

Domestic Market Highlights:

Wholesale Prices for India as an average for third week of January traded firmed by 0.26% and are currently hovering at Rs.2760-2765/quintal. Agriwatch expects non-basmati rice market to move range bound with firm tone in coming week. Wholesale basmati rice prices in Delhi moved firmed in third week of January due to increased buying from traders and stockiest and limited arrivals from producing states currently hover in the range of Rs.4250-4300 for 1121 sella and Rs.53-5400 for steam. Overall basmati rice is expected to trade range bound in coming weeks.

India's rice stocks in the central pool as of January 1, 2016 stood at around 26.025 million tons (including a milled equivalent of about 13.34 million tons of paddy), up about 14% from around 22.79 million tons recorded during the corresponding period last year., India's rice stocks in the central pool are up about 10% from around 23.622 million tons recorded on December 1, 2015. However, current rice stocks are up from than the required buffer and strategic reserve norms of around 7.61 million tons for this time of the year, according to the FCI.

Government's rice procurement in MY 2015-16 may surpass last year's level of 32 million tons despite prospect of lower production due to deficient monsoon. Rice procurement has risen by 31 per cent to 20 MT so far in the 2015-16 marketing year that started from October, from 15.29 MT in the year-ago period. At present, procurement has been completed in Punjab and Haryana, while the operations are in full swing in Uttar Pradesh, Chhattisgarh, Andhra Pradesh and Telangana.

As per the latest data, rice procurement in Punjab rose to 9.34 MT in 2015-16 from 7.78 MT in the last year. Similarly, rice purchase in Haryana increased to 2.85 MT from 2.01 MT in the review period. Rice procurement in Andhra Pradesh has more doubled to 1.2 MT so far this year as against 5,58,573 tons in the year-ago period, while neighboring Telangana state procured only 9,07,180 tons as against 1.28 MT in the corresponding period last year. In Chhattisgarh, the procurement was up at 2.53 MT from 1.56 MT, while in Uttar Pradesh the purchases rose to 1 MT from 6,05,000 tons from last year. Rice procurement in Odisha increased to 7, 36,945 tons so far this year from 1, 59,793 tons in the year-ago.

India 2015-16 winter/rabi rice (November - May) planting area has reached around 1.707 million hectares as of January 8, 2016, down about 9% from around 1.863 million hectares planted during the same period in 2014-15, according to a press release by the Ministry of Agriculture. The decline is due to scanty rains and low moisture in some of the rice growing regions.

The FAO estimates 2016 global rice trade at around 45.3 million tons, up about 1.4% from an estimated 44.7 million tons last year. The FAO expects most of the importers, especially in Africa and Latin America, to replenish inventories. On the export side, the expansion of trade could be dampened next year by more limited availabilities in several export origins, says the FAO. It expects exports of Vietnam to increase while those of India, Brazil and the U.S. to fall.

Price Outlook:-Average Rice price in all India is likely to trade steady with firm tone due to higher demand and tight supply.

International Market Highlight:

Vietnam Rice stock in MY 2014/2015 is estimated to be very low due to unexpected increase in demand from Indonesia and the Philippines. Rice stock in MY 2015/2016, however, is expected to be at an identical low level compared to MY 2014/2015, which will prevent Vietnam exporting large amounts in MY 2015/2016.

Unofficial preliminary rice exports (excluding premium white and fragrant rice) for January 11-17, 2016 totaled 51,342 metric tons, down 21,648 metric tons from the previous week. Rice exports from January 1-17, 2016 totaled 124,539 metric tons, up 103 percent from the previous week.

The EU imported about 419,524 tons of rice during the period September 1, 2015 - January 12, 2016, up about 31% from around 392,569 tons imported during the same period last year. The UK remained the largest importer in September 1, 2015 - January 12, 2016 period with around 101,903 tons followed by France (75,397 tons), Netherlands (46,412 tons), Germany (31,874 tons), Poland (29,552 tons) and Italy (28,264 tons). Other EU countries imported 106,122 tons. The EU imported around 1.143 million tons of rice in the crop year 2014-15, up about 12.7% from around 1.013 million tons imported in the crop year 2013-14.

The UN's Food and Agriculture organization (FAO) estimates Malawi's 2015 paddy rice production at around 120,000 tons which is down about 8% from around 131,000 tons in 2014. Dryness and moisture deficits due to El-Nino in major crop growing regions in south have impacted the 2015-16 crops planting. However Malawi is relatively less affected by the impact of El Niño compared to neighboring countries to its geographical location, but rainfall forecasts point to below average rains in central and southern parts until the start of the harvesting period
