

RED CHILLI
Fundamentals:
Today's Update:

- Steady sentiment was reported in the Red Chilli spot markets on Friday.
- Cold-storage arrivals in the Karnataka market is likely to increase gradually on upcoming demand from global markets and in the fear of decline in prices on higher production.
- With a higher availability of stocks, prices are expected to decrease in the long-term between August and September. However, prices are anticipated to rise by INR 1,500-2,000 per quintal after the reopening of the markets due to demand from China (including other export countries), Oleoresin companies, and Masala companies.

Previous Update:

- As per AgriWatch estimates, Red Chilli all India production for 2023 is estimated at 15.56 lakh metric tonne (LMT). Last year's production was 14.07 lakh MT, up by 10.59%.
