

Domestic Market Highlights:

India's rice stocks in the central pool as of June 1, 2015 stood at around 22.485 million tons (including a milled equivalent of about 9.234million tons of paddy), down about 20% from around 28.03 million tons recorded during the same period last year, according to data from the Food Corporation of India (FCI).

Aromatic rice market traded against all expectations and decreased by 2-10% in the month of May. Previously market expected increase in price due to higher import expectation from Iran and increased consumption in domestic market, however forecast for lower rainfall went against common expectation of the market. Generally area increases under basmati in weaker monsoon season. Lower rainfall in major aromatic growing states like Punjab, Haryana and U.P is expected to increase by 5-10% this year too which has impacted the cash market fundamental negatively. Currently 1121 steam price in Delhi market is hover in the range of Rs.5000-5100/quintal and Basmati raw is around Rs.6000-6200/quintal.

Pakistan Basmati FOB in the month of May was down from the Indian basmati rice FOB by 15 US Dollar and currently hover in the range of USD 890-895/MT. Pakistan basmati rice price have declined slightly in May after increasing continuously for two months. The decrease is due to better rice growing prospects as per FAO.

Agriwatch revised the rice export in the second week of May after updating of rice export by APEDA. Total Rice export for MY-2014-15 till May-15 was 81.76 lakh tonnes which was up by around 22% from same period last year export of 67.02 lakh tonnes. Non basmati rice export in the month of May was 4.92 lakh tonnes and basmati exports for MY-2014-15(Oct14-Sep-15) in the month was 4.04 lakh tonnes.

India average wholesale rice prices continued to increase for the third consecutive month in May 2015 and currently hover in the range of Rs.2900-2910/quintal which is up by 2%from last month due to expected lower production from the just being completed Rabi secondary rice crop (November - May). Non basmati rice prices declined in February due to increased supplies and declining export demand.

There is a gossip in the market that Iran would start buying aromatic rice from India July onward. Notably Iran has banned aromatic rice import from mid November last year to support local growers and lighten the burden of higher stock. Most likely Iran may resume import from Ramdan-Says A.K Gupta, adviser, APEDA. Iran has imported

9.35 lakh tonne basmati from India in 2014-15. Total basmati shipment was registered at 37.8 lakh tonne in 2014-15.

Basmati acreage is expected to increase this year by 4 to 5 percent in comparison to 2.1 million ha. last year. The main reason behind it is attributed mainly to lower rainfall, better returns and Punjab govt.'s move to encourage farmers to grow more basmati due to declining ground water level. Common rice need more water.

As per recent updates from PIB, kharif rice sowing for MY-2015-16 commenced in major growing states and 1.80 lakh hectares has been covered till 20th May 2015 which is up by 0.30 lakh hectare from same period last year.

Price Outlook:-Average Rice price in all India is likely to trade steady to firm with lean season in coming days.

International Market Highlight:

Pakistan has surplus stocks of wheat, rice and other agricultural commodities; the government is likely to impose duty ranging from 15 to 30 per cent on the import of these products in the budget 2015-16. The government is likely to review the rate of duty on the import of basmati rice which is second largest export of Pakistan after India. It has been proposed that duty should be increased from 10pc to 30pc in the next budget as import of basmati would forged domestic production. Similarly, it was proposed that duty on the import of broken rice should be enhanced from 10pc in 2014-15 to 30pc during the next fiscal year since rice is a cash crop and Pakistan earns foreign exchange on the export of rice.

According to Reuters, Vietnam the one of the major rice exporter, has increased the floor price (minimum export price, MEP) of its lower quality (25% broken) rice exports by about 3% to around \$350 per ton from around \$340 per ton in advance of the Philippines tender which is on June 5, 2015. The new MEP will reportedly be effective from June 1, 2015.

As per Belarus Alesya Obodkova, the deputy director for logistics of the Belcoopsoyuz's Belcoopvneshtorg plans to rise up shipments of rice, fresh and dried fruits, nuts from Pakistan. Rice is a very popular product in Belarus. Belcoopsoyuz's Belcoopvneshtorg imports 300 tonnes of rice per month. They already took samples of rice in Pakistan and will test them for quality. For the time being country will sign an agreement of intent, statement given by Alesya Obodkova.

As per the latest report by IGC released on 28th May 2015, the Council's first projections for 2015/16, world rice output is seen increasing to a record of 482m t on larger outturns in key Asian producers. With food demand expected to boost total consumption to a peak of 489m t, aggregate end-season carryovers are set to contract by 7%, to a six-year low, including another steep drop in major exporters' inventories. Traded volumes in 2016 are anticipated to be only fractionally below the forecast for the current year as competitively priced supplies likely stimulate above-average shipments to Africa and Asia.

Unofficial preliminary rice exports (excluding premium white and fragrant rice) for April 20-26, 2015 totaled 77,242 metric tons, up 63,275 metric tons from the previous week and up 7,755 metric tons from the four-week moving average of 69,487 metric tons. Rice exports from January 1 – April 26, 2015, totaled 1,154,732 metric tons, down 2 percent from the same period last year.

As of April 28, Thailand had shipped 2.95 million tonnes of rice since the beginning of the year, up by just 2.46 per cent year on year. Meanwhile India's exports rised by 32.11 per cent to 2.87 million tonnes, and Pakistan are increased by 32.09 per cent to 1.73 million tonnes. Vietnam's rice exports were up by 2.71 per cent to 1.71 million tonnes.
