

Domestic Market Highlights:

India's rice stocks in the central pool as on February 1, 2015 stood at around 28.94 million tons down by about 6.58% from around 30.98 million tons recorded during the corresponding period last year, according to data from the Food Corporation of India (FCI). India's rice stocks in the central pool are up about 11.22% from around 26.02 million tons recorded on January 1, 2015. The current rice stocks are about one million tons more than the required strategic reserve norms of around 10.25 million tons for this time of the year, according to the FCI.

IPAB (Intellectual Property Appellate Board) has directed Chennai based assistant registrar to start registration of a GI indication for basmati rice. Notably APEDA had demanded to mark basmati as GI. Now with this direction basmati produced in Punjab, Haryana, Himachal Pradesh and Uttarakhand and some parts of Uttar Pradesh and Jammu & Kashmir will get the geographical Identification tag.

The Appellant Authority has asked the registrar to reconsider the matter related to inclusion of uncovered area too including Madhya Pradesh. Two petition received from Pakistan has been dismissed. A GI tag is issued for agricultural, natural or manufactured goods that have a given quality, reputation or other characteristics attributable to its geographical origin

Wholesale Prices for India as an average for first week of February traded firmed by 4.48% and are currently hovering at Rs.2890-2895/quintal. Agriwatch expects non-basmati rice market to move range bound with firm tone in coming week.

Wholesale basmati rice prices in the national capital have declined this week due to a slackened demand from retailers. Currently hover in the range of Rs.41-4200 for 1121 sella and Rs.5100-5150 for steam. Overall basmati rice is expected to trade range bound in coming weeks.

Total rice exports for MY-2016-16 till January-16 was 38.76 Lakh tons around 9.43% lower than export of 42.8 lakh tons during corresponding period of last year. Non- basmati rice exports in the month of January was 5.00 lakh tons and basmati exports in the month was 3.08 lakh tons.

Indian FOB for 1121 steam in the month of January moved down from last month and currently is in the range of USD 805-810/MT which is down by around 7.43% from last month price. Average basmati rice price declined due to slackened demand from retailers against adequate supply push the price in southward direction. Pakistani basmati price has unlikely increased from USD 716/MT to 734\$/MT, according to the UN's Food

and Agriculture Organization (FAO). Currently Pakistani basmati FOB is hovering in the range of USD 716/MT which is up by 2.47% from last month FOB of USD 716/MT.

Price Outlook:-Average Rice price in all India is likely to trade steady with firm tone due to higher demand and tight supply.

International Market Highlight:

THE Philippines, one of the world's top rice importers, is set to buy 400,000 tons of the grain for delivery in the second quarter, and may need an additional 800,000 tons to cover this year's requirements. This volume is required for the lean month which is beginning from July. The Philippines' fresh demand could give a boost to rice prices in Vietnam and Thailand -- the country's main suppliers and the world's third and second biggest exporters, respectively after India.

In MY2015-16 planted off-season rice areas in Thailand are revised down to 5.8 million rai (0.9 million hectares. This is a 52-percent reduction of off-season rice areas from last year due to limited irrigation availability. As a result, total rice planting will likely decline to around 63 million rai (10 million hectares). This is approximately 11 percent lower than last year. Off-season rice production is expected to decline to 2 million metric tons (milled equivalent), a decline of 57 percent from MY2014/15. This will result in a reduction of total MY2015/16 rice production to 15.9 million metric tons, down 18 percent from last year.

Brazil rice stocks stood at around 110,388 tons in January 2016, down about 4% from around 115,126 tons in December 2015 and down over 50% from around 240,544 tons in January 2015, according to the country's national grain supplying agency Conab.

Thailand MY2015/16 rice production is revised down to 15.9 million metric tons which is a decline of 18 percent from last year. This is due to an acreage reduction in off-season rice which is adversely affected by limited irrigation availability. Rice exports totaled 9.8 million metric tons in 2015, down 11 percent from the previous year due mainly to a reduction in parboiled rice exports.

The FAO estimates 2016 global rice trade at around 45.4 million tons, up about 1.4% from an estimated 44.8 million tons last year, and slightly up from its last month's forecast of around 45 million tons. The FAO expects greater purchases by China and Indonesia in 2016.
