of chana in all major producing markets were seen limited amid weak futures helped** market to decrease slowly. It moved down by Rs 100 to Rs 4500-4550 in Delhi market. Price of dal and besan too moved proportionally. Arrival got slowed down from Bikaner line as there is no parity at this level. However, buyers in Kanpur are active in M.P. So any major downward trend is unlikely despite ample stock in private as well as public hands. Total stock of chana with Nafed is 22.45 lakh MT. Out of total old stock share is 16.25 lakh MT while new share is 6.17 lakh MT. As stockiest are unwilling to sell, chana is bound to recover. In June chana in Delhi market may trade in the range of Rs 4450-4650. At this level buyers are expected to be active again. Pressure on chana market increased with concerned ministry statement that there are ample stock in central pool and if prices continue to increase it may start releasing stock to control prices.
- **As per trade Sources, India has imported 35714.17 MT of yellow pea at an average CiF of \$268.31 per tonnes** during the month of April-2019. Of the total quantity around 33282.77 tonnes has been purchased from Canada and the remaining quantity from Ukraine, Moldova and Russia.
- **Masur trades firm in global market despite restricted import by India due to higher duty. Besides**, supply shortage in domestic market remains supportive to cash market. Stockist are active. Masur vessel are being quoted at Rs 4150-4175 while containers are being quoted at Rs 4350-4450. In Kanpur masur is being traded at Rs 4400-4500 per qtl. As demand is likely to improve, masur is bound to trade higher in coming weeks.

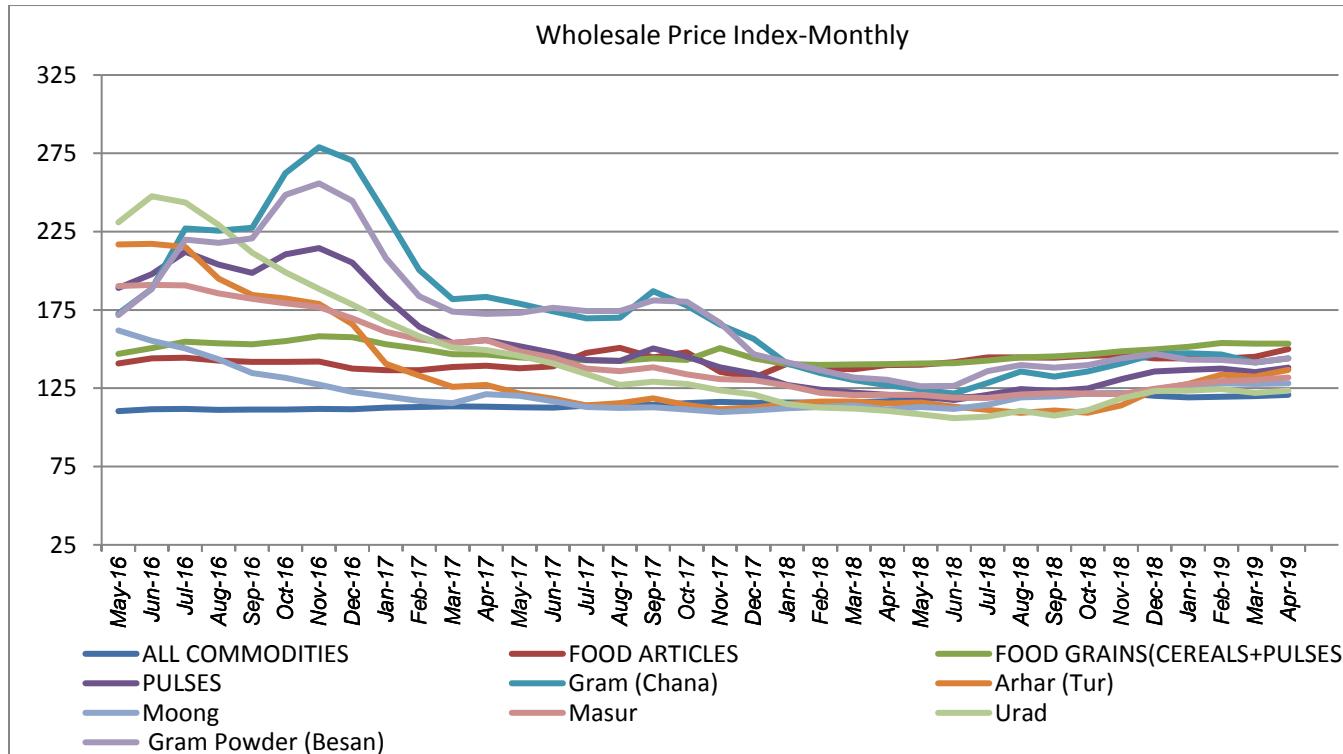

International Market:

- **Production of lentil in Canada is expected to increase by 0.38 % to 21 lakh MT in 2019-20,** against 20.92 lakh tonne in 2018-19. Yield for the year has been pegged slightly up by 5% to 1.47 MT per ha against 1.4 MT /ha last year. However, total supply is expected to decrease by 2.01 % from 29.80 to 29.20 lakh MT due to 4.92% lower production pegged for 2019-20. Export has been pegged 1 lakh MT higher at 18 lakh tonne in 2019-20. Carryout is likely to decline from 8.0 lakh Mt to 6.35 lakh MT in 2019-20. Stock to use ratio, is expected to decline from 37 to 28 % in 2019-20. Price is likely to hover in the range of \$ 390 to 420per MT in 2019-20.
- **Pakistan's import of pulses declined to \$432.546 million in July-April, down by 2.3 percent,** official figure says. Fall in pulses import now stands at \$10.19 million in July-May 2018-19 from \$442.736 million in July-April 2017-18, Pakistan Bureau of Statistics shows. In term of quantity, pulses import surged by 30 percent or 183, 889 metric tons to 801,843 metric tons in July-April 2018-19 from 617,954 metric tons in July-April 2017-18. As per the latest update by Pakistan Bureau of Statistics, pulses import in Pakistan increased by 30% to 801843 MT during July to April-2018-19 against 617954 MT in July- April -2017-18. In April -2019 Pakistan imported 76833 MT against 59386 MT in April-2018. Pakistan's import increased by 29.38 % in April-2019.
- **Production of Chickpeas in Canada is expected to decrease by 58.19 % to 1.30 lakh MT in 2019-20,** against 3.11 lakh tonne in 2018-19. Yield for the year has been pegged slightly down at 1.76 MT per ha against 1.77 MT /ha last year. Even total supply is expected to decrease by 0.57% from 3.50 to 3.48 lakh MT due to higher expected export in 2019-20. Export has been pegged at 1 lakh tonne, up by 0.10 lakh MT from 2018-19. Carryout is likely to decrease from 1.95 lakh Mt to 1.8 lakh MT in 2019-20. Price is likely to hover in the range of \$ 500 to 530 per MT in 2019-20.
- **Adverse weather condition during crop growth stage in Myanmar has affected Tur and urad crop.** Despite good area coverage this year, production is likely to decline by 15 to 20 percent. Lower crop in India this year and weak prospects in Myanmar may push tur market further up in May. Farmers in Africa too have planted lesser area this year. So, pulses market may find good support in 2nd half of the year. Mayanmar is offering new tur at \$770 in forward deal basis Indian ports. Old crop is being offered at \$660per MT.
- **As per USDA, pre-sowing intention report, dry pea area is expected to increase by 3% to 8.81 lakh acres this year.** Area may increase in Idaho, Montana, South Dakota, and Washington from last year. However, it may decline in Nebraska and North Dakota.
- **As per USDA report lentil area in US declined by 29 % from last year to 5.55 lakh acres in 2019.** Planted area is expected to decline in Montana and North Dakota while in Idaho and Washington it is expected to remain unchanged. If materialized, it will be the lowest area coverage since 2015.
- **As per the latest USDA seeding intention, expected area coverage under chickpea in US may decline by 40% to 5.19 lakh acres.** Out of this, small chickpeas area may be at 1.37 lakh acres large chickpea ar 3.82 lakh acres .It would be the lowest since 2016.
- **Chickpea production in Australia has been forecast at 330 thousand MT for 2018-19 against 1148 thousand produced in 2017-18.** Fava bean production too has been estimated at 214 thousand MT against 330 last year. Field pea production has been pegged at 194 thousand MT against 289 in 2017-18. Lentil production estimate too, has been pegged at 343 thousand MT against 485 thousand MT. However, Lupins production estimate has been pegged higher at 710 thousand MT for 2018-19. It was 631 last year.
- **As per statistics Canada land in pulses and specialty crops may decline in 2019-20 if farmers stick to their seeding intentions.** They intend to plant 8.82 million acres of pulses and special crops, down from 8.98 million last year and below the recent five-year average of 9.52 million acres. The only crops showing an increase over last year are peas, which could climb from 3.615 to 4.035 million acres.

Weekly Outlook: -Pulses are likely to trade steady to slightly weak in this week.

Monthly Wholesale Price Index:

Annual Rate Of Inflation:

Index Numbers of Wholesale Price in India (Base: 2011-12=100)

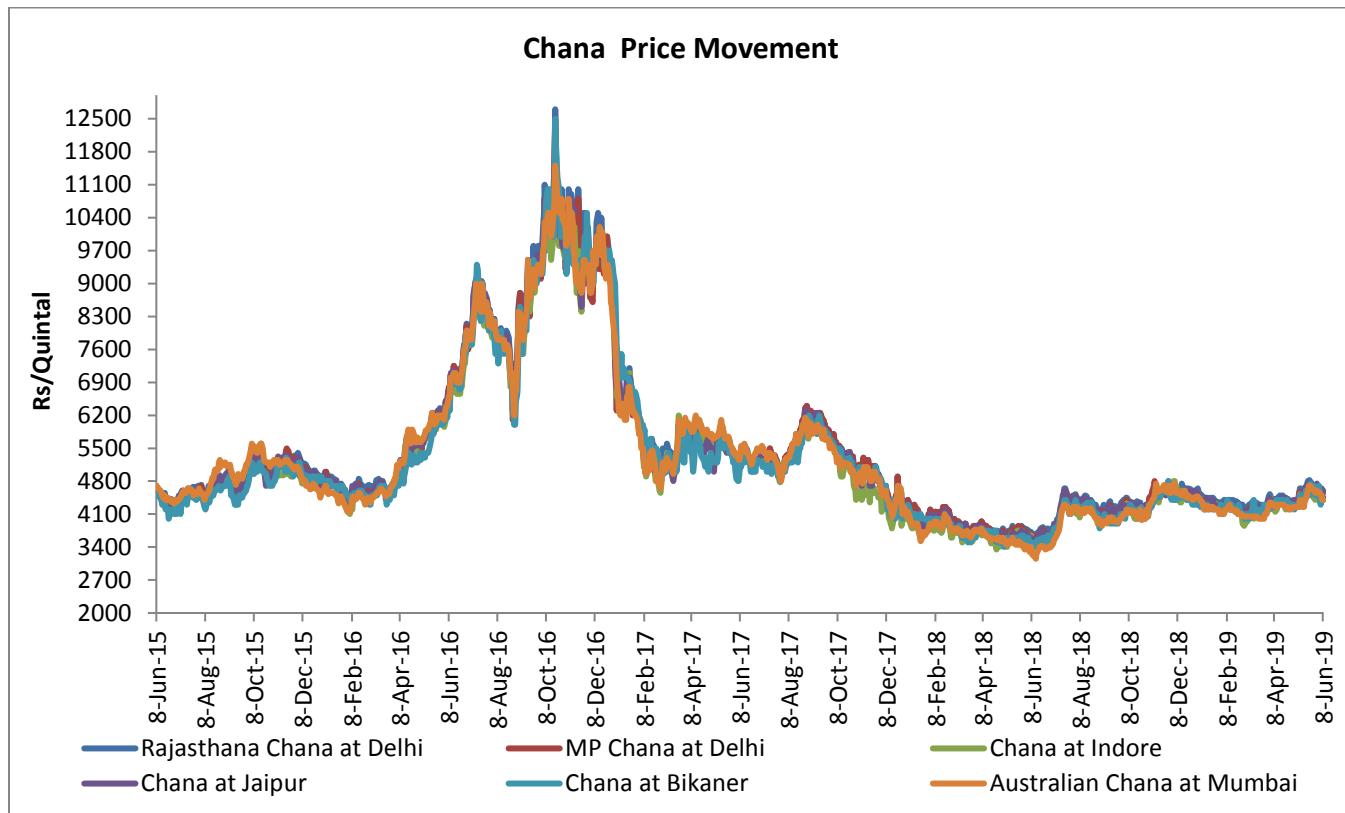

Pulses WPI increased by 2.8 point from 135.3 in Mar to 138.1 in Apr-2019

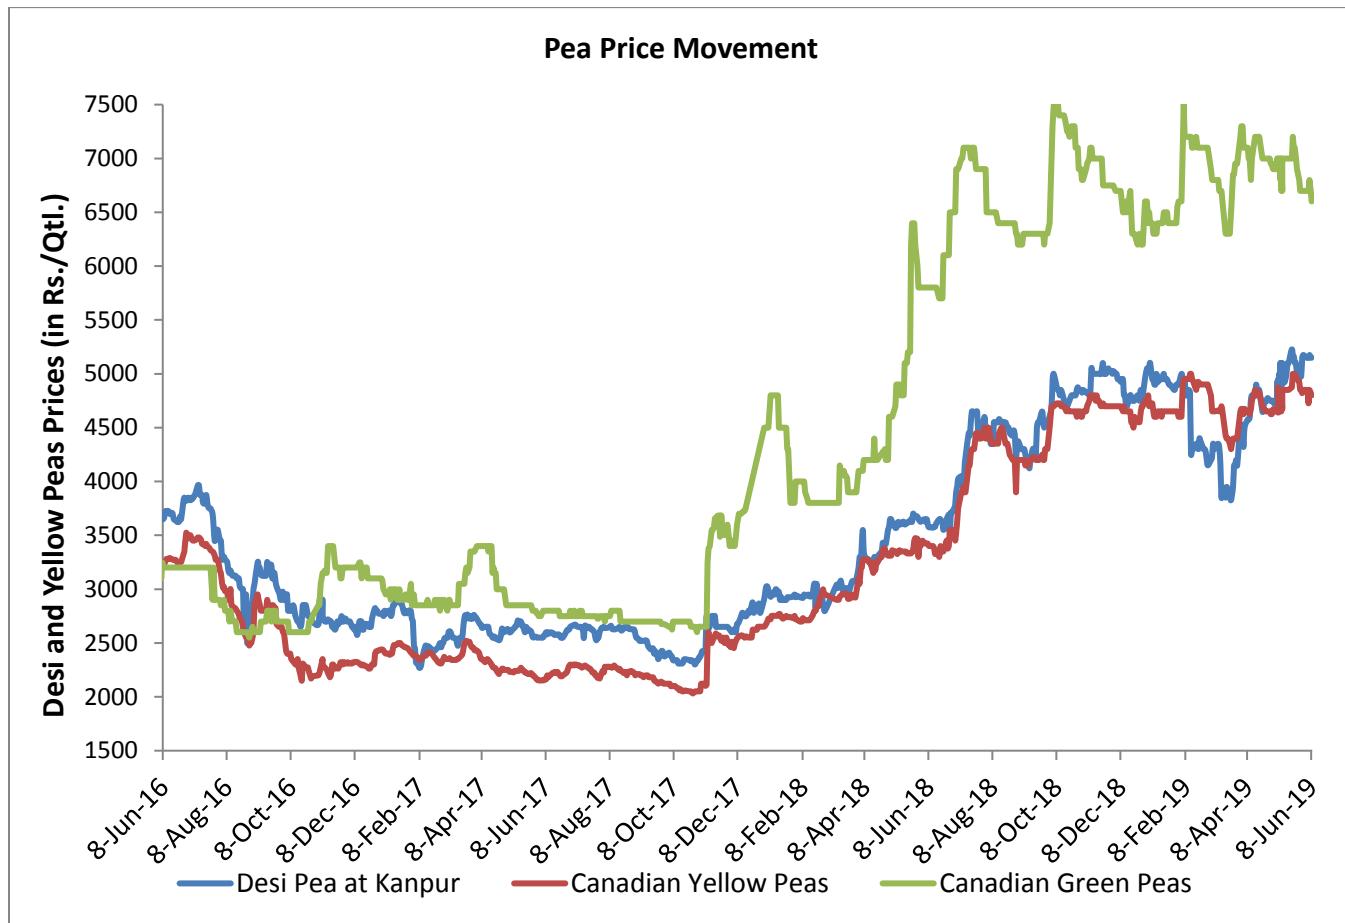

Pulses-Wise Scenario:
Chana
Current Scenario:

Cash chana market could not sustain its upward momentum taking clue from weak futures and govt's close eye on pulses market. The recent statement from food and consumer ministry regarding ample availability of pulses in domestic market and possible step to control price have acted as cap on domestic cash pulses market. Pressure was seen on chana market despite lower arrivals in markets and increased pace of procurement in major producing states. Chana in Delhi market decreased by Rs100 at Rs 4500-4550 after touching at Rs4650 last week. Even dal and Besan moved up and down proportionally with chana. Supply from Bikaner line in Delhi has decreased considerably this week as there is no parity at this price. Buyers from Kanpur are engaged in buying from MP right now. MNC's have already accumulated stock at lower level. So, cash market is likely to recover again. However, higher stock with Nafed and Cold, would restrict chana cash market to a certain extent. In monsoon season, demand for chana decreases and it may cap upward momentum. In June, market is expected to trade in the range of Rs4400 to Rs 4650.

All India average price for Chana traded down by 0.55 % to Rs 4540. Australian chana price too traded down by 0.85 % at Rs 4510 per 100kg during the same period. Following graph illustrates the chana price movement in different markets:

Market Outlook: Chana may trade steady to slightly weak this week too.

Peas (Matar):
Market Recap:

Pea market traded weak taking cue from weak chana in cash market and poor demand. Previously, firmness in chana and import quota restriction at 1.5 lakh tonne for the whole year had helped market to recover. However, with weakness in chana, pea may trade weak too despite tight supply side expected in coming weeks. Stockiest may prefer to release stock. Govt. may increase import quota to 2 lakh MT in coming months. Earlier, market was expecting higher import quota. Pea in Mumbai market is being traded at Rs. 4850-4900, while in Kanpur market it is being traded at Rs 5000-5125 per qtl. As chana price has started decreasing, pea too may trade weak. As, there would be shortage of imported crop, price is bound to move up taking cue from other pulses in the second half of the year. Stake holders should buy on downward correction.

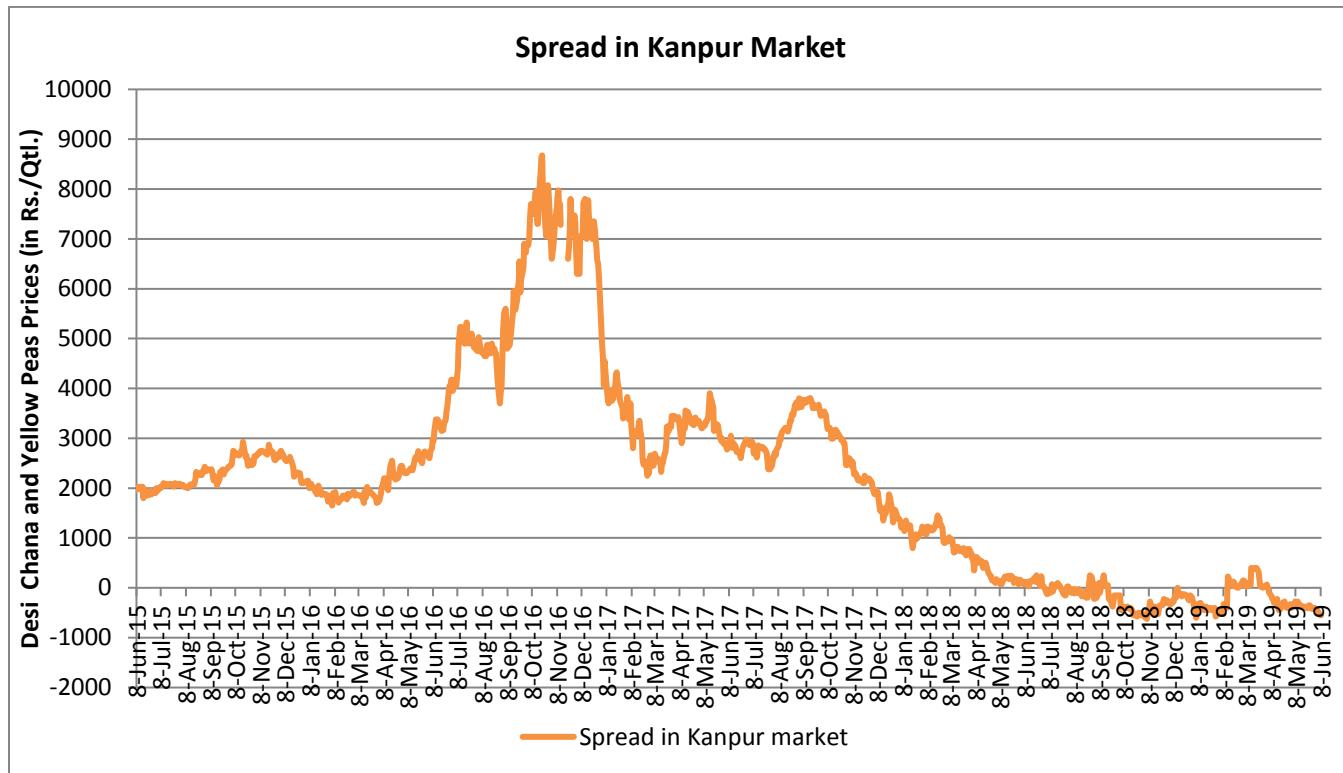

Current Market Dynamics & Outlook:

Pea traded at Rs4900-5025 in Kanpur market, almost Rs 75-100 down from previous week, due to decreased buying by bulk users and decreasing chana price. Decreasing imported stock may support pea price further by Rs. 200 more but not before a downward correction of Rs200. Now importers would be able to import only 1.5 lakh tonne till March -2020 if govt. does not increase quota by 50,000 MT, short supply may be visible in coming

months. In the medium term, demand is expected to improve as price of pulses would move up from current level. Stake holders should buy on slight decline.

Spread With Chana:

Spread between Chana and Peas, at Kanpur market has stayed in negative zone and gap increased slightly due to increased pea price in Kanpur market. Spread is expected to remain in negative zone of 350-450 in June on relative movement in Chana and pea price.

MarketOutlook: Outlook remains steady to slightly weak this week.

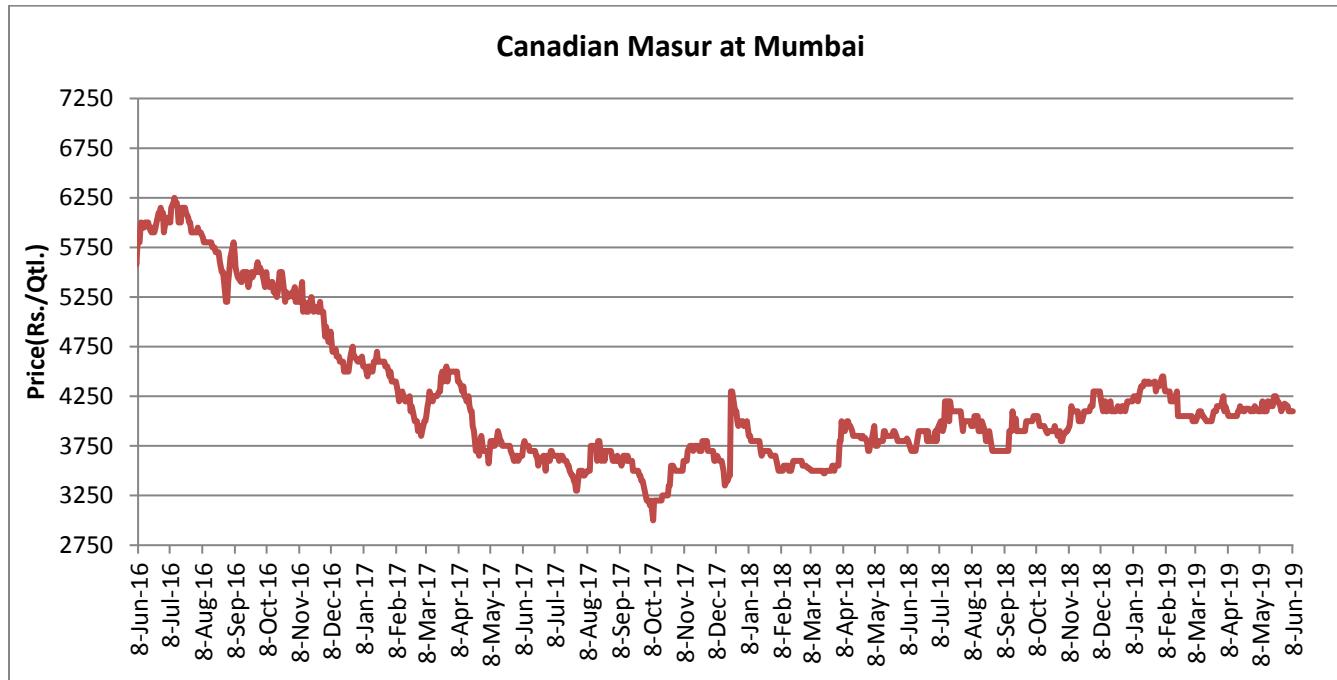

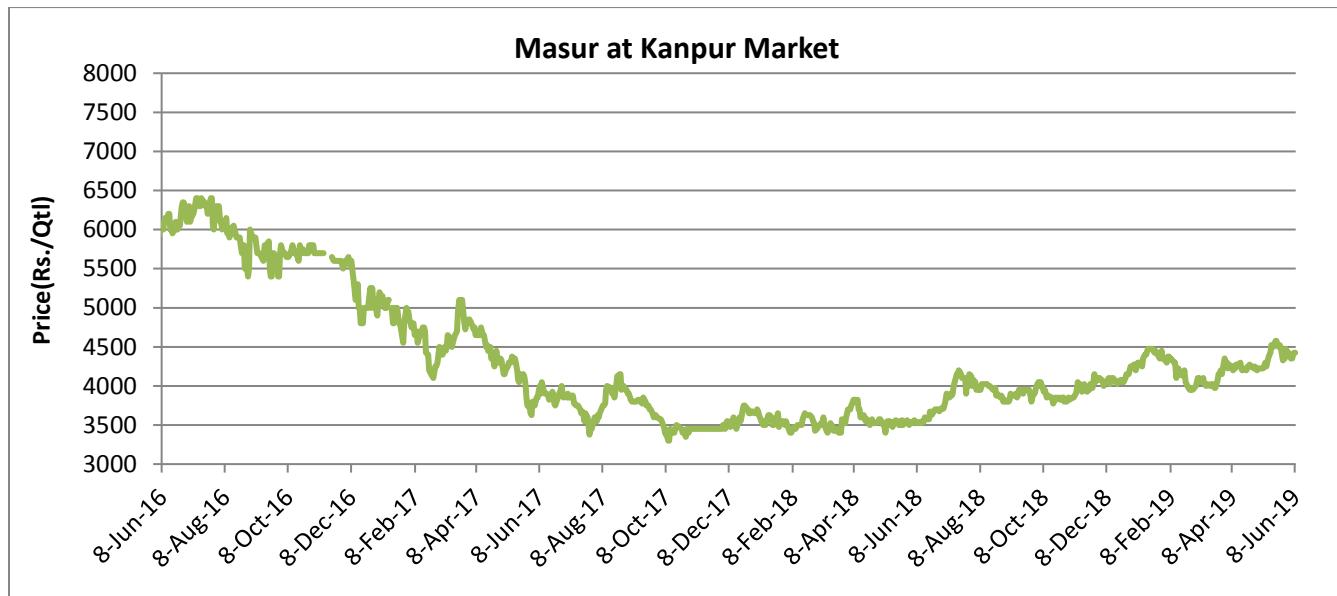

Lentils (Masoor):

Market Recap:

As per latest update, lower imports have led to increase in prices of lentil by Rs 200-250 per quintal at ports. Lentil vessel is being quoted at Rs 4100-4175 per quintal and container is being quoted at Rs 4200 per quintal. Furthermore, arrivals in domestic market is also low. Lentil stockiest are increasing their buying at a steady pace. All these factors are providing support to lentil market and as a result lentil prices may increase by Rs 100-150 per quintal in coming week. Lentil arrivals are not creating much pressure on prices. This would provide support to domestic market prices. However, higher stock in central pool may cap upward momentum to a certain extent. As prices of other pulses have started improving, lentil too may trade up again. Improvement in demand from Nepal and B'desh, may push lentil price up. Kanpur cash market may trade in the range of Rs4350-4550 this week too.

Current Scenario:

In the 1st week of June-2019, average price in key market like Kanpur was down by 0.55% to Rs 4400 per qtl. Prices are likely to trade down in June to a certain extent. Demand from neighboring countries, is awaited. Masur is unable to get support from other pulses as all tradeweak right now..

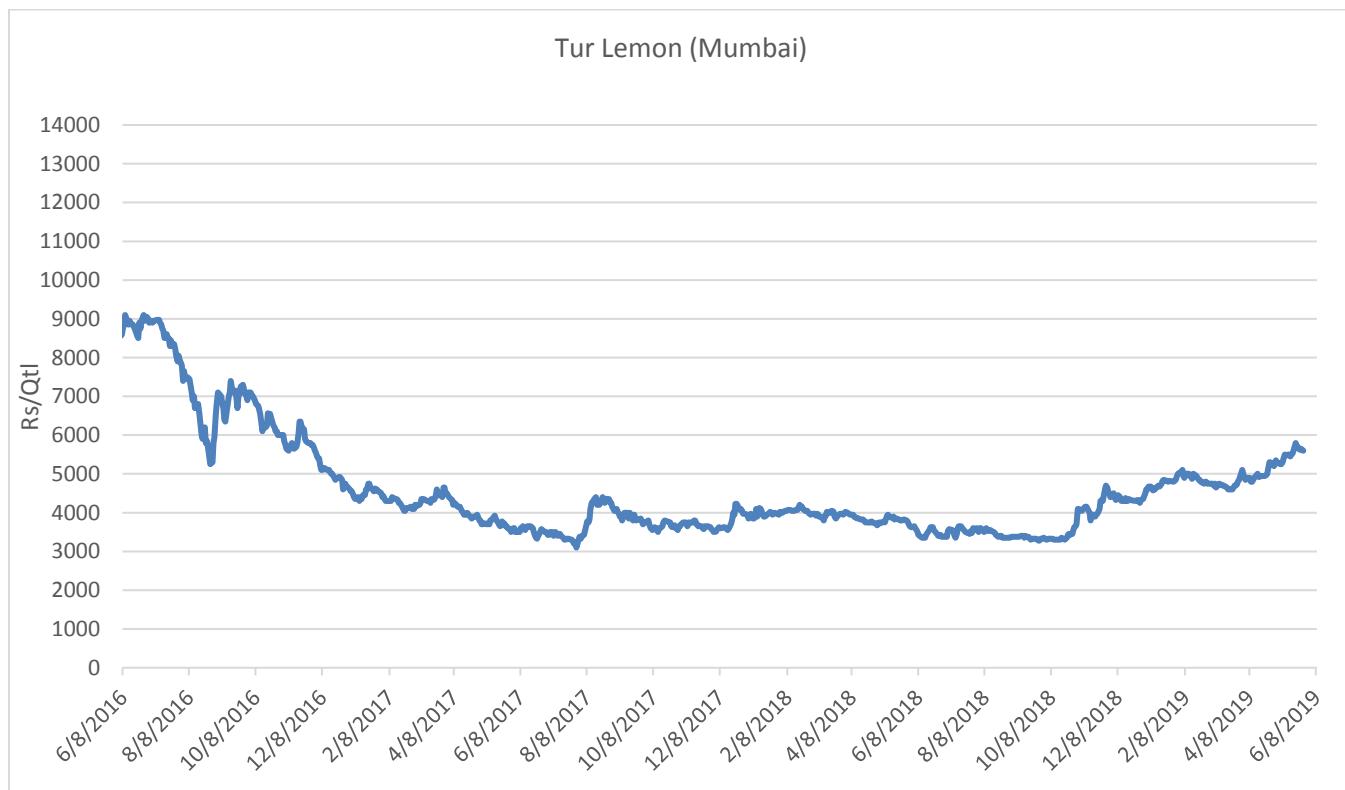

Market Outlook: Prices are likely to notice weak movement due to slower procurement drive, fear of selling by Nafed and increasing arrival amid higher import volume.

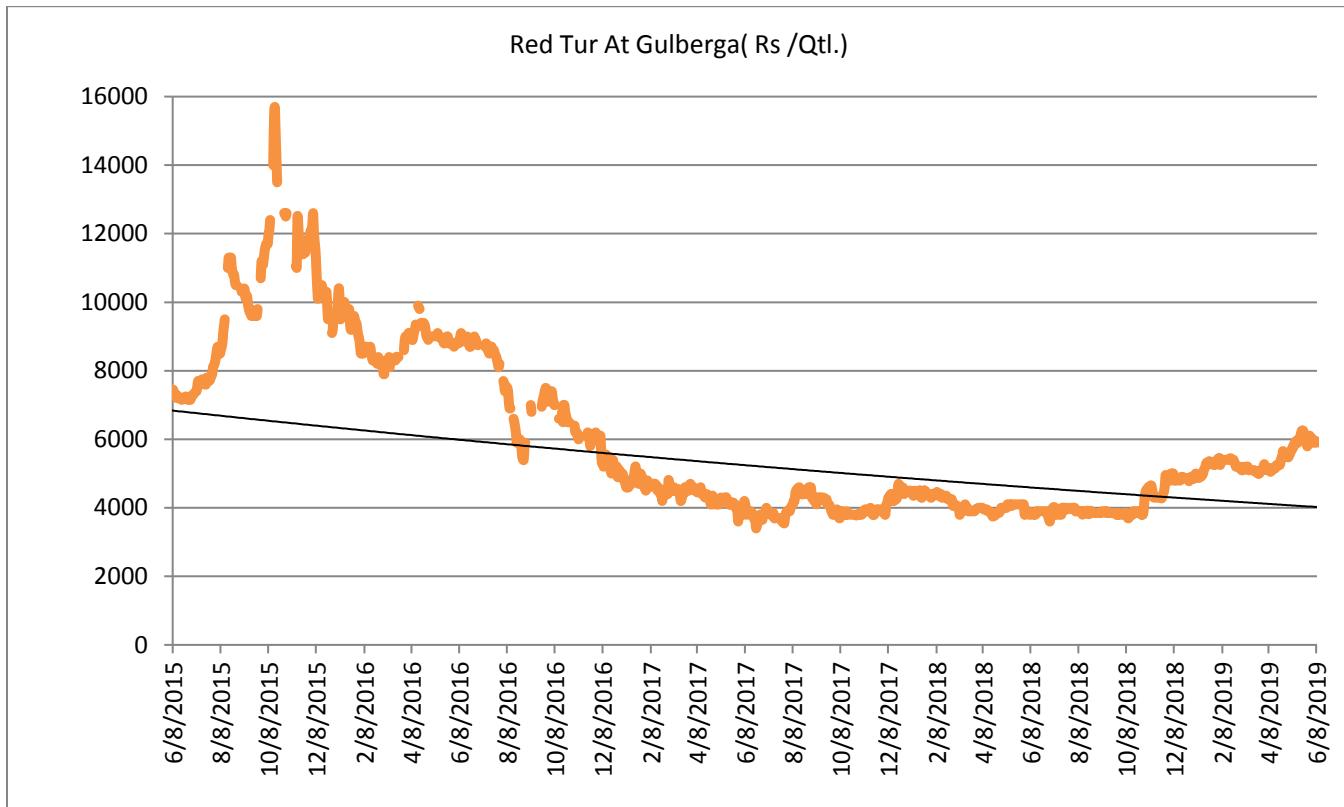

Pigeon Pea (Tur/Toor):
Market Recap:

Tur traded weak due to fear of govt.'s action and higher release from centralpool stock this week. There is a common talk in the market that some big groups have sold tur in forward months in large quantity. So, tur market is expected to stay steady in June and once the pressure gets released, market may move up again. Besides, availability of tur at Mumbai and Chennai ports is decreasing fast and import from Myanmar in bulk quantity is unlikely due to lower crop size there. Besides, Quota for applicants will be declared on 10th & 11 June and quota allocation is expected by June end. Lower domestic crop, delayed beginning of planting and stockiest's holding may remain supportive to the market fundamentals. It is being traded at Rs 5900-6000 in Gulberga market. Tur may move up further by Rs 500 from current level but in July. Nafed still has 5.63 lakh MT old stock and 2.75 lakh MT new crop. Thus total stock comes to 8.38 lakh MT. It may help market to restrict upward momentum beyond a certain level. Govt.'s plan to rebuild pulses buffer stock of 16 lakh MT would also be a price limiting factor. Overall sentiment in tur market remains firm. In any unexpected spike, govt. has option to remove import quota, fixed at 2 lakh MT right now, plus 1.75 lakh MT

Current Market Dynamics & Outlook:

Tur market is expected to stay steady to slightly weak due to fear of higher release/auction by Nafed if prices continues to move up. Buying by private trade too has slowed down. However, overall outlook for Tur cash market remains firm in the medium term. Stake holders should buy on down ward correction.

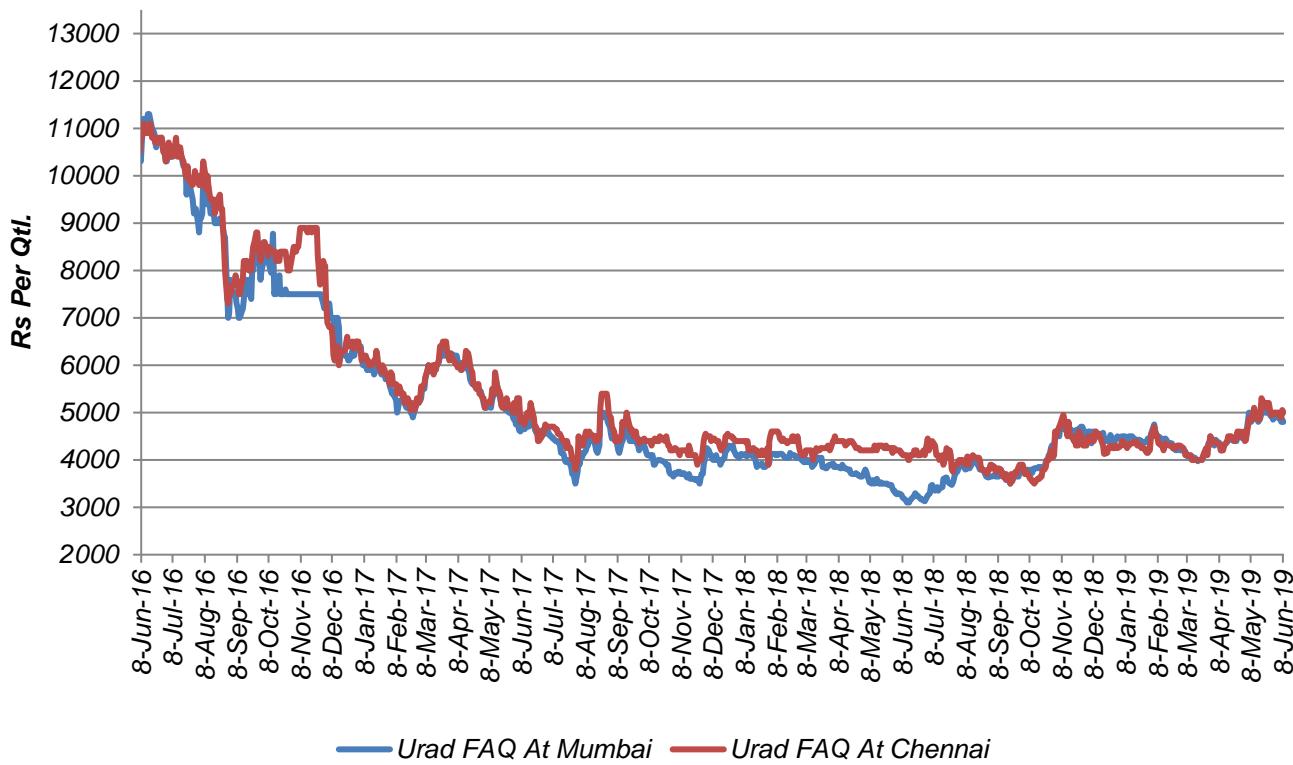

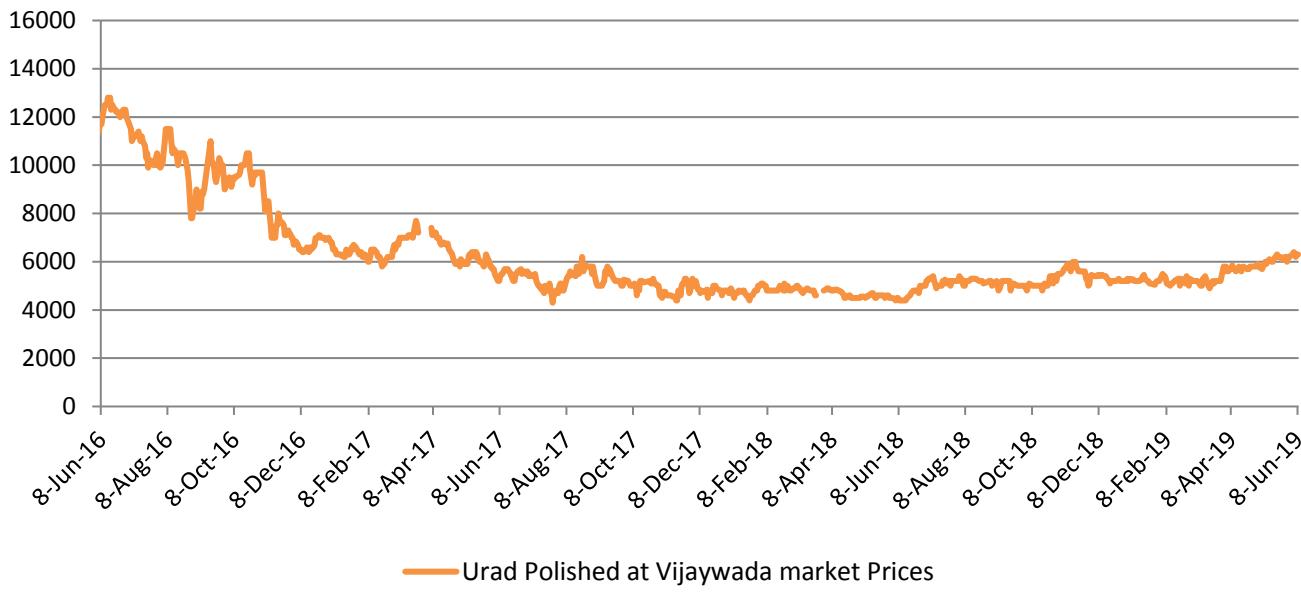

Market Outlook: *Tur market may trade weak by Rs100-150 more with increasing arrivals from old stock and poor buying spree.*

Black Matpe (Urad):

Urad cash market traded firm taking clue of diminished possibility of import till July and active buying by mills. Besides, stockists too have started holding stocks in anticipation of higher price. Demand for quality urad too has improved amid restricted release by stockiest. Besides, The DGFT has fixed import quota of urad at 1.5 lakh MT for the whole year starting from 1st April-2019. As demand for urad dal improves in summer season, prices are expected to move up slightly from current level. No big crop is due till Sep. Before this, green urad from MP and UP would hit market but mostly would be consumed locally in Dhoya dal. Under prevailing market scenario urad price may move up by Rs 200 to 250 more from current level. Currently it is being traded at Rs 4850 to 4950 in Mumbai market. After a slight downward correction, urad may move further up by Rs 100-200. Stake holders should buy on dip and hold stock.

Current Market Dynamics & Outlook:

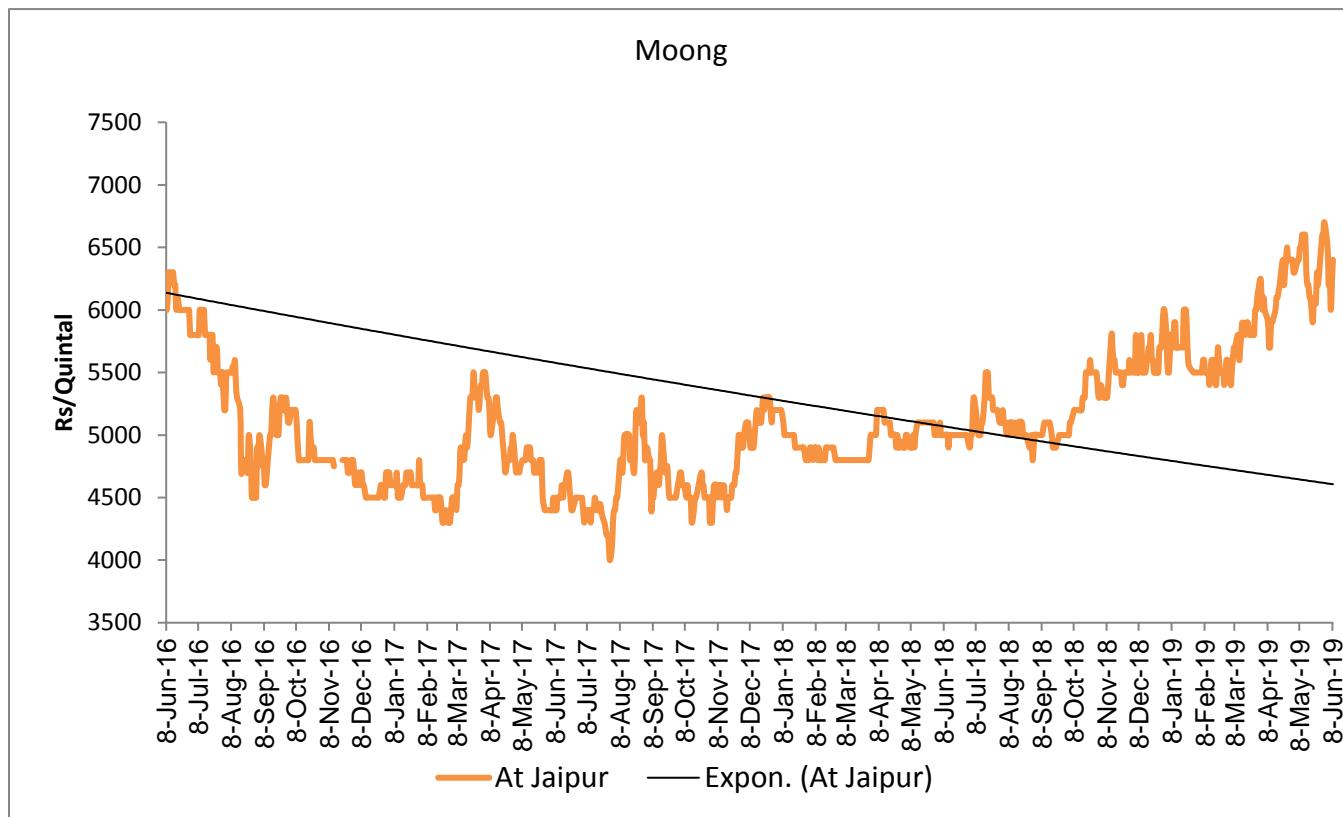

Urad FAQ at Mumbai (Rs Rs4800-4900 per Qtl.) and Chennai (Rs.4950-5000 Qtl.) noticed firm tone. It traded up in Vijaywada too. Improvement might be seen in Urad market once again, after slight correction and opening up, of weather. Demand is likely to increase with increasing temperature. The following graph shows the prices movement in different markets:-

URAD FAQ

Urad Polished at Vijaywada

Market Outlook: Urad Prices are likely to show steady to slightly firm momentum this week

Green Gram (Moong):
Market Recap:

Stockists are unwilling to sell moong sensing uptrend to continue in moong market. Offtake from mills have increased. It has helped market to move up. There is no scope of import before July and shortage of quality moong is obvious in cash market. It may push up moong price again by Rs 200 from current level. In Jaipur market, moong is being traded at Rs 6200-6300 and in Jodhpur it is being traded at Rs 6000-6200 per qtl. Availability of moong is lower in Maharashtra. In Karnataka moong is being traded at Rs 5800-6000. Stake holders should buy on correction. No new crop is due in next two months.

Market Outlook: Moong prices are likely to trade slightly weak in the near term.

Pulses Wise Technical Outlook For The Week:-
Chana:

Outlook: –We expect prices to move steady to slightly weak in the coming days.

- ❖ Chart depicts steady to slightly weak movement in June.
- ❖ RSI is moving down in neutral region.
- ❖ Expected price band for Chana in Delhi is 4400 to 4600 for this week.

Strategy: Buy on dip

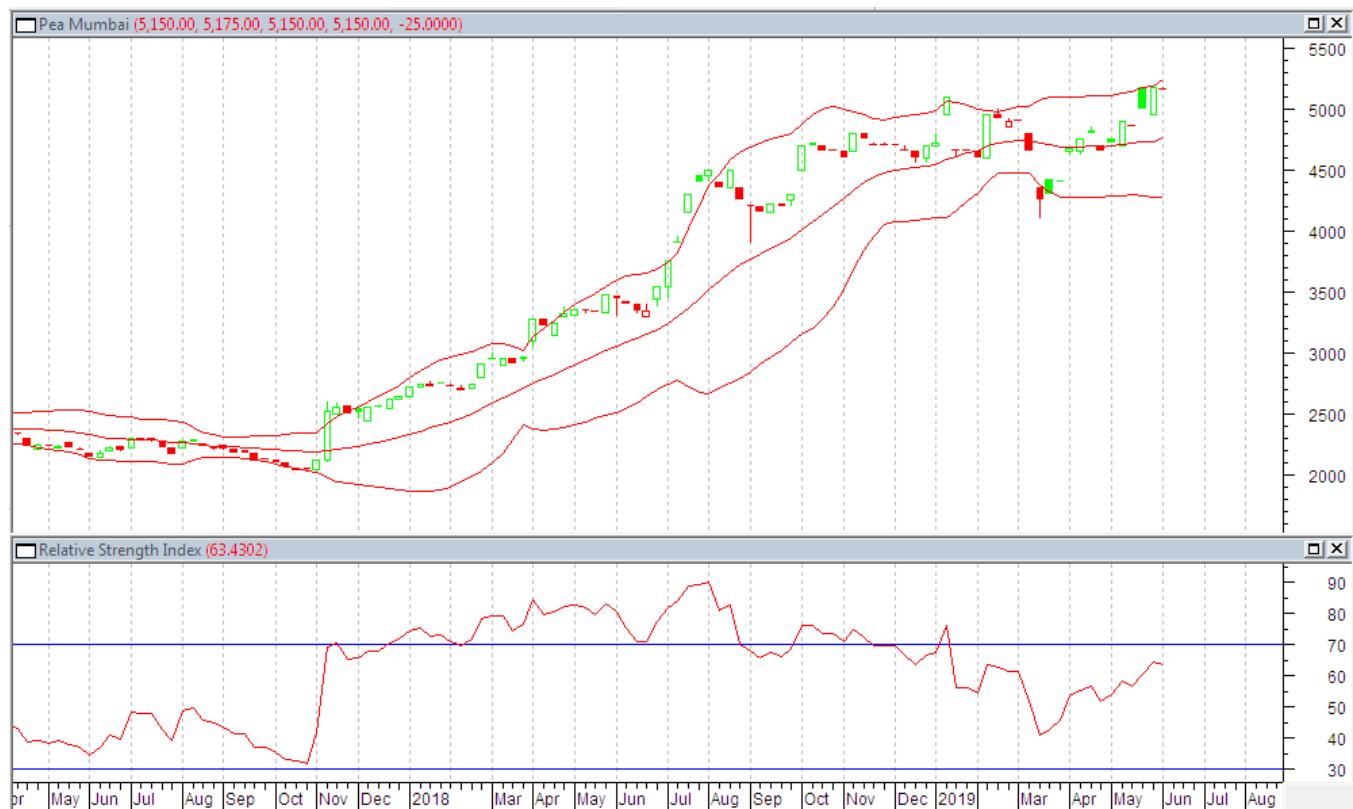

Trade Recommendations: Go long around 4400 with the first target of 4500 and second target 4550 with stop loss at 4300 level.

Delhi Chana Physical:

| Support & Resistance | | | | |
|----------------------|------|------|------|------|
| S2 | S1 | PCP | R1 | R2 |
| 4200 | 4300 | 4500 | 4600 | 4750 |

Spot Market outlook: Chana prices are likely to show steady to slightly weak movement this week

Peas:

Yellow Peas -Canadian Origin (at Mumbai) - Spot Market Weekly Chart

Outlook - We expect prices to notice weak movement in this week taking clue from weak chana. Govt has delayed decision over import quantity. It may be increased to 2 lakh MT .
