

Domestic Market Highlights:

IPAB (Intellectual Property Appellate Board) has directed Chennai based assistant registrar to start registration of a GI indication for basmati rice. Notably APEDA had demanded to mark basmati as GI. Now with this direction basmati produced in Punjab, Haryana, Himachal Pradesh and Uttrakhand and some parts of Uttar Pradesh and Jammu & Kashmir will get the geographical Identification tag.

The Appellant Authority has asked the registrar to reconsider the matter related to inclusion of uncovered area too including Madhya Pradesh .Two petition received from Pakistan has been dismissed. A GI tag is issued for agricultural, natural or manufactured goods that have a given quality, reputation or other characteristics attributable to its geographical origin

Wholesale Prices for India as an average for first week of February traded firmed by 4.48% and are currently hovering at Rs.2890-2895/quintal. Agriwatch expects non-basmati rice market to move range bound with firm tone in coming week.

Wholesale basmati rice prices in the national capital have declined this week due to a slackened demand from retailers. Currently hover in the range of Rs.41-4200 for 1121 sella and Rs.5100-5150 for steam. Overall basmati rice is expected to trade range bound in coming weeks.

Total rice exports for MY-2016-16 till January-16 was 38.76 Lakh tons around 9.43% lower than export of 42.8 lakh tons during corresponding period of last year. Non- basmati rice exports in the month of January was 5.00 lakh tons and basmati exports in the month was 3.08 lakh tons.

Indian FOB for 1121 steam in the month of January moved down from last month and currently is in the range of USD 805-810/MT which is down by around 7.43% from last month price. Average basmati rice price declined due to slackened demand from retailers against adequate supply push the price in southward direction. Pakistani basmati price has unlikely increased from USD 716/MT to 734\$/MT, according to the UN's Food and Agriculture Organization (FAO). Currently Pakistani basmati FOB is hovering in the range of USD 716/MT which is up by 2.47% from last month FOB of USD 716/MT.

India's rice stocks in the central pool as on January 1, 2015 stood at around 26.02 million tons up by about 14% from around 22.37 million tons recorded during the corresponding period last year, according to data from the Food Corporation of India (FCI). India's rice stocks in the central pool are up about 10% from around 23.41 million tons recorded on December 1, 2015. The current rice stocks are about one million tons

more than the required strategic reserve norms of around 10.25 million tons for this time of the year, according to the FCI.

Price Outlook:-Average Rice price in all India is likely to trade steady with firm tone due to higher demand and tight supply.

International Market Highlight:

Brazil rice stocks stood at around 110,388 tons in January 2016, down about 4% from around 115,126 tons in December 2015 and down over 50% from around 240,544 tons in January 2015, according to the country's national grain supplying agency Conab.

Thailand MY2015/16 rice production is revised down to 15.9 million metric tons which is a decline of 18 percent from last year. This is due to an acreage reduction in off-season rice which is adversely affected by limited irrigation availability. Rice exports totaled 9.8 million metric tons in 2015, down 11 percent from the previous year due mainly to a reduction in parboiled rice exports.

The FAO estimates 2016 global rice trade at around 45.4 million tons, up about 1.4% from an estimated 44.8 million tons last year, and slightly up from its last month's forecast of around 45 million tons. The FAO expects greater purchases by China and Indonesia in 2016.

As per latest report published by the UN's Food and Agricultural Organization forecasts 201516 global rice production at around 491.8 million tons, slightly down from an estimated 494.3 million tons in 201415, and slightly up from its last month's forecast of around 491.4 million tons. The FAO forecasts improved production outlook in China, Vietnam and the U.S., while lower production prospects in Japan and Nepal.

Viet Nam exported nearly 315,000 tonnes of rice as of January 28, an increase of 46 per cent compared with the same period last year, according to the Viet Nam Food Association. According to the association, the increase in rice exports last month was due to the fact that Viet Nam's rice exporters had to complete government-to-government deals with the Philippines and Indonesia. Last year, Viet Nam exported 6.5 million tonnes for \$2.68 billion, a decrease of 3.9 percent in value. Asian countries were the main buyers, accounting for 74.5 per cent of exports, followed by Africa (13.7 percent), and the US (6.7 per cent).The association forecast that rice export volume this year excluding border trade is expected to remain the same as last year's
