Commodity-wise Domestic, International Prices and Arrivals at Different Centres

Pulses Sector- Domestic Highlights:

Amid significant increase in MSP of Lentils by INR 500 per Qtl from last year and prevailing higher market prices of Lentils from the set MSP, motivating farmers to bring more acres under Lentil cultivation this Rabi. Given higher global supply this year coupled expected increase in lentil acreage this Rabi in India would restrict any abnormal increase in prices. However, substitution demand of yellow lentils on lower availability to Tur need to be observed carefully, which may remain supportive for prices if happens.

On other hand, prevailing lower chana prices throughout the year along with comparative lower increase in MSP would force farmers to switch to other lucrative crops this Rabi. It is very likely that during the current Rabi season, Chana area may be diverted to Lentil, Wheat and Mustard majorly with slight diversion towards Spices (Coriander and Cumin).

Meanwhile, after the money laundering and terrorist financing watchdog “Financial Action Task Force” (FATF) put Myanmar on the “Black List” on October 21st, 2022 and called for due diligence to transaction in nation, sources reported that banks are not clearing outward remittance to Myanmar. Similar, issue is also with Mozambique and Tanzania as they are also on the FATF list. All the three countries (Myanmar, Mozambique and Tanzania) supplies pulses (Tur & Urad) to India. Issue arising after the recent FATF’s action may affect the supplies from these countries or may delay the shipments.

On the other hand, there are talks in the market that issues related to shipments from Mozambique sorted out after official level talks between the two countries India and Mozambique and around 5 vessels are on the way to India. But so far there is no confirmation regarding the same and some importers points that the issue still persists. So, confirmation or clarity about the same is still awaited.

Likely start of procurement of Urad and Moong by Rajasthan State Government Purchase Sales Federation Limited’s (RAJFED) from 1st November, 2022 may provide support to the Moong and Urad prices. However, easy availability, arrivals of Kharif crop and plenty of stocks at Central Pool would keep the Moong prices under check ahead. Around, 3.02 lakh tonnes Moong and 62,508 tonnes Urad will be procured at MSP of INR 7,755 and INR 6,600 per quintal respectively. Also, fixation of higher prices for imported Tur by government for both African and Myanmar origin would lend support to Tur prices.

On Rabi sowing front, according to the recent release by Department of Agriculture & Farmers Welfare, farmers have covered 8.816 lakh ha area under Rabi pulses as on 28th October, 2022, up by 49.02% from 5.916 lakh ha. same time last year. Under the pulses, Chana has been sown in 6.97 lakh ha, up by 68.97%, Lentil sown in 0.381 lakh ha, up by 47.67% from 0.258 lakh ha, Peas in 0.307 lakh ha, down by 18.57% from 0.377, Urad sown in 0.30 lakh ha, down by 15.19% from 0.349 lakh ha and Moong is sown in 0.037 lakh ha, up by 19.35% from 0.031, same period last year.

Despite the good start, reportedly Chana sowing is likely to reduce this year by 10 to 15% on poor realization throughout the year while Masur coverage is expected to increase by 8-10% this year as farmers have benefited by ruminative prices throughout the year.

Tur prices traded mixed during the week under review amidst lack of any clear clue / view due to long holidays of Diwali. Tur prices traded up by 2.76% at INR 8,200 for quality produce in Gulbarga while it traded down by 5% at INR 7,600 per quintal in Indore. Tur remained unchanged at INR 7,800 per quintal in Latur. Given the background, projected lower Tur production, fixation of higher prices for imported Tur, higher import parity may keep supporting the sentiments in coming week too besides lack of clarity of shipments from Mozambique. Prices likely

to move up by INR 200-300 per quintal. In Karnataka and Maharashtra Tur crop is in flowering stage and any incident of heavy rains may impact the yield. Already the production estimate is on lower side, any impact on yield would further lower the production numbers. International quotes for Lemon Tur remain slightly up at \$925 per MT basis at Indian port from \$920 last week for Burmese origin. While African quotes ranges from \$690- \$915 per MT as per quality and origin.

Urad prices traded steady during the week. It traded unchanged at INR 7,100 per quintal and INR 7,000 per quintal in Mumbai and Chennai respectively. Urad cash prices may remain firm as demand is reportedly good from all over India as of now. RAJFED's procurement of Urad from 1st November, 2022 in Rajasthan will also provide some support to the prices till procurement remains on. At present, Urad is in good demand and even inferior quality is also attracting good demand from all over the country. Prices may move up by INR 200-300 per quintal from current levels. Myanmar C&F quotes decreased to \$830 for FAQ from \$850 per MT and SQ variety quoted at \$970 per MT from \$990 per MT, basis Indian ports.

Moong cash market too traded mixed during the week despite the ongoing procurement in various states coupled with scheduled procurement in Rajasthan from November 1st. It traded at INR 7,500 per quintal, up by 4.17% from 7,200 per quintal in Jaipur and at INR 7,000 per quintal, down by 2.78%, in bench mark market Indore. Till now, farmers were holding back their stocks in hope of better prices. However, sufficient quantity in Central Pool couple with continuous supply from summer crop and now from Kharif crop would keep easy availability in coming days. Moong buying at MSP in various states is not letting the prices to go down and prices are likely to trade range bound with slightly firm bias till the buying on MSP continues.

Chana cash markets traded almost steady during the week under review due to long holidays. With the continuous selling of Chana at lower prices by NAFED, Chana prices are likely to trade in a range and prices may fluctuated in the range of INR 100-200 per quintal due to easy availability at lower prices. At present, demand for sowing may only the factor that may support the prices. Otherwise, fundamentals are weak on plenty of stocks at cheaper rates. Meanwhile, Rabi Chana sowing has started, however, as per sources, it is expected to remain less by 10 to 15% this year as farmers may divert Chana area to other lucrative crops like Wheat, Mustard seed, Masur and Spices due to lower realization to farmers in Chana throughout the season.

Lentil cash market traded mixed during the week under review in the absence of any clear trend owing to long holidays. Lentil traded at INR 6,950 per quintal, up by 0.72% from INR 6,900 per quintal in Kanpur and at INR 6,550 per quintal, up by 3.97% in Raipur while it traded at INR 6,300 per quintal, down by 1.56% in Ashoknagar. Market prices are likely to remain steady now with the end of the festive season extra demand. Lentil sowing coverage is expected to increase by 5 to 7% this year as it has been remained fruitful for farmers throughout the season. India has imported around 43,872 tonne Lentil (tentative figure) during September. Canada is expected to produce a bumper Lentil crop of 29.4 LMT, as per Canada Statistics, this year from 16 lakh tonne last year signaling for easy global supply. Australia too is expected to produce around 9.24 lakh tonne Lentil during the year 2022-23.

International News:

According to the latest report published by Canadian Grain Commission (CGC), Canada exported 4,700 MT Lentil during September 26 to October 2, 2022. Accumulative Lentil export recorded at 2,85,300 MT during the season to date, up by 39% from 2,05,300 MT during the period previous season.

Weekly Outlook: - Pulses prices may trade steady to slightly firm this week.

Pulses-Wise Scenario:

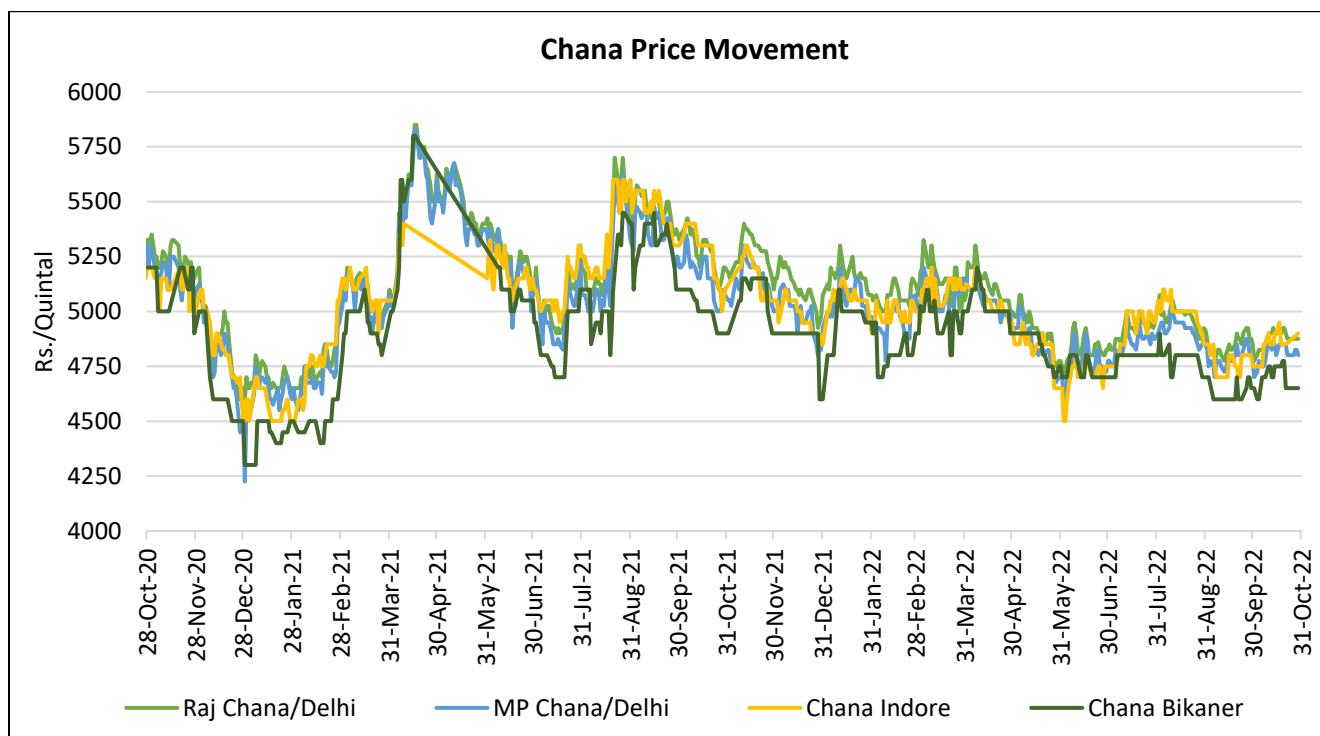

Chana

Current Scenario:

Chana cash markets traded almost steady during the week under review due to long holidays. With the continuous selling of Chana at lower prices by NAFED, Chana prices are likely to trade in a range and prices may fluctuate in the range of INR 100-200 per quintal due to easy availability at lower prices. At present, demand for sowing may only be the factor that may support the prices. Otherwise, fundamentals are weak on plenty of stocks at cheaper rates. Meanwhile, Rabi Chana sowing has started, however, as per sources, it is expected to remain less by 10 to 15% this year as farmers may divert Chana area to other lucrative crops like Wheat, Mustard seed, Masur and Spices due to lower realization to farmers in Chana throughout the season.

Outlook for the week: Chana may move up by INR 100-200 per quintal in coming week.

Following graph illustrates Chana price movement in different markets:

Chana Prices per Quintal					
Markets	Current	Week Ago	Month Ago	Year Ago	% Ch. Over
