Commodity-wise Domestic, International Prices and Arrivals at Different Centres

Pulses Sector- Domestic Highlights:

Mostly cash pulses markets traded down due to sluggish trading activities and weak buying interests during the week under review. Trade volumes too were recorded low. All pulses traded low by 0.5 to 3.5 % during last week. The exception was only Tur which traded stable at Rs 6200-6500 in various markets. As the prices of other pulses have eased, buying is expected now at this level and the cash market may recover with the expectation of normal trade this week.

The harvesting of Chana, Moong, Masur & Urad (Rabi) is nearing their end now. Arrivals are expected to increase. The major concern is rising temperature and it may affect the summer Moong. The size of grains may shrink and resultantly the crop size too. Demand for dal is weak and is expected to increase with the start of marriage season.

New trade has been heard in Myanmar at discounted price. Urad SQ &FAQ were traded down by \$30 to \$ 900 and 995 per MT and Tur by \$35 to \$865 per MT, basis Indian ports. Moong traded stable at \$800. The normal trade is expected from the first week of May.

Summer Urad sowing continued to gain momentum in all states including Madhya Pradesh. Farmers have covered 3.31 lakh ha as on 22nd April-2022. It is up by 63.75 % from the last year same time. The normal area under summer Urad is 3.86 lakh ha. The major growing states are Tamil Nadu, M.P. and Uttar Pradesh.

Farmers have covered 10.47 lakh ha under summer Moong so far, up by 51.14 % from 6.93 lakh ha last year same time. M.P. is a major growing state, where it has improved smartly by 119 % to 3.66 lakh ha. Recovery in area may minimize the impact of the rising temperature and the fear of small grain size.

As expected last week, Chana cash market traded down by 0.5 to 1 % in various markets. The reason behind weak momentum was the weak buying interest and poor offtake by mills during last week. Prices of Chana are expected to improve now as demand is bound to go up with the beginning of marriage season and the ongoing smooth procurement drive. State agencies, including NAFED have procured over 7,06,304 MT Chana so far. Under the prevailing market fundamentals Chana may move towards MSP level of Rs5230 soon. Beyond that level market may face resistance as there is ample old stocks and it will continue to enter into markets. Chana in various market is trading at Rs 4850-5050. It may move up by Rs100-150 in the coming weeks.

Tur cash market too traded at previous level at Rs 6200-6500 during the week under review. The low offtake, closure of markets and around 8.4 LMT import during last financial year pressurized Tur markets. Import volume was recorded at 45,000 MT in the first fortnight of April, the first two weeks of the new financial year. Availability is good and the prices may decrease further as the import flow would continue. Notably, the extended timeline for Tur import for a year up-to 31st March -2023 has capped the upward movement in cash market. Regular supply from the overseas is expected now as per requirement throughout the year. With this changed import policy, stockists of Tur may not hold their Tur stocks for a longer time. It would ensure a regular supply from the overseas and local stockists. So, any spike is unlikely. Normal trade is expected, at a range of Rs 200- 250 up or down from current prices, in the coming weeks. The other price driving forces would be the sowing area and Monsoon rains. If farmers shift some area to Soybean, price rise may be higher. The normal Monsoon is expected this year too.

The cash Urad markets cash markets could not maintain its upward momentum as expected last week and decreased by 1 to 3.5 % to Rs 6850-6900 in various markets. The main reasons of decline are mainly attributed to decreased quotes in Myanmar due to buyer's unwillingness to buy at higher price, release by importers at discounted prices in domestic markets and the increasing summer area. Market should decline further by the end of this month, once the supply resumes in Myanmar. Sensing the short supply and increasing prices of Urad in the local markets, govt. had extended the import timeline for Urad to 31st March-2023. It would ensure a regular supply as per the requirement from Myanmar and help to cap upward momentum. The medium-term outlook would depend on sowing area under Kharif season and the monsoon rains. If farmers shift area to other lucrative crops, price may move beyond our expected level of Rs 6600-7200. It may increase by Rs 100-200 more and should stabilize. New trade was reported in Myanmar last week at \$900 & 995 for FAQ and SQ, down by \$30 from the last week. India imported around 6.11 lakh T Urad during last financial year against 3.34 lakh MT in 2020-21. The short-term outlook is weak.

Moong cash market traded down by 1.0 To 3.5 % in various markets, as expected last week. Prices decreased in the range of Rs100-200 to Rs 6950 to 7100. New arrivals, ample stocks in Central pool and weak demand helped market to trade down. Summer sowing is running smoothly and is up by 51.14 % to 10.47 lakh ha. so far. The only concern is a rising temperature, which may affect yield of the summer crop, grain size may be small. However, improvement in area may minimize the loss to some extent. Ample availability in the Central pool, the arrival from Rabi crop and the smooth sowing in summer season would continue to pressurize the Moong cash market. The medium-term outlook would depend on Kharif area and rains frequency throughout the monsoon season. The short-term outlook seems steady to slightly weak after Rabi arrival, summer crop is expected from May. Import volume remains restricted due to ban. India imported 1.95 LMT Moong during last financial year against 81,842 MT in 2020-21. In April-2022(first fortnight) India imported around 4500 MT Moong.

***Masur cash market too traded either stable or decreased by 0.5 % last week and followed the fall in other pulses.** It traded down by Rs25 to 50 to Rs 6900-7200. It may decrease further by Rs100-150 as arrivals are expected to increase from this week with the opening of the markets. The current declining trend may be arrested as the costing of import has gone up and stockists might be active again at decreased price. Canada and Australia have already increased quotes from \$960 to 980 per MT. Apart from it, ready stock at Canadian ports has come down. Wheat harvesting is over so farmers may start selling Masur again. Local arrival is expected to improve and a downward correction of Rs 100-200 is expected by end April. However, the overall tone seems strong. Maximum stocks from mandis are going to go-downs, so tight supply side seems very much in the cash market. Masur is being traded at in the range of Rs6900 to 7200 per qtl.*

Global Market Updates:

*As per **the Australia Bureau of Statistics report, Lentils export decreased by 26 percent to 99,286 metric tonne in February-2022 from 135,079 metric tonne in January. In the current Marketing Year, period till February so far, total export remained 327,270 metric tonne down 3.9 percent from 340,530 metric tonne previous Marketing Year. With the buying 38,691 metric tonne, Bangladesh emerged as top importer in February followed by Turkey and United Arab Emirates with buying 19,500 metric tonne and 14,915 metric tonne respectively.***

Data released by Australia Bureau of Statistics recently reveals that Chickpea export from the country registered a robust jump of 64 percent in February-2022 than January. Total export in February from Australia jumped to

116,796 metric tonne from 71,334 metric tonne in January. During the period till February of current Marketing Year, export sales remained 303,607 metric tonne in comparison of 432,167 metric tonne in the same period the previous marketing year. With the buying 81,389 metric tonne in February, Bangladesh remained the top buying followed by Pakistan and Nepal buying 23,180 metric tonne and 4,496 metric tonne respectively.

Canadian Grain Commission data indicates that international field Peas markets ended the week's trading on a relatively firm note on the back of improved export figure from key origins like Canada. According to the data, during the February, 65,797 metric tonne Peas exported from the country and at least 30,000 MT Peas have been **exported through rail, truck or in containers. However, March-end data reveals that 164,400 MT of peas were loaded for bulk export during the month. Part of that will be counted as exports in April because official exports are based on the bill of lading date.**

According to the sources, sentiments in Lentil markets ended with firm note during last trading day on good prospective demand amidst tighten stocks in Canada and US. Market sentiments remained strong on reports about vessel availability and exporters export to meet their immediate shipping needs. Though, concerns regarding this year's crop size is still remaining but report on production would be available during second half of May. It is estimated that report may reveals that Lentil production was up over last year, possibly advancing from 1.49 to at least 1.588 million metric tons (MT) up by 6.57 percent.

U.S. Department of Agriculture (USDA) in its recent report, has estimated that growers are likely to sow around 788,000 acres area under the Lentils, as per the preliminary sowing intension, up by 11 percent from 708,000 acres last year and also well above from 523,000 acres from 2020. With 580,000 acres estimated sown area, Montana remaining the most important producing region where sowing was noticed in 530,000 acres last year followed by North Dakota where sowing intension would increase from 120,000 acres to 140,000 acres.

Recent report from U.S. Department of Agriculture (USDA) reveals that Chickpea area is likely to fall by 18 percent to 303,600 acres as growers are not less interest to sow Chickpea in a big way. However, small Chickpea area is estimated to increase from 2021 by 5 percent to 62,100 acres. Area under the large Chickpea in 2022 is estimated to be at 241,500 acres down by 22 percent from previous year.

Canada Agriculture & Agri Food Canada has published its preliminary production forecast for 2022-23 on 21st Jan-2022 for Lentil, Chickpea and Field Pea. As per the latest forecast Lentil production may increase by 55.66 % to 2.5 MMT in 2022-23 against 1.60 MMT in 2021-22. The likely yield realization has been increased to 1.41 tonne per ha for 2022-23 against 0.91 tonne per ha in 2021-22. It may have a softening impact on the global Lentil markets in the medium to long term.

The production forecast for Field Pea (Dry Peas) too is up by 48.55 % to 3.8 MMT for 2022-23 against 2.58 MMT in 2021-22. Yield forecast has been increased to 2.36 tonne per ha for 2022-23 against 1.51 toonne per ha in 2021-22. The severe drought condition had affected all pulses yield last year. The higher production prospects may cap upward movement in the global market in the medium term.

The initial production forecast for Chickpeas for 2022-23 too has been increased by 64.47% to 125 thousand MT against 76 thousand MT last year. Yearly average price forecast to has been revised down to \$860 per MT in 2022-23 against \$1065 for 2021-22. Yield has been revised up to 1.51 tonne per ha for 2022-23 against 1.04 toonne in 2021-22

According to latest update from Australian Bureau of Agricultural and Resource Economics and Sciences (ABARES) Chickpea production in Australia is estimated as 10.04 lakh tonnes for 2021-22 as compared to last year's production of 7.33 lakh tonnes. Area under Chickpea has been increased this year in Australia from 5.07 lakh ha to 6.33 lakh ha.

According to latest update from Australian Bureau of Agricultural and Resource Economics and Sciences (ABARES) lentils production in Australia is estimated as 6.56 lakh tonnes for 2021-22 as compared to last year's production of 6.34 lakh tonnes. Area under lentils this year stands at 3.9 lakh ha as compared to last year's acreage of 3.68 lakh ha.

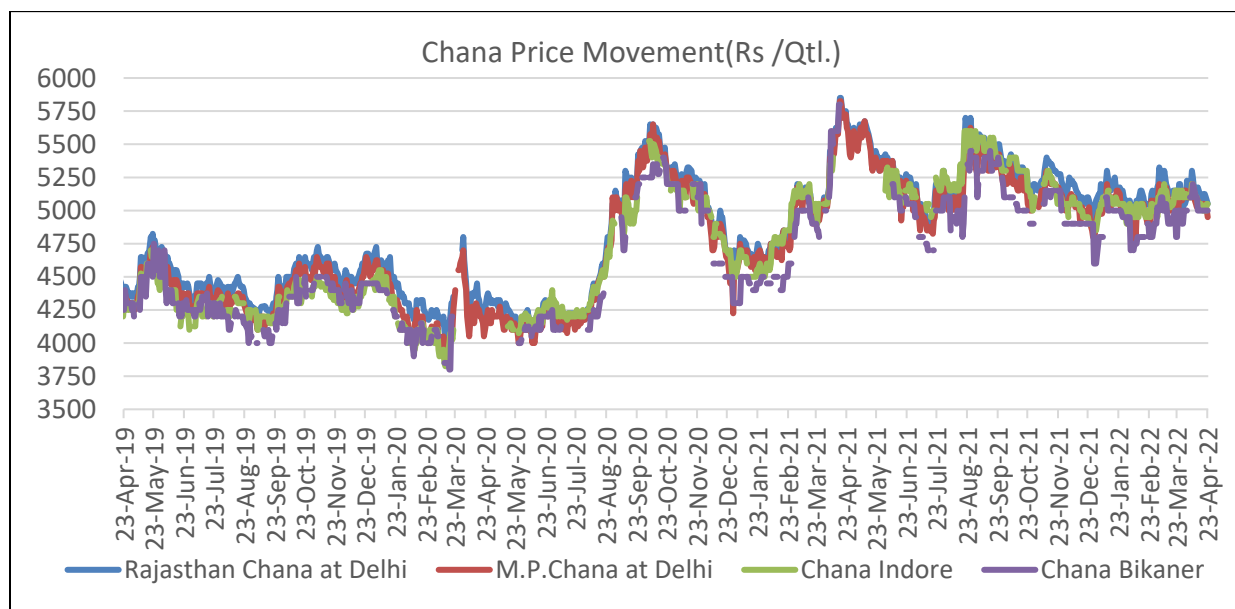

Weekly Outlook: - Sideways movement is expected this week.

Pulses-Wise Scenario:
Chana
Current Scenario:

Market reacted in same way as expected by AgriWatch last week and Chana cash prices slipped down by 0.5% to 1% in various markets owing to lower buying interest as well as sluggish offtakes of mills. Prices of Chana are expected to improve as demand is set to inch up as marriage season demand is likely to start soon amidst ongoing smooth procurement drive. State agencies, including NAFED have procured over 7,06,304 MT Chana so far. Under the prevailing market fundamentals, Chana prices may face resistance at the MSP of Rs 5230. Chana in various market is trading at Rs 4850-5050 and may move up by Rs 100-150 in the coming weeks.

Outlook for the week: Market prices are likely to improve slightly in coming week.

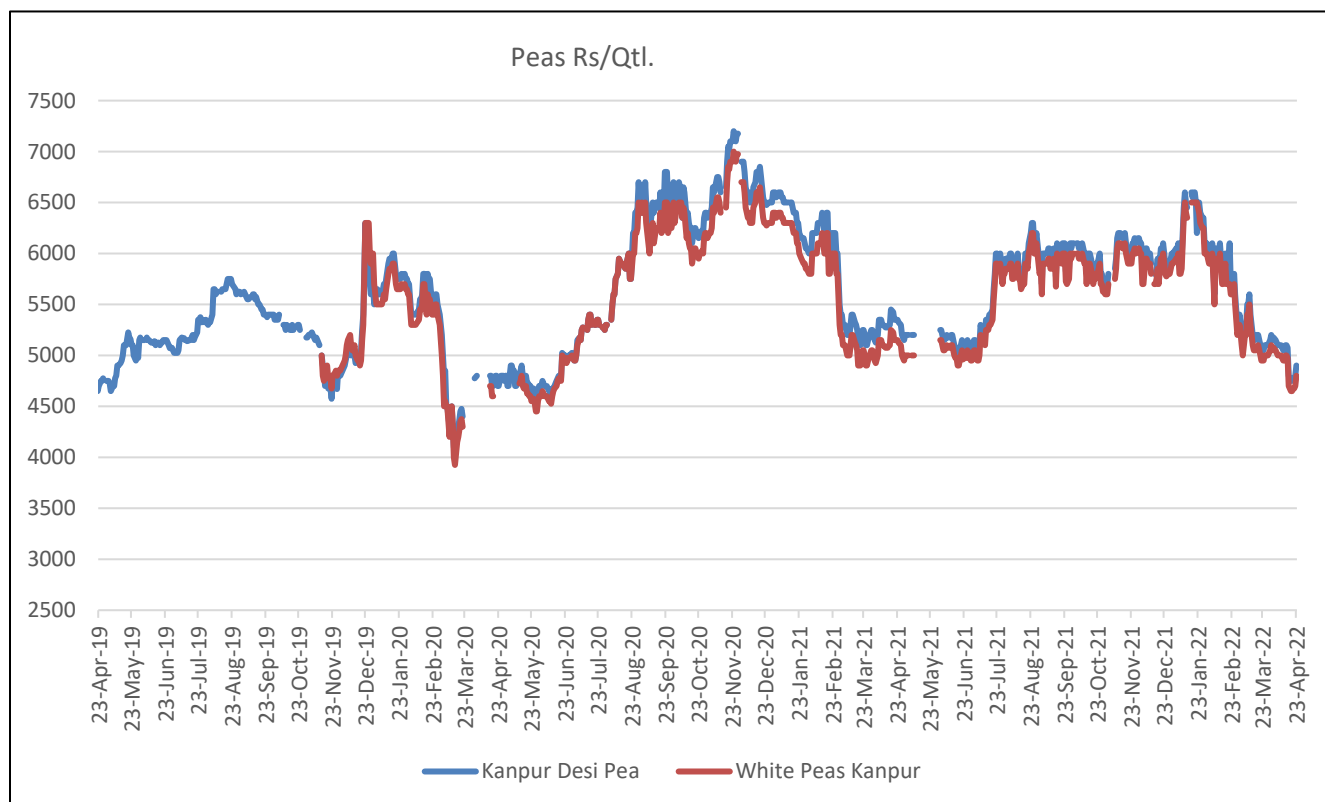

Following graph illustrates chana price movement in different markets:

Chana % Price Fluctuation Over Previous Week					
Markets	Today	Week Ago	Month Ago	Year Ago	% Ch. Over
	23.04.22	16.04.22	23.03.22	23.04.21	16-Apr-22
Delhi Chana(Raj)	5050	5100	5025	5650	-0.98
Bikaner Chana	5050	5000	4800	5600	1.00
Indore Chana	5050	5050	5150	NA	0.00
Tan.Chana	4525	4550	4400	5200	-0.55
Price Projection For Bikaner During April-2022 (5100-5350)					

Peas (Matar):
Market Recap:

Not much trading activities noticed in Peas market past week also and prices remained same as seen last week as consumers preferred to buy Chana daal instead of Pea daal. At present, Chana daal and Pea daal prices are almost same so consumers are shifting towards Chana daal from mater dal. Rate of Desi Pea in UP decreased by almost 3.92% to Rs 4900 per quintal. Given the current market fundamentals, Peas rates may remain weak, however, fall is seen to be limited as it has already decreased beyond market expectation.

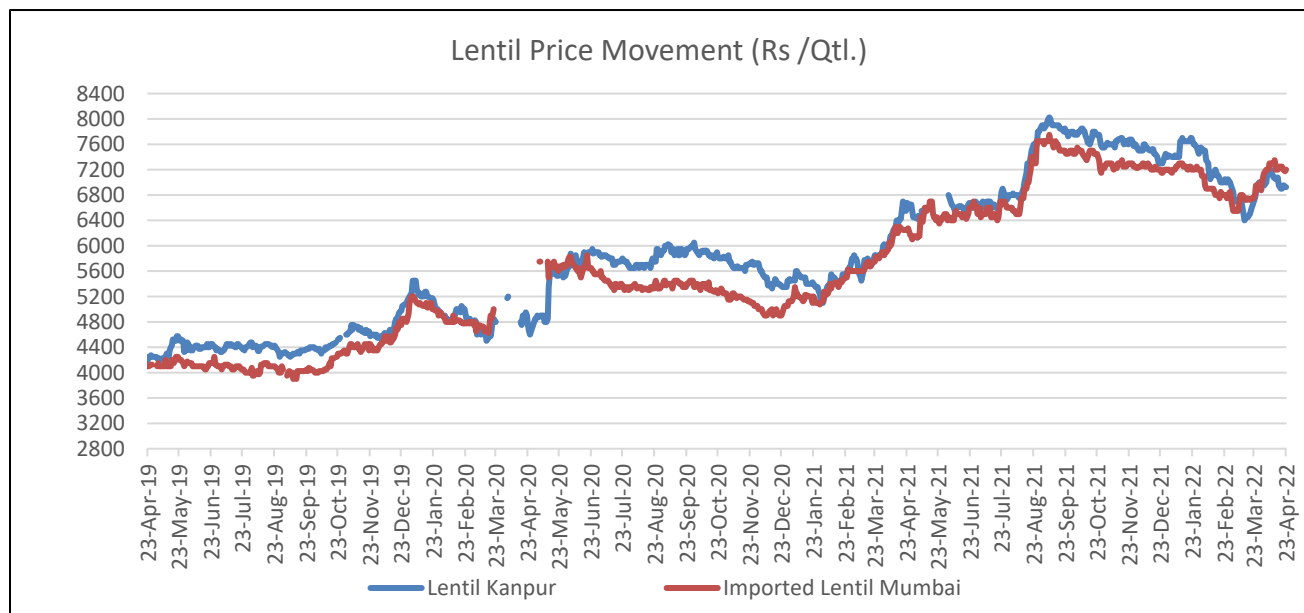

Yellow & White Peas % Price Fluctuation Over Previous Week					
Markets	Today	Week Ago	Month Ago	Year Ago	% Ch. Over
	23.04.22	18.04.22	23.03.22	23.04.2	18-Apr-22

Kanpur White Peas	4750	4650	4950	5150	2.15
Price Projection For Kanpur Desi During April-2022 (4800-5200)					

Current Market Dynamics & Outlook: Peas may trade slightly down in coming week.

Lentils (Masoor):
Market Recap:

Following the market sentiments of other pulses, Masur too traded in southward direction. And prices moved down by 0.5% last week. It traded down between the range of Rs 25 to 50 to Rs 6925-7200. It may decrease further by Rs100-150 as arrivals are expected to increase from this week with the opening of the markets. However, the current declining trend may be arrested as the costing of import has gone up and stockists might be active again at decreased price. However, the overall tone seems strong. Maximum stocks from mandis are going to go-downs, so tight supply side seems very much in the cash market. Masur is being traded at in the range of Rs 6900 to 7200 per qtl.

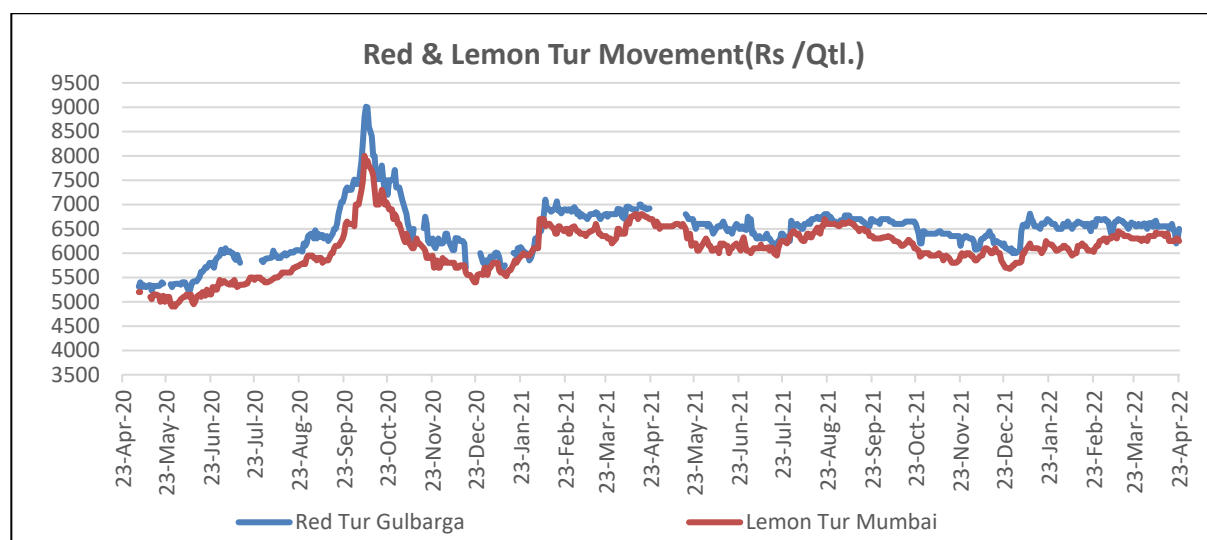

Market Outlook: Prices may decrease from the current level.

Lentil % Price Fluctuation Over Previous Week

Raipur	6900	6900	6350	6600	0.00
Ashok Nagar	6400	6400	6150	6200	0.00
Price Projection For Kanpur During April-2022 (6800-7500)					

Pigeon Pea (Tur/Toor):

Market Recap:

Amidst lower offtak, hefty import (8.4 LMT) during the last Financial Year, Tur cash market traded at previous level at Rs 6200-6500 during the week under review. Tur prices are likely to trade weak on good availability and continuous import. Till first fortnight of new Financial Year i.e. April, total 45,000 MT Tur imported in India. Notably, the extended timeline for Tur import for a year up-to 31st March -2023 has capped the upward movement in cash market. Regular supply from the overseas is expected now as per requirement throughout the year. With this changed import policy, stockists of Tur may not hold their Tur stocks for a longer time. It would ensure a regular supply from the imported Tur and release local stockists. So, any spike is unlikely. Normal trade is expected, at a range of Rs 200- 250 up or down from current prices, in the coming weeks.

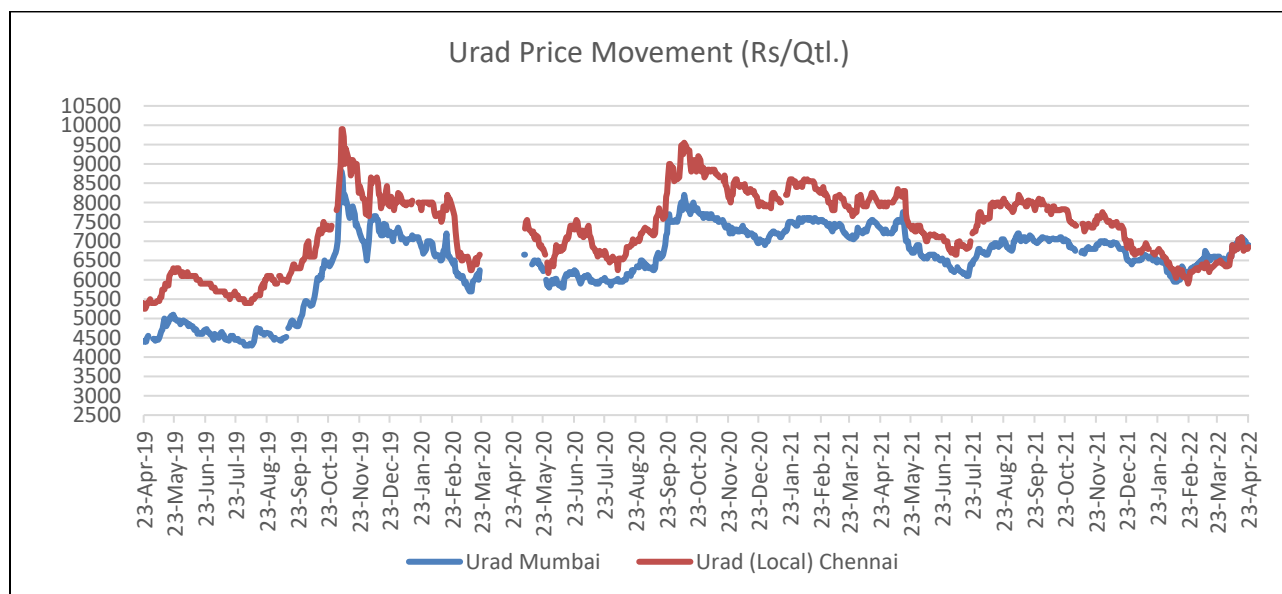

Outlook For the week: Market may trade between the range of Rs 150- 200 up or down from current prices, in the coming week.

Mumbai	6250	6250	6300	6750	0.00
Price Projection For Gulbarga During April-2022 (6350-6750)					

Black Matpe (Urad):
Market Recap:

Urad cash market traded with negative bias and remained sluggish on decreased quotes in Myanmar due to buyer's unwillingness to buy at higher price, release by importers at discounted prices in domestic markets and the increasing summer area. Sentiments may remain weak with the resumption of Tur supply from Myanmar which is likely to start by the end of the month. Sensing the short supply and increasing prices of Urad in the local markets, govt. had extended the import timeline for Urad to 31st March-2023. It would ensure a regular supply as per the requirement from Myanmar and help to cap upward momentum. India imported around 6.11 lakh T Urad during last Financial Year against 3.34 lakh MT in 2020-21. At Mumbai, Myanmar FAQ prices were down by 2.82% to INR 6900 per quintal from INR 7100 per quintal. At Delhi, FAQ and SQ rates remained at INR 7100 per quintal and INR 7800 per quintal down from INR 7200 per quintal and INR 7900 per quintal.

Outlook For the Week: The short-term outlook seems slightly weak.

Urad % Price Fluctuation Over Previous Week					
Markets	Today	Week Ago	Month Ago	Year Ago	% Ch. Over

Green Gram (Moong):

Market Recap:

Almost steady to slightly weak trend seen in Moong cash market during previous week due new arrivals, ample stocks in Central pool and weak demand. Moong in Jaipur market quoted at INR 6950 per quintal last week down by 3.47% from INR 7200. However, in Indore mandi, it traded down by 0.70% to INR 7100 per quintal. Summer sowing is running smoothly and is up by 51.14 % to 10.47 lakh ha. till 22nd April, 2022. The only concern is a rising temperature, which may affect yield of the summer crop, grain size may be small. However, improvement in area may minimize the loss to some extent. Above said reasons would continue to pressurize the Moong cash market. The medium-term outlook would depend on Kharif area and rains frequency throughout the monsoon season. Import volume remains restricted due to ban. India imported 1.95 LMT Moong during last Financial Year against 81,842 MT in 2020-21. During the first fortnight of April, India imported around 4500 MT Moong.

Outlook for the week: The short-term outlook seems steady to slightly weak.
