

Domestic Market Highlights:

India's rice stocks in the central pool as on July 1, 2016 stood at around 13.62 million tons down by about 44% from around 24.52 million tons recorded during the corresponding period last year, according to data from the Food Corporation of India (FCI). India's rice stocks in the central pool are down about 50% from around 27.21 million tons recorded on June 1, 2016. The current rice stocks are about one million tons more than the required strategic reserve norms of around 1.25 million tons for this time of the year, according to the FCI.

Preliminary reports of crop coverage in the Kharif season have started coming in. The total sown area as on 22nd July, as per reports received from States, stands at 692.98 lakh hectare compared to 671.01 lakh hectare at the corresponding time last year. It is reported that rice has been sown/transplanted in 183.06 lakh ha which is 0.36% higher than last year area of 182.39 lakh hectare till date.

Till July 22, mainly lower area coverage under rice, compared to normal area coverage of corresponding week (average of 2011-12 to 2015-16), was reported from U.P 37.02 lakh hectare down by around 1.80% from same period corresponding year followed by Punjab (28.71 lakh Ha,) Odisha (14.84 lakh Ha,) Haryana (8.77 lakh Ha,) and Bihar (11.69 lakh Ha,).

Wholesale Prices for India as an average for third week of July traded weak by - 6.35% from last week. Prices are currently hovering at Rs.2700-2720/quintal and 0.62% up from price of Rs.2735.72/Quintal during corresponding period last year. Agriwatch expects non-basmati rice market to move range bound with firm tone in coming week. Prices of Basmati rice remained stable for the third week of July on sluggish demand from retailers against supply from producing regions.

Total non-basmati Rice export in the 02nd week of July was 151219.83 tons. Gangavaram Sea, Kolkata Sea and Kakinada Sea were the major ports for non-basmati rice export during this period. These five ports cover approx 76% of total export in this period. Total basmati Rice export in the 02nd week of July was 83772 tons. Mundra Sea, Kandla Sea and Loni ICD were the major port for basmati rice export center during this period. These three ports cover more than 90% of total export in this period.

Among the food grains, the inflation for Cereals has increased to 6.32% from the previous month's level of 4.60%, Rice to 3.37% from the previous month's level of 2.22% and Wheat 6.83% from the previous month's level of 3.85%. The inflation for Pulses has decreased to 26.61% from the previous month's level of 35.56%.

Indian FOB for 1121 steam in the month of June moved up from last month and currently is in the range of USD 895.897/MT which is up by around 1.02% from last

month price. Average basmati rice price increased due to increase buying interest for stockpiling which push the price in northward direction. Pakistani basmati price has too up from USD 750/MT to 825\$/MT, according to the UN's Food and Agriculture Organization (FAO). Currently Pakistani basmati FOB is hovering in the range of USD 825-826/MT which is up by 10.00% from last month FOB of USD 750/MT.

India's rice stocks in the central pool as on June 1, 2016 stood at around 27.21 million tons up by about 8% from around 25.72 million tons recorded during the corresponding period last year, according to data from the Food Corporation of India (FCI). India's rice stocks in the central pool are up about 27.62% from around 21.32 million tons recorded on April 1, 2016. The current rice stocks are about one million tons more than the required strategic reserve norms of around 1.25 million tons for this time of the year, according to the FCI.

Price Outlook:-Average Rice price in all India is likely to trade steady with firm tone due to normal demand and tight supply.

International Market Highlight:

Unofficial preliminary rice exports (excluding premium white and fragrant rice) for July 4-10, 2016 totaled 39,776 metric tons, down 18,156 metric tons from the previous week and down 19,120 metric tons from the four-week moving average of 58,896 metric tons . Rice exports from January 1 – July 10, 2016 totaled 1,870,118 metric tons, down 8 percent from the same period last year.

Increased purchase orders for Thai par-boiled rice from Africa coupled with substantial drop in second-crop rice production as a result of prolonged drought have driven the price of paddy in the domestic market to surpass 10,000 baht per tonne – the highest price recorded in three years. Price of 5% paddy with 15% moisture was quoted at local rice market at 10,500 baht per tonne compared to 8,500 baht in early July – an increase of about 2,000 baht which is the highest in three years. African countries had placed orders for the purchase of Thai par-boiled rice which results driving up the paddy of new crop required to turn into par-boiled rice. The price of par-boiled rice itself has increased to 15,500-15,800 baht /T as export price was quoted at US\$395/tonne. It is expected that about 650,000 tonnes/month of rice would be exported during July-September period and would then increased to about 800,000 tonnes per month during the fourth quarter of the year. For the whole year, between 9.2-9.3 million tonnes of Thai rice are expected to be exported.

Vietnam's rice export is estimated to drop to 5.65 million tonnes in 2016, down 14 percent against the previous year and 800,000 tonnes lower than initial forecast.

According to the Vietnam Food Association (VFA), this is the first time since 2009 Vietnam's rice export may fall below 6 million tonnes. At present, Vietnam's big rice importers like the Philippines and Indonesia are showing no intention of buying more rice. Meanwhile, the purchasing power of China, which accounts for nearly 35 percent of Vietnam's export volume, is declining. VFA statistics showed that Vietnam shipped abroad 2.65 million tonnes of rice in the first half of this year, earning 1.14 billion USD. China remained Vietnam's largest rice importer, accounting for 35 percent of the market share, followed by Africa and Indonesia. As of late 2016, there are about 1.27 million tonnes of rice in stock. However, the rice output of the summer-autumn crop is predicted to decrease due to long-lasting drought and saline intrusion.

Cambodia exported 268,190 tons of milled rice in the first half of 2016, down 5.8 percent from the 283,825 tons in the same period last year. The Southeast Asian country has exported its milled rice to 57 countries and regions around the world. Three top buyers are China, France and Poland, adding that China imported some 47,024 tons of milled rice from Cambodia during the January-June period this year, France imported 37,463 tons and Poland purchased 36,164 tons. Cambodia produced over 9 million tons of paddy rice a year. With this amount, country has over 3 million tons of milled rice left over for annual export.

The Thailand Commerce Ministry has set a target to sell the remaining 10 million tonnes of rice bought under the Yingluck government's rice pledging scheme within this year. The remaining rice stockpiles are divided into three lots: over six million tonnes of PAA-grade or good quality rice; about two million tonnes of Grade C rice which are not suitable for human consumption; and about two million tonnes of rotten rice which are good for industrial use such as for producing ethanol. As said by Commerce Ministry they would try to sell the 10 million tonnes of rice through every channel, including open auctions, G-to-G deals, direct sale to domestic and overseas customers and even donations.
