

Domestic Market Highlights:

Indian FOB for 1121 steam in the month of April moved up from last month and currently is in the range of USD 870-875/MT which is up by around 11% from last month price. Average basmati rice price increased due to increase buying interest for stockpiling which push the price in northward direction. Pakistani basmati price has decreased from USD 681/MT to 679\$/MT, according to the UN's Food and Agriculture Organization (FAO). Currently Pakistani basmati FOB is hovering in the range of USD 675-679/MT which is down by 0.33% from last month FOB of USD 681.3/MT.

FCI revises economic cost for rice to Rs. 3266.70 per quintal or the season 2016-17 till 31st March-2017. It was 3193.73 per quintal for 2015-16. Increase of around Rs 73 per quintal would increase subsidy burden if rice is sold at Rs 2400 per quintal for open market scheme.

The government of India plans to sell about 2 million tons of rice Under Open Market Sale Scheme (OMSS) in MY -2016-17. The government has fixed rice (grade A) sales target at Rs.2, 400 per quintal. It could lend support to cash rice market fundamental in short to medium term.

Total rice exports in the 3rd week of April (18-21 April) were 184279.08 tons in which aromatic and non basmati rice contribution was 38.47% and 61.52% respectively with quantity of around 70895.69 tons and 113383.39 tons as per latest data extract from IBIS. Major importers of Indian Basmati rice in this period were Saudi Arabia, UAE, and Korea. We expect Middle East countries to remain the major basmati buyers of Indian Basmati from Mundra and Kandla Port in coming months. Major non basmati importers were Benin, Guinea & Senegal. Kakinada port, Kolkata port and Mundra were the major export destination and more than 70% non basmati rice exported from these ports in this period. Weekly rice export was down by around 22.69% from last week export of 150188.68 tons.

Wholesale Prices for India as an average for fourth week of April traded firmed by 9.10% from last week. Prices are currently hovering at Rs.2958-2960/quintal and about 6.5% up from price of Rs.2844/Quintal during corresponding period last year. Agriwatch expects non-basmati rice market to move range bound with some firm tone in coming week. Wholesale basmati rice prices in the national capital declined from last week due to low demand from retailers against adequate supplies from producing regions.

Commission for Agricultural Costs and Prices recommended an increase in minimum support price (MSP) of paddy by Rs 60 to Rs 1,470 per quintal for common grade for coming Kharif season (2016-17), which is up by around 4.26% from last year price of Rs.1410/Quintal, likely CACP has proposed an increase Grade A variety by

same from Rs.1450/quintal in MY-2015-16 to Rs.1510/quintal in 2016-17 which is approx 4% up from last year.

Price Outlook:-Average Rice price in all India is likely to trade steady with firm tone due to normal demand and tight supply.

International Market Highlight:

The Vietnam Food Association (VFA) aims to export 1.6 million tonnes of rice in the second quarter of this year, 200,000 tonnes lower than initially planned. In the first three months of this year, the country exported 1.59 million tonnes of rice. As so, rice exports in the first half of this year are expected to hit over 3 million tonnes, up 12 percent against the same period last year. For the whole year, the export volume is expected to remain at last year's 6.5 million tonnes.

Thailand plans to sell the remaining 11.4 million tons of rice in government stockpiles within two months. The military government which took control following a May 2014 coup has auctioned off 5.05 million tons of rice worth \$1.53 billion through several tenders since taking power. The government had previously said it aimed to clear the stockpile by the end of 2017. Auctions will start next week, with one million tons of rice for each lot. They aim to auction it all off within two months, however according to president of Tanasan Rice Group government's target of offloading the rice within two months was not possible.

For MY 2016/17 Bangladesh (May-April), total rice area and production levels are projected to increase slightly to 11.8 million hectares (HA) and 34.55 million metric tons (MMT) assuming good weather and a recovery in Aman rice area, which fell last year due to flooding in key Districts.
