

Domestic Market Highlights:

USDA forecast that MY 2016/17 Indian rice ending stocks are forecast to decline to 11.8 MMT compared to 13.3 MMT last year due to forecast tight supplies. MY 2015/16 ending stocks have been raised higher to 13.3 MMT based on higher than initially expected MY 2015/16 production and government procurement.

Wholesale Prices for India as an average for fourth week of February traded weak by 0.58% and are currently hovering at Rs.2770-2780/quintal. Agriwatch expects non-basmati rice market to move range bound with firm tone in coming week. Wholesale basmati rice prices in the national capital traded steady to slightly firm this week due to increased buying by stockiest. Prices currently hover in the range of Rs.41-4200 for 1121 sella and Rs.5200-5250 for steam. Overall basmati rice is expected to trade range bound in coming weeks.

Paddy procurement by The Food Corporation of India (FCI) and other government agencies in the 201516 Kharif marketing season (KMS) has reportedly reached around 26.13 million tons as on February 11, 2016, up about 21% from around 21.54 million tons during the same time last year, the Economic Times quoted the Food Minister. The government is targeting to procure about 30 million tons in KMS 201516.

India's rice stocks in the central pool as on February 1, 2015 stood at around 28.94 million tons down by about 6.58% from around 30.98 million tons recorded during the corresponding period last year, according to data from the Food Corporation of India (FCI). India's rice stocks in the central pool are up about 11.22% from around 26.02 million tons recorded on January 1, 2015. The current rice stocks are about one million tons more than the required strategic reserve norms of around 10.25 million tons for this time of the year, according to the FCI.

The Appellant Authority has asked the registrar to reconsider the matter related to inclusion of uncovered area too including Madhya Pradesh .Two petition received from Pakistan has been dismissed. A GI tag is issued for agricultural, natural or manufactured goods that have a given quality, reputation or other characteristics attributable to its geographical origin

Price Outlook:-Average Rice price in all India is likely to trade steady with firm tone due to higher demand and tight supply.

International Market Highlight:

In its March 2016 Cereal Supply and Demand Brief, the UN's Food and Agricultural Organization (FAO) forecasts 2015/16 global rice production at around 491.4 million tons, slightly down from an estimated 494.7 million tons in 2014/15, and slightly down from its last month's forecast of around 491.8 million tons. The FAO attributes the fall to lower production prospects in India, Iran, Bangladesh and Afghanistan.

The UN's Food and Agriculture Organization (FAO) forecasts china's MY 2015/16 (June May) rice imports to decline about 6% y/y due to government's efforts to limit informal imports. It also forecasts China's 2015 paddy rice output at around 208.25 million tons, up from around 206.507 million tons in 2014 due to favorable weather conditions.

The EU imported about 572,619 tons of rice during the period September 1, 2015 February 16, 2016, up about 22.5% from around 467,256 tons imported during the same period last year. The UK remained the largest importer in September 1, 2015 February 16, 2016 period with around 127,867 tons followed by France (95,218 tons), The Netherlands (64,495 tons), Germany (60,871 tons), Poland (41,907 tons), , and Italy (40,210 tons). Other EU countries imported 142,051 tons. During the week ended February 16, 2016, the EU imported around 42,196 tons of rice, up about 43% from around 29,564 tons imported during the week ended February 9, 2015.

According to data from the Vietnam Food Association (VFA), country exported around 589,646 tons of rice in January 1 February 18, 2016, up about 40% from around 421,202 tons of rice exported in first two months of 2015. The average rice export price so far in this year stands at around \$400 per ton (FOB), down about 11% per ton from around \$452 per ton recorded during same last year.

THE Philippines, one of the world's top rice importers, is set to buy 400,000 tons of the grain for delivery in the second quarter, and may need an additional 800,000 tons to cover this year's requirements. This volume is required for the lean month which is beginning from July. The Philippines' fresh demand could give a boost to rice prices in Vietnam and Thailand -- the country's main suppliers and the world's third and second biggest exporters, respectively after India.

In MY2015-16 planted off-season rice areas in Thailand are revised down to 5.8 million rai (0.9 million hectares. This is a 52-percent reduction of off-season rice areas from last year due to limited irrigation availability. As a result, total rice planting will likely decline to around 63 million rai (10 million hectares). This is approximately 11 percent lower than last year. Off-season rice production is expected to decline to 2

million metric tons (milled equivalent), a decline of 57 percent from MY2014/15. This will result in a reduction of total MY2015/16 rice production to 15.9 million metric tons, down 18 percent from last year.
