

Domestic Market Highlights:

Wholesale Prices for India as an average for third week of March traded frail by 2.54% and are currently hovering at Rs.2670-2680/quintal. Agriwatch expects non-basmati rice market to move range bound with some firm tone in coming week. Wholesale basmati rice prices in the national capital traded slightly firm this week due to improved demand. Prices currently hover in the range of Rs.40-4100 for 1121 sella and Rs.5150-5200 for steam. Overall basmati rice is expected to trade range bound in coming weeks.

India 5% broken rice is quoted at about \$375s per ton, unchanged from a week ago, up about \$5 per ton from a month ago, and down about \$25 per ton from a year ago.

India's rice stocks in the central pool as on March 1, 2016 stood at around 29.23 million tons up by about 23% from around 23.79 million tons recorded during the corresponding period last year, according to data from the Food Corporation of India (FCI). India's rice stocks in the central pool are up about 2% from around 28.95 million tons recorded on February 1, 2016. The current rice stocks are about one million tons more than the required strategic reserve norms of around 7.61 million tons for this time of the year, according to the FCI.

Paddy procurement by The Food Corporation of India (FCI) and other government agencies in the 2015-16 Kharif marketing season (KMS) has reportedly reached around 28.54 million tons as on March 03, 2016, up about 21% from around 23.50 million tons during the corresponding period last year. The government is targeting to procure about 30 million tons in KMS 201516.

Total rice exports for MY-2016-16 till February-16 was 45.85 Lakh tons around 16.95% lower than 55.21 lakh tons exported during corresponding period of last year. Non- basmati rice exports in the month of February was 4.43 lakh tons and basmati exports in the month was 2.66 lakh tons as per latest data extract from IBIS.

Major importers of Indian Basmati rice in this period were Saudi Arabia, UAE and Iran. We expect Middle East countries to remain the major basmati buyers of Indian Basmati from Mundra, Kakinada and Kandla Port in coming months. Major non basmati importers were Senegal, Benin, and Ivory Coast & S. Africa. Total rice exported was down by 12.25% from last month export of 8.08 lakh tons.

Price Outlook:-Average Rice price in all India is likely to trade steady with firm tone due to higher demand and tight supply.

International Market Highlight:

Unofficial preliminary rice exports (excluding premium white and fragrant rice) for March 7-13, 2016 totaled 67,586 metric tons, down 31,441 metric tons from the previous week, and down 35,375 metric tons from the four-week moving average of 102,962 metric tons. Rice exports from January 1 – March 13, 2016 totaled 864,462 metric tons, up 22 percent from the previous week.

Thailand Export prices increased around 1 percent due to tighter supplies of off-season rice and the strengthening of the Thai baht (35.2 baht/US\$ last week compared to 34.8 baht/US\$). Around 40 percent of the off-season crop has been harvested and there are growing concerns from millers and traders that there will be quality problem and potentially overall lower yields. They expect offseason rice production of no more than 2 million metric tons due to lack of water. The Government is expected to issue the new public tender by the end of March. The tender will likely consist of food-grade 5% grade white rice as domestic prices of white rice are under upward pressure due to current tight supplies of off-season rice. Currently, there is no date set for another non-food grade rice tender.

Vietnam rice Export prices went up about \$5-10 during the week of February 27-March 4. According to rice exporters, the increase was due to expected upcoming demand from Vietnam's South East Asian rice export markets. Export prices were unchanged compared to the last five consecutive weeks, prior to the week of February 20-26. Local paddy prices stayed the same at VND 5,100-5,200 per kilo during the week of February 20-26, 2016, despite the on-going harvest in the Mekong River Delta, due to expected export demand.

European Union (EU) for the crop year 2015-16 (September 1, 2015 August 31, 2016), the EU exported about 114,853 tons of rice during the period September 1, 2015 March 1, 2016, down about 19% from around 141,087 tons exported during the corresponding period last year. Italy remained the largest exporter in this period with around 61,447 tons followed by Spain (16,073 tons) Greece (13,417 Tons) and Portugal (7,119 tons).
