

Domestic Market Highlights:

Wholesale Prices for India as an average for first week of July traded firmed by 2.6% from last week. Prices are currently hovering at Rs.2750-2755/quintal and 3.34% up from price of Rs.2662/Quintal during corresponding period last year. Agriwatch expects non-basmati rice market to move range bound with firm tone in coming week. Prices of Basmati rice remained weak for the fourth week of June on sluggish demand from retailers against supply from producing regions.

With surplus rain recorded between June 30 and July 6, sowing of rice and pulses picked up pace with the total acreage under the two crops, since the beginning of June, exceeding last year's levels for the same period. The total sown area as on 8th July, 2016 as per reports received from States, stands at 406.27 lakh hectare as compared to 431.82 lakh hectares at this time last year. It is reported that rice has been sown/transplanted 81.93 lakh ha, which is higher by 4.6 lakh ha. than the last year.

Indian FOB for 1121 steam in the month of June moved up from last month and currently is in the range of USD 895.897/MT which is up by around 1.02% from last month price. Average basmati rice price increased due to increase buying interest for stockpiling which push the price in northward direction. Pakistani basmati price has too up from USD 750/MT to 825\$/MT, according to the UN's Food and Agriculture Organization (FAO). Currently Pakistani basmati FOB is hovering in the range of USD 825-826/MT which is up by 10.00% from last month FOB of USD 750/MT.

All-India progressive procurement of Rice as on 01.07.2016 for the marketing season 2015-16 was 340.54 lakh tonnes against the procurement of 312.53 lakh tonnes up to the corresponding period of last year.

India's rice stocks in the central pool as on June 1, 2016 stood at around 27.21 million tons up by about 8% from around 25.72 million tons recorded during the corresponding period last year, according to data from the Food Corporation of India (FCI). India's rice stocks in the central pool are up about 27.62% from around 21.32 million tons recorded on April 1, 2016. The current rice stocks are about one million tons more than the required strategic reserve norms of around 1.25 million tons for this time of the year, according to the FCI.

The total sown area as on 1st July, 2016 as per reports received from States, stands at 215.87 lakh hectare as compared to 279.27 lakh hectares at this time last year. It is reported that rice has been sown/transplanted in 47.77 lakh ha, pulses in 19.85 lakh ha, coarse cereals in 37.15 lakh ha, oilseeds in 28.71 lakh ha, sugarcane in 44.38 lakh hectare and cotton in 30.59 lakh ha.

Iran will ban rice imports from July 21, the main aim is to protect domestic farmers during their harvest. Iran has imported 191,000 tonnes of rice this year, noting imports are already down from previous years.

Price Outlook:-Average Rice price in all India is likely to trade steady with firm tone due to normal demand and tight supply.

International Market Highlight:

The Thai Government announced that it will issue two new tenders for 2.6 million metric tons of its rice stocks on July 25, 2016. The first tender for 2.2 million metric tons will be contingent for export only as eligible bidders are required to have export orders from their foreign buyers. These tenders will mainly consist of 5% grade white rice and broken rice (A1 Super) from carry-over stocks under the MY2012/13 and MY2013/14 rice pledging programs. Meanwhile, the second tender for 0.4 million metric tons will be industrial uses.

The Thai government issued 4 tenders totaling 4.6 million metric tons during January – June 2016. It has reportedly sold around 2.8 million metric tons. The government reported that it is still holding rice stocks of around 9 million metric tons, which consist of 3 million metric tons of food- grade rice and 6 million metric tons of industrial grade rice (including food processing and feed industries).

Unofficial preliminary rice exports (excluding premium white and fragrant rice) for May 29 – June 5, 2016 totaled 64,534 metric tons, down 30,834 metric tons from the previous week and up 3,862 metric tons from the four-week moving average of 60,671 metric tons. Rice exports from January 1 – June 5, 2016 totaled 1,571,114 metric tons, down 0.3 percent from last year.

The Thailand Commerce Ministry has set a target to sell the remaining 10 million tonnes of rice bought under the Yingluck government's rice pledging scheme within this year. The remaining rice stockpiles are divided into three lots: over six million tonnes of PAA-grade or good quality rice; about two million tonnes of Grade C rice which are not suitable for human consumption; and about two million tonnes of rotten rice which are good for industrial use such as for producing ethanol. As said by Commerce Ministry they would try to sell the 10 million tonnes of rice through every channel, including open auctions, G-to-G deals, direct sale to domestic and overseas customers and even donations.
