

Domestic Market Highlights:

Thailand rice exports totaled over 4.99 million tons during the January-June 2016, higher than India at 4.76 million tons and Vietnam at 2.66 million tons. Overall Thai rice exports should reach 9.5 million tons by the end of this year, worth about US\$4.4 billion, retaining the country's status as the world's top rice exporter.

Indian FOB for 1121 steam in the month of July moved up from last month and currently is in the range of USD 909-910/MT which is up by around 1.24% from last month price. Average basmati rice price increased due to increased buying interest for stockpiling which push the price in northward direction. Pakistani basmati price has also moved up from USD 825/MT to 907\$/MT, according to the UN's Food and Agriculture Organization (FAO). Currently Pakistani basmati FOB is hovering in the range of USD 907-908/MT which is up by 9.93% from last month FOB of USD 750/MT.

As per by Punjab Rice Millers and Export Association, basmati crop in Punjab will go down by 25-30 per cent this season. Punjab is expecting basmati area of about 5 lakh hectares in current Kharif season, which is about 35 per cent lower than what the state saw acreage in last sowing season. Area under Basmati in Punjab stood at 7.63 lakh hectares and 8.62 lakh hectares in 2015-16 and 2014-15, respectively. Punjab's major basmati growing areas including Amritsar, Gurdaspur have seen sharp dip in sowing of basmati paddy this year. Out of the 1.73 lakh hectares of total paddy last year in Gurdaspur district, 60 per cent of area was under basmati. But this year, area under basmati has shrunk to 30 per cent of total sowing area and rest is with other varieties. In Amritsar, area under basmati went down by 25,000 hectares out of total area of 1.80 lakh hectares.

Procurement target for paddy in terms of rice for Kharif Crop during Kharif Marketing Season (KMS) 2016-17 has been finalized as 330 lakh tonnes against target of 300 lakh tonnes of last year i.e. KMS 2015-16. In KMS 2015-16 actual procurement of rice (Kharif crop) was 309.28 LMT. Highest target is set for Punjab(94.5 lakhtons) followed by Chhattisgarh(35.00) lakh Tons) and U.P(33.50 LT).

Wholesale Prices for India as an average for fourth week of July traded firmed by 2.03% from last week. Prices are currently hovering at Rs.2860-2865/quintal and 8.9% up from price of Rs.2628/Quintal during corresponding period last year. Agriwatch expects non-basmati rice market to move range bound with firm tone in coming week.

The total Kharif crops sown area as on 29th July, 2016 as per reports received from States, stands at 799.51 lakh hectare as compared to 752.29 lakh hectare at this time last year. It is reported that rice has been sown/transplanted in 231.92 lakh ha which is up by 2.76% from last year area of 225.68 lakh hectae till date.

Total Rice exported from India in the third week of July (18-24 July) was 184519.63 tons out of which basmati rice contribute 37.91%, and non-basmati rice is 62.08% in this period with quantity of around 69954.19 tons and 114565.44 tons respectively as per latest data extract from IBIS. Major importers of Indian Basmati rice in this period were Saudi, Kuwait and UAE. We expect Middle East countries to remain the major basmati buyers of Indian Basmati from Mundra and Kakinada Port in coming months. Major non basmati importers were Guinea, Benin and Turkey. Weekly rice export were down by around 21% from last week export of 234991.84 tons

India's rice stocks in the central pool as on July 1, 2016 stood at around 13.62 million tons down by about 44% from around 24.52 million tons recorded during the corresponding period last year, according to data from the Food Corporation of India (FCI). India's rice stocks in the central pool are down about 50% from around 27.21 million tons recorded on June1, 2016. The current rice stocks are about one million tons more than the required strategic reserve norms of around 1.25million tons for this time of the year, according to the FCI.

Price Outlook:-Average Rice price in all India is likely to trade steady with firm tone due to normal demand and tight supply.

International Market Highlight:

Unofficial preliminary rice exports (excluding premium white and fragrant rice) for July 4-10, 2016 totaled 39,776 metric tons, down 18,156 metric tons from the previous week and down 19,120 metric tons from the four-week moving average of 58,896 metric tons. Rice exports from January 1 – July 10, 2016 totaled 1,870,118 metric tons, down 8 percent from the same period last year.

Increased purchase orders for Thai par-boiled rice from Africa coupled with substantial drop in second-crop rice production as a result of prolonged drought have driven the price of paddy in the domestic market to surpass 10,000 baht per tonne – the highest price recorded in three years. Price of 5% paddy with 15% moisture was quoted at local rice market at 10,500 baht per tonne compared to 8,500 baht in early July – an increase of about 2,000 baht which is the highest in three years. African countries had placed orders for the purchase of Thai par-boiled rice which results driving up the paddy of new crop required to turn into par-boiled rice. The price of par-boiled rice itself has increased to 15,500-15,800 baht /T as export price was quoted at US\$395/tonne. It is expected that about 650,000 tonnes/month of rice would be exported during July-September period and would then increased to about 800,000 tonnes per month during the fourth quarter of the year. For the whole year, between 9.2-9.3 million tonnes of Thai rice are expected to be exported.

Vietnam's rice export is estimated to drop to 5.65 million tonnes in 2016, down 14 percent against the previous year and 800,000 tonnes lower than initial forecast. According to the Vietnam Food Association (VFA), this is the first time since 2009 Vietnam's rice export may fall below 6 million tonnes. At present, Vietnam's big rice importers like the Philippines and Indonesia are showing no intention of buying more rice. Meanwhile, the purchasing power of China, which accounts for nearly 35 percent of Vietnam's export volume, is declining. VFA statistics showed that Vietnam shipped abroad 2.65 million tonnes of rice in the first half of this year, earning 1.14 billion USD. China remained Vietnam's largest rice importer, accounting for 35 percent of the market share, followed by Africa and Indonesia. As of late 2016, there are about 1.27 million tonnes of rice in stock. However, the rice output of the summer-autumn crop is predicted to decrease due to long-lasting drought and saline intrusion.

Cambodia exported 268,190 tons of milled rice in the first half of 2016, down 5.8 percent from the 283,825 tons in the same period last year. The Southeast Asian country has exported its milled rice to 57 countries and regions around the world. Three top buyers are China, France and Poland, adding that China imported some 47,024 tons of milled rice from Cambodia during the January-June period this year, France imported 37,463 tons and Poland purchased 36,164 tons. Cambodia produced over 9 million tons of paddy rice a year. With this amount, country has over 3 million tons of milled rice left over for annual export.

The Thailand Commerce Ministry has set a target to sell the remaining 10 million tonnes of rice bought under the Yingluck government's rice pledging scheme within this year. The remaining rice stockpiles are divided into three lots: over six million tonnes of PAA-grade or good quality rice; about two million tonnes of Grade C rice which are not suitable for human consumption; and about two million tonnes of rotten rice which are good for industrial use such as for producing ethanol. As said by Commerce Ministry they would try to sell the 10 million tonnes of rice through every channel, including open auctions, G-to-G deals, direct sale to domestic and overseas customers and even donations.
