

RED CHILLI
Fundamentals:
Today's Update:

- Steady to weak sentiment was reported in the Red Chilli spot markets on Wednesday.
- Red Chilli Dabbi Dlx Local is trading at Rs. 39000-45000 Per Qtl at Byadgi market, Karnataka stable from the previous close while 2043 is reported down by 2.7% from the previous day. 19,000 bags in total showed up, which is a decrease of 9000 bags from the previous trade day. Around 3,000 bags are reported from the cold-storage and it is likely to increase gradually on upcoming demand from global markets and in the fear of decline in prices on higher production.
- With a higher availability of stocks, prices are expected to decrease in the long-term between August and September. However, prices are anticipated to rise by INR 1,500-2,000 per quintal after the reopening of the markets due to demand from China (including other export countries), Oleoresin companies, and Masala companies.

Previous Update:

- Last picking Red Chilli quality are arriving in the Warangal and Karnataka market leading to lower demand due to inferior quality. Also, most of the Masala companies and stockists have fulfilled their requirement and now waiting for the start of premium quality cold storage arrivals which will start from 15 June, 2023.
- As per AgriWatch estimates, Red Chilli all India production for 2023 is estimated at 15.56 lakh metric tonne (LMT). Last year's production was 14.07 lakh MT, up by 10.59%.
