

Domestic Market Highlights:

Total Rice exported from India in the 03rd week of June (12-19 June) was 265492.57 tons out of which basmati rice contribute 38.51%, and non-basmati rice is 61.48% in this period with quantity of around 102258.13 tons and 163234.44 tons respectively as per latest data extract from IBIS. Major importers of Indian Basmati rice in this period were Iran, UAE and Iraq. We expect Middle East countries to remain the major basmati buyers of Indian Basmati from Mundra and Kakinada Port in coming months. Major non basmati importers were Benin, Ivory Cost and S. Africa. Weekly rice exports were up by 18% from last week total rice export of 225163.89 tons.

All-India progressive procurement of Rice as on 10.06.2016 for the marketing season 2015-16 was 336.98 lakh tonnes against the procurement of 299.43 lakh tonnes up to the corresponding period of last year.

Rice prices in India and Thailand stood steady this week ahead of a major auction in Thailand, while the export quotations softened slightly in Vietnam as buyers were absent. Rice prices have eased from multi-month highs hit in May as drought brought by El Nino cut output in Asia's top growers. India's 5 percent broken parboiled rice prices were steady at \$382-\$392 per tonne, free-on-board (FOB) basis, this week as demand was softening ahead of Thailand's auction. India's domestic prices have been rising due to dwindling supplies and after the government raised the minimum purchase price by 4 percent.

Preliminary reports of crop coverage in the Kharif season have started coming in. The total sown area as on 17th June, as per reports received from States, stands at 84.21 lakh hectare compared to 93.63 lakh hectare at this time last year. It is reported that rice has been sown/transplanted in 9.17 lakh ha which is 10.00% down from last year area of 10.19 lakh hectare till date.

Iran will ban rice imports from July 21, the main aim is to protect domestic farmers during their harvest. Iran has imported 191,000 tonnes of rice this year, noting imports are already down from previous years.

Indian FOB for 1121 steam in the month of May moved up from last month and currently is in the range of USD 885-888/MT which is up by around 1.73% from last month price. Average basmati rice price increased due to increase buying interest for stockpiling which push the price in northward direction. Pakistani basmati price has too up from USD 679/MT to 750\$/MT, according to the UN's Food and Agriculture Organization (FAO). Currently Pakistani basmati FOB is hovering in the range of USD 750-751/MT which is up by 10.45% from last month FOB of USD 679/MT.

Price Outlook:-Average Rice price in all India is likely to trade steady with firm tone due to normal demand and tight supply.

International Market Highlight:

Unofficial preliminary rice exports (excluding premium white and fragrant rice) for May 29 – June 5, 2016 totaled 64,534 metric tons, down 30,834 metric tons from the previous week and up 3,862 metric tons from the four-week moving average of 60,671 metric tons. Rice exports from January 1 – June 5, 2016 totaled 1,571,114 metric tons, down 0.3 percent from last year.

Vietnam's rice paddy output will likely fall this year for the first time since 2005 following the worst drought in 90 years, but the decline will be limited as farmers expand planting in the current and final crops. The Delta's winter-spring output fell 10.2 percent on last year, but total production could fall just 1.5 percent to 44.5 million tonnes, thus overall the annual paddy output will only be short by 700,000 tonnes. Vietnam's rice exports this year will dip 4.45 percent from 2015 to 6.44 million tonnes, partly due to drought in the Delta.

The Thailand Commerce Ministry has set a target to sell the remaining 10 million tonnes of rice bought under the Yingluck government's rice pledging scheme within this year. The remaining rice stockpiles are divided into three lots: over six million tonnes of PAA-grade or good quality rice; about two million tonnes of Grade C rice which are not suitable for human consumption; and about two million tonnes of rotten rice which are good for industrial use such as for producing ethanol. As said by Commerce Ministry they would try to sell the 10 million tonnes of rice through every channel, including open auctions, G-to-G deals, direct sale to domestic and overseas customers and even donations.

Cambodian rice exports have dramatically declined over the past three months compared to the same period last year. Rice exports had a monthly decrease of 14.5 per cent in March, 30.8 per cent in April, and 28.5 per cent in May. Rice exports in the first five months of this year totaled 234,328 tonnes, compared to the 243,025 tonnes exported in the same period last year, a year-on-year decrease of 3.7 per cent.

For MY 2016/17 Bangladesh (May-April), total rice area and production levels are projected to increase slightly to 11.8 million hectares (HA) and 34.55 million metric tons (MMT) assuming good weather and a recovery in Aman rice area, which fell last year due to flooding in key Districts.
