

RED CHILLI

Fundamentals:

Today's Update:

- Mostly Red Chilli markets were closed today due to Saturday Weekly off.

Previous Update:

- We predict that buyers will remain active due to the high demand in the market, which will prevent a significant drop in prices, despite the anticipation of strong supply pressure. Overall, we anticipate that demand will help to maintain prices at a comfortable level.
- As anticipated, there has been a 21.74% increase in arrivals in Byadgi, Karnataka, reaching 224,000 bags (1 Bag=35Kg). This has caused a correction in prices today, with a decline of INR 3,000-9,000 per quintal in the market.
- As per AgriWatch estimates, Red Chilli all India production for 2023 is estimated at 15.56 lakh metric tonne (LMT). Last year's production was 14.07 lakh MT, up by 10.59%.
