

## RED CHILLI

### Fundamentals:

#### Today's Update:

- No major movement was reported in the Red Chilli spot markets on Saturday.
- Arrival of the monsoon in most parts of the country, has raised hopes for the sowing process to commence in the current month.
- In certain regions of Andhra Pradesh and Telangana, the sowing progress has commenced gradually due to the improved weather conditions. Nursery preparation has been successfully completed in these states. However, farmers are eagerly waiting for monsoon showers before accelerating their sowing activities.
- On the other hand, in the growing regions of Madhya Pradesh, sowing is nearing completion, although some farmers are still in the process of sowing. The overall sowing situation will become clearer by the end of this month once all the farmers have completed their sowing activities.

#### Previous Update:

- As per AgriWatch estimates, Red Chilli all India production for 2023 is estimated at 15.56 lakh metric tonne (LMT). Last year's production was 14.07 lakh MT, up by 10.59%.
