Commodity-wise Domestic, International Prices and Arrivals at Different Centers

Weekly Highlights-Domestic Market:**Pulses Sector-Highlights:**

Despite weak demand and slightly higher flow of arrivals, Chana cash market traded range bound during the week under review. The weekly average price in Delhi decreased slightly by 0.07% to Rs 5333 over the previous week. However, in the South Indian markets average weekly price increased slightly by 1.76 % to Rs 4783. As demand is weak, no major movement is expected in Chana & Chana daal prices this week. Market is awaiting for the fresh demand from bulk users. The higher Adv. estimate for Chana (11.6 to 12.61 MMT in the third Adv estimate from the 2nd) could not impact the market sentiment much as of now. The Trade sees it as not reflecting the “actual” production.

The impact of the new import policy, a close eye on the market movement and stock by the govt. continue to affect the market sentiment of Tur. Import quotes at ports are coming down, resulting the downward movement in cash market too. Tur in Gulbarga market traded down by Rs 200 to 6400 from earlier Rs 6600. Imported tur at Mumbai port too decreased by Rs 200 to Rs 6050 from earlier Rs 6250 despite decreasing arrivals last week in domestic markets. Demand is weak and the volume of import is expected to increase from mid-June. If demand improves, some improvement is expected. Sowing of Tur may begin by 20th June. If volume of import increases, cash market may trade to the current level as parity is not there below 6000.

After a recent change in the import policy, the cash Urad market traded down by Rs 300 to Rs 6550 again after moving up to Rs 6900 in the beginning of the last week. The uptrend could not sustain as around 30-35 thousand MT is on the way to India and they are quoting Rs 6200 for end –June July delivery. It has weakened the sentiment in the markets. Millers had purchased 200 containers at Rs 6600 in end May. So, they would sell it in the market as soon as possible as importers are quoting low price for forward delivery. It would continue to pressurize cash market in coming weeks. The cash market may touch MSP soon if early sowing of Urad starts with the help of pre-monsoon rains. Over all inner tone remains weak.

The cash moong market could not sustain its firm momentum due to the restricted buying by mills. Arrival is coming from the summer crop while early sowing is about to start in Karnataka due to good pre-monsoon rains. If it happens so, kharif crop in may hit Karnataka in August. There are reports of early sowing from M.P. & Maharashtra too in one-two districts. At the price front prices of Moong decreased by Rs 500 to Rs 6500 in Jaipur market from earlier of Rs 7000. It is already ruling below MSP in M.P. As the summer crop is coming and the kharif may start from mid-Aug, Pressure may continue on the Moong cash markets. Demand is weak while the kharif sowing area may similar to last year. Market may improve if Nafed starts buying under the price support scheme.

The import policy for Lentil remains unchanged. Cash market traded almost unchanged at previous level. Average weekly price moved slightly up to Rs 6433 from Rs 6425 in Mumbai market. After 10th May-2021, Masur cash market in Kanpur opened on 1st June. Prices decreased by Rs 175 from 6875 to Rs 6700 during the week. As arrivals are expected to increase, prices may decrease by 200 more in the short term. Demand is low. Lentil is being offered at Rs 6350-6400 at Mumbai port.

Against buffer norm of 20 lakh MT, Nafed has around 12.44 lakh MT pulses stock. The stocks include 7.54 lakh MT Chana, 3.44 lakh MT Tur, 87309 MT, Urad -55000 MT, Masur-4357 MT. As per the market sources the stock was recorded at the beginning of June-2021.

Global Market:

Global chickpea markets traded almost firm during the past week. Markets remain concerned with the production potential in North America and the possibility the region will need to import food grade product in the coming season. Supplies of marginal and feed quality chickpeas remain significant in Canada, but are no longer having a negative impact on markets-as per the news released by Statpub.

Global Lentil markets were softened to some extent during the week under review against slowing sales and worries that India has yet to announce any changes to import duties for lentils. The trend may continue if fresh export demand starts.

The seeded area under dry peas is expected to be slightly higher at 1750 thousand ha in 2021-20 against 1722 thousand ha last year in Canada. However, yield may decline from 2.73 to 2.57 t/ha this year due to average yield expectation owing to the expected uncondusive weather conditions. So, the production is forecast to decrease from 4594 to 4400 thousand tonnes this year. Total supply and the export figure too may decrease from 4927 to 4790 and 3800 to 3700 thousand tonnes respectively. However domestic use may increase from 827 to 840 thousand tonnes this year. The carryout to decrease from 300 to 250 thousand tonnes.

Lentils production in Canada is expected to decrease from 28.68 in 2020-21 to 2.7 MMT in 2021-22 due to slightly lower area & yield. Export too are expected to decrease by 2 lakh MT to 25 lakh MT in 2021-22. Total supply is expected to decrease from 31.82 to 29.25 lakh MT due to likely lower production in 2021-22. Against it domestic usage. However, domestic use would decrease from 3.27 to 2.75 lakh MT in 2021-22. So carryout stock would stay at same las last year at 1.5 MT. Average yearly price is expected to be in the range of \$ 585 per MT. For 2002-21 it is \$ 600 per MT.

The seeded area under Chickpeas is expected to be slightly lower at 100 thousand ha this year in Canada against 121 thousand ha last year. the yield too may decline from 1.79 to 1.75 t/ha this year. The production of Chickpeas may decrease from 214 to 170 thousand tonne in 2021-22. However, total supply and export may increase slightly from from 507 to 520 and 115 to 125 thousand tonnes respectively this year due to low domestic use. The carryout would increase slightly from 305 to 310 thousand tonnes this year. the yearly average price is expected to rule at \$545 per tonne against \$610 last year.

Chickpeas production in Australia is expected to increase from 2.81 to 7.55 lakhMt in 2020-21. Even field peas production would increase from 2.19 to 2.94 lakh MT-n 2020-21. Even lentils production may increase from 5.34 to 6.34 lakh Mt in 2020-21.

Lentils production in US for 2020 has been pegged at 336,201 MT based on 514,000 acres. Lentil production is up by 40% from last year with a USDA production estimate of 7.41 million cwt. Planted acreage was up 9% from 2019 with 528,000 acres in 2020, and harvested acreage was up even more, 21% at 514,000 acres. Weekly Outlook: - Pulses are likely to trade mixed.

Pulses-Wise Scenario:
Chana
Current Scenario:

Chana cash market showed some downward correction taking cue from other pulses at the end of the week. In the beginning of the week, it traded down by Rs 5375 at 5325. Arrivals are increasing in Gujarat and Madhya Pradesh. As prices are ruling above MSP, the procurement volume by Nafed would be limited. Farmers associations have demanded to extend the time till end of June. Daal prices traded down by 2 to 3% last week.

Following graph illustrates chana price movement in different markets:

Market Outlook: Weak movement is expected to continue in cash the chana market this week due o weak in demand at lower level. . Indian importers have imported around 4831.34 MT chana during April 2021. India imported 3.29 lakhMT Chana during last financial year.

Chana Weekly Technical Analysis:

Technical Commentary:

- Decreasing price & OI hint weak sentiments in futures market in the near term.
- RSI is steady in the neutral region, hints indecision.
- Prices closed above 9 and 18 days EMAs.
- Candlestick chart hints bearish sentiment.

Strategy: sale on rise

Supports & Resistances			S1	S2	PCP	R1	R2

- Do not carry forward stock for next week.

Peas (Matar):

Market Recap:

Govt. has not given any import quota for peas as of now. However, if prices of chana moves up beyond a certain level, govt. has option to import peas and ease supply side in the domestic market. Peas prices traded slightly down due to falling chana prices. Matar in Kanpur market is being traded at Rs 5150 per qtl. There was no quotes for green peas as availability is negligible. Market is waiting for govt.'s move on peas import quantity for this financial year and revision in the MIP. As of now there is no intension to open peas. It may move further down. Following chart shows price movement in various markets:

Current Market Dynamics & Outlook: Peas market traded slightly down due to weak tone in other pulses market. In Kanpur market it was quoted at Rs 5100-5150 per qtl. Overall, all India average weekly price was down by Rs 200 to Rs 5100 per qtl. In Mumbai market, there was no quote for yellow peas as stock has been exhausted. There is no quotes for imported peas as availability is almost nil. Mostly markets remained closed.

Spread With Chana:

Spread between Chana and Peas, at Kanpur market moved in positive zone. Gap has been fulfilled now and it is Rs 250 up now. Spread is expected to remain in the positive zone in June too on relative movement in Chana prices. Overall outlook seems steady to slightly weak this week too.

Market Outlook For June: Steady to slightly firm movement is expected in June-2021.

Lentils (Masoor):

Market Recap:

Slight recovery was seen on Friday & Saturday and it moved up by Rs 100 to 6400-6450. Demand for daal is expected to increase and prices may improve further to some extent. Masur is being traded at Rs 6350-6400 in Mumbai market. Import flow is limited as quotes in Canada & Australia are ruling higher. It comes at Indian ports at Rs 6300-6350. Stock in domestic market is said to be low. Hence, steady to firm tone may prevail. Stock in Canada is at comfortable level and there is talk in the market that some big companies have purchased lentils, who want deduction in import duty on the basis of higher prevailing prices in the market and the low crop size this year. Govt. may consider reduction in import duty, if prices continue to rule at the current level. In Kanpur market it is ruling at Rs 6650, while imported masur quoted at Rs 6550 at Mumbai port. Nafed too is not able to purchase much quantity even at the prevailing market price due to the low arrivals.

Current Scenario: Stocks at ports too have declined now. At Mumbai port importers are selling masur at Rs 6400-6450. Slight uptrend might be seen in masur market.

Market Outlook: Prices may trade steady to slightly firm due to the fresh demand from mills at low level. Overall tone in masur market remains firm in the 1st week of June-2021. As soon as the lock down is relaxed, arrival may increase and it may cap uptrend.

Pigeon Pea (Tur/Toor):

Market Recap:

Tur cash market traded down by Rs 200 to 6400-6500 on Saturday. Demand is likely to increase as the state govts. would start relaxing the lockdown in June. Arrivals are limited but may improve slightly. The import flow is not expected to increase substantially before mid- June and July. Despite the increased quotes in Myanmar and Sudan by \$ 80 to100 per MT, there is parity and imports expected, so daal prices may trade steady this week. Stockists too may prefer to offload stock to some extent.

Current Market Dynamics & Outlook:

India imported around 4304 MT tur in April-2021, the 4th month of the MY-2020-21 for tur. This India imported 4.97 lakhMT last year.It would affect total availability in the market. This year (FY) over 5.5 lakh MT import is expected.Stockists and traders may try to push up market by holding crop till Sep-Oct -2021.If monsoon starts with good rainsfall, area may increase and good sowing may help market to cool down.

Nafed has procured 10,929.36 MT Tur, so far at minimum support price of Rs 6000.The maximum (8000 MT) tur has been procured in Karnataka, followed byMh at 1001MT.As prices are ruling above MSP, Procurement quantity would be much than than normal expectation.Arrival is lower at this point of time.Farmers are hlding stock in anticipation of higher prices in coming weeks.

In the 2nd week of May-2021, average price in Gulberga market remained closed.

Black Matpe (Urad):

After a considerable decline seen in the Urad cash market after the announcement of the new import policy, last week prices improved slightly on the back of limited arrivals and the increased quotes in Myanmar. New crop from kharif crop is three months away while demand is expected to improve in coming weeks. Import flow may be limited in the first fortnight of June. The cash market in Vijaywada increased by Rs 200 to 6800. As the landed cost at Indian ports would be around Rs 7000-7100, prices the domestic market may improve slightly this week. Myanmar is offering Urad FAQ at \$850-60 and SQ at \$950.

Current Market Dynamics & Outlook:

Arrival from rabi crop is over now while arrival is at its low due the ongoing lockdown .Major urad crop comes in kharif season. As availability in Myanmar too is low and so, price may decrease. India imported around 31573 MT urad in March-2021. From April to March-21-India imported only 3.29 lakh MT urad out of allocated four lakhMT quota.This year too the govt. has allocated 4 lakhMT import quota.import may be delayed due to the legal litigation over allocation algorithm. In April India imported 2655 MT urad.

Market Outlook: *Urad Prices are likely to show firm movement.*

Green Gram (Moong):

Market Recap:

News of some losses in Hoshangabad, Harda and Timarni in M.P. due to recent rains and the planning of the procurement drive by Nafed in these regions have lent some support to cash Moong markets. Prices may increase slightly to 6700-6800. Right now it is being traded at Rs 6400-6500. Import flow may improve as the quotes in Myanmar is steady at \$950. Also, arrivals from the summer crop would not allow the market to cross MSP in the near to medium term. The crop condition is very good in Karnataka, Odisha and in Uttar Pradesh. The major markets in Rajasthan remained closed due to the lockdown. The Moong prices have decreased by Rs 600- 700 in Delhi market during the last week under review. Weak tone may prevail until Nafed starts procurement.

Market Outlook: Moong prices are likely to trade steady to weak in the near term.

Import policy & duty structure:
