

# **Domestic Market Highlights:**

The Cabinet Committee on Economic Affairs, chaired by the Prime Minister Shri Narendra Modi, has given its approval for the Minimum Support Prices (MSPs) for Kharif Crops of 2015-16 Seasons. The decision is based on recommendations of Commission for Agricultural Costs and Prices (CACP) for the Price Policy for Kharif Crops for the Marketing Season 2015-16. MSP for paddy grade A and common grade hiked by Rs.50/quintal from last year and current MSP is Rs. 1450 and Rs. 1410/quintal respectively.

**Planting for India 2015-16 Kharif (main) rice crop (June - December) which began on May 8,** 2015 is picking up fast and stands at about 833,000 hectares as of June 19, 2015; up about 1.6% from about 820,000 hectares planted during the same period last year, according to preliminary data released by the Indian Agriculture Ministry.

India's rice stocks in the central pool as of June 1, 2015 stood at around 22.485 million tons (including a milled equivalent of about 9.234million tons of paddy), down about 20% from around 28.03 million tons recorded during the same period last year, according to data from the Food Corporation of India (FCI).

Pakistan Basmati FOB in the month of May was down from the Indian basmati rice FOB by 15 US Dollar and currently hover in the range of USD 890-895/MT. Pakistan basmati rice price have declined slightly in May after increasing continuously for two months. The decrease is due to better rice growing prospects as per FAO.

**Agriwatch revised the rice export in the second week of May after updating of rice export by APEDA**. Total Rice export for MY-2014-15 till May-15 was 81.76 lakh tonnes which was up by around 22% from same period last year export of 67.02 lakh tonnes. Non basmati rice export in the month of May was 4.92 lakh tonnes and basmati exports for MY-2014-15(Oct14-Sep-15) in the month was 4.04 lakh tonnes.

India average wholesale rice prices continued to increase for the third consecutive month in May 2015 and currently hover in the range of Rs.2900-2910/quintal which is up by 2% from last month due to expected lower production from the just being completed Rabi secondary rice crop (November - May). Non basmati rice prices declined in February due to increased supplies and declining export demand.

There is a gossip in the market that Iran would start buying aromatic rice from India July onward. Notably Iran has banned aromatic rice import from mid November last year to support local growers and lighten the burden of higher stock. Most likely Iran may resume import from Ramdan-Says A.K Gupta, adviser, APEDA. Iran has imported 9.35 lakh tonne basmati from India in 2014-15. Total basmati shipment was registered at 37.8 lakh tonne in 2014-15.

**Basmati** acreage is expected to increase this year by 4 to 5 percent in comparison to **2.1million ha. last year.** The main reason behind it is attributed mainly to lower rainfall, better returns and Punjab govt.'s move to encourage farmers to grow more basmati due to declining ground water level. Common rice need more water.

Price Outlook:-Average Rice price in all India is likely to trade steady to firm with lean season in coming days.

# **International Market Highlight:**

The Thailand government plans to call bids for another 2.6 million tonnes of high-quality rice from state stocks between June and August while transferring low-quality and substandard grains to the industrial sector. Duangporn Rodphaya, director—general of the Foreign Trade Department, said with new output from the main crop coming after August, the June-August period was the right time for the government to call two or three bids for its rice stocks, starting with 1 million tonnes this month. Since Prime Minister Prayut Chan-o-cha took office, the Commerce Ministry has called six bids to speed up disposal of 18 million tonnes of state stocks accumulated from previous rice pledging schemes. The ministry has sold 2.1 million tonnes, fetching 22.4 billion baht so far. Remaining stocks include 2.6 million tonnes of high-quality rice ready to sell and 13-14 million tonnes of substandard grade grains. In a related development, the Commerce Ministry reported Thailand exported 3.6 million tonnes of rice in the first five months of this year, down by 8.51% year-on-year, worth 59.8 billion baht, down by 7.83%.

Pakistan has surplus stocks of wheat, rice and other agricultural commodities; the government is likely to impose duty ranging from 15 to 30 per cent on the import of these products in the budget 2015-16. The government is likely to review the rate of duty on the import of basmati rice which is second largest export of Pakistan after India. It has been proposed that duty should be increased from 10pc to 30pc in the next budget as import of basmati would forged domestic production. Similarly, it was proposed that duty on the import of broken rice should be enhanced from 10pc in 2014-15 to 30pc during the

next fiscal year since rice is a cash crop and Pakistan earns foreign exchange on the export of rice.

According to Reuters, Vietnam the one of the major rice exporter, has increased the floor price (minimum export price, MEP) of its lower quality (25% broken) rice exports by about 3% to around \$350 per ton from around \$340 per ton in advance of the Philippines tender which is on June 5, 2015. The new MEP will reportedly be effective from June 1, 2015.

As per Belarus Alesya Obodkova, the deputy director for logistics of the Belcoopsoyuz's Belcoopvneshtorg plans to rise up shipments of rice, fresh and dried fruits, nuts from Pakistan. Rice is a very popular product in Belarus. Belcoopsoyuz's Belcoopvneshtorg imports 300 tonnes of rice per month. They already took samples of rice in Pakistan and will test them for quality. For the time being country will sign an agreement of intent, statement given by Alesya Obodkova.
