International Market Highlight:

Unofficial preliminary rice exports (excluding premium white and fragrant rice) for July 4-10, 2016 totaled 39,776 metric tons, down 18,156 metric tons from the previous week and down 19,120 metric tons from the four-week moving average of 58,896 metric tons . Rice exports from January 1 – July 10, 2016 totaled 1,870,118 metric tons, down 8 percent from the same period last year.

Increased purchase orders for Thai par-boiled rice from Africa coupled with substantial drop in second-crop rice production as a result of prolonged drought have driven the price of paddy in the domestic market to surpass 10,000 baht per tonne – the highest price recorded in three years. Price of 5% paddy with 15% moisture was quoted at local rice market at 10,500 baht per tonne compared to 8,500 baht in early July – an increase of about 2,000 baht which is the highest in three years. African countries had placed orders for the purchase of Thai par-boiled rice which results driving up the paddy of new crop required to turn into par-boiled rice. The price of par-boiled rice itself has increased to 15,500-15,800 baht /T as export price was quoted at US\$395/tonne. It is expected that about 650,000 tonnes/month of rice would be exported during July-September period and would then increased to about 800,000 tonnes per month during the fourth quarter of the year. For the whole year, between 9.2-9.3 million tonnes of Thai rice are expected to be exported.

Vietnam's rice export is estimated to drop to 5.65 million tonnes in 2016, down 14 percent against the previous year and 800,000 tonnes lower than initial forecast. According to the Vietnam Food Association (VFA), this is the first time since 2009 Vietnam's rice export may fall below 6 million tonnes. At present, Vietnam's big rice importers like the Philippines and Indonesia are showing no intention of buying more rice. Meanwhile, the purchasing power of China, which accounts for nearly 35 percent of Vietnam's export volume, is declining. VFA statistics showed that Vietnam shipped abroad 2.65 million tonnes of rice in the first half of this year, earning 1.14 billion USD. China remained Vietnam's largest rice importer, accounting for 35 percent of the market share, followed by Africa and Indonesia. As of late 2016, there are about 1.27 million

tonnes of rice in stock. However, the rice output of the summer-autumn crop is predicted to decrease due to long-lasting drought and saline intrusion.

Cambodia exported 268,190 tons of milled rice in the first half of 2016, down 5.8 percent from the 283,825 tons in the same period last year. The Southeast Asian country has exported its milled rice to 57 countries and regions around the world. Three top buyers are China, France and Poland, adding that China imported some 47,024 tons of milled rice from Cambodia during the January-June period this year, France imported 37,463 tons and Poland purchased 36,164 tons. Cambodia produced over 9 million tons of paddy rice a year. With this amount, country has over 3 million tons of milled rice left over for annual export.

The Thailand Commerce Ministry has set a target to sell the remaining 10 million tonnes of rice bought under the Yingluck government's rice pledging scheme within this year. The remaining rice stockpiles are divided into three lots: over six million tonnes of PAA-grade or good quality rice; about two million tonnes of Grade C rice which are not suitable for human consumption; and about two million tonnes of rotten rice which are good for industrial use such as for producing ethanol. As said by Commerce Ministry they would try to sell the 10 million tonnes of rice through every channel, including open auctions, G-to-G deals, direct sale to domestic and overseas customers and even donations.
