

RED CHILLI

Fundamentals:

Today's Update:

- No major movement was reported in the Red Chilli spot markets on Saturday.
- AgriWatch predicts that arrivals in the AP and Telangana market will increase after mid-June due to improved demand from China, Bangladesh, Malaysia, and Indonesia. Additionally, the demand from masala companies will further contribute to the rising arrivals.
- Prices in the Karnataka cash markets will remain stable and comfortable due to continuous demand from major importers, especially China, Bangladesh, and Sri Lanka. However, price stability will depend on current weather conditions and clarity regarding the upcoming sowing expectations, which might become clear by June 15, 2023.

Previous Update:

- Prices in the Byadgi market have seen an increase due to normal demand in the market. The prices have been supported by a relatively weaker supply pressure throughout the day, resulting in bullish sentiment. Red Chilli KDL Best (Local) in the market reported at Rs. 33,000-39,000 per quintal, showing a significant increase of 11.43 percent and 2043 variety reported at Rs. 30,000-36,000 per quintal, reflecting a 9.09 percent rise. Non-Cold Arrivals during the day reported at 8,000 bags, indicating a decrease of 46.67 percent compared to the previous trading day. On the other hand, cold-storage arrivals remain consistent at an average of 5,000 bags on a regular basis.
- As per AgriWatch estimates, Red Chilli all India production for 2023 is estimated at 15.56 lakh metric tonne (LMT). Last year's production was 14.07 lakh MT, up by 10.59%.
