***Commodity-wise Domestic, International Prices and Arrivals at Different Centres***

**Pulses Sector- Domestic Highlights:**

**Chana, Tur, Moong and Masur markets traded mixed at different mandis, based on the local supply-demand factors at this point of time.** Arrival of all pulses, except Moong is low. Urad, on an average, traded down by 1.25 to 1.75% to 6675-6700. As the arrival of Summer Moong increases, prices should continue to reduce. Urad may recover again as the supply side remains tight amid the increasing quotes in Myanmar. Moong yield is expected to decrease by 15% in MP due to prevailing high temperature and the shortage of water.

**CiF quotes in Myanmar for Urad has increased by \$35-40 to \$910 for FAQ & \$1010 for SQ during the week under review.** However, Tur quotes decreased by \$10 to 840 per MT. Moong stayed steady to \$910 despite the absence of Indian importers in Myanmar markets.

**Summer Urad sowing continued to gain momentum in all states including Madhya Pradesh. Farmers have covered 3.63 lakh ha as on 20<sup>th</sup> May-2022.** It is up by 35% from the last year same time. The normal area under summer Urad is 3.86 lakh ha. The major growing states are Tamil Nadu, M.P. and Uttar Pradesh. Sowing is almost over now.

**Farmers have covered 18.09 lakh ha under summer Moong so far, up by 25.1% from 14.46 lakh ha last year same time.** MP is a major growing state, where it has improved by 78.2% to 8.50 lakh ha. Increased acreage may minimize the impact of the rising temperature and loss due to caterpillars spread/infection. Quality of new crop coming into markets is poor to average. Production of summer Moong has been pegged at 8.53 lakh MT, out of which MP's contribution is likely to be 3.43 Lakh MT this year. The AgriWatch estimate for total Moong production for the country this year, has been pegged at 26.53 lakh MT (Kharif-15.88, Rabi-2.30 & Summer-8.35 lakh MT).

**Despite the new arrivals in Andhra Pradesh and Karnataka, Urad price may move up again in coming weeks.** New crop is being consumed locally in Karnataka and Andhra Pradesh. Prices of FAQ and SQ Urad in Myanmar too have increased by \$35-40 to \$910 and \$1010 per MT basis Indian port. Old stocks in markets like Chennai and Mumbai are depleting fast. The stocks from imports have already been sold. Arrival from the new crop is over 2 to 3 months away. Under the prevailing market fundamentals, Urad prices may move up by Rs 200-300 in the near term. Rains in the monsoon season too remains crucial. Farmers may reduce area of Urad by 5 to 10% in the Kharif season, as the relative return from Maize, Cotton and Soybean is higher. As the fuel prices has come down, the increase in price would be limited.

**As the prices of Tur is hovering in limited range, farmers may prefer to reduce Tur area by 10 to 15% this year.** They may prefer to sow more Cotton, Maize and other lucrative crops in the kharif season. Farmers may maintain similar area in Soybean, while area under Maize, Paddy and Cotton may increase by 10 to 15%. Monsoon rains might be the crucial factor for sowing in states like Maharashtra, Madhya Pradesh and Karnataka. Right now, loss in sown areas seems very much on the card based on farmers pre-sowing intentions. Demand for dal is weak and is unlikely to improve suddenly amid the continuous supply from import and domestic sources. Tur cash market traded mixed in the range of Rs 6000-6300 during the week under review and may continue to trade at this level this week too. Prices may recover by Rs 200-250 by 1<sup>st</sup> week of June, by then Monsoon rains in the growing region should start and define the future.

**Chana cash market may continue to trade range bound as the supply side is normal against the current demand** despite the ongoing procurement drive at MSP. NAFED and other procurement agencies have already procured 20 LMT against the set target of 29 LMT for the year. As prices are ruling down from MSP, by Rs 200-250, the target is likely to be achieved as the procurement date in M.P. has been extended till June. Availability of old stocks, arrivals and weak demand for dal are keeping Chana markets under pressure. If the demand improves, likely in June, prices may recover by Rs 100-200 and may touch MSP. Right now, range bound movement is expected. Beyond that level market may face resistance as there is ample old stocks and it will continue to enter into markets. Chana in various market is trading at Rs 4800-5000. Chana imported from Tanzania is being offered at Rs 4300-4400 in Mumbai. As quality of African origin Chana is not good, its demand is limited.

**Moong cash market stayed steady to slightly weak in various markets. Prices traded in the range of Rs 6500 to 7000.** New arrivals from the Summer crop, ample stocks in Central pool and weak demand helped market to trade range bound. Pressure on price may build up in coming weeks as arrivals from the Summer crop has already started in MP. Summer sowing is running smoothly and is up by 25% to 18.09 lakh ha. so far. The only concern is a rising temperature, the shortage of water and spread of caterpillars. Grain size may be smaller. However, improvement in area may minimize the loss to some extent. Ample availability in the Central pool, the arrival from the Summer crop, free distribution of Moong in MP may pressurize Moong market by Rs 500-600 from the current level. The medium-term outlook would depend on Kharif area and rains frequency throughout the monsoon season. India had imported 1.95 LMT Moong during last Financial Year against 81,842 MT in 2020-21. Prices of Moong may come down to Rs 6000-6600 in the peak arrival season

**Masur markets continued to trade mixed during the week under review. It traded steady at Rs7150-7200 in** Mumbai market while it traded down in Raipur market by 0.72% to Rs 6900 and it improved slightly in Kanpur market to Rs 6950. As local prices have recovered, price for imported Masur too may trade up next week. Arrival pace is slow and has not increased as expected last week. Farmers are not releasing stocks in bulk volume. The current declining trend may be arrested as the costing of import has gone up. Canada and Australia have already increased quotes to 945-60 per MT. Apart from it, ready stock at Canadian ports has come down close to 1 LMT. More downward correction is unlikely this week. Stockists are active again at the current prices. The overall tone seems strong. As soon as other pulses start improving, Masur too would trade up. Maximum stocks from mandis are going to go-downs, so tight supply side seems very much in the cash market. Masur is being traded at in the range of Rs 6900 to 7200 per qtl. As per the market sources, total stock at various ports is around 1.0 lakh MT. It may decrease below 1 LMT in end May. The overall inner tone seems strong.

#### **Global Market Updates:**

**As per Statistics Canada recent report, Pea inventories in Canada in all positions has decreased by 35% to 1.22** million tonne, as of March 31 2022, from 1.87 million tonne last year. New inventory level is also below the last five-year average of 1.924 million tonne. Commercial inventories have also reduced to 322,000 tonne, down by 21% from 405,000 tonne. Besides, all classes pea stocks at farms have reportedly reduced by 36% to mere 902,000 tonne from 1.47 million tonne.

**As per the recent data released by Australia Bureau of Statistics, Australian Lentils export has increased by 38% to 102,182 MT in March 2022 compared to 74,163 MT in February 2022.** Australia has exported totalled 404,329

MT Lentils so far compared to 432,757 MT in previous Marketing Year. Bangladesh emerged as biggest buyer with buying 51,879 MT Lentils followed by Egypt and India with buying 19,476 MT and 13,318 MT.

**According to the Australia Bureau of Statistics recent report, Australian chickpea export has decreased by 65% to 35,563 MT in March from 102,259 MT in February.** However, total export volume remained at 324,633 MT during the current Marketing Year down by 35.61% from 511,363 MT in previous Marketing Year. Bangladesh emerged as main buyer with buying around 17,804 MT followed by Nepal and Pakistan with buying 7,337 MT and 2,937 MT respectively.

**Weekly Outlook:** - Sideways movement is expected this week too.

## Pulses-Wise Scenario:

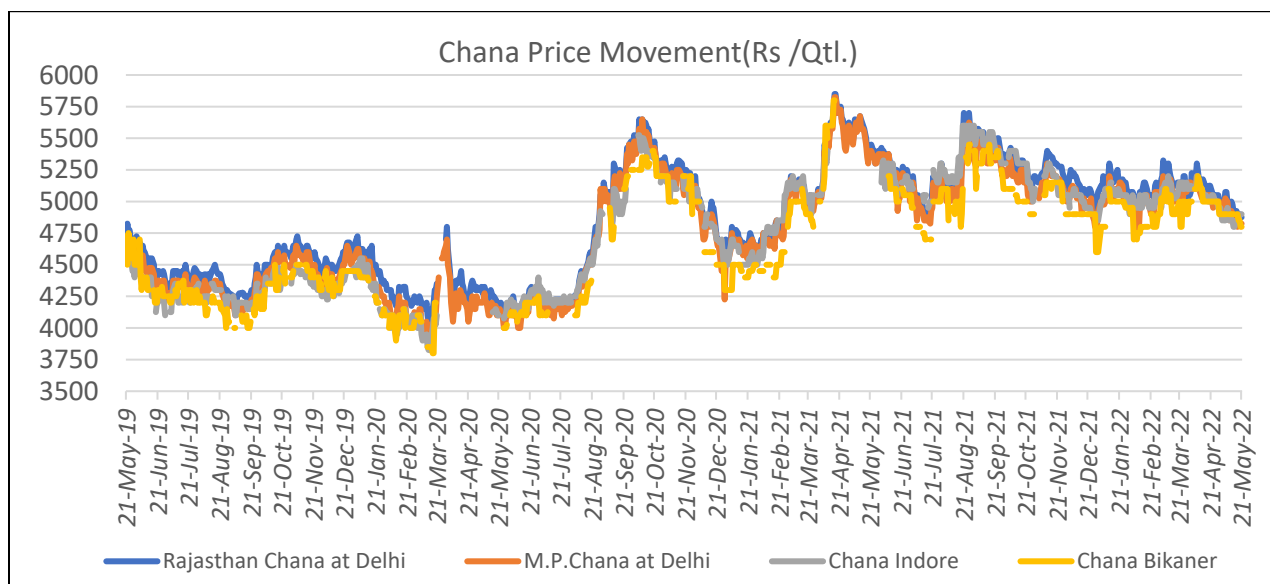

### Chana

#### Current Scenario:

**Chana cash market may continue to trade range bound as the supply side is normal against the current demand despite the ongoing procurement drive at MSP.** NAFED and other procurement agencies have already procured 20 LMT against the set target of 29 LMT for the year. As prices are ruling down from MSP, by Rs 200-250, the target is likely to be achieved as the procurement date in MP has been extended till June. Availability of old stocks, arrivals and weak demand for dal are keeping Chana markets under pressure. If the demand improves, likely in June, prices may recover by Rs 100-200 and may touch MSP. Right now, range bound movement is expected. Beyond that level market may face resistance as there is ample old stocks and it will continue to enter into markets. Chana in various market is trading at Rs 4800-5000. Chana imported from Tanzania is being offered at Rs4300-4400 in Mumbai. As quality of African origin Chana is not good, its demand is limited.

**Outlook for the week:** Range bound movement is expected.

Following graph illustrates chana price movement in different markets:

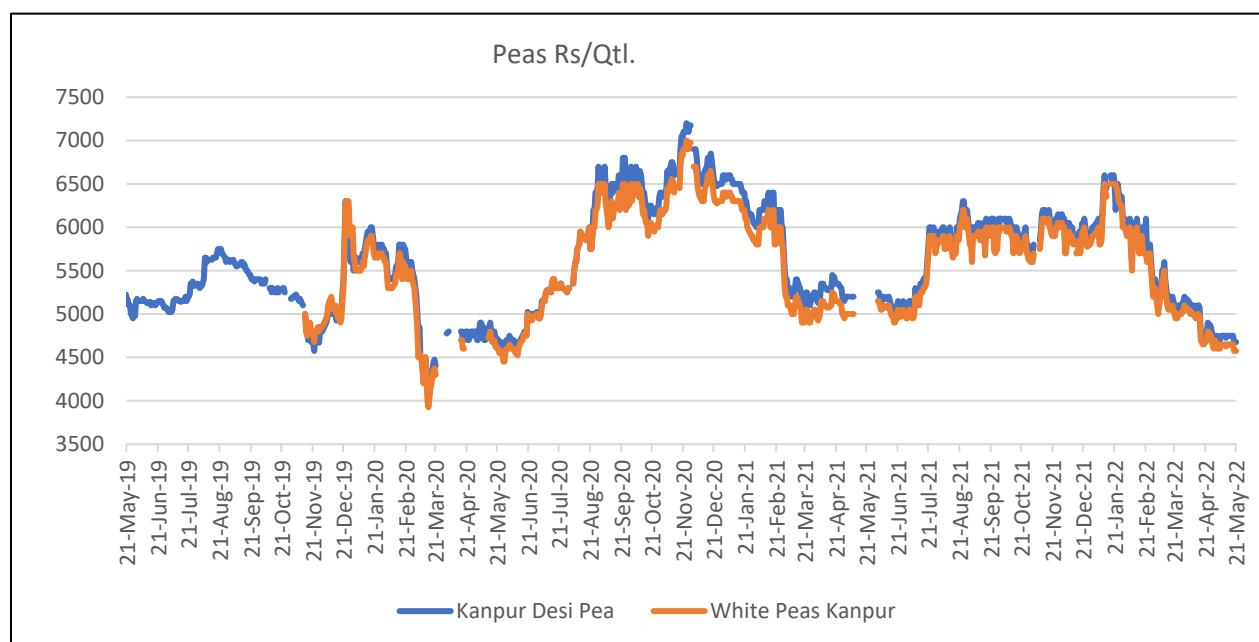

| Chana % Price Fluctuation Over Previous Week              |          |          |           |          |            |

### Peas (Matar):

#### Market Recap:

Pea cash market decreased by 1 to 2% during the last week due to sluggish demand as consumption demand is being diverted to Chana owing to lower levels. Prices for both Desi and White Pea in Kanpur traded down at Rs 4675 per quintal from Rs 4750 per quintal and Rs 4575 per quintal from Rs 4650 per quintal respectively during the week in review.

Pea market is likely to trade range bound in coming week as Chana availability at lower prices not let the market to move up upper side.

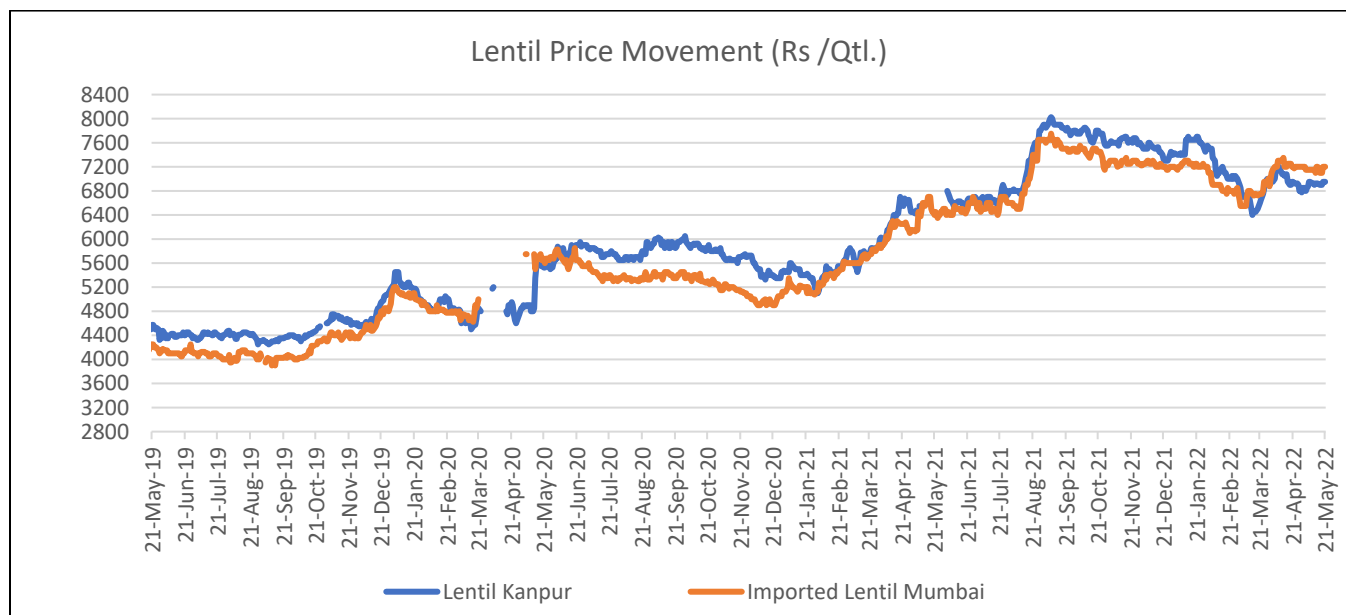

| Yellow & White Peas % Price Fluctuation Over Previous Month   |          |          |           |          |            |

**Current Market Dynamics & Outlook:** Pea may trade range bound following the Chana trend.

**Lentils (Masoor):**
**Market Recap:**

**Masur markets continued to trade mixed during the week under review. It traded steady at Rs7150-7200 in Mumbai market while it traded down in Raipur market by 0.72 % to Rs 6900 and it improved slightly in Kanpur market to Rs 6950.** As local prices have recovered, price for imported Masur too may trade up next week. Arrival pace is slow and has not increased as expected last week. Farmers are not releasing stocks in bulk volume. The current declining trend may be arrested as the costing of import has gone up. Canada and Australia have already increased quotes to 945-60 per MT. Apart from it, ready stock at Canadian ports has come down close to 1LMT. More downward correction is unlikely this week. Stockists are active again at the current prices. The overall tone seems strong. As soon as other pulses start improving, Masur too would trade up. Maximum stocks from mandis are going to go-downs, so tight supply side seems very much in the cash market. Masur is being traded at in the range of Rs 6900 to 7200 per qtl. As per the market sources, total stock at various ports is around 1.0 lakh MT. It may decrease below 1 LMT in end May. The overall inner tone seems strong.

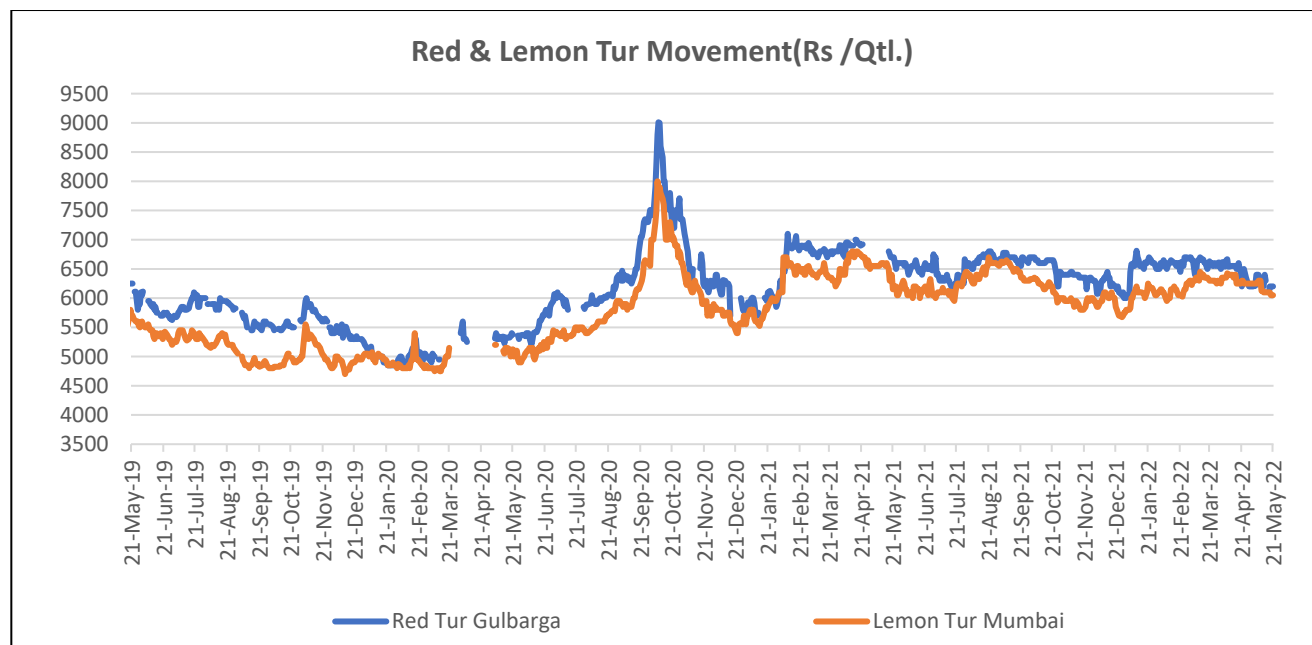

**Market Outlook:** The overall inner tone seems strong.

**Pigeon Pea (Tur/Toor):**
**Market Recap:**

As the prices of Tur is hovering in limited range, farmers may prefer to reduce Tur area by 10 to 15% this year. They may prefer to sow more Cotton, Maize and other lucrative crops in the summer season. Farmers may maintain similar area in Soybean, while area under Maize, Paddy and Cotton may increase by 10 to 15 %. Monsoon rains might be the crucial factor for sowing in states like Maharashtra, Madhya Pradesh and Karnataka. Right now, loss in sown areas seems very much on the card based on farmers pre-sowing intentions. Demand for dal is weak and is unlikely to improve suddenly amid the continuous supply from import and domestic sources. Tur cash market traded mixed in the range of Rs 6000-6300 during the week under review and may continue to trade at this level this week too. Prices may recover by Rs 200-250 by 1<sup>st</sup> week of June, by then Monsoon rains in the growing region should start and define the future.

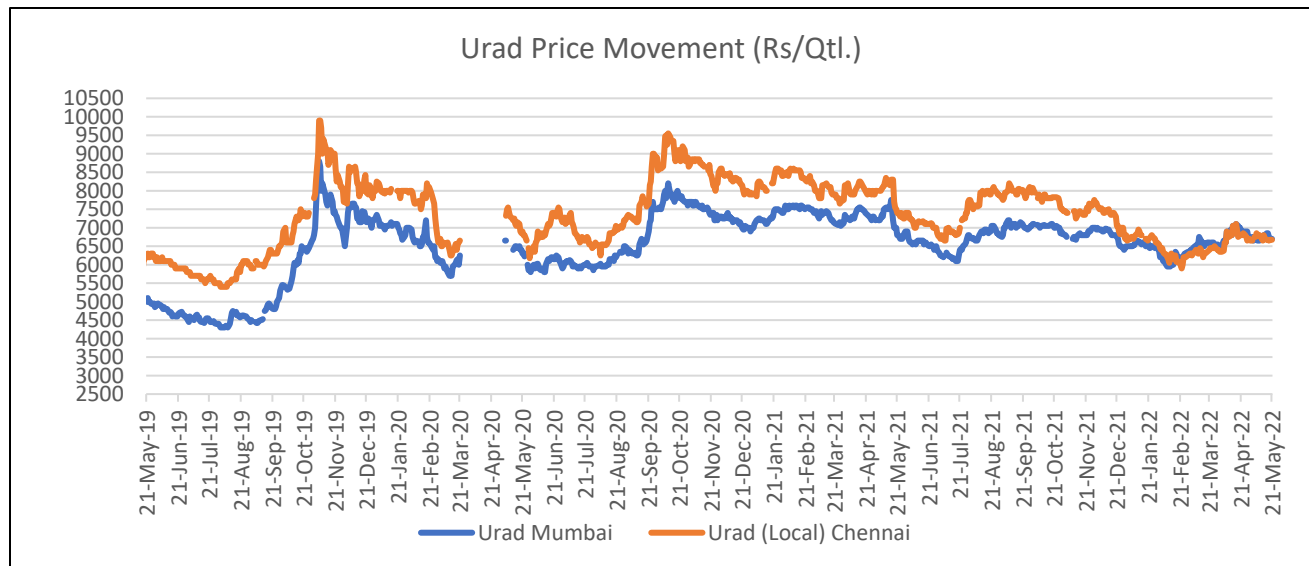

**Outlook For the week:** Prices may continue to trade at this level this week too.

| Tur % Price Fluctuation Over Previous Week                 |          |          |           |          |            |

### Green Gram (Moong):

#### Market Recap:

**Moong cash market stayed steady to slightly weak in various markets. Prices traded in the range of Rs 6500 to 7000.** New arrivals from the summer crop, ample stocks in Central pool and weak demand helped market to trade range bound. Pressure on price may build up in coming weeks as arrivals from the summer crop has already started in MP. Summer sowing is running smoothly and is up by 25% to 18.09 lakh ha. so far. The only concern is a rising temperature, the shortage of water and spread of caterpillars. Grain size may be smaller. However, improvement in area may minimize the loss to some extent. Ample availability in the Central pool, the arrival from the summer crop, free distribution of Moong in MP may pressurize Moong market by Rs 500-600 from the current level. The medium-term outlook would depend on Kharif area and rains frequency throughout the monsoon season India imported 1.95 LMT Moong during last financial year against 81,842 MT in 2020-21. Prices of Moong may come down to Rs 6000-6600 in the peak arrival season.

**Outlook for the week:** Prices of Moong may come down to Rs 6000-6600 in the peak arrival season.
