

Domestic Market Highlights:

Indian FOB for 1121 steam in the month of June moved up from last month and currently is in the range of USD 895.897/MT which is up by around 1.02% from last month price. Average basmati rice price increased due to increase buying interest for stockpiling which push the price in northward direction. Pakistani basmati price has too up from USD 750/MT to 825\$/MT, according to the UN's Food and Agriculture Organization (FAO). Currently Pakistani basmati FOB is hovering in the range of USD 825-826/MT which is up by 10.00% from last month FOB of USD 750/MT.

According to the preliminary official statistics for January-April 2016, rice exports from India in the first four months of CY 2016 are estimated at 3.48 MMT compared to 4.14 MMT during the corresponding period last year down 16 percent over last year. Assuming no significant change in the export demand and price parity for Indian rice vis-avis rice from competing origins, CY 2016 exports are likely to reach 10 MMT.

All-India progressive procurement of Rice as on 01.07.2016 for the marketing season 2015-16 was 340.54 lakh tonnes against the procurement of 312.53 lakh tonnes up to the corresponding period of last year.

India's rice stocks in the central pool as on June 1, 2016 stood at around 27.21 million tons up by about 8% from around 25.72 million tons recorded during the corresponding period last year, according to data from the Food Corporation of India (FCI). India's rice stocks in the central pool are up about 27.62% from around 21.32 million tons recorded on April 1, 2016. The current rice stocks are about one million tons more than the required strategic reserve norms of around 1.25 million tons for this time of the year, according to the FCI.

The total sown area as on 1st July, 2016 as per reports received from States, stands at 215.87 lakh hectare as compared to 279.27 lakh hectares at this time last year. It is reported that rice has been sown/transplanted in 47.77 lakh ha, pulses in 19.85 lakh ha, coarse cereals in 37.15 lakh ha, oilseeds in 28.71 lakh ha, sugarcane in 44.38 lakh hectare and cotton in 30.59 lakh ha.

Iran will ban rice imports from July 21, the main aim is to protect domestic farmers during their harvest. Iran has imported 191,000 tonnes of rice this year, noting imports are already down from previous years.

Price Outlook:-Average Rice price in all India is likely to trade steady with firm tone due to normal demand and tight supply.

International Market Highlight:

The Thai government issued 4 tenders totaling 4.6 million metric tons during January – June 2016. It has reportedly sold around 2.8 million metric tons. The government reported that it is still holding rice stocks of around 9 million metric tons, which consist of 3 million metric tons of food- grade rice and 6 million metric tons of industrial grade rice (including food processing and feed industries).

Unofficial preliminary rice exports (excluding premium white and fragrant rice) for May 29 – June 5, 2016 totaled 64,534 metric tons, down 30,834 metric tons from the previous week and up 3,862 metric tons from the four-week moving average of 60,671 metric tons. Rice exports from January 1 – June 5, 2016 totaled 1,571,114 metric tons, down 0.3 percent from last year.

Vietnam's rice paddy output will likely fall this year for the first time since 2005 following the worst drought in 90 years, but the decline will be limited as farmers expand planting in the current and final crops. The Delta's winter-spring output fell 10.2 percent on last year, but total production could fall just 1.5 percent to 44.5 million tones, thus overall the annual paddy output will only be short by 700,000 tonnes. Vietnam's rice exports this year will dip 4.45 percent from 2015 to 6.44 million tonnes, partly due to drought in the Delta.

The Thailand Commerce Ministry has set a target to sell the remaining 10 million tonnes of rice bought under the Yingluck government's rice pledging scheme within this year. The remaining rice stockpiles are divided into three lots: over six million tonnes of PAA-grade or good quality rice; about two million tonnes of Grade C rice which are not suitable for human consumption; and about two million tonnes of rotten rice which are good for industrial use such as for producing ethanol. As said by Commerce Ministry they would try to sell the 10 million tonnes of rice through every channel, including open auctions, G-to-G deals, direct sale to domestic and overseas customers and even donations.
