International Market Highlight:

Vietnam's rice export is estimated to drop to 5.65 million tonnes in 2016, down 14 percent against the previous year and 800,000 tonnes lower than initial forecast. According to the Vietnam Food Association (VFA), this is the first time since 2009 Vietnam's rice export may fall below 6 million tonnes. At present, Vietnam's big rice importers like the Philippines and Indonesia are showing no intention of buying more rice. Meanwhile, the purchasing power of China, which accounts for nearly 35 percent of Vietnam's export volume, is declining. VFA statistics showed that Vietnam shipped abroad 2.65 million tonnes of rice in the first half of this year, earning 1.14 billion USD. China remained Vietnam's largest rice importer, accounting for 35 percent of the market share, followed by Africa and Indonesia. As of late 2016, there are about 1.27 million tonnes of rice in stock. However, the rice output of the summer-autumn crop is predicted to decrease due to long-lasting drought and saline intrusion.

Cambodia exported 268,190 tons of milled rice in the first half of 2016, down 5.8 percent from the 283,825 tons in the same period last year. The Southeast Asian country has exported its milled rice to 57 countries and regions around the world. Three top buyers are China, France and Poland, adding that China imported some 47,024 tons of milled rice from Cambodia during the January-June period this year, France imported 37,463 tons and Poland purchased 36,164 tons. Cambodia produced over 9 million tons of paddy rice a year. With this amount, country has over 3 million tons of milled rice left over for annual export.

The Thai Government announced that it will issue two new tenders for 2.6 million metric tons of its rice stocks on July 25, 2016. The first tender for 2.2 million metric tons will be contingent for export only as eligible bidders are required to have export orders from their foreign buyers. These tenders will mainly consist of 5% grade white rice and broken rice (A1 Super) from carry-over stocks under the MY2012/13 and MY2013/14 rice pledging programs. Meanwhile, the second tender for 0.4 million metric tons will be industrial uses.

The Thai government issued 4 tenders totaling 4.6 million metric tons during January – June 2016. It has reportedly sold around 2.8 million metric tons. The government reported that it is still holding rice stocks of around 9 million metric tons, which consist of 3 million metric tons of food- grade rice and 6 million metric tons of industrial grade rice (including food processing and feed industries).

Unofficial preliminary rice exports (excluding premium white and fragrant rice) for May 29 – June 5, 2016 totaled 64,534 metric tons, down 30,834 metric tons from the previous week and up 3,862 metric tons from the four-week moving average of 60,671 metric tons. Rice exports from January 1 – June 5, 2016 totaled 1,571,114 metric tons, down 0.3 percent from last year.

The Thailand Commerce Ministry has set a target to sell the remaining 10 million tonnes of rice bought under the Yingluck government’s rice pledging scheme within this year. The remaining rice stockpiles are divided into three lots: over six million tonnes of PAA-grade or good quality rice; about two million tonnes of Grade C rice which are not suitable for human consumption; and about two million tonnes of rotten rice which are good for industrial use such as for producing ethanol. As said by Commerce Ministry they would try to sell the 10 million tonnes of rice through every channel, including open auctions, G-to-G deals, direct sale to domestic and overseas customers and even donations.
