

**Domestic Market Highlights:**

**India's rice stocks in the central pool as of April 1, 2016 stood at around 26.811 million tons** (including a milled equivalent of about 9.925 million tons of paddy), down about 13.5% from around 23.61 million tons recorded during the same period last year, according to data from the Food Corporation of India (FCI). On monthly basis, India's rice stocks in the central pool are down about 8% from around 29.234 million tons recorded on March 1, 2016. The current rice stocks are about double the required strategic reserve norms of around 13.58 million tons for this time of the year, according to the FCI.

**All-India progressive procurement of Rice as on 08.04.2016 for the marketing season 2015-16 was 304.11 lakh tonnes** against the procurement of 261.51 lakh tonnes upto the corresponding period of last year

**Total Rice exported from India in the month of March was 8.40 lakh tons out of which basmati rice** contribute 33.43%, and non-basmati rice is 66.56% in this month with quantity of around 2.81 lakh tons and 5.59 lakh tons respectively as per latest data extract from IBIS. Rice exports in this month were 19% higher than the export of 7.09 lakh tons during last month.

**India 5% broken rice is quoted at about \$375 per ton, up about USD 5/T from a week and a month ago** and down about \$5 per ton from a year ago.

**Among the food grains, Inflation of Rice has decreased to (-) 1.63% from the previous month's level of (-) 1.38%, Cereals 1.11% from the previous month's level of 1.24%, Wheat 2.78% from the previous month's level of 3.19% and Pulses 38.84% from the previous month's level of 44.91%.**

**Price Outlook:-Average Rice price in all India is likely to trade steady with firm tone due to normal demand and tight supply.**

**International Market Highlight:**

**For MY 2016/17 Bangladesh (May-April), total rice area and production levels are projected to increase** slightly to 11.8 million hectares (HA) and 34.55 million metric tons (MMT) assuming good weather and a recovery in Aman rice area, which fell last year due to flooding in key Districts.

**MY 2016/17 Korea rice production is forecast to remain around 4 million metric tons (MMT)** – down 8 percent from 4.33 MMT in 2015/16 – based on five year average

yield. According to a Korea Rural Economic Institute (KREI) survey of rice farmers from December 28, 2015 - January 4, 2016, planted area is expected to decline to 781,716 Hectare, down about 2.2 percent from last year. However, high yield varieties will almost offset the lower acreage planted.

**The International Grains Council's forecast that Owing to a smaller outturn and rising consumption,** world rice stocks in 2015/16 are expected to be down sharply, mostly on reductions in the main exporters, namely India and Thailand. Production is seen recovering to a fresh peak in 2016/17 on potentially bigger crops in Asia but, given a further expansion of food use, aggregate inventories are expected to post a further modest y/y contraction. While prospects for trade in 2017 (Jan/Dec) are tentative, volumes should stay high on demand from buyers in Africa and Asia.

**Vietnam exported 1.426 million tons of rice in first three months of 2016 (January – March),** up about 58% from 901,692 tons of rice exported during corresponding period in last year, according to data from the Vietnam Food Association (VFA). The average rice export price so far in this year stands at around \$405 per ton (FOB), down about 7% per ton from around \$434 per ton recorded during corresponding last year.
