International Market Highlight:

The International Grains Council's forecast that Owing to a smaller outturn and rising consumption, world rice stocks in 2015/16 are expected to be down sharply, mostly on reductions in the main exporters, namely India and Thailand. Production is seen recovering to a fresh peak in 2016/17 on potentially bigger crops in Asia but, given

a further expansion of food use, aggregate inventories are expected to post a further modest y/y contraction. While prospects for trade in 2017 (Jan/Dec) are tentative, volumes should stay high on demand from buyers in Africa and Asia.

Vietnam exported 1.426 million tons of rice in first three months of 2016 (January – March), up about 58% from 901,692 tons of rice exported during corresponding period in last year, according to data from the Vietnam Food Association (VFA). The average rice export price so far in this year stands at around \$405 per ton (FOB), down about 7% per ton from around \$434 per ton recorded during corresponding last year.

As per latest report, Indonesia has set the target of exporting 100,000 tonnes of rice to 10 Asian and European countries as part of efforts to increase farm commodity exports this year. The target destinations also include Malaysia, Singapore and Brunei as well as Germany.
