

Domestic Market Highlights:

India's rice stocks in the central pool as of January 1, 2016 stood at around 26.025 million tons (including a milled equivalent of about 13.34 million tons of paddy), up about 14% from around 22.79 million tons recorded during the corresponding period last year., India's rice stocks in the central pool are up about 10% from around 23.622 million tons recorded on December 1, 2015. However, current rice stocks are up from than the required buffer and strategic reserve norms of around 7.61 million tons for this time of the year, according to the FCI.

Government's rice procurement in MY 2015-16 may surpass last year's level of 32 million tons despite prospect of lower production due to deficient monsoon. Rice procurement has risen by 31 per cent to 20 MT so far in the 2015-16 marketing year that started from October, from 15.29 MT in the year-ago period. At present, procurement has been completed in Punjab and Haryana, while the operations are in full swing in Uttar Pradesh, Chhattisgarh, Andhra Pradesh and Telangana.

As per the latest data, rice procurement in Punjab rose to 9.34 MT in 2015-16 from 7.78 MT in the last year. Similarly, rice purchase in Haryana increased to 2.85 MT from 2.01 MT in the review period. Rice procurement in Andhra Pradesh has more doubled to 1.2 MT so far this year as against 5,58,573 tons in the year-ago period, while neighboring Telangana state procured only 9,07,180 tons as against 1.28 MT in the corresponding period last year. In Chhattisgarh, the procurement was up at 2.53 MT from 1.56 MT, while in Uttar Pradesh the purchases rose to 1 MT from 6,05,000 tons from last year. Rice procurement in Odisha increased to 7, 36,945 tons so far this year from 1, 59,793 tons in the year-ago.

India 2015-16 winter/rabi rice (November - May) planting area has reached around 1.707 million hectares as of January 8, 2016, down about 9% from around 1.863 million hectares planted during the same period in 2014-15, according to a press release by the Ministry of Agriculture. The decline is due to scanty rains and low moisture in some of the rice growing regions.

Agriwatch has updated the rice exports in the 01st week of December based on data released by APEDA & IBIS. Total rice exports for MY-2016-16 till December-15 was 30.68 Lakh tons which was down by around 1.12% from last year's three months export of 31.03 lakh tons for the same period. Non- basmati rice exports in the month of December was 8.71 lakh tons and basmati exports in the month was 6 lakh tons.

Total Rice exported from India in the fourth week of December was 160787.40 tonnes, down about 10% from last week export of 178763.75 tonnes. Out of total rice

exports, basmati rice contributes 46.20%, and non-basmati rice is 53.79% in this period with quantity of around 74296.21 tonnes and 86488.20 tonnes respectively as per latest data extract from IBIS. Major importers of Indian Basmati rice in this period were Iran, Saudi and Korea whereas top importers for non-basmati were Nigeria, Ivory Coast and Benin. We expect Middle East countries to remain the major basmati buyers for Indian Basmati from Mundra, Kandla and Kakinada Port in coming months.

The FAO estimates 2016 global rice trade at around 45.3 million tons, up about 1.4% from an estimated 44.7 million tons last year. The FAO expects most of the importers, especially in Africa and Latin America, to replenish inventories. On the export side, the expansion of trade could be dampened next year by more limited availabilities in several export origins, says the FAO. It expects exports of Vietnam to increase while those of India, Brazil and the U.S. to fall.

Price Outlook:-Average Rice price in all India is likely to trade steady with firm tone due to higher demand and tight supply.

International Market Highlight:

Thailand aims to produce 25 million tonnes of rice paddy in the 2016-2017 crop year, down from output of 27.06 million tonnes a year earlier. Output in Thailand, one of the world's top rice exporters, has been hit by drought.

Myanmar's rice export obtained more than 308 million U.S. dollars in the first 10 months (Apr-Jan) of the fiscal year 2015-16, a drop of 62 million U.S. dollars from the same period last year. During the period, over 830,000 tons of rice was exported, down more than 150,000 tons, correspondingly. The export drop was due to the recent widespread flood, which destroyed paddy fields across the country, in the monsoon season, which begins from June to Oct, last year.

Unofficial preliminary rice exports (excluding premium white and fragrant rice) for January 1-3, 2016 totaled 208 metric tons. Rice exports from January 1 – December 31, 2015, totaled 4,425,469 metric tons, down 18 percent from the same period last year.

European Union (EU), rice imports by the EU increased sharply since the beginning of the crop year 2015-16 (September 1, 2015 - August 31, 2016). The EU imported about 392,569 tons of rice during the period September 1- January 5, 2015, up about 31% from around 299,310 tons imported during the same period last year. Japonica rice imports increased about 14% to around 27,748 tons in September 1 - January 5, 2015

period from around 24,358 tons during the same period last year. Indica rice imports increased about 33% to around 364,821 tons during the said period from around 274,952 tons last year. The UK remained the largest importer in September 1 - January 5, 2015 period with around 97,775 tons followed by France (68,683 tons), Netherlands (43,151 tons), Poland (28,153 tons), Italy (27,421 tons), Germany (27,019 tons), and Portugal (18,675 tons). Other EU countries imported 65,228 tons.

The Thailand Commerce Ministry expects to clear the remaining 13 million tons of rice stockpiled in the government's warehouses within the next 18 months. This will partially be achieved by the targeted sale of least 2 million tons of rice through government-to-government (G2G) deals this year, mainly with China, the Philippines and Indonesia. The government this year will focus on strategies to clear its rice stocks and create sustainable growth for rice production and marketing. The government expects to sell the remaining 13 million tons of rice from the stockpiles within a year and a half, with at least 2 million tons being sold through G2G contracts this year. This year, Thailand should be able to export at least 9 million tons of rice in total, against almost 10 million tons that were shipped in 2015.

Vietnam Paddy rice production in 2015 is estimated to increase to around 45.2 million tons from 44.97 million tons in 2014, despite dry conditions. The Agriculture Ministry estimates the country's rice exports to reach about 6.7 million tons in 2015, up about 5.8% from in 2014. The UN's FAO estimates Vietnam's 2015 rice exports will reach 8.3 million tons (including 1.5 million tons of unofficial exports to China through land borders), an increase of about 4% from 2014.
